

2010–2012

Graduate Bulletin

St. John's University Graduate Bulletin

Published by St. John's University, New York
Thirty-Seventh Series, Number 1

This is your official guide to academic policies and regulations at St. John's University. Students are required to familiarize themselves with this bulletin. Primary responsibility for knowing and fulfilling all requirements rests on every individual student. The bulletin in effect at the time of admission or readmission governs degree requirements.

The University administration reserves the right, whenever advisable (1) to change or modify its schedule of tuition and fees and (2) to withdraw, cancel, reschedule or modify any course, program of study, or degree, or any requirement in connection with any of the foregoing.

Consistent with the University's mission as a Catholic, Vincentian and metropolitan institution of higher education, the University abides by all applicable federal, state and local laws which prohibit discrimination on the basis of race, religion, color, national or ethnic origin, age, sex (including sexual harassment), sexual orientation, marital status, citizenship status, disability, genetic predisposition or carrier status, status as a victim of domestic violence or status in the uniformed services of the United States (including veteran status) in admitting students to its programs or in administering its educational policies, admissions policies, scholarship and loan programs, athletics and other institutionally administered programs or activities generally made available to students at the University. In accordance with these laws, the University also prohibits retaliation against anyone who has complained about discrimination or otherwise exercised rights guaranteed under these laws. In addition, the University continually strives to fulfill its educational goals by maintaining a fair, humane, responsible and non-discriminatory environment for all students and employees. All University policies, practices and procedures are administered in a manner which preserves its rights and identity as a Catholic Vincentian institution of higher education.

The Employee Relations and Compliance department of Human Resources is responsible for implementing this policy. The Director's office is on the Queens campus in Chiang Ching Kuo Hall, Room 111. The Director can be reached at (718) 990-2660.

Academic Calendar 2010–2012

*Calendar is subject to change.
Please consult the Web regularly.

2010 Fall Semester

August

- 5 **Thursday:**
Last day to file a diploma application for September degree conferral
- 27 **Friday:**
Final Oral Examinations (defense) for all candidates for Doctoral degrees in September 2010 to have been held by this date.

September

- 1 **Wednesday:** Fall semester begins.
- 2 **Thursday:**
Last day to file a diploma application for September conferral.
- 4 **Saturday:** No classes.
- 6 **Monday:**
Labor Day — School closed.
No classes.
- 9 **Thursday:**
Monday Classes Meet
- 10 **Friday:**
College of Pharmacy and Allied Health Professions
All language testing requirements must be fulfilled and requests for transfer credit must be processed by this date.
- 14 **Tuesday**
Editorial copy of dissertations must be handed in to Dean's office for September degrees.
- 22 **Wednesday:**
College of Pharmacy and Allied Health Professions
Last day to apply for fall Master's Comprehensive Examinations and Doctoral Qualifying, Writing and Comprehensive Examinations.
- 29 **Wednesday:**
Graduate Division of St. John's College of Liberal Arts and Sciences
Last day to apply for fall Master's Comprehensive Examinations and Doctoral Qualifying, Writing and Comprehensive Examinations.
- 30 **Thursday:**
The School of Education
Last day to apply for fall Doctoral and Master's Comprehensive Examinations.
College of Professional Studies
Comprehensive Examinations will be offered on an as-needed basis.
Please see the Director for details.
- 30 **Thursday:**
September degree conferral date.

October

Web registration begins. Schedule to be announced. Consult the Web.

- 4 **Monday:**
Graduate Division of St. John's College of Liberal Arts and Sciences
Readers' copies of Doctoral dissertations and Master's theses for degrees in January to be submitted to the departmental chair by this date.
The School of Education
College of Pharmacy and Allied Health Professions
Readers' copies of Doctoral dissertations and Master's theses for degrees in January to be submitted to the departmental chair by this date.
- 11 **Monday:**
Columbus Day — School closed.
No classes.
- 12 **Tuesday:**
Monday Classes Meet
- 15 **Friday:**
Graduate Division of St. John's College of Liberal Arts and Sciences
Last day to submit coursework or extension for incomplete grades for Spring and Summer 2010 semesters.
- 22 **Friday:**
Last date to file a diploma application for January conferral.
- 29 **Friday:**
Graduate Division of St. John's College of Liberal Arts and Sciences
Doctoral Comprehensive Examination
Master's Comprehensive Examination

November

- 1 **Monday:**
All Saints' Day — School closed.
No classes.
- 5 **Friday:**
Graduate Division of St. John's College of Liberal Arts and Sciences
Doctoral Comprehensive Examination and Writing Competency Examinations
- 6 **Saturday:**
The School of Education
Doctoral Comprehensive Examination*
- 9 **Tuesday:**
Last day to withdraw from classes.
Last date to apply for Pass/Fail Option.
- 10 **Wednesday:**
College of Pharmacy and Allied Health Professions
Doctoral Comprehensive Examinations*
Master's Comprehensive Examinations
- 12 **Friday:**
Graduate Division of St. John's College of Liberal Arts and Sciences
Doctoral Comprehensive and Qualifying Examinations

- 13 **Saturday:**
The School of Education
Doctoral Comprehensive Examinations
Master's Comprehensive Examinations
- 22 **Monday:**
Graduate Division of St. John's College of Liberal Arts and Sciences
The School of Education
College of Pharmacy and Allied Health Professions
Final Oral Examinations (defense) for all candidates for Doctoral degrees in January to have been held by this date.
- 24–
28 **Wednesday–Sunday:**
Thanksgiving recess. No classes.
- 29 **Monday:**
Classes resume.
Editorial copy of dissertations must be handed in to Dean's office for January degrees.

December

- 2 **Thursday:**
Graduate Division of St. John's College of Liberal Arts and Sciences
The School of Education
College of Pharmacy and Allied Health Professions
Completed theses and dissertations for all January degrees to be submitted to the Office of the Dean by this date. Microfilm fee to be paid at this time.
- 8 **Wednesday:**
Feast of the Immaculate Conception —
School closed. No classes.
- 9 **Thursday:**
Last day of weekday classes.
- 10 **Friday**
Study Day. No classes.
- 11 **Saturday:**
Last day of Saturday classes.
- 13–
18 **Monday – Saturday:**
Final Week of Instruction.

2011 Spring Semester

January

- 17 **Monday:**
Martin Luther King, Jr. Day—
School closed. No classes.
- 19 **Wednesday:**
Spring semester begins.
- 26 **Wednesday:**
Graduate Division of St. John's College of Liberal Arts and Sciences
Last day to apply for Doctoral and Master's Comprehensive Examination, and for Doctoral Qualifying and Writing Examinations.
College of Pharmacy and Allied Health Professions
Last day to apply for spring Doctoral and Master's Comprehensive Examination.

*Doctoral Cohort programs may be subject to alternative dates.

**Calendar is subject to change. Please consult the Web regularly. www.stjohns.edu/services/registrar/calendar
For information on school closings, check www.stjohns.edu/closings

- 31 **Monday:**
The School of Education
 Last day to apply for spring Doctoral and Master's Comprehensive Examinations.
- College of Professional Studies**
 Comprehensive Examinations will be offered on an as-needed basis. Please see the Director for details.

February

- 1 **Tuesday:**
Graduate Division of St. John's College of Liberal Arts and Sciences
The School of Education
College of Pharmacy and Allied Health Professions
 Readers' copies of Doctoral dissertations and Master's theses for degrees in May to be submitted to the departmental chair by this date.
- 21 **Monday:**
 Presidents' Day—
 School closed. No classes.
- 22 **Tuesday**
 Monday classes meet.
- 25 **Friday:**
Graduate Division of St. John's College of Liberal Arts and Sciences
 Doctoral Comprehensive Examinations
 Master's Comprehensive Examinations
- 28 **Monday:**
College of Pharmacy and Allied Health Professions
 Doctoral Comprehensive Examination
 Master's Comprehensive Examination

March

Web Registration begins. Schedule to be announced. Consult the Web.

- 4 **Friday:**
Graduate Division of St. John's College of Liberal Arts and Sciences
 Doctoral Comprehensive Examinations and D.A. Writing Competency Examinations
 Master's Comprehensive Examination
 Last day to file a Graduation diploma application for May Commencement.
- 5 **Saturday:**
The School of Education
 Doctoral Comprehensive Examination*
- 7-12 **Monday–Saturday:**
 Spring break—No classes.
- 9 **Wednesday:**
College of Pharmacy and Allied Health Professions
 Doctoral Comprehensive Examination
 Master's Comprehensive Examination

- 12 **Saturday:**
The School of Education
 Doctoral Comprehensive Examinations*
 Master's Comprehensive Examinations
- 15 **Tuesday:**
Graduate Division of St. John's College of Liberal Arts and Sciences
 Last day to submit course work or extension for incomplete from Fall 2010.
- 18 **Friday:**
Graduate Division of St. John's College of Liberal Arts and Sciences
 Doctoral Comprehensive and Qualifying Examinations

April

- 1 **Friday:**
 Last day to withdraw from classes.
 Last day to apply for Pass/Fail option.
- 8 **Friday:**
Graduate Division of St. John's College of Liberal Arts and Sciences
 Final Oral Examinations (defense) for all candidates for Doctoral degrees in May 2011 to have been held by this date.
- 11 **Monday:**
Graduate Division of St. John's College of Liberal Arts and Sciences
College of Pharmacy and Allied Health Professions
 Readers' copies of Doctoral dissertations and Master's theses for degrees in September to be submitted to the departmental Chair by this date.
- 15 **Friday:**
 Editorial copy of dissertations must be handed in to Dean's office for May degrees.
- 21-
 25 **Thursday–Monday:**
 Easter Recess—
 School closed. No classes.
- 26 **Tuesday:**
 Classes resume.
The School of Education
College of Pharmacy and Allied Health Professions
 Final Oral Examinations (defense) for all candidates for Doctoral degrees in May to have been held by this date.
- 27 **Wednesday:**
 Study day—No classes.

General Information

Applications for admission to graduate degree programs are accepted throughout the academic year. It is highly recommended that both the application and all supporting credentials be submitted to the Office of Graduate Admission three months prior to the semester in which the student wishes to begin a program of study. Specific program deadlines are as follows:

Psychology (Ph.D., Psy.D., M.S.)

January 15 (Fall only—Clinical Psy., Ph.D.)

January 15 (Fall only—School Psy., Psy.D.)

May 1 (Fall only—School Psy., M.S.)

Speech Pathology and Audiology (M.A.)

February 1 (Fall)

October 1 (Spring)

College of Pharmacy and Allied Health Professions

M.S., Ph.D.

March 1 (Fall)

November 1 (Spring)

Pharm.D./Practitioner's Option

Not available

The Peter J. Tobin College of Business (M.B.A.)

May 1 (recommended for Fall)

November 1 (recommended for Spring)

The School of Education (Ph.D., Ed. D., Adv. Cert., M.S.Ed.)

The School of Education deadlines for the completed applications for M.S.Ed., Adv. Cert., and Ed. D.

(non-counseling majors)

January 5 (Spring)

May 8 (Summer)

August 10 (Fall)

Counseling majors (M. S. Ed., and Adv. Cert.):

November 1 (Spring) 1

April 1 (Summer/Fall)

Ph.D. in Literacy

June 15 for the Fall semester every two years. (2010, 2012, 2014, 2016, etc).

International Students

May 1 (Fall)

November 1 (Spring)

(unless program has deadline above.)

A non-refundable fee of \$70, in the form of a check or money order payable to St. John's University, must accompany the application.

The Office of Graduate and International Admission will make every effort to notify students of the status of their application. Ultimately, however, it is the student's responsibility to make sure that all supporting creden-

tials are received by the application deadline. Completed applications and supporting credentials should be forwarded to the campus of intended study as follows:

Queens, Staten Island and Rome Campuses

Office of Graduate Admission
St. John's University
8000 Utopia Parkway
Queens, NY 11439

- **Applicants to The School of Education:**

St. John's University

8000 Utopia Parkway
Queens, NY 11439

- **Applicants to The Peter J. Tobin College of Business:**

St. John's University
Office of Graduate Admission
8000 Utopia Parkway
Queens, NY 11439

Admission to a Degree Program

Admission to a degree program is contingent upon an assessment of the candidate's ability to successfully pursue graduate study.

Ability is demonstrated by previous academic performance, satisfactory achievement on appropriate standardized tests, letters of recommendation and other factors that suggest academic potential and motivation.

Specifically, degree candidates must provide the following for admission consideration:

1. Evidence of a baccalaureate degree from an accredited college or university including *official* transcripts from each institution attended.
2. Letters of recommendation (requirements vary according to program; please refer to appropriate program information in other sections of this bulletin) from instructors in the proposed area of specialization or other qualified individuals as designated by the school, division or program to which the candidate is applying.
3. Official results of performance on standardized test as appropriate to the requirements of the particular school, division or program.
4. Evidence that conditions or requirements specific to the school, division or program of interest have been met.

Admission to a degree program does not guarantee advancement to degree candidacy. Additional requirements must first be met before the student may be considered a degree candidate (see "Degree Requirements"). In special cases, the dean of the college may waive an admission requirement if it is deemed warranted.

International Student Admission

Applicants whose native language is not English and who have not attended a post-secondary institution in which English is the language of instruction must take the (1) TOEFL (Test of English as a Foreign Language) or (2) IELTS (International English Language Testing System). For applications and information regarding IELTS, please visit the Web site: www.ielts.org. For applications and information regarding TOEFL, contact TOEFL Services, Educational Testing Service, Box 6151, Princeton, NJ 08541-6151; or visit the ETS Web site: www.ets.org.

English as a Second Language: International applicants may be asked to take a University-sponsored English placement examination prior to the start of their academic studies at St. John's. Students will be informed of this test in the decision letter. Students requiring additional English language support are considered for the University's full-time Intensive English Program (IEP) or part-time English as a Second Language (ESL) classes.

Application Deadline: All students living outside the United States who require a student visa must provide completed applications (including all supporting materials) by May 1 for the fall semester and November 1 for the spring semester. However, applicants must first adhere to any specific deadlines for their intended program of study as noted in the Graduate Bulletin.

Applicants must present a formal application, official school records issued by your college/university and results of the TOEFL/IELTS examinations. All documents in languages other than English must be accompanied by certified English translations. For deadline dates, please see the "International Students" section. Students who require a Form I-20 for a student (F-1) visa or a Form DS-2019 for an exchange (J-1) visa must provide proof of financial support. Please refer to our University brochure "How To Get Your Form I-20" or "How To Get Your Form DS-2019", or contact the International Student and Scholar Services Office, (718) 990-6083, fax (718) 990-2070.

General Graduate Information

Questions concerning admission procedures or graduate programs offered by the University should be directed to the Office of Graduate Admission, (718) 990-1601, fax (718) 990-2346, or you may email gradhelp@stjohns.edu.

Transfer Student Admission

Students may seek admission to one of the graduate programs at the University after having successfully completed some graduate coursework at another accredited institution. The student must present the catalog description(s) of the graduate course(s) for which transfer credit or advanced standing is requested and complete a Transfer of Credit form (where applicable), which is available from the office of the appropriate academic Dean. No credit will be allowed for courses beyond the stipulated time limit or in which the grade attained is below "B" (3.0). Only after the academic Dean evaluates all documentation, may requests for transfer of credit or advanced standing be approved. Transferred or advanced standing grades will not affect the cumulative quality point index.

Transfer Credit

A student may request that credit for previously completed coursework be transferred to the St. John's University program of study, provided that it has not been applied toward the fulfillment of requirements for another degree. At the master's level, a maximum of six semester hours of graduate credit will be accepted on a tentative basis, pending re-evaluation after the student has successfully completed 12 semester hours of graduate credit at the University. For programs in the graduate divisions of St. John's College of Liberal Arts and Sciences and the Peter J. Tobin College of Business, please refer to the appropriate sections of this bulletin.

A matriculated student may wish to take a course at an accredited institution and transfer the credit toward the St. John's degree program. The student must present the catalog description of the course and a permission form to his/her department/division Chair. Upon the recommendation of the Chair and the approval of the academic Dean, the student may register for the course. Upon completion of the course, the student must submit an official transcript to the Office of the Registrar and complete a Transfer of Credit form, which is available in the office of the appropriate academic Dean.

Advanced Standing

Students enrolled in advanced certificate and doctoral programs may request advanced standing for coursework completed in fulfillment of a previously earned graduate degree.

The number of advanced standing credits permitted is contingent upon assessment of the previously earned credit in accordance with department/division and school/college regulations. However, all doctoral students in the Graduate Division of St. John's College of Liberal Arts and Sciences and the College of Pharmacy and Allied Health Professions must complete a minimum of two-thirds of the total number of credits beyond the master's degree at St. John's University. All doctoral students in

The School of Education are required to take a minimum of 45 credits at St. John's University.

Accident and Sickness Insurance

The University makes available health insurance to all students through University Health Plans. This insurance allows students to be covered for illness and accidents. The University requires all international students holding F1 and J1 visas and all resident students to have adequate health insurance coverage.

F1 and J1 Students: All F1 and J1 students will be automatically provided with and charged for health insurance each semester. The mandatory charge for the insurance will be added to the semester invoice, which is due and payable with the tuition and fee charges.

Resident students: Resident students who have not waived the University-provided insurance will be automatically provided with and charged for this health insurance. The charge for this insurance will be added to the semester invoice, which is due and payable with the tuition and fee charges. To waive the insurance coverage, resident students are required to submit their insurance information online at www.universityhealthplans.com.

Commuter Students: Insurance also is available to our commuter full-time and part-time graduate population and can be purchased at www.universityhealthplans.com.

Please direct any questions to the Office of Student Financial Services at (718) 990-7592 (Queens campus); the Health Office at (718) 390-4447 (Staten Island campus); or University Health Plans at 1 (800) 437-6448.

Expenses

All fees and the entire tuition as well as room and/or board charges for each semester are due and payable in full before registration can be completed. All payments must be made by check or money order payable to St. John's University or by credit card. American Express, MasterCard, VISA and Discover are currently accepted by the Office of Student Financial Services.

For those students who wish to make tuition payments on a monthly basis, St. John's University makes available services of an outside independent educational credit company plan. Information regarding this plan can be obtained from the Office of Student Financial Services.

Students holding full-tuition scholarships are required to pay the General Fee and any other fees required for the course(s) they are taking.

Students whose accounts are in arrears will not be permitted to register for a subsequent semester, receive grades, or be issued a diploma or a transcript of record. All past due balances are charged interest at the rate of one percent per month. Delinquent accounts

may be referred to a third party for collection, which will result in the addition of collection costs to the account balance.

The University reserves the right to change the schedule of tuition and fees when necessary, but every effort is made to maintain them at the lowest possible level.

For the most up-to-date information, check the online version of this bulletin at www.stjohns.edu/bulletins.

2010–2011 Tuition*

Graduate Cost	per credit
College of Professional Studies	\$950
The School of Education	950
The Peter J. Tobin College of Business	965
St. John's College	
Grad Arts & Sciences	950
School Psychology	1,020
Library Science	1,015

40%	through February 14
20%	through February 21
0%	after February 21

Withdrawal from campus housing could affect your cost of attendance for financial aid purposes. Please contact the Office of Student Financial Services for details.

Withdrawal from Courses and Tuition Credits and Refunds

A student who wishes to withdraw from a course must complete a Change of Program form and have it signed by the appropriate departmental Chair and academic Dean. The date of withdrawal will be the date of the student's written request as attested by his or her Dean.

Withdrawal from courses may entitle the student to a credit for tuition. The percentage of credit will be determined according to the schedules listed. The credit policy refers only to tuition. Fees are not refundable.

Students should allow at least three weeks from the date of filing a Change of Program with the Dean for refund claims to be approved, processed and for checks to be mailed.

Students will not be entitled to any portion of a refund until all federal Title IV programs are credited and all outstanding charges have been paid.

Students are considered in attendance until they officially withdraw from the University or are requested to do so by a Dean. Students who leave school voluntarily or drop a course must do so through the proper channels, or otherwise risk assuming full tuition charges.

Please also see page 12 "Officially Notifying the University of a Withdrawal from Class" and "Withdrawing from Class".

The following percentage of tuition may be credited for withdrawals:

Fall 2010

100%	through September 8

Academic Information and Regulations

Program Requirements

In addition to the regulations in this section, each student is responsible for becoming familiar with the requirements specific to the college/school, department/division and academic program of study in which he/she is enrolled. For further details, consult the appropriate section of this bulletin.

Academic Units and Programs

Approved Programs of Study

Students may only enroll in programs of study officially registered with the New York State Education Department or otherwise officially approved. Enrollment in non-registered or unapproved programs of study may jeopardize eligibility for certain student aid awards.

Most graduate courses at St. John's are conveniently scheduled for late afternoons, evenings and Saturday mornings. Following is a listing of all approved graduate programs at St. John's University. To learn which of the University's campuses offer specific programs, please consult your academic Dean.

* The Master of Philosophy (M. Phil.) is an intermediate degree between other academic Master's degrees and the Doctor of Philosophy (Ph.D.) degree. It is awarded to candidates in some of the University Ph.D. programs for completion of all requirements for the Ph.D. except the dissertation.

** Leads to permanent bilingual certification.

Office of the Registrar

The Office of the Registrar serves and supports students and alumni, faculty and their departments, the University as a whole and its constituent colleges. These services include registration, the maintenance of student academic records, grade processing, transcripts, verifications of enrollment and classroom assignments. The Office of the Registrar is responsible for maintaining the accuracy and the integrity of the University's official student academic records.

The Office mails continuing students information about registration in February and October. Registration for continuing students takes place in March/April and in October/November for the coming fall and spring semesters. Continuing students may register for summer classes when they register for fall classes.

The Office mails student grade reports for the fall and spring semesters on a rolling basis, i.e., each student's grades are mailed when all grades for that student are posted. Summer grade reports are mailed at one time at the end of all summer sessions. Grades are also available from the University's Web site at <http://www.stjohns.edu>. To access grades, students must first enter their University ID number ("X" number) and then their Personal Identification Number (PIN). PINs are initially set to one's date of birth represented as a six-digit number. The date, July 4, 1976, would be entered 070476. Students are required to change their PINs to a six-digit number of their own design at their first login.

Because the University is continually expanding the services and information it makes available via the Web, students should refer to the University's Web site on a regular basis. The University's homepage may be found at <http://www.stjohns.edu/>.

On the Queens campus, the Office of the Registrar is located in Room 106, Newman Hall. At Staten Island, the office is in Room 200, Flynn Hall; at our Manhattan campus, the office of Enrollment Services is on the first floor. Hours of operation are:

Monday: 8:30 a.m.–7 p.m.
 Tuesday–Thursday: 8:30 a.m.–4:30 p.m.
 Friday: 8:30 a.m.–3 p.m.
(The Manhattan campus office closes at 4:30 p.m. on Mondays.)

Advisement

All students must complete a specific registration form with courses that have been pre-approved by an advisor. Since advisement policies vary among the individual schools, students should consult with their respective Dean's office to ensure that proper procedures are followed.

All matriculated students are assigned an advisor upon admission to any graduate program. Students are responsible for planning their programs in consultation with their official Advisors and for registering for coursework or maintaining matriculation each semester until the degree is awarded. Where applicable, students should bring an Advisement Report with them when they meet with their advisors.

New and continuing students need to report to their respective Dean's office to obtain a registration permit, which must be signed by an advisor.

In order to be officially admitted to a course, students need to show a class schedule receipt to the instructor. Class schedule receipts also must be shown for any laboratories or workshops associated with the course. Any changes in a student's program must be completed before the end of the registration period by filing the appropriately approved Change of Program form.

Under no circumstances—even if a student has been unofficially attending a class—will a student be permitted to enroll in a course after the late registration period has ended. A class schedule receipt represents enrollment in a course. If a student wishes to withdraw from a course, the appropriate Change of Program form must be approved by the appropriate academic Dean and filed in the Office of the Registrar.

Students who stop attending a class without withdrawing from it officially will receive the appropriate grade or mark as determined by their attendance, participation, and performance, and in accordance with the grading criteria provided by their instructors. see page 14 "Grading Systems," for additional information.

Registration

Once advised, students may register according to the schedule published by the Registrar. The Registrar mails students a notice informing them of the dates of registration. This schedule and other information is available on the University's Web site. The Web offerings are updated daily and should be consulted regularly for additions, cancellations and changes.

Matriculated students are assigned an advisor upon admission. Students are responsible for planning their programs in consultation with their advisors or Dean, and for registering for approved coursework or maintenance of matriculation each semester until the degree is awarded. While registration reserves a seat in class, registration by itself does not guarantee that any class is acceptable toward a student's degree program. Students who register for

classes without their advisors' approval put themselves at financial and academic risk.

Students may register via the Web via St. John's Central, the University's portal. As with accessing grades, registration requires students to enter their University ID and their PIN. (Your ID is your "X" number as it appears on your acceptance letter.) Registration also requires students to enter their Priority Registration Number, which they obtain from their academic advisors.

Bills are mailed on a rolling basis. Registration is not complete until students have satisfied their financial liability with the Office of the Bursar. The University reserves the right to cancel the registration of a student who has not satisfied this responsibility by the announced due date.

Advisement Reports

St. John's University makes Advisement Reports available to students in many graduate programs via the University Information System (UIS). Advisement reports match courses that students have taken against the requirements for degree programs. While unofficial in nature, these reports are invaluable complements to the advisement process and should be presented to one's advisor at each advisement session.

Note that even new students may and should obtain an Advisement Report from UIS. If a new student has been awarded transfer credit or advanced standing and if the Registrar has been informed of such award, the Advisement Report will take it into consideration even before the student has registered for any classes. Even without such credit, however, the report will show all degree requirements.

Please also note that not all graduate programs have been coded for an Advisement Report. If UIS does not permit you to run a report for your program, this is because it has not yet been coded.

For additional advisement reports, consult the Registrar's website at the following url: www.stjohns.edu/services/registrar/advisement

Officially Notifying the University of a Withdrawal from Class

When you register for a class, the University considers it a clear indication of your intention to attend that class. If you change your mind about attending class or if circumstances prevent you from attending, you must notify us officially of your change in status. There are two ways to officially notify St. John's that you will not attend a class for which you have registered.

The first way is to drop the class. You can drop a class the same way that you registered for it—via St. John's University Information System (UIS). Web registration is available through the last day of the first week of the semester.

Note: you may drop classes via the Web as long as you are not dropping all your classes. The system will not allow you to drop your last class or the only class you have. If you want to drop all your classes, you must inform your Dean in writing.

During the second and third weeks of the semester, you may still drop a class, but you need to get permission from your Dean's Office. Bring this permission to the Office of the Registrar, and we will drop the class for you.

Classes dropped through the first three weeks of the semester do not appear on your transcript.

Withdrawing from Class

After the last day of the semester's third week, you can no longer drop a class. Any class for which you are still registered on the first day of the semester's fourth week will remain on your transcript. From this point on, you may withdraw from a class. To withdraw from one or more of your classes, contact your Dean's Office. If possible, you should visit the office in person so someone can discuss this decision with you. If you cannot visit the Dean's office, you must put your request in writing.

Requests made through the deadline indicated in the academic calendar will be honored. You will receive a mark of WD in these courses. This mark does not calculate into your GPA.

There is no guarantee that a request for withdrawal after the date indicated in the academic calendar will be approved. If a request after the deadline is not approved, you will receive a grade in the course.

Dropping or withdrawing from a class are academic actions initiated by students. If you do not drop a class during the first three weeks of the semester, it will remain on your transcript whether or not you attended the class, even if you are subsequently allowed to withdraw. You may be entitled to a full or partial refund of tuition paid for a class. Refunds are based on the official date you drop or withdraw, whether via the Web or through your Dean's office. Your Dean may not indicate as the date of drop or withdrawal any date prior to your official written request.

Students who stop attending a class without withdrawing from it officially will receive the appropriate grade or mark as determined by their attendance, participation, and performance, and in accordance with the grading criteria provided by their instructors.

Transcripts and Verifications

Students and alumni may request transcripts and verifications of enrollment in person, by mail or by the Web.

Once a request has been received, most transcripts are in the mail within three business days. Verifications of Enrollment, whenever possible, are provided when requested. There is no charge for transcripts or for verifications.

When requesting a transcript or verification by mail, be sure to include the following information: your full name and any other name used while at St. John's, the last four digits of your social security number, your dates of attendance, the division of the University you attended, degrees received, your address and telephone number, the reason for your request and the complete address to which you want the document sent. Be sure to sign your request; your signature is needed as authorization for releasing information about you.

Send your request to one of the following addresses:

ATTN: Transcript Desk
Queens campus
Office of the Registrar
St. John's University
8000 Utopia Parkway
Queens, NY 11439

ATTN: Transcript Desk
Staten Island campus
Office of Enrollment Services
St. John's University
300 Howard Avenue
Staten Island, NY 10301

ATTN: Transcript Desk
Manhattan campus
Office of Enrollment Services
St. John's University
101 Murray Street
New York, NY 10007

Students may view their entire academic record from the University's Web site. This record may be printed and, may be used as an unofficial document pending receipt of an official transcript or verification.

Veterans and their Dependents

Veterans and their dependents should contact the Department of Veterans Affairs regional office in Buffalo, New York, for information about educational benefits. The telephone number is 1 (888) 442-4551. The Department of Veterans Affairs also maintains a very useful Web site at the following URL: www.va.gov/. The Office of the Registrar certifies the enrollment of veterans and their dependents for educational benefits.

Conferral of Degrees

Graduate degrees are conferred by the Board of Trustees three times a year, in May, September and January.

"Conferral" means that the Registrar posts a notation of the award of a degree in our academic record-keeping system and this notation appears on a transcript.

All prospective candidates must file an application for their degrees in the Office of the Registrar at the beginning of the semester

in which they expect to complete requirements for the degree, but no later than the date indicated in the Academic Calendar.

Only those individuals who complete all the degree requirements by the end of the spring semester will be eligible to participate in the spring commencement exercises.

For details regarding Rome commencement exercises, please contact the appropriate Dean's office.

Commencement

The University holds one commencement ceremony a year, in May. Students whose degrees are conferred in September or January are invited to attend the May commencement ceremony. The Office of University Events informs candidates for degrees of the commencement ceremony to which they are invited. Commencement for the Rome campus is held in July.

Diplomas

Diploma applications must be completed at the beginning of the semester in which the degree is to be conferred. Applications are available in the Office of the Registrar. Students who want a name on their diploma that does not appear in our records must submit a change of name form with proof of their new name. Proof may be provided by court papers, marriage license, divorce papers and like documents. When providing proof of a name change, it is not necessary to submit portions of documentation that contain confidential or sensitive information; it is only necessary to submit that portion that attests to the name change.

Replacement Diplomas

If an original diploma is lost, stolen or destroyed, we will replace it. To order a replacement diploma, write to us for a replacement diploma application. Send your request to one of these addresses:

ATTN: Diploma Desk
Queens campus
Office of the Registrar
St. John's University
8000 Utopia Parkway
Queens, New York 11439

ATTN: Diploma Desk
Staten Island campus
Office of Enrollment Services
St. John's University
300 Howard Avenue
Staten Island, New York 10301

ATTN: Diploma Desk
Manhattan campus
St. John's University
Office of Enrollment Services
101 Murray Street
New York, NY 10007

Return your application to the same address with a notarized statement explaining what happened to your original diploma if it was lost or stolen. If the original was damaged, return it with your application. Your application must be accompanied by copies of two proofs of identity, at least one of which contains a photo. Examples of acceptable proof include a passport, driver's license, social security card and employment ID. There is a \$50 fee for a replacement diploma.

Full-Time Study in Graduate Programs

Full-time study shall mean enrollment for at least 9 credits a semester or the equivalent. This includes independent or individualized study, practice teaching, graduate assistantships, thesis or dissertation research and preparation for language or qualifying examination. Non-credit or prerequisite courses may be considered as contributing toward full-or part-time study on an equivalent basis. Such equivalence is determined through the program or school in which the student is enrolled and must be approved prior to registration. A student carrying a full-time program that includes non-credit prerequisite courses will carry at least six credit hours each semester with the exception of the first semester, in which a student need carry only three credit hours. A combination of such credit and prerequisite work shall equal the minimum student effort requirement for full-time study. Courses taken entirely on a personal or voluntary basis, or solely to meet teacher certification, licensing or other external requirements, not recommended or required by the school, shall not contribute to full- or part-time study.

Students will not be permitted to register for more than 12 hours of graduate study in any semester. However, under unusual circumstances and with appropriate approval, students will be permitted to register for up to 15 hours. [All students holding F-1 or J-1 visas must be enrolled in a full-time program (12 credits or the equivalent).]

Time Limit

Students who are unable to devote their full time to graduate study may extend the time for obtaining the master's degree or professional diploma beyond the normal span of two years. All coursework, research tool, residence and examination requirements must be satisfied within five years. No degree credit will be allowed for courses completed more than five years before the granting of the degree or diploma.

Students working for the doctorate must complete all requirements for the degree within seven years (eight years for The School of Education). No degree credit will be allowed for courses completed more than seven years prior to the granting of the degree.

Examinations

If a student is not present for the regular final examination, a make-up examination may be permitted by the appropriate Dean. Permission may be granted in the case of students whose academic work is acceptable and only when the reason for absence from the scheduled examination is of a sufficiently serious nature, i.e., an emergency situation which absolutely precluded attendance and can be documented to the Dean's satisfaction. The deferred examination may be taken only on the date published in the Academic Calendar and the student is subject to a make-up examination fee in each case.

Auditing Courses

A student who audits a course is one who is qualified to register for a credit course for which no credit will be granted. *Students may not audit a course which they subsequently would be required to complete for their degree.* Auditors are expected to attend class but are not responsible for examinations or written assignments. A grade of "AU" for the course will be noted on the permanent record.

Permission to audit a course must be obtained on a Pass/Fail-Audit Option Request form from the student's Dean and the Dean of the school in which the course is offered. This written permission must be presented to the Office of the Registrar. Audit and credit courses may not exceed 18 semester hours per term. Full tuition and fees are charged for audited courses. A student may not change from audit to credit status or vice versa once the semester begins.

Grading System

A letter system is used in assigning grades for the course with quality points given for each grade:

Grade	Quality Points
A	Excellent 4
A-	Excellent 3.7

B+	Very Good 3.3
B	Good 3
B-	Good 2.7
C+	Fair 2.3

C	Passing 2
F	Failure 0
INC	Incomplete 0
ABF	Absent/Failure 0
WD	Withdrawal 0
P	Passing 0
AU	Audit 0
UW	Unofficial Withdrawal 0

Credit for courses is given in semester hours. The quality points for a course are obtained by multiplying the points corresponding to the grade given for the course by the number of semester hours of credit attached to the course. The total quality points for all courses divided by the total credits attempted give students their quality point index.

Besides term examinations, courses which carry three semester credits but which meet for only two hours a week require the submission of a research paper or some equivalent research project before credit may be given.

An "INC," i.e., incomplete grade, may be given if the student fails to submit a research paper on some equivalent research project. Students receiving an "INC" grade must submit all required materials no later than the deadline indicated in the Academic Calendar in this bulletin. If the "INC" is not removed within this time period, it remains "INC" on the permanent record, and the student who requires the credit for this course must repeat it. *The student must request a grade of incomplete from the professor before the end of the semester.*

Audit: Graduate students may audit courses with permission of their Dean. Students may not audit a course which they subsequently would be required to complete for their degree. Auditors are expected to attend class but are not responsible for examinations or written assignments. A grade of "AU" for the course will be noted on the records.

A student will be given the grade of "WD" if he withdraws from a course, with the permission of the appropriate Dean, any time up to the date indicated in the Academic Calendar.

Academic Standing

Students in the master's and advanced certificate programs must maintain a 3.0 quality point average to continue in graduate work. Students who fail to maintain this average, either in a particular semester or in their overall academic record, are subject to having their academic program terminated.

Students in the master's programs of the College of Pharmacy and Allied Health Professions will automatically become subject to review by the appropriate college committee

and Dean. Students are subject to academic dismissal as a result of such review.

Students in doctoral programs are required to receive at least a "B" grade in all courses. Grades of "B-" will not count as a "B" where required for doctoral courses. When a student receives a grade of less than a "B," his or her program will automatically become subject to review by the appropriate department, interdepartmental graduate committee and the Office of the Dean.

Residence

Residence requirements assure adequate contact between the University and the graduate student while providing necessary association with scholars in the student's area of specialization.

With the exception of the Master of Arts program in Speech-Language Pathology and Audiology offered by St. John's College of Liberal Arts and Sciences, the master's and professional diploma programs offered by The School of Education, and the Master of Business Administration offered by The Peter J. Tobin College of Business, all master's degree students must successfully complete 12 semester hours of academic credit during two consecutive academic semesters. For regulations on satisfying the residence requirement of a particular master's or doctoral program, each student should consult the appropriate college/school and department/division section in this bulletin.

Continuous Enrollment—Maintaining Matriculation

Master's Degree and Advanced Certificate

Continuous enrollment for matriculation until the degree is awarded is obligatory for students enrolled in degree programs. Those who are not enrolled in coursework must maintain their active status each semester by enrolling in Maintaining Matriculation at the scheduled registration periods. Students who have not satisfied the continuous enrollment requirement for two or more semesters must

- 1) apply for re-admission,
- 2) meet the requirement in effect at that time,
- 3) be re-admitted,
- 4) pay appropriate maintaining matriculation fees for two semesters. In order to register for the proper Maintaining Matriculation course, students should consult their departmental/divisional course offerings.

Comprehensive Examination

Most degrees require the satisfactory completion of a comprehensive examination. This examination must be taken within a year after the satisfaction of all courses, language and residence requirements.

Students in The Peter J. Tobin College of Business and the College of Pharmacy and Allied Health Professions should consult with the appropriate Dean's office for complete details and requirements regarding the comprehensive exam.

This examination may be oral or written or both, according to the regulations of a particular department/division. The matter for this examination is not limited to the courses taken by the student, but may cover general concepts as well as the whole area of the candidate's field of study. The comprehensive examinations may be held in the fall, spring or summer according to departmental/divisional regulations as noted in the Academic Calendar.

Applications for these examinations should be made in the office of the appropriate Dean no later than the dates assigned in the calendar. Late fees may apply. The individual examiners report the results of this examination in writing to the Dean, who communicates them to the individual candidates. In case of failure, one re-examination may be permitted upon the recommendation of the departmental/divisional Chair and the Dean.

Doctoral Degree

Before sitting for the comprehensive examination, students must be registered in coursework or be enrolled in the appropriate Maintaining Matriculation course. In order to register for the proper Maintaining Matriculation course, students should consult their departmental course offerings. After successful completion of the comprehensive examination, students must enroll in the appropriate three-credit Doctoral Research course each semester until the degree is awarded. In order to register for the proper course, students should consult their departmental/divisional course offerings.

Students who have not satisfied the continuous enrollment requirement for two or more semesters must

- 1) apply for re-admission,
- 2) meet the requirements in effect at that time,
- 3) be re-admitted,
- 4) pay the appropriate fees for two semesters.

Research Review Board

All research carried out by students, faculty or affiliates of St. John's University involving human subjects must be approved by the Institutional Review Board for use of Human Subjects (IRB).

All research involving animals must be approved by the Institutional Animal Care and Use Committee (IACUC). This requirement includes any thesis, dissertation, research project or research essay. Such approvals must be secured before research is begun, *must be renewed each year and expires upon completion of degree.*

*Guidelines and application forms for both IRB and IACUC review are available on-line at: www.sju.stjohns.edu/grants/research.html.

Master's Thesis

A department or division may require a thesis for the master's degree. Students should consult the appropriate department to ascertain if this is required or optional.

The master's thesis should offer evidence of sound research and an adequate treatment of a well-defined subject. A mere essay or compilation of facts will not be accepted. The thesis must be written on a subject comprehended under the major and approved by the mentor and the departmental committee.

The responsibility for a well-organized presentation of personal research rests with the student and is in no sense a part of the instructional responsibility of faculty members.

Before beginning the writing of the thesis, the student should consult with the Chair of the department and become familiar with the style sheet utilized by the department. The completed thesis should be submitted to the readers no later than the date indicated in the Academic Calendar, normally three calendar months before the end of the semester.

An original and one copy of every approved thesis for the master's degree must be submitted to the Dean. These will be bound and will become the property of the University Library. They must be printed on 20-pound, acid-free, non-corrasable bond paper with a minimum 25% rag or cotton content.

Theses must be submitted to the Dean in accordance with the date indicated in the Academic Calendar.

Doctoral Dissertation

The responsibility for a well-organized presentation of personal research (as well as the details involved) rests entirely with the student and is not part of the instructional responsibility of faculty members.

Since the doctoral dissertation research essay must present evidence of a substantial contribution to existing knowledge as a result of personal research, it is considered a criterion of the student's scholarly attainment and will largely determine his/her final success in reference to the degree.

The title of the dissertation, along with the names of the mentor and members of the research committee, must be submitted to the department and then the Dean for approval. When the student's mentor has approved the completed dissertation, the reader's copies, typewritten according to the approved format, must be submitted approximately four calendar months before the end of the semester. The format to be used is specified by the appropriate department or school.

In establishing a doctoral dissertation/research essay committee, preparing a dissertation proposal and submitting and defending the dissertation, the following guidelines apply:

1. Students have the responsibility for requesting a mentor from the doctoral core faculty.
2. The student and mentor work together to choose a committee adhering to the following procedures and guidelines:
 - a. The committee shall consist of the mentor and at least two other members.
 - b. The two members plus the mentor shall come from the department/division.
 - c. One additional member of the committee may come from outside St. John's University.
 - d. The departmental/divisional Chair, Dean and mentor must unanimously approve any outside member.
 - e. Final approval of the committee composition rests with the Dean.
3. The dissertation proposal must be approved by the committee and then forwarded to the departmental Chair for his/her recommendations and then to the appropriate Dean for his/her approval.
4. There shall be an interim oral presentation of the dissertation in progress made before the doctoral committee which shall be scheduled by the mentor.
5. A manuscript based upon the dissertation and properly prepared for submission to a refereed journal must be submitted to the mentor prior to the scheduling of the oral defense.
6. The oral defense shall be open to the University community.
7. The mentor acts as the Chair of the oral defense, unless otherwise determined by the Department GEPC or its equivalent. The Chair of the oral defense shall be responsible for conducting the defense according to parliamentary procedure.

