Programs of Study
The College of Professional Studies, the largest college of the University, fulfills the mission and goals of St. John’s by offering specialized professional programs on both campuses, as well as distance learning programs. Students may choose either a four-year [baccalaureate] degree, a two-year [associate] degree, or a concentrated certificate course of study. The College also offers an associate degree in liberal arts, a baccalaureate degree in liberal studies and combined undergraduate/graduate programs.

Objectives
The mission of the College of Professional Studies is to offer students an education that prepares individuals to make significant contributions to society, to the local community and to their chosen professions. The mission is accomplished by providing an education which is value-oriented and consistent with the historical relationship of St. John’s University to the Catholic community. An enriched intellectual and academic environment is provided where the value and dignity of the human person is understood and respected. The specific objectives of the College of Professional Studies include:
- To provide a variety of degree programs, including associate and baccalaureate degrees and certificate programs. With these options, students can enter programs appropriate to their personal and professional goals and abilities and have available to them wide choices that allow both flexibility and advancement in their education.
- To provide excellence in education through a faculty especially committed to a high quality of teaching, to the development of innovative programs, and to research and professional activities which enhance their contribution in the classroom.
  - To provide effective support services to enhance the achievement levels of students in degree programs so that they can be successful in their career goals and in their further education.
  - To emphasize academic advisement aimed at helping students to select programs of study in line with their personal and professional goals and abilities.
  - To provide students with numerous internship opportunities and with the possibility of significant contacts with professionals in the various fields.
  - To make it possible for students to enter University life and to have access to all the University’s facilities as well as an education provided by a high-caliber faculty.
  - To provide all these programs and services within the context of an environment that is especially supportive of a wide diversity of students.

Student Support
College of Professional Studies students receive an extensive array of support services. The faculty emphasize the pursuit of teaching excellence and are available to meet with students in order to further class discussions, provide individual instruction and create a caring student-faculty relationship.

Faculty and Deans advise all students in the planning of their academic programs, paying special attention to student needs and career development. Tutoring is also available. Numerous internships with prestigious firms and institutions in the metropolitan area provide the professional field experience which supplements classroom instruction and can lead to future employment. Co-curricular and extra-curricular clubs provide not only a social environment, but one that is closely linked to the academic, making learning a lively, involving activity. For example, The Mock Trial Team has won national acclaim in recent competitions.

Professional societies, career nights and extensive alumni networking all bridge the gap between college life and future careers. As an integral part of the College of Professional Studies, the instructional Television and Radio Center, computer editing and video labs and WSJU, the University radio station, all provide a professional environment for students to hone their skills and enhance their college degree.

Certificate Programs
Certificate programs are offered to meet the needs of mature students who are interested in advancing their knowledge and enhancing their abilities in new areas to meet their professional goals and interests. Such programs are for three groups of individuals, namely: holders of bachelor’s degrees who are interested in developing competencies in an additional or complementary field of learning; individuals with no prior collegiate experience who wish to explore a particular field of study and who are unable to pursue a degree program at the present time; individuals who are presently enrolled in a degree program in an unrelated field who wish to broaden their educational experiences but who do not desire to pursue an additional major field of study. Students must complete certificate program courses with a minimum cumulative index of 2.0. The following programs are available:

Business Administration—requires the successful completion of 21 credits including ACC 1007, 1008; BLW 1001; ECO 1001, 1002; MGT 1000 and three credits chosen from BLW 1005; CUS 1102; MGT 1001, 1003 and MKT 1001. Individuals who do not intend to pursue an undergraduate degree in business may substitute an additional business elective from those courses listed above. (Q, SI)

Computer Science—requires the successful completion of 18 credits including CUS 1115, 1116, 1126, 1156, and six credits from CUS 1162, 1163, 1165, 1166. (Q)

Cyber Security Systems—requires the successful completion of 18 credits including CUS 1115, 1116; NET 1001; CSS 1005, 1011, 1012.

Criminal Justice—requires the successful completion of CRJ 2000, 2001 and 12 credits chosen from CRJ 2002, 2004, 3000, 3003, 3100, 3101, 3105, 3106, 3107, 3116, 4000. (Q, SI)

Health Services Administration—requires the successful completion of the following 18 credits including HSA 1100, 1101, 1002, 1005, 1011, 1012. Substitutions may be made where appropriate to student’s objectives. (Q)

Homeland and Corporate Security—requires the successful completion of 18 credits including HSC 1001, 1003, 1004, 1007 and 6 additional credits chosen from HSC 1002, 1006, 1009, 1010, 1012, 1013, 1014, 1015, 1017, CRJ 3101, 3107, 3108, 3112, 3116, CSS 1001, CUS 1106. (Q, SI)

Microcomputer Systems—requires the successful completion of 18 credits including CUS 1103, 1104, 1115, 1116, NET 1001, and three credits from chosen from CUS 1124, 1147, 1165, 1172. (Q)

International Criminal Justice—requires the successful completion of 18 credits including CRJ 2000, 3108, 4106, 5005; six credits from the following courses: CRJ 2001, 3106, 3107, 5202. (Q, SI)

Legal Studies—requires the successful completion of 21 credits including LES 1100, 1101, 1102, 1015: CUS 1107; CRJ 3112 and any three credits from the Legal Specialty courses. Students must have successfully completed 60 undergraduate credits to be accepted to the LES Certificate Program. Approved by the American Bar Association. (Q, SI)
Admissions
Prospective students seeking admission to a certificate program must meet the regular entrance requirements for the College of Professional Studies. Admission of new students is dependent upon all past educational experiences and other significant activities. For admission to the certificate program in legal studies, applicants must have completed a minimum of 60 college credits in liberal arts/ sciences. For admissions to the certificate in Sport Management, individuals must have completed a bachelor’s degree in an unrelated field.

Students who are currently matriculated for a degree must be in good academic standing to qualify for admission into a certificate program.

Matriculated students may not pursue a certificate program in their major field of study. For further information, please contact the College of Professional Studies Office.

Transfer Credit for Certificates
A maximum of six credits attained prior to enrollment in a certificate program may be used in fulfillment of the requirements for the certificate. All courses completed in a certificate program may be used toward the partial fulfillment of requirements for a bachelor’s or associate’s degree, where applicable.

Awarding of Certificates
Following the same schedule of degree conferrals, certificates are awarded in September, January and May to candidates who have successfully completed all course requirements with a minimum grade point index of 2.0.

These programs permit qualified students to earn both a bachelor’s and a master’s degree in an integrated program within a shortened time frame. Instead of the usual five-and-a-half to six years required to obtain the two degrees, it is possible to earn them in just five years.

Each program is designed to enable students to complete the University and departmental requirements of 126 credits for the bachelor’s degree in four years. By completing 126 credits in the first four years, including at least 12 graduate credits, the student is assured of completing the bachelor’s degree if for any reason he/she decides not to continue for the fifth year. The student can opt to earn the master’s degree according to a normal schedule, either after the fourth year or at a later period.

Applicants to any of these programs must have completed the sophomore year, with at least a 3.0 cumulative index and a 3.5 index in at least 12 major credits. Incoming freshmen may apply for provisional admission to one of the bachelor’s/master’s programs. Transfer students may apply at the time of enrollment.

For additional information, contact the College of Professional Studies Dean’s Office.

B.S./J.D.
This program permits qualified students to earn both a bachelor’s and a law (jurs doctor) degree in an integrated program within a shortened time frame of six years of full-time study.

The program is designed to enable a student pursuing specific bachelor’s degree offered by the College, to apply the 27 credits earned in the first year of law school as the final 27 credits of his or her bachelor’s program. These 27 credits may only be applied to a bachelor’s program in the manner specified by the University, and it is required for a student to apply to participate after successful completion of 60 academic credits.

The specific undergraduate majors in the program are communication arts, computer science, criminal justice, homeland and corporate security, journalism, legal studies and sport management.

Applicants to this program must have at least a 3.5 cumulative quality point index at the time of completing their 60 academic credits. If accepted into the program by the College of Professional Studies, the student must then take the Law School Admission Test (LSAT) and achieve an acceptable score, after which the student must make application to St. John’s University School of Law and be accepted. This combined degree program is run in conjunction with St. John’s University School of Law only and with no other law school. Students must meet with the designated pre-law advisor to apply.

Evening and Weekend College Programs

Queens Campus
St. John’s University, recognizing the special needs and commitments of working adults, offers a wide selection of degree programs during evening and weekend hours and online for students who have only certain hours available each week to pursue their education. Classes are arranged for working students’ convenience.

The Bachelor of Arts and the Bachelor of Science degrees and the Associate in Arts and the Associate in Science degrees are offered in the evening and weekend schedules in most major areas. Please see the description under each major for the sessions in which the major is offered.

A bachelor’s degree requires completion of 126–129 credits. These credits provide a broad liberal arts education and a specialized major concentration. An associate’s degree requires completion of 60 credits. These credits are the equivalent of approximately half the requirements for a bachelor’s degree, and introductory knowledge of a major area is included. Associate degree recipients have all their credits transferred into the bachelor’s sequence if they continue study in the same field or in one that is closely related.

It is also possible to take classes leading to a certificate in the evening and on weekends. Please see the section on certificate programs to note the variety offered.
Special Assessment Program
The University understands that learning need not be confined to the classroom. A College of Professional Studies student may be awarded up to 24 academic credits for knowledge that is equivalent to that required in the degree course. Such knowledge may have come through work, in-service training programs, independent study, reading and research, travel, or other lifetime endeavors.

To qualify for special assessment academic credit, a candidate must be a mature person with a level of theoretical and practical knowledge appropriate to the program of study for the degree sought. The student should have completed a minimum of 12 semester hours of credit with a minimum GPA of 2.5 in course work offered by the University and must be a matriculated student in a degree program of College of Professional Studies. Students are required to complete one or a combination of the following methods of assessment: written examination (standardized tests), internal examination, portfolio and oral examinations. The granting of credit is based on faculty evaluation. Students wishing additional information should obtain the special assessment packet of at the College office.

Advanced Placement/CLEP
The College of Professional Studies awards credit to those students who earn a requisite score on AP/CLEP and other credit-by-test exams, providing the exams are appropriate to the degree program.

Credits awarded through Special Assessment, AP and CLEP do not affect the GPA.

Transfer Credit
External
The general University policy for students requesting transfer from other colleges or universities is stipulated in the Admission section of this bulletin. Students accepted by the College will receive an evaluation of their transfer record listing the courses applicable to their program of study at the College of Professional Studies. It is recommended that new transfer students meet with their advising dean before the third week of their first semester to review their final credit evaluation.

