

Password Security

Create passwords that you can remember and that are difficult for others to guess.

Length should be, at least, 6 characters long.

Include UPPERCASE and lowercase letters, numbers, and symbols (ex. #,\$,<).

Have at least 4 unique characters in your password.

Should seem to be a random sequence of letters and numbers.

Do not include any part of your username.

Is not an actual word or name in any language.

Do not include a number that resembles a letter.

Do not reuse any portion of your previous passwords.

Do not use consecutive letters or numbers like "abcdef" or "123456".

Do not use adjacent keys on the keyboard like "qwerty".