Students must consult their respective Dean's office, as well as the Directors or Chairs of their doctoral programs, for the specific guidelines, timelines and stylistic formats which apply to the dissertation within their discipline.

After the completed dissertation has been formally accepted, the candidate must defend the dissertation in a final oral examination before the faculty and the doctoral committee. The final copies (i.e., an original and two copies) of the completed dissertation must be submitted to the Dean for approval in accordance with the Academic Calendar. All dissertations must conform fully to current style guidelines appropriate to the discipline.

Each copy shall have a title page, bearing the subject, the author's name, the mentor's name, the date of presentation and the statement: *"Submitted in partial fulfillment of the requirements for the degree of Doctor of Philosophy (or Doctor of Education or Doctor of Arts) to the faculty of the department (or division) of (Psychology, Administrative*

and *Instructional Leadership, Pharmaceutical Sciences, etc.*) at St. John's University, New York."

Dissertations that are accepted for publication by commercial publishing houses should indicate that they were originally submitted as a doctoral degree requirement at St. John's University.

On another page shall be listed the student's vitae, giving the institutions at which undergraduate and graduate work was done, the degrees received and the dates.

The original and one copy of the dissertation will then be sent to the Serials Department, University Library. The library retains one paper copy of each doctoral dissertation and two paper copies of each master's thesis. The paper for all library copies must be of high quality—20 lb., acid-free, non-corrasable bond paper with a minimum of 25% rag or cotton content. The paper must have a good opacity, that is, print on one page should not easily show through the page in front of it. The margins for all copies must be one and one-half inches on the left side of each page and one inch on each of the other three sides. Note that these margins must also be left on pages containing graphs, illustrations, appendices, etc. Print on all copies must be dark and even. Word processed copies must be of letter quality.

The original abstract of each dissertation (not more than 350 words) and two copies thereof must accompany the dissertation. The original dissertation and abstract will be sent to University Microfilms, Inc. (UMI) for microfilming. The paper original and microfilm are returned to the library, while the abstract remains at UMI.

The microfilm will be kept permanently at the library. The original with the abstract, as well as the copy and its abstract, will be bound and returned to the library. The original will remain at Circulation/Reserve and the second bound copy will be sent to the appropriate graduate school.

A fee, per bound copy, will be assessed each candidate for this binding service. Each candidate for the doctoral degree is required to fill out a special contract (obtainable in the Dean's office) for "University Microfilms, Inc."

Graduate Financial Aid Forms

St. John's University awards most of its financial assistance to graduate students based on academic ability and financial need, as assessed by means of the federally approved needs analysis known as the Federal Methodology. The Federal Methodology needs analysis assists colleges, universities and other agencies in determining a student's need for financial assistance.

Entering graduate students seeking financial assistance from any federal or institutional source of funding (including student loans) are required to submit a copy of the Free Application for Federal Student Aid (FAFSA) to the Federal Processing Center designating St. John's University, federal institution code number 002823, as one of the recipients. When the FAFSA is processed, the student receives a federal Student Aid Report (SAR). You may obtain and complete your FAFSA application online at www.fafsa.edu.gov.

Full-time graduate students who are New York State residents may also apply for the Tuition Assistance Program (TAP) by means of the TAP Electronic Application. New York State residents who complete the FAFSA are automatically considered for TAP.

Assistantships and Fellowships

Assistantships and fellowships in the humanities, sciences, education, business administration and pharmacy are awarded annually to academically qualified graduate students. Appointees carry a program of graduate study commensurate with their fellowship and assistantship schedules, and are not permitted to accept employment or other appointments either inside or outside the University during the period of their contract. Assistantships and fellowships provide remission of tuition; for some types fees are also covered and/or a stipend is available (see following information). These assistantships and fellowships are contracted on a yearly basis.

Information about graduate assistantships and application forms are available from the Office of Admission. Information about fellowships is available from the office of the academic Dean of the appropriate graduate unit. All credentials for assistantships and fellowships should be submitted no later than April 1, unless otherwise noted.

Graduate Assistantships and Doctoral Fellowships

Assistantships and fellowships are awarded on a yearly basis to qualified graduate students. These awards are based on academic achievement. A stipend plus full-tuition remission for up to 12–15 credits a semester is awarded (dependent upon program); a recipient must

not be employed elsewhere. Further information about availability may be obtained from the Dean of the graduate program in which the student is interested.

The number of credits may vary slightly for Graduate Division of Arts and Sciences students who have reached a particular level in certain programs.

Research Fellowships

Research fellowships are available in various departments. These fellowships are made available through grants from governmental agencies and various industrial concerns. Further information is available by contacting the appropriate Deans.

Currently, fellowships for doctoral study in biology are available to qualified students through the Grants in Academic Areas of National Need (GAANN) Program; contact the Director of Graduate Programs in Biology for information. The Initiative to Maximize Student Diversity Program provides fellowships for graduate study, in a variety of master's and doctoral programs, to students from traditionally underrepresented groups. Contact the program coordinator, Wanda Rowe Johnson, for details: (718) 990-1671 (All are welcome to apply.)

Doctoral Fellowships

Also, a limited number of University doctoral fellowships are available for programs leading to the Doctor of Philosophy degree (biology, clinical psychology, pharmaceutical sciences), Doctor of Arts degree (English, history) and the Doctor of Education degree (educational administration and supervision, instructional leadership). These fellowships are academic honors which are offered only to highly qualified students. They provide a stipend besides defraying tuition and fees. A fellowship holder has no additional duties beyond graduate studies. The term of each award is one calendar year and ordinarily may not be renewed. Upon termination of their awards, Doctoral Fellows are eligible to apply for other forms of financial aid. Further information is available from the appropriate academic Dean's office.

University Doctor of Arts Fellowships

A limited number of University Doctor of Arts Fellowships in English and history are available. The amount of this fellowship award is total remission of tuition and fees for up to two graduate courses in each semester of the academic year. Stipends are not awarded to the Doctor of Arts Fellowship recipients. The sole criterion for selection of these awards is academic merit. Students may be considered for fellowship renewal. These fellowships do not require full-time graduate study. Further information is available from the Dean of the Graduate Division of St. John's College of Liberal Arts and Sciences or from the department Chair.

Clare Boothe Luce Doctoral Fellowships in Biology

Clare Boothe Luce Fellowships are academic honors offered each year to a limited number of superior women doctoral applicants in biology. A legacy of the estate of Clare Boothe Luce, the Luce Fellowships were established at a few selected institutions in order to encourage women to study and subsequently pursue academic careers in science, mathematics and engineering. These fellowships provide a stipend, a dependency allowance and tuition waivers for up to 30 credits per academic year. Appointments are for an initial two-year period, with possibility of renewal for a third year. Recipients of Clare Boothe Luce Fellowships have no additional duties beyond their graduate studies and may not accept employment either inside or outside of the University while they hold fellowships. Eligibility for these awards is limited to women who are U.S. citizens. Further information is available from the Dean of the Graduate Division of the St. John's College of Liberal Arts and Sciences.

Scholarships

Scholarship awards are made primarily on the basis of scholastic achievement and need. They are generally given to full-time students for a period of one year. Their annual renewal, contingent on satisfactory work, is at the discretion of the University Committee on Scholarships. Application for scholarships should be made to the academic Dean's office unless otherwise indicated. All credentials for scholarships should be submitted no later than April 1 unless otherwise stated.

Scholarships cover full tuition (but not fees) unless otherwise noted as partial awards in the following descriptions.

The St. John's College of Liberal Arts and Sciences M.A./J.D. Research Scholarships

These research scholarships are awarded to qualified students in the M.A./J.D. program offered by the St. John's College of Liberal Arts and Sciences and the School of Law. The terms of the scholarship provide the recipient with tuition remission for those courses offered through the Department of Government and Politics. Tuition waivers are not given for any course offered by the School of Law. The scholarship recipient is obligated to engage in research work for eight to 12 hours per week as assigned by the Chair of the Department of Government and Politics. All fees must be paid by the recipient. For a scholarship application and for further information, students should contact the Dean, Graduate Division of the St. John's College of Liberal Arts and Sciences.

Graduate Arts and Sciences Doctoral Scholarships

St. John's University provides a limited number of scholarships especially for qualified doctoral students from backgrounds traditionally underrepresented in higher education. Scholarship candidates must be matriculated students in a doctoral program in either biology, clinical psychology or school psychology. A scholarship recipient has no additional duties beyond his/her graduate studies. The scholarship provides remission of tuition for up to 24 credits for one academic year (12 credits per semester). While the scholarship is not renewable, the recipient may be eligible for other forms of financial assistance upon completion of the academic year. For additional information, contact the Office of the Dean, Graduate Division of the St. John's College of Liberal Arts and Sciences.

The School of Education Scholarships

St. John's University awards two tuition-free scholarships for the Master's degree to graduates of Catholic colleges or universities who have expressed a determination to enter the teaching profession. Students interested in these scholarships are referred to the Office of the Dean, The School of Education.

The School of Education scholarships below:

- Assistantships/Fellowships
- Catholic Scholarship
- Graduate Scholars in Education
- Grants
- Intensive Teaching Institute
- Superintendent's Scholarship
- Tuition Reduction Scholarship

Assistantship/Fellowships:

Awarded to full-time students on a yearly basis, based on academic achievement, assistantships offer a \$4,000 stipend plus full tuition remission for up to 12 credits a semester. Teaching Fellowships consist of a \$7500 stipend plus tuition remission from September to May. Doctoral Fellowships offer a \$10,000 stipend plus tuition remission from September to May. Students who receive this award must work an average 20 hours per week in the School of Education. All may be renewed yearly.

Requirements for Consideration

Based on academic achievement and two letters of commendation. Minimum of an 1100 on the GRE for Teaching Fellowships and Doctoral Fellowships.

How to Apply

Submit your completed application along with the application for the assistantships/fellowships. Deadline: None. Assistantships/Fellowships are limited and are extremely competitive.

Catholic College/University Scholarship

An academic scholarship is awarded to select eligible graduates with a record of significant achievement from a Catholic college or university who have completed a major or minor in education. This scholarship is extremely competitive. Each scholarship provides for full-time study in one Master's degree in the Graduate Division of the School of Education. The scholarship commences with the fall term and is applicable to new students only. Students are responsible for all fees, books and other expenses.

Requirements for Consideration

You must be a graduate from a Catholic college or university and have completed a major or minor in education. Submission of an application to the University, statement of professional goals, resume, two letters of reference supporting your service to your college/university and/or community and/or activities.

How to Apply

Simply submit your regular application and the Catholic Scholarship application along with your transcripts, resume, two letters of reference supporting your service to your college/university and/or community and/or activities as well as your statement of goals. Deadline April 1: all materials are due for enrollment in the following fall semester.

Graduate Scholars in Education Program

Responding to the critical need for teachers, St. John's University announces the creation of tuition scholarships toward a full Master's degree in education. This highly competitive scholarship, worth \$6,000 for the program of 33-60 credits, will be awarded to select eligible applicants commencing with the fall semester.

Requirements for Consideration

Submission of an application to the University for a Master's degree for the fall semester, a minimum 3.5 grade point index \pm and passing scores on the New York State Teacher Certification Examinations (LAST, ATSW, CST)* For information on registering for the exams, go to: nystce.nesinc.com

\pm Career change and counseling majors must have a 3.6 GPA.

*Not required for career change counseling majors.

How to Apply

Submit your regular application along with your transcripts showing your grade point average of 3.5 \pm or higher, your teaching certification examination scores* and a statement of goals.

Deadline June 1: all materials are due for enrollment in the following fall semester. This is an extremely competitive scholarship. Students are urged to apply as far in advance as possible.

Intensive Teaching Institute (I.T.I.)

Intensive Teaching Institute in Bilingual Education and English as a Second Language is funded by New York State Education Department (NYSED) in partnership with St. John's University, Graduate Programs in Teaching English to Speakers of Other Languages.

Created to address the shortage of certified bilingual and English to Speakers of Other Languages (ESOL) teachers in New York State, St. John's University and the Intensive Teaching Institute in Bilingual Education and English as a Second Language (ITI-BE) provide almost total tuition assistance for approved, already employed New York State public school educators and counselors working in grades K-12. The ITI-BE 15 credit course sequence programs offered at St. John's University are structured to prepare teachers and Pupil Personnel Service providers who are currently employed as NYS public school teachers and counselors with an advanced certificate from New York State Education Department. The unique New York

State initiative, which St. John's University School of Education TESOL Program has embraced, prepares for certification, in-service teachers and Pupil Personnel Service (PPS) providers (school psychologists, counselors and social workers) who are currently working with English Language Learners (ELLs) in a variety of classroom settings and providing pupil personnel services to such students.

Superintendent's Scholarship

Tuition will be reduced for those enrolled at the Oakdale campus for Master's level or advanced certificate courses and who submit a letter of recommendation by their school superintendent or building principal and meet the entrance requirements for graduate study at St. John's.

Tuition Reduction Scholarship

As part of our mission as a Catholic university, St. John's awards full-time personnel in Catholic schools a 40% tuition reduction

for one Master's degree or one Advanced Certificate.

Requirements for Consideration

You must be a full-time employee within a Catholic school

How to Apply

Simply submit your application along with all other necessary materials. If accepted into the university, you must complete a written form each semester and submit it to the Office of Financial Aid. Deadline: None.

Special Graduate Scholarship Program for Public Employees

Each semester St. John's University awards a limited number of graduate scholarships to students who are Public Management employees pursuing a master's degree in the Graduate Division of Liberal Arts and Sciences, Department of Government and Politics. Applicants may inquire through the Department of Government and Politics.

The Gerald E. Fitzgerald Memorial Scholarship

This scholarship was established in memory of Dr. Gerald E. Fitzgerald, a professor at St. John's for 17 years and former Chairman of the Department of Government and Politics. Recipients are selected by the Theology Department and the Dean of the Graduate Division of the College of Liberal Arts and Sciences. Students should contact the Theology Department for further information.

The Richard Kugelman Scholarship

St. John's University's Theology Department awards one scholarship for the study of theology, especially sacred scripture, in the Graduate Division of the College of Liberal Arts and Sciences. The award is made to a qualified financially needy graduate student to honor the late Rev. Richard Kugelman, C.P., former Chair of the Theology Department and prominent biblical scholar. Interested students are referred to the Chair of the Theology Department.

The Chin-Ying Scholarships for Graduate Asian Studies

Established in 2005, two scholarships will be awarded annually to two graduate students, preferably of Chinese descent, pursuing a master's degree in East Asian or Chinese Studies. These scholarships are provided by Prof. and Mrs. Chin Ling Wang. Prof. Wang has been a dedicated faculty member of St. John's for nearly thirty years until his retirement. Qualified applicants must possess a minimum average of a B+ or a 3.0 cumulative index. Recipients are selected with the recommendation of the Institute for Asian Studies as scholastic basis for the Office of Financial Aid to make decisions.

New York State Aid Satisfactory Academic Progress Requirements

Full-Time Graduate Students (excluding the School of Law): Before being certified for a TAP payment, a student must have accrued the specified number of credits, with at least the listed grade point average.

Before being certified for this payment

A student must have accrued at least this many credits

	First Semester	Second Semester	Third Semester	Fourth Semester	Fifth Semester
A student must have accrued at least this many credits	0	6	12	21	30

With at least this grade point average

With at least this grade point average	0	2.25	2.5	2.75	3.0
----------------------------------------	---	------	-----	------	-----

Before being certified for this payment

A student must have accrued at least this many credits

	Sixth Semester	Seventh Semester	Eighth Semester	Ninth Semester	Tenth Semester
A student must have accrued at least this many credits	45	60	75	NONE	NONE

With at least this grade point average

With at least this grade point average	3.0	3.0	3.0	NONE	NONE
----------------------------------------	-----	-----	-----	------	------

Measurable satisfactory academic progress for a graduate student:

1. The student must complete 70% of credits attempted by the end of each school year of enrollment. (You may make up credits during the summer, at your own expense, to establish continued aid eligibility for the next school year.)
2. The student must maintain a cumulative grade point average (GPA) of 2.0. (You may attempt to achieve the necessary cumulative index through attendance in summer school, at your own expense, to establish continued aid eligibility for the next school year.)
3. Law/graduate academic scholarship terms are monitored by the individual schools. The user must contact their academic Dean regarding scholarship terms.

The Blaise J. Opulente Scholarship

This scholarship was established to honor the memory of Dr. Blaise J. Opulente, a dedicated professor who, after long service as a faculty member of St. John's, was appointed the first chief lay administrator of St. John's University. Its purpose is to provide one or more partial scholarships to a student enrolled in a master's program in the Graduate Division of Arts and Sciences. Recipients are selected by the Office of Financial Aid in association with the Dean of the Graduate Division of Liberal Arts and Sciences, on the basis of financial need and scholastic achievement.

The Dr. and Madame H. K'ung Memorial Scholarship

This scholarship program, established in 1978, provides partial scholarships to students pursuing graduate study in Asian Studies. New applicants must possess at least a "B+" cumulative index. Awards are renewable provided the recipient maintains a 3.0 cumulative index. Selection is made by the Office of Financial Aid in consultation with the Institute of Asian Studies within the Graduate Division of the College of Liberal Arts and Sciences.

The Loretta and Frank Kunkel Scholarship

St. John's University's English Department awards one scholarship for the study of English Literature in the Graduate Division of the College of Liberal Arts and Sciences. The award is made to a qualified financially eligible graduate student to honor Dr. Frank Kunkel, professor emeritus of English, and his late wife, Loretta. Interested students are referred to the Chair of the English Department.

The Ta-ling and Han-li Lee Award

This grant program was founded to assist academically excellent students in the Master of Arts degree program in East Asian Studies. Worthy candidates must intend to pursue graduate studies beyond the master's degree and to pursue a career in secondary, or university-level teaching in the East Asian Studies field. One or more partial annual grants will be made based on academic excellence with particular emphasis on East Asian historical scholarship, financial need and the recommendation of the Director of the Institute of Asian Studies within the Graduate Division of the College of Liberal Arts and Sciences.

The St. John's University-New York City Mayor's Scholarship

In conjunction with the Mayor's Graduate Scholarship Program, St. John's University offers partial tuition scholarships to full-time employees of city government who have graduated or are about to graduate from an accredited undergraduate institution of higher education. Opportunities are afforded for half-time, three-quarter-time or full-time graduate

study toward the M.B.A. degree at St. John's University. Applications are available at the office of the applicant's agency Personnel Director.

The Gabriela Mistral Scholarship/Beca Gabriela Mistral

This scholarship is granted once a year to graduate students enrolled in the Master of Arts Program in Spanish at St. John's University and at the Universidad de Chile, Santiago, Chile. The scholarship entails the granting of complete tuition remission for one semester to one student selected from each of the two institutions. The student selected from St. John's University thus spends a semester free of tuition and student fees at the Universidad de Chile. Interested students should contact the coordinator of the Graduate Program in Spanish, Department of Languages and Literatures.

The Robert Azzara Endowed Scholarship

This scholarship was established by Frances and Frank Azzara. An award is made to one graduate student each year who is enrolled in the Masters Degree program in Speech, Pathology and Audiology. Selection is made by the Office of Student Financial Services based on a combination of need and strong academics. Interested students should contact the Office of Financial Services for further information.

The Richard Kugelman Endowed Scholarship

This scholarship was established in memory of Fr. Richard Kugelman who held a great devotion to biblical scholarship and a deep concern for the poor. Consideration for this award is granted to graduate students enrolled in religious studies. Candidates are required to demonstrate financial need. Interested students should contact the Department of Theological Studies for further information.

Federal Financial Aid

A recipient of any type of federal financial aid must make appropriate satisfactory academic progress in order to continue to be eligible to receive federal financial aid. Students failing to make satisfactory academic progress lose eligibility for federal aid. Consult the Office of Financial Aid for details regarding the University's satisfactory academic progress requirements for federal aid recipients.

Federal Family Education Loan Programs

What is a Federal Direct Student loan?

Federal Direct Student loans are one form of student aid from the federal government. Under the Federal Direct Student loan program students borrow money for school from the federal government. The Office of Student Financial Services encourages students to evaluate loan options carefully, borrow only what is really needed and remember that loans must be repaid.

How much can I borrow?

\$20,500 is the maximum annual amount a graduate student is eligible to borrow in the form of a Stafford Loan, no more than \$8,500 of which can be subsidized.

What is the difference between a subsidized and an unsubsidized loan?

For the Federal Direct Subsidized Student Loan, you will not be charged interest until you begin repayment. Repayment begins six months after you cease to be enrolled at least half-time (including leaves of absence). The interest rate for Federal Direct Subsidized Loans for graduate students is 6.8%.

For the Federal Direct Unsubsidized Student Loan, the government will not pay interest while a student is in school as it does for the subsidized loan. Interest accrues and must be paid or capitalized during periods of enrollment in school and/or deferment. The interest rate for Federal Direct Unsubsidized Loans for all students is 6.8%.

Are there any other federal loans available to graduate students?

The Federal Direct Graduate PLUS Loan is a federal loan available to graduate students. The maximum amount you will be eligible to borrow for the 2010-2011 school year will be indicated on your St. John's award letter. Students often elect to limit the amount which they borrow to the difference between annual direct costs and other financial aid which you have received. Direct costs are those paid directly to St. John's including tuition, fees, and room and board for resident students. Indirect costs consist of all other expenses that relate to attendance at St. John's. Your entire estimated cost of attendance is available on your UIS account. The interest rate on Federal Direct Graduate PLUS Loans is 7.9%. Please note the interest is set by the U.S. Department of Education and is subject to change on an annual basis.

What fees, if any, are associated with these loans?

For Stafford Loans, an origination fee of 1.0% of the total loan will be assessed and an up-front rebate of 0.5% will automatically be awarded. For Graduate PLUS loans, an origination fee of 4.0% will be assessed and an up-front rebate of 1.5% will automatically be awarded. To keep this up-front rebate, the borrower must make their first twelve payments on time once entering repayment. The net disbursement will reflect these fees; therefore, the amount credited to the student's account will be less than the loan amount. This fee is determined by the U.S. Department of Education. Please note the fees are set by the U.S. Department of Education and are subject to change on an annual basis.

How do I apply for a Federal Direct Student Loan?

Federal Direct Stafford Loan Process

Step 1: All students who wish to borrow a Federal Direct Stafford Loan must first accept their loans. Loans are accepted or declined on the student's personal UIS account by following the instructions below:

- Log in to UIS and click on the Financial Aid tab
- Click on My Award Information then Award by Aid Year
- Select the 2010–2011 aid year and submit
- Click on the Accept Award Offer tab
- Follow the on screen instructions to fully accept, partially accept, or decline your loan awards

Important Note: If you wish to reinstate a loan you have already declined or modify a loan you have already accepted, please print, complete and return a Student Loan Change Form available online at <http://www.stjohns.edu/services/financial>.

Step 2: First time Direct Loan borrowers only must complete a Federal Student Loan Entrance Counseling Session in accordance with federal regulations. Go to www.StudentLoans.gov and click on Entrance Counseling. (When selecting a school during entrance counseling, search for "Saint John's University" without using abbreviations.)

Step 3: First time Direct Loan borrowers only must complete a Direct Loan Master Promissory Note (MPN) at www.StudentLoans.gov. Borrowers will need their FAFSA Personal Identification Number (PIN) in order to complete the MPN. If you do not have a PIN or cannot recall it, you can request your PIN at www.pin.ed.gov.

Federal Direct Graduate PLUS Loan Process

All new Direct Grad PLUS Loan borrowers must complete a separate Grad PLUS Entrance Interview at www.StudentLoans.gov. All borrowers must have their credit history checked by the Department of Education. Approved borrowers will then have to complete a Master Promissory Note in order to obtain a loan. Students should go to www.StudentLoans.gov to complete the PLUS process.

Where can I learn about the various federal student loan programs?

For more information, please visit the following websites:

- www.stjohns.edu/financialaid
- www.studentaid.ed.gov
- www.nsls.ed.gov
- www.ed.gov/offices/OSFAP/DirectLoan

New York State Financial Aid

Tuition Assistance Program (TAP)

The program provides grants varying from \$75 to \$550 a year, depending upon the family New York State net taxable income. The awards are made to New York State residents who enroll in a full-time degree program.

All students applying for state financial assistance, such as the TAP, must meet the minimum standards for satisfactory academic progress and program pursuit as listed on the previous page in order to comply with section 145-2.2 of the New York State Education Department's regulations and to continue their eligibility for state financial assistance.

The State Education Department's regulations concerning program pursuit are as follows: a student must achieve a passing or failing grade in the following percentages of a full-time program (which is a minimum of 12 credits a term) in each semester he/she receives TAP in order to continue to be eligible for TAP payments in the subsequent semester. The percentages are: first year of TAP payment—50% of full-time program must be completed; second year of TAP payment—75% of full-time program must be completed; third and fourth years of TAP payment—100% of full-time program must be completed. If the graduate TAP recipient received TAP as an undergraduate, the number of undergraduate TAP payments received determines what level of program pursuit the first-time graduate student must meet. For example, if the graduate recipient already received four or more undergraduate TAP payments, he/she would be at 100% program pursuit level through each semester of graduate study.

Please be advised that these outlined satisfactory progress standards are for the purposes of state aid eligibility; they are not the same as the University's own established standards for satisfactory progress.

Students must meet both the program pursuit requirements and the satisfactory academic progress requirements in each term of TAP payment in order to continue TAP eligibility. Students not complying with the state standards for program pursuit and satisfactory academic progress will have their eligibility re-established only after evidencing ability to successfully complete an approved program.

Regents Professional Opportunity Scholarships

New York State provides this scholarship program on both the undergraduate and graduate levels for certain professional programs of study. The approved graduate programs include Law (J.D.), psychology (Doctorate), social work (Master's) and speech-language and pathology/audiology (Master's). These scholarships require a service commitment after completion of the professional program.

Regents Professional Opportunity Scholarship applicants must plan to study full-time and, to receive top priority for scholarship selection, be both economically disadvantaged and belong to a group that is traditionally under-represented in the field. Scholarship recipients receive \$1,000–\$5,000 a year for up to four years of study, unless enrolled in a program recognized by the NYS Regents as requiring five years to complete. No award shall exceed the cost of attendance.

Further information and scholarship applications may be obtained from: the NYS Education Department, State and Federal Scholarships Unit, Cultural Education Center, Albany, NY 12230.

Hours:
Mon.–Thurs., 8:30 a.m.–4:30 p.m.
Fri., 8:30 a.m.–3 p.m.

Currently, over 10 alumni constituent groups (organized by college and other affiliations) and more than 40 regional chapters involve some of the 158,000 alumni of St. John's University. Group, chapter and individual activities are sponsored by the Office of Alumni Relations. With a yearly contribution to the University, alumni, as well as other individuals, receive corporate partner benefits and discounts.

Alumni Relations:

- Coordinates social and educational functions throughout the year
- Offers tickets to cultural and entertainment events
- Sponsors professional networking and career development opportunities
- Offers group travel and tour programs
- Sponsors and implements alumni reunion and homecoming events
- Sponsors alumni receptions and athletic events both at home and away
- Co-sponsors various alumni networking events with the Career Center
- Sponsors the Student Alumni Association (SAA) for current students
- Coordinates Alumni Insider's View programs including the "Insiders View of the Capital" and "Day on Wall Street"

Athletics Program

The St. John's University Athletics Department is supervised by the Director of Athletics, and supports 17 varsity sport programs that provide student-athletes with preparation for lifelong learning and service to others through intercollegiate competition. The Athletics Department promotes diversity by welcoming men and women of different ages, races, religious beliefs and cultural backgrounds to participate in its activities.

In women's intercollegiate athletics, St.

John's competes against other universities in basketball, softball, fencing, tennis, cross country, indoor and outdoor track and field, soccer, volleyball and golf.

Men's intercollegiate athletic teams compete in baseball, basketball, fencing, lacrosse, soccer, tennis and golf.

The University is a member of the National Collegiate Athletic Association (NCAA), Eastern College Athletic Conference (ECAC), the BIG EAST Conference, Intercollegiate Association of Amateur Athletics of America (IC4A), Metropolitan Intercollegiate Track and Field Association (MITFA), Intercollegiate Fencing Association (IFA) and the National Intercollegiate Fencing Association (NIFA).

Campus Recreation

Campus Recreation is designed for the purpose of providing the entire university community with the opportunity to participate in a variety of leisure and recreational activities. These activities encompass team sports, individual and dual sports, as well as competitive and non-competitive activities. In addition to the obvious benefits of physical fitness, it is hoped the participants will also obtain improved skills, new and lifelong leisure time skills, along with social and ethical qualities (cooperation, trust, regard for others, etc.) from this program.

It is felt these objectives are consistent with the University's educational mission. A high level of skill is not a prerequisite to participate in any activities offered by this department. Therefore, all eligible students, faculty, staff and administrators are urged to take part in as many activities as time and interest permit.

Monday-Thursday 7 a.m.–11 p.m.
Friday 7 a.m.–9 p.m.
Saturday 10 a.m.–9 p.m.
Sunday 12 p.m.–9 p.m.

Special Events

The overall goal of Special Events and open recreation is to promote social interaction through providing outside activities. We also look for ways to provide visionary leadership and direction for a campus wide population.

If you have an idea or would like to see an event hosted by Campus Recreation please email us at recreation@stjohns.edu.

We host a variety of events focused on sports, fitness, wellness and social interaction.

Intramurals

Having the opportunity to participate in both formal and informal recreational activities is a vital part of everyday life. The Intramural program at St. John's University provides formal recreational sports opportunities to all students, faculty, staff and administrators by offering an opportunity for interesting and rewarding competition in men's, women's and co-recreational activities. The program offers a variety of activities that the entire university community

can participate in regardless of preference or athletic ability.

Fitness

As part of our fitness programming we offer a wide variety of fitness classes throughout the week. All classes take place in the fitness center dance studio.

Personal Training

The Personal Training program offers you to have one-on-one sessions with a qualified personal trainer. The personal trainer will design a fitness program specifically designed to meet your needs and interests. This is the best way to receive high-quality instruction, motivation and support for your new fitness routine.

Club Sports

The objectives of Club Sports are to fulfill the recreational and extramural competitive needs of students. The program emphasizes Instruction and Competition.

Club Sports are special interest groups where by the students, with the Campus Recreation Department, accept the responsibility for the majority of the organization responsibilities of the club. Anyone interested in joining a club may contact the Campus Recreation Department in Taffner Field House or the club's coach or captain.

Campus Ministry

Campus Ministry at St. John's is people, programs, places and most importantly, a presence. The staff of Vincentian priests, religious women and lay ministers are all actively engaged in the development of a vibrant Christian community on the Queens, Staten Island and Manhattan campuses.

Vincentian in tradition, Campus Ministry also seeks to instill in the University community a deep concern for the rights and dignity of the human person, especially the poor and most vulnerable. They hope to share with others the heritage of the Gospel which is the source of life at St. John's and the very reason for its existence.

The weekend retreat experience is an important part of the Campus Ministry program, offering students time away from the pressure of classes and working to reflect, take stock, relax and give thanks. Retreats are conducted by student leaders and staff at the Vincentian Renewal Center in Princeton, NJ.

Campuses offer week-long programs during the semester breaks with services in Philadelphia, inner city Brooklyn, New Orleans, Lourdes and Panama. This enables students to live and work among the poor with emphasis on prayer, service and community. There are many opportunities to serve the needs of people in the metropolitan area on a weekly basis at soup kitchens and shelters.

The St. Vincent de Paul Society is a student service organization sponsored by

Campus Ministry. The members are involved in weekly service opportunities such as serving in soup kitchens, shelters and schools. They also sponsor service projects and fundraisers throughout the year.

The University community is served by students, staff, faculty and administrators through various ministries in The St. Thomas More Church such as readers, Eucharistic Ministers, singers and musicians.

The RCIA program is available for those who are thinking of becoming Catholics and for Catholics who wish to receive First Communion or Confirmation or would like to be a sponsor for a candidate.

On the Queens campus, the Eucharist is celebrated daily at 8 a.m. and 12:15 p.m. in St. Thomas More Church. There is a Sunday celebration at 11 a.m. followed by a coffee hour. The opportunity for reconciliation is also available each day. A special mass for students is held on Sunday evenings at 5:30 p.m. Following liturgy, we gather as a community for snacks and friendship.

On the Staten Island campus, the Eucharist is celebrated at noon on class days in St. Vincent de Paul Chapel and at 5:00 p.m. on Sunday evenings. The opportunity for reconciliation is also available each day. Special masses for campus groups are arranged with the Campus Ministers. The Campus Ministry Advisory Council sponsors student activities for the poor and disabled.

The Campus Ministers are always available to help with any personal, moral or religious questions or concerns.

Career Center

The Career Center, located in the University Center, Room 24, Queens campus, and Lavelle Hall, Room 106, Staten Island campus, is the central career information and employment office for students and alumni. The primary purpose of the Center is to assist students and alumni in planning their careers.

Register with the Career Center to access information about career development programs, campus recruiting, full-time/part-time jobs, internship listings and more.

The Centers sponsor a wide variety of programs and services, including:

Career Advisement

One-on-one advisement is available to assist students and alumni with career choices and in developing career goals.

Career Awareness Programs

Special programs on various topics, including career alternatives, interview skills and employment advisement, assist students in understanding the marketplace and opportunities available.

Career Center Web site

The Career Center's comprehensive Web site offers students and alumni up-to-date information on special events, career planning, resume writing, interviewing, the job search and more.

Career Resource Library

Career development and employment information is available to students and alumni. The library includes employer directories, career literature and annual reports.

Education Credential Folders

The Career Center maintains a complete Credential Service for students and alumni seeking employment in Education.

Full-Time Employment Opportunities

The Center provides full-time job listings and referrals to students and alumni that are currently seeking employment.

Career Fairs

Several times per year, employers visit the campus to recruit for part-time, full-time and summer positions, as well as salaried internships.

Job Search Workshops

Students learn how to develop job search strategies to help them in the competitive marketplace.

COACH Program

Count On Alumni for Career Help. This program allows you to connect with alumni by searching an online database. Register through the Center Web site to develop networking contacts and gain valuable information about careers.

Mock Interview Sessions

Students and alumni are invited to sharpen their skills in a videotaped mock interview. This interview is then evaluated and suggestions are made on improving effectiveness.

Campus Interview Program

Employer representatives from every field are invited to interview graduating students for professional positions.

Part-Time Employment Opportunities

A comprehensive listing of part-time vacancies and salaried internships is available to all St. John's students.

Dining Etiquette

These informative seminars, offered several evenings each year, help prepare you for interviews or meetings conducted during a meal. Topics include the proper use of utensils, how to eat certain food and appropriate dinner conversation.

Communications Facilities

Courses in the area of Communication Arts are supported by the Television, Film and Radio Center, located on the fourth floor of Marillac Hall, Queens Campus. Courses are also available on the Staten Island campus.

The Television, Film and Radio Center is a broadcast-quality production and post-production facility which can accommodate both in-studio and on-location productions. The T.V. studio features three broadcast quality digital color cameras, a computerized fluorescent lighting system, a 24-channel audio board, digital video effects electronic character generator with graphics capability (Hyper-X), teleprompter and a professional announcing booth for voice-over recordings. The facility can accommodate the recording of talk shows, interview or instructional programs to either Beta SP or DV50. Two dedicated, broadcast, non-linear video labs are maintained by the center. One is dedicated to video editing, the other to animation graphics.

The radio studio is equipped to record music, news, interviews and commercial programs. The center's atmosphere and equipment afford an exposure to a broadcast-quality facility which prepares students for entry into the communications industry.

The radio facilities at the Staten Island campus are used in the production of a wide range of program formats from news to dramatic performances. Production equipment in the radio control booth includes compact discs and cassette recorders, editing and announcing facilities. Both the Staten Island and Queens campus radio studios have the ability to record and edit digital audio with the latest industry standard, audio hardware and software.

Center for Counseling and Consultation

The Center for Counseling and Consultation provides assessment, individual and group counseling, crisis intervention, consultation, and community referrals to students who may be experiencing personal or emotional difficulties that interfere with their ability to perform well academically. Psychiatric consultation is also available when appropriate.

The Center is staffed by professionally licensed and credentialed mental health providers including psychologists, mental health counselors, and a part-time psychiatrist.

Services are free, voluntary and confidential within the limits of legal and ethical restrictions.

Any student currently enrolled for a minimum of six credits is eligible to be seen for a consultation at the Center.

The Centers operate within a short-term counseling model and students with more long-term or specialized needs are helped to find more appropriate resources within the community.

Common problems include academic concerns, depression, anxiety, family issues, romantic relationships, alcohol and substance abuse, stress, shyness, sexual assault or harassment, loneliness, homesickness, etc.

As part of the Department of Student Wellness, counseling staff work closely with all members of the St. John's community to help create a healthy and positive living and learning environment.

The Queens Center

Marillac Hall, Room 130.

Phone: 718-990-6384.

Hours: 8:30 a.m. – 4:30 p.m. and until 3:00 p.m. on Fridays. Evening hours until 7PM are provided a few days a week when classes are in session.

The Staten Island Center

Flynn Hall, Room 115.

Phone: 718-390-4451.

Hours: 8:30 a.m. – 4:30 p.m. Monday – Thursday: 8:30 a.m. – 3:00 p.m. Friday.

Students at the Manhattan campus may use the services at the above campuses or be assisted with a referral to community practitioners.

Dining Service Facilities

St. John's Dining Services are proudly operated by Chartwells Higher Education. Offering a wide variety of meal options in more than a dozen dining locations on three campuses, you're sure to find something to satisfy your hunger.

St. John's Dining also features a full service catering department. From casual meetings to gala affairs, our catering staff is available to guide the way to a successful event. You can browse our menus and place an order, at <http://stjohns.catertrax.com>.

Should you have any questions regarding campus dining, please visit our website at www.DineOnCampus.com/StJohns or call us at 718-990-1535, or stop by our offices in Marillac Hall B-6.

Student Health Services

On the Queens Campus, treatment for symptoms of flu, colds, allergies, GI upset, minor abrasions and burns together with health counseling are available from 8:30 a.m. – 4:30 p.m. Monday – Thursday and 8:30 a.m. – 3:00 p.m. on Friday in the Health office in DaSilva Hall, (718) 990-6360.

The Queens Student Health Services is staffed by two registered nurses. A physician is available to see St. John's University students exclusively Tuesday, Wednesday and Thursday afternoons during the semester.

On the Staten Island campus, a nurse is available from 8:30 a.m. to 4:30 p.m. Monday-Thursday and 8:30 a.m. to 3 p.m. on Friday, in the Health Office, Room B17, Campus Center, (718) 390-4447.

Students at the Manhattan campus may be referred to nearby facilities or use the services of the Queens or Staten Island campus.

Immunization Requirements

NYS law 2165 requires that all students born on or after January 1, 1957 provide proof of immunity to measles, mumps and rubella disease. Immunization compliance is issued through the Health Office and allows for course registration and class attendance. All new students (freshmen, transfer, undergraduate/graduate, matriculated/non-matriculated, full or part-time) must have on file proof of TWO doses of measles vaccine and ONE dose of mumps and rubella vaccine. An immunization given before 1968 is acceptable only if the immunization record specifies that the vaccine was a live virus vaccine. A dose of live virus measles, mumps and rubella vaccine must be administered no more than four days prior to a child's first birthday and a second dose of live measles, mumps and rubella must be administered no less than 28 days after the first dose.

Failure to provide the completed medical forms 30 days from the beginning of class will result in exclusion from class.

In compliance with NYS law 2167, ALL students attending colleges and universities in New York State are required to be given information relating to immunization against meningococcal meningitis. By law you must respond to this notification within 30 days. Information can be obtained in the Office of Health Services. Failure to complete the required form 30 days from the beginning of class will result in exclusion from class.

Housing: Off-Campus

The Queens campus maintains an Off-Campus Housing Office, located in Donovan Hall.

You can contact the Office of Residence Life at (718) 990-2417. The Staten Island campus maintains a listing of local realtors. The University does not inspect these facilities. The evaluation of suitability of any facility is the responsibility of the potential renter. Persons listing facilities with the University certify they will accept any student registered at the University regardless of race, color or creed. On the Queens campus, information is available in the Office of Residence Life, Donovan Hall-Garden Level, and on the Staten Island campus, in the Student Life Office, Campus Center, Room B-11.

International Student and Residence Scholar Services

The International Student and Scholar Services Office, located on the Queens campus in St. John Hall, Room 116 and on the Manhattan campus, Room 465, assists international students and scholars in all matters related to their life at St. John's University and in the community including: immigration assistance; orientation to life at St. John's; New York City and the American culture; counseling for financial, adjustment, personal, legal and other matters; advisement concerning medical insurance, Social Security, taxes, campus and community services; coordinating programs (social, travel, cultural, family visitation); documentation for foreign exchange, military waivers, enrollment certification; liaison with foreign consular offices, U.S. government agencies/departments and University offices.

The Global Language and Culture Center

The Global Language and Culture Center, located on the first floor of St. John Hall, is a state-of-the-art language resource center where students, registered or not in a language class, can come to start learning one of the 14 languages currently offered at St. John's University, or perfect their knowledge through immersion and interaction under the supervision of trained language specialists.