External transfer students are not required to complete DNY 1000C. Students should see the CPS Dean’s office to determine an alternate course to meet this credit requirement. External transfer students who have earned the associate’s degree outside of STJ are not required to take Phi 3000C, the philosophy ethics course, and the moral theology course. Students should see the CPS Dean’s office to determine alternative courses to meet these credit requirements.

Internal
The general University policy for students requesting transfer from other colleges within the University is stipulated in the Admissions section of this bulletin. It is recommended that new internal transfer students meet with their advising dean before registering for their first semester as a CPS student.

Internship Program
Internships are available to selected students enrolled in most of the Bachelor of Science degree programs of the College of Professional Studies. The internship is a supervised off-campus experience arranged by the Division Chairperson or Program Director to provide practical experience for selected students, in particular majors, who have completed the essential courses in the major area, including any prerequisite courses and who have achieved a qualifying cumulative GPA.

Student interns receive no salary. Since so many students consider the internship experience to be a valuable part of their undergraduate preparation, competition is keen. Additional requirements specific to individual majors can be found in the internship sections of the program descriptions.

Students are strongly urged to apply, in writing, for internship consideration to the appropriate program director or chair during the registration period for the semester in which they would like to intern. Students may not carry internship coursework as part of an excess credit load. Further information is available at the office of the respective chair or program director. Student internships may begin in the fall, spring, or in some programs, summer. Registration for internships is completed at these times.

Internship Registration
After approval by the program director, students must register for an internship in the Office of the Dean. Failure to do so will invalidate academic credit for the internship.

Double or Triple Majors
Students interested in completing a second or third major program of study must apply to the academic dean for permission to complete the second or third major. Specific requirements for each major are available in the respective Dean’s Office.

Co-Curricular Organizations
Co-curricular organizations and clubs are specifically designed to enhance the students’ experience and learning in a variety of fields. Clubs associated with College of Professional Studies programs include the following:

St. John’s University Television Club (WRED)
The St. John’s University Television Club prepares members for the competitive television/media industry. Interested students have the opportunity to learn and use state-of-the-art television equipment and to write, direct, produce, edit and/or act in video productions. Eligible members may register for academic credit while working under the guidance of the faculty moderator.

The Society for Performing and Communication Arts
The Communication Arts Film Society is a co-curricular unit of College of Professional Studies with membership open to all St. John’s University students. Members write, produce and shoot their own motion pictures; run a series of weekly film screenings and engage in a variety of motion picture related activities. Academic credit may be earned by members actively participating in the organization. For further information, contact the Chair of the Division of Mass Communications.

WSJU
WSJU is the student-run campus radio station. It is a co-curricular organization, offering both academic credit and practical broadcasting experience to those students interested in the field of radio.

Open to all St. John’s University students, WSJU is an official member of the National Association of College Broadcasters (NACB) and the Intercollegiate Broadcasting System (IBS).

Criminal Justice Association
The Criminal Justice Association is an academic and social organization whose membership is open to all St. John’s University students. The main objective is to bring students into contact with the structures and procedures of the criminal justice system. The association acts as an information center concerning career opportunities and job availability.

Hospitality Management Organization
The Hospitality Management Organization is an official representative body of all students in the hospitality management program. The association aims to initiate academic and social activities to enhance the linkage between academics and the current hospitality and tourism industry. The association coordinates various events such as the annual HMT Career Fair and HMT Networking Night. It also acts as an information center concerning career opportunities, internships, scholarships and other related activities. Membership requires attendance to such events and scheduled meetings, as well as active participation in service to the academic and social communities.
Legal Society
The Legal Society is a student organization that works to enhance the relationship of the Legal Studies Program and the legal profession by various student-organized activities such as guest speakers, field trips and publications. The association assists students in preparing for a career in the legal profession in the greater New York area.

Sport Management Association
The Sport Management Association is the official student organization for all undergraduate students majoring in sport management. The club coordinates events, activities, and site visits to prepare students for their careers in the sport industry. Sponsored events include an annual career night and several guest speakers throughout the academic year. The club also disseminates a wide range of relevant information such as internship opportunities and latest industry news.

Honors
The College of Professional Studies Honor Society
The College's Honor Society recognizes its baccalaureate students who, by their continued academic excellence and involvement in the life of their school, church or community have demonstrated that they are honor students. Students who apply for membership must have completed a minimum of 60 credits, and 30 of these credits must have been taken in the College of Professional Studies. The applicant must have a cumulative index of 3.5 for all previous course work as well as a 3.5 at St. John's University.

Alpha Phi Sigma—Alpha Epsilon Rho Chapter—Criminal Justice Honor Society
The College of Professional Studies chapter recognizes outstanding students majoring or minoring in criminal justice who have a 3.2 overall index for all previous coursework (including transfer credits) and a 3.2 index in criminal justice courses after completing at least 42 credits.

Lambda Epsilon Chi—National Legal Studies Honor Society
The College of Professional Studies chapter was established to recognize academic excellence in legal studies. Students must major in legal studies (either A.S. or B.S. degree candidates) and achieve an overall grade point index of at least 3.5 after completion of two-thirds of all course requirements for their degree.

Tau Epsilon Alpha—Human Services Honor Society
The purpose of Tau Upsilon Alpha National Organization for Human Services Honor Society is to honor academic excellence; to foster lifelong learning, leadership and development; and to promote excellence in service to humanity. These students exemplify the requisite qualities and are being inducted into this honor society because they have maintained an average of 3.2 or above, provided service to the community through volunteer work and internships.

Academic Awards and Distinctions
For awards and distinctions that require using grade point average to determine awards, all college work applies.

Gold, Silver and Bronze Certificates of Achievement, recognize students in each major who have attained the first, second and third highest cumulative indices in the graduating class.

The Bessie and Isidor Shapiro Memorial Award, sponsored by Professor Irving Shapiro, recognizes a member of the College of Professional Studies graduating class majoring in criminal justice or legal studies who has demonstrated character, scholarship and a strong work ethic.

The Craig Collins Award, named in honor of the former Director of Criminal Justice, recognizes a criminal justice major who has attained an exemplary grade point index and has demonstrated excellence in the field of criminal justice.

The Delmar Publishing Company Award, recognizes graduating legal studies majors who have demonstrated academic excellence.

The Francis Flynn Award for Excellence in Mathematics, named in honor of a former faculty member, recognizes a computer science major who has completed the greatest number of high level mathematics courses in the graduating class with the highest index.

The Franklin Camerano Award for Excellence in Healthcare, sponsored by Franklin Camerano, Associate Professor of Health Services Administration, recognizes an evening/weekend student in the health service program who has demonstrated academic excellence.

The Looseleaf Law Publications Award, is granted to students who have shown outstanding dedication and enthusiasm in attaining their criminal justice or legal studies degree.

The Marianne Noonan Award, named after a former student in the sport management program, recognizes academic performance and outstanding contributions to the program.

The Michelle Doherty Award, is given to a female student who is graduating with the highest major grade point average in the sport management program.

The National Law Enforcement Scholarship Award, recognizes graduating legal studies majors who have demonstrated academic excellence.

The Outstanding Journalism Graduate Award, recognizes a graduating journalism major who has contributed to the journalism profession both inside and outside the classroom and has achieved an exemplary grade point index.

P. Kevin Castel Award, is presented to the student most likely to succeed in the study of law.

The Panayiotis Papdopoulos Award, sponsored by Dr. Louis Gesualdi, recognizes a graduating senior who has demonstrated extraordinary humanitarian qualities.

The Vincentian Spirit Award, recognizes outstanding contributions of CPS students to their co-curricular life on campus.

The William Trunkes Memorial Scholarship Fund, was donated by Judge Thomas T. Trunkes, a graduate of St. John’s University and its School of Law, in honor of his uncle Willam A. Trunkes. The scholarship is awarded to a New York City police officer or his or her child who is pursuing a degree in criminal justice with a minimum GPA of 3.0 and who preferably lives in Brooklyn.

Academic Information
Academic Advisement Program
The Academic Advisement Program of the College provides each student with personal treatment and attention as he/she proceeds through a degree program. It is concerned with the choice of a program of study, course selection, academic standing and other related scholastic matters.

To achieve the objectives of the program, the student periodically consults with an advisor to develop an understanding of his or her program and the possibilities for further study and employment.

Each student must understand that the responsibility for arranging an appropriate program and for meeting all degree requirement rests with the student. Academic advisement is offered to assist students in meeting this responsibility.

Credit Load
The College of Professional Studies limits the program of any student enrolled on the basis of such considerations as achievement in high school or in previous college courses and the amount of time available for study, especially if the student is employed.

Matriculated students in an associate’s degree program or the conditional LST program who are not employed on a full-time basis may carry a maximum of 15 credits per semester.

www.stjohns.edu/bulletins 147
Matriculated students in a baccalaureate degree program who are not employed on a full-time basis may carry a maximum of 18 credits per semester.

Non-matriculated students who are not employed on a full-time basis may carry a maximum of 12 credits.

Students who are enrolled in an internship may not carry an excess credit load. An excess credit load includes anything over 20 credits.

College of Professional Studies Core Foreign Language or Cultural Studies Requirement

The University Distributive Core Requirements include as one of its core knowledge requirements the ability to describe cultural and linguistic perspectives in the contemporary world. Each of the undergraduate units of the university defines this requirement in a different way. In the College of Professional Studies this requirement is defined as six (6) credits in a foreign language or in cultural studies.

If the student decides to fulfill the requirement with studies in a foreign language the following options are allowed:

1. Two courses in one foreign language in which the student already has some background. If a student uses this option he or she will take the modern foreign language placement test offered in the language lab located in St. Augustine Hall and then follow the placement recommendations based on that test result.

2. Two courses in one foreign language in which he or she has no previous background. The university offers courses in a wide variety of languages including Arabic, Chinese, French, German, Greek (Modern and Ancient), Hindi, Italian, Japanese, Korean, Latin, Russian and Spanish.

3. Through credit earned by assessment tests offered by the College Level Examination Program (CLEP) of the College Board or by the Foreign Language Proficiency Testing Service of the NYU School of Continuing and Professional Studies.

If the student decides to fulfill this requirement with the cultural studies option he or she must complete ART 1000C Creativity and the Arts and a LAC (Language and Culture) course.

If a College of Professional Studies student transfers to another undergraduate school or college within St. John’s, foreign language credit earned by examination might not be accepted in fulfillment of the foreign language or cultural studies requirement of that school or college.

