Subject: 2020-2021 Committee Assignments

Below you will find the list of Committee Assignments for 2020-2021. As affirmed by Faculty Council, ex-officio members of a committee are non-voting members. Committee chairs may invite advisory members to their meetings at any time for informational purposes. I have included the names of potential advisory members that have been provided to me.

Charges have been added that are specific to the college strategic plan or for immediate attention. These charges are indicated in red and in many cases are continuing charges that will take multiple years to accomplish. These are high priority charges and committee chairs are asked to review the progress of each charge in the beginning of the academic year and provide a status update on these charges at the end of the academic year. If there are any questions please don't hesitate to contact me.

As always, if you find any errors in the document please contact the Dean's Office and we will make any necessary changes. Thank you to all for the many contributions that you make to our College.