The Center offers large seating areas in a library-like setting for studying and group gathering, as well as individual language pods equipped with computers and large screen TVs for specific language instruction.

Students can engage in group activities under the supervision of a tutor or graduate assistant, receive individual tutoring to improve their grades, participate in round table conversations in the target language, attend language events, grammar and pronunciation workshops, watch foreign TV channels, or learn a language on a self access basis with Tell Me More (for Arabic, ESL, French, German,

Italian, Japanese and Spanish) or Rosetta Stone (for Hindi, Hebrew, and Brazilian-Portuguese).

The Center also administers language placement testing and offers advisement on language courses at St. John's College.

The Professional Development Center for School Improvement

The PDC's mission is to provide educational assistance tailored specifically to individual school communities as well as to school districts and nonpublic central offices. This unique, customized approach is grounded in best practice and knowledge of the latest research in teaching and learning. Acknowledging that the educational process is multi-faceted, the PDC for School Improvement includes a wide variety of services. Among these are: Project PACES, a Partnership with Archdiocesan Catholic Elementary Schools designed to provide on-going staff development and teacher mentoring in literacy and math in low achieving elementary schools; Building an Executive Information System, a type of management information system intended to facilitate and support the information and decision making needs of diocesan personnel and school principals in the Diocese of Rockville Centre; St. Vincent de Paul Leadership Academy, seminars conducted for the principals and the boards of directors for the newly established Catholic academies in the Diocese of Brooklyn; as well as initiatives in Curriculum Mapping, History, Technology, ESL, Guidance and Administrative Support.

The Reading and Writing Education Center

The School of Education maintains a Reading and Writing Education Center which provides diagnostic and corrective services to children and youth who are experiencing Literacy learning difficulties. Diagnosis and treatment services are provided by graduates of the school's own Master's Degree Programs in literacy education and/or by certified teachers of New York State. The Center's main location in presently at the University's Seton Complex, 152-11 Union Turnpike, Queens, N. Y. Services may also be arranged at other St. John's campuses. Fees apply for diagnostic evaluations (one time) and for the duration of treatment sessions ranging from 6 sessions to 12 sessions. Please call (718) 990-6358 for more information.

Speech and Hearing Center

The Speech and Hearing Center, under the direction of Donna Geffner, Ph.D., CCC-Sp/A, has offered diagnostic and therapeutic services for communication disorders since 1976. Located off the Queens campus at 152-11 Union Turnpike, the center serves the Queens, Long Island and metropolitan New York community. The population ranges from infants to adults. The center's staff consists of ASHA Certified and New York State licensed professionals who work with each client to completely evaluate and assess the communication disorder as well as design intervention strategies for a therapy program. Therapy sessions are scheduled on a semester basis according to the college calendar. When indicated, referrals are made to other appropriate agencies.

The center serves as a training site for St. John's University students enrolled in the Speech-Language Pathology and Audiology Programs. Therapy is provided by professionals and by students under direct supervision. The Center is a fully equipped, modern facility, housing the latest diagnostic, therapeutic materials and instrumentation. Two complete audiometric suites are on site to provide audiological evaluation and hearing aid assessment.

Speech-Language Pathology Services include: evaluation and therapy for articulation, voice, language, stuttering, aphasia, learning disabilities and neurological disorders; and improvement of voice and diction for non-native English/ESL or speakers with regional speech patterns. Consultation and referral sources as well as conference visits to schools/agencies are also available.

The Audiology Services include: audiological evaluations, such as pure tone and speech audiometry, impedance and site of lesion testing; brainstem evoked response testing; hearing aid evaluation and orientation; aural rehabilitation evaluation and training; early childhood testing; central auditory processing testing and otoacoustic emission testing.

Free Speech and Hearing Screenings and Hearing Aid help are offered by appointment.

Stormcard ID Cards

StormCards must be carried at all times on the University premises. Lending a Stormcard to anyone or failure to present it when required by a University faculty or staff member is a violation of the Code of Conduct and subjects the holder to disciplinary action. Loss of a StormCard should be reported to the StormCard Office in the Department of Public Safety, ROTC Building (Queens) or the Office of Public Safety, Spellman Hall, Room 116 (Staten Island) or the Office of Public Safety, Room 465 (Manhattan). There will be a fee for replacement.

Student Computing Facilities

St. John's University is committed to preparing its students with the technological skills necessary to meet the challenges of the 21st century marketplace. Under the leadership of the Information Technology Division, the University is equipped to meet the instructional needs of students and faculty through state-of-the-art academic computing facilities. Students have access to facilities that consist of seven microcomputer laboratories, over 190 multimedia classrooms, microcomputer classrooms, and Library patron computers. Deployment of desktop computers to these facilities now totals over 900 Intel-based workstations and over 125 high-end Macintosh computers.

The University's state-of-the-art computer network enables each microcomputer to access a wide range of software, as well as electronic mail and the Internet through the World Wide Web. A variety of educational, business, statistical and other electronic information resources are accessible through the campus's high-speed Gigabit backbone with 100 Mbps Ethernet to each desktop computer. Internet connectivity is provided through a 100 MB link. Wireless connectivity is available at all five locations.

Microcomputer Laboratories

The microcomputer laboratories now contain more than 300 Intel workstations and over 30 high-end Macintosh computers. Two of these labs are located on the Queens campus. Additionally, each of the following locations has one lab, Staten Island, Manhattan, Oakdale, Rome Italy and Paris France.

Many of the desktop lab computers are Intel Core 2 Duo 2.86 GHz platforms, DVDRW and 2GB of RAM matched by LCD monitors, Windows XP operating system (OS), the MS Office 2007 suite as well as many other Windows-based applications. All the computers are connected to the STJ computer network, UNIX servers and Windows NT file servers.

Microlab/Classroom Macintosh computing resources consist of primarily MAC Pro's running Intel Xeon Quad core with 4 Gb of RAM, and running MAC OS 10.5. Wired and wireless printing facilities for both platforms consist of shared high speed B&W as well color laser printers.

Multimedia Classrooms

Of the total 192 multimedia and seminar style classrooms, 148 are located on the Queens campus, 38 more are at the Staten Island campus and 6 are on the Manhattan Campus. Each multimedia classroom is equipped with a podium, faculty computer, a sound system and projection equipment that can be viewed by all the students. Faculty has the option of connecting and projecting the image from their laptop computers in all multimedia classrooms as well. The Oakdale campus has 2 classrooms and multiple mobile equipment carts that can be set up in any classroom. The Rome campus

has 2 classrooms in which computing equipment is available upon request. The Paris campus has one multimedia equipped classroom

Although students do not have individual workstations, each multimedia presentation environment allows faculty to incorporate technology as a teaching tool to enhance the learning experience for their students. The Queens campus has 6 multimedia equipped/large capacity facilities. (The D'Angelo's Center Tiered Lector Hall, D'Angelo Multipurpose Room, Marillac Auditorium, the two St. Albert Amphitheatres, and the Little Theatre.) Additional classrooms will be equipped as multimedia classrooms in the future.

Microcomputer Classrooms

Further, the Queens campus has 13 microcomputer classrooms and Staten Island has 6 that house both Intel Pentium and Macintosh computers. The Oakdale campus has 2 computer classrooms, the Manhattan campus has 2 combination computer labs/classrooms with the latest Intel-based hardware and the Rome campus has one of the same. Each microcomputer classroom at all five locations provides students with individual computers through which they are able to participate in hands-on training, and a faculty station which enables demonstration of software. Individual instruction for how to use the equipment in both Multimedia and Microcomputer classrooms can be obtained through *Information Technology*.

Academic Computing Initiative

The Academic Computing Initiative has three primary components: The laptop program, campus wireless networks, and student portal (St. John's Central).

All incoming full-time first-time freshmen and transfer students receive a state-of-the-art laptop, software, and accessories from the University. This year the University is offering a choice from one of three laptops with two of them being Lenovo and one a MACBOOK. The Lenovo ThinkPad Edge had a 4GB Memory, 320 GB 7200 RPM, Core 2 Duo Processor, built-in web cam, 8 hr/6 cell battery, Wireless Intel 1000, GMA 4500MHD and Card Reader, the Lenovo ThinkPad T410 has a 4GB Memory, 320 GM 7200 RPM, built-in web cam, Optical DVD+RW, Wireless, Gigabit Ethernet, Graphics NVIDIA Quadro, PCI Express, 256MB Memory, UltraNAV and 8.3 hr/6 cell battery and integrated optical drive. The third choice is a MACBOOK with a 2.4 GHz Intel Core 2 Duo Processor, 2 GB DDR3 memory, 250GB 5400 RPM, built-in web cam, 7 hr. battery, integrated optical drive, NVIDIA GeForce 9400M graphics processor, MagSafe Power Adapter, Optical DVS+RW, iSight Camera built-in Bluetooth, Built-in Gigabit Ethernet and Applecare protection. The MAC is available with an additional \$400 Program Fee. The laptops run Microsoft Windows XP Professional and Office 2007 Professional and are covered by a 4-year warranty supported by

repair centers on the Queens and Staten Island campuses.

The DaSilva Academic Center on the Staten Island Campus illustrates how IT facilities are being adapted for increased laptop usage. Podium Classrooms have been designed with a desktop as well as the capability to use video and sound from a laptop for faculty demonstrations. The DaSilva 109 and 110 Laptop Classrooms include desks, electrical hookups and network access that are optimized for student laptop usage. All campuses are also served by a Cisco wireless network. Currently the wireless network serves academic and common areas, classrooms, libraries, lawns and cafeterias, on all campuses.

St. John's Central is a one-stop web portal that makes University resources available to students from the Internet. It includes student productivity tools such as email and calendaring, communication tools like chats and discussion groups, and educational tools like course home pages, syllabi, library access, and course calendars.

The new architecturally attractive, striking and intimate D'Angelo Center features state-of-the-art technology, including the latest version of the technology podium, 14 multimedia classrooms and 6 multimedia seminar rooms. The building has been constructed according to LEED (Leadership in Energy and Environmental Design) standards and includes many energy-saving mechanical and electrical systems. The Center is a wireless facility, allowing students to use their laptops wherever they choose. Every classroom is equipped with WallTalker, an innovative product that can be used as a projection screen and whiteboard at the same time. Every seminar room features a 65 inch high definition Video LCD display with a DirecTV feed. There is also a large Multi-Function Room that can be subdivided into 3 full size fully equipped classrooms or used as one massive banquet hall. Finally, the Tiered Lecture Hall, which seats 145, boasts two DirecTV ready 65 inch LCD displays besides a video projector and motorized projection screen. Both the Tiered Lecture Hall and Multi-Function Room are equipped with wireless microphones, allowing the speaker to freely move anywhere in the room.

Microlab Hours*

Queens campus
SULLIVAN HALL MICROLAB
Sullivan Hall, First Floor
(718) 990-6672

Sun. – Thurs. 7 a.m. – 2 a.m.
Fri. – Sat. 7 a.m. – 11 p.m.

MARILLAC HALL MICROLAB
Marillac Hall, Second Floor
(718) 990-6748

Mon.–Thurs. 7:00 a.m. – 9 p.m.
Friday..... 7:00 a.m. – 6 p.m.
Saturday Closed
Sunday Closed

*Please note: Lab hours are subject to change during intersession.
For Staten Island Microcomputer Lab hours, please call (718) 390- 4498.

University Libraries

The St. John's University Libraries commit themselves to the teaching and learning processes by providing information resources, instructional services and other support in the most effective formats for University programs and student and faculty research. The libraries include of three major libraries on three campuses (Queens, Staten Island, Manhattan) and additional collections at the Rome and Oakdale locations. St. John's University School of Law separately maintains the Rittenberg Law Library on the Queens campus. Together these libraries contain the equivalent of nearly 1 million volumes of books, periodicals, government publications, microform and audiovisual materials which support the undergraduate and graduate programs of the University. Cultural and recreational materials are also available.

The Main Library, renovated in the summer of 2008, is a selective depository for United States government documents, and houses Special Collections, the University Archives, an Instructional Materials Center, and a Media Center. The Main Library also oversees the Chin Ying Asian Library located in the Sun Yat Sen Center building.

The Loretto Memorial Library on the Staten Island campus houses over 130,000 volume including periodicals, microfilm materials and a collection of recorded music, poetry and plays.

The Davis Library on the Manhattan campus maintains one of the finest collections of contemporary and historical insurance and risk management materials in the country.

The Library instructional program provides learning, in a variety of formats, for discipline specific research appropriate to graduate study.

Both wired and wireless access is available throughout the libraries, connecting users to thousands of online journals (many in full text) and monographs, as well as to the library catalogs of St. John's and other consortial libraries. All electronic resources are available off-campus to authenticated St. John's users. Cooperative arrangements with other libraries provide regional, national and international access to materials.

St. John's College of Liberal Arts and Sciences

Jeffrey W. Fagen, Ph.D.,
Dean

Michael Wolfe, Ph.D.,
Associate Dean

Suzanne Henderson, Ph.D.,
Assistant Dean

Margherita Panzara, M.A.,
Assistant Dean, Rome Campus

For general information regarding St. John's College of Liberal Arts and Sciences, call the Queens campus at (718) 990-6243, Staten Island campus at (718) 390-4412, or the Rome campus at +39 (06) 393-842.

Objectives

In harmony with the general objectives of the University, the Graduate Division of St. John's College of Liberal Arts and Sciences provides an opportunity for the development and maintenance of continuing scholarly growth for faculty and students in certain fields of academic specialization. To this end, it offers programs of advanced study in selected disciplines, provides adequate resources in support of these programs and establishes an atmosphere of creative scholarship. This fosters the acquisition of advanced knowledge, a thorough mastery of research methods and a spirit of searching inquiry.

The Graduate Division of St. John's College of Liberal Arts and Sciences is organized as an integral unit of the University administered by the Dean, who shall act in conformity with University statutes and the academic policies prescribed by the departments/division(s), Liberal Arts Faculty Council and the Graduate Council.

Academic Status

In addition to the general policies of the University set forth in this bulletin, the following information applies to the Graduate Division of St. John's College of Liberal Arts and Sciences. Students are expected to meet all of the requirements of their academic programs. For specific information, students should refer to their respective departmental/divisional listings. Each student must conform to the policies stated in the Student Handbook which may be obtained from the office of the Dean of Student Life.

The Master of Philosophy (M.Phil.) degree is an intermediate degree between the academic master's and the Ph.D. To be eligible for the M.Phil., a student must be a "candidate" in a department which offers a doctorate of philosophy program. See definition of candidacy.

The Master of Science in School Psychology may be awarded to Psy.D. doctoral candidates who have successfully passed their comprehensive exam.

The Master of Arts in English may be awarded to D.A. candidates who have successfully passed their comprehensive exam.

The Master of Arts in History may be awarded to D.A. candidates who have successfully passed their comprehensive exam.

For doctoral students in the clinical psychology, school psychology, biology, history and English programs and each semester following the successful completion (passing) of the Doctoral Comprehensive Examination and including the semester of defense of dissertation/research essay, registration in doctoral research (i.e., 950, 951, 975) is mandatory for each semester until the candidate graduates.

Application for the degree is available in the graduate division office or registrar www.stjohns.edu/admission/graduate.

Certificate Programs

Post-Baccalaureate Certificates

Students interested in these certificates must possess at least a baccalaureate degree and fill out an application form through the Admission office:

- Asian and African Cultural Studies
- Chinese Language
- Latin American and Caribbean Studies
- Public Administration in Government

Post Master's Degree Certificates

Students interested in these certificates must possess at least a master's degree and fill out an application form through the Admission office:

East Asian Cultural Studies
Library and Information Science

Certificates Offered On the Way to Degree

Application for these certificates must be made within the appropriate Department:

International Law and Diplomacy

Combined Degree Programs

The Graduate Division of Arts and Sciences, in conjunction with the Undergraduate Division of St. John's College and the College of Professional Studies, offers intense, accelerated combined degree programs for highly qualified, motivated undergraduate students in their junior year who demonstrate potential for graduate studies.

These students are given the opportunity to complete both the baccalaureate and master's degree in five years of full-time study by enrolling in a maximum of four approved graduate courses while still an undergraduate student. After completion of the baccalaureate degree, students must enroll full-time on the graduate level for the fifth year. By completing undergraduate requirements during the first four years, students are assured of the bachelor's degree if for any reason they decide not to complete the fifth year. Graduate level courses that are applied to the baccalaureate degree as part of the major may not be applied to a graduate degree should the student decide not to complete the combined degree program.

At the time of application, students must have a cumulative GPA of 3.00 or better and a minimum of 3.50 GPA in at least four undergraduate courses in the major.

For more information concerning this program, please contact your faculty advisor, academic Dean and department Chair.

Students must apply for the combined degree program in their sophomore year. Applicants for Government and Politics must have completed a minimum of 12 credits in Government and Politics to be considered. Applicants for Psychology must have completed a minimum of 12 credits in psychology to be considered for admission. Students must complete Introduction to Psychology, Statistics and Research Methods as one of the four courses. Students take 18 graduate credits (15 in Psychology and three outside the department). In addition, they must devote 12–15 hours per week to conducting supervised empirical research.

St. John's College of Liberal Arts and Sciences:

B.A./M.A.	Asian Studies

Consult the relevant departmental listings of this bulletin for further information on specific programs.

Academic Information

Admission Requirements

Applicants must submit the following credentials in conjunction with their applications for admission:

1) Grade Point Average:

Master's Programs: All applicants must present evidence of a 3.0 cumulative index and a 3.0 index in the major field of study.

Doctoral Programs: Doctoral programs have individual entrance requirements. See departmental entry.

2) Standardized Test Scores:

The following programs require submission of official scores of the Graduate Record Examination (GRE) in support of applicants for admission:

- M.S. and Ph.D. in Biology:
General Examination is required.
- M.A. in English: General Examinations are required.
- D.A. in English: General Examination is required.
- Ph.D. in Clinical Psychology:
General Examinations (Verbal and Quantitative) required of all applicants; subject (Psychology) Examination required of all applicants excepting those who majored in psychology or completed a graduate degree in psychology.
- M.S. in School Psychology:
General Examinations (Verbal and Quantitative) required of all applicants; subject (Psychology)

Examination required of all applicants excepting those who majored in psychology or completed a graduate degree in psychology.

- F) **Psy.D. in School Psychology:** General Examinations (Verbal and Quantitative) required of all applicants; subject (Psychology) Examination required of all applicants excepting those who majored in psychology or completed a graduate degree in psychology.

Applicants to other programs may strengthen their credentials by submitting GRE scores as well.

Those applicants to other programs who may be required to submit GRE scores will be so notified.

3) Letters of Recommendation:

Master's Programs: All applicants must submit at least two letters of recommendation, except the master's programs in general-experimental psychology, school psychology and speech-language pathology, which require three letters.

Doctoral Programs: All applicants must submit a minimum of three letters, at least one of which should attest to the research potential of the applicant.

4) Writing Samples/Personal Statements:

Applicants to all Psychology programs must submit two papers from psychology courses, one a laboratory paper and the other a term paper, as well as a personal statement of educational or career goals.

Applicants to the Doctor of Arts program in English and Modern World History must submit a recent sample of written work and a personal statement of professional experience and career goals.

Applicants to the master's program in Library Science must submit a statement of professional purpose.

Applicants to the master's program in Speech-Language Pathology must submit a 300-word statement of career goals.

5) See specific entrance requirements listed in each departmental entry.

Applicants must have sufficient academic preparation to be eligible for matriculation.

Requirements for the Doctorate

1. **Academic Credit Hours:** Minimum of 32 beyond the master's degree.*
2. **Residence:** At least one year (two consecutive academic semesters) of full-time study for Doctor of Philosophy (Ph.D.) programs. Each student pursuing the Doctor of Arts (D.A.) degree must successfully complete 24 semester hours of academic credit during four consecutive academic semesters.
3. **Research Tool:** Foreign Language Reading Course or other appropriate research tool at the department's option. This requirement must be satisfied during the course of the program.
4. **Quality Point Index:** 3.0 or better for credit in each course.
5. **Colloquia:** See departmental listing.
6. **Comprehensive Examination:** Written, oral or both. See departmental entry.
7. **Continuous Enrollment:** Required.
8. **Dissertation (Ph.D.) or Research Essay (D.A.):** Procedures are available in the graduate Dean's office.
9. **Defense of Dissertation/Research Essay:** Final oral examination.
10. **Abstract:** Original and three copies of an abstract of the dissertation—350 words maximum.

Requirements for the Master's Degree

1. **Academic Hours:** See departmental entry.
2. **Residence:** nine credits in two consecutive semesters.*
3. **Research tool:**
THESIS PROGRAM
Foreign Language Reading Course, or other appropriate research tool at the department's option.
NON-THESIS PROGRAM—See departmental entry. This requirement must be satisfied during the course of the program.
4. **Quality point index:** 3.0 or better (good academic standing).
5. **Colloquia:** See departmental listing.
6. **Comprehensive Examination:** Written, oral or both. See departmental entry.
7. **Continuous Enrollment:** Required.
8. **Thesis:**
THESIS PROGRAM—Procedures are available in the graduate Dean's office.
NON-THESIS PROGRAM—Not applicable.
9. **Defense:**
THESIS PROGRAM—
Departmental option.
NON-THESIS PROGRAM—Not applicable.

Requirements for the Advanced Certificates

1. **Academic Hours:** See departmental entry.
2. **Quality point index:** 3.0 or better (good academic standing)
3. **Continuous Enrollment:** Required

N.B. For specific requirements, see departmental entry.

**Each student pursuing the master's degree in Speech-Language Pathology must satisfy a full-time residence requirement in one academic semester (10 credits in one semester)*

N.B. There is a five-year time limit in which the student must complete ALL of the requirements for the degree. Those who for serious reasons may require additional time must provide the reasons in writing to the department and the Associate Dean. Forms for requesting an extension of time are available in the Graduate Division office.

Advisement and Registration Procedure

Upon matriculation, students will receive from the department an Advisement Information Form which will identify their advisor. Students must consult with the department to determine when the advisement period is scheduled and then make an appointment to see their advisor during this period in order that appropriate programming may be arranged. At this time, with the counsel and approval of the advisor, the Graduate Registration Form will be completed.

The University calendar stipulates the periods for REGISTRATION. During this period, students must register for their courses in the following semester since courses with small enrollments may be cancelled or courses with large enrollments may be closed. When registering, the student must present a Graduate Registration Form to his/her advisor in order to receive a priority code to be used with the Web registration systems. No registration priority codes will be issued without an approved Graduate Registration Form. The Dean's office reserves the right to withhold priority codes.

All non-degree students and students on academic probation must obtain a faculty advisor signature, Dean's signature and obtain the priority code from the Dean's office prior to registering for any courses. Any changes from the original (i.e., add/drop) registration form must have all signatures. Unauthorized registration may result in being withdrawn from the course. This might jeopardize your status with the Graduate Division.

Attendance Policy

Regular and prompt attendance is expected of all students.

Absence from class does not excuse a student from work missed.

Individual faculty members have discretionary power to determine whether a student who has missed an announced test is to be given a make-up examination. This policy does not apply to final examinations. For the policy on final examinations, see "Examinations" under "Academic Regulation," above.

Non-Matriculated and Special Students

A student who has not met all the admissions requirements but has, on the evaluation of the faculty and Dean, the potential to pursue graduate studies is considered a non-matriculated student. Non-matriculated students may, upon approval, take a maximum of six credits in a semester for a total of 12 credits, *with a grade of "B" or better in each course*. If a student, upon completion of 12 credits, is accepted into a degree program, the Committee on Admission will determine which credits will be applicable to the degree. In any case, no more than 12 credits completed as a non-matriculated student may be applied toward the degree. For Government and Politics, courses taken as a non-matriculated student will not be applied towards the degree. A non-matriculated student will not be evaluated for admission with any grade of Incomplete (IN) on his/her transcript.

A student who has met all the admissions requirements (i.e., GPA and solid academic preparation) but who wants to take graduate courses for professional development may request to take courses as a *special student*. A maximum of 12 credits is permitted as a special student. If a student wishes to be considered for matriculation into a degree program he/she must file the appropriate application. There is no guarantee that a special student will be matriculated into a degree program.

All students, whether non-matriculated or special, must submit transcripts of all prior academic work, undergraduate and graduate and complete the appropriate forms. Only those students who are qualified and possess the necessary background will be permitted to enroll in graduate courses.

Transfer of Credit

The general policy of the Graduate Division of the College of Liberal Arts and Sciences pertaining to transfer of credit is as follows:

1. In graduate programs requiring the completion of 30–36 credits, a maximum of six credits may be transferred with the approval of the Chair and the Dean.
2. In programs leading to the master's or Doctor of Philosophy degree, requiring the completion of 37–54 credits, a maximum of nine credits may be transferred with the approval of the Chair and the Dean.
3. In programs leading to the master's or Doctor of Philosophy degree, requiring the completion of 55 or more credits, a maximum of 12 credits may be transferred with the approval of the Chair and the Dean. In the Doctor of Arts in English program, however, a maximum of nine credits may be transferred with the approval of the Chair and the Associate Dean. In the Doctor of Arts in Modern World History program, a maximum of six credits may be transferred with the approval of the Academic Policy Committee, the Director and the Associate Dean.

Requested transfer credits must not have already been used in fulfillment of another degree. The student must present catalog descriptions of the graduate courses for which transfer credit is requested. No credit will be allowed for courses in which the grade attained is below "B." Transfer grades do not affect cumulative quality points. In addition, no degree credit will be allowed for courses completed beyond the stipulated time limit ("Time Limit"). Students requesting transfer credit must have already completed at least 12 credits in their approved graduate program at St. John's University and must make their request no later than the semester before talking their comprehensive examination.

Incomplete ("IN") Grades

Students receiving an "IN" (Incomplete) grade must submit all required materials no later than the deadline indicated in the Academic Calendar in the front of this bulletin. All "IN" grades not removed by the deadline will become permanent on the transcript. In some cases, it may be necessary for the student to repeat the course involved. *The student must request a grade of incomplete from the professor before the end of the semester. Requests for an extension of the grade INC must be filed in the Graduate Division office. Faculty hold the prerogative in establishing a date earlier than identified in this bulletin. All materials must be submitted to the Graduate Division office, by the set deadline. The materials submitted will be forwarded to the faculty member for review.*

Scheduling of Courses

Departments strive for accuracy with regard to the scheduling of courses. They reserve the right, however, to alter the schedule as needs may dictate. Moreover, the Dean maintains the right to cancel courses when deemed necessary.

Certification of Full-time or Part-time Status

In conjunction with registration each semester, graduate students enrolling for only master's Research (900) or Doctoral Research (950 or 975) must complete appropriate certification regarding full-time or part-time status, provided by the Graduate Division of the College of Liberal Arts and Sciences. Psychology students enrolling in an internship must also complete appropriate certification. All Graduate Assistants and Research Assistants must complete appropriate certification attesting to their full-time status. Those students needing to be certified full-time, must complete the necessary forms each semester.

Full-time 9 credits each semester.

Residence

Each student pursuing the Doctor of Philosophy degree must satisfy at least a one-year, full-time residence requirement during two consecutive academic semesters, that is, fall and spring.

In order to fulfill the residence requirement for the Doctor of Arts degree, each student must successfully complete 24 semester hours of academic credit during four consecutive academic semesters.

Each student pursuing the master's degree must complete 12 semester hours of academic credit during two consecutive academic semesters.

Each student pursuing the master's degree in speech-language pathology must complete a minimum of 10 semester hours of academic credit in one academic semester (excluding summer).

Comprehensive Examination

Doctoral and master's students in all departments or divisions must pass a comprehensive examination. English M.A. students submit a portfolio. This examination may not be taken earlier than the last semester or session of coursework and must be taken within one year of the completion of all coursework, language and residency requirements. Students must be in good academic standing (3.0 or better) and must have completed language and residency requirements before their applications to sit for comprehensive examinations will be approved.

Students in speech pathology and audiology must submit an Internal Review Board (IRB) application prior to sitting for a comprehensive exam.

This examination may be oral or written or both, according to the regulations of a particular department or division. The matter for this examination is not limited to the course taken by the student, but may cover general concepts as well as the whole area of the candidate's field of study. The comprehensive examinations may be held in the fall, spring or summer according to departmental regulations as noted in the Academic Calendar or otherwise noted by the department.

The individual examiners report the results of this examination in writing to the Associate Dean of The Graduate Division, who communicates them to the individual candidates.

Applications for these examinations should be made in the Graduate Division office no later than the dates designated in the Academic Calendar.

Candidacy

A doctoral student acquires the status of "candidate" after he or she has successfully completed: 1) all coursework excluding Doctoral Research (950 or 975) and Departmental Seminars (e.g., BIO 599) or Colloquia, 2) language and/or research tool requirements, 3) the comprehensive examination; and has received 4) approval of a dissertation topic by a department faculty committee and the Dean.

Doctoral Dissertation, Doctoral Research Essay and Master's Thesis

All students please read the "Academic Regulations" section of this bulletin for general University stipulations concerning the preparation and defense of dissertations and theses. Responsibility for a well-organized presentation of personal research as well as the details involved rests primarily upon the student. Some of these details are:

- 1) There is a procedure for the doctoral dissertation (Ph.D.), the doctoral research essay (D.A.) and the master's thesis which the student must follow. These directives can be obtained from the office of the Graduate Division of Arts and Sciences.
- 2) Each Dissertation (Ph.D.) or Doctoral research essay (D.A.) requires a mentor and a minimum of two committee members.
- 3) Each master's thesis requires a mentor and at least one committee member.

- 4) Doctoral students or master's students in a thesis program must submit a proposal for their research to the appropriate department. Upon departmental approval, the proposal and a Dissertation Approval Form, Research Essay Approval Form, or master's Approval Form must be forwarded to the Associate Dean for approval and registration of the topic. The Associate Dean may request that additional members be appointed from outside the department to the research committee.
- 5) Research involving human subjects requires the permission of the University's Institutional Review Board (IRB). Such permission must be sought and obtained prior to ANY experimentation with human subjects. The IRB meets the first week of each month to review proposals submitted since the last meeting. Results of these reviews will be reported to the initiator immediately after.
- 6) Research to be conducted outside the University (in a hospital, laboratory or psychiatric center, for example) must have the approval of the Associate Dean. The Graduate Division office will provide forms which must be completed by the student.
- 7) Final copies of the Dissertation, research essay, or thesis, BEARING THE APPROVAL OF THE MENTOR, must be submitted to the Graduate Division office for final approval in accordance with the dates published in the Academic Calendar.

Insurance

Students enrolled in science laboratory courses or conducting research in which the use of a laboratory is required must be covered by insurance obtained through the University or present evidence of other coverage to the treasurer's office. For example, "other coverage" may be through the student's own health insurance plan or he/she may still be covered under a parent's policy after the calendar year following the 19th birthday. Those who apply for coverage through the University will receive an insurance identification card which must be presented upon request. The University requires all students holding an F-1 or J-1 visa to have Sickness Insurance. See the "Student Support Services and Resources" section for more information.

Institute of Asian Studies

The Institute of Asian Studies offers programs leading to the M.A. degree in East Asian Studies or Chinese Studies, the B.A./M.A. degrees in East Asian Studies and advanced certificates in Asian Cultural Studies.

Programs of Study:

M.A. in East Asian Studies

The program in East Asian Studies seeks to provide a comprehensive and critical study of the historical, social, economic, political and cultural developments of the Asian world, both as a whole and as individual societies. To attain these ends, language courses or linguistic studies in Chinese and Japanese are provided. The program also seeks to provide intensive knowledge of the field and experience in the critical use of sources and in the presentation of research.

Entrance Requirements

Acceptance into the program presupposes that the applicant has sufficient background in area studies and humanities. Foreign students must show proof of English proficiency by submitting results of the TOEFL examination. Students are expected to have an undergraduate preparation of at least 6 semester hours in the field. In lieu of this, subject to departmental review, students may be accepted provided that some of the above number of hours are in related fields.

Program Requirements

1. Two options are offered:
 - a. *Thesis option*: the program of study consists of a minimum of 33 semester hours of coursework, six of which include master's thesis research and a written thesis. Prescribed courses include: (i) one of the following two courses—ASC 102 (Great Books from China) or ASC 300 (Introduction to Source Materials on China); & (ii) ASC 900 (Master's Research) in the East Asian field. The remainder of the program will be arranged in consultation with the student's advisor.
 - b. *Non-Thesis option*: 33 credits. The program of study requires a minimum of 33 hours of coursework, including one of the following two courses: ASC 102 (Great Books from China) or ASC 300 (Introduction to Source Materials on China). The remainder of the program will be arranged in consultation with the student's advisor.

- c. The student matriculating for the M.A. degree will choose either of these two options. It is strongly recommended that the thesis option be pursued by those students who may continue their graduate studies beyond the M.A. degree and teach on the college or university level.
2. *Language*: At least one semester of Chinese or Japanese or any other language pertinent to the student's major field.
3. *Comprehensive Examination*: A written examination will test the student's knowledge of four selected fields, areas or problems of historical scholarship. The examination may not be taken earlier than the last semester or session of coursework and must be taken within one year of the completion of all coursework, language and residence requirements.

M.A. in Chinese Studies

The Institute of Asian Studies offers a program of graduate study in the language and civilization of China leading to the Master of Arts degree. The aim is to broaden the student's use of language skills and to provide a solid foundation in the history and culture of China. This specialized study and familiarity with research are intended to equip the student for a teaching career or for further scholarship.

Entrance Requirements

In addition to the entrance requirements for the M.A. Program in East Asian Studies, the minimum background preparation for graduate study leading to the degree in Chinese Studies should also include at least one year in the Chinese language studies.

Program Requirements

- Two options leading to the M.A. in Chinese Studies are offered:
 - Thesis option*: a minimum of 33 semester hours of coursework, six of which include master's thesis research and a written thesis. Prescribed courses include: (i) one of the following two courses—ASC 102 (Great Books from China) or ASC 300 (Introduction to Source Materials on China); & (ii) ASC 900 (Master's Research) in the Chinese Studies field. The remainder of the program will be arranged in consultation with the student's advisor.
 - Non-thesis option: a minimum of 33 hours of coursework, including one of the following two courses: ASC 102 (Great Books from China) or ASC 300 (Introduction to Source Materials on China). The remainder of the program will be arranged in consultation with the student's advisor.
- The student matriculating for the M.A. will choose either of these two options. It is strongly recommended that the thesis option be pursued by those students

who may continue their graduate studies beyond the Master of Arts degree and teach on the college or university level.

- Language*: The student is also required to take 12 semester hours in the Chinese language if he/she is a non-Chinese native speaker.
- Comprehensive Examination*: A written examination will test the student's knowledge of four selected fields, areas, or problems of historical scholarship. The examination may not be taken earlier than the last semester or session of coursework and must be taken within one year of the completion of all coursework, language and residence requirements.

Advanced Certificate Program

Along with the increasing importance of Asia, there is a corresponding increase of job demand in this area. To meet this need, the Institute also offers a 15-credit Certificate program in East Asian Cultural Studies

B.A./M.A. in Asian Studies

Qualified students who have completed the first semester of their sophomore year with a general index of 3.0 and a major average of 3.3 are encouraged to enter this intensive accelerated five-year program leading to two degrees. Under this program, students matriculate for 147 undergraduate/graduate credits. Students are expected to maintain grade levels in undergraduate and graduate work according to the requirements set forth in the existing B.A. and M.A. programs.

The Chin-Ying Scholarships for Graduate Asian Studies

Established in 2005, two scholarships will be awarded annually to two graduate students, preferably of Chinese descent, pursuing a master's degree in East Asian or Chinese Studies. These scholarships are provided by Prof. and Mrs. Chin Ling Wang. Prof. Wang had been a dedicated faculty member of St. John's for nearly thirty years until his retirement. Qualified applicants must possess a minimum average of a B+ or a 3.0 cumulative index. Recipients are selected with the recommendation of the Institute for Asian Studies as scholastic basis for the Office of Financial Aid to make decisions.

Courses

Required: choose one from the following two courses

ASC 102 Great Books from China

The major factor that has made China so powerful and lasting is its deep-rooted philosophical and humanistic tradition, embedded in several extraordinary classics, including Lao Tzu, The Confucian Analects, and Chuang Tzu. The purpose of this course is to introduce the essence of these three great books by discussing and analyzing selected chapters. All readings are in English. *Credit: 3 semester hours.*

ASC 300 Introduction to Source Materials on China

A survey of essential bibliographies, periodicals, research aids, source materials and books about China from prehistoric times to the present. Emphasis is placed on English-language works. *Credit: 3 semester hours.*

Elective (I):

ASC 103 The Art of War by Sun Tzu

The Art of War, composed probably in the 4th century B.C., is the earliest treatise on the subject. It is forever current in its wisdom and insightful analysis of military strategy and tactics, and it teaches a winning philosophy and the strategies and tactics for winning, applicable to business as well as to politics and military. Therefore, recently many American and East Asian universities and business schools have also offered courses on this extraordinary classic. *Credit: 3 semester hours.*

ASC 104 History of Chinese Painting

The course is an introduction to the history of Chinese painting from the Tang to the Qing period (9th to 19th century). The course introduces historical elements in the styles of Chinese painting from each period covered and explains how artists employed knowledge of art history in making their art. *Credit: 3 semester hours.*

ASC 354 Women in Chinese Literature

Literary works are a major source for the study of the history of Chinese society in general and the Chinese women in particular; the lives and changing conditions of Chinese women are investigated through readings in poetry, fiction and drama from the earliest times to the present. *Credit: 3 semester hours.*

ASC 359 Seminar on Chinese Literature

The course aims to examine major works of Chinese philosophy, history, poetry, prose, and fiction from ancient times to the pre-modern period. All readings are in English. *Credit: 3 semester hours.*

ASC 360 China through Audio-visual Educational Materials

An examination of important educational films, tapes and CDs on China, with special attention to the recent decades. Emphasis is on how these materials can be used to complement classroom learning and individual study.

Credit: 3 semester hours.

ASC 553; 554 Classical Chinese Civilization

An introduction to the historical development of Chinese civilization from prehistoric times to the early 19th-century with emphasis on political and intellectual trends.

Credit: 3 semester hours.

ASC 563 Seminar: China in the Modern World

An analysis of China in the 19th- and 20th-centuries; the erosion of the traditional political and social systems and the various attempts to construct new political and social forms to meet the needs of the modern world.

Emphasis is on political, economic, military, population and social developments, but some attention is also given to intellectual and cultural changes. *Credit: 3 semester hours.*

ASC 582 Western Images of China

A survey of Westerners' impressions and perceptions of China from the earliest times to the present. Particular attention will be given to American descriptions of China and the Chinese in writings and films.

Credit: 3 semester hours.

Elective (II):

CHI 118 Contemporary China

A study of the place of China in modern science, literature, architecture, the fine arts and music, and of the political, social and economic problems confronting China in our times.

Credit: 3 semester hours.

ASC 180 International Investment and Trade in China

China has become a top destination for foreign direct investment (FDI). The Chinese market is vital to the U.S. and to the world economy. The purpose of this course is to introduce students to opportunities and strategies for investments and trade in/with China.

Credit: 3 semester hours.

ASC 254 U.S.–China Relations

A survey of the cultural, economic, diplomatic, and military relations between the two countries, from the discovery of America to the present. The emphasis will be on contemporary developments, from the Nixon administration to the present. The Taiwan issue will also be discussed. *Credit: 3 semester hours.*

ASC 349 Women and Family in Modern China: Changing Patterns of Social Relations

An analysis of the changes in the status of modern Chinese women; women's status in traditional China and the changing social and political roles of Chinese women from the late 19th century to the present will be examined in the context of modern Chinese history.

Credit: 3 semester hours.

ASC 352 China after the Communist Revolution

The political culture and history of the People's Republic of China. Explores long-term social change and institutional development, and discusses China's current economic relations with the world. *Credit: 3 semester hours.*

ASC 541; 542 Seminar—Taiwan in the Modern World

A study of historical changes in Taiwan in the context of major world trends; internal developments of Taiwan; the influence of external forces. *Credit: 3 semester hours.*

ASC 572 Chinese Business Law

This course will explore main issues in Chinese business law since 1978. It will also discuss Chinese approaches to arbitration and dispute resolution, bankruptcy, corporate corruption, foreign investment, intellectual property, joint ventures, and taxation. *Credit: 3 semester hours.*

Elective (III)

ASC 121 Japan as an Economic Power

A study of political, economic and social factors which contributed to the unusually fast development of the Japanese economy during the post-war period and its domestic and international impacts. *Credit: 3 semester hours.*

ASC 256 Banking in East Asia

Banking in East Asia: core banking functions, types of banks, diversification of banking activities, risk management issues, bank failure and financial crises, and competitive issues.

Credit: 3 semester hours.