NOTE: Students in the BS degrees through the Division of Mass Communications; Journalism, Television and Film will complete six credits in one foreign language to fulfill this requirement.

Tutoring and Academic Support Services

The College of Professional Studies has a commitment to help students achieve their educational goals. Faculty office hours are available in the Dean’s Office so that students may consult with their professors, should they need extra help.

Probation

As part of our commitment to personal advisement, the College of Professional Studies office monitors students whose index falls below a 2.0 (C) average. These students will report periodically to their dean so that the office may assess their academic progress. They may be required to present notebooks, marked quizzes and exams, and reports to their dean, and may not carry a full credit load. Credit loads for probation students may be limited by the Dean’s office. This strategy is designed to allow the student time to adjust to college schedules and college-level course requirements.

Fresh Start Rule

An undergraduate student accepted for readmission to the College of Professional Studies after an absence of five or more years from the University may ordinarily petition to the Dean to recalculate the cumulative index of his/her previous residency. If the petition is approved, all courses taken remain on the permanent record with their original grades. Only grades of C or above are counted for credit. No other grades are counted for credit. If the petition is approved, the student resumes his/her academic program with no cumulative or major index, and thereafter is subject to the conditions of warning, probation and dismissal which govern all students. The student will fulfill all degree requirements in effect at the time of readmission.

Under the provisions of this rule, before graduation a student will complete a minimum of 30 credit hours which shall include advanced major field courses typically taken in the senior year. All courses ever taken on the college level are used in the calculation of the index required for graduation with honors.

This rule applies to the College of Professional Studies only. A student who is readmitted to the College under this rule and subsequently transfers to another undergraduate unit of St. John’s University becomes subject to the regulations of that college. Other undergraduate units may not permit index recalculation.

Pass-Fail Option

The College of Professional Studies has instituted the Pass-Fail Option to encourage students to enroll in challenging courses without prejudice to their cumulative quality point index. This option is limited to juniors and seniors in the baccalaureate programs whose cumulative quality point index is at least 2.75 at the College of Professional Studies. It is limited to one course per semester; the total during the two years may not exceed 12 credits. It may be exercised only in connection with free electives. In no case is the quality point index affected; a “Pass,” however, is credited toward the degree. Applications for the Pass-Fail Option must be approved by Office of the Dean. A student may apply for the Pass-Fail Option at any time during the semester up to and including the last date designated for withdrawal from class without academic penalty. Once this date has passed the student cannot rescind request for pass/fail option.

Make-up Examinations

The College of Professional Studies adheres to the general University policies regarding examinations as stated in the Academic Information and Regulations section of this bulletin. Tests, term papers and assignments are given at the discretion of the instructor. Credit is not given for a course unless all assignments have been satisfactorily completed. All work must be submitted no later than the last meeting of the course.

The College of Professional Studies does not give “Incomplete” grades to undergraduate students. At their discretion, faculty may issue a special grade of UW (Unofficial Withdrawal) to a student who has stopped attending and has not completed a substantial amount of the assigned work. Faculty may also issue a final grade of “F” to any student who, in their judgment, has not satisfactorily completed the stated course requirements in an acceptable manner.

A special grade of ABF (Absent from Final) may be given to any student who has completed all course requirements but who misses the final examination because of circumstances that are typically beyond the control of the student. The “ABF” will be calculated as an “F” in the student’s GPA unless a make-up exam is approved and passed. Any student receiving the ABF must submit an explanation, together with substantiating evidence, to his/her Dean’s office immediately. The Academic Dean of the college in which the student is enrolled then determines if the student is permitted to take a make-up exam. If permission is granted a make-up will be scheduled and a fee of $80 must be paid to the Bursar prior to the scheduled make-up date. The make-up fee may be waived at the discretion of the Dean. Make-ups are to be completed in the most immediate time frame that is reasonable for the circumstances of the case.
Graduation
For graduation, students enrolled in a baccalaureate program must complete a minimum of 126–129 semester hours. Students enrolled in an associate degree program complete a minimum of 60 semester hours for all programs, with a minimum cumulative index of 2.0 and a minimum major index of 2.0. All students must complete the last two full time semesters of their degree at St. John’s University.

Students who complete their graduation requirements are invited to participate in the May Commencement ceremony. An undergraduate student who is one to two courses short (maximum 9 credits) and not subject to academic discipline can submit a written request to participate in the May ceremony. Request letters must be submitted to the Dean’s office by the determined deadline in the spring semester and are reviewed by the College Commencement Committee to determine student eligibility. Granting such requests is the sole discretion of the Dean’s office.

Student Responsibility
It is the responsibility of students to make certain that their academic requirements have been satisfied at the time they make application for the associate or bachelor’s degree. Any questions regarding degree requirements or course scheduling should be brought to a college administrator.

Prerequisite
A prerequisite is a course that is required before the student enrolls in a certain class.

Electives
The electives within specified fields of study (e.g., social science elective) are subject to restrictions. Consult the degree requirement headings on the previous pages or a college administrator concerning any course, to ensure that it satisfies that elective requirement.

The requirement for FREE electives will be fulfilled by any course(s) for which the student has the proper prerequisites.

Repeat Courses
College of Professional Studies students who retake courses they already have completed with a grade of D or higher, will not receive credit for the second course. Exception to this rule is granted to students enrolled in the Fresh Start Program.

Dean’s Exception
When appropriate, the CPS faculty and Dean’s office may evaluate requirements and/or policy to meet the needs of individual students.

Degree Requirements
Candidates must complete the specified minimum number of semester hours of credit for a prescribed program of study. The curricula include required core courses, courses in the major area sequence, courses in a related area and free electives. A cumulative quality point index of 2.0 for all courses taken, and a cumulative quality point index of 2.0 for all courses in the major and minor areas are required.

Normally a full-time day session student may complete his or her degree program in eight semesters of study with credit loads of 15 semester hours (five courses) in six of the eight semesters and credit loads of 18 semester hours (six courses) in two of the eight semesters. For information on accelerated and summer study and credit by examination, please consult the specific sections of this bulletin, and the CPS Dean’s office.

Partnerhsip with the Institute of Audio Research
St. John’s University’s joint academic program with the Institute of Audio Research (IAR) allows students at both institutions to broaden their education through a combined program leading to a bachelor’s degree in communications. The Institute of Audio Research, located on University Place in Manhattan, offers training in audio engineering through its extensive audio equipment and studios. Networking opportunities are available through its widely known faculty.

Through this partnership, currently enrolled St. John’s communication arts majors accepted into the program, can attend the IAR program and receive 30 credits towards their bachelor’s degree. Students must complete the IAR program to receive St. John’s University credit. IAR graduates accepted into St. John’s receive 30 credits toward a four-year degree in communications. Interested students should contact the College of Professional Studies Dean’s Office for more information.
Mass Communication Advisory Council

The council is composed of leading executives from the radio, television, motion picture, advertising and public relations industries.

The council provides continuing support to the University in curriculum, equipment, facilities, expansion of programs, adjunct faculty, recruitment campaigns and the development of the total educational program.

Communications is so fluid that a university must remain sensitive to fast-breaking programmatic and technical innovations. The College of Professional Studies is committed to the reality that education in this rapidly changing and expanding area must give a balance between the academic and the professional. The Council is composed of leading executives from the radio, television, motion picture, advertising and public relations industries.

Internship Program
Internships are available for qualified computer science, cyber security systems, healthcare informatics, information technology, and networking and telecommunications majors enrolled in the Bachelor of Science degree program of study in the College of Professional Studies. The internship is a non-paid, supervised, off-campus experience to provide practical experience in a field allied to the student’s major.

The following guidelines assist the student applying for internship consideration.

Students must:
  a) Be in junior or senior year
  b) Have completed all required major area courses and the majority of major area electives
  c) Have a cumulative index of 2.75 or higher in all course work for the three-credit internship and 3.00 or higher in all course work for the six-credit internship. In addition, the student must have a major area index of 2.50 or higher.
  d) Have permission of the director to enroll in an internship

Students may not carry internship course work as part of an excess credit load. Student interns receive academic credit upon successful completion of the non-paid internship experience.

B.S. Cyber Security Systems (Queens) (126 Credit Hours)

B.S. Hospitality Management  
(Queens, Staten Island)  
(126 Credit Hours)  

The purpose of the hospitality management program is to prepare students for leadership careers in hospitality and tourism management, both nationally and globally, emphasizing the integration of theory and practical applications to satisfy the diverse needs of the industry. The curriculum focuses on the fundamental competencies that are vital for managers in the lodging, food service, tourism, and event management industries. Like all St. John’s students, Hospitality Management majors benefit from the broad knowledge and communications skills gained through our core curriculum, a must for the well-educated professionals sought by today’s employers in all fields.

With the program’s extensive professional connections in the industry, students gain real-world experience through valuable internships throughout the New York metropolitan area and abroad. With this knowledge and experience, graduates build rewarding careers as administrators and creative professionals in hotels, restaurants, resorts and country clubs, conference centers, airlines, cruise lines, travel agencies, tourist bureaus, corporate travel departments, event planning firms and many other types of organizations.

Beyond the University Core, the program consists of a wide variety of general business courses, several required hospitality management courses, and hospitality management electives selected with an eye towards the student’s preferred area within the industry, be it in lodging, food service, tourism, or event management.

**Internship Program**

In emphasizing hands-on experience, the St. John’s journalism major offers an extensive internship program. Student interns receive academic credit for their work at approved professional newspapers, wire services, internet news sites, radio and television stations, public relations firms and advertising agencies.

Students have interned at local and major media in and around New York City including the New York Daily News, Newsday, Queens Tribune, Queens Ledger, Amsterdam News, Broadcasting and Cable magazine, Seventeen and Vogue magazines, WOR radio, WFAN, Westwood One Radio Sports, WABC-TV, WBUN- TV, MTV, ESPN, NY1, NBC News and CBS News. Adding professional experience to classroom instruction, the internship program is an extremely important and integral part of the journalism major.

**Areas of Concentration**

Students may elect a concentration in either print media (newspapers, magazines, wire services, digital news services and other new media) or in broadcast media (television and radio stations and networks, cable and satellite news channels and other electronic media).

**Major Area Requirements** 42 credits that include:

- **Required Courses:** 21 credits from COM 1002, JOU 1000, 1402, 2300, 2307, 2312, 3300
- **Specialized Electives:** 6 credits chosen from JOU 1501, 3303, 3304, 3305, 3309, 3310, 3311, 3401

The course work is challenging and rich in its variety and emphasizes professional classes.

