ST. JOHN'S UNIVERSITY/ALLERGAN PHARMACEUTICAL INDUSTRY FELLOWSHIP

2018-2019

In partnership with

ST. JOHN'S
UNIVERSITY

ABOUT ALLERGAN

Allergan plc (NYSE: AGN), headquartered in Dublin, Ireland, is a bold, global pharmaceutical company and a leader in a new industry model – Growth Pharma. We are focused on developing, manufacturing and commercializing branded pharmaceutical, device, biologic, surgical and regenerative medicine products for patients around the world.

We market a portfolio of leading brands and best-in-class products for the central nervous system, eye care, medical aesthetics and dermatology, gastroenterology, women's health, urology and anti-infective therapeutic categories.

We are an industry leader in Open Science, a model of research and development, which defines our approach to identifying and developing game-changing ideas and innovation for better patient care. With this approach, Allergan has built one of the broadest development pipelines in the pharmaceutical industry with 65+ mid-to-late stage pipeline programs currently in development.

- Masters of Business Administration (MBA)
- Master of Public Health (MPH)
- M.S. in Data Mining and Predictive Analytics

Joshua Rickard, PharmD

Assistant Professor
Fellowship Program Coordinator

Joseph M. Brocavich, PharmD

SENIOR ASSOCIATE DEAN
FOR PHARMACY PROGRAMS

“For the past 16 years St. John's University, College of Pharmacy and Health Sciences has partnered with select Pharmaceutical Industry companies including our first partner, Allergan, to provide Doctor of Pharmacy graduates with structured postgraduate education fellowships that develop leadership, practice, research and teaching skills to succeed in the industry today and in the future.”

ABOUT OUR FELLOWSHIP

Now entering its 16th year, the St. John's University/Allergan Fellowship Program is one of the most dynamic and challenging development programs in the industry. We offer three 2-year fellowships focused in Global Regulatory Strategy, Clinical Development, and Regulatory Affairs Advertising and Labeling. The programs are based in Allergan's Madison, NJ office and are designed to offer a broad range of hands-on training and professional development opportunities.

ST. JOHN'S UNIVERSITY COMPONENT

Fellows are full-time University employees and are provided a competitive stipend and benefits package, including comprehensive health insurance. Each Fellow is required to complete a one-semester teaching component at the University during their first year and a collaborative research project by the end of the second year.

Additionally, each Fellow is able to participate in a number of other professional and educational development opportunities at the University, including precepting pharmacy students; continuing education courses; resident and fellow seminars; Affiliate Faculty appointments; and a teaching certificate course. Fellows may also enroll, with a tuition remission benefit, and participate in University courses and graduate degree programs.

CERTIFICATE OF COMPLETION

Upon successful completion of the program, Fellows will receive a certificate from St. John's University College of Pharmacy and Health Sciences and Allergan.

Fellowship Program 2018 - 2019

2

GLOBAL REGULATORY STRATEGY FELLOWSHIP

CURRENT FELLOWS

Lauren Aronin, BS, PharmD
Touro College of Pharmacy
1st Year Fellow

Valerie Tengco, BS, PharmD
Ernest Mario School of Pharmacy
2nd Year Fellow

Our Global Regulatory Strategy team leads our Company's business-critical relationships with the U.S. Food and Drug Administration (FDA) and other global regulatory agencies throughout the world, ensuring the continued success of our product portfolio and pipeline.

ROLES AND RESPONSIBILITIES

- Developing a comprehensive understanding of global regulations and guidances relating to drug development
- Supporting cross-functional product teams by offering expertise and strategic guidance on regulatory requirements for global development and market registrations
- Filing and maintaining Investigational New Drug Applications (INDs), New Drug Applications (NDAs), Marketing Authorization Applications (MAAs) and Clinical Trial Authorizations (CTAs)
- Interfacing with internal and external stakeholders to ensure company compliance with all appropriate federal regulations and guidances
- Gaining a thorough understanding on how to best conduct health authority meetings (including advisory committee meetings) and prepare teams for effective regulatory interactions

SECOND-YEAR ELECTIVE ROTATION

The Global Regulatory Strategy fellowship offer the opportunity for fellows to rotate to other functional areas during their second year, helping to accelerate their professional growth and broaden their industry experience. Please see the following page for a list of possible rotation opportunities.