ASC 320 Classical Japanese Literature

A study of Japanese literature from the Yamato period to 1868, concentrating mostly on poetry and drama. The main concern will be to perceive the values of Japan through its literature. *Credit: 3 semester hours.*

ASC 321 Modern Japanese Literature

An examination of Japanese literature since the Meiji Restoration in 1868. This includes discussion of the peculiar social and cultural milieu in modern Japan, with primary focus on the major writers. *Credit: 3 semester hours.*

ASC 347 The United States and East Asia

International and intercultural relations from the 18th century to the present. Emphasizes imperialism, nationalism, immigration, evangelization, modernization, globalization, and role of ideas and images. *Credit: 3 semester hours.*

Elective (IV): Asian American Studies

ASC 101 Asian American Cinema

This course introduces students to films made by and about Asian Americans. Using a chronological and thematic approach, various genres—including narrative dramas, documentaries, and experimental films—will be analyzed within the context of Asian American history and contemporary issues concerning the development of Asian American identities. *Credit: 3 semester hours.*

ASC 257 Asian American History

The aim of this course is to provide a balanced survey of the history of the major Asian ethnic groups in the United States namely, Chinese, Japanese, Korean, Indian and Vietnamese. Primary evidence is on the developments during the past half-century. *Credit: 3 semester hours.*

ASC 258 Asian American Art

This course is a survey of the achievements of Asian American artists, beginning with the early 20th century, but concentrating on more recent developments and trends. *Credit: 3 semester hours.*

ASC 583 Asian American Literature

This course concentrates on some important Asian American novelists, short story writers and dramatists, their major themes and their connections with the literary traditions of Asia. *Credit: 3 semester hours.*

ASC 584 Asian American Women

This course is a survey of three major groups of Asian American women—Chinese, Japanese and Korean. The focus is on the interplay between these women's cultural heritages and the changing social environment in the United States. *Credit: 3 semester hours.*

Electives (V):

CHI 108 Beginning Chinese

Practice in the acquisition of pronunciation, tones, vocabulary and grammar. For the students with little knowledge of Mandarin Chinese. *No Prerequisite. Credit: 3 semester hours.*

CHI 103; 104 Advanced Conversational Chinese

Prerequisite: Elementary level Chinese courses or equivalent. CHI 103 is a prerequisite for CHI 104. Drill in the audio-lingual skills; the learning of speech patterns, sounds, intonation and basic vocabulary. *Credit: 3 semester hours.*

CHI 111 Readings in Contemporary Prose

Materials selected from contemporary Chinese writings of general interest. *Credit: 3 semester hours.*

CHI 203; 204 Advanced Reading in Modern Chinese

Readings from modern/contemporary Chinese texts, such as newspapers and periodicals. *Prerequisite:* Intermediate level Chinese language courses or equivalent. CHI 203 is a prerequisite for CHI 204. Readings from modern Chinese texts, periodicals and newspapers. *Credit: 3 semester hours.*

CHI 210, 211 Chinese for Business Managers

This course aims to provide students with the commonly used vocabulary and idioms in doing business with the Chinese. It will also discuss social etiquette in doing business. *Credit: 3 semester hours.*

CHI 305, 306 Seminar on Chinese Literature, I & II

The course aims to examine major works of Chinese poetry, prose, and fiction from ancient times to the present. The first semester concentrates on the pre-modern period, while the second semester focuses on the 20th century. *No Prerequisite. Credit: 3 semester hours.*

ASC 114 Chinese Calligraphy: Theory and Practice

The purpose of this course is to introduce students of the arts and cultures to the essential elements of this great art by describing and analyzing the theoretical structure and aesthetic values. In addition to classroom lectures, several professional and well-known calligraphers will give demonstrations of the uses of brushes and ink. *No Prerequisite. Credit: 3 semester hours.*

JPN 103; 104 Conversational Japanese

Prerequisite: Elementary level Japanese language courses or equivalent. JPN 103 is a prerequisite of JPN 104. The aim of this course is to give the student basic training in Japanese conversation based on the Japanese grammar and vocabulary that he/she has learned. *Credit: 3 semester hours.*

Research**ASC 900 Master's Research**

Supervised research leading to the preparation and completion of a thesis in partial fulfillment of the M.A. requirements. *Credit: 3 semester hours.*

ASC 901 Directed Readings

Supervised research on a single topic determined jointly by the student and a member of the faculty. *Credit: 3 semester hours.*

Maintaining Matriculation**ASC 925 Maintaining Matriculation**

Master's students not registered for other courses must register for ASC 925 until all degree requirements are completed and the degree is granted. *No credit. Fee: \$50 per semester.*

For a complete inventory of approved courses, please contact the Dean's office.

Department of Biological Sciences (BIO)

General Entrance Requirements

Undergraduate Program: Applicants should have successfully completed an undergraduate major in the biological sciences or a related field including one year each of inorganic and organic chemistry, physics and mathematics through introductory calculus with a "B" or better average. One semester of either genetics, molecular biology or biochemistry is required and a semester of each is highly recommended. Preferably an applicant will also have one or more courses in an area of biology in which he or she hopes to specialize.

Deficiencies: All prerequisite courses should be completed prior to commencing graduate studies. The department may require a student to make up certain deficiencies during the first year of study. This may preclude the possibility of obtaining the master's degree within the usual two-year period.

Programs of Study

Master of Science

Entrance Requirements

The applicant must submit transcripts demonstrating that in completing the program described above under "General Entrance Requirements" he or she has achieved an overall cumulative index of "B", including a "B" or better average in biology and the cognate sciences. Acceptance into the M.S. program in Biological Sciences presupposes that the applicant is interested in a career in which the understanding of research objectives plays a substantial role.

All students will be required to present satisfactory scores on the GRE (general tests). Foreign-born students who have not received a US degree will also be required to present evidence of proficiency in English such as the TOEFL test.

Program Requirements

- Courses:** The M.S. program requires a minimum of 33 credit hours of coursework including the core courses Biology 207, 208 and 212. Students may register for upper-level courses in accordance with their career goals and upon recommendation from their graduate advisor.
- Research:** Research is emphasized at all levels of graduate study. M.S. candidates are strongly advised to take at least two semesters of special research (Biology 352, 353). A formal written report describing the results of this research is required for each semester. The thesis option requires six credits of Biology 900 and the submission of a research thesis, which documents a student's ability to conduct independent research.
- Seminars:** Enrollment in and attendance at the Biological Sciences Department Seminars (Biology 599 or 599A) is required every semester. At these meetings research topics of current interest are discussed by distinguished outside speakers, faculty and advanced graduate students.
- Language:** There is no specific language requirement for the master's degree in biology.
- Comprehensive Examination:** All students must pass a written comprehensive examination covering current theory, application and research in areas appropriate to their training and interests. The rules governing the application and administration of this examination are found under "Comprehensive Examination" in the Graduate Division of Arts and Sciences section of this bulletin.
- Residence:** To satisfy the residence requirement for the M.S. degree, the student must successfully complete 12 semester hours of credit in two consecutive academic sessions.
- Time Limit:** All academic requirements for the M.S. degree must be completed within five years.
- Academic Standing:** A 3.0 quality point average must be maintained both in the core courses and in the overall academic record. Failure to do so may result in being placed on probation or lead to dismissal from the program.

M.S. in Biological Sciences, Biotechnology Concentration

St. John's University is embracing the biotechnology revolution through a collaborative, interdisciplinary effort between the College of Pharmacy's Department of Pharmaceutical Sciences and St. John's College of Liberal Arts and Sciences, Department of Biological Sciences. The biotechnology and pharmaceutical industries are currently among the fastest-growing and most research-and-development intensive in America.

Biotechnology is a collection of techniques from the disciplines of microbiology, biochemistry and molecular and cellular biology. Biotechnology companies include the large pharmaceuticals, small start-ups, information technology firms, clinical and research laboratories and others. All of these companies are looking for skilled, self-motivated, proficient employees.

Program Requirements

The outlined curriculum provides a strong conceptual foundation upon which students can build the practical skills necessary to excel in this exciting field.

Students must complete 33 credits, 18 of which are satisfied by the completion of the required core courses, including an off-campus internship that the student takes in his/her final semester.

Core Courses (3 credits each)

PHS 270	Introduction to Biotechnology
PHS 257	Gene Technology in the Pharmaceutical and Health Sciences
BIO 207	Biomolecules and Cell Structure
BIO 248	Laboratory Techniques and Applications I
BIO 249	Communication Skills in the Life Sciences
BIO 910	Internship in Biotechnology

With the remaining 15 credits, students must select at least one course from Section A and one from Section B (below) with additional courses from either section.

Section A

BIO 208	Molecular Genetics
BIO 212	Growth, Movement and Regulation
PHS 203	Research Methods in Pharmacology
BIO 275	Principles of Electron, Microscopy
PHS 250	Biochemical and Biophysical Aspects of Cell Culture and
PHS 250	Alternative to Animal Testing

Section B

BIO 253	Laboratory Techniques and Applications II
BIO 282	Laboratory Use of Radiochemicals
PAS 215	Foundation of Regulatory Affairs
PAS 256	Principles of Drug Design
PAS 252	Biostatistics

B.S./M.S. in Biology

The Department of Biological Sciences offers an intensive, accelerated combined degree program leading to both the B.S. and M.S. degrees in five years of full-time study. Qualified undergraduate students who have completed their sophomore year with a 3.0 cumulative index and a 3.5 for 12 credits in Biology are encouraged to apply. Students in the B.S./M.S. program matriculate for a total of 144 credits, 33 of which are on the graduate level. Those electing the thesis option must complete six credits of Master's Research (BIO 900). Students choosing the non-thesis option complete six credits of coursework in lieu of BIO 900. After completion of the baccalaureate degree, students must enroll full time on the graduate level for the fifth year. For detailed information, students should consult the Director of Graduate Studies.

Doctor of Philosophy

Entrance Requirements

Acceptance into the Ph.D. program in Biological Sciences presupposes that the applicant is interested in and qualified for, a career directing research in an academic, medical or biotechnology setting. Students with very strong undergraduate academic credentials may be accepted directly into the doctoral program.

All applicants must present evidence of:

1. Successful completion of an undergraduate major in the biological sciences with an overall cumulative index of "B" including a "B" or better average in biology and the cognate sciences (including chemistry and physics). The undergraduate program should include one year each of inorganic and organic chemistry, physics and mathematics through introductory calculus. One semester of either genetics, molecular biology or biochemistry is required and a semester of each is highly recommended. Chemistry majors who meet these qualifications will be considered for admission into the program. Preferably applicants will also have one or more courses in an area of biology in which they hope to specialize.
2. Applicants who already possess an M.S. in Biology or an allied field with an overall cumulative index of "B+" or better in their graduate work will be considered for advanced standing toward the doctorate."
3. Satisfactory scores on the GRE general tests.
4. Three satisfactory letters of reference from science faculty in the applicant's most recent program of study.
5. A one-page essay in which the candidate describes his or her interests, career goals and special aptitudes.
6. Special Requirements. Foreign-born students who have not received a US degree will also be required to present evidence of proficiency in English such as the TOEFL test.

Lack of preparation in any particular area may be made up during the first year of attendance with departmental approval. It is strongly recommended that prospective doctoral students consult with the Graduate Director for detailed information concerning the doctoral program.

Curriculum and Program Requirements

1. The academic curriculum consists of a minimum of 60 credits beyond the B.S. degree or 32 credits beyond the M.S. degree. The core curriculum consists of Biology 207, 208, 212 and research rotations through two research laboratories during the second semester of the first year and one more research laboratory during the first summer session of the first year. Students may elect a further rotation during the second summer session. In each of these rotations students are introduced to the specific techniques and the research approaches of individual faculty.
2. *Qualifying Examination.* A qualifying examination for the doctoral program is administered at the end of the first semester of the second year of study. This examination, in the format of MS comprehensives, is a test of the ability to analyze information learned in several disciplines. Successful completion of this examination plus acceptable completion of "Research Rotations" constitutes acceptance to the doctoral research level.
3. *Upper-Level Courses.* Further training consists of a series of upper-level specialized courses, research courses leading to the development of a doctoral dissertation and advanced seminars in which specific research questions are examined through use of current experimental literature. Courses are selected by the student in consultation with faculty advisors and reflect the specific career orientation of the student. The selection of upper-level courses to be taken will be recommended by the student's research advisor and other professors. Ordinarily, a plan will be established during the first year of study. The student's thesis committee will guide the student's research and will form the nucleus of examining committees.
4. *Comprehensive Examination.* A written comprehensive examination which will cover the student's area of concentration and other subjects approved by the doctoral examination committee, will be taken after the student has completed all required courses (in the third year of study) and has obtained approval for a proposal of dissertation research. The rules governing the application and administration of this examination are found under "Comprehensive Examination" in the Graduate Division of Arts and Sciences section of this bulletin.
5. *Research and Dissertation.* All doctoral students are required to take a minimum of six credits of Doctoral Research (950) and to submit a dissertation. Not more

than 15 credits of Doctoral Research (950) will be counted towards the completion of the degree. Upon recommendation of the student's advisor, Special Research (Biology 352 or 353) may be taken as a preparation for dissertation research. Each semester of Special Research requires a written report. The dissertation should embody the results of significant original research, which has been submitted for publication in a recognized scientific journal.

Doctoral candidates must defend the dissertation in a final oral examination before a committee of the faculty. Doctoral level students will be expected to communicate in both oral and written presentations with clarity, organization and accuracy. The doctoral dissertation is a major document which is expected to demonstrate high-level skills in writing and presentation as well as in the scientific content.

The public defense of the doctoral dissertation is not scheduled until the candidate submits evidence to the Departmental Chair that a manuscript derived from the dissertation has been submitted to a peer-reviewed journal for publication.

6. **Seminars.** Enrollment in and attendance at the Departmental Seminars (BIO 599) are required for credit during a total of three semesters and thereafter as a no-credit course (Bio 599A). Doctoral students will be asked to present the results of their research at these seminars.
7. **Residence.** To fulfill the residence requirements for the Ph.D. degree, a student must complete two consecutive academic semesters of full-time study; that is, fall and spring, including attendance at seminars.
8. **Time Limit.** Students must complete all requirements for the degree within seven years from the date of matriculation. Degree credit may be denied for courses more than seven years old.
9. **Transfer Credit.** Students may seek admission to the Ph.D. program after having successfully completed some graduate work at another accredited institution. Students may request transfer of credit for this work, provided it has not been offered in fulfillment of another graduate degree.
10. **Academic Standing:** A 3.0 quality point average must be maintained both in the core courses and in the overall academic record. Failure to do so may result in being placed on probation or lead to dismissal from the program.
11. Students must complete a research tool in computer competency either by appropriate coursework or by passing a departmental examination.

Special Requirements

1. All laboratory work must be done at the University unless special permission is granted by the Associate Dean of the Graduate Division of Arts and Sciences to do research elsewhere.
2. Students may enroll for special research in the summer session as well as in the regular academic year.
3. It is strongly recommended that students plan for full-time attendance, since it is not advisable to attempt completion of a degree program by part-time study.

Candidacy

A student will be admitted into candidacy for the Ph.D. program upon the successful completion of all courses other than Doctoral Research (950), the doctoral qualifying examination, research tool requirements and acceptance of a thesis proposal by the Chair of the department.

Fellowships

All master's program students are eligible to apply for graduate assistantships which offer a stipend, provide tuition remission and require some service to the department. Doctoral program students are eligible to apply for University doctoral fellowships or doctoral fellowships which are awarded competitively based on criteria such as grades, GRE scores, effort and progress in research. Women doctoral students are eligible for the prestigious Clare Booth Luce Fellowships in Biology which are also awarded on the basis of academic merit. These Luce Fellowships are especially intended for women who expect to pursue careers in higher education.

Some of the biology faculty may have funds available from research grants for the support of student assistants; these awards are made by the faculty member. Interested students may consult the Chair for specific information and application procedures required for any of these assistantships or fellowships.

Courses

The core curriculum is an integrated series of three courses encompassing the fundamentals of biochemistry and molecular biology in the context of prokaryotic and eukaryotic cell biology. It is designed so that BIO 207 (Core A) is taken during the first semester; and BIO 208 (Core B) and BIO 212 (Core C) are taken concurrently during the second semester. All students will take BIO 599 (Departmental Seminars) for credit during the first three semesters and for 0 credit thereafter. Doctoral students are required to enroll in BIO 550 (Research Rotation I) in the spring semester of their first year and in BIO 551 (Research Rotation II) during the summer between their first and second years.

165 Ecology

This course will deal with recent advances in ecological research in published papers, new books and journals. *Credit: 3 semester hours.*

207A Core A Biochemistry

Structure and function of biomolecules; enzymes; introduction to the organization and chemical economy of the cell; an overview of metabolism. *Credit: 3 semester hours.*

208 Core B Molecular Biology

Prerequisite: 207. Structure and function of DNA; protein synthesis and the genetic code; mechanisms of genetic transfer; recombinant DNA; viruses; chromosomes; gene expression and its regulation. *Credit: 3 semester hours.*

209 Bioinformatics

A consideration of the application of information technology to biological questions, including DNA sequencing, proteomics and genomics. *Credit: 3 semester hours.*

212 Core C Cell Biology

Prerequisite: 207. Structure and function of subcellular organelles. Transport; the endoplasmic reticulum, protein secretion and membrane biogenesis; the cytoskeleton; mitochondria, chloroplasts and the generation of useful energy. *Credit: 3 semester hours.*

215 Developmental and Systems Biology

Prerequisite: 207, 208, 212. Germ cells, fertilization, multicellular development and the determination and maintenance of tissue specificity; molecular biology of development, the immune and nervous systems. *Credit: 3 semester hours.*

234 Selected Topics in Medical Microbiology

The host-microbe interaction in health and disease; role of microbial agents as biological response modifiers; the molecular basis of chemotherapy and microbial resistance to antibiotics. *Credit: 3 semester hours.*

236 Microbial/Molecular Genetics

Prerequisite: 207. The focus of this course is on modes of genetic transfer, plasmids and mobile genetic elements. Molecular techniques used in prokaryotic research will be emphasized. *Credit: 3 semesters hours.*

240 Virology

The nature and molecular biology of viruses and their relationship to the host cell. Lecture. *Credit: 3 semester hours.*

248 Laboratory Techniques and Applications I

Project-based hands-on experience with a variety of modern cellular, biochemical and molecular techniques. *Credit: 3 semester hours.*

249 Introduction to Scientific Literature

Instruction in the reading of original research articles in a single area of interest to both the student and faculty member. Weekly presentations of two or three papers are required. *Credit: 3 semester hours.*

251 Endocrinology

Introduction to hormone regulation, synthesis and mechanism of action; principles of hormone assay; hormone-receptor interaction and signal transduction. *Credit: 3 semester hours.*

253 Laboratory Techniques and Applications II

*Second part of BIO 248.
Credit: 3 semester hours.*

261 Neurophysiology

Neuroanatomy; cell biology of neurons; synaptic transmission; mechanisms of transmitter release; coding and processing of the sensory information; phototransduction. *Credit: 3 semester hours.*

275 Principles of Electron Microscopy

Corequisite: 275L. This course is intended to instruct the student in the basic techniques of electron microscopy. It will also describe the analytical methods used to identify various biological systems. *Cf. PHS240. Credit: 4 semester hours.*

275L Electron Microscopy

Corequisite: 275. This course will instruct the student in the preparation of tissue for electron microscopy and the interpretation and analysis of electron micrographs. *Laboratory fee: \$60 per semester. Credit: 3 semester hours.*

278 Cytogenetics

Origin, chromosome behavior, transmission and genetic significance of chromosome aberrations; euploidy, aneuploidy and their practical usefulness. *Credit: 3 semester hours. Laboratory fee: \$60.*

708 Topics in Molecular Biology

Organization, function, regulation and manipulation of genes at the molecular level. Applications of recombinant DNA technology to basic research medicine and biotechnology. *Credit: 3 semester hours.*

711 Cellular Signal Transduction

The biochemical pathways responsible for the activation of cell function in response to intercellular signals will be explored. *Credit: 3 semester hours.*

714 Topics in Genetics and Cytogenetics

Human genetics, extrachromosomal inheritance and selected topics in cytogenetics and eukaryotic genetics. *Credit: 3 semester hours.*

715 Yeast and Other Fungi as Experimental Organisms

The focus of the course is on molecular genetic manipulations of yeast and other fungi. *Credit: 3 semester hours.*

718 Topics in Developmental Biology

A single topic in the field of developmental biology will be explored in-depth beginning with the original observations leading to interest in the field and ending with the most recent developments in the area. *Credit: 3 semester hours.*

722 Biology of Aging

Current theories of aging. Emphasis will be on readings in one of the currently popular theories and its future development. *Credit: 3 semester hours.*

730 Microbial Physiology

The emphasis of this course is on the organization of genetic networks in bacteria and their ability to respond to environmental fluxes. Signal transduction mechanisms in prokaryotic cells. *Credit: 3 semester hours.*

762 Topics in Neurobiology

Two to three topics in the field of Neurobiology will be selected for each course. Topics will be discussed in depth beginning with the historical background and ending with the most recent developments in the area. *Credit: 3 semester hours.*

763 Molecular Neurobiology

The impact of advances in molecular biology on the study of the nervous system will be investigated. *Credit: 3 semester hours.*

Research

352; 353 Special Research in Biological Sciences

Consists of conferences on specialized topics and accompanying laboratory work. A formal written report is required. May not be repeated. *Credit: 3 semester hours per semester. Laboratory fee: \$60 per semester.*

550 Research Rotation I

Required of doctoral students. This course is given in the Spring semester and consists of sequential laboratory experiences in each of two separate research laboratories. *Credit: 3 semester hours. Laboratory fee: \$60 per semester.*

551 Research Rotation II

Required of doctoral students. This course is given in the first summer session and consists of a third laboratory experience in a research laboratory. *Credit: 3 semester hours. Laboratory fee: \$60 per semester.*

552 Research Rotation III

This course is an optional fourth laboratory experience. The project chosen is to give the student experience in the handling of equipment and in the research goals associated with the laboratory. *Credit: 3 semester hours. Laboratory fee: \$60 per semester.*

599 Departmental Seminar

Enrollment and attendance at this weekly seminar is required of all students. Presentations by invited speakers from St. John's and other universities and research institutions. *Credit: 1 semester hour per semester for first three semesters; 0 semester hours during subsequent semesters.*

900 Master's Research

Supervised research leading to the preparation and completion of a thesis in partial fulfillment of the master's degree requirements. Students enrolled in the thesis program are obliged to complete six credits of master's research. *Credit: 3 semester hours per semester. Laboratory fee: \$60 per semester.*

910 Internship in Biotechnology

Prerequisites: Completion of the core with at least a total of 21 credit hours with a minimum quality point average of 3.0. The performance of laboratory procedures utilizing techniques in biotechnology involved in product development will be practiced at an authorized internship site. Emphasis will be placed upon experiential learning of the multidisciplinary nature of contributing to research and development. *Credit: 3 semester hours.*

950 Doctoral Research

Original research leading to the doctoral degree. Restricted to those students whose thesis proposal has been accepted by the Chair of the department. Doctoral students may register for 950 while completing degree requirements. However, upon the successful completion of all formal courses and comprehensive examination, doctoral candidates must register for 950 until the dissertation is completed and the degree is awarded. Not more than 15 credits of 950 will be counted towards the completion of the degree. *Credit: 3 semester hours per semester. Laboratory fee: \$60 per semester.*

Maintaining Matriculation

925 Maintaining Matriculation

M.S. students who do not register for other courses must register for BIO 925 until all degree requirements are completed and the degree is granted. *No credit. Fees: \$50 per semester, \$60 laboratory; Total \$110 per semester. (Students who do not use laboratory facilities may petition the Chair and the Dean to waive the laboratory fee.)*

940 Maintaining Matriculation

Ph.D. students who have not registered for other courses, must register for BIO 940. May not be taken consecutively for more than two semesters. *No credit. Fees: \$50 per semester; \$60 laboratory; Total: \$110 per semester. (Students who do not use laboratory facilities may petition the Chair and the Dean to waive the laboratory fee.)*

For a complete listing of approved courses, please contact the Dean's office.

Department of Chemistry (CHE)

Programs of Study

B.S./M.S. in Chemistry

The Department of Chemistry offers an intensive, accelerated, combined degree program leading to both the Bachelor of Science and the Master of Science degrees in five years of full-time study. Qualified undergraduates will have completed their sophomore year with a 3.0 cumulative index and a 3.5 index in chemistry applicable to the major. They are enrolled into the program upon application. Provisional acceptance into the program may be granted to exceptional first- and second-year students.

Students enrolled in the B.S./M.S. program matriculate for a total of 147/148 credits. A total of 126/127 credits must be completed by the end of the fourth year, at which time the B.S. degree is awarded. Completion of a thesis and the remaining hours of coursework in the fifth year fulfills the requirements for the M.S. degree. All graduate students must successfully complete CHE 101, 111, 121 and 141.

For more details and advisement about the B.S./M.S. program, students are encouraged to contact the department Chairman at the earliest possible date.

Master of Science

Entrance Requirements

The undergraduate preparation of the student who expects to undertake graduate work in chemistry is a B.S. in a chemical science. Alternately, a non-chemistry degree student may submit evidence of undergraduate preparation that normally includes courses of eight or more credit hours in each of the following: inorganic chemistry, organic chemistry, analytical chemistry, physical chemistry, general physics. In addition, he/she should be equipped with 6 credits of mathematics, including differential and integral calculus. Where there is a deficiency, the department Chair will determine what basic courses the student must make up to matriculate for an advanced degree in chemistry.

This program affords an opportunity for original investigation in a specialized field.

Program Requirements

- 1. Program:** The Master of Science degree can be fulfilled in either of two ways. Students who elect to undertake a thesis as partial fulfillment of the degree requirements must complete a total of 30 credits, comprised of 24 lecture credits and six research credits. Students who elect to meet degree requirements without undertaking a thesis must complete a total of 33 credit hours and pass a comprehensive exam.
- 2. Required Courses:** All students must pass Chemistry 101, 111, 121 and 141.
- 3. Research:** Students in the thesis program must take Chemistry 900, Master's Research (six credits). This sequence of courses requires the completion of a research problem by the student under the supervision of a staff member and the presentation of the results in the form of a written thesis. The topic of the research must be approved by the research advisor, the Chair and the Dean. All work must be done at the University. In rare cases, permission may be obtained from the Dean to carry out a portion of the work outside the University.
- 4. Comprehensive Examination:** A written comprehensive examination is required of students in the non-thesis program. In the thesis program an oral comprehensive examination is given which includes defense of the thesis.

Assistantships

A limited number of graduate assistantships are available for qualified students. Graduate assistants supervise undergraduate laboratory activities. In return the graduate assistantships carry a stipend and provide tuition remission. All applicants for graduate assistantships must submit Graduate Record Examination GRE scores (for the general exam) with their applications.

Foreign-born students applying for assistantships who have not received a US degree are also required to present evidence of proficiency in English such as TOEFL test scores.

Courses

To accommodate students employed in industry and education, all classes begin at or after 6 p.m. on weekday evenings.

101 Instrumental Methods of Analysis*

A lecture and laboratory course on the application of modern physical and chemical techniques to chemical analysis. Emphasis is placed on the unifying principles underlying analog and digital data acquisition and evaluation. *Credit: 3 semester hours. Laboratory fee: \$60.*

103 Computer Applications in Science*

Designed to prepare graduate students to fully utilize computer technology through the understanding of commercial software, internet searching. *Credit: 3 semester hours.*

111 Advanced Inorganic Chemistry*

Descriptive chemistry of the representative elements and of some of the more common transition metals. *Credit: 3 semester hours.*

121 Advanced Organic Chemistry*

The structure, energetics and reactivity of organic compounds are discussed in detail and are explored through discussions of Molecular Orbital Theory, advanced conformational analysis and stereochemistry. *Credit: 3 semester hours.*

141 Chemical Thermodynamics*

The laws of thermodynamics with chemical applications. Heat work, thermochemistry, entropy, free energy, chemical potential, chemical equilibrium. *Credit: 3 semester hours.*

145 Physical Chemistry of Macromolecules*

Biophysical chemistry and physical polymer chemistry are united into a single course of study. Key concepts and principles of both fields will be investigated. *Credit: 3 semester hours.*

202 Separation Techniques in Chemistry

The underlying unity of differential migration techniques applicable in the fields of chemistry, biology and the pharmaceutical sciences, is the basis for this course. Current instrumentation and new trends in separations will be discussed. *Credit: 3 semester hours.*

214 Bioinorganic Chemistry

The role of inorganic elements in compounds found in living systems. Topics covered include the role of metals in the biological electron transfer reactions, oxygen transport, enzymes, metal uptake, toxicity of metals and chemotherapy. *Credit: 3 semester hours.*

224 Mechanisms of Organic Reactions

Aliphatic nucleophilic substitution, intramolecular cationic rearrangements, carbanions, carbenes, electrophilic aliphatic substitution, addition and elimination reactions, reactions of carbonyl compounds and radical reactions. *Credit: 3 semester hours.*

227 Organic Spectroscopy

The principles of infrared, nuclear magnetic resonance, ultraviolet and visible spectroscopy and mass spectrometry are presented. The primary emphasis is on spectral interpretation and structure determination. *Credit: 3 semester hours.*

231 Chemistry of Organometallic Compounds

The preparation, structure and reaction chemistry of transition metal organometallic compounds. The chemistry of ligands possessing a metal to carbon bond is examined. Mechanisms for achieving various organometallic transformations are also discussed. *Credit: 3 semester hours.*

233 Stereochemistry of Carbon Compounds

Chirality, optical activity, configurational and conformational stereoisomerism in acyclic and cyclic carbon compounds, geometrical isomerism, methods of determination of configuration and conformation are discussed.

Credit: 3 semester hours.

236 Natural Products

The structure, synthesis, reactions and biosynthesis of the most important naturally occurring organic compounds are developed.

Credit: 3 semester hours.

237 Bioorganic Chemistry

This course provides an understanding of biological systems at the molecular level by applying the principles of Organic Chemistry.

Credit: 3 semester hours.

238 Advanced Organic Synthesis

An in-depth study of modern synthetic methodologies, incorporating the elements of functional group transforms, mechanism, stereochemistry, conformational control and strategy. *Credit: 3 semester hours.*

239 The Development of Modern Organic Chemistry

This course portrays the flow of events, those discoveries, theories and techniques of the last 200 years, which brought organic chemistry to its present-day dramatic vigor.

Credit: 3 semester hours.

242 Reaction Kinetics

This course involves the detailed study of the rates of chemical reactions, treatment of experimental data, theories of simple reactions and mechanisms of complex reactions.

Credit: 3 semester hours.

249 Quantum Chemistry

Exact solution to the Schrodinger equation for simple systems and methods of approximation for more complex systems. The application of wave mechanics to problems of chemical bonding. *Credit: 3 semester hours.*

250 Electronic Spectra and Group Theory

Theory of electronic and vibrational transitions in molecules and the spectra resulting from these transitions. Detailed discussion of group theory related to the determination of selection rules in molecular spectroscopy. *Credit: 3 semester hours.*

255 Chemical Bonding

Introduction to a quantitative understanding of chemical bonding with applications to atomic and molecular systems. The development and application of mathematical tools for classical and quantum mechanical description of molecular phenomena. *Credit: 3 semester hours.*

260 Independent Study

Experimental research is performed under the guidance of a faculty member. Permission of the Chairman required. *Credit: 3 semester hours. Laboratory Fee \$60.*

900 Master's Research

Supervised research leading to the preparation and completion of a thesis in partial fulfillment of the master's degree requirements. Students enrolled in the thesis program are obliged to complete six credits of master's research. An approved research plan is required prior to registration for this course. *Credit: 3 semester hours per semester. Laboratory fee: \$60 per semester.*

925 Maintaining Matriculation

M.S. students who do not register for other courses must register for 925 until all degree requirements are completed and the degree is granted. *No credit. Fees: \$50 maintaining matriculation; \$60 laboratory; total: \$110 per semester. (Students who do not use laboratory facilities may petition the Chair and the Dean to waive the laboratory fee.)*

OTHER COURSES TO BE OFFERED AS NEEDED**

262, 263 Special Topics in Organic Chemistry

264, 265 Special Topics in Physical Chemistry

266, 267 Special Topics in Inorganic Chemistry

268, 269 Special Topics in Analytical Chemistry

** Students are encouraged to request the inclusion of any of the above topics in the departmental offerings.

For a complete listing of approved courses, please contact the Dean's office.

**Also open to qualified undergraduates.*

Department of Communication Sciences and Disorders (CSD)

Program of Study

Master of Arts in Speech-Language Pathology

The 48-credit Master of Arts degree program is accredited by the Council on Academic Accreditation of the ASHA in Speech-Language Pathology, and is a New York State licensure qualifying program. The curriculum consists of three substantive divisions: a basic core curriculum, taken by all students, that includes advanced courses in research, basic communication processes and clinical studies; a major area concentration curriculum in speech language pathology, selected in consultation with one's advisor; and an advanced research course, or project or thesis. Each student must earn 42 course credits and either complete a master's thesis for six credits or 45 course credits and complete a three-credit research project or advanced research course. In addition, each student may demonstrate proficiency in at least one of three areas: instrumentation and microcomputers, statistics or language (including manual communication). Students must also complete a minimum of 400 hours of supervised clinical experience. All students must meet the knowledge and skills (KASA) requirements for ASHA certification and the NYS license.

Entrance Requirements

Admission into the program requires a B.A. degree (with a minimum cumulative index of 3.0), competence in oral and written communication, three letters of recommendation, a 300-word written statement of career goals, six credits of undergraduate coursework in biological/ physical sciences and three credits in mathematics, six credits of undergraduate coursework in behavioral and/or social sciences and 18-21 credits of undergraduate coursework (depending upon undergraduate background in speech-language pathology) in the speech and hearing sciences, anatomy and physiology of speech, phonetics, language acquisition or linguistics, audiology and speech-language pathology. In addition, courses in computer science and statistics are desired. An interview may be required. Provision is made through special courses for students deficient in coursework entrance requirements. Graduate Record Examination (GRE) scores are required. Students applying for graduate assistantships or Doctoral Fellowships must take the Graduate Record Examination and should earn a total of 1000 on the verbal and quantitative sections.

Degree Requirements

A. Required Courses: All students must take a minimum of 15 credits of required coursework distributed in three areas: in the research core (201); the basic communication processes core (202, 203 and 204), and the clinical core (at least one course from among SPE 210, 211). In addition to meeting coursework requirements in Speech Language Pathology, students are expected to take at least one course in Audiology to meet the minor area of study requirements for ASHA certification. (Spe 214, 351, 354, 355, 364.)

B. Major Concentration: Students select professional courses in speech-language pathology, taking a minimum of 21 graduate credits in the major area of study, with the courses selected in consultation with the student's advisor. At least 6 credits must be in language disorders courses and 6 credits must be in speech disorders courses.

C. Residency: Each student must satisfy a full-time residence requirement (a minimum of 9 credits) during one academic semester, excluding summers.

D. Practicum: Students must complete a minimum of 400 hours of supervised clinical experience, distributed among several categories of communication disorders across the life span. A student may apply up to six credits of practicum toward the 48 credits required for the degree. One credit must be Spe 420: Clinical Practicum in Audiology for Speech Language Pathology.

E. Research: Students must complete a research project or a master's thesis, or enroll in 440 (Advanced Research Methods). Students in the non-thesis research project option select a special research course (three credits) in their area of interest and complete a supervised research project. The topic is chosen in consultation with one's mentor and must be approved by the mentor. Upon completion, the student must submit a written report to his/her mentor. Students in the thesis option, (this requires a minimum GPA of 3.5) earn six credits for Master's Thesis Research (900) completed under the supervision of a faculty member and committee and present their results in a written report.

F. Research Tools (optional): Students may demonstrate proficiency in at least one of three areas: statistics, language (including manual communication) or instrumentation and micro-computers. Proficiency may be demonstrated by completing designated courses or passing an examination in Spanish, French, German, Russian or Manual Communication. Credit will be given toward the degree for a course that fulfills the research tool requirement.

G. Comprehensive Examination: A written comprehensive examination taken during the last semester of coursework is required of all students electing either the research project or Advanced Research Methods course option. For students who have elected the thesis option, the examination is oral and centered on the thesis and related areas.

Certificate: Teacher of Students with Speech and Language Disabilities

Students will be eligible to obtain a Certificate as Teacher of Students with Speech and Language Disabilities issued by the New York State Department of Education provided that they meet the education, practicum (student teaching) and observation requirements as required by the New York State Dept. of Education. Practicum 407 (two credits) in an educational setting with a minimum of 150 contact hours may be taken. A special selection of pedagogy coursework to meet New York State Education requirements for the Teacher of Students with Speech and Language Disabilities will be provided to those students who are interested in this program. Upon completion of this program, endorsement to the state will be issued.

Program of Study

Doctor of Audiology

The Long Island Au.D. Consortium

Three academic institutions on Long Island, Adelphi, Hofstra, and St. John's Universities, have joined together to offer their combined resources for a ground-breaking Doctor of Audiology program, now available to qualified bachelor's graduates.

Students are able to utilize the resources of all three schools, including the laboratories, equipment, faculty, and externship sites.

The objective of this clinical program is to produce highly skilled practitioners who have the ability to perform the wide variety of diagnostic, remedial, and other critical services included within the scope of practice for audiologists to meet the ASHA requirements for certification.

Each audiology doctoral student selects a home university. The home institution maintains student transcripts, provides advisement, and monitors ASHA certification and New York State licensing requirements. The home institution awards the degree, noting that it was completed in conjunction with the two other universities. All coursework practicum are administered through the consortium. Prerequisites for admission into the Au.D. Consortium Program include completion of a bachelor's degree from a regionally accredited institution. Applicants are admitted based on established admission criteria.

The curriculum includes advanced course work in vestibular assessment, hearing aid technology, early intervention, and electrophysiology. In addition to classes that are scheduled within traditional semesters, a variety of instructional formats, including intensive one-to-eight-week institutes, weekend workshops and distance courses are offered. The 4-year program includes a 2000 hour practicum in the final year. Through courses and clinical experience, students must attain the knowledge and skills (KASA) required for ASHA certification in Audiology.

One applies for the Au.D. program through Adelphi University.

Faculty Qualifications

The faculty are experienced professionals and those faculty members engaged in clinical supervision hold the appropriate NY State license and ASHA Certification. In addition, adjunct faculty are brought in to teach selected courses in specialized areas or supervise at the Speech and Hearing Center.

Facilities

Resources available to the student include the Computer Center and Microlabs, and Health Education Resource Center, as well as the Speech and Hearing Center and the Speech Laboratory. The Speech and Hearing Center, located off campus at 152-11 Union Turnpike, serves as a training facility for students while providing diagnostic and remediation services to the community. It has substantial resources, including tests, materials and instrumentation necessary to provide required practicum experiences. More than 100 outside facilities, including medical centers, hospitals, schools, day care centers and nursing homes, serve as externship sites for students, providing experience in a variety of settings. The center is open six days a week, including evenings.

Courses for M.A. in Speech Language Pathology

Intermediate Course

(Prepares students who lack required undergraduate courses to meet the undergraduate coursework entrance requirements.)

106 Introduction to Speech-Language Pathology

(Pre- or co-requisite SPE 1710, 1720, 1730 or equivalent). Principles of speech-language pathology, including classification, etiology, symptoms and physioanatomical correlates of neurologically, anatomically and functionally based disorders. *Credit: 3 semester hours. May not count toward the degree.*

Required Courses

1. Research Core (3 credits)

201 Introduction to Research Methods

Prepares students to become well-informed consumers of research; principles and practices of scientific research, including experimental design, statistical methods, and application to clinical practice. (Cross-listed with AUD 502.)
Credit: 3 semester hours. Every semester.

2. Basic Processes Core (9 Credits)

202 Acoustics and Perception of Speech

The acoustics of speech, including how differences in articulatory behavior are reflected in the acoustic signal; perception of the speech signal. *Credit: 3 semester hours.*

203 Models of Language Behavior

Psycholinguistic theories of language and speech development, including syntax, semantics and pragmatics. Relation between language and cognition, including attention, perception, storage and retrieval.
Credit: 3 semester hours.

204 Advanced Anatomy and Physiology of Speech

The use of the speech mechanism, especially the muscular and neurological systems. Functional units of the speech system and their coordinated use to produce normal speech. For Speech-Language Pathology majors.
Credit: 3 semester hours.

3. Clinical Core (3–12 credits)

210 Assessment of Speech-Language Problems

Assessment of speech and language disorders including developmental status, differential diagnosis, use and limitations of standardized instruments, scoring and interpretation and application of dynamic assessment procedures.
Credit: 3 semester hours.

211 Assessment of Speech-Language Problems

Clinical examination of persons with oral communication problems. Emphasis on formal and informal assessment procedures of school-age children and adults with communication disorders. Advanced. *Credit: 3 semester hours.*

Professional Coursework

1. Speech-Language Pathology

310 Voice Disorders

Normal and abnormal adaptation of respiration, phonation and resonance in the production of voice; procedures, materials and instrumentation for voice diagnostics and therapy, as applicable to children and adults.
Credit: 3 semester hours.

311 Fluency

Fluency and factors that may disrupt it; nature and development of stuttering across the life span; special consideration for pre-school and school-age children; interactions with children, parents and teachers. *Credit: 3 semester hours.*

312 Motor Speech Disorders

Nature, classification, neurology and pathologies associated with motor speech disorders. Descriptions of dysarthrias, apraxias, dysphagia and other respiratory/phonatory and motor speech disorders across the life span.
Credit: 3 semester hours.

314 Disorders of Articulation

An analysis of development of articulatory skills, phonological processes and the patterns of articulatory and phonological disorders.
Credit: 3 semester hours.

315 Augmentative Communication Systems

Alternate communication systems for individuals across the range of communication handicaps, including sign systems, Bliss symbols, communication boards, electrical-mechanical aids and other assistive technologies.
Credit: 3 semester hours.

316 Communication Disorders Associated with Craniofacial Anomalies

Disorders of speech, language and hearing associated with the craniofacial anomalies including assessment and intervention, classification, anatomy and physiology and embryology. *Credit: 3 semester hours.*

317 Acquired Language Disorders

Syndromes of language impairments resulting from neurological damage. Includes differential diagnosis and rehabilitation of pathologies in the adult population (e.g., aphasia, traumatic brain injury, dementia). *Credit: 3 semester hours.*

318 Developmental Language Disorders

Characteristics, assessment and treatment of language disorders in children resulting from syndromes, autism, receptive/expressive language problems, cognitive deficits, and social/pragmatic deficits, using evidence-based criteria. *Credit: 3 semester hours.*

320 Language-Based Learning Disabilities

Linguistic theories of language and learning disabilities. Analysis, identification and differential diagnosis of children with language learning disabilities and their relation to language, reading, writing and literacy.
Credit: 3 semester hours.