The program’s objectives are to provide students with basic preparation in reporting, writing and producing for all journalistic media and to prepare students for graduate work, both in journalism and other fields. You learn everything from multimedia writing and audio and video production to investigative reporting; from newspaper and magazine journalism to radio, television and web-based news reporting; from photojournalism and graphic design to interviews, critical reviews and feature writing. Other courses introduce you to the legal and ethical constraints on the media, international reporting and the roles of government and the press. Guest speakers and informal student-faculty gatherings enhance classroom and applied learning.

Many law students, for example, have found journalism training a useful preparation for the law.

The journalism program includes enough courses in each medium to permit students to graduate with a strong general foundation and an area of content specialization. The major also includes substantial amounts of course work in the liberal arts, along with business classes and a large number of free electives.

### B.S. Public Relations

(Queens, Staten Island) (126 Credit Hours)

The career-oriented Bachelor of Science degree in public relations is interdisciplinary in nature and integrates critical areas of study in communications and business in the realm of public relations and corporate communications. The program prepares students for careers in public relations, corporate communications, marketing communications, and new media. Students gain the knowledge and skills necessary to succeed in today’s information-rich, technologically-driven workplace.

**Internship Program**

The public relations program offers placement for select students to intern throughout New York in public relations firms, advertising and marketing companies, and the corporate communications departments of non-profit organizations and Fortune 500 companies. The approval of the Director of Public Relations is required for students to take internship courses.

Major Area Requirements 48 credits that include:
- **Required courses:** 30 credits from COM 1001, COM 1002, PRL 2100, PRL 2301, PRL 3400, PRL 4600, COM 2401, COM 2404, COM 2600, ADV 2100

**B.S. Sport Management**

(Queens, Staten Island) (126 Credit Hours)

The purpose of the sport management program is to prepare graduates to manage a variety of diversified responsibilities in the business of sport at the professional, collegiate, secondary school or the community level, both globally and nationally. Integrating academic theory with the internship program provides students with the skills and practical experience needed for successful administration of a sport program.

The program of study is based on the curricular standards set forth by the North American Society for Sport Management. The “Common Professional Components” should be adequately covered within the content of undergraduate sport management programs; our curriculum is designed to meet or exceed the minimum requirement in each topic area. After completing the program, students will be able to:
- Critically evaluate the social, psychological and international foundations of sport.
- Demonstrate competency in the management and leadership dimensions of sport.
- Analyze the role of ethics in sport management.
- Prepare effective sport marketing and communication materials.
- Apply the principles of finance, accounting, and economics to the sport industry.
- Assess the impact of the law on the sport industry.
- Complete an integrative sport management experience such as an internship.

The program also offers study abroad sport management courses as part of its curriculum. These courses provide students with a global perspective on issues related to the profession and an understanding of the role athletics play in international relations. The experience provides a unique opportunity for students in the program to gain an edge as future managers in the sports and recreation industry.

Globalization has changed the face of the sports industry, so St. John’s has begun offering more study abroad courses as part of its sport management curriculum. Based on St. John’s campus in Rome, Italy, these international sport management courses provide students with an understanding of the global development of sports, introducing them to a range of problems and issues confronting sports managers and the strategic thinking needed in an international era. A student exchange program with the University of Leicester (UK) provides students to complete an internship with professional rugby and basketball clubs in Leicester.

**Internship Program**

An internship program is available for qualified sport management students. These internships provide students with an opportunity to apply what has been learned in class to practical situations in the field. The experience gained through internships has assisted graduates in obtaining positions in public and media relations, advertising and sales promotion, marketing, ticket sales, finance, purchasing and the general administration of sports.

Our location in New York City and the partnerships that we have built over the past 30 years gives our students the opportunity to work with some of the best-known organizations in the sports industry. Our students have interned with virtually every major and minor league franchise, athletic facility, and college athletic department in the Greater Metropolitan area and beyond. Interns have also been placed with The National Football League, The National Basketball Association, Major League Baseball, FOX Sports, CBS Sports, and WFAN Radio to name just a few.

**Sport Management Advisory Council**

To ensure the continued effectiveness of the sport management program, St. John’s benefits from an advisory council comprised of recognized leaders in various areas of the industry. The council members provide valuable guidance to ensure that the sport management curriculum conforms to the current needs of the industry.

Partnership with the New York Film Academy

Students who have successfully completed either the 1-year or 2-year certificate programs at the New York Film Academy may apply to the College of Professional Studies at St. John’s for admittance with advanced credit toward a B.S. in Television and Film.

The New York Film Academy is located in Manhattan with two campuses, and has state-of-the-art equipment and professional faculty to aid in the training of the art of filmmaking. Related courses and programs such as screenwriting, acting, editing are also offered.

The combination of a one year or two year education at the New York Film Academy, together with a broad introduction to the liberal arts, as well as study in additional television and film courses at St. John’s, leads to a distinguished education geared for the television and film industries.

Interested students from the New York Film Academy should contact the Dean’s Office of the College of Professional Studies.

Partnership with the American Academy of Dramatic Arts

One of the oldest acting conservatories in the world, the American Academy of Dramatic Arts, located in Manhattan, offers an Associates Degree. In conjunction with the College of Professional Studies, students who successfully graduate from AADA, are awarded 60 credits toward a B.S. in Television and Film at St. John’s.

AADA’s program has seen such stars as Grace Kelly, Edward G. Robinson, Katherine Hepburn, Kevin Spacey, Adrien Brody and Danny DeVito as graduates of its program. Students learn all of the elements of acting, from voice, movement, make-up, costuming, while engaging in staged performances.

Students from AADA who are interested in pursuing a B.S. degree in Television and Film at St. John’s should contact the Dean’s Office at the College of Professional Studies.

Prerequisite: COM 2280. Students learn fundamentals of 2d animation, content development in animation and new design concepts utilizing current animation software. Credit: 3 semester hours.

3284 3-D Animation
Prerequisite: COM 3283. Covers basic areas of three dimensional modeling, digital animation, nurbs, polygons, lighting, texturing and rendering. Students will create three dimensional animations focusing on entertainment and corporate projects scenarios. Credit: 3 semester hours.

3292 Publication Graphics
Prerequisite: COM 2290. A course in desktop publishing for journalism majors and public relations students. The course explores the integration of writing, design and the visual elements of brochures, newsletters and magazines. Cf.: CUS 1104, and COM 3292. Fee: $30. Credit: 3 semester hours.

3294 Web Design and Development
Prerequisite: COM 3281. Students will explore various methods of manipulating imagery and moving images, from traditional cell animation, to clay-mation techniques to the newest morphing techniques. Credit: 3 semester hours.

3295 Advanced Graphics
Prerequisite: COM 3281. Students will explore various methods of manipulating imagery and moving images, from traditional cell animation, to clay-mation techniques to the newest morphing techniques. Credit: 3 semester hours.

3296 Multimedia Screen Design
Prerequisite: COM 2290. An introduction to the design and layout of projects and presentations using computers, including the study of color theory and typography. Included is the study of presentations on the computer, titles for video and film, multimedia and interactive CD-ROM screen design, the Internet and preliminary designing of a Web page. Fee: $30. Credit: 3 semester hours.

3402 The Broadcast Representative's Role in Radio and Television Sales
Prerequisite: MKT 1001. Discusses the broadcast representative’s role in place radio and television ads. Topics include research, marketing, computer applications, programming, and contractual relationships. Credit: 3 semester hours.

4281 Motion Graphics II
Prerequisite: COM 3281. Covering the concepts and techniques of compositing and integration, this course will enable students to assemble media content elements using advanced motion graphics techniques: rotoscoping, tracking, morphing, texturing and others. Credit: 3 semester hours.

4600 Individual Research: Topic in Communication
Prerequisite: Permission of the Chair. Individualized independent study. Under the guidance of a faculty member, students pursue an in-depth study of the communications field...
Computer Science (CUS) (Queens)

1101 Introduction to Computer Programming
Basic principles and operations of a computer system. The Visual Basic programming language; data representation; input/output; structured program design. (Not open to computer science or electronic data processing Majors). Credit: 3 semester hours. CSC 1000 (SO)

1102 Software Applications
Investigation of the computer as a tool; computer concepts and the use of productivity software; using a word processor; creating and using electronic spreadsheets; databases and database management systems. (Not open to students who have completed CUS 1107 or 1165.) Credit: 3 semester hours.

1103 Spreadsheet and Database
Prerequisite: CUS 1102. Comprehensive analysis of electronic spreadsheet and database software, including concepts and applications. Credit: 3 semester hours.

1104 Presentation Graphics
Concepts and applications of presentation graphics packages; graphics capabilities of spreadsheets and databases; hypertext presentations; Computer Assisted Instruction; associated hardware concepts including image scanners, digital film recorders, laserdisks, CD-ROMs, TV Center graphics equipment. Credit: 3 semester hours.

1107 Computer Applications in the Law Office
Prerequisite: LES 1100. Introduction to word processing and software applications used in the contemporary law office. Specific applications include drafting and editing documents, document and file management, use of data bases for litigation support, time accounting and billing, docket control, calendar management, forms generation and general ledger. Credit: 3 semester hours.

1109 Computer Science and Wall Street
Survey of computer science techniques that have a demonstrated value in the financial community for use in decision-making. Topics are drawn from artificial intelligence, operations research, econometrics and financial statement analysis. Credit: 3 semester hours.

1115 Computer Programming Fundamentals I
Introduction to computer programming concepts and applications using a current, object-oriented programming language. Credit: 3 semester hours.

1116 Computer Programming Fundamentals II
Prerequisite: CUS 1115. An intensive treatment of programming techniques, algorithmic problem solving, and software design. Topics include fundamental data types, objects and classes, control structures, arrays, and object-oriented design. Credit: 3 semester hours.

1123 Assembler Language
Prerequisite: CUS 1116. This course examines the architecture and instruction sets of microprocessors. Topics include: instruction types; indexing; addressing; arithmetic operations; branching and control instructions. Credit: 3 semester hours.

1126 Introduction to Data Structures
Prerequisite: CUS 1116. Introduction to data structures concepts, including lists, stacks, queues, and trees using Java. Students will learn how to implement algorithms to perform specific tasks such as sorting and searching, and will also explore the use of graphical user interfaces. Credit: 3 semester hours.

1131 Business Data Management
Prerequisite: CUS 1126. Sequential file creation, processing and updating; data editing and report generation, sort and search routines; string processing, subprograms and table processing. Real-time business applications. Credit: 3 semester hours.

