REPORT OF
2013 GRADUATING STUDENT SURVEY (GSS)
For St. John’s College of Liberal Arts and Sciences

I. INTRODUCTION

In an effort to obtain outcomes and contact information from as many of our graduating students as possible, in Spring 2009 a brief 15-item Graduating Student Survey (GSS) was developed by the Office of Institutional Research with input from St. John’s community. It was incorporated into the BANNER online process used by students - excluding School of Law - to register for participation in commencement exercises. The survey has been revised several times, and now it has 23 items, but the same procedure has been followed since 2009.

In 2013, 428 undergraduates (61% of graduating student population) and 96 graduate students (27%) from St. John’s College (SJC) participated in the GSS survey. The survey participants were quite representative of the graduating student population in student gender and ethnicity.

This report, prepared by the Office of Institutional Research, presents the GSS 2013 survey results for St. John's College. The report provides highlights of the survey results first, followed by more detailed findings. Table 1 in the appendix to this report provides trend data for individual survey items for SJC undergraduate and graduate students, and Table 2 presents the 2013 data by college.

The GSS 2013 reports for St. John’s University and by college are available online at: http://www.stjohns.edu/about/ir/surveys

II. HIGHLIGHTS

For SJC students, the undergraduate overall satisfaction remained high in 2013: 92% of them were satisfied / very satisfied with their overall St. John’s experience, while the percentage dropped for graduate students from 94% in 2012 to 86% in 2013.

Student ratings on the quality of instruction fluctuated down for both undergraduate and graduate students: 81% of undergraduates rated it as good / excellent in 2012 and it dropped to 76% in 2013; for graduate students it went down from 93% to 86%.

When asked to what extent St. John’s core courses added value to their undergraduate education, 89% of undergraduates and 100% of graduate students indicated to a large/some extent in 2013. The graduate students who responded to the
survey include students who received their undergraduate education from St. John’s, and those in the combined programs (bachelor’s and master’s, etc.). This is a new question added in GSS 2013 for an indirect assessment of the core curriculum.

Student ratings on tuition paid as a worthwhile investment fluctuated down: in 2012, 69% of undergraduates agreed / strongly agreed that tuition paid was a worthwhile investment, and it dropped to 60% in 2013; for graduate students, it decreased slightly from 75% to 73%.

Student perceptions on the impact of the Catholic and Vincentian Mission remained similar for undergraduates: in 2012, 75% of them perceived that it had a positive / very positive impact on their experience at St. John's as compared to 73% in 2013. For graduate students, the percentage dropped from 65% in 2012 to 42% in 2013.

When asked whether they were satisfied with the University’s support of internship programs, 78% of undergraduates were satisfied / very satisfied in 2012, and it dropped to 70% in 2013. For graduate students, the percentage decreased from 94% to 88%.

For Class 2013, 44% of undergraduates and 55% of graduate students had internships (including student teaching and clinical rotation).

When asked about their plans after graduation, 25% of undergraduates indicated that they would keep their current jobs or had accepted a job offer, and 46% of them planned to further their education. The corresponding figures for graduate students were 40% and 14%.

When asked how well St. John’s did at providing course work and academic experiences that prepared students for their career and job placement, 62% of undergraduates and 79% of graduate students rated it as good / excellent.

When asked how well St. John’s provided a global experience through studying abroad, in the classroom, or student activities, 31% of undergraduates and 62% of graduate students indicated that they had no exposure to global experience. For the students who had such experience, 76% of undergraduates and 70% of graduate students rated it as good / excellent.

When asked how well St. John’s integrated technology into the learning experience, 78% of undergraduates and 76% of graduate students rated it as good / excellent.

Regarding the quality of academic advising, 53% of undergraduates and 68% of graduate students rated it as good / excellent.

When asked to what extent their experience at St. John’s allowed for the development of a faith dimension in their life, 67% of undergraduates and 38% of graduate students indicated “to some or a great extent.”
III. DETAILED SURVEY RESULTS

This section covers detailed survey results. It consists of five parts: 1) Student overall perceptions, 2) Internships, job status, and further education for undergraduates, 3) Internships, job status, and further education for graduate students, 4) Global experience, technology, and academic advising, and 5) St. John’s Catholic and Vincentian Mission, services, activities, and alumni relations.