321 Speech-Language Assessment and Intervention for Infants, Toddlers and the Pre-School Child

Educational principles and procedures for infants, toddlers and pre-school children with language and learning disabilities and perceptual skill impairments. *Credit: 3 semester hours.*

322 Communication Problems of Geriatric Persons

Study of the speech, language and hearing difficulties affecting the geriatric population and the relationship of social adjustment and health concerns of this population to communication disorders. *Credit: 3 semester hours.*

323 Communication Problems of the Developmentally Disabled and Multiply Handicapped

The nature and causes of developmental disabilities, their impact on the family, community and school system. *Credit: 3 semester hours.*

324 Independent Study in Speech-Language Pathology

Study of current problems in speech-language pathology. Recommended for students selecting the thesis option, or other students wishing to investigate a particular problem in depth. Student must select a mentor to direct study.
Credit: 3 semester hours.

325 Studies in Bilingualism

Theories of bilingualism will be described as the development of multi-lingual children is considered. Neurolinguistic considerations of brain-damaged multi-lingual speakers will also be considered. *Credit: 3 semester hours.*

328 Dysphagia: Theory and Practice

Anatomy and neurophysiology of normal swallowing in the aero-digestive tract. Pathophysiology of swallowing in children and adults; evaluation techniques and treatment procedures; identification of risks and precautions. *Credit: 3 semester hours. May be taught off campus.*

330 Speech-Language Pathology Practice in Educational Settings.

Implementing speech-language services in schools. Service delivery models; education law; due process, strategies for effective participation in services for speech- and language-impaired students. Required for students enrolled for the New York State TSSLD
Credit: 3 semester hours. (30 hrs. and field Experience/observation).

331 Principles of Dysphagia

Swallowing physiology; behavioral and meal-time correlates of swallowing; associated diagnoses and conditions; evaluation methods; treatment and management; clinical decision-making and counseling. *Credit: 3 semester hours.*

340 Special Topics in Speech-Language Pathology

The course is devoted to the in-depth study of areas of speech-language pathology to which no standard course is dedicated and whose study is felt to be warranted at particular intervals. *Credit: 3 semester hours.*

341 Management of Pediatric Dysphagia in a Developing Country

Anatomy and neurophysiology of normal swallowing and pathophysiology in infants and children. Assessment, treatment, management and models of delivery in the USA and in a developing country. *Credit: 1 semester hour.*

342 Educating the Asperger's Student: Academic and Social-Emotional Concerns

An overview of the special learning and social-emotional issues involved in educating students with Asperger's Syndrome. *Credit: 1 semester hour.*

343 Global Perspectives on Communication Disorders

How societal expectations, parenting styles, social resources, access to information and educational/therapeutic services influence developmental outcomes when a communication disorder exists. *Credit: 1 semester hour.*

Clinical Practica in Speech-Language Pathology

405 Speech-Language Pathology Practicum

Clinical evaluation and remediation of disorders of speech and language; on-campus and off-campus sites; children and adults. Minimum 60 hours of direct clinical practice/credit. May be repeated for a maximum of 3 credits. Sufficient background in coursework required. *Credit: 1–3 semester hours.*

407 Practicum in Speech-Language Pathology in Educational Settings

Prerequisite: 330. School-based practicum (student teaching). Minimum 150 hours of direct contact/30 hours of observation. Authorization of Completion Letter must be filed with the NYS Department of Education for this experience to fulfill requirements for state teacher certification. *Credit: 2 semester hours.*

408 Speech Pathology Practicum in Adult Setting

Clinical evaluation and remediation of disorders of speech and language; off-campus site with adults. Minimum 60 hours of direct clinical practice/credit. May be repeated for a maximum of 3 credits. Sufficient background in coursework required. Must register with Clinical Coord. *Credit: 1–3 semester hours.*

2. Minor Area Courses in Audiology

214 Habilitative and Rehabilitative Procedures for the Hearing Impaired

Application of audiological findings and theory to rehabilitation and management of hearing-impaired and deaf children and adults and selection of amplification for the hearing impaired. *Credit: 3 semester hours.*

351 Advanced Audiology

Advanced clinical and experimental methods of evaluating the peripheral and central auditory system. Knowledge of basic audiological techniques is presumed. *Credit: 3 semester hours.*

354 Habilitation of Children Who are Deaf or Hearing Impaired

Theories of language, speech production and perception of children with hearing loss. Current approaches to assessment, speech training and the use of sensory aids including computer-based devices and cochlear implants. *Credit: 3 semester hours.*

355 Rehabilitation of Adults Who are Deaf or Hearing Impaired

Current research and theory on speech production and perception in adults with hearing loss of various etiologies, including speech production, auditory feedback, cochlear implants and speechreading. *Credit: 3 semester hours.*

364 Central Auditory Processing

Anatomical and physiological processes and structures involved in processing acoustic information in the central auditory system. Disorders/pathologies associated with central auditory dysfunction. Management and treatment. *Credit: 3 semester hours.*

Clinical Practica in Audiology

420 Clinical Practicum in Audiology for the Speech-Language Pathologist

Clinical practicum in assessment of hearing disorders and rehabilitation management of hearing impaired persons. Minimum of 20 hours in the minor area appropriate to scope of practice. *Credit: 1 semester hour.*

3. Professional Issues Courses

380 Issues in the Profession

Legislative and professional issues affecting the speech and hearing profession and their effects on service provision and impact on the field. Legal rights of communicatively disordered persons, including provisions of the ADA, IDEA, RTI. *Credit: 3 semester hours.*

381 Cultural Diversity in Speech-Language Pathology and Audiology

Understanding of diversity issues that impact on the assessment and intervention of language and speech abilities in both children and adults in multicultural and multilingual populations. *Credit: 3 semester hours.*

4. Research

A student must choose to complete either SPE 440 (Advanced Research Methods), or 452 (Special Research Project) or Spe 900 (Master's Thesis) to fulfill degree research requirements.

440 Advanced Research Methods

Prerequisite: 201. Students will examine and interpret research results using statistical techniques and graphic displays. Students will design a clinical efficacy study related to assessment or intervention. *Credit: 3 semester hours.*

452 Special Research in Speech-Language Pathology

A student will design and carry out an independent research project. A course seminar is to be scheduled to guide the students through the process. *Credit: 3 semester hours.*

900 Master's Thesis Research

Open to students whose GPA is at least 3.5. Guided development and conduct of a research program resulting in the completion and presentation of a Master's thesis *Credit: 3 semester hours. for students continuing from Special Research; 6 semester hours for students beginning and completing a thesis in this course.*

5. Research Clinical Tools (Optional)

Proficiency in one of the following research tool areas may be demonstrated either by examination or by successfully completing at least one of the courses or course sequences listed below.

450 Technology

Purpose and use of instrumentation and technology in the clinical, educational and research laboratory setting for analysis, assessment, treatment and study of normal and disordered speech, language and hearing processes. *Credit: 3 semester hours.*

490 Manual Communication/Sign Language

Students will understand the history of ASL, the culture of the Deaf community, ASL and its relationship to other forms of sign language and sign systems and non-verbal communication techniques. *Credits: 3 semester hours.*

Courses for Doctor of Audiology Degree (Au.D.)

501 Advanced Audiology

Integration of theoretical and practical aspects of audiologic assessment; standard audiometric battery preparing students with the skills necessary to administer these tests and to interpret test results. *Credit: 3 semester hours.*

502 Research Methods

Prepares students to become well-informed consumers of research; principles and practices of scientific research, including experimental design, statistical methods, and application to clinical practice. (Cross-listed with CSD 201.) *Credit: 3 semester hours.*

503 Anatomy, Physiology & Neurology of the Auditory and Vestibular Mechanisms

Description of normal anatomy and neuroanatomy of the auditory and vestibular systems, as well as theories of physiology and the effects of certain pathological conditions on normal physiology. *Credit: 3 semester hours.*

504 Auditory Pathologies

Pathologies in the auditory system, their audiological and medical diagnosis and treatment. Emphasis on differential diagnosis of auditory, cortical, and vestibular pathologies using behavioral and electrophysiologic techniques. *Credit: 3 semester hours.*

505 Psychoacoustics

Advanced level of study of the psychoacoustic principles involved in the practice of audiology. *Laboratory exercises in the topic areas are required. Credit: 3 semester hours.*

506 Genetics of Communication Disorders

Embryologic development and teratogenic agents affecting development, particularly those related to genetic mutations affecting speech, language, and/or hearing. Application of clinical and molecular genetics to diagnosis and treatment of communication disorders. *Credit: 3 semester hours.*

507 Aural Rehabilitation Across the Life Span

Effects of hearing loss, noise, and reverberation on auditory (and auditory-visual) speech perception; factors involved in amplification selection (including cochlear implants); benefits of assistive listening devices and sensory aids; issues concerning the Deaf. *Credit: 3 semester hours.*

508 Electronics & Instrumentation for Audiologists

Introduction to the fundamentals of electricity and electronics, and describes the clinical and research instrumentation used in audiology. *Laboratory exercises are required. Credit: 3 semester hours.*

509 Speech-Language Pathology for Audiologists

An appreciation of the diversity of speech and language disorders across the lifespan; cultural factors in communication and speech and language disorders; symptoms and behaviors associated with specific disorders; screening and appropriate referrals. *Credit: 3 semester hours.*

510 Amplification I

Management of hearing loss using amplification; hearing aid design, electroacoustic characteristics, technology advances; State and Federal legislation, ASHA guidelines on amplification systems; circuit options and components of personal hearing aids. *Laboratory exercises required. Credit: 3 semester hours.*

511 Pediatric Audiology

Background on the etiologic factors, incidence, and impact of hearing loss in the pediatric population. Contemporary methods of pediatric audiological management, evaluation and screening, including ABR and OAE. *Credit: 3 semester hours.*

512 Electrophysiology I

Auditory evoked potential procedures for evaluating children and adults, including recording techniques, interpretation, clinical application, and synthesis of results including laboratory exercises. *Credit: 3 semester hours.*

513 Electrophysiology II

Otoacoustic emissions, principle, procedures and clinical applications, middle latency auditory evoked potentials and late cortical event related potentials; basic issues and potential applications. *Credit: 3 semester hours.*

514 Amplification II

Principles and practices of hearing aid dispensing, including assessment for candidacy, prescriptive fitting protocols, validating and verifying hearing aid outcomes, and considerations in special populations and audiometric configurations. *Credit: 3 semester hours.*

515 Deafness

Effects of hearing loss on spoken language, speech perception and production of children; effects of hearing loss on speech perception and production of adults who have sustained hearing loss; issues pertaining to the Deaf Culture and Community. *Credit: 3 semester hours.*

516 Central Auditory Processing

Anatomical and neurophysiological aspects of auditory processing; nature and causes of auditory processing disorders, including symptomatology, assessment, treatment, clinical management and referrals. Impact of CAPD on language and learning. *Credit: 3 semester hours.*

517 Advanced Research Seminar

Seminar to assist Level 3 Au.D. student in formulating, developing and executing a clinical research project. Concepts of research design and statistical analyses with regard to individual projects in seminar fashion. *Credit: 3 semester hours.*

518 Electrophysiology III

This course will establish for students a theoretical understanding and practical knowledge of the vestibular system, and its objective diagnosis via electronystagmography (ENG). *Credit: 3 semester hours.*

519 Cochlear Implants

Understanding the engineering, medical, surgical, and audiological aspects of cochlear implants, including speech processor programming, and the (re)habilitative programs and strategies used with infant, child, and adult implant recipients. *Credit: 3 semester hours.*

520 Grand Rounds in Otology

Otological aspects of hearing by participating with the physician as s/he examines the patients, attends grand rounds with fellow physicians and treats the audiotologically compromised patient. Insight into the causes and diagnostic techniques and treatment from the medical perspective. *Credit: 3 semester hours.*

521 Amplification III

Advanced level of study of hearing aid design and selection. Expansion of concepts and procedures introduced in Amplification I and II; verification and validation methods associated with advanced technology. Laboratory exercises required. *Credit: 3 semester hours.*

522 Current Issues in Vestibular Assessment and Rehabilitation

Evaluation of balance function beyond electronystagmography including Rotational and Posturographic tests, and Vestibular Evoked Potentials; programs and protocols for vestibular rehabilitation will also be detailed. *Credit: 3 semester hours.*

523 Leadership & Supervision of Clinical Audiology Programs

Leadership and its relationship to supervision of personnel; implementation and management of clinical programs; discussion of professional issues including ethics, quality management and competencies, often of concern to staff and related disciplines. *Credit: 3 semester hours.*

560 Clinical Practicum in Audiology

Introduction to basic principles and procedures in auditory assessment and rehabilitation. Interpretation, diagnostic statement and recommendations. Case histories for diverse populations and counseling. Professional and legal issues (e.g., Licensure and Certification). *Credit: 3 semester hours.*

561 Clinical Practicum in Audiology

Development of advanced clinical and rehabilitative audiology skills based on advanced coursework. Seminars: open discussion forums pertaining to specific clinical problems, disorders, situations, case resolutions and diagnoses at placement sites. *Credit: 2 semester hours.*

564 Clinical Practicum in Audiology

Development of the clinical application of theory and concepts obtained via advanced audiology coursework. Seminars: open discussion forums, discussions pertaining to specific clinical problems, disorders, situations, case resolutions and diagnoses at outside sites. *Credit: 2 semester hours.*

565 Clinical Practicum in Audiology

Review of procedures, methodology, approaches pertaining to instrumentation and testing of patients across the life span. Seminar at home institution. *Credit: one semester hour.*

568 Clinical Practicum in SLP

Supervised clinical practice in speech-language pathology appropriate to Scope of Practice. *Credit: 1 semester hour.*

570 Clinical Externship in Audiology

Seminar course (online) for clinical externship experience supplementing advanced principles and practices of diagnostic audiology, balance disorders, audiologic (re)habilitation, electrophysiological measures and audiological counseling. ASHA/NYS License requirements. *Credit: 1 semester hour.*

Electives**540 Early Intervention**

Rationale for early detection and intervention; discussion of landmark position statements and legislation; procedures for early identification, including neonatal hearing screening and implementation of effective follow-up procedures. *Credit: 1 semester hour.*

541 Neurophysiologic Intraoperative Monitoring

Neurophysiologic intraoperative monitoring; anatomic and physiologic bases of monitoring for spine, neck, cranial, and cardiothoracic and peripheral nerve surgeries. Techniques used; evaluation of data; effects of anesthesia control on the interpretation of these data. *Credit: 1 semester hour.*

542 Forensic Audiology

The legal, ethical, legislative, and forensic issues that may be encountered; the legal rights of communicatively disordered persons and provisions of the ADA; due process, federal and state mandates, educational entitlements. *Credit: 1 semester hour.*

543 Classroom Amplification & ALDs

Assistive devices and auditory training systems will be studied in detail. Issues concerning new technology will be explored and how such technology is utilized in the classroom. *Credit: 1 semester hours.*

544 Business Practices in Audiology

Planning and execution of a comprehensive, quality, cost-effective private practice in audiology; organization and marketing and the various aspects of quality improvement, jurisprudence, professional ethics, professional development and fiscal management. *Credit: 1 semester hour.*

545 Industrial Audiology

Audiologist's role in noise assessment and abatement; hearing protection in industrial, educational, military, and community settings. Noise measurement, regulations and laws related to noise, noise control, physiological and psychological effects of noise, hearing conservation, and hearing health care. *Credit: 1 semester hour.*

546 Pharmacology/Ototoxicity

Theories in pharmacology, including drug absorption, bioavailability, administration and treatment, mechanisms of interaction, and toxicity to the ear, hearing and the vestibular mechanism. Methodologies and technologies for monitoring use of ototoxic medications. *Credit: 1 semester hour.*

547 Cerumen Management

Practical, supervised training in the use of hand-held, video, and pneumatic otoscopy, recognition of the external auditory canal (EAC) and tympanic membrane (TM) condition, and removal of cerumen in accordance with ASHA guidelines. *Credit: 1 semester hour.*

548 Communication Processes in Aging

Multidisciplinary perspectives on aging; normal aging vs pathological changes throughout the lifespan; psychological, medical, cognitive-linguistic, social, perceptual, and economic aspects of aging for diagnosis and treatment of hearing disorders in the elderly population. *Credit: 1 semester hour.*

549 Counseling in Audiology

Knowledge and skills necessary to conduct effective audiologic counseling of patients and their families/caregivers based on individual patient need and cultural sensitivity. Counseling techniques tailored to specific audiologic diagnoses and services. *Credit: 1 semester hour.*

601 Clinical Research Project

Additional guidance for the Level 3 or 4 Au.D. student in carrying the clinical research project to conclusion. Students maintain continuous matriculation in this class until the research project requirements are completed. *Credit: 1 semester hour.*

**700 Special Topics
Tinnitus**

The anatomical/physiological causes, effects and treatment of tinnitus, its debilitating effects, management and counseling. Other topics may be addressed as needed. *Credit: 1 semester hour.*

Department of English (ENG)

Programs of Study

English graduate studies at St. John's features combined Bachelor of Arts / Master of Arts (B.A./M.A.), Master of Arts (M.A.), and Doctor of Arts (D.A.) degree programs with courses in traditional and emerging fields of literature, cultural studies, critical theory, writing and composition studies. All of the English graduate courses are seminars taught by research faculty who are committed to teaching and mentoring graduate students. The M.A. and D.A. programs are designed for both full-time graduate students and professional educators, administrators, and writers who want to pursue an advanced degree part-time. The English graduate curriculum offers students the flexibility to develop individualized programs of study that meet their intellectual and professional goals. Because the number of required courses for each program is limited, the cur-

riculum appeals to students seeking either broad exposure to advanced English studies or more intensive concentrations in specific fields. Among the areas of study are British and American literary history, creative writing and composition studies, and interdisciplinary fields such as American studies, gender studies, and postcolonial studies. The department also sponsors a student-edited journal, *The St. John's Humanities Review*.

B.A./M.A. in English

The department offers an intensive, accelerated combined degree program leading to both the B.A. and M.A. degrees in five years of full-time study. Students who have been accepted into the program take one graduate course each semester of their junior and senior years; this course counts toward both the B.A. and M.A. degrees. In the fifth year students take the remaining seven graduate courses needed to complete the degree; in their final semester students fulfill the portfolio requirement, described below.

Entrance Requirements

Qualified undergraduates who have completed their sophomore year with a 3.0 cumulative index and a 3.5 for 12 credits in English are encouraged to apply. Two letters of recommendation from faculty who teach in the English graduate program are required.

Program Requirements

Students in the B.A./M.A. program matriculate for a total of 147 credits, 33 of which must be at the graduate level. After completion of the baccalaureate degree, students must enroll full-time on the graduate level for the fifth year. Students have the option of writing a Master's thesis in their final year of the program to fulfill three of their M.A. credits. Students who plan to write a thesis should register for ENG 900: Master's Research.

Master of Arts (M.A.)

The M.A. program in English is designed for students interested in a broad but intensive engagement with literary, cultural, and composition studies. Recent graduates of the M.A. program have received fellowships for doctoral study at some of the best graduate programs in the U.S. Other graduates have been accepted at prestigious law schools, established careers in publishing and editing, and obtained tenure-track middle school and high school teaching positions.

The English Master's degree curriculum offers students the opportunity to develop programs of study that meet their intellectual and professional goals. Because there is only one required foundational course (Modern Critical Theories), the program provides flexibility for students seeking either broad exposure to advanced English studies or more intensive concentrations in specific fields. The Master's program offers seminars in the major periods

of literary history (medieval, early modern, Restoration, Victorian, 19th-century American, modern, contemporary, and postcolonial) as well as many interdisciplinary courses. All students submit a portfolio of their graduate work in their final semester, containing representative essays and a critical synthesis of their work while in the program. Students also have the option of writing a Master's thesis in to fulfill three of their M.A. credits. Students who plan to write a thesis should register for ENG 900 Master's Research.

Entrance Requirements

Students entering the M.A. program must present at least 24 credit hours of undergraduate preparation in English with a GPA of 3.0 or better. All students must submit acceptable scores for the Graduate Record Examinations (GRE) General Test; the Subject Test is not required.

Assistantships

Graduate assistantships are available on a competitive basis through the English Department and the Institute for Writing Studies. These assistantships offer a stipend and provide the experience of tutoring St. John's students in the writing center. New students who are interested in an assistantship should indicate their interest on the application form. Current students should submit a full graduate school application, including a statement of purpose and three letters of recommendation, to the English Chair. The deadline for assistantship applications is March 1.

Program Requirements

Students must take a minimum of 33 credit hours. (Students receiving Graduate Assistantships will be compensated up to but not beyond 33 credits.) Students have the option of writing a Master's thesis in their final year of the program to fulfill three of their M.A. credits. Students who plan to write a thesis should register for ENG 900: Master's Research.

The only course required of all M.A. students is ENG 100: Modern Critical Theories, which should be taken during the student's first year of study. Otherwise, students are free to choose courses that suit their needs and interests. All courses in the English graduate curriculum are open to students in the M.A. program.

Students must submit a portfolio project in their last semester of study. This portfolio of written work serves as the capstone project for the Master's program. The portfolio consists of three representative papers from three different courses, one of which should be revised substantially according to the professor's instructions and suggestions. Accompanying the portfolio is a 10-page critical overview in which the student offers a critical synthesis of her work in the program, referring to the portfolio essays and their revision as indication

of the student's growth as a reader, scholar and writer. A committee comprised of English faculty evaluates these portfolios.

Doctor of Arts (D.A.)

The D.A. program in English combines advanced study in literary, cultural, and composition studies with preparation for teaching. It offers courses and research opportunities in traditional and emerging fields of literature, cultural studies, critical theory, writing, and composition studies. At the same time, it emphasizes the theory and practice of pedagogy, especially writing pedagogy, to prepare students for English and interdisciplinary college teaching. The program is designed for both full-time graduate students and professional educators, administrators, and writers who want to pursue a doctoral degree part-time. While most recent graduates of the D.A. program are faculty at colleges and universities, other graduates have positions in publishing, editing, public relations, and administration in secondary and higher education.

The English D.A. degree emerged in the 1960s and 1970s to meet the growing need for faculty at four-year and two-year colleges. The D.A. program at St. John's has since evolved into a doctoral program that emphasizes the interrelatedness of pedagogy, theory, and literary and cultural studies. The opportunities for advanced research are comparable to those of English Ph.D. programs, but the English D.A. program is distinguished by its integration of research and writing with pedagogical practice.

The English D.A. curriculum provides a foundation in critical theory and writing pedagogy, while offering students the opportunity to develop programs of study that meet their intellectual and professional goals. The D.A. program offers seminars in the major periods of literary history (medieval, early modern, Restoration, Victorian, 19th-century American, modern, contemporary, and postcolonial) as well as many interdisciplinary courses. After completion of their coursework, D.A. students, in consultation with department faculty, design three individualized exam areas in fields the student wishes to claim as areas of specialization. Following successful completion of the exams, the student works with a committee of three or more faculty on a dissertation, to be defended orally.

Entrance Requirements

1. Applicants must present verification of their completion of a bachelor's degree, with a minimum of 24 credits in English.
2. Applicants must possess at least a cumulative G.P.A. of 3.0 and a 3.5 in English courses.
3. Applicants must submit acceptable scores for the Graduate Record Examinations (GRE) General Test. The subject GRE Test is not required.
4. Applicants possessing a Master's Degree with at least 15 graduate credits in English

and an index of at least 3.5 in these courses will receive advanced standing, as determined by the Department's Admissions Committee and the Dean.

5. Applicants must submit three letters of recommendation, two of which need to be academic letters attesting to the applicant's work as a student.

Applicants must also submit a recent sample of written work, as well as a personal statement detailing the student's professional goals.

Fellowships

Doctoral fellowships are available on a competitive basis through the English Department and the Institute for Writing Studies. These assistantships offer a stipend and provide the experience of teaching one course per semester or the equivalent time tutoring in the writing center. New students who are interested in an fellowship should indicate their interest on the application form. Current students should submit a full graduate school application, including a statement of purpose and three letters of recommendation, to the English Chair.

Program Requirements

1. The D.A. degree entails 48 credits of coursework, 6 credits of Teaching Internship and 6 credits for writing the dissertation (Doctor of Arts Research). Applicants who apply with a M.A. or M.F.A. in English can have up to 12 credits waived. Applicants with prior teaching experience can also have the Teaching Internship waived. Students in the program must maintain a minimum GPA of 3.0; courses for which the student receives a grade lower than a "B" will not count towards the degree.
2. Students must take ENG 100: Modern Critical Theories, ENG 110: Introduction to the Profession., and one of the following: ENG 120: Composition Theory and The Teaching of Writing; ENG 130: Theories of Literacy; or ENG 135: Critical Issues in the Teaching of Writing. The student determines all remaining courses.
3. All students must demonstrate proficiency in a foreign language prior to taking their comprehensive exams by one of the following: 1) a grade of "B" or better in an advanced college-level language class that requires reading proficiency in the language (3000-level or above at St. John's or the equivalent at another college or university, with the approval of the graduate program director); 2) satisfactory scores on the ETS language exams; or 3) successful completion of a two-semester reading course offered by the Department of Languages and Literatures at St. John's (or the equivalent at another college or university, with the approval of the graduate program director).
4. A student will be evaluated at the completion of 24 credit hours of graduate work to

determine whether or not he or she is qualified to continue in the program.

5. Doctoral students will satisfy the University Residency Requirement by completing 24 credits in two years.
6. Upon successful completion of coursework, students must pass the comprehensive examination. The student selects three graduate faculty to serve on his or her exam committee, who then work closely with the student to design three individualized exams centered around three areas of specialization determined by the student. The student, in consultation with on his or her committee, assembles a reading list of approximately twenty-five books and critical essays for each of the three exam areas. In addition to serving as an opportunity for the student to demonstrate her mastery in these exam areas, the comprehensive exam serves as a means by which the student can begin preliminary research for the dissertation.
7. After successfully completing the comprehensive examination, the student will undertake the dissertation for a minimum of six credits (ENG 975) each semester until the dissertation is successfully defended. Students who register for ENG 975 are required to attend the Dissertation Research and Writing Workshop for at least two semesters. Students select a topic that will enable them to apply their learning to an original problem in contemporary scholarship, criticism, pedagogy or the profession in general. An academic mentor and a committee of readers are selected by the student to guide his or her research and review the progress of the dissertation. The completed dissertation must be defended in an oral examination before the committee and must be approved by the Dean.

Courses

Theory, Pedagogy and the Profession

- 100 Modern Critical Theories
- 110 Introduction to the Profession
- 120 Composition Theory and the Teaching of Writing
- 130 Theories of Literacy
- 135 Critical Issues in the Teaching of Writing
- 140 Topics in Theory
- 141 Writing in the Academy
- 150 Critical Race Theory

Medieval

- 200 Medieval Literature: Critical Theoretical Approaches
- 210 Medieval Literature in Historical Contexts
- 220 War and the Culture of Chivalry
- 230 Chaucer
- 240 Beowulf
- 250 Medieval Drama
- 260 Arthurian Romance
- 270 Medieval to Early Modern
- 280 Topics in Medieval Studies

Early Modern

- 300 Shakespeare and Early Modern Studies
- 310 Shakespeare's Media: Print, Performances and Film
- 320 Elizabethan Drama
- 330 Jacobean Drama
- 340 Spenser and the Elizabethan Renaissance
- 350 Milton and the English Civil War
- 355 Renaissance Lyric Poetry
- 370 Topics in Shakespeare
- 380 Topics in Early Modern Studies

Restoration and 18th Century

- 400 The Novel to 1800
- 410 Restoration and 18th-Century Poetry
- 420 Restoration and 18th-Century Drama
- 430 Restoration and 18th-Century Prose
- 440 Studies in Restoration and 18th-Century Literature
- 450 Topics in Restoration and 18th-Century Literature and Culture

19th-Century British

- 501 The Victorian Social Imagination
- 510 British Romanticism
- 520 The 19th-Century Novel
- 530 Aspects of the Novel: Histories and Theories
- 540 Science, Poetry and Prose in Victorian England
- 550 Realism and Naturalism
- 560 Revolution and Romanticism
- 570 Monumental Form: Eliot, Dickens, Trollope
- 580 Studies in 19th-Century British Authors
- 590 Topics in 19th-Century British Literature and Culture

American to 1900

- 600 19th-Century American Public Culture
- 610 Literature of the Early Republic
- 616 Colonial American Literature
- 620 Antebellum American Literature
- 625 Gender and 19th-Century American Literature
- 630 American Regional Literature
- 635 Narratives of American History
- 640 Transcendentalism
- 646 American Poetics
- 650 American Novel to 1914
- 660 19th-Century African American Literature
- 665 Studies in 19th-Century Authors
- 670 Topics in 19th-Century American Literature and Culture

Twentieth Century

- 700 The Emergence of Modernism
- 711 Modern Short Story
- 715 Modern Novel
- 716 Modern Poetry
- 725 Modern Drama
- 730 Literary Modernism
- 735 Harlem Renaissance
- 740 Contemporary Novel
- 745 Contemporary Poetry
- 750 Contemporary Drama
- 755 Topics in African American Literature

- 761 Caribbean Literature and Culture
- 760 Postcolonial Literature
- 762 Utopian Fiction
- 763 Vernacular Literature
- 764 Literature and Violence
- 765 American Ethnic Literatures
- 770 Studies in 20th-Century American Literature and Culture
- 775 Topics in 20th-Century British Literature and Culture

Interdisciplinary and Cultural Studies

- 800 Forms and Themes in Film
- 810 Literary/Visual Texts
- 815 Comedic Reality
- 820 The Christian Imagination
- 825 Collecting Cultures
- 830 Allegory and Epic
- 836 Modernism and the Fascist Aesthetic
- 840 Kitsch and the Crisis of Modernism
- 845 The Holocaust: Criminals, Collaborators, Survivors
- 851 Suburbia in Film and Literature
- 855 Theory of the Novel
- 861 Art and Propaganda: Romantic to Modern
- 865 Emerging Technologies and the Making of Meaning
- 870 Writing Theory/Writing Practice
- 875 Feminist Theory
- 876 Writing Nonfiction
- 877 Workshop in Fiction
- 878 Workshop in Poetry and Poetics
- 880 Topics in Interdisciplinary Studies
- 885 Topics in Cultural Studies

Special and Research Courses

- 900 Master's Research
- 910 Readings and Research
- 920 Maintaining Matriculation, M.A.
- 930 Maintaining Matriculation, D.A.
- 975 Doctor of Arts Research

For a complete listing of approved courses, please contact the Dean's office.

For the St. John's Humanities Review, go to www.stjohns.edu/english/humanities.

Center for Global Development

The mission of the Center for Global Development (CGD) is to invest in educational programs and activities to promote the common good and the advancement of the human community where the dignity of the human person is at the foundation of every process of development.

The term "global" not only encompasses social, cultural and economic structures and processes that foster human progress, but also an awareness of interdependence between people and among nations. This interdependence comes with the responsibility of building a civil society based on a culture of solidarity and social justice. Development, to be authentic, as Pope Paul the Sixth emphasized, must foster human well being, but also each person's spiritual and moral development.

Human nature is relational, and our responsibility is to further educate people about the process of relational sharing. Building a global community, through projects of social intervention, welfare and development will not fail, if it is grounded on dialogical opening.

The CGD serves as a center for research on issues regarding international development. Drawing upon its network of international specialists as well as its own faculty, staff, and researchers, the activities promoted and offered by the Center include the M.A. in Global Development and Social Justice, conferences, internships, research projects, a comprehensive Resource Center, as well as joint ventures and projects with other organizations.

Programs of Study

M.A. in Global Development and Social Justice

This multidisciplinary program, taught in English, can be completed in two years of full time study. It includes 11 three-credit courses for a total of 33 credits.

Four courses are taken at the Unicaritas headquarters in Rome at the beginning and end of the program in July, while the remainder of the curriculum is delivered via a user-friendly on-line Distance Learning platform that can be accessed worldwide.

Given the distance learning nature of the program, the curriculum also offers significant training in Information Technology (the program provides each student with a laptop computer and a digital camera). Optional internships and service learning projects related to the student's required capstone project are also offered.

Entrance Requirements

- An accredited bachelor's degree or its equivalent
- * Proficiency in English (written and spoken). Applicants whose native language is not English, or whose secondary and post-secondary education was not in English must take the (1) Test of English as a Foreign language [TOEFL] or (2) International English Language Testing System [IELTS] - More information on the TOEFL or IELTS can be found on page 7 in the St. John's University Graduate Bulletin here. The TOEFL code for St. John's University is 2799.
- Two letters of recommendation from persons qualified to evaluate the applicant's ability to succeed in a graduate program of study
- A statement of personal and professional goals relevant to the applicant's interest in the concentration in Global Development and Social Justice
- The Graduate Record Examination (GRE) is not required for all applicants, solely those who wish to apply for a Graduate Assistantship (GA) position.

Assistantships:

Graduate assistantships are also available on a selective basis.

Transfer of Credit:

Because of the distinctive nature of the program, including in-person instruction during summer sessions in Rome and distance learning courses during the Fall and Spring semesters, no transfer credits may be applied for this concentration.

Courses:

Core Curriculum

Given the nature of the program, the curriculum offers significant training in Information Technology (The program provides each student with a laptop computer and a digital camera), and an optional internship related to the student's required capstone project. It also encompasses a broad range of topics related to development and social justice. Additionally, the capstone project is presented in the Integrated Seminar, summarizing the student's learning in the courses and his/her ability to undertake in-depth research and apply the knowledge and skills acquired. Finally, its dedicated and distinguished faculty and support staff participate together and individually in special training seminars and workshops to ensure excellence in instruction and program management.

Curriculum (33 credits)

Introductory Seminar	3 credits
Catholic Social Thought and the Vincentian Tradition	3 credits
Information Resources for Development Professionals	3 credits
International Organizations and Development	3 credits
Economics of Development	3 credits
GIS Applications for Integrated and Sustainable Development	3 credits
Political Issues of Development	3 credits
Gender and Social Justice in Development	3 credits
International Communication and Global Development	3 credits
Health Care Issues in Global Development	3 credits
Integrating Seminar & Capstone Project	3 credits

Course Descriptions

Introductory Seminar

This course introduces students to key concepts of global development in light of social justice. It thus combines concerns for world development with awareness of the human person, the common good, solidarity and subsidiarity. Issues such as migration, industrialization, urbanization, colonization, the environment, health, demography, war and its social impact, and the political economy of food and hunger are examined. The role of non-governmental organizations, inter-governmental organizations and national governments, particularly in matters affecting human rights and sustainable development, will also be emphasized. *Credit: 3 semester hours.*

Catholic Social Thought and the Vincentian Tradition

This is a beginning for the new generation of Global Development researchers using methodology of the "Imago Dei", the axiom from which Catholic Social Teaching (CST) derives. The historical CST statements will be examined within the context of student-centered action on Millennium Development Goals (MDG), striking a cogent balance between theoretical and practical knowledge of religious and civic documents on programming social justice. Pedagogical method will be intensely dialogical, based on 20th-century Encyclical developments, identifying the key issues to date within Global Development Objectives, and opening the field to research design with actual civic parameters of MDG and Universal Declaration of Human Rights (UDHR). Each student will learn to focus the objective situation of his/her selected research interest in order to understand and communicate the issue within the coordinates of meaning and unity, drawn toward its perfectibility or transcendent direction. *Credit: 3 semester hours.*

Information Resources for Development Professionals

This course is an introduction to the scope, organization, evaluation, and use of print and electronic information sources. Emphasis will be placed on the use of these resources by development professionals. Particular emphasis will also be placed on developing skills in using and creating digital information resources, and of the sharing these resources using electronic courseware (i.e., WebCT, St. John's Central, etc.), the Social Web, and information management techniques. We will also discuss the needs of constituent communities, including models of information seeking behavior, barriers to information access, and development of information literacy skills.

Credit: 3 semester hours.

International Organizations and Development

This course examines the role of intergovernmental organizations (IGOs) and non-governmental organizations (NGOs) in global development. Organizations such as the United Nations (UN) that are universal in scope or regional such as the European Union (EU) are institutions that are created by sovereign governments and established by, and given legal recognition by treaty. On the other hand, NGOs are organizations whose members are individuals who do not represent any government. Some organizations are specialized such as the World Bank and the International Monetary Fund (IMF) that deal with economic development or the World Health Organization (WHO) that deals with health issues in developing countries. Organizations play an important role in the development of the economy, environment, health care issues, education and other social issues that plague developing countries in the global economy. At the conclusion of this course students will be able to 1) analyze the role of international and development; 2) examine organizations and their policies toward developing countries; and 3) compare and contrast IGOs, NGOs, and other organizations in the context of globalization and development. *Credit: 3 semester hours.*

Economics of Development

An introduction to the field of economic growth and development from the perspective of Catholic Social Thought. This course covers: theories of economic growth; development and underdevelopment; role of ethics in policy formation; causes and consequences of poverty (national and international); international wealth and income inequality; and trade and globalization. Various theories and perspectives are presented, all contrasted with the approach to development found in the Catholic social thought tradition, especially the writings of Popes John XXIII, Paul VI and John Paul II. *Credit: 3 semester hours.*

Geographic Information Systems (GIS) Applications for Integrated and Sustainable Development

Participants will develop a working proficiency in the use of online web-based Geographic Information Systems (GIS) applications and a basic familiarity with desktop computer-based GIS software programs. These research tools will be used for mapping and analyzing factors that can assist in integrated and sustainable development and contribute to breaking the cycle of world poverty. This process is often referred to as Poverty Mapping. Some key topics will include the GIS mapping and analysis of: climate change; natural resources; agricultural production; food security; hunger; disease; access to education and healthcare; income disparities; crime; and areas of conflict and civil unrest. The complex relationship between these factors will be reviewed in political, economic, and sociocultural contexts. The overall focus of the course will be on monitoring and problem solving applications of GIS-based data analyses that will contribute to promoting social justice by overcoming barriers to global development. Participants will complete a series of applied projects related to their country of residence or a country in which they plan to work. They will also be involved with ongoing class discussions and peer critique. An additional emphasis will be on influencing development policy decisions worldwide through the promotion and use of low-threshold information technologies that increase opportunities for sharing data and knowledge. *Credit: 3 semester hours.*

Political Issues of Development

This course focuses on political ideas that matter across borders and across issues. Through comprehensive research, analysis and discussions, we will work to shape our understanding of political issues that shape the policy debate on both the opportunities and challenges created by an increasingly globalized world. Important challenges such as global financial integration, poverty education, energy security, governance reforms, democratic change and transparency, politics of cultural pluralism and ethnic conflict, women in development, revolutionary change, and soldiers and politics represent political issues that play an essential role in global development. In order to understand the political challenges to global development, the learning objectives of this course are: 1) to acquire knowledge of the political principles necessary for global development; 2) to analyze and apply political principles to policy issues helping in global development; 3) to examine political issues and their impact on global development; and 4) to compare and contrast impact of policy issues on global development. *Credit: 3 semester hours.*

Gender and Social Justice in Development

Catholic Social Teaching is often referred to as the church's best kept secret. Within that teaching there is, however, a better kept secret, which is that social justice has important gender dimensions. Little work has been done on looking at Catholic Social Teaching from a gendered perspective. Because women have been traditionally linked with the care activities surrounding children and because that which affects women very frequently affects children, children's concerns will also be addressed. This course will be an effort to collect the resources that are in print and to begin a more systematic approach to applying Catholic Social Teaching to women and children. The course will use UN documents to expose issues of injustice and discrimination that affect women and children throughout the world. It will then examine Catholic Social Teaching to see how the church addresses these issues. The social encyclicals as well as the work of prominent theologians and members of the magisterium will be the primary sources. *Credit: 3 semester hours.*

International Communication and Global Development

International communication specialist is the emerging profession in the global market driven by informatics. This specialist, whether at the governmental, non-governmental or corporate level is required to have proficiency in a wide range of global affairs, which are taking place in a pluralistic and yet interdependent global community. This course is intended to educate proficient international communication specialists with a mission to promote justice and human rights within the context of their professional functioning. This course will explore, teach and propose communication as a vehicle for promoting justice and human rights in a pluralistic society. The course will encompass a broad range of theoretical and historical studies of communication and media, their role in shaping and effecting public policy, understanding development of global communication structures and world order; a particular focus will be paid to development media and the inter-relationship between communication and development, advocacy communication, communication as an instrument of integration, and to the issues of peace and war and communication. *Credit: 3 semester hours.*

Health Care Issues in Global Development

This course closely links health care with issues of culture, global development and social justice. Participants will gain a comprehensive understanding of global health problems and the state of health within their own countries. At the same time, they will get a comparative and global view of current applied solutions. *Credit: 3 semester hours.*

Integrating Seminar (Capstone Project)

The focus of this Integrating Seminar is to bring together what students have learned during their studies, integrating what has been learned in each of the courses in the light of each student's own experiences, the shared experiences of the entire class (in person and by the networking that has taken place through distance learning). During the Integrating Seminar, students will have the opportunity to present and discuss their capstone projects with each other, and with the professor who will be the Seminar leader. The goal is to arrive at an in-depth understanding of specific development issues researched and to identify strategic/structural solutions and alternative approaches. *Credit: 3 semester hours.*

Capstone Project

The goal of the required capstone project is to arrive at an in-depth understanding of development issues or priorities a student has identified. That comprehensive understanding takes into account the data available on a specific issue or priority and the results of other studies that have been undertaken. Students are also expected to identify strategic / structural solutions or approaches to addressing the development issue or priority identified. Students may also choose to research in-depth and analyze one (or more) strategies that a nation, an international organization, or NGO has developed to address a development issue and priority, to assess that strategy, and to propose an alternate approach(es). *Credit: 3 semester hours.*

Department of Government and Politics (GOV)

Entrance Requirements

For admission to graduate studies in Government and Politics, students are expected to have an undergraduate preparation of at least 24 hours in Government and Politics (Political Science) and a 3.0 G.P.A.