1145 Unix Operating System
Prerequisite: CUS 1126. Fundamentals of the UNIX operating system; managing files, redirecting, filtering and piping; Korn shell features; controlling processes, connections to network services. Credit: 3 semester hours.

1148 Introduction to XML
Prerequisite: CUS 1126. A review of XML source documents, Document Type Definitions, XSD Schemas, XSLT (the presentation technology), XPATH, XML Web services (includes UDDI, WSDL Contracts, and DISC Advanced C#.NET Programming and Web Service). Credit: 3 semester hours.

1151 Advanced Data Structures
Prerequisite: CUS 1126. Dynamic data structures: stacks, queues, tables, trees, graphs, priority queues, heaps and objects; searching techniques and sorting methods. Credit: 3 semester hours.

1153 Survey of Languages
Prerequisite: CUS 1126. Concepts and applications of the LISP programming language; language definition and structure; storage allocation; control. Credit: 3 semester hours.

1154 Event-Driven Programming
Prerequisite: CUS 1126. Fundamentals of event-driven programming and application development: user interface design; programming with objects; accessing data; working with graphics; programming with components. Credit: 3 semester hours.

1156 Software Design Methods
Prerequisite: CUS 1126. Intermediate software design in an object-oriented environment. Students will learn effective software design and development methods, including test-
driven development, object-oriented design, the role of concurrency, and the use of frameworks and design patterns. Credit: 3 semester hours.

1159 Advanced C#.NET Programming and Web Services
Prerequisite: CUS 1126. A review of the Microsoft.NET Framework 3.0; fundamentals of the C# programming language; an in-depth review of classes, data types, keywords, inheritance and polymorphism; operator overloading, struts and interfaces, object-oriented programming strings and regular expressions, exception handling, event-driven programming, and properties. Credit: 3 semester hours.

1161 Logical Design
Prerequisite: CUS 1126. Basic logic design; combinational and sequential circuits; Boolean Algebra; minimization techniques for completely and incompletely specified problems; introduction to computer architecture. Credit: 3 semester hours.

1162 Computer Architecture
Prerequisite: CUS 1126. Hardware design of a computer system, register transfer, micro operations, timing and control, CPU organization; ALU design, I/O organization and interrupts, bus organization, memory organization, parallel, vector and pipeline processors, fault-tolerant systems, tessellated computers and case studies of non-conventional computer architectures. Credit: 3 semester hours.

1163 Operating Systems
Prerequisite: CUS 1126. Aspects of operating systems; memory management and resource allocation; virtual memory, paging and segmentation; multiprogramming, scheduling, interrupt handling; thrashing, deadlock detection and prevention; cache memory. Credit: 3 semester hours.

1164 Compilers and Program Translation
Prerequisite: CUS 1126. Compiler construction; symbol tables; lexical scanning, syntax analysis; memory allocation; object code generation; optimization techniques; interpreters. Credit: 3 semester hours.

1165 Database Management Systems
Prerequisite: CUS 1116. Relational, hierarchical, and network database systems; file organization and access techniques; query and update languages; database security and integrity. Credit: 3 semester hours.

1166 Software Engineering
Prerequisite: CUS 1156. Issues and techniques in the design and implementation of complex computer systems with emphasis on the software component. Topics include software project planning, software design principles, quality assurance and testing techniques. Credit: 3 semester hours.

1167 Systems Analysis
Prerequisite: CUS 1126. Design and evaluation of systems. Topics include: information as a resource, types of information systems, systems development life cycle, economic aspects of systems selection and feedback control. Credit: 3 semester hours.

1168 Theory of Programming Languages
Prerequisite: CUS 1126. The role of programming language in the software life cycle. Topics include data abstraction, binding time, activation stack, parameter passing mechanisms, strength of typing and type equivalence. Credit: 3 semester hours.

1169 Web Enabled Databases and ASP.NET
Prerequisite: CUS 1165 or HCI 1021. An introduction to web enabled databases and web services programming utilizing the services of ASP.NET 2005, the .NET Framework 2.0, C#.NET, and Active Data Objects (ADO.NET). Students will learn about ASP.NET events, server-side controls, both basic and advanced controls. Tracing, debugging, and error handling in ASP.NET is examined. Students also learn to apply the fundamental concepts of Web Data Access, while interacting with databases and XML files. Additionally, Application Logic and Configuration focuses on deployment using XML Config files. Credit: 3 semester hours.

1171 Distributed Operating Systems
Prerequisite: CUS 1126. An introduction to the concepts and design principles used in distributed computer systems. Topics will include data currency, distributive file systems, security, interprocess communications, directory services, job transfer and management and fault-to-tolerance. Credit: 3 semester hours.

1172 HTML and JAVA Script
Prerequisite: CUS 1126. An introduction to designing and programming web pages. Topics will include elements of HTML, graphics, tables, frames, forms, CGI Scripts and JavaScript applications. Additional related topics will be explored as they become popular on the Internet. Credit: 3 semester hours.

1173 Dynamic Web Page Development
Prerequisite: CUS 1172. A second course in designing and programming web pages. Topics will include JavaScript objects, the theory and history of DHTML, controlling the placement and appearance of objects on a web page, dynamic content and styles, image object properties and event handlers, and cross-browser web page design. Additional related topics will be explored as they become important in designing and implementing web pages. Credit: 3 semester hours.

1174 Artificial Intelligence
Prerequisite: CUS 1126. Study of the automation of intellectual processes. Topics include: heuristic methods of problem solution, game-playing programs, expert systems, automatic theorem-proving. Credit: 3 semester hours.

1176 Electronic Commerce
Prerequisite: CUS 1116. An examination of current and projected developments in electronic commerce. Topics include the information technologies upon which electronic commerce is based; telecommunications infrastructure; electronic consumers and advertising; the effect of e-commerce on logistics and supply chain management; electronic financial markets and digital payment mechanisms; security issues such as authentication and payment in e-commerce; introduction to symmetric and public-key encryption; digital signatures and certificates; Secure Sockets Layer (SSL), Transport Layer Service (TLS), and secure electronic payment protocols. Credit: 3 semester hours.

1178 Service-Oriented Architecture, Technology, and Design
Prerequisites: CUS 1148, CUS 1159, 1165, 1169. An intensive introduction and review of the evolution of Service-Oriented Architecture and Web Services. Utilization of the services of XML, SOAP, WSDL, the .NET Framework, and J2EE. Interoperability between diverse platforms, systems, and programming languages. Credit: 3 semester hours.

1179 Data Mining
Prerequisite: CUS 1165 or HCI 1021, MTH 1014. Introduction to the analysis of databases for relationships, patterns, and trends. Both visualizing data and developing graphical representations of data will be stressed. Students will learn to select, prepare, visualize, analyze and present data findings that lead to the discovery of novel and actionable information. Credit: 3 semester hours.

1181; 1182 Operations Research I and II
Prerequisite: CUS 1126 for CUS 1181, MTH 1009 and 1013. Probability; stochastic processes; Markov chains; queuing theory; inventory theory; linear programming; duality; assignment and transportation problems; game theory. Credit: 3 semester hours.

1183 Simulation
Prerequisite: CUS 1126. Generation of random numbers and variates; queuing theory and stochastic processes; computer modeling and simulation of systems, with applications in selected areas. Credit: 3 semester hours.

1185 Data Security and Cryptography
Prerequisite: CUS 1116. Methods for maintaining security and integrity of computer data; mathematical treatment of contemporary topics in cryptography; overview and selected topics in data security. Credit: 3 semester hours.
1186 Theory of Computation
Prerequisite: CUS 1126. Fundamentals of theoretical computer science: computable functions; primitive recursive functions and predicates (PRC classes); the halting problem, Godel numbers and pairing functions; recursively enumerable sets; universality, Post-Turing programs; simulations; Turing Machines. Credit: 3 semester hours.

1187 Finite Automata and Formal Languages
Prerequisite: CUS 1126. Deterministic and non-deterministic finite automata; regular languages; Kleene’s Theorem; context-free grammars and languages; derivation trees; regular grammars; bracket languages; pushdown automata; compilers and formal languages. Credit: 3 semester hours.

1188 Analysis of Algorithms
Prerequisite: CUS 1126. Analysis of the performance of algorithms. Topics covered include analyzing the efficiency of algorithms, sorting and searching algorithms, graph algorithms, dynamic programming, probabilistic algorithms, introduction to complexity. Credit: 3 semester hours.

1191 Computer Science Internship
Prerequisite: Permission of the Director. Supervised practical experience to further prepare majors for their professional careers. Only open to juniors and seniors majoring in computer science. Credit: 3 semester hours.

1192 Computer Science Internship
Prerequisite: Permission of the Director. Supervised practical experience to further prepare majors for their professional careers. Only open to juniors and seniors majoring in computer science. Credit: 6 semester hours.

1194 Special Topics in Computer Science
Prerequisites: CUS 1126 and the permission of the Director. Selected topics from recent advances in computer science and technology. Course content will vary from year to year. Students must be juniors or seniors to register. Credit: 3 semester hours.

1196 Individual Research: Topics in Hardware
Prerequisite: CUS 1126 and the permission of the Director. This course is designed to provide individualized independent study in microcomputers. Under the guidance of a faculty member, the student pursues an in-depth study of a recent development in the microcomputer field. A research paper is required. Credit: 1 semester hour.

1197 Individual Research: Topics in Software
Prerequisite: CUS 1126 and the permission of the Director. This course is designed to provide individualized independent study in computer software and applications. Under the guidance of a faculty member, the student will pursue an in-depth study and implementation of some software application that was not already studied in the work of other courses. A research paper is required. Credit: 1 semester hour.

Criminal Justice (CRJ)
(Queens, Staten Island)

2000 An Introduction to the Criminal Justice System
This course surveys the American criminal justice system and addresses the individual elements of the justice process. Topics covered in this overview course include: the police service, the courts, correctional services, the development of laws and public policies, and pressing issues facing the criminal justice system. The course also addresses the United States Constitution with respect to criminal justice administration. Credit: 3 semester hours.

2001 Theories of Crime
This course examines the problem of crime in contemporary society. Theories and explanations of criminal behavior are analyzed in detail, along with the range of activities that are defined as crimes. SOC 1110 (it is recommended that students take this course and CRJ 2000 during the same semester.) Credit: 3 semester hours.

2002 The Police and the Community
Prerequisite: CRJ 2000. This course traces the history of American policing and examines a variety of innovative police models used across the United States. Credit: 3 semester hours.