Amjad Iqbal, PharmD

EXECUTIVE DIRECTOR, GLOBAL REGULATORY STRATEGY

“The St. John's University/Allergan Industry Fellowship gave me the skill sets necessary to achieve a successful career in the pharmaceutical industry. The fast-paced, high-energy environment, paired with a very dedicated group of preceptors, afforded me a customized learning experience that provided the confidence necessary to seek high-profile challenging, and rewarding positions in the industry.”

CLINICAL DEVELOPMENT FELLOWSHIP

CURRENT FELLOWS

Our Clinical Development team is responsible for the development and execution of our global Phase II - IV clinical trials across our therapeutic categories.

Mostafa Seliem, BS, PharmD
University of the Sciences
Philadelphia College of Pharmacy
1st Year Fellow

ROLES AND RESPONSIBILITIES

- Participating in the conceptualization, conduct and management of clinical trials
- Developing study protocols, informed consent forms, final study reports and other clinical trial materials
- Training and managing investigative sites
- Analyzing, interpreting, and reporting clinical trial data

Ama Berko, MS, PharmD
Farleigh Dickinson University,
School of Pharmacy and Health Sciences
2nd Year Fellow

SECOND-YEAR ELECTIVE ROTATION

The Clinical Development fellowship offer the opportunity for fellows to rotate to other functional areas during their second year, helping to accelerate their professional growth and broaden their industry experience. Possible second-year rotations (3-12 months in duration) include, but are not limited

- Clinical Development
- Global Drug Safety
- Global Monitoring Operations
- Health Economics and Outcomes Research
- Marketing
- Medical Affairs
- New Products Market Research
- Project Management
- Quality Assurance/Compliance
- Global Regulatory Strategy
- Regulatory Affairs Advertising and Labeling
- External rotations with the FDA are also permitted

Anna Chan, PharmD

DIRECTOR, CLINICAL DEVELOPMENT

“The purpose of the fellowship is to provide real world and transferable experience for compounds in various stages of clinical development. The fellow should be able to see how decisions are made and what factors drive those decisions. One of our top priorities is to ensure the fellow is a contributing member of a clinical trial study team.”

REGULATORY AFFAIRS– ADVERTISING AND LABELING FELLOWSHIP

CURRENT FELLOWS

Alexandra DiDonato, PharmD
St. John's University, College of
Pharmacy & Health Sciences
1st Year Fellow

Hasan Siddiqui, BS, PharmD
University of Illinois at Chicago,
College of Pharmacy
2nd Year Fellow

Our Regulatory Affairs Advertising and Labeling team is responsible for liaising with Regulatory agencies (e.g., FDA's Office of Prescription Drug Promotion) related to advertising, promotion, and labeling.

ROLES AND RESPONSIBILITIES

- Providing Allergan's internal stakeholders with strategic regulatory advice on advertising and promotional materials, in accordance with FDA regulations and business goals
- Facilitating the creation, revision, and maintenance of product labeling in order to communicate accurate product information to health care providers and consumers
- Gaining insight into marketing's goals and objective and understanding how those measures are reflected in the development of product advertising
- Developing a comprehensive understanding of FDA regulations regarding drug advertising and labeling
- Applying regulations to the development of product promotion (including, but not limited to, television commercials, social media advertisements, website design, and print brochures), and drug labeling (physician and consumer directed communications)

FELLOWSHIP SCHEDULE

REGULATORY ADVERTISING & PROMOTION	REGULATORY LABELING	MARKETING	ELECTIVE ROTATION	REGULATORY ADVERTISING & PROMOTION
9 months	3 months	3 months	3 months	6 months

Moulakshi Roychowdhury, PharmD, JD

EXECUTIVE DIRECTOR, REGULATORY AFFAIRS ADVERTISING AND LABELING

“The optimal way to learn is through hands-on experience. This Advertising & Labeling fellowship program is specifically designed to ensure the fellows gain real-life, relevant experience, from the perspective of both sides of the coin (regulatory review and marketing) involved in the development of pharmaceutical promotion, from inception to final execution.”