Programs of Study

A Master's program in Government and Politics with concentrations in:

1. American Government
2. International Relations and Comparative Government
3. Political Theory
4. Public Administration

Master of Arts

The department offers two options in the M.A. program:

NON-THESIS OPTION – requires a minimum of 33 semester hours in coursework, including GOV 205 (which must be completed during the first year of matriculation). After the field of concentration has been chosen, the remainder of the program must be arranged with the student's advisor. At least 12 semester hours in the field of concentration must be taken. Of the remaining 18 hours, students whose field of concentration is American Government or Public Administration must take at least three hours in International Relations and Comparative Government and three hours in Political Theory. Students whose field of concentration is International Relations and Comparative Government must take at least three hours in either American Government or Public Administration and three hours in Political Theory. Students whose field of concentration is Political Theory must take at least three hours in International Relations and Comparative Government and three hours in either American Government or Public Administration. The student in the non-thesis program is not required to demonstrate competency in a foreign language.

THESIS OPTION – requires a minimum of 33 semester hours in coursework, including GOV 205 (which must be completed during the first year of matriculation) and two consecutive semesters 3 credits each semester (total 6 credits) in Masters Research (900). After the field of concentration has been chosen, the remainder of the program must be arranged with the student's advisor. At least 12 hours in the field of concentration must be taken. Of the remaining 15 hours, students whose fields of concentration are American Government or Public Administration must take at

least three hours in International Relations and Comparative Government and three hours in Political Theory. Students whose field of concentration is International Relations and Comparative Government must take at least three hours in either American Government or Public Administration and three hours in Political Theory. Students whose field of concentration is Political Theory must take at least three hours in International Relations and Comparative Government and three hours in either American Government or Public Administration. In addition, students must present evidence of their knowledge of a foreign language (normally either French or German) by passing the ETS examination or a reading course in the appropriate language, for which no credit is given. Upon approval of the department and the Dean, a language other than French or German may be substituted if such substitution is deemed desirable because of the nature of the student's special field. Under the guidance of the mentor, the student must prepare a satisfactory thesis on a subject in his/her field of concentration.

COMPREHENSIVE EXAMINATIONS —

In order to register for the comprehensive examination, students must have completed a minimum of 24 credits with grades posted by the time of registering for the examination and be in the last semester of their program. Students pursuing a degree under either option are required to complete comprehensive examinations which test the student's knowledge in his/her field of concentration and in one minor field. To register for the exam, students must complete the Graduate Division application and meet with the Chair by the posted deadlines. Further information can be found under the section headed "comprehensive examination" in this bulletin.

Rome campus

The Department of Government and Politics offers students the opportunity to study for a semester or to complete their concentration in International Relations and Comparative Politics in Rome, Italy. Students who apply to the Rome Campus will have to complete the same number of credits and requirements described in the International Relations and Comparative Government concentration indicated in either the Non-Thesis or Thesis options above. The Rome Campus has quarters (7 weeks) instead of semesters (14 weeks) in Queens.

Certificate Programs

The department offers one certificate program in *Public Administration (available only in Queens)* and another in *International Law and Diplomacy (available in Queens and Rome)*. Students may find one or both of these certificates useful in establishing evidence of completion of such courses for employment or other purposes. The certificates can be obtained independently or as a complement to the M.A.

Students who have already completed their M.A. degree in the department may continue to study for the certificates.

Public Administration

Matriculated and special students who have successfully completed 18 semester hours in public administration (including GOV 215) will be issued a Certificate in Public Administration upon application to the department. GOV 215 is required for all students applying for the Certificate in Public Administration.

International Law and Diplomacy

Matriculated and special students who have successfully completed 18 semester hours of appropriate courses in international relations and comparative politics will be issued a Certificate in International Law and Diplomacy upon application to the department. A minimum of six of the 18 credit hours must be taken from International Law and Diplomacy courses (GOV 271, 341, 343, 344).

Combined Certificates

Students who desire to earn both the Certificate in Public Administration and the Certificate in International Law and Diplomacy may utilize six credits toward both certificates providing the courses are from among Government 188, 189, 290 and 293. Thus, a total of 30 credits is the minimum needed to earn both certificates. Courses should be selected after consultation of this bulletin and with an academic advisor.

Combined Degree Programs: Graduate

M.A./J.D. Program

In conjunction with the School of Law, the department offers a combined M.A./J.D. program. At the end of three years of graduate study, including at least one summer, students may graduate with both the Master of Arts and the Juris Doctor degree. To be eligible, students must apply for the combined degree program after having been accepted to both the Graduate and Law Schools.

Students must apply separately to the School of Law and the Graduate Division of Arts and Sciences, normally during the senior year and must meet all regular requirements for admission to both the School of Law and the Graduate Division of Arts and Sciences as set forth in the respective school bulletins.

Students currently enrolled in the School of Law also may apply prior to completion of their second year of study. These students, however, may have to spend at least an additional semester of full-time M.A. study. Students currently enrolled in the Graduate Division of Arts and Sciences may also apply for this combined degree program.

The Deans of both schools must approve the course of study for all students accepted to the M.A./J.D. program.

Students, in consultation with the M.A./J.D. Committee and the approval of the Dean of the Graduate Division of Arts and Sciences, may apply up to nine credits taken as part of the Law School curriculum toward the M.A. degree. Alternately, in consultation with the M.A./J.D. Committee and the approval of the Dean of the School of Law, students may apply up to nine credits taken in the Department of Government and Politics toward credits required for the J.D. degree. These students, however, may have to spend at least one additional semester of full-time M.A. study.

In planning a course of study suitable for each student, the following shall apply:

1. Students will not enroll in any M.A. courses during their first year of study in the School of Law.
2. Satisfactory progress in the School of Law shall also satisfy the M.A. residency requirement.
3. Students will be obliged to take a total of at least three credits of government and Politics graduate study during each of the fall and spring semesters of their second year and third years of law school studies (12 credits minimum). Over two summers they may take 12 additional credits in Government.
4. All M.A./J.D. students must take the M.A. Comprehensive Examination in Government and Politics no earlier than the last semester of coursework and within one year of the completion of all coursework, language and residence requirements.

	J.D. Program	M.A. Program (Thesis)	M.A. Program (Non-thesis)
J.D. Credits	75	–	–
M.A. Credits	–	21	24
Credits toward both degrees	9 OR 9	9	9
Totals:	84	30	33

Students electing the thesis option matriculate for a minimum of 105 credits to satisfy degree requirements; those following the non-thesis program will complete at least 108 semester hours for their combined degree program.

M.A./M.L.S. Program in Government and Politics/Library Science

Under the administration of the Graduate Division of Arts and Sciences, the Department of Government and Politics and the Division of Library and Information Science offer a joint program of study leading to the Master of Arts in Government and Politics and Master of Library Science degrees. Depending upon the option chosen, students complete a total of 57 credits (thesis or non-thesis) rather than the 69 credits (thesis or non-thesis) usually required.

The combination of the two M.A. programs will provide students with the opportunity to integrate two complementary bodies of knowledge: government and politics

and library science. The graduate program in government and politics will supplement the graduate program in library science by broadening and deepening a student's understanding of the governmental structure, institutions, public administration and the political/legal processes, while at the same time mastering contemporary means of accessing and utilizing related information.

Admission Requirements

Students must meet the requirements of admission to both the Master of Arts in Government and Politics and the Master of Library Science programs as set forth in their respective sections of this bulletin.

Program

All M.A./M.L.S. students will complete curriculum requirements for each degree with four courses (12 credits) applying to both programs.

These exchange courses include:

GOV 205	Modern Political Research Concentration
LIS 251	Information Sources in the Social Sciences
LIS 265	Online Database Searching and Services

All students must complete written comprehensive examinations in both areas.

Combined Degree Programs: Undergraduate/Graduate

B.A./M.A. in Government and Politics

The department offers an intensive, accelerated combined degree program leading to both the B.A. and M.A. degrees in five years of full-time study.

Qualified undergraduate students who have completed 60 credits at the end of their sophomore year with a 3.0 cumulative index and a 3.5 index for 12 credits in Government and Politics are encouraged to apply.

Students enrolled in the thesis program matriculate for a total of 144 credits (33 on the graduate level), including six credits of Master's Research. Students electing the non-thesis option must complete a total of 144 credits (33 on the graduate level). After completion of the B.A. requirements, the student must enroll full time on the graduate level for the fifth year. For specific information, students may consult the Chair.

B.S. in Communication Arts/ M.A. in Government and Politics

The College of Professional Studies and the Graduate Division of Arts and Sciences offer an intensive, accelerated, combined degree program leading to the B.S. in Communication Arts and the M.A. in Government and Politics within five years of full-time study.

Qualified undergraduate students who have completed 60 credits at the end of their sophomore year with a 3.0 cumulative index, and have completed 12 credits of Government and Politics with a 3.5 index in Government and Politics courses, are encouraged to apply.

Students enrolled in the thesis program must complete a total of 153 credits (33 on the graduate level, including six credits of Master's Research). Students selecting the non-thesis option must complete a total of 153 credits (33 on the graduate level). After completion of the B.A. requirements, the student must enroll full time on the graduate level for the fifth year. For specific information, students may consult the Chair.

B.S. in Criminal Justice/ M.A. in Government and Politics

The College of Professional Studies and the Graduate Division of Arts and Sciences offer an intensive, accelerated, combined degree program leading to the B.S. in criminal justice and the M.A. in Government and Politics within five years of full-time study.

Qualified undergraduate students who have completed 60 credits at the end of their sophomore year with a 3.0 cumulative index, and have completed 12 credits of Government and Politics with a 3.5 index in Government and Politics courses, are encouraged to apply.

Students enrolled in the thesis program must complete a total of 147 credits (33 on the graduate level, including six credits of Master's Research). Students selecting the non-thesis option must complete a total of 147 credits (33 on the graduate level). After completion of the B.A. requirements, the student must enroll full time on the graduate level for the fifth year. For specific information, students may consult the Chair.

B.S. in Health Services Administration/ M.A. in Government and Politics

The College of Professional Studies and the Graduate Division of Arts and Sciences offer an intensive, accelerated, combined degree program leading to the B.S. in Health Services Administration and the M.A. in Government and Politics within five years of full-time study.

Qualified undergraduate students who have completed 60 credits at the end of their sophomore year with a 3.0 cumulative index, and have completed 12 credits of Government and Politics with a 3.5 index in Government and Politics courses, are encouraged to apply.

Students enrolled in the thesis program must complete a total of 153 credits (33 on the graduate level, including six credits of Master's Research). Students selecting the non-thesis option must complete a total of 153 credits (33 on the graduate level). After completion of the B.A. requirements, the student must enroll full time on the graduate level for the fifth year. For specific information, students may consult the Chair.

B.S. in Journalism/ M.A. in Government and Politics

The College of Professional Studies and the Graduate Division of Arts and Sciences offer an intensive, accelerated, combined degree program leading to the B.S. in Journalism and the M.A. in Government and Politics within five years of full-time study.

Qualified undergraduate students who have completed 60 credits at the end of their sophomore year with a 3.0 cumulative index, and have completed 12 credits of Government and Politics with a 3.5 index in Government and Politics courses, are encouraged to apply.

Students enrolled in the thesis program must complete a total of 150 credits (33 on the graduate level, including six credits of Master's Research). Students selecting the non-thesis option must complete a total of 150 credits (33 on the graduate level). After completion of the B.A. requirements, the student must enroll full time on the graduate level for the fifth year. For specific information, students may consult the Chair.

B.S. in Legal Studies/ M.A. in Government and Politics

The College of Professional Studies and the Graduate Division of Arts and Sciences offer an intensive, accelerated, combined degree program leading to the B.S. in Legal Studies and the M.A. in Government and Politics within five years of full-time study.

Qualified undergraduate students who have completed 60 credits at the end of their sophomore year with a 3.0 cumulative index, and have completed 12 credits of Government and Politics with a 3.5 index in Government and Politics courses, are encouraged to apply.

Students enrolled in the thesis program must complete a total of 147 credits (33 on the graduate level, including six credits of Master's Research). Students selecting the non-thesis option must complete a total of 147 credits (33 on the graduate level). After completion of the B.A. requirements, the student must enroll full time on the graduate level for the fifth year. For specific information, students may consult the Chair.

Financial Aid Opportunities

In addition to the graduate assistantships provided to the department by the University, students who are currently employed by a local, municipal, state, or federal agency on the management level are encouraged to apply for the Special Graduate Scholarship program. To be eligible, applicants must be accepted to the M.A. program in Government and Politics as matriculated students and remain in the employ of the public sector for the duration of the scholarship. For further information, students may consult the Chair.

The Alumni Council

In order to maintain a continuing relationship with the department, B.A. and M.A. graduates as well as certificate recipients have created an organization geared to servicing students and alumni. The Alumni Council, operating under an Executive Committee, is divided into four groups reflecting the career choice of the department's graduates: education; legal studies, public service and the private sector. The Council provides student and alumni services, including career guidance, internship opportunities, networking and job placement.

Courses

The department strives for accuracy with regard to the schedules of courses and their instructors. However, it reserves the right to alter either or both as needs arise. Students are advised to consult the online course listing posted at the start of each pre-registration period.

Listed By Area of Concentration

Required Courses:

205 Modern Political Research 3 cr.

I. American Government

140 The Federalist Papers 3 cr.

141 Politics and Religion* 3 cr.

145 American Governmental Process:
The Presidency* 3 cr.

146 American Governmental Process:
The Legislature* 3 cr.

148 Politics and the Media 3 cr.

157 American Foreign Policy 3 cr.

183 The Puerto Rican Contribution
to American Society* 3 cr.

195 American Constitutional
Development I* 3 cr.

196 American Constitutional
Development II* 3 cr.

198 American Political Parties
and Interest Groups 3 cr.

199 Issues in Global Politics

218 Public Policy—American

233 Constitutional Law:

The Three Branches 3 cr.

234 Constitutional Law:
The Bill of Rights 3 cr.

239 Municipal Government
and Administration 3 cr.

241 State and Local Government 3 cr.

335 Legislative Internship Program I 3 cr.

336 Legislative Internship Program II 3 cr.

364 American National Security Policy 3 cr.

369 Seminar: Constitutional Law 3 cr.

II. International Relations and Comparative Politics

131	Politics of the Middle East	3 cr.
133	Contemporary Far Eastern Governments and Politics	3 cr.
135	Contemporary Eastern European Governments and Politics*	3 cr.
137	Government and Politics of Latin America*	3 cr.
150	Politics of Nationalism and Ethnicity	3 cr.
153	International Organization	3 cr.
156	Global Environmental Politics	3 cr.
157	American Foreign Policy	3 cr.
183	The Puerto Rican Contribution to American Society*	3 cr.
188	Comparative Public Administration*	3 cr.
189	Political and Administrative Problems of Developing Nations*	3 cr.
199	Issues in Global Politics	3 cr.
225	Contemporary Western European Governments and Politics	3 cr.
230	Politics of Russia and the Post-Soviet Republics	3 cr.
250	Politics of Africa	3 cr.
263	Politics of Revolution, War and Terrorism	3 cr.
264	International Politics	3 cr.
271	Theory and Practice of Diplomacy	3 cr.
277	International Political Economy I	3 cr.
278	International Political Economy II	3 cr.
279	Comparative Law	3 cr.
290	Public Administration of Emerging States	3 cr.
291	Great Powers from a Global Perspective	3 cr.
293	Administration of International Organizations	3 cr.
296	Politics of The Welfare State	3 cr.
341	International Law: Law of Peace	3 cr.
343	International Law: Law of International Transactions	3 cr.
344	International Law: Law of War and Neutrality	3 cr.
346	Seminar: Dictatorship	3 cr.
347	Seminar: Special Topics in Developing Areas	3 cr.
364	American National Security Policy	3 cr.
367	Military Force in International Relations	3 cr.

III. Political Theory

140	Federalist Papers	3 cr.
162	Modern Political Ideologies	3 cr.
174	Ancient Political Theory*	3 cr.
175	Modern Political Theory	3 cr.
176	Politico-Religious Mass Movements	3 cr.
220	American Political Thought: The Formative Period	3 cr.
221	American Political Thought Since 1820	3 cr.

280	Marxism-Leninism	3 cr.
376	Seminar: Political Theory	3 cr.

IV. Public Administration

163	Ethical Problems in Government and Public Administration	3 cr.
181	Principles of Public Administration*	3 cr.
182	Public Personnel Administration*	3 cr.
184	Introduction to Organization Development	3 cr.
188	Comparative Public Administration*	3 cr.
189	Political and Administrative Problems of Developing Nations*	3 cr.
190	Labor Relations and Collective Bargaining in Government*	3 cr.
192	Public Finance and Budget Administration*	3 cr.
210	Scope and Methods of Political Science and Public Administration	3 cr.
215	Research Methods and Quantitative Analysis	3 cr.
218	Public Policy—American	3 cr.
235	Internship in Public Administration I	3 cr.
236	Internship in Public Administration II	3 cr.
239	Municipal Government and Administration	3 cr.
241	State and Local Government	3 cr.
245	Theories of Public Administration	3 cr.
285	Administrative Law and Government	3 cr.
290	Public Administration of Emerging States	3 cr.
293	Administration of International Organizations	3 cr.
296	Politics of The Welfare State	3 cr.
325	Economic Analysis of Public Policy	3 cr.

V. Courses Common to All Concentrations

357	Reading and Research	3 cr.
900	Master's Research	3 or 6 cr. each semester

VI. Additional Courses

420	Colloquia	0 cr.
925	Maintaining Matriculation	0 cr.

Courses**205 Modern Political Research**

A review of scope and methods in government and politics; an analysis of classical, behavioral and postbehavioral approaches to research; a presentation of major disciplinary research paradigms. *Credit: 3 semester hours. Required for all M.A. students.*

131 Politics of the Middle East

Introduction to the politics of the Middle East and North Africa. It focuses on important domestic, regional and international developments since World War II, and on key issues such as democratization, nationalism and the politics of religion and oil. *Credit: 3 semester hours.*

133 Contemporary Far Eastern Governments and Politics

Modern political developments in the Far East; their constitutional systems; government organizations and political problems; critical study of the factors contributing to the Communist occupation of China. *Credit: 3 semester hours.*

135 Contemporary Eastern European Governments and Politics*

Democratization process and market-reform transition in East and Central Europe, eastward enlargement of the European Union and the impact of the post-communist legacy. *Credit: 3 semester hours.*

137 Government and Politics of Latin America*

A study of the government and politics of modern Latin America; analysis of the formal and informal political structure of the Latin American States; study of contemporary conditions and trends. *Credit: 3 semester hours.*

140 The Federalist Papers

This course examines the intellectual influences and historical setting surrounding the Philadelphia Constitutional Convention. *Credit: 3 semester hours.*

141 Politics and Religion

The relationship between religion and politics in the liberal democratic order is explored with special attention to the American case. *Credit: 3 semester hours.*

145 American Governmental Process: The Presidency*

This course examines the paradox of the modern presidency: increased expectations alongside limited power. It considers the differing expectations and assessments of the presidency from other political actors, including the media, the public and scholars. *Credit: 3 semester hours.*

146 American Governmental Process: The Legislature*

This course examines the functions of Congress: lawmaking, oversight and representation. The course explores how the branch was created; how individuals get to Congress; the complex and archaic rules, as well as the politics of Washington. *Credit: 3 semester hours.*

148 Media and Politics

This course explores the role of the mass media in American politics. This course evaluates various models and theories of political communication, the construction of news, agenda setting, and the evolution of the American news media in both the electoral and governing processes. *Credit: 3 semester hours.*

150 Politics of Nationalism and Ethnicity

Development of the nation-state system and nationalism following the French Revolution; the question of self-determination of peoples; resurgent nationalism, politicization of ethnicity and the break-up of states; and the challenges of multiethnic states. *Credit: 3 semester hours.*

153 International Organization

Early ideas of international organization, the development of international organization in the 19th century, the League of Nations, the United Nations and the prospect of World government. *Credit: 3 semester hours.*

156 Global Environmental Politics

The emergence of environment into the political arena and the consequent nature of international relations; sustainable development; the available avenues for cooperation within the international political system. *Credit: 3 semester hours.*

157 American Foreign Policy

Concept of national interest; the nature, instruments and factors influencing American foreign power; institutional actors and examples of contemporary American foreign policy. *Credit: 3 semester hours.*

162 Modern Political Ideologies

An analysis of the Enlightenment, democracy, Marxism-Leninism, nationalism, socialism, facism, Nazism, Zionism, Anarchism, the development of recent ideologies: resurgent nationalism, liberation "theology," Islamic, radical feminism; the ideology of revolution and elitist theory. *Credit: 3 semester hours.*

163 Ethical Problems in Government and Public Administration

Current and recurrent problems and behavior in government; conflict of interest, official disobedience, corruption, deception and security and issues of liberty and morality. *Credit: 3 semester hours.*

174 Ancient Political Theory*

Primarily Plato and Aristotle. Fundamental questions about politics—What is justice? Who should rule? What is citizenship? What is the proper relationship between ethics and politics? *Credit: 3 semester hours.*

175 Modern Political Theory

Traces the development of a modern approach to political life—the break between ethics and politics, emergence of liberalism and modern conservatism, the development of democratic theory. *Credit: 3 semester hours.*

176 Politico-Religious Mass Movements

Political-religious mass movements have a long history. Students are encouraged to apply emerging principles to contemporary movements. Student and lecture presentations. *Credit: 3 semester hours.*

177 Contemporary Political Theory

Recent developments in contemporary political theory—progressive liberalism, libertarianism, communitarianism, conservatism, neo-Aristotelianism, feminism, and global democratic theory. *Credit: 3 semester hours.*

181 Principles of Public Administration*

Administration of public agencies; federal, state and local administrative problems; responsibility of the administrator to the public; shifting perceptions of the function of public agencies and administrators. *Credit: 3 semester hours.*

182 Public Personnel Administration*

Personnel administrative theory in public agencies, including development of civil service, recruitment, examination, promotion and position classification, discipline and retirement. *Credit: 3 semester hours.*

183 The Puerto Rican Contribution to American Society*

Commonwealth structure and services, cultural highlights and problems, educational developments and related items. Puerto Ricans will be investigated through their contributions and difficulties. *Credit: 3 semester hours.*

184 Introduction to Organizational Development

Improving interpersonal communication skills, building awareness of different personality preferences and team-building. Database and spreadsheet computer applications will be introduced. *Prerequisite: Gov 181 or 182, or permission of instructor. Credit: 3 semester hours.*

188 Comparative Public Administration*

Emphasis on general concepts, administration in selected Western European and developing nations; the relationship of culture and political systems to administrative organs and functions. *Credit: 3 semester hours.*

189 Political and Administrative Problems of Developing Nations*

Political and administrative institutions of developing nations; problems of newly developing nations and their bureaucracies; heritage of European and other colonial systems in these nations. *Credit: 3 semester hours.*

190 Labor Relations and Collective Bargaining in Government*

Focus on the institutions of collective bargaining in the public sector: its development, structure and process; emphasis on the role of public policy as it relates to public sector bargaining in the United States. *Credit: 3 semester hours.*

192 Public Finance and Budget Administration

Government fiscal policy, taxation, budget policy, government and the economy, budget cycles, budget reform, PPBS, program planning, information systems, zero-base budgeting, capital budgeting. *Credit: 3 semester hours.*

195 American Constitutional Development I*

The sources, framing and development of the US Constitution during the 18th and 19th centuries; historical and social framework of cases and trends; discussion of current problems of interpretation. *Credit: 3 semester hours.*

196 American Constitutional Development II*

The sources and development of the US Constitution through the 20th-century historical and social framework of landmark cases and trends; discussion of current problems of constitutional interpretation. *Credit: 3 semester hours.*

198 American Political Parties and Interest Groups

This course explores representation; the translation of opinion and interests into outcomes in the political system. The course examines the origins of political parties and interest groups, their transformations over time, and their role in modern political life. *Credit: 3 semester hours.*

199 Issues in Global Politics (Mini-Session)

Field Study conducted in different geographical areas and examining a singlearea-specified political issue within a larger global context and theme. *Credit: 3 semester hours.*

210 Scope and Methods of Political Science and Public Administration

Classical, behavioralist and postbehavioralist paradigms in public administration; approaches to politics including: systems modeling, group theory, structural-functionalism, decision theory, conflict analysis and collective choice theory. *Credit: 3 semester hours.*

215 Research Methods and Quantitative Analysis

Theory construction, research designs, survey methods and statistical techniques; emphasis on the critical evaluation of academic research and professional reports. *Credit: 3 semester hours.*

218 Public Policy—American

An analysis of public policy; the impact of political parties and interest groups on policy; executive and legislative formulation of policy; bureaucratic implementation of policy and policy evaluation. *Credit: 3 semester hours.*

220 American Political Thought: The Formative Period

The colonial era and the Revolutionary and Constitution-making experiences, with emphasis on the writings of individual theorists who illustrate classical principles of political theory. *Credit: 3 semester hours.*

221 American Political Thought Since 1820

Selected major thinkers and movements shap-

ing the U.S., such as Jacksonian democracy, Lincoln, Progressivism, Social Darwinism, equality movements, New Left, and New Right. *Credit: 3 semester hours.*

225 Contemporary Western European Governments and Politics

Comparison of West European governments in transition from sovereign states to the integration into the European Union; examination of political, economic, social problems and current policy developments. *Credit: 3 semester hours.*

230 Politics of Russia and the Post-Soviet Republics

Political, economic and cultural developments in the postcommunist governments; the Commonwealth of Independent States and the division of power in the post-Soviet Union era. *Credit: 3 semester hours.*

233 Constitutional Law: The Three Branches

Cases and materials dealing with procedural rights. *Credit: 3 semester hours.*

234 Constitutional Law: The Bill of Rights

Cases and materials dealing with substantive rights. *Credit: 3 semester hours.*

235 Internship Program in Public Administration I

Participation in a supervised program of regularly scheduled work and independent research in a government agency under the direction of the faculty and the agency head. *Registration only with permission of the program director. Credit: 3 semester hours.*

236 Internship Program in Public Administration II

Participation in a supervised program of regularly scheduled work and independent research in a government agency under the direction of the faculty and the agency head. *Credit: 3 semester hours.*

239 Municipal Government and Administration

Urbanization in the United States; the socioeconomic environment of American urban politics; intergovernmental relations and the city; political party and reform influence on urban governance. *Credit: 3 semester hours.*

241 State and Local Government

American federalism and intergovernmental relations; socioeconomic and regional influences on state politics; interest groups and lobbying in state capitals; the policy effects of the professionalization of state governments. *Credit: 3 semester hours.*

245 Theories of Public Administration

The evolution of public administration theory in the areas of organizational structure, personnel management and interorganizational relations; emphasis on classical, modern and post-modern interpretations of organizational behavior. *Credit: 3 semester hours.*

250 Politics of Africa

Using theoretical constructs from the fields of comparative politics, international relations and political economy, this course introduces students to Africa's political systems, interstate relations and foreign policies. *Credit: 3 semester hours.*

263 Politics of Revolution, War and Terrorism

A comprehensive survey of the political violence within contemporary political systems. *Credit: 3 semester hours.*

264 International Politics

Scope and method of international politics, international political systems; concepts and elements of national power; constraints of national power; balance of power, world public opinion, international law; methods of international politics. *Credit: 3 semester hours.*

271 Theory and Practice of Diplomacy

Nature, development, structure and procedures of diplomacy; functions and qualities of diplomats; process of negotiation; foreign service of major powers; value of diplomacy. *Credit: 3 semester hours.*

277 International Political Economy I

An economic interpretation of international politics with emphasis upon politico-economic relations between the more developed nations within the East-West context; development of the post-World War II Western international monetary system and system of commerce. *Credit: 3 semester hours.*

278 International Political Economy II

An economic interpretation of international politics with emphasis upon politico-economic relations between the developed and underdeveloped countries; the ideological development and foreign economic politics of the emerging nations of the world. *Credit: 3 semester hours.*

279 Comparative Law

A critical examination of the origin, sources and growth of Civil Law, Common Law and Socialist Law; historical and situational factors attending their formation and their influences on diverse societal structures. *Credit: 3 semester hours.*

280 Marxism-Leninism

Hegel, Feuerbach and other major influences on Marx. Analysis of the principal works of Marx-Engels, Lenin and Trotsky; late 20th-century evaluations of Marxism; the continuing influence of Marxism, especially in the academic world. *Credit: 3 semester hours.*

285 Administrative Law and Government

Problems and cases in Administrative Law; the powers and procedures of administrative

agencies, including the law concerning judicial review of administrative action; delegation, rule-making adjudication. *Credit: 3 semester hours.*

290 Public Administration of Emerging States

Comparative study of public administration in emerging countries including Central and Southern Europe, former Soviet Republics and other states experiencing system transition such as China, Cuba, South Africa and North Korea. *Credit: 3 semester hours.*

291 Great Powers from a Global Perspective

Development of great power politics in the post-World War II period and the strategic relationship of Russia (Soviet Union), China and the United States from a global perspective. *Credit: 3 semester hours.*

293 Administration of International Organizations

Administration of contemporary international organizations, emphasizing structural and administrative organization and patterns; administrative responsibility, personnel administration, with specific emphasis on the United Nations. *Credit: 3 semester hours.*

294 International Peacekeeping and Interventions

A study of the politics of international peacekeeping, humanitarian operations and interventions. The theoretical challenges that these operations pose to the international state system and the practical challenges of mission organization and deployment. Cases will be drawn from the Balkans, Africa, and Central Asia. *Credit: 3 semester hours.*

296 Politics of the Welfare State

This course analyzes the politics of the welfare state, and welfare policy from both comparative and global perspectives. The course will examine welfare state regime type, patterns of welfare state development, and comparisons of national policies and programs. It will also examine newer theories of global social policy. *Credit: 3 semester hours.*

325 Economic Analysis of Public Policy

An introduction to micro- and macroeconomic perspectives on public policy, with emphasis on: cost-benefit analysis and its theoretical foundations; problems and programs at the local government level; the impact of public policy on the economy. *Credit: 3 semester hours.*

* Some courses toward this degree may be offered on the Manhattan campus.

335 Legislative Internship Program I

Participation in a supervised program of regularly scheduled work and independent research in the office of a legislator or legislative committee under the direction of the faculty. Limited to students accepted into approved legislative internships. Permission of the program director required. *Credit: 3 semester hours.*

336 Legislative Internship Program II

Participation in a supervised program of regularly scheduled work and independent research in the office of a legislator or legislative committee under the direction of the faculty. Limited to students accepted into approved legislative internships. *Permission of the program director required. Credit: 3 or 6 semester hours.*

341 International Law: Law of Peace

Study subjects of international law: international law, law of recognition of state and government, law of state extinction and succession, rules of international law governing territory, nationality, jurisdiction and state responsibility. *Credit: 3 semester hours.*

343 International Law: Law of International Transactions

Agents of international intercourse, treaties and other international agreements, pacific settlement of international disputes and forcible measures of redress short of war; comprehensive case studies. *Credit: 3 semester hours.*

344 International Law: Law of War and Neutrality

Development and sources of the laws of war and neutrality; legal effects of war in general; rules and regulations governing land warfare, air warfare and maritime warfare; neutral rights and duties. *Credit: 3 semester hours.*

346 Seminar: Dictatorship

Discussion of dictatorship, utilizing formal student oral reports and commentaries. Reports follow introductory sessions concerning the course requirements, methodologies and introductory remarks concerning selected topics. *Credit: 3 semester hours.*

347 Seminar: Special Topics in Developing Areas

Special topics discussed utilizing formal oral reports and commentaries. Reports follow introductory sessions concerning course requirements and methodologies and introductory remarks concerning politics in developing areas. *Credit: 3 semester hours.*

357 Reading and Research

Individually directed reading programs, together with relevant research. *Credit: 3 semester hours.*

364 American National Security Policy

Analysis of the decision-making process for American national security affairs and the debate over its goals, national interest or the propagation of democracy; view of the Founding Fathers; the National Security Act of 1947. *Credit: 3 semester hours.*

365 Mediating International Conflict

The course is a study the processes of negotiation and mediation used to resolve international violent conflicts. The course addresses efforts to mediate resolutions for both intrastate and interstate conflicts, as well as the theoretical underpinnings of international conflict resolution through the use of case studies. *Credit: 3 semester hours.*

367 Military Force in International Relations

This course introduces the basic concepts and theories concerning the role of the military force in international relations, examines major theoretical approaches that explain and predict great power conflict and analyzes critical case studies. *Credit: 3 semester hours.*

369 Seminar: Constitutional Law

Credit: 3 semester hours.

376 Seminar: Political Theory

The seminar deals with one contemporary issue in theory, publicized prior to registration; Imperialism; Resurgent Nationalism; the theory of rights; emergency powers; revolution; terrorism; world government. *Credit: 3 semester hours.*

420 Colloquia

At these meetings, issues in the discipline and research topics of interest are discussed by faculty, alumni and distinguished outside speakers. *Held twice each semester. All majors are expected to attend. No credit. No Fees.*

900 Master's Research

Supervised research leading to the preparation and completion of a thesis in partial fulfillment of the M.A. requirements. *Credit: 3 semester hours.*

925 Maintaining Matriculation

M.A. students not registered for other courses must register for 925 until all degree requirements are completed and the degree is granted. *No credit. Fee: \$100 per semester.*

For a complete listing of approved courses, please contact the Dean's office.

Department of History (HIS)

Faculty Advisor

Each student is assigned a faculty advisor who takes full charge of the student from admission to graduation. Students deal with the department through this faculty advisor in all matters. Program planning, registration for all courses, appointment of mentors, etc., must be made in consultation with this advisor in order to be approved by the department.

Program of Study:

Master of Arts (M.A.)

Entrance Requirements

Acceptance into the M.A. program presupposes that the student has taken a minimum of 24 semester hours of appropriate undergraduate courses in history approved by the department and the Admissions Committee.

Students lacking undergraduate preparation may correct this deficiency by taking additional courses approved by the department and the Committee. Students will not be accepted into the graduate program until all undergraduate deficiencies have been corrected.

Degree Requirements

- 1. Courses:** A minimum of 33 semester hours in history. Prescribed courses include Modern Historical Research (HIS 401), Global Historical Explanations (HIS 402) and Master's Research (HIS 900, six credits) in the field of specialization for students who elect to write a master's thesis. The remaining courses, to be arranged in consultation with the student's advisor, are to include a minimum of 18 credits in the area of concentration and for non-thesis students, a minimum of six credits of coursework taken in any one field outside of the area of concentration.
- 2. Language:** A knowledge of a foreign language is required for students in the thesis program. This may be evidenced in a manner deemed appropriate by the department. The department may permit a substitution if it is pertinent to the field of research. Students in the non-thesis program are not required to demonstrate competency in a foreign language.

3. **Comprehensive Examination:** Master's comprehensive examinations may not be taken before the last semester of coursework. This test of the student's knowledge in the area of concentration consists of four hours of written and/or oral examination. In preparation, the student is directed to consult the Department Reading List and his/her faculty advisor well in advance of the examination. The rules governing the application and administration of this examination are found in the section of this bulletin entitled "Comprehensive Examination."
4. **Thesis:** Students electing to submit a thesis as part of the M.A. program must demonstrate an understanding and application of proper historical methods and present their findings clearly and in accordance with the University format.
5. **Department Colloquia:** All students must attend HIS 970.

Areas of Concentration

1. American History
2. Modern European History
3. Global History
4. Women's and Gender History

Combined Degree Program

B.A./M.A. in History

The department offers an intensive, accelerated combined degree program leading to both the B.A. and M.A. degrees in five years of full-time study. Qualified undergraduate students who have completed their sophomore year with a 3.0 cumulative index and a 3.5 index for 12 credits in history are encouraged to apply.

Students in the B.A./M.A. program matriculate for a total of 147 credits, 33 of which are on the graduate level. Students electing the thesis option must complete six credits of Master's Research. Students choosing the non-thesis option complete six credits in lieu of HIS 900. After completion of the B.A. requirements, students must enroll full time on the graduate level for the fifth year. For detailed information, consult the department Chair.

* Some courses toward this degree may be offered on the Manhattan campus.

Courses

Required Courses

401 Modern Historical Research

The science and art of history; principles and methods of historical research; historical bibliography; sources and their criticism; techniques of the research paper. *Required of all master's students in the first year of graduate studies. Credit: 3 semester hours.*

402 Global Historical Explanations

A survey of historical explanations for large-scale phenomena over long stretches of time. Required of all Master's students. *Credit: 3 semester hours.*

970 Department Colloquia

Attendance is required of all graduate students at these meetings. Topics of current research, methodology and interpretation are discussed by staff, graduate students and distinguished guests. *No credit. No fee.*

Area Courses

103 The Cold War*

The origins of the Cold War and the division between East and West; the US and the USSR in conflict and coexistence; cold and hot wars in Asia and Middle East; détente and beyond. *Credit: 3 semester hours.*

120 Race, Gender and Ethnicity in the Formation of National Identity in Modern Latin America*

An analysis of the complex historical development of national identity in the context of race, gender and ethnicity in modern Latin America. *Credit: 3 semester hours.*

122 The Russian Revolution

Historical analysis of Russian radical social thought. Political, cultural, and social developments culminating in the revolutions of 1905 and 1917. *Credit: 3 semester hours.*

125 Nazi Germany*

The causes of the rise of the Nazis to power in Germany. The establishment of a dictatorial racial state, the Holocaust and German aggression in the Second World War. *Credit: 3 semester hours.*

131 History of Eastern Europe in the 20th Century*

The development of nationalism in Eastern Europe through the upheaval of World War I. The politics and policies of the states of Eastern Europe in the interwar period. *Credit: 3 semester hours.*

135; 136 Problems in East Asian History* (Cf. ASC 135; 136)

European imperialism in East Asia since mid-1800s with special emphasis on China; the origin and the consequence of Japanese militarism, the Chinese Republican Revolution and modernization and social changes in East Asia. *Credit: 3 semester hours.*

151 Problems in Contemporary Africa*

Africa after independence, the effects of World War II and the break up of colonial empires; political and economic trends in various countries as they strive to modernize and become viable nations. *Credit: 3 semester hours.*

158 History of Ethnic Rivalries in the United States

Emphasis on the various patterns of America's reaction to immigrants and other minority groups in America. *Credit: 3 semester hours.*

169 African-American History

African-American history beginning from its African roots and the slave trade, and ending with an examination of the modern civil rights and black nationalist movements. *Credit: 3 semester hours.*

176 Contemporary Middle East

The development of European protectorates, the influence of World War II, and the problems of independence. The emergence of the Arab League, the role of nationalism, the Arab-Israeli conflict, and the influence of the Iranian Revolution, the Gulf War, and the U.S. invasion of Iraq. *Credit: 3 semester hours.*

181 Proletarian Pleasures: The Development of Popular Culture in Europe and the Americas

Studies in the cultural history of modern Europe and the Americas, emphasizing changing patterns of popular art, consumption, and entertainment and their social and political significance. *Credit: 3 semester hours.*

220 Nationalism and Revolution in Modern Latin America

Credit: 3 semester hours.

225 Women in American History

Survey of the role and contributions of women in American history from the colonial period to the present, tracing the progress of American women in the social, economic, cultural and political areas of American life. *Credit: 3 semester hours.*

230 Fascism in Europe

The varieties of Fascism in Europe with emphasis on origins and development of Fascism in Italy and Nazism in Germany. Authoritarian and totalitarian regimes compared and contrasted and their foreign policies examined. *Credit: 3 semester hours.*

272 Colloquium on the Technological Transformation of the United States

Value systems and material conditions that led to the technological transformation of the United States. The effects of this transformation on American socio-cultural, economic and political institutions in the 19th and 20th centuries. *Credit: 3 semester hours.*

274 Crises in American Foreign Relations

Conflicting interpretations of major crises in American diplomatic history are subjected to the test of evidence and logic. *Credit: 3 semester hours.*

446 Topical Seminar on the Bismarckian Era
Politics, war, diplomacy, gender relations, and culture of Germany during the chancellorship of Otto von Bismarck. German unification, rise of the middle and working classes, campaigns against Catholics and socialists.
Credit: 3 semester hours.

447 Topical Seminar on the Era of Kaiser Wilhelm II of Germany
Growing international tensions and the First World War from a German perspective. Personality of Kaiser Wilhelm II. Development of an advanced industrial society in Germany, 1888–1918. Social and ideological conflict.
Credit: 3 semester hours.

463 Colonial America, 1697–1763
British administrative and economic regulation of the colonies. International rivalries and the colonial frontier. The making of the American colonial mind. The approach of the revolutionary crisis.
Credit: 3 semester hours.

464 The American Revolution
The structure of American society; British policy, growth of revolutionary movement; independence and political revolution; military and diplomatic phases; social consequences.
Credit: 3 semester hours.

469 The Civil War
The causes, campaigns and political and economic developments of the American Civil War.
Credit: 3 semester hours.

473 The Progressive Movement
The political, social, and economic developments of the Roosevelt, Taft, and Wilson administrations.
Credit: 3 semester hours.

474 History of the New Deal
An analysis of the philosophy, techniques and specific programs employed by the New Deal to resolve the domestic problems of the United States from 1933 to 1939.
Credit: 3 semester hours.

480 Colloquium in 20th C. American History: The 1960s
The course will examine and analyze the principal social, political, economic, and cultural issues and events between the election of 1960 and the Nixon presidency.
Credit: 3 semester hours.

509 The Contemporary World
Consequences of the Second World War, the break-up of colonial empires and the Cold War. The post-war rise of Europe and Japan. Decolonization and the emergence of the Third World. Globalization, the end of the Cold War, and the rise of China.
Credit: 3 semester hours.