2003 The American Judicial System
Prerequisite: CRJ 2000. This course traces the history of both the federal and state courts and examines the roles of the prosecutor, judge and defense attorney. Credit: 3 semester hours.

2004 American Correctional Systems
Prerequisite: CRJ 2000. This course examines the history and development of both institutional and community-based correctional models. Credit: 3 semester hours.

2006: Introduction to Cybercrime
This course will provide essential information on the types of crimes classified as cybercrimes. It will outline the emerging area of crime and examine the implications for victims, offenders, and the criminal justice system. A major component of the course will be a focus on the approaches and techniques used to perpetrate such crimes. Credit: 3 semester hours.

2007 Crime Scene Investigation
This course will introduce students to the basic scientific techniques applied in crime scene investigation. Emphasis will be placed on crime scene protection and the development, collection, packaging, and processing of physical evidence found at the crime scene. The writing of evidence reports and preparation for testifying in court will also be major focuses of the course. Credit: 3 semester hours.

2009 Crime Mapping
This course will introduce students to the use of geographical information systems to conduct spatial analysis of crime and other events. Focus will be on creating maps to display analysis results. Students will learn the theoretical framework, analytic procedures, and skills necessary to study, design, and implement crime prevention programs using crime mapping techniques. Credit: 3 semester hours.

3000 Professional Ethics in the Criminal Justice System
Prerequisite: CRJ 2000. This course explores the ethical issues confronting the criminal justice practitioner. Credit: 3 semester hours.

3001 Public Policy and Criminal Justice
This course explores the development and implementation of criminal justice policy in the United States. Credit: 3 semester hours.

3002 Minority Groups and the Criminal Justice System
An intensive study of ethnic, racial and religious minorities and the criminal justice system. Credit: 3 semester hours.

3003 Women and the Criminal Justice System
The emerging status of women in contemporary society has been accompanied by a dramatic rise in the overall participation of women in the criminal justice system. Credit: 3 semester hours.

3004 Victimology
The study of the nature and causes of victimization, including the interaction that takes place between the offender and victim. Credit: 3 semester hours.

3005 Contemporary Social Problems in the Criminal Justice System
Social problems such as violence, substance abuse, race and ethnic relations and suicide are explored with specific attention given to how these issues impact on the criminal justice system. Credit: 3 semester hours.

3006 Research Methods in Criminal Justice
Prerequisite: CRJ 2000. This course will introduce the research methods used in criminal justice and criminology. Emphasis will be on the logic, design, and execution of the research process, including the development of researchable questions and/or hypotheses, collection and analysis of data, and writing of a scientific report. Special attention will be given to the use of computers in the research process. Credit: 3 semester hours.

3100 Police Organization and Management
This course examines the organizational design of the contemporary police service and the delivery models used to serve the public. Credit: 3 semester hours.
3101 Criminal Investigation
An examination of the steps leading up to the decision to take a suspect into custody. Credit: 3 semester hours.

3102 Forensic Psychology
An exploration of the behavioral techniques employed in the criminal justice field. Relevant illustrations from law enforcement and corrections are employed. Credit: 3 semester hours.

3103 Introduction to Forensic Science
Prerequisite: CRI 2000. A course designed to demonstrate and examine physical evidence relevant to criminal or civil investigations. Credit: 3 semester hours.

3104 Modern Investigation and Protection Technology
Contemporary developments in scientific devices and techniques that relate to the fields of security, safety and investigation. Credit: 3 semester hours.

3105 Juveniles and the Criminal Justice System
The etiology of juvenile delinquency including contemporary techniques in rehabilitation. Credit: 3 semester hours.

3106 Drug Use and Abuse
An analysis of the current use and abuse of drugs in contemporary society. The problem of crime and its relationship to drugs is studied. Credit: 3 semester hours.

3107 Organized Crime
An analysis of organized crime in contemporary society—its extent and influence. Credit: 3 semester hours.

3108 International Terrorism
Prerequisite: CRI 2000 or HCS 1001. A study of the history and causes of the multinational phenomenon of terrorism. Credit: 3 semester hours.

3109 Forensic Fire Investigation
This course presents essential knowledge for conducting a forensic fire investigation. It describes the elementary chemistry of combustion and the factors that control fire behavior, including why fire behavior is not precisely predictable. It discusses the fundamental properties of liquid, gaseous and solid fuels as well as electrical, clothing (fabric), hazardous material and vehicular fires and explosions. Credit: 3 semester hours.

3110 Forensic Fire Scene Reconstruction
This course presents a methodology for determining the origin, cause and liability of a fire. It involves the identification of a variety of variables common to the fire scene that help establish human activities. The information, placed in context with principles of fire engineering and human behavior, is used to reconstruct the fire scene and evaluate all investigator hypotheses. Credit: 3 semester hours.

3112 Reading and Interpretation of Legal Documents
Prerequisite: ENG 1000C and 1100C. An intensive study in the analysis of legal documents. Credit: 3 semester hours.

3113 Penal Law
An examination of the penal law of New York State. Credit: 3 semester hours.

3114 Criminal Procedure Law
An analysis of the criminal procedure law. Credit: 3 semester hours.

3115 The Criminal Justice Adversary System
An in-depth examination of the functions, responsibilities and authority of the criminal justice practitioners in the criminal adversary process. Credit: 3 semester hours.

3116 Law of Evidence
A study of the law of evidence, including the statutory and common-law foundations governing the admissibility of evidence in state and federal courts. Credit: 3 semester hours.

3117 Cybercrime and the Law
Cybercrime and Law will examine the federal and state laws that address cyber crime and computer intrusion. The focus will be on the key legal issues raised by cyber crimes, as well as the skills needed to understand the constantly evolving cyber law concepts. Among the topics to be addressed are protection of computer software, information access and control, privacy and security. The course will explore specific problems in applying the law to cyberspace in a variety of areas, including content control, and the bounds of jurisdiction. Credit: 3 semester hours.

3118 Cybercrime Investigation
This course is designed to provide students with the basic philosophical understanding of the cybercrime investigative process. The new and emerging investigative techniques available to investigate these crimes will be examined. Emphasis will be on the entire investigative process where the consistent flow of information facilitates the application of different scientific methodologies. Topics to be covered include crime scene processing, identification, preservation, collection of physical evidence, and the presentation of digital evidence in court. Credit: 3 semester hours.

3120 Probation and Parole
A study of extra-institutional supervision of convicted offenders. Pre-sentence investigation, case-load classification and success prediction. Credit: 3 semester hours.

3121 Corrections Law
Prerequisite: CRI 2000. A survey of legal rights of those convicted and sentenced to prison. Credit: 3 semester hours.

3201 American Law Enforcement Practicum
To study and critically examine law enforcement agencies at all levels of government, the role of the law enforcement agent, and the contemporary problems and issues that affect American policing. Credit: 3 semester hours. Free elective only. Intersession and pre-session only.

3202 Justice and the D.A.’s Office
Course explains the functions, powers, duties and career opportunities presently existing in local and national prosecuting agencies, including the county D.A.’s, state attorneys general and the U.S. attorneys. Credit: 3 semester hours. Free elective only. Intersession and Pre-session only.

3204 Crime Mapping Practicum
This course will provide a basic understanding of techniques for in-house or on-site emergency response contingency planning. Students will develop plans that emphasize assessment, equipment requirements, collateral support agreements and actual response. Definitions will be covered which will promote and facilitate discussions concerning planning and response and provide a framework upon which the student can engage in problem formulation. Credit: 3 semester hours.

3205 Emergency Preparedness, Response and Planning for Hazardous Materials
This course will provide a basic understanding of techniques for in-house or on-site emergency response contingency planning. Students will develop plans that emphasize assessment, equipment requirements, collateral support agreements and actual response. Definitions will be covered which will promote and facilitate discussions concerning planning and response and provide a framework upon which the student can engage in problem formulation. Credit: 3 semester hours.

3206 Terrorism and Emergency Management
The purpose of this course is to investigate the role of emergency management in response to the growing threat of domestic and international terrorism. To achieve this goal the course will define what terrorism is, discuss why politically motivated acts of violence occur, and provide an overview of terrorists groups and their tactics of intimidation and fear. The course will also uncover the effects of terrorism (including those emanating from weapons of mass destruction) and compare how their consequences are both similar to and different than other types of natural and technological disasters. Utilizing recent legislation and policies regarding crisis and consequence management as a framework, the steps that emergency management agencies and others are taking to deal with terrorism are identified. Credit: 3 semester hours.

3207 Emergency Management and Homeland Security Law
This course is designed to provide an overview of homeland security law and policy. Emergency response, emergency management, and terrorism after 9/11 will be discussed. Several topics including the law for first
responders, incident management, weapons of mass destruction, volunteers, Governors’ powers, FEMA, Department of Homeland Security, civil rights, and international anti-terrorism efforts will be explored. Credit: 3 semester hours.

3208 Sociology of Disaster
The focus of this course will be on human behavior in a natural and man-made disaster e.g., hurricanes, tornados, earthquakes, floods, and chemical spills, nuclear power plant accidents, riots, etc. Case studies of a number of disasters will be used to illustrate the material discussed. In addition, students will be introduced to the emerging profession of “emergency management and contingency planning” and acquire an understanding of the general precepts of disaster planning. Credit: 3 semester hours.

3209 Computer Applications in Emergency Management
This course provides the student with an introduction to the use of computer technology in emergency management. Spreadsheets, database applications, and electronic communications will be covered. Specific computer programs currently used in use for contingency planning, tracking chemical inventories and response resources, modeling of toxic plumes, and decision making during disasters will be explored. Hazard and risk evaluation will be covered along with attendant hazard identification, vulnerability analysis, risk and consequence analysis. Credit: 3 semester hours.

4000 Special Topics
This seminar course includes an in-depth examination of current issues and problems in the field of justice administration with topics to be announced by the instructor at the time of registration. (Open only to seniors in CRJ with permission of the Director of the Institute of Criminal Justice.) Credit: 3 semester hours.

4001 Contemporary Legal Issues in Private and Public Protection
An analysis of legal aspects of private and public protection including the major constraints imposed upon security and public safety operations and personnel by the law. (Cf.: SEC 1002.) Credit: 3 semester hours.

4102 Forensic Psychology II
A course designed to provide the student with knowledge and expertise relevant to the availability of psychological services to be utilized in criminal and/or civil justice systems. Credit: 3 semester hours.

4104 Criminal Justice Leadership and Services
Prerequisite: CRJ 3100. An in-depth examination of the role and function of leadership practices and theories and services that support the criminal justice system. Credit: 3 semester hours.

