# ***Virtual Private Network***

# *Virtual Private Network*

The Goal:

Provide access to your campus computer network at any off-site location when VPN is installed on your laptop.

(eStudio in Queens or DaSilva Academic Computing Lab in Staten Island installs VPN)

## *VPN – Internet Connection*

- Connect to the Internet, then connect to VPN
- Connection types:
  - DSL/Broadband
  - Dial-up – Rednet, AOL, other
- Disconnect before you shut down your laptop

# VPN Features

- Off-campus access:
  - H: drive
  - Shared Folders
  - Outlook Email Client and all email folders
  - SJU Intranet
    - Visit CTE website, see workshop descriptions and self-enroll at:  
<http://intranet.stjohns.edu/cte>
  - Use additional software installed by Information Technology when off-campus with VPN.

## ***More Information***