520 Topical Seminar: Muhammad and Biography
Credit: 3 semester hours.

527 Race and Ethnicity in the United States and Europe
A comparative examination of the ways in which race and ethnicity have structured American and European societies. A graduate seminar.
Credit: 3 semester hours.

534 Studies in Central African History
Colonial historical developments in Central Africa as well as resultant political and sociological changes. Current concepts of political change, nationalism and nation-building are also analyzed.
Credit: 3 semester hours.

637 Colloquium: America in the Gilded Age
Studies in the social, economic and political history of the United States in the late 19th century.
Credit: 3 semester hours.

641 Seminar: The USSR and the World, 1917-1991
A study of the contact between the Soviet Union and the outside world via diplomatic contacts, cultural relations and the international Communist movement.
Credit: 3 semester hours.

Independent Reading and Research

900 Master's Research
Supervised research leading to the preparation and completion of a thesis in partial fulfillment of the M.A. requirements.
Credit: 3 semester hours.

901 Reading and Research
Individually directed reading programs, together with relevant research on topics mutually agreed upon by the student and mentor. Must be approved by the Chair.
Credit: 3 semester hours.

Maintaining Matriculation

925 Maintaining Matriculation
Master's students not registered for other courses must register for 925 until all degree requirements are completed and the degree is granted. No Credit. Fee: \$50 per semester.

For a complete listing of approved courses, please contact the Dean's office.

Program of Study:

Doctor of Arts in Modern World History (D.A.)

The D.A. program in Modern World History is designed for teachers in four-year colleges, community colleges and secondary schools. It provides an interdisciplinary approach to the study of modern world history, focusing upon modernization and seeking to encourage global awareness in the teaching of history.

This program emerged as a result of changes and problems encountered by higher education in the late 1960s, particularly because of the dissatisfaction with the training received by college teachers. In light of these considerations, a doctoral program with a different orientation emerged as an alternative for those who teach or planned to teach and oriented toward developing teaching competence in a broad subject area. The program includes a research component which has practical applicability in the classroom stressing academic and professional competence.

The D.A. Program is solidly grounded in history and integrated with a variety of other disciplines, including anthropology, geography, philosophy, political science, religious studies and sociology. All courses in the academic areas have been designed to reflect this historical perspective.

Entrance Requirements

The following materials must be submitted with all applications:

1. Applicants must present evidence of successful completion of a B.A., with at least 24 credits in history. Applicants with graduate credits in history may apply for transfer credit or for advanced standing, as determined by the Admissions Committee. Applicants with a master's degree which includes at least 15 graduate credits in history are exempt from program requirement one (below) normally take 51 credits beyond M.A. and begin their studies with the HIS 710 and HIS 750. All academic transcripts should be submitted to provide verification of degree conferral, GPA and current coursework.
2. Applicants must present a cumulative index of 3.0 overall and a minimum of 3.5 in history courses.
3. Applicants must supply three letters of reference, at least one of which attests to the applicant's research ability, a recent sample of written work and a personal statement of professional experience and career goals.

Program Requirements

The D.A. requires completion of a minimum of 72 credits beyond the B.A. degree, distributed as follows:

1. Completion of 15 credits of 100–600 level history courses, including HIS 401. Students who enter the program with an M.A.,

- including at least 15 graduate credits in history, are exempt from this requirement.
2. Completion of three required interdisciplinary seminars (nine credits): HIS 710, HIS 750 and HIS 799. HIS 710 and 750 will be taken immediately following the 15 credits of 100–600 level courses; HIS 799 will be taken as the final academic course before the comprehensive exam.
 3. Completion of 24 credits of 700 level courses.
 4. Successful performance on a qualifying examination at the completion of 18 credits for those who enter with the M.A. and 33 credits for those who enter with the B.A., to determine the student's eligibility to continue in the program. Students who elect or are advised to leave the program after satisfactory completion of this exam may request the M.A. be awarded upon completion of these credits and any other degree deficiencies.
 5. Completion of 12 credits of professional skills courses (800s) in the teaching of history, including a three-credit Practicum (HIS 898 or 899). The Practicum is an occasion for discussion of current developments in teaching within the discipline, special classroom or curriculum issues and peer observation of classroom performance.
 6. Completion of six credits of Teaching Internship (HIS 905; 906). The internship is a two-semester, six credit supervised teaching experience designed to enable the student to step confidently and competently into college-level teaching upon completion of the doctoral program. To this end, interns will receive intensive hands-on training under the close supervision of a faculty member from the department. No student will be permitted to register for the internship unless he/she has successfully passed the qualifying exam.

Students who enter the program with permanent New York State certification (which requires two or more years of full-time teaching experience) are not required to take the six-credit internship, though they may elect to do so.
 7. Demonstration of writing competency in English, either by examination or by completion of a course in advanced composition, not to count toward the degree. Students must also show competency in logic or statistics, by taking one of the following:
 - 1) History 840, 2) an undergraduate course in logic or statistics, or 3) an exam in basic logic or statistics, administered by the Dean. Students who have already taken a logic and/or statistics course in a previous undergraduate or graduate institution must present a copy of their transcript to the Chair and the Dean.
 8. Demonstration of functional proficiency in a foreign language appropriate to the student's research. This proficiency may be demonstrated by 1) satisfactory scores on

the ETS language exam, 2) completing successfully two semesters of reading courses in French or German offered by the Department of Languages and Literatures (French 0101-0102; German 0101-0102), or 3) a passing grade in a second-year college-level course in the appropriate language, as approved by the program advisor. This requirement must be satisfied before the student may apply for the comprehensive exam.

9. Successful completion of a comprehensive exam, to be taken only in the last semester of coursework and within one year of the completion of all coursework, language and residence requirements. This exam will cover the entire area of the candidate's field of study and consist of four hours of written examinations for each of the two sections of the principal academic area and four hours for the skills and methodology section – a total of 12 hours.
10. Completion of a minimum of six credits of Doctoral Research Essay (HIS 975) is required of all students until the research essay has been successfully defended. The Research Essay will include the successful writing and oral defense of a work of personal research on a historical topic preferably having an interdisciplinary dimension. The essay is designed to provide students the opportunity to display their competence in the historical/social science subject matter. In addition to evidence of knowledge of the subject matter, the research essay should manifest skills in teaching and evaluation and blend these either through original methods or novel instructional materials. Students are expected to select topics that applies their academic and practical learning to a specific problem related to their professional work. Doctoral candidates must defend the essay in a final oral exam before a faculty committee.

Other Requirements

1. To fulfill the residence requirement, a student must successfully complete 24 credit hours during four consecutive academic semesters, not including summer semesters.
2. Students working towards the D.A. must complete all requirements for the degree within seven years. Credit may be denied for courses completed more than seven years prior to the granting of the degree.
3. Students may seek admission to the program after having successfully completed some graduate work at another accredited institution. Students may request transfer of credit for this work provided it has not been offered in fulfillment of another degree. A maximum of six credits of graduate work, which meet degree requirements, will be accepted after the student has completed a minimum of 12 credits in the University. No credit will be allowed for courses in which the grade attained is below "B".

4. Before sitting for the comprehensive exam, students not registered in coursework or Doctoral Research must enroll in Maintaining Matriculation (HIS 930).

Fee: \$50 per semester.

After successful completion of the comprehensive examination, students must enroll in Doctoral Research Essay (HIS 975) until the research essay has been successfully defended.

Fellowships

University Doctor of Arts Fellowships, available to qualified part-time graduate students, provide tuition remission and fees for two graduate courses in each semester of the academic year. Based on academic merit, recipients render no service and receive no stipend.

Full-time students may also apply for University doctoral fellowships, which provide tuition remission, a stipend and require no service, or for doctoral fellowships which provide tuition remission, a stipend and require some weekly service to the department.

To apply for these awards or to receive more information about them, prospective students should contact the Dean's office at mcguirep@stjohns.edu.

Information concerning other types of financial aid and scholarships is contained in the portion of this bulletin entitled "Financial Aid."

Courses

Academic Curriculum

Coursework in the principal academic area is divided into two sections, each introduced by a required interdisciplinary seminar:

Seminar I: The Patterns of Modernization in Historical Perspective

Seminar II: The International Implications of Modernization

Required Interdisciplinary Seminars (Team Taught)

710 Seminar I: The Patterns of Modernization in Historical Perspective

An examination of the dynamics of the process of modernization in different states and societies in the modern world, emphasizing its economic, political, cultural, religious and social dimensions. *Credit: 3 semester hours.*

750 Seminar II: The Globalizing Implications of Modernization

A study of the increased interaction and interdependence (diplomatic, cultural, economic, social and military) of peoples and states of the world and their impact on urgent world problems. *Credit: 3 semester hours.*

799 Seminar III: Global Awareness and the Contemporary World

All students will complete their coursework in the principal academic area by taking this seminar which will integrate the earlier coursework while relating the material to the professional skills work. *Credit: 3 semester hours.*

Courses in the Area of Seminar I**712 Patterns of Modernization in the Post-Confucian World**

Comparative historical analysis of modernization in East Asia; varying rates of national economic growth and social change; societies that have experimented with radically demoting modernization to a lesser national priority are also be discussed. *Credit: 3 semester hours.*

714 Modernization and the Secular Alternative

Secularism is examined as an alternative world view to the Judeo-Christian tradition that has emerged with the process of modernization; the encounter of secularism; its theological critics in the English speaking world. *Credit: 3 semester hours.*

718 Technology and Transformation in Western Europe

The technological revolution in Western Europe is examined within a historical framework which examines the period of preparation, the agricultural revolution and the industrial revolution. *Credit: 3 semester hours.*

720 Terrorism: Ireland and the Holy Land

An analysis of terrorism in the Middle East and Northern Ireland; historical evolution and contemporary manifestations of terrorism in the context of modernization, ideological and psychological rationales of terrorist movements and the international implication. *Credit: 3 semester hours.*

722 Human Values and the Modernization of Societies

The history of the changes that the process of modernization has wrought in man's moral consciousness and the way in which different societies, have come to identify and conceptualize contemporary moral problems. *Credit: 3 semester hours.*

724 Modernization in Sub-Saharan Africa

An examination of modernization in Sub-Saharan Africa and its impact on the people and institutions of the area. *Credit: 3 semester hours.*

726 Religious Evolution in the Technological Age

The technological revolution and transformation of religious organizations in the West; the Middle East, the Orient and Latin America; patterns of convergence, loss of functions, charismatic episodes and widespread movements. *Credit: 3 semester hours.*

728 Culture, Personality and Modernization

The study of the transformation of the value system and related psychocultural adaptations experienced by selected tribal and Third World societies during the modernization process. *Credit: 3 semester hours.*

730 Theorists of Political Modernization

A study of the contributions of outstanding political thinkers around the world (since the European 18th-century Enlightenment) to the development of the current ideals and rationales of political modernization. *Credit: 3 semester hours.*

732 The Development of Japan's Political Economy

An in-depth analysis of Japan's political economic development, including an examination of the governing triad model, industrial and trade policy and foreign relations. *Credit: 3 semester hours.*

Courses in the Area of Seminar II**734 Women and Modernization: An Introduction**

Impact of global modernization on gender roles. Women and industrialization, imperialism, feminism, war, revolution, sexuality, crime, politics, comparisons of Europe, U.S., Asia, Africa, Latin America. *Credit: 3 semester hours.*

741 The USSR and the World, 1917-1991

A study of the contact between the Soviet Union and the outside world via diplomatic contacts, cultural relations and the international Communist movement. *Credit: 3 semester hours.*

752 Energy Ethics

The ethical issues in energy use management in the modernized pluralistic world; the effect that modernization has had on the development of the philosophies of man. *Credit: 3 semester hours.*

753 World Regional Geography

A regional analysis of the principal patterns of the physical, economic and cultural features of the earth, with emphasis on how these features have influenced and been influenced by history. *Credit: 3 semester hours.*

754 The Emergence of Total War

An analysis of the impact of the modernization process upon warfare in the 20th century, with emphasis on the growing technological complexities of modern strategy and weaponry and the increasing social disruption resulting from total war. *Credit: 3 semester hours.*

755 Modernization and American Foreign Policy in the 20th Century

The course will explore American conceptions of the modernization of international relations and their impact on U.S. foreign policy in the 20th century. *Credit: 3 semester hours.*

756 The World in Upheaval: Europe and the World Since 1776

The globalization of European ideologies and institutions and ensuing political, diplomatic, economic and cultural consequences; emphasis on nationalism and imperialism and industrialization and ideology. *Credit: 3 semester hours.*

757 America Abroad: The United States and Modernization

The course explores American conceptions of modernization and their application in foreign policy in Asia, Latin America and Europe in the 20th century. *Credit: 3 semester hours.*

760 Modern Religious Pluralism and World Peace

Analysis of ever-increasing contacts and communications between major global religious traditions that have made significant inroads toward mutual understanding and cooperation; new possibilities in the changed context for world religions to serve as important resources for world peace. *Credit: 3 semester hours.*

762 Chinese Revolutionaries in Office

Chinese revolutionaries of 1911, 1926, 1949 and 1978; their goals, methods and ideologies; how the dreams fared as the prime movers consolidated their respective revolutionary movements. *Credit: 3 semester hours.*

764/864 The Varieties of Historical Tradition and Issue in Inter-Cultural Communication

Contrasting value systems and the "inside" understanding of specific historical traditions as a prerequisite for inter-cultural and international understanding. *Credit: 3 semester hours.*

766 The Information Revolution and the Formation of a Global Society

The explosion of the mass media in the 20th century; cybernetics and global communication networks as determinants of political and cultural ascendance, struggles for acquisition, capitalization and control of knowledge in capitalist societies; processes leading to homogenization of culture, rising expectations, world images and ideological exchanges. *Credit: 3 semester hours.*

768 The New Imperialism in Africa: Causes and Consequences

An examination of the European scramble for territory in Africa after 1870 and its political and economic consequences; the political liberation of Africa and the ongoing attempt to achieve economic independence. *Credit: 3 semester hours.*

770 The Contemporary System of Global Politics

The global extension of the "Family of Nations" concept of world order, with emphasis on how internal stages of growth of various technologically advanced, rapidly modernizing, revolutionary and underdeveloped states of the contemporary world affect their international relations. *Credit: 3 semester hours.*

772 Japan, China and South Korea:

Contrasts in East Asian Political Economic Development

An in-depth comparative analysis of the political economic development of Japan, China and South Korea. *Credit: 3 semester hours.*

774 European Integration and Disintegration

An analysis of Europe's cultural and social diversity in the 19th century; how Western European societies have become more similar in the 20th century. *Credit: 3 semester hours.*

Professional Skills Curriculum

812 The Transnational and Interdisciplinary Approaches in the Teaching of World History

Basic conceptual approaches employed by historians and social scientists in the study of world history following the Industrial Revolution; an examination of global history and the analytical methods used in academic disciplines. *Credit: 3 semester hours.*

820 Elements of Measurement and Evaluation

Elements of educational measurement and evaluation, including fundamentals of reliability, validity, test interpretation and program evaluation. *Credit: 3 semester hours.*

840 Reasoning and Historical Inquiry

The development of formal and material elements of logic emphasizing their proper application to the study and teaching of history. *Credit: 3 semester hours. Can be used to satisfy logic requirement.*

853 Counseling Techniques for Teachers (Cf. ENG 853)

An introduction to counseling theory and practice for educators; familiarizing current/prospective educators with the methods and techniques that can be used in a wide range of academic encounters. *Credit: 3 semester hours.*

856 History, Culture and Language: Techniques of Intercultural Awareness and Communication

Practical training in in-depth and comparative study of culture(s), techniques of intercultural communication and the design of multicultural educational programs. *Credit: 3 semester hours.*

860 Research, Writing and Teaching History in a Global Age: Promise and Problems

This course explores the promise and problems inherent in the research, writing, and teaching of a history which transcends the national state and examines the evolution of this more expansive approach. It also assesses the new sources and techniques provided by the communication and information revolution of the global age. *Credit: 3 semester hours.*

The Practicum

Depending on their current teaching position, need and interest, students in the program will enroll in either of the two practicum that will be offered. The first practicum is designed for secondary school teachers, while the second is structured for college-level instructors.

898 Practicum II: For Community College and Four-Year College Teachers

This practicum is designed for the improvement of the professional skills of history and social studies teachers in the area of community college and four-year college teaching. This course aims at guiding and enabling the practicing teacher to experiment with alternative instructional methods and to evaluate the effectiveness of current teaching techniques. Students are encouraged to devise teaching models that are suited to inculcating global awareness and that draw upon interdisciplinary resources. *Credit: 3 semester hours.*

899 Practicum I: For Secondary School Teachers

This practicum is designed for the improvement of the professional skills of history and social studies teachers in the secondary schools. It aims to guide the practicing teacher to experiment with alternative instructional methods and to evaluate the effectiveness of present teaching techniques. *Credit: 3 semester hours.*

905; 906 Teaching Internship

Level 1. The student attends lectures of a mentoring faculty member's HIS 1000/1010 class, preparing and delivering no less than 10 lectures during the semester. The mentor supervises the preparation of these lectures and provides training in exam preparation, grading techniques, alternative modes of learning. *Credit: 3 semester hours.*

Level 2. When the student satisfactorily completes the Level 1 internship he/she will be assigned responsibility, under direction of the mentor, for lectures in a HIS 1010/1000 class. The second semester will include regular meetings with the mentoring teacher for the purpose of critiquing and discussing teaching technique. *Credit: 3 semester hours.*

Independent Reading and Research

975 Doctoral Research Essay

Credit: 3 semester hours.

990 Directed Reading and Research in the Area of Modernization (Seminar I)

Credit: 3 semester hours.

991 Directed Reading and Research in the International Implications of Modernization

Credit: 3 semester hours.

Maintaining Matriculation

930 Maintaining Matriculation (D.A.)

Doctoral students not registered for other courses must register for HIS 930 until all degree requirements are completed and the degree is granted. *No Credit. Fee: \$50 per semester.*

For a complete listing of approved courses, please contact the Dean's office.

Languages and Literatures

Programs of Study:

Master of Arts in Spanish

The Department of Languages and Literatures offers a program of graduate study in the literature, linguistics and civilization of the Hispanic world, taught entirely in Spanish, leading to the degree of Master of Arts. This specialized program is intended to prepare students for further scholarship, teaching at all levels or related careers. The department sponsors an ongoing series of lectures by prominent literary figures from both Spain and Latin America and the publication of the literary journal *Anuario Medieval*.

Epsilon Kappa, the St. John's Chapter of Sigma Delta Pi, the National Hispanic Honor Society, publishes a literary journal, *Entre Rascacielos*, to promote the creative works of students enrolled in the program.

In addition, the department offers reading courses in French and German for graduate students in other disciplines.

Entrance Requirements

At least 24 semester hours above the intermediate level of undergraduate work in languages, with 18 of these hours in Spanish. All classes are conducted in Spanish. All students must demonstrate proficiency in speaking, reading and writing Spanish. Any existing deficiency will subsequently have to be removed. In the case of foreign credentials, the 18-hour requirement will be met if the candidate holds a university degree from a Spanish-speaking country.

Program Requirements

Thesis: This option is a 33-credit program consisting of 27 credits of required coursework from among the five areas of concentration (a minimum of three credits in each area) listed below and six credits of Master's Research (SPA 900). Master's degree students with the thesis option must demonstrate proficiency in a language other than Spanish. It is strongly recommended that such students have a reading knowledge of English, French, German, Italian,

Portuguese or any other language pertinent to the topic of their thesis. The language of their choice must be approved by the thesis advisor and by the Graduate Director. This requirement may be satisfied by passing the Princeton ETS foreign-language examination or by an examination administered by the department. In lieu of the language examination, students may either take an undergraduate language course equivalent to a fourth semester (Language 4) or one of the department's graduate non-credit reading courses. It is suggested that this requirement be met in the semester prior to taking the comprehensive examination. The thesis option is recommended for those students who wish to continue their graduate education beyond the master's degree and plan to enter a Ph.D. program.

Non-Thesis: This option is a 33-credit program consisting of coursework in all five areas of concentration listed below: a minimum of three credits from each division, plus 18 credits in course electives. However, it is strongly recommended that students take six credits from each of the five areas of concentration.

The non-thesis option is primarily designed for those students interested in teaching on the primary or secondary level or seeking immediate preparation for fields where a master's degree in Spanish is the recommended credential.

With appropriate counseling from the department, students should select their courses from the following five areas of concentration:

- (1) Linguistics (three/six credits)
- (2) Peninsular Literature before 1700 (three/six credits)
- (3) Peninsular Literature of the 18th, 19th and 20th Centuries (three/six credits)
- (4) Spanish-American Literature from Pre-Columbian through the 19th Century (three/six credits)
- (5) Spanish-American Literature from Modernismo to the Present (three/six credits)

The comprehensive examination required of all students must be taken within a year of the completion of all course requirements. This four-hour written examination will test their knowledge of the literature, linguistics and culture of Spain and Spanish America. The rules governing the application and administration of this examination are found under "Comprehensive Examination" in the Graduate Division of Arts and Sciences section in this bulletin. The comprehensive examination may be given during the summer.

Combined Degree Program

B.A./M.A. in Spanish

The Department of Languages and Literatures offers an intensive, accelerated, combined degree program leading to both the B.A. and M.A. degrees in Spanish in five years of full-time study. Sophomores who have completed 12 credits in Spanish with a 3.5 or above index

and with a minimum of 3.0 cumulative index, are encouraged to apply. After completion of the baccalaureate degree, the student must enroll full-time on the graduate level for the fifth year. For specific information, students may contact Marie-Lise Gazarian, Ph.D., Graduate Director, Master's Degree Program in Spanish at (718) 990-5209 or e-mail gazarian@stjohns.edu.

Financial Aid

Research assistantships, which include full tuition and a stipend, are available to qualified graduate students. In addition, New York State residents may be eligible for Tuition Assistance Program (TAP). State and Federal Loan Programs are also available.

The Gabriela Mistral Scholarship/Beca Gabriela Mistral will be granted once a year to graduate students enrolled in the Master of Arts Program in Spanish at St. John's University and at the Universidad de Chile, Santiago, Chile. The scholarship entails the granting of complete tuition remission for one semester to one student selected from each of the two institutions.

Courses

103 History of the Spanish Language

The evolution of the language from its origin to the present; phonology, morphology, grammar, vocabulary, style.

Credit: 3 semester hours.

109 Spanish Stylistics. A Workshop in Creative Writing

Students will engage in various exercises, taking part in the writing of poetry, short stories and memoirs. *Credit: 3 semester hours.*

110 Workshop in Journalistic Prose

A study of journalism through a study of masters in the genre and through the experience of writing articles on a series of topics.

Credit: 3 semester hours.

220 Caribbean Literature in Spanish

A study of the most representative Spanish-Afro Caribbean writers, such as Luis Llorens Torres, Luis Pales Matos, Nicolás Guillén and Emilio Ballagas. *Credit: 3 semester hours.*

222 Medieval Literature II

The principal developments of the XIV and of the XV century as far as La Celestina.

Credit: 3 semester hours.

224 The Spanish Ballad, Yesterday and Today

An in-depth study of the development of Spanish balladry from the Middle Ages to the present. *Credit: 3 semester hours.*

234 Spanish-American Poetry

The principal developments of the genre in Spanish America with a study of representative authors. *Credit: 3 semester hours.*

237 Spanish-American Modernism

Representative authors of the period will be studied. *Credit: 3 semester hours.*

239 Women Writers from Spanish America

A study of the most representative women writers from the time of Sor Juana Inés de la Cruz to the present. *Credit: 3 semester hours.*

245 Spanish-American Literature of the Enlightenment

Main literary currents in Spanish-America from 1750 to the period of Independence with representative authors studied.

Credit: 3 semester hours.

249 The Spanish-American Novel from Fernández de Lizardi to the 1960s

A study of the most representative literary figures in the development of this genre.

Credit: 3 semester hours.

250 The Spanish-American Novel from the 1960s Onward

A study of the most representative present-day Spanish-American novelists.

Credit: 3 semester hours.

254 Don Quijote I, II

A study in depth of Cervantes' masterpiece

Credit: 3 semester hours.

270 Spanish Poetry of the Twentieth Century

A review of poets from the second half of the nineteenth century with an in-depth study of poets from the twentieth century.

Credit: 3 semester hours.

279 Federico García Lorca

A study of the most representative works of Federico García Lorca. *Credit: 3 semester hours.*

287 Ortega y Gasset and other Twentieth Century Spanish Essayists

A study of representative essayists of the period. *Credit: 3 semester hours.*

290 Literature of the Mexican Revolution

A study of major literary figures in the development of this theme in the national culture.

Credit: 3 semester hours.

300 Spain in North America. Early Writings

First writings by Spaniards in North America. The literature of early settlers, navigators, soldiers, and priests. *Credit: 3 semester hours.*

305 Seminar in Hispanic Literature I

A study of specific authors from the Hispanic world. *Credit: 3 semester hours.*

306 Seminar in Hispanic Literature II

A study of specific authors from the Hispanic world. *Credit: 3 semester hours.*

310 Visual Arts in Spanish Literature

A study of the many uses of the visual arts in Spanish literature, with emphasis on the literary representation of visual arts, real or imaginary.

Credit: 3 semester hours.

313 César Vallejo, Lezama Lima, Pablo Neruda and Octavio Paz

An in-depth study of three representative figures of the Hispanic world.

Credit: 3 semester hours.

314 Poetry and Its Metric Forms

The tools for writing poetry.

Credit: 3 semester hours.

316 The Chronicle in Spanish Classic Authors

A study of the literary techniques used in Spanish historiography, with emphasis on the study of Medieval, Renaissance and Baroque chronicles. Manuscripts, incunabula, paleographic and first editions will be used when available. *Credit: 3 semester hours.*

318 Love and Death in Latin American Literature

A study of the themes of love and death as expressed by some of the most representative authors. *Credit: 3 semester hours.*

319 The Generation of 1927 in Spain

An in-depth study of some of the most important poets of the period. *Credit: 3 semester hours.*

330 The Spanish Short Story

The evolution of the short story in Spain from the medieval exemplum to the cuento literario. *Credit: 3 semester hours.*

900 Master's Research

Supervised research by mentor leading to the preparation and completion of a thesis in partial fulfillment of the Master's degree requirements, in consultation with the Director of the Graduate Program. *Credit: 3 semester hours.*

901 Independent Study

An opportunity for independent reading and research under the supervision of a faculty member. The area of research must be approved in advance by the Director of the Graduate Program and a research plan will be required. *Credit: 3 semester hours.*

925 Maintaining Matriculation

Master's degree students who are not registered for any course must maintain their matriculation by registering for 925 until all degree requirements are completed and a degree is granted. No credit. Fee \$100.

French 0101; 0102 French Reading Course

(0101 is prerequisite for 0102) This course is designed to give the candidates for the Master's and Doctor's degrees a grasp of the fundamentals of the language and a good working vocabulary so that they can use the language and a good working vocabulary so that they can use the language as a research tool in their field of specialization.

Two semesters. *No credit. Tuition:*

Two graduate tuition credits.

For a complete listing of approved courses, please contact the Dean's office.

Advanced Interdisciplinary Certificate on Latin American and Caribbean Studies

St. John's University's Committee on Latin American and Caribbean Studies (CLACS) offers a graduate-level interdisciplinary and multidisciplinary certificate for those students interested in disciplines and careers that deal with Latin America, the Caribbean, or Latinos in the U.S. Those careers include: diplomacy and international relations; banking; business; literature; education; health services and journalism.

Entrance and Program Requirements

An undergraduate degree in an accredited university with a minimum 3.0 GPA and two letters of recommendation are required.

A student can enroll in the certificate program by itself or in conjunction with another graduate program (e.g. M.A. in Spanish, Government, History, M.B.A., D.A. in English).

Students need 15 credits in three different disciplines or areas. The course may be taken in any of the St. John's campuses or in Latin America with prior permission. Language proficiency in Spanish, Portuguese, or French is required before the program is completed.

Graduate research assistantships are available. For more information about the program, please contact: Dr. Alina Camacho-Gingerich, Chair of CLAS, at camachoa@stjohns.edu; tel (718) 990-1932 or (718) 990-5829; or visit St. John Hall, Room B3A1 and 9.

Liberal Studies

Program of Study

The Master of Arts in Liberal Studies (M.A.L.S.) provides a multidisciplinary graduate opportunity to the intellectually curious through the study of interdisciplinary themes that draw from various academic disciplines.

There are four tracks in the Master of Arts in Liberal Studies:

1. Humanities
2. Social Science
3. Cultural Studies (includes the Concentration in Women's and Gender Studies)
4. Interdisciplinary Studies

The program is designed to provide a basis for a number of professional goals; it is not designed to duplicate or replace the specialized disciplinary training required for earning a Ph.D., though it is an excellent preparation for such training. This interdisciplinary program is designed to meet the needs of working professionals and others seeking to Entrance

Entrance Requirements

1. A Bachelor's Degree in any area, with an overall GPA of 3.0
2. A brief personal essay describing the student's academic goals and areas of intellectual interest
3. Six credit hours in the area of concentration
4. For the Humanities track, a total of 18 credits from English or history; for the Social Science track, a total of 18 credit hours from anthropology, economics, history, government and politics, psychology, or sociology; for the Cultural Studies track, a total of 18 credit hours from anthropology, sociology, English, Area Studies (Latin America, Asian, Middle Eastern, African, etc.) history, philosophy and ethnic/gender studies; see below; for Interdisciplinary Studies, a sufficient number of credits in the relevant disciplines, as determined by the Director.
5. Two letters of recommendations from persons who can attest to the student's ability to undertake graduate studies.

Program Requirements

Each student selects an interdisciplinary track: Humanities, Social Science, Cultural Studies, or Innovative Research.

If Humanities is selected, the student chooses an area of concentration—either history or literature. The student completes five courses in his or her area of concentration and two courses each from the two cognate disciplines. The student also takes introductory and integrating seminars in the humanities. A total of 11 courses is taken.

If Social Science is selected, the student chooses an area of concentration—either economics, history, government and politics, psychology or sociology. The student takes five courses in his or her area of concentration and two courses from any two cognate disciplines. The student also takes introductory and integrating seminars in the social sciences. A total of 11 courses is taken.

If Cultural Studies is selected, the student takes five courses from a list of courses dealing with the anthropological and cultural themes and four courses in cultural areas and topics. These include but are not limited to Latin America, Far Eastern Cultures, Eastern Europe, Africa and the Middle East. The student also takes introductory and integrating seminars in Cultural Studies. A total of 11 courses is taken.

If Interdisciplinary Studies is selected, the student consults with the program Director about the theme of the proposed program (as well as faculty in the relevant areas). The program Director must approve the proposed program. The student takes courses from his or her area of concentration and courses from at least two other areas of determined to be relevant to the proposed research project. The student also takes an introductory and integrating seminar in the appropriate area.

Every student must complete a Capstone project in the M.A.L.S. track he/she has selected.

Attendance Policy

Regular and prompt attendance is expected of all students. There is no penalty for absence from class considered in itself. However, absence from class does not excuse a student from work missed. Students are thus responsible for all announced tests and for submitting all assignments at the proper time. Ignorance of such tests and assignments is no excuse for failure to do them and submit them at specified due dates.

Individual faculty members have discretionary power to determine whether a student who has missed an announced test is to be given a make-up examination. This policy does not apply to final examination. For the policy on final examinations, see "Examinations."

Special Students

Special students, enrolling for the first time, must submit transcripts of all prior academic work, undergraduate and graduate and complete the appropriate forms. Only those students who are qualified and possess the necessary background are permitted to enroll in graduate courses. Special students must have the permission of the department/division and the Dean to register. Special students may enroll for no more than six credits of coursework each semester for a maximum total of 12 credits. If an applicant who has taken courses as a special student is accepted for matriculation, the Dean determines which credits taken as special students are credited toward the program. In any case, no more than 12 credits completed as a special student may be applied toward a degree program

Transfer of Credit

In graduate programs requiring the completion of 30–36 credits, a maximum of six credits may be transferred with the approval of the Dean. No transfer credits are permitted for students in the Global Development and Social Justice track.

Requested transfer credits must not have already been used in fulfillment of another degree. The student must present catalog descriptions of the graduate courses for which transfer credit is requested. No credit is allowed for courses in which the grade attained is below "B". Transfer grades do not affect cumulative quality points. In addition, no degree credit is allowed for courses completed beyond the stipulated time limit ("Time Limit"). Students requesting transfer credit must have already completed at least 12 credits in their approved graduate program at St. John's University.

Incomplete ("INC") Grades

Students receiving an "INC" must submit all required materials no later than the deadline indicated in the Academic Calendar in the front of this bulletin. All "INC" grades not removed by the deadline become permanent on the transcript. In some cases, it may be necessary for the student to repeat the course involved.

Residence

Each student pursuing the master's degree must complete 12 semester hours of academic credit during two consecutive academic semesters.

Courses

Departments strive for accuracy with regard to the scheduling of courses. They reserve the right, however, to alter the schedule as needs may dictate. Moreover, the Dean maintains the right to cancel courses when deemed necessary.

MLS 100 Introductory Seminar in Liberal Studies

Directed reading and discussion of representative works which have had a significant influence in the various areas in liberal studies. This course introduces issues in the humanities, social sciences and cultural studies.

MLS 200 Integrating Seminar in Liberal Studies

The capstone project is the focus of this seminar, taught by faculty members from one of the liberal studies tracks. The capstone project proposal must be approved by the student's faculty mentor and the Program Director.

MLS 204 Independent Research in Liberal Arts

Under the supervision of a faculty mentor, the student will prepare a research proposal, and submit it to the program director for approval. All proposals must be approved by the Director

Humanities

Course Distribution for the Humanities	
MLS 100	3 cr.
MLS 200	3 cr.
Concentration (History or Literature)	15 cr.
Cognate field one	6 cr.
Cognate field two	6 cr.
	33cr.

Cognate Fields:

Philosophy courses for concentration in History or Literature

Two of the following:

PHI 122	Ethics
PHI 259	Philosophy of Law
PHI 267	Political Philosophy
PHI 140	Philosophy of Science
PHI 268	Introduction to Feminist Philosophy

Literature courses for concentration in History

One of the following:

ENG 210	Medieval Literature in Historical Contexts
ENG 220	War and the Culture of Chivalry
ENG 230	Chaucer
ENG 240	Beowulf
ENG 250	Medieval Drama
ENG 260	Arthurian Romance
ENG 270	Medieval to Early Modern
ENG 280	Topics in Medieval Studies

One of the following:

- ENG 600 19th-Century American Public Culture
 ENG 610 Literature of the Early Republic
 ENG 616 Colonial American Literature
 ENG 620 Antebellum American Literature
 ENG 625 Gender and 19th-Century American Literature
 ENG 630 American Regional Literature
 ENG 635 Narratives on American History
 ENG 640 Transcendentalism
 ENG 650 American Novel to 1914
 ENG 660 19th-Century African American Literature
 ENG 665 Studies in 19th-Century Authors
 ENG 670 Topics in 19th-Century American Literature and Culture
 ENG 700 The Emergence of Modernism
 ENG 730 Literary Modernism
 ENG 735 Harlem Renaissance
 ENG 755 Topics in African American Literature
 ENG 760 Postcolonial Literature
 ENG 761 Caribbean Literature and Culture
 ENG 765 American Ethnic Literatures
 ENG 770 Studies in 20th-Century American Literature and Culture
 ENG 775 Topics in 20th-Century British Literature and Culture

History courses for the concentration in Literature**Preferably two of the following courses:**

- HIS 112 The Industrialization of Europe: Impact and Implications
 HIS 113 American Intellectual History 1786-1860
 HIS 134 Modern Countercultures: Visions from Left and Right
 HIS 403 The Philosophy of History
 HIS 413 The Renaissance
 HIS 509 The Contemporary World

Concentration in Literature

For a concentration in literature, preferably one course from each of five of the following categories:

Medieval

- 200 Medieval Literature: Critical Theoretical Approaches
 210 Medieval Literature in Historical Contexts
 220 War and the Culture of Chivalry
 230 Chaucer
 240 Beowulf
 250 Medieval Drama
 260 Arthurian Romance
 270 Medieval to Early Modern
 280 Topics in Medieval Studies

Early Modern

- 300 Shakespeare and Early Modern Studies
 310 Shakespeare's Media: Print, Performances and Film
 320 Elizabethan Drama
 330 Jacobean Drama
 340 Spenser and the Elizabethan Renaissance
 350 Milton and the English Civil War
 355 Renaissance Lyric Poetry
 370 Topics in Shakespeare
 380 Topics in Early Modern Studies

Restoration and 18th Century

- 400 The Novel to 1800
 410 Restoration and 18th Century Poetry
 420 Restoration and 18th Century Drama
 430 Restoration and 18th Century Prose
 440 Studies in Restoration and 18th Century Literature
 450 Topics in Restoration and 18th Century Literature and Culture

19th Century British

- 501 The Victorian Social Imagination
 510 British Romanticism
 520 The 19th Century Novel
 530 Aspects of the Novel: Histories and Theories
 540 Science, Poetry and Prose in Victorian England
 550 Realism and Naturalism
 560 Revolution and Romanticism
 570 Monumental Form: Eliot, Dickens, Trollope
 580 Studies in 19th Century British Authors
 590 Topics in 19th Century British Literature and Culture

American to 1900

- 600 19th Century American Public Culture
 610 Literature of the Early Republic
 616 Colonial American Literature
 620 Antebellum American Literature
 625 Gender and 19th Century American Literature
 630 American Regional Literature
 635 Narratives of American History
 640 Transcendentalism
 646 American Poetics
 650 American Novel to 1914
 660 19th Century African American Literature
 665 Studies in 19th Century Authors
 670 Topics in 19th Century American Literature and Culture

Twentieth Century

- 700 The Emergence of Modernism
 711 Modern Short Story
 715 Modern Novel
 716 Modern Poetry
 725 Modern Drama
 730 Literary Modernism
 735 Harlem Renaissance
 740 Contemporary Novel
 745 Contemporary Poetry
 750 Contemporary Drama
 755 Topics in African American Literature
 760 Postcolonial Literature
 761 Caribbean Literature and Culture
 765 American Ethnic Literatures
 770 Studies in 20th-Century American Literature and Culture
 775 Topics in 20th-Century British Literature and Culture

Interdisciplinary and Cultural Studies

- 800 Forms and Themes in Film
 810 Literary/Visual Texts
 815 Comedic Reality
 820 The Christian Imagination
 825 Collecting Cultures
 830 Allegory and Epic
 836 Modernism and the Fascist Aesthetic
 840 Kitch and the Crisis of Modernism
 845 The Holocaust: Criminal, Collaborators, Survivors
 851 Suburbia in Film and Literature
 855 Theory of the Novel
 861 Art and Propaganda: Romantic to Modern
 865 Emerging Technologies and the Making of Meaning
 870 Writing Theory/Writing Practice
 875 Feminist Theory
 876 Writing Nonfiction
 877 Workshop in Fiction
 878 Workshop in Poetry and Poetics
 880 Topics in Interdisciplinary Studies
 885 Topics in Cultural Studies

Students concentrating in History may choose from the following:

- HIS 112 The Industrialization of Europe
 HIS 401 Modern Historical Research
 HIS 509 The Contemporary World

Course descriptions for the courses listed above may be found in the departmental listings in Graduate Division of Arts and Sciences.

Social Science

Course Distribution for the Social Sciences	
MLS 100	3 cr.
MLS 200	3 cr.
Concentration (Economics, History, Government and Politics, Psychology or Sociology and Anthropology)	15 cr.
Two courses in any of two other departments	12 cr. 33 cr.

For concentration in Psychology, preferably five of the following courses.

PSY 606x	Perception I
PSY 616	Principles of Learning
PSY 617	Cognitive Psychology
PSY 622	Social Psychology
PSY 623	Developmental Psychology I
PSY 625	Cross-Cultural Psychology
PSY 630	Personality Theories
PSY 648	Physiological Psychology
PSY 650	History and Systems of Psychology
PSY 622	(Social Psychology) and
PSY 625	(Cross-Cultural Psychology) are also appropriate for the Cultural Studies track

For the concentration in sociology, preferably five of the following courses

SOC 115	Sociology of Gender
SOC 120	Race and Ethnicity
SOC 121	Sociology of the Family
SOC 170	Social Psychology
SOC 210	Sociological Theory: Classical
SOC 212	Sociological Theory: Contemporary
SOC 223	Urban Sociology
SOC 228	Sociology of Community
SOC 234	Global Poverty
SOC 249	Sociological Perspectives on Education
SOC 260	Inequality

For a concentration in Government and Politics: students are ordinarily expected (after consulting with the Program Director) to take one course each in political theory, American government and public administration; as well as two courses in international relations and comparative government. Exceptions can be made upon consultation with the Program Director.

For the concentration in history, five of the following courses:

HIS 379	American History and the Social Sciences (Required)
HIS 401	Modern Historical Research (Required)
HIS 136	Problems of East Asian History
HIS 151	Problems of Contemporary Africa
HIS 285	American Social and Cultural History, 1800–Present
HIS 456	International Relations Since First World War
HIS 509	The Contemporary World

Five of the following for a concentration in Economics:

ECO 506	Economic Analysis (no previous background required; a prerequisite for any 200 level economic courses)
ECO 601	Economic Analysis for Business Decisions
ECO 605	International Trade and Investment
ECO 621	National Income Analysis
ECO 631	Fiscal and Monetary Problems and Policies
ECO 637	Public Finance and Taxation
ECO 700	Seminar in Economics and Finance

Cultural Studies

Course Distribution for Cultural Studies

MLS 100	3 cr.
MLS 200	3 cr.
Five Courses in Anthropological and Cultural Studies	15 cr.
Four courses in cultural areas from two departments other than Sociology (two must be from areas other than European and/or North American areas)	22 cr. 33 cr.