4105 Transnational Crime and Criminals
Prerequisite: CRJ 2000. An in-depth study of crimes that cross national borders such as drug smuggling; air and sea hijacking; money laundering; weapons merchants; crime syndicates; environmental crimes; economic crimes. Criminal justice majors only. Credit: 3 semester hours.

4106 Comparative Criminal Justice Systems
Prerequisite: CRJ 2000. A comparison of the criminal justice systems in selected European, African, Middle Eastern, North and South American countries. Credit: 3 semester hours.

4107 Comparative Police Systems
Prerequisite: CRJ 2000. A study of the various typologies and styles of police systems of the world, including their organization, administration, organizational procedures and behavior. Criminal justice majors only. Credit: 3 semester hours.

4108 Criminal Justice Classical Writings
In this seminar for seniors, the classical writings in the field of criminal justice will be analyzed. The original writings from authors such as Cesare Beccaria, Felix Frankfurter and John Augustus, which pertain to the development of criminal justice legislation, the judiciary, police, corrections, and criminology that have had a major impact on the development of the system, will be read and discussed in relation to contemporary developments in the field. Credit: 3 semester hours.

5000 Criminal Justice Internship
Prerequisite: Permission of the Director of Criminal Justice required. An internship with a selected criminal justice or social agency in the public or private sector. Credit: 3 semester hours.

5001 Investigative Internship
Prerequisite: Permission of Director. Interns are assigned to participate in a specific investigative project currently under study by one of the Inspector General Offices within New York City, or any approved criminal justice or social service agency in the public or private sector. Credit: 3 semester hours.

5002 Internship in Court Administration
Prerequisite: Permission of the Director of the Institute of Criminal Justice. An intensive investigation of a selected project currently under study by the Office of Court Administrator. Credit: 3 semester hours.

5003 Probation and Parole Internship
Prerequisite: Permission of Director. Students involved in this program are assigned to an office of probation in the metropolitan area. Credit: 3 semester hours.

5004 Juvenile Advocacy Internship
Prerequisite: Permission of Director. Student interns are assigned to a juvenile advocacy program, sponsored by an agency in the public or private sector that serves youngsters who are in crisis situations. Credit: 3 semester hours.

5005 International Criminal Justice Internship
Prerequisite: Permission of the Director. An internship course for students pursuing the minor area of study in international criminal justice. The internship student is assigned to an on-site sponsor agency in the private or public sector in the field of international criminal justice. Hours are arranged. Credit: 3 semester hours.

5006 Criminalistics Internship
Prerequisite: CRJ 3103. An internship course for students who are assigned to a sponsor agency in the public or private sector to perform supervised or independent laboratory or field study. (Hours to be arranged and with the permission of the Director of CRJ.) Credit: 3 semester hours.

5200 Seminar in Court Administration
A study of selected topics in court administration, including such areas as case flow management, extra, judicial remedies, judicial selection and discipline, jury management. Credit: 3 semester hours.

5201 Criminal Justice Counseling
This course is a survey of various counseling, interviewing classifying and testing techniques within the criminal justice system. Specific areas will include critical incident debriefing, post traumatic stress disorder, brief psychotherapy and use of community resources. Credit: 3 semester hours.

5202 Criminal Justice Practicum
Prerequisite: CRJ 2000 and the permission of the instructor. This course examines critically the various components of the American criminal justice system at all levels of government, the function and role of the practitioners within these components and the contemporary problems and issues that affect criminal justice. Open to criminal justice baccalaureate students above the freshman level. Credit: 3 semester hours.

5203 Criminalistics
Prerequisite: CRJ 3103. Course focuses on the role of the criminalist in the specializations of serology, trace evidence and forensic examinations. Credit: 3 semester hours.

6000 Criminal Justice Honors Research
An individualized program of research and readings dealing with contemporary topics in the area of justice administration under the direct supervision of a criminal justice faculty member. Conferences and a research paper are required. Open only to junior or senior criminal justice majors who have at least a 3.2 major index and a 3.0 overall index. Credit: 3 semester hours.

6001 Criminal Justice Honors Internship
Prerequisite: Permission of Director required. An internship with a selected justice administration or social service agency in the public or private sector. Open only to senior Criminal Justice majors who have a 3.5 index in
two-thirds of courses completed in the major area (24 credits) and an overall index of 3.3.) Credit: 3 semester hours.

1081 Independent Study
Prerequisite: Permission of the Director of Criminal Justice. Independent study. Under the guidance of a faculty member, student pursues an in-depth study of the criminal justice field or participates in a criminal justice project. Credit: 3 semester hours. Fee elective.

Cyber Security Systems (CSS) (Queens)

1001 Introduction to Information Security
An introduction to the various technical and administrative aspects of information security and assurance. Topics covered include understanding the key issues associated with protecting information assets, determining the levels of protection and response to security incidents, and designing a consistent, reasonable information security system, with appropriate intrusion detection and reporting features. Credit: 3 semester hours.

1005 Fundamentals of Cyber Security
Issues involving hackers, malware, social theories, protocols, firewalls, and intrusion detection will be addressed. The prevention and containment of intrusion incidents, the incident response process, and the forensic examination of a computer will be discussed. Credit: 3 semester hours.

1006 Management of Information Security
Prerequisite: CSS 1005. Information security management logistics, consisting of organizational, process, operational, and technology domains. The main focus will be on the analysis and management of information security systems and their architectures. Credit: 3 semester hours.

1008 Healthcare Information Security
Prerequisite: CSS 1005 or HCI 1001. Introduction to the computer and networking methodologies used within healthcare environments to achieve healthcare privacy and the security of electronic medical records. Credit: 3 semester hours.

1011 Network Security
Prerequisites: CSS 1005 and NET 1011. Network security fundamentals, including network defense, network auditing, psychological approaches to social engineering attacks, Web application attacks, penetration testing, data loss prevention, cloud security, and disaster continuity planning. Credit: 3 semester hours.

1012 Network Perimeter Security
Prerequisites: CSS 1011. An examination of the critical defensive technologies needed to secure network perimeters. The main focus will be on network security threats and goals, advanced TCP/IP concepts, router security, intrusion detection, firewall design and configuration, IPSec and virtual private network (VPN) design. Credit: 3 semester hours.

1015 Wireless Security
Prerequisite: CSS 1011. An understanding of how wireless technology is used to commit crimes will be considered with emphasis on their prevention. The student will have hands-on involvement with common tools used to attack wireless systems in order to recognize and understand how to defend against them. The course will address issues involving hackers, malware, and intrusion detection. Credit: 3 semester hours.

1018 SQL and Cloud Database Security
Prerequisite: CUS 1005 and CUS 1165. Techniques and industry accepted methodologies for achieving database security, with emphasis on essential best practices in cloud and Big Data security. Various security breaches related to web attacks, SQL injection, and Cross Site Scripting (XSS) will be analyzed. Credit: 3 semester hours.

1021 Cyberlaw and Ethics
Prerequisite: CSS 1005. An introduction to legal protection of identities, properties and privacy in the real time environment. All current Federal and International laws will be studied. Credit: 3 semester hours.

1025 Intermediate Linux and UNIX Security
Prerequisites: CSS 1011, CUS 1145. An examination of the principal methods for maintaining the security and integrity of the UNIX and Linux operating systems. Credit: 3 semester hours.

1032 Cyber Threats and Detection
Prerequisite: CSS 1011. An examination of protocols, scanners, rootkits, trojans, worms, and viruses as they are used in the commission of a network intrusion. An overview of the prevention and containment of an intrusion incident as well as the methodology of the incident response process will be presented. Credit: 3 semester hours.

1091 Computer Security Systems Internship
Prerequisite: Permission of the director. Supervised practical experience to further prepare majors for their professional careers. Only open to juniors and seniors majoring in computer security systems. Credit: 3 semester hours.

Digital Forensics (DFR) (Queens)

1001 Introduction to Digital Forensics
A study of the methods used in computer forensics. Topics include file structures, boot processes, computer forensic tools, digital evidence controls, data acquisition, computer forensic analysis and image file recovery. (Cf: CSS 1031.) Credit: 3 semester hours.

1002 Network Forensics
Prerequisite: DFR 1001. Fundamentals of computer networking and the layered protocol architectures, detection and prevention of intrusion and attack, digital evidence collection and evaluation, and the legal issues involved in network forensic analysis. Documented cyber crimes and intrusion records will be used as case studies. The course emphasizes both the conceptual models and the hands-on experience of using tools with the Internet and the Web browsers as the underlying media. Credit: 3 semester hours.

1005 Management of Digital Evidence
Prerequisite: DFR 1001. A study of the methodology used to handle and capture digital evidence in a legal manner. The course examines where digital evidence can be located, how it should be preserved free from contamination, how it may best be analyzed, and how to present it in statements, affidavits, and court proceedings. Credit: 3 semester hours.

1011 Advanced Computer Forensics
Prerequisites: DFR 1001 and CSS 1005. Identification and preservation of digital evidence via advanced techniques applied to various operating systems, including those on mobile devices, Linux, Macintosh, and virtual environments. Topics include: file structure, boot process, computer forensic tools, digital evidence controls, data acquisition, metadata analysis, registry analysis, and image file recovery. Credit: 3 semester hours.

1015 Digital Incident Response and Crisis Management
Prerequisites: DFR 1001 and CSS 1005. Techniques used to prepare for and execute a proper digital incident response involving corporate or governmental organizations. Topics include contingency planning, how to profile an intruder’s digital fingerprints, proper identification of digital evidence, and deploying of appropriate resources during a major network intrusion investigation. Credit: 3 semester hours.

1021 Malware Analysis and Reverse Engineering
Prerequisite: DFR 1001, CSS 1011 and CUS 1116. Concepts and techniques that will prepare students to become effective malware analysts. Topics include basic malware characteristics and propagation, attack vectors, and reverse engineering of malware from
multiple sources using programming languages such as JavaScript and VBScript. Credit: 3 semester hours.

1031 Forensic Investigation of Wireless Networks and Mobile Devices
Prerequisite: DFR 1111. Methods of identifying, tracking, and apprehending cyber criminals who utilize wireless networks and mobile devices such as PDA, iPod, iPhone, Android, and BlackBerry to commit cybercrimes. Students will learn how to collect and process evidence in a forensically sound manner, and will gain hands-on experience working with case studies. Credit: 3 semester hours.

