

# Adjusting the Volume Control

To open Volume Control on your laptop or computer, click Start, point to All Programs, point to Accessories, point to Entertainment, and then click Volume Control.

Volume control can also be accessed by clicking on the speaker icon in the system tray (at the far right of the Windows taskbar).

To adjust the playback volume, drag the Volume Control slider up to increase the volume, or down to decrease the volume.

To disable sound under Volume Control, select the Mute all check box, which places a check in the box.

To enable sound under Volume Control, clear the Mute all check box.