1. Student Overall Perceptions

As revealed in the following table, the undergraduate overall satisfaction remained high in 2013: 92% of them were satisfied / very satisfied with their overall St. John’s experience, while the percentage dropped for graduate students from 94% in 2012 to 86% in 2013 (Question 20, Table 1 in the appendix). (Please note that the combined satisfied / very satisfied percentage is the sum of the two percentages for satisfied and very satisfied. Therefore, the combined percentage may be one point higher or lower than the sum of the two due to decimal rounding.)

Student ratings on the quality of instruction fluctuated down for both undergraduate and graduate students: 81% of undergraduates rated it as good / excellent in 2012 and it dropped to 76% in 2013; for graduate students it went down from 93% to 86%. (Q11)

When asked to what extent St. John’s core courses added value to their undergraduate education, 89% of undergraduates and 100% of graduate students indicated to a large/some extent in 2013. The graduate students who responded to the survey include students who received their undergraduate education from St. John’s, and those in the combined programs (bachelor’s and master’s, etc.). This is a new question added in GSS 2013 for an indirect assessment of the core curriculum. (Q12)

Student ratings on tuition paid as a worthwhile investment also fluctuated down: in 2012, 69% of undergraduates agreed / strongly agreed that tuition paid was a worthwhile investment, and it dropped to 60% in 2013; for graduate students, it decreased slightly from 75% to 73%. (Q14)

Student perceptions on the impact of the Catholic and Vincentian Mission remained similar for undergraduates: in 2012, 75% of them perceived that it had a positive / very positive impact on their experience at St. John’s as compared to 73% in 2013. For graduate students, the percentage dropped from 65% in 2012 to 42% in 2013. (Q17)

When asked whether they were satisfied with the University's support of internship programs, 78% of undergraduates were satisfied / very satisfied in 2012, and it dropped to 70% in 2013. For graduate students, the percentage decreased from 94% to 88%. (Q8)

Table 1 in the Appendix provides the GSS 2009 to 2013 trend data for each survey item. The following results mainly concentrate on the 2013 data.

2. Undergraduate Students: Internships, Job Status, and Further Education

The GSS 2013 data indicate that 59% of SJC undergraduates were planning to pursue further studies in Fall 2013 or Spring 2014: 4% planned to pursue a bachelor’s degree, 36% for master’s, 5% for doctorate, and 14% for professional (MD, JD, etc.). (Question 1, Table 1).

When asked about their employment plans, as Figure 1 reveals, 17% indicated that they would keep their current jobs, 8% had accepted a job offer,
28% were still looking, 46% were planning to further their education, and the remaining 1% had no plan. (Q3, Table 1).

When asked how well St. John’s did at providing course work and academic experiences that prepared students for their career and job placement, 21% of undergraduates rated it as excellent, 41% good, 28% fair, and 10% poor. (Q9, Table 1).

When asked how well the University Career Services did at providing them with career preparation for job placement, 10% of undergraduates rated it as excellent, 37% good, 30% fair, and 22% poor. (Q10, Table 1).

The data indicate that 44% of undergraduates had internships. Regarding the type of internships that students completed, 21% had academic internships for credit, 10% experienced paid internships, 19% had unpaid internships (non-credit), 1% completed student teaching, and 2% took clinical rotations (This is a check-all-that-apply question. The total percentage may add up to more than 44%). (Q6, Table 1)

For the remaining 56% of undergraduates who didn’t have any internship, 19% wanted to participate but were unable to secure one, 4% were not eligible, 20% were not interested, and 13% indicated that they couldn’t afford to take one. (Q5, Table 1)

For undergraduates who had internships, 16% of them found an internship through the University Career Services, 25% through an academic department, 68% on their own, and 11% through other channels (This is a check-all-that-apply question. The total percentage may add up to more than 100%). (Q7, Table 1)

When asked to rate their satisfaction with the University’s support of internship programs, 22% of undergraduates were very satisfied, 48% satisfied, 22% dissatisfied, and 8% very dissatisfied. (Q8, Table 1)

3. Graduate Students: Internships, Job Status, and Further Education

The GSS 2013 data reveal that 13% of SJC graduate students were planning to pursue further studies in Fall 2013 or Spring 2014: 2% for master’s, 9% for doctorate, and 2% for professional (MD, JD, etc.). (Q1, Table 1).

When asked about their employment plans, as Figure 2 presents, 30% indicated that they would keep their current jobs, 10%
had accepted an offer, 46% were still looking, 14% were planning to further their education, and 0% had no plan. (Q3, Table 1).

When asked how well St. John’s did at providing course work and academic experiences that prepared students for their career and job placement, 27% of graduate students rated it as excellent, 52% good, 15% fair, and 6% poor. (Q9, Table 1).