Dramatic Arts (DRM)

1200 Introduction to Acting Technique
This course will introduce students to the “actor’s process,” with concentrate on the actor developing the basic skills of imagination, focus, sensory awareness, expressiveness and working collaboratively with fellow actors. Special emphasis will be given to internal and external demands of a performance, including the actor being aware of his or her emotional and physical habits which could obviate a performance. Students will be expected to prepare and perform monologues and scenes, and the class will culminate with the actor performing a scene with a fellow actor before an invited audience. Credit: 3 semester hours.

1505 Actors on Film: Silent Era to Contemporary Cinema
An examination of the birth of the American motion picture industry from 1894 to the coming of sound. The Silent Film is studied as a “popular art” with emphasis placed on aesthetic development. Credit: 3 semester hours.

2200 Intermediate Acting Technique
Working in a studio setting, students will sort through the creative and theoretical challenges actors face in developing honest and persuasive performances for both the stage and camera. The first half of the course will be devoted to students honing their creative and professional skills by working collaboratively with their fellow actors in groups of two or more. The second half of the semester will concentrate on students making the transition from the stage to the camera, first by way of monologues then in scenes. As part of this process, students are expected to direct and block their performances for the camera, understand on-camera terminology, specific angles and framing, and how an on-camera performance differs from one prepared for the stage. Finally, students should be continuously crafting their creative techniques for performing, developing their artistic and theatrical philosophy of acting, and demonstrating a critical eye for how to “read” a performance. Credit: 3 semester hours.

3200 Acting For Film
(Prerequisites: DRM 1200, TVF 2202) This course will build upon the acting techniques and on-camera performance skills learned in Introduction to Acting Technique and Television Performance with greater emphasis on the actor’s capacity to deconstruct and interpret a character, script analysis, directing and acting for the camera with a focus on the language of film. Students will also study acting as a social and ethical exercise toward understanding groups and individuals. Laboratories will concentrate on the actor’s ability to develop a relationship to the dramatic text, his or her character, and the willingness to explore the scope of human emotions that ultimately influence a performance. A survey of Stanislavsky’s “The Method” and Sanford Meisner, Lee Strasberg, Jerzy Grotowski (among others) will also be covered. Credit: 3 semester hours.

3300 Playwriting
This course is designed to expand the actor’s creative and critical understanding of performance by teaching him or her to write for the stage. Through the reading of plays, class workshops and collaboration with his or her fellow actors, students will sort through the artistic, theoretical and professional challenges of developing and writing an original one-act play for public exhibition. Credit: 3 semester hours.

Economics (ECO)

1001 Principles of Economics I
Introduction to the fundamentals of the economic system. The "macroeconomic" approach to employment, prices and economic stability. Credit: 3 semester hours.

1002 Principles of Economics II
Prerequisite: ECO 1001. Microeconomic analysis involving relative price determination in individual product and factor markets. Selected topics: problems of monopoly, trade and efficiency. Credit: 3 semester hours.

1003 Elementary Money and Banking
Prerequisite: ECO 1002. A survey of the principles of money and credit. Credit: 3 semester hours.

1006 Personal Finance
A study of the techniques of personal financial management, including the financial considerations involved in the acquisition, preservation and disposition of real and personal property. Open to baccalaureate students only. Credit: 3 semester hours.

1011 Development of American Business Structure
Prerequisite: ECO 1002. A survey of the forces contributing to the development of American business enterprise, culminating in the growth of multinational corporations. Special focus is on the diverse and evolving forms of market structure, behavior and industry life cycles. Open to baccalaureate students and A.S. business majors (except accounting). Credit: 3 semester hours.

1015 Economic History of the Western Community
Evolution of the Western economic system from the middle of the 16th century to the present: the agricultural revolution, impact of technological change, organization of trade and commerce, the diffusion of international trade, demographic changes, and the role of government in economic development. Credit: 3 semester hours.

1022 International Economics
Prerequisite: ECO 1001. An introductory study of theories and issues of international trade, commercial policies, tariff and other trade restrictions, foreign investment and multinational corporations, foreign exchanges and balance of payment adjustment, international financial institutions and systems and regional trade organizations. Open only to baccalaureate students. Credit: 3 semester hours.

1027 Economic and Financial Institutions in Europe
Prerequisites: ECO 1001, 1022. A survey of the economic and financial institutions of the nations of Europe, with particular emphasis on how they interface with the Common Market. Money and capital markets are considered, along with industrial, agricultural and trade practices and policies. Credit: 3 semester hours.

1050 Financial institutions of the European Union
This course is designed to acquaint the student with the types and functions of financial institutions within the Union. The institutions studied will be the European Central Bank, the European Investment Bank, and the European Investment Fund. The goals of the European Bank for Reconstruction and Development will also be studied. The role of the Court of Auditors will also be examined, as will the aims and the tools of FIN-NET, the Cross-border Out-of-Court Complaints Network for Financial Services Disputes Settlement System. This course is offered exclusively online. Credit: 1 semester hour.

1060 Making Sense of Market Data and Economic Indicators
Pre-requisite: ECO 1001. Designed to introduce economic indicator analysis, this course will examine where the economy is in the business cycle and place each indicator in a framework offering better understanding of the seemingly contradictory market reactions to released indicators. It will provide skills for interpreting and reporting on government and corporate data and critically analyze news and data from financial and economic news sources. Credit: 3 semester hours.

www.stjohns.edu/bulletins 173
1061 Financial Services Regulations
Financial Services Regulation examines the banking and financial services industries, including studies of the most highly regulated functions of banks and other financial firms, the reasons for regulating each of the key areas or functions, the agencies regulating the industries, and the regulations relating thereto. The primary goal of the course is to familiarize students with current financial services regulation from enforcement and compliance perspectives. Credit: 3 semester hours.

2001 The Economics of the European Union
Examines the economic and political policies and processes of the European Union. This course looks at the history and institutions of the EU. Topics discussed are European monetary policy, the role of the European Central Bank, the new currency, the euro and trade and competition policy. The reasons why some countries opted out of using the euro and why some countries have not met the criteria for the adoption of the euro are also examined. Prerequisites: None. This is a non-technical course. Credit: 3 semester hours.

English (ENG)
(Queens, Staten Island)

1000C English Composition

This course will examine sport as subject, symbol, motif, and metaphor in literary and artistic texts including novels, short stories, plays, poems, essays, painting, and film. The writing-intensive course will analyze the intersection of literary texts and sport to discover what sport reveals about our culture and character. Students will be offered opportunities to develop their skills at writing creative and critical essays.
Credit: 3 semester hours.

1079: The Harlem Renaissance
This course begins in the roots of the Renaissance: the Great Migration, and explores the three stages of the Harlem Renaissance: the Bohemian Renaissance (1917 through 1923), the Talented Tenth Renaissance (1924 to mid-1926), and the Artists' Renaissance (mid-1926 through 1935). The course’s focus will be the entire New Negro Arts Movement of the early 20th century and will include reading, studying, and analyzing Renaissance essays, which present the competing ideas and philosophies of the period; a sampling of poetry, novels, and/or plays of the era; the influence of music, especially blues and jazz, on literary works; and the period's nexus to civil rights progress. Also explored will be the parallel mass movement led by the charismatic Marcus Garvey, which is a separate but contemporaneous social force.
Students will engage literature through reading, studying, discussing, assessing, and writing about the essays, poems, novels, and/or plays selected.
Credit: 3 semester hours.

2000 Literature and Culture: Classics of Continental and British Authors from Ancient Times to the Early 16th Century
Prerequisite: ENG 1000C and ENG 1100C.
This course embraces the acknowledged literary masterworks of Western civilization from Homer to Cervantes. Representative works by Continental and British writers are studied.
Credit: 3 semester hours.

2001 Literature and Culture: Classics of Continental, British and American Authors from the Early 17th Century to the Present
Prerequisite: ENG 1000C and ENG 1100C.
This course continues the study of masterworks by Continental, British and American authors from Moliere to the present. Major intellectual and cultural developments are studied.
Credit: 3 semester hours.

Honors English
The following Honors English courses are available only to students in the Honors Program or to students with at least a 3.3 GPA.
1001 Appreciation and Understanding of Art  
An introduction to the visual arts provides an understanding and appreciation of the masterpieces of painting, sculpture and architecture from antiquity to the present. Works of art are studied in terms of their basic organizational concepts, meanings, historical relationships and expressive power. Credit: 3 semester hours.

1002 Healthcare Information Flow and Data Management  
Prerequisites: CUS 1115, HCI 1001. A study of the flow and use of health information through healthcare processes and across healthcare systems, through the generation of information, documentation of encounters, and subsequent storage and access. An in-depth examination of the role of electronic documents in healthcare information systems in relation to privacy, confidentiality, information security and the Health Insurance Portability and Accountability Act. Credit: 3 semester hours.

1011 Medical Terminology and Healthcare Classifications  
A study of the grouping and classification of health-related terminology, and its encoding in machine-readable representation for storage and access; the design of messages for various tasks and information systems. An exploration of MeSH, SNOMED and UMLS, using health data terminologies. Credit: 3 semester hours.

1015 Data Standards, Vocabularies and Interoperability in Healthcare  
Prerequisites: HCI 1001 and CUS1126. Discussion of the nomenclatures, vocabularies, and ontologies that are used to represent medical information, and the data standards that are used for interchange of clinical data. Issues and problems in clinical data interoperability, both within and between healthcare organizations will also be discussed. Credit: 3 semester hours.

1021 Healthcare Database Management Systems  
Prerequisites: CUS 1116 and HCI 1002. A study of the design of databases used in healthcare. Types of database architectures, normalization techniques, file and access techniques, query and update languages, data integrity, use of health record systems, and applications of databases to support the healthcare system. Credit: 3 semester hours.

1022 Healthcare Enterprise Systems  
Prerequisite: HCI 1021. A study of healthcare enterprise systems used for patient support, decision support, and administrative processes; diagnostic imaging systems; data integration; application integration; web services; human-computer interface design; system integration; system evaluation; HL7 messaging; distributive health care technologies. Credit: 3 semester hours.

1091 Healthcare Informatics Internship  
Prerequisite: Permission of the Director. Supervised practical experience to further prepare majors for their professional careers. Only open to juniors and seniors majoring in healthcare informatics. Credit: 3 semester hours.

Health and Human Services (HHS) (Queens)  
3000 Introduction to Health and Human Services  
This course introduces the student to the field of Health and Human Services. It will identify the various professionals in the field and it will examine topics such as the U.S. Health Care System, the role of government in health care, and behavioral and psychotherapeutic approaches to assisting people in need.