When asked how well the University Career Services did at providing them with career preparation for job placement, 11% of them rated it as excellent, 38% good, 24% fair, and 27% poor. (Q10, Table 1).

The data indicate that 55% of graduate students had internships. Regarding the type of internships that students completed, 37% had academic internships for credit, 19% experienced paid internships, 5% had unpaid internships (non-credit), 11% participated in student teaching, and 15% took clinical rotations (This is a check-all-that-apply question. The total percentage may add up to more than 55%). (Q6, Table 1)

For the remaining 45% of graduate students who didn’t have any internship, 10% were unable to secure an internship, 10% were not eligible, 14% were not interested, and 12% indicated that they couldn’t afford to take one. (Q5, Table 1)

For graduate students who had internships, 3% of them found an internship through the University Career Services, 72% through an academic department, 62% on their own, and 3% through other channels (This is a check-all-that-apply question. The total percentage may add up to more than 100%). (Q7, Table 1)

When asked to rate their satisfaction with the University’s support of internship programs, 27% of graduate students were very satisfied, 61% satisfied, 6% dissatisfied, and 6% very dissatisfied. (Q8, Table 1)

4. Global Experience, Technology, and Academic Advising

When asked how well St. John’s provided a global experience through studying abroad, in the classroom, or student activities, 31% of undergraduates and 62% of graduate students indicated that they had no exposure to global experience. For the students who had such experience, 45% of undergraduates rated it as excellent, 31% good, 20% fair, and 4% poor. The corresponding figures for graduate students were 35%, 35%, 23%, and 8%. (Q.15, Table 1)

When asked how well St. John’s University integrated technology into the learning experience, 29% of undergraduates rated it as excellent, 49% good, 18% fair, and 5%
poor. The corresponding figures for graduate students were 16%, 60%, 22%, and 1%. (Q.16, Table 1)

Regarding the quality of academic advising, 21% of undergraduates rated it as excellent, 32% good, 28% fair, and 19% poor. The corresponding figures for graduate students were 22%, 46%, 25%, and 8%. (Q.13, Table 1)

5. St. John’s Catholic and Vincentian Mission, Service, Activities, and Alumni Relations

When asked how St. John’s Catholic and Vincentian Mission impacted their experience at St. John’s, 25% of undergraduates rated it as very positively, 48% positively, 23% no impact, 2% negatively, and 1% very negatively. The corresponding figures for graduate students were 8%, 34%, 55%, 3%, and 0%. (Q.17, Table 1)

When asked to what extent their experience at St. John’s allowed for the development of a faith dimension in their life, 26% of undergraduates indicated “to a great extent”, 41% “to some extent”, and 33% “not at all”. The corresponding figures for graduate students were 14%, 24%, and 62%. (Q.18, Table 1)

When asked to identify the student clubs, organizations and societies with which they were affiliated during their years at St. John’s, 81% of undergraduates and 39% of graduate students indicated that they were affiliated with one or more clubs, organizations, or societies. For undergraduate students, 27% of them belonged to Special Interests category, 40% the Academic category, 26% Cultural, 44% Honor societies, and 26% other. For graduate students, 5% belonged to Special Interests, 14% the Academic category, 16% Honor societies, 5% Cultural, and 9% other (This is a check-all-that-apply question. The total percentage may add up to more than 100%). (Q19, Table 1)

When asked whether they wanted to be involved in service after graduation, 33% of undergraduates said YES and 67% indicated NO. For graduate students, 11% said YES and 89% indicated NO. (Q.23, Table 1)

When asked whether they would like to be contacted for certain activities in the future, 20% of undergraduates indicated YES for alumni relations events, 10% for mentoring roles with students, 2% for recruitment events with the Office of Admissions, 4% for leadership roles in organizing alumni functions, and 45% for assistance with career decisions and job search. The corresponding figures for graduate students were 15%, 8%, 2%, 2%, and 31% (This is a check-all-that-apply question. The total percentage may add up to more than 100%). (Q.22, Table 1).

The results of this GSS survey are the perceptions of STJ students who have successfully completed their programs at St. John’s. The data are very useful, and can be used with other data for action plans to improve student engagement and experience. Please share any initiatives you develop to respond to these results, with Dr. Yuxiang Liu,
Director of Institutional Assessment in the Office of Institutional Research at LiuY@stjohns.edu.

This is the fifth administration of the GSS survey. We will continue to administer it annually along with other student surveys in order to develop a more comprehensive picture of our students, make continuous improvement in student learning, and ensure success for all.