Cultural Studies Core Courses.

Five of the following:

HIS 158	History of Ethnic Rivalries in the U.S.
HIS 159	The Immigrant in American History, 1783–1880
HIS 160	The Immigrant in American History, 1880–Present
HIS 180	Top and Bottom: Class Conflict in European Society
HIS 285	American Social and Cultural History, 1800–Present
HIS 509	The Contemporary World
PHI 270	Theories of Knowledge
PHI 350	Pragmatism
PSY 617	Cognitive Psychology
PSY 622	Social Psychology
PSY 630	Personality Theories

Cultural Studies Core Courses.

Five of the following (or others with the approval of the Program Director):

SOC 114	Trends in the American Culture
SOC 115	Sociology of Gender
SOC 118	Intercultural Communications
SOC 120	Race and Ethnicity
SOC 129	Cyber Society
SOC 131	Sociology of Youth
SOC 147	Personality, Society and Culture
SOC 170	Social Psychology
SOC 248	Cross-Cultural and Ethnographic Perspectives on Education
SOC 252	The Social and Cultural Dimensions of Aging
SOC 350	Seminar: Cross-Cultural Research and Analysis
SOC 351	Seminar: Ethnic Pluralism and Multicultural Education
PHI 270	Theories of Knowledge
PHI 350	Pragmatism

Latin America: Any two

MFL 103	History of the Spanish Language
MFL 118	Contemporary Spanish America
MFL 122	Cultural Heritage of the Antilles
MFL 220	Caribbean Literature in Spanish America
GOV 137	Government and Politics of Latin America
GOV 183	The Puerto Rican Contribution to American Society
HIS 487	Topical Seminar in American History: Latin America and the U.S.

Far Eastern Cultures: Any two

ASC 144	Modern Japan Since 1868
ASC 156	Southeast Asia: The Modern Period
ASC 252	The Cultural Transformation of Modern China
ASC 579	Social and Economic History of Japan
GOV 133	Contemporary Far Eastern Governments and Politics

Eastern Europe: Any two

HIS 122	The Russian Revolution
HIS 131	History of Eastern Europe in the 20th Century
HIS 460	History of the Russian Empire
GOV 135	Contemporary Eastern European Governments and Politics
GOV 230	Governments and Politics of Russia and the Post-Soviet Republics
GOV 290	Public Administration of Emerging States

Africa and the Middle East: Any two

GOV 131	Politics of the Middle East
GOV 189	Political and Administrative Problems in Developing Nations
GOV 250	Politics of Africa
HIS 151	Problems in Contemporary Africa
HIS 164	Cultural Geography of Africa
HIS 176	Contemporary Middle East
HIS 523	Study in the Modern Middle East

Philosophy: Any two

PHI 267	Political Philosophy
PHI 270	Theories of Knowledge
PHI 325	Marxism
PHI 350	Pragmatism

American: Any two

HIS 226	From the Byrds to the Hunts: Classes in American Society
HIS 257	Those Who Followed Columbus: The Italian Experience in the U.S.
HIS 272	Colloquium on the Technological Transformation of the United States
HIS 379	American History and the Social Sciences

Concentration in Women's and Gender Studies:

Course Distribution for Concentration in Women's and Gender Studies	
MLS 100	3 cr.
MLS 200	3 cr.

Nine courses (27 credits) chosen from among the following:

- ASC 349 Women and Family in Modern China: Changing Patterns of Social Relations
 ASC 354 Women in Chinese Literature
 ASC 584 Asian American Women
 ENG 625 Gender and 19th Century American Literature
 ENG 875 Feminist Theory
 HIS 120 Race, Gender, and Ethnicity in the Formation of National Identity in Modern Latin America
 MLS 101/
 SOC 101/
 HIS 110 Introduction to Women's & Gender Studies
 HIS 225 Women in American History
 SPA 234 Women Writers from Spanish America
 PHI 268 Feminist Philosophy
 SOC 626 The Psychology of Women
 SOC 115 Sociology of Gender
 SOC 117 Family Violence
 SOC 121 Sociology of Family
 SOC 224 Women and the City
 CRIM 234 Women and Crime
 SOC 420 Special Topics (Gender, Race, Class and Cinema)
 THE 430 Women and the Christian Tradition
 THE 431 Women, Children and Justice (The distance learning section of this course is restricted to students in the Global Development and Social Justice Concentration)

Students in the concentration in Women's and Gender Studies may also register for MLS 204: Independent Research in Liberal Arts

Students in the concentration in Women's and Gender Studies may register for other courses only with the prior approval of the Program Director.

Interdisciplinary Studies

- MLS 100 Introductory Seminar in Liberal Studies
 MLS 200 Integrating Seminar in Liberal Studies
 A majority of the courses (27 credits) in an area of concentration/related areas, as approved by the Director.

Division of Library and Information Science (LIS)

The Division of Library and Information Science offers programs of study leading to the Master of Library Science degree, double master's programs with the Departments of Government and Politics and Pharmaceutical Sciences and the Advanced Certificate in Library and Information Studies.

Accreditation

The graduate program in library and information science leading to the M.L.S. degree is accredited by the American Library Association and the curriculum has been registered and approved by the New York State Education Department.

Programs of Study

Master of Library Science

The M.L.S. degree program is suitable for students interested in many different types of libraries, including law, public, academic, school and special libraries as well as archives and information centers. There are five core courses and other requirements which must be selected in consultation with the student's advisor. The student completes the program by completing 12 courses, and successfully completing a comprehensive examination.

Persons who have the M.L.S. degree and wish to update their professional education may pursue an Advanced Certificate. The program is custom-designed for each student's specific needs.

Entrance Requirements

Applicants seeking admission to the M.L.S. program must submit the following evidence of their ability to pursue graduate study in library and information science:

1. A baccalaureate degree from an accredited college or university. Their undergraduate scholastic achievement must be such as to give reasonable assurance of success in work for an advanced degree. Normally, this will be a "B" (3.0) both in the general average and in the major field. An applicant whose grade-point average is below 3.0 may submit an official copy of his/her (General) GRE score report to support his or her application. Baccalaureate preparation should include courses in the sciences, humanities and social sciences, with a concentration in at least one of these areas.

Applicants intending to meet New York State Education Department requirements for certification as School Library Media Specialist (K-12) must also present evidence of having completed a mandated sequence of coursework in the liberal arts and sciences and in pedagogy. Students not fulfilling all of these prerequisites may be required to complete additional courses in order to meet the qualifications for certification. A list of these courses will be provided to interested applicants.

2. Two letters of recommendation from instructors, librarians or equivalent.
3. A personal interview with the Director or a designated member of the faculty.
4. A statement of professional goals must be submitted by the applicant.
5. It is expected that the student will have basic computer skills in word-processing and use of electronic mail and Internet browser software upon entering the program. These competencies can be acquired prior to entering the M.L.S. program or by attending computer-training workshops either on or off campus.
6. Applicants with degrees from foreign academic institutions may be admitted into the Library and Information Science program provided they meet the University and Division admission requirements.

The division requires a combined score of at least 500 in the Test of English as a Foreign Language (TOEFL) from applicants whose native language is not English.

General Degree Requirements

The M.L.S. degree program requires all students to satisfy the following:

1. Completion of 36 credits with a minimum of a "B" (3.0) average.
2. Fulfillment of residence requirement by successfully completing 12 semester hours of academic credit during two consecutive academic semesters.

3. Continuous enrollment and completion of all requirements within a period not to exceed five years.
4. Successful completion of a written comprehensive examination and defense of a digital portfolio. The rules governing the application and administration of the examination are found under "Comprehensive Examination" in the Graduate Division of Arts and Sciences section in this bulletin.

Note: Up to six credits may be taken outside the Division with the permission of the Director (Not applicable to students seeking School Media certification.)

Course Requirements

1. Completion of all courses: 203, 204, 205, 211 and 239. Students must also complete at least one of the following management courses: LIS 231, 232, 233, 240 or 243.
2. All students are required to choose a concentration; a list is available on the DLIS Web site. Students must select a concentration before the completion of 24 graduate credits in Library and Information Studies. The faculty advisor and the student will agree on a minimum of four courses which will constitute the concentration and will be recorded on the Student Advisement Checklist. One of these courses will include the management requirement (LIS 231, 232, 233, 240 or 243).

School Librarianship Requirements

The M.L.S. with a concentration in School Librarianship is planned to prepare qualified professionals to teach, research, analyze, produce and supervise the teaching/learning process of a school's library media program.

In order to qualify for New York State initial and professional certification as a School Library Media Specialist (K-12), the student will complete the following:

1. The 36-credit School Librarianship Program of the Division of Library and Information Science, approved by the New York State Department of Education;
2. Observation of school library media centers (100) hours;
3. Supervised internship (LIS 269A; 269C);
4. Successfully pass the state-mandated competency test;
5. Complete a two-hour course in each of the following areas: a) recognition and reporting of child abuse and b) school violence intervention and prevention; and
6. Submit to fingerprinting and criminal history background check as required by the Safe Schools Against Violence in Education Act.

The School Librarianship program consists of the core, specialization and internship.

1. The core consists of 203, 204, 205, 211 and 239 (15 credits).
2. Specialization courses include 121, 126, 217, 234 and 261 (18 credits).
3. The six credits of internship are completed at the adolescent/secondary (LIS 269A) and childhood/elementary (LIS 269C) levels.

Combined Degrees

M.A./M.L.S. Program in Government and Politics/Library Science

Under the administration of the Graduate Division of the College of Liberal Arts and Sciences, the Department of Government and Politics and the Division of Library and Information Science offer a joint program of study leading to the Master of Arts in Government and Politics and Master of Library Science degrees. Depending upon the option chosen, students complete a total of 57 (non-thesis) credits or 54 credits (thesis) rather than the 69 credits (non-thesis) or 66 credits (thesis) required if both degrees are pursued separately.

The combination of the two graduate programs provides students with the opportunity to integrate two complementary bodies of knowledge: government and politics and library science. The graduate program in government and politics supplements the graduate program in library science by broadening and deepening a student's understanding of the governmental structure, institutions, public administration and the political/legal processes, while at the same time mastering contemporary means of accessing and utilizing related information.

Entrance Requirements

Students must meet the requirements of admission to both the Master of Arts in Government and Politics and the Master of Library Science programs as set forth in their respective sections of this bulletin.

Program Requirements

All M.A./M.L.S. students will complete curriculum requirements for each degree with four courses (12 credits) applying to both programs. These exchange courses include:

GOV 205	Modern Political Research
GOV	Concentration Course
LIS 210	Government Information Sources
LIS 265	Online Database Searching and Services

All students must complete written comprehensive examinations in both areas.

M.S./M.L.S. Pharmaceutical Sciences/Library Science

The Division of Library and Information Science and the Department of Pharmaceutical Sciences offer a joint program of study leading

to the M.S. and the M.L.S. degrees. Students complete a total of 57 credits including 24 semester hours in Library and Information Science, 21 semester hours in Pharmaceutical Sciences and 12 exchange credits. The recipient of the M.S. Pharmaceutical Sciences/M.L.S. degree will acquire expertise necessary for a career in pharmaceutical/health science libraries and information centers located in research facilities, hospitals and pharmaceutical companies. Students must meet the requirements of admission to both the M.S. and M.L.S. programs as set forth in their respective sections of this bulletin. Due to curriculum revisions, prospective students are encouraged to contact the division for information.

Advanced Certificate: Library and Information Studies

The sixth-year Advanced Certificate program provides an opportunity for practicing librarians and information specialists to update their skills by completing advanced coursework tailored to their professional interests and needs. In consultation with an advisor, professionals select courses in areas as diverse as digital libraries, information ethics, language structure and thesaurus development, legal information, telecommunications technology and policy, preservation technology and metadata for information professionals. The program offers a multidisciplinary approach geared to the individual student by drawing upon related courses from other units of the University. Credits may be elected from outside the division but within the University in a related subject area.

Admission Requirements

Applicants must submit evidence of having completed the M.L.S. degree, a personal statement and two letters of recommendation.

Certifications

School Librarian

In order to qualify for certification as a School Librarian (K-12) from the New York State Education Department (NYSED), a student must complete the M.L.S. degree following the School Media Specialist Program outlined in this bulletin. This includes all academic coursework, field-experience, internship, testing, external courses and background check/fingerprinting mandates. With the completion of all requirements, the application to NYSED may be submitted.

Librarians seeking NYSED School Library Media Specialist certification who have received the M.L.S. degree either from St. John's or from another ALA-accredited institution but who have not completed the approved program should contact the Associate Director for information and credentials analysis.

Certification for Public Librarians in New York State

The Professional Certificate will be issued by New York State to St. John's graduates who provide proof of completion of the M.L.S. degree. There is a \$5 fee for the certificate which must be included with application.

Experiential Learning

The M.L.S. program faculty encourage students to explore the profession in an experiential, hands-on approach that complements the theoretical base fostered through readings, research and class discussion. To that end, service-learning activities, field trips and individually arranged site visits are required components of many courses and are expected of all students.

Incoming students are expected to demonstrate proficiency in basic computer skills in order to satisfy the requirements for all courses. A self-assessment tool is administered during new student orientation; based upon the results, a student may be required to schedule a session with a lab supervisor in order to be prepared for introductory coursework in the program.

Internships

Field experience is available as part of non-credit or credit-bearing internships. A student may elect to complete an informal, voluntary position within a library, archive, or information center in order to observe and/or participate in the activities of the profession. A paid, compensated position may not double as in internship. Credit-bearing internships are encouraged of all students and are required of those pursuing a concentration leading to school library certification.

Students who complete an internship experience for academic credit register for respective course(s) according to their interest and area of concentration.

Interested students are required to meet with the Internship Coordinator the semester prior to registering for an internship course in order for the field site to be approved and the paperwork completed. The student must be academically eligible in order for the placement to be approved (i.e., all prerequisites must have been satisfied prior to registration). The internship must be completed under the direction of a certified, professionally qualified site supervisor whose credentials have been approved by the Internship Coordinator. All interns are required to complete course paperwork as assigned and attend on-campus meetings as scheduled.

Financial Aid

Qualified graduate library and Information Science students are eligible for assistantships which include tuition remission and a stipend; these assistantships are awarded for service to the division and the libraries of the University, including the Law Library, the Loretto Memorial Library in Staten Island and the main Library on the Queens campus. The Division also offers several scholarships and financial awards to qualified students. In addition, Fellowships have been awarded by the Federal Government and scholarships are available from the New York State Education Department, the Catholic Library Association, the H.W. Wilson Company and other corporations.

Student Assistance

Advising

Each graduate student admitted to the division is assigned an academic advisor from the full-time faculty who should be retained by the student unless he/she elects to change advisors because of professional interest. The advisor must be consulted at least once a semester (prior to pre-registration) to ensure the most effective choice of courses.

Placement

The division regularly provides information on employment opportunities via the student listserv and postings in the department. A placement service is also available from the St. John's University Placement and Career Development Center. Types of placement include:

- Information Industry
- Information Organization
- Legal Information Services
- Children's Services
- Administration and Management
- College and University Librarianship
- Library Systems and Automation
- Community Information Services
- Library Technical Services
- Corporate Information Services
- Online Searching and Services
- Public Library Services
- Health Information Services
- Publishing
- Indexing and Abstracting
- Young Adult Services

Alumni Organizations

Graduates of the Division of Library and Information Science are automatically eligible for membership in the Alumni Association. Alumni serve on division committees and may sponsor such activities as the William A. Gillard lecture.

Beta Phi Mu

Graduates of the Division of Library and Information Science with a superior record and recommended by the Director are eligible for membership in Beta Phi Mu.

Courses

Detailed course descriptions are available on the Division of Library and Information Science Web site: www.stjohns.edu/libraryscience.

Required Fundamentals Course

204 Introduction to Library & Information Science

Co-requisite: LIS204L A survey of the field including theory/practice, historical trends/developments, computer-based and other information systems and societal concerns. Must be taken as one of the first two courses. *Credit: 3 semester hours.*

Required Core Courses

203 Information Organization

Co-requisite: LIS 203L. Theories, systems, and practices of information organization. Emphasis on understanding the basic function of library catalogs, indexes, metadata, finding aids and Internet search engines. *Credit: 3 semester hours.*

205 Information Sources & Services

Scope, organization, and evaluation of reference sources and services, with emphasis on information use and retrieval in a virtual environment and contemporary models of service delivery. *Credit: 3 semester hours.*

211 Collection Development & Management of Knowledge Resources

Prerequisite: LIS 204. Philosophy and methods of managing collections in physical and virtual libraries, with emphasis on assessing and meeting information needs. May include a service learning requirement. *Credit: 3 semester hours.*

239 Research & Evaluation Methods

Social science research methods applicable to program evaluation and library and information science research; topics include research ethics, research design, literature reviews, data analysis, and reporting research to general and specialized users. *Credit: 3 semester hours.*

Elective Courses

121 Literature & Related Resources for Children

A survey of books and other materials for children, with emphasis on selection criteria, developing evaluation skills, familiarity with award-winning titles and book presentation. *Requires fieldwork. Credit: 3 semester hours.*

125 Library Materials & Services for Young Children

Materials and services for the young child (infant through preschool), Theories underlying services. Selection, analysis and presentation of books, and other appropriate materials. *Requires fieldwork. Credit: 3 semester hours.*

126 Literature & Related Resources for Young Adults

A survey of books and other materials for young adults, with emphasis on selection criteria, developing evaluation skills, familiarity with award-winning titles and book presentation. *Requires fieldwork. Credit: 3 semester hours.*

127 Library Services for Children and Young Adults

Serving children in the public library, with emphasis on user needs, storytelling and book talk skills, programming, information services, policies and guidelines, and maintaining collections. *Requires fieldwork. Credit: 3 semester hours.*

153 Information Sources in Religion

Reference works, Internet sources, publishing, and libraries in the field of religion. Treatment of religion in general information sources; specialized concordances, bibliographies, indexes. *Credit: 3 semester hours.*

210 Government Information Sources

Prerequisite: LIS 205. Government information resources at the local, state, national, and international levels. Selection, organization, and dissemination; changes in distribution policies and format. *Credit: 3 semester hours.*

217 Multimedia & Technology Resources for School Media Centers

Prerequisites: LIS 204, 205, 261.
Co-requisites: LIS 217L The knowledge and skills to select, plan, produce, and implement various forms of multimedia and technology in the educational process in order to deliver effective academic programs K-12. *Credit: 3 semester hours.*

220 Law and Libraries

Explores the legal issues affecting libraries, the relevant law and its sources, the implications for libraries and others, and how to research and analyze them. *Credit: 3 semester hours.*

221 Planning and Delivering Information Literacy Programs

Theory and practice of user education with emphasis on developing information literacy programs. Standards, guidelines, instructional models, effective pedagogical techniques, collaboration and assessment. Planning, delivery and evaluation of instructional programs designed to develop lifelong information literacy skills. *Credit: 3 semester hours.*

222 Materials & Services to Diverse Populations

Information needs of diverse populations, including the aged, illiterate, individuals with disabilities, and racial, ethnic, and linguistic minorities. *Credit: 3 semester hours.*

223 Preservation Technology in Library & Information Science

Preservation techniques for materials in collections; basic structure and weaknesses; diagnostic and treatment practices; application of appropriate and creative solutions to preservation problems. *Credit: 3 semester hours.*

224 Language Structure & Thesaurus Development

Applied linguistics for information organization and retrieval, with focus on the design of structured controlled vocabularies (thesauri) for indexing and searching. *Credit: 3 semester hours.*

225 Classification Schemes & Information Architecture

Classification schemes for arrangement of physical and virtual collections; distinctions between classification and categorization and folk taxonomies. Analysis and design of information architecture of Web sites. *Credit: 3 semester hours.*

228 Indexing and Abstracting

Prerequisites: 203 or 204. Theory/methods of information analysis for retrieval. Subject analysis, abstract preparation, vocabulary control methods/devices, specialized systems, machine-aided and automated indexing. *Credit: 3 semester hours.*

230 Introduction to Digital Libraries

The contextual framework for digital libraries including the creation, structure, access and use of digital information. Analysis of digital library projects. *Credit: 3 semester hours.*

231 College & University Libraries

Academic library administration, planning, staffing, and evaluation. The history of higher education and the college library in the U.S. The impact of demographic and social changes on the provision of service. *Credit: 3 semester hours.*

232 Special Libraries & Information Centers

The goals, organization, operation, environment, functions, and services of special libraries/information centers; collection issues, user services, management, and marketing. *Credit: 3 semester hours.*

233 Public Libraries & Community Information Centers

The objectives, organization, and services of contemporary public libraries, including the ways in which they serve diverse communities and reach underserved populations Field trips may be required. *Credit: 3 semester hours.*

234 School Library Management

Prerequisites: 204, 205, 211. Administration of the academic program, services, collection, staff, and budget of the school library media center. Planning, research, and evaluation methods for compliance with state and national standards. *Credit: 3 semester hours.*

235 Advanced Cataloging: Metadata for Libraries

Prerequisite: 203. Special problems in the organization of print and non-print materials and electronic resources, with emphasis on authority control and metadata for resource description and retrieval. *Credit: 3 semester hours.*

236 Systems Analysis & Library Automation

Design, selection, implementation and management of automated library systems, including integrated systems for acquisitions, cataloging, circulation, and management of information resources. *Credit: 3 semester hours.*

237 Metadata for Information Professionals

Metadata applications in a variety of information environments, libraries, archives, museums, and information centers. Major metadata schemes, encoding standards, and structures. *Credit: 3 semester hours.*

238 Web Design for Libraries & Information Centers

An information architecture approach to the design of web sites for large enterprises. Topics include information content, organization, labeling, navigation, searching, usability, and accessibility. *Credit: 3 semester hours.*

240 Management of Libraries & Information Centers

Leadership and management principles relating to the operation of libraries and other information enterprises. Leading, planning, evaluating, staffing, housing, equipping, and financing. *Credit: 3 semester hours.*

243 Law Library Administration

Law library administration from strategic and short-term planning to budgeting, personnel management, facilities planning, CLE and record management, organizational structures and technology integration. Issues will be examined from academic, corporate and private law firm perspectives. *Credit: 3 semester hours.*

245 Special Collections Librarianship & History of the Book: Principles and Practices

The organization, administration, service, and care of special collections, with an emphasis on rare books. The history of books and printing, non-book formats, donor relations and collecting, conservation and preservation, ethics, access, security, exhibitions and digitization. *Requires fieldwork. Credit: 3 semester hours.*

246 Practical Conservation & Preservation of Library Materials

A practical approach to the principles and applications of conservation and preservation of library materials as daily functions of library management, including digital techniques. *Credit: 3 semester hours.*

247 Networks in Library & Information Science

Introduction to the tools, resources, and information systems available through networks linked by the Internet. Network architecture, local area networks and bibliographical utilities are explored. *Credit: 3 semester hours.*

248 Database Applications, Modeling & Design

The fundamental concepts and issues of database management systems. Topics include entity and relationship modeling, SQL, relational database design, data integrity, and XML. *Credit: 3 semester hours.*

249 Archives & Manuscripts: Basic Functions & Current Issues

Management of archives and manuscript repositories, including basic functions and skills required of an archivist or curator of manuscripts as well as current issues and topics. *Credit: 3 semester hours.*

250 Information Sources in the Arts & Humanities

Prerequisite: 205. Evaluation, selection and use of print and electronic (esp. digitized) resources in the arts and humanities (philosophy, religion, literature, the fine arts, the performing arts, and film). *Credit: 3 semester hours.*

251 Information Sources in the Social & Behavioral Sciences

Prerequisite: 205. Evaluation, selection, and use of print and electronic resources in the social and behavioral sciences (sociology, history, government, education, psychology, anthropology, business, economics). *Credit: 3 semester hours.*

252 Information Sources in Science & Technology

Prerequisite: 205. The structure and literature of scientific and technical communication. Print and electronic references are examined. A background in the sciences is not required or assumed. *Credit: 3 semester hours.*

254 Legal Research

Prerequisite: LIS 205. Basic tools and techniques of legal research using electronic and print sources. Primary and secondary sources of law; deciphering of citations; finding legal and business-related materials with cost-efficient techniques. *Credit: 3 semester hours.*

255 Advanced Legal Research

Prerequisite: LIS 254. Complex legal research problems such as corporate research; patent prosecution, international and foreign law research; coordinated approaches to tax research, labor and employment law. Advanced WESTLAW, LEXIS and BLOOMBERG LAW training. *Credit: 3 semester hours.*

256 Medical Information & Librarianship

Prerequisite: 205. Major reference works and Internet resources in health sciences as well the administration and organization of medical libraries, with emphasis on the databases of the National Library of Medicine. *Credit: 3 semester hours.*

260 Information Use and Users

Prerequisite: 204. Survey/seminar on how LIS practitioners and researchers seek to understand user information needs/behaviors. Emphasis on theories of user needs and information use. Populations discussed include children, business managers, attorneys, scientists, university students, general researchers, and consumers. *Credit: 3 semester hours.*

261 Information Sources and Services for Children & Young Adults

Non-fiction and reference sources and services in school and public libraries as they relate to curriculum support and information literacy. Focus on the child as reference interview participant/learner. *Credit: 3 semester hours.*

262 Advanced Information Sources & Services

Prerequisite: 205. In-depth examination of reference sources and services. Emphasis on the historical and continuing role of print resources; e-reference; impact of Google; information behavior, and information literacy. *Credit: 3 semester hours.*

263 Information Ethics

The ethical challenges experienced by information providers in the past and present: possible ethical dilemmas of the digital future. How information providers make choices in a variety of contexts. *Credit: 3 semester hours.*

264 International Librarianship

History, development, and current status of libraries worldwide. Social Justice, Poverty, literacy, information access, the impact of war and natural disasters, information policies, and intellectual and financial limitations. *Credit: 3 semester hours.*

265 Online Database Searching

Prerequisite: 205. Study and use of online bibliographic databases in a wide variety of subject areas. Emphasis is on appropriate database selection, search strategies, and information delivery modes. *Credit: 3 semester hours.*

267 Information Sources in Business & Economics

Prerequisite: 205. Print and electronic information resources and services in business, economics, finance, and related literature. Organization, administration, and services of business libraries/ information centers. *Credit: 3 semester hours.*

269 Internship

Prerequisites: All required courses and preferably all courses in the concentration. A supervised professional experience combining theory and practice in a library or information center. Meetings and reports required; may be taken for a total of six credits. *Credit: 1, 2, or 3 semester hours.*

269A School Media Center Internship: Adolescent

Prerequisites: All courses and field experience. A supervised professional experience combining theory and practice in a 7-12 school library media center. Meetings of participants are held and reports required. *Credit: 3 semester hours. each semester.*

269C School Media Center Internship: Childhood

Prerequisites: All courses and field experience. A supervised professional experience combining theory and practice in a K-6 school library media center. Meetings of participants are held and reports required. *Credit: 3 semester hours.*

270 Colloquia

Current issues and trends in library and information science as well as other topics of current interest are presented by prominent outside speakers, alumni, and members of the faculty. *No credit.*

271 Special Topics in Library & Information Studies

A special topic on an issue not normally covered in the MLS curriculum will be examined in-depth. The format will depend upon the topic to be covered. Offered occasionally. *Credit: 3 semester hours.*

272 Exploring New York Libraries

Field trips to outstanding libraries of the New York metropolitan area that embody exceptional service, architecture, technology, and collections. Final project is required. Summer course. *Credit: 3 semester hours.*

281 Competitive Intelligence

Monitoring the external environment to obtain and use primary and secondary information that is relevant for the institutional decision-making process. Identification, selection, collection, interpretation and distribution of information with strategic importance. *Credit: 3 semester hours.*

282 Knowledge Management

The process and practice of facilitating the generation, sharing, acquisition and application of knowledge in an organization; dissemination according to needs and preferences of stakeholders. *Credit: 3 semester hours.*

901 Special Research & Projects I 902 Special Research & Projects II

The formal presentation of a research paper or project (survey, history, bibliographic essay, etc.) resulting from investigation of a problem under the direction of a member of the faculty. *Credit: 3 semester hours.*

925 Maintaining Matriculation

Master's students who are not registered for other courses must register for 925 until degree requirements are completed and the degree is granted. *Fall-Spring only. No credit. Fee: \$50*

300 Field Experience

Prerequisites: All required courses and preferably all courses in the concentration. Fieldwork involving observation of professional activities in a library, information center, or archive setting. Resulting in a project that addresses an issue in the field. *Credit: 1 semester hour.*

301 Government Information on the Web

Prerequisite: 205. Electronic sources for government information at all levels. Emphasis on Web sites and Internet portals providing access to the publications, periodicals, and databases of government agencies. *Credit: 1 semester hour.*

302 Genealogical Sources & Services

Prerequisite: 205. Sources and services to assist patrons with genealogical research. Research methodology, conducting the reference interview, and the use and evaluation of print and electronic resources. *Credit: 1 semester hour.*

303 Dublin Core Metadata

Prerequisite: LIS 203. Goals, major concepts, and elements relating to the application of Dublin Core Metadata for information organization. Schemes, encoding standards, functions, syntax, content, and structure. *Credit: 1 semester hour.*

304 Librarian as Teacher

Prerequisite: LIS 205. The role of the librarian as teacher; knowledge and skills necessary for instruction and training in library and information settings. Issues and strategies for effective instruction. *Credit: 1 semester hour.*

305 Online Reference Service

Prerequisite: LIS 205. Electronic reference: email and chat services. Special circumstances, policies/practices, copyright concerns, development of online training modules Participation in mock chat and email reference required. *Credit: 1 semester hour.*

307 Introduction to Music Librarianship

Prerequisite: LIS 205. Overview of reference sources and services, organization of information, and collection management for music libraries and collections. *Credit: 1 semester hour.*

308 Book Index Structures: In Print & on the Web

Prerequisite: LIS 204 or 203. Preparation of book indexes, covering indexable matter, structure of index entries, cross references, filing, format, and indexer-publisher relations. Manual and computer-assisted techniques. *Credit: 1 semester hour.*

309 Case Studies in Librarianship

Prerequisite: LIS 204, 205, 211, and a management course. Problem-solving and decision-making strategies through the use of case studies addressing issues germane to public, academic and special libraries as well as archives and other information centers. *Credit: 1 semester hour.*

For a complete listing of approved courses, please contact the Dean's office.

Department of Mathematics and Computer Science (MTH CSC)

Programs of Study: Master's Program

Entrance Requirements

The undergraduate preparation necessary for graduate work in this department is a major sequence in mathematics. Where there is a deficiency, the Educational Policy Committee of the department will determine the courses the applicant must take in order to matriculate for the master's degree. It is recommended that a prospective student complete a major comparable to that of the undergraduate program at the University. Students with foreign academic credentials may be required to submit GRE scores; all such students are strongly advised to do so. Specific information may be obtained by writing to the Coordinator of Graduate Advisement, Prof. Charles Traina, c/o the Department of Mathematics and Computer Science.

Undergraduate students exceptionally qualified may, with the approval of the appropriate Deans and the department, elect to take graduate courses for deferred credit towards the M.A.

The Program

There are two tracks of study: 1) a traditional track, designed to prepare M.A. candidates for further study on the doctoral level or to serve as their terminal degree; and 2) a "teacher" track that provides M.A. candidates with the "nuts and bolts" of mathematics that are essential for presenting the subject in a clear, relevant manner.

Core Courses

Traditional Track

MTH 307;308	Real Variables I, II	6 cr.
MTH 207;208	Complex Variables I, II	6 cr.
MTH 211	Modern Algebra I	3 cr.
MTH 226	Point Set Topology	3 cr.

Teacher Track

MTH 103;104	Advanced Analysis I, II	6 cr.
MTH 121	Modern Geometries	3 cr.
MTH 211	Modern Algebra I	3 cr.
MTH 215	Number Theory I	3 cr.

M.A. candidates may select their remaining courses for either track in consultation with their departmental advisor.

Applied and Computational Mathematics Track

MTH 103;104	Advanced Analysis I, II	6 cr.
MTH 161	Introduction to Probability	3 cr.
MTH 162	Introduction to Math, Statistics and Statistical Inference	3 cr.
MTH 165	Introduction to Computing with Applications	3 cr.
MTH 167	Mathematical Modeling I	3 cr.
MTH 174	Computer Simulation Methods I	3 cr.
MTH 180	Computer Algorithms	3 cr.
MTH 207; 208	Computer Variables I, II	6 cr.
MTH 217	Theory of Differential Equations I	3 cr.
MTH 235	Numerical Analysis I	3 cr.
		Total: 36 cr.

Candidates for the M.A. degree in mathematics also may choose between a thesis or non-thesis option:

Thesis option (recommended for students planning to pursue doctoral study):

30 semester hours in courses, including MTH 307, 308 and a Master's Research course (MTH 900, 6 credits).

Students select the remaining courses with the approval of their faculty advisor.

Non-thesis Option:

33 semester hours in courses, including MTH 307 and 308.

Students select the remaining courses with the approval of their faculty advisor.

Whether students choose the thesis or non-thesis option, the department recommends that first-year students take MTH 207 and 208. Second-year students are urged to take MTH 307 and 308. In addition, students in the thesis and non-thesis options take their written master's comprehensive examinations in Complex Variables, Linear Algebra and a topic selected by the student. For the oral comprehensive examination, students select one other area.

Combined Degrees: B.A./M.A.

The Department offers an intensive, accelerated combined degree program leading to both the B.A. and M.A. degrees in mathematics in five years of full-time study. Qualified undergraduates who have completed their sophomore year with a 3.3 cumulative index and a 3.25 index for 12 credits in mathematics are encouraged to apply. For specific information, students should consult with the Department B.A./M.A. Advisory Committee.

Courses

Algebra and Number Theory

209 Linear Algebra I

An advanced treatment of the basic concepts of linear algebra; vector spaces, linear transformations, matrices, inner-product spaces. *Credit: 3 semester hours.*

211; 212 Modern Algebra I, II

The fundamentals of abstract algebraic structures; groups, rings, ideals, fields, field extensions and Galois Theory. *Credit: 3 semester hours.*

215; 216 Number Theory

Factorization, divisibility, congruence, arithmetic functions, distribution of primes, Diophantine equations and approximation, basic algebraic number theory. *Credit: 3 semester hours.*

Analysis and Topology

103;104 Advanced Analysis

This course is intended to bridge the gap between Advanced Calculus and Real Variables; basic concepts of analysis are discussed. *Credit: 3 semester hours.*

207; 208 Theory of Functions of a Complex Variable

Prerequisite: Advanced Calculus or MTH 103;104 or permission of instructor. Fundamental ideas of complex analysis, analytic functions, elementary functions, Cauchy integral theorems, residue theory, conformal mapping, analytic continuation, representation of regular functions by series, mapping of polygonal domains, applications of the theory of residues, Mittag-Leffler's theorem, Weierstrass's theorem, Reimann mapping theorem. *Credit: 3 semester hours.*

226; 227 Point Set Topology

General notions of topological spaces and metric spaces including metrization theory and function spaces. *Credit: 3 semester hours per semester.*

307; 308 Theory of Functions of a Real Variable

Prerequisite: MTH 103;104 or permission of instructor. Real number system; continuous and differentiable functions; metric and Hausdorff spaces; measure and integration; differentiation; introduction to functional analysis. *Credit: 3 semester hours.*

325; 326 Functional Analysis

Prerequisite for MTH 325 Linear Algebra and Advanced Calculus. MTH 325 is a prerequisite for MTH 326. Metric, Banach and Hilbert spaces, the principle of uniform boundedness, Hahn-Banach Theorem, topological vector spaces, convexity. *Credit: 3 semester hours.*

Applied Mathematics

150 Introductory Combinatorics

Introduction to combinatorial mathematics and its applications with an emphasis on techniques of enumeration. *Credit: 3 semester hours.*

167 Mathematical Modeling I

The study of mathematical model building with application to the social and life sciences. *Credit: 3 semester hours.*

168 Mathematical Modeling II

Prerequisite: MTH 167 or permission of instructor. Further study of topics in mathematical modeling; provision for individual student projects. *Credit: 3 semester hours.*

172; 173 Operations Research I, II

A survey of operations research methods for problem solving, with an emphasis on formulation, solution and decision analysis; linear programming; general mathematical programming techniques; scheduling and allocation problems; optimal decision-making in an uncertain environment, inventory theory; Markov chains and queueing theory; application of optimization techniques. *Credit: 3 semester hours per semester.*

213 Applied Algebra

Groups, rings, finite fields and other topics selected from modern algebra for their applicability to the study of computer science. *Credit: 3 semester hours.*

217; 218 Theory of Differential Equations I, II

Prerequisite: Advanced Calculus or MTH 103;104 or permission of instructor. Study of well-posed ordinary and partial differential equation problems; exact and approximate methods of solution; equations and functions of mathematical physics. *Credit: 3 semester hours.*

235; 236 Numerical Analysis

Weierstrass's polynomial approximation theorem, polynomial interpolation, Newton's divided differences, ordinary differences, cubic interpolation with modified differences, numerical differentiation, numerical integration, Gaussian quadrature, initial value problems in ordinary differential equations; Milne's method, Runge-Kutta method, Boundary value problems, systems of linear algebraic equations, matrix inversion, eigenvalue problems, zeros of functions. *Credit: 3 semester hours.*

250; 251 Applied Analysis I, II

Review of linear spaces, spectral theory of operators, distributions and Green's functions, boundary value problems of ordinary and partial differential equations. *Credit: 3 semester hours.*

360; 361 Topics in Applied Mathematics I, II

Topics to be selected by the instructor from areas of contemporary mathematical interest. *Credit: 3 semester hours.*

Probability and Statistics

161 Introduction to Probability

Prerequisite: Integral Calculus. Probability spaces, elementary and general; random variables and their probability distributions; distribution functions; density functions. *Credit: 3 semester hours.*

162 Introduction to Mathematical Statistics and Statistical Inference

Prerequisite: MTH 161 or permission of instructor. Random sampling, the law of large numbers, estimation of parameters; statistical inference and decision procedures; applications. *Credit: 3 semester hours.*

231; 232 Probability

Prerequisite: Advanced Calculus or MTH 103;104. A study of the mathematical theory of probability from the measure theoretical, frequency and subjective points of view; special distributions, characteristic functions, limit theorems, stochastic processes. *Credit: 3 semester hours.*

233;234 Mathematical Statistics

Prerequisite: Introductory Probability or Statistics and Introductory Linear Algebra or consent of the instructor. An advanced treatment of the basic theory of statistics within a unified framework; the concept of statistical inference, sampling theory, parametric estimation and hypothesis testing, correlation and regression, distribution-free methods and non-parametric problems. *Credit: 3 semester hours.*

Set Theory and Logic

220 Foundations of Mathematics

Sets of axioms and their properties, mathematical systems. Introduction to various schools of mathematical thought. *Credit: 3 semester hours.*

121 Modern Geometries

Axiomatic systems. Study of Euclidean and non-Euclidean Geometries. *Credit: 3 semester hours.*

403;404 Seminar I, II

Topic to be arranged. *Credit: 3 semester hours.*

900 Master's Research

Supervised research leading to the preparation and completion of a thesis in partial fulfillment of the master's degree requirements. *Credit: 3 semester hours.*

925 Maintaining Matriculation

Master's students who are not registered for other courses must register for MTH 925 until all degree requirements are completed and the degree is granted. *No Credit. Fee: \$50 per semester.*

For a complete listing of approved courses, please contact the Dean's office.

Department of Psychology (PSY)

The Department of Psychology offers a Doctor of Philosophy (Ph.D.) program in Clinical Psychology, a Master of Arts (M.A.) program in General-Experimental Psychology and Master of Science (M.S.) and Doctor of Psychology (Psy.D.) programs in School Psychology. The Ph.D. program in Clinical Psychology is fully accredited by the American Psychological Association. The Ph.D. program in Clinical Psychology offers two tracks of study: a general course of study in clinical psychology (General track) and a subspecialty track which offers advanced training in clinical child psychology (Clinical Child track). The M.S. and Psy.D. programs in School Psychology also offer two tracks of study: a general course of study in School Psychology (General track) and a subspecialty track in bilingual school psychology (Bilingual track).

General Admission Requirements

Admissions to the Ph.D., Psy.D. and M.S. programs are for the Fall semester only. Applications for Fall admissions must be completed as follows:

Ph.D., January 15

Psy.D., January 15

M.S., May 1

Applications to the M.A. program are accepted throughout the year. Admissions to the M.A. program are for the fall and spring semesters. Students admitted in the Spring semester are limited to six credits for that semester because most subject areas are covered in one-year course sequences.

Applicants for all degree programs must:

1. Possess a baccalaureate degree.
2. Satisfy the department that his or her undergraduate preparation indicates a high potential for successful advanced study in psychology.
3. Submit transcripts of undergraduate and any prior graduate work.
4. Have completed a minimum of 24 undergraduate credits in psychology, including courses in Introductory Psychology, Statistics and a laboratory course.
5. Submit three to five letters of recommendation, one of which must be from an individual who will address the matter of the applicant's research potential.
6. Submit two papers from psychology courses: one a laboratory paper and one a term paper.
7. Provide a clearly written statement of educational and professional goals.

Applicants for the Ph.D., Psy.D. and M.S. programs must submit acceptable scores from the Graduate Record Examinations (Verbal and Quantitative). Applicants who did not either major in psychology or complete a graduate degree in psychology must also submit acceptable scores on the subject (Psychology) section of the Graduate Record Examination. In addition, one or more interviews by the departmental admissions committee may be requested of applicants to the Ph.D., Psy.D and M.S. programs.

Those students currently matriculated for a master's degree at St. John's University who are interested in the University's doctoral programs must follow the procedure outlined for new applicants. Students accepted for admission to a doctoral program with any course deficiencies must remove these deficiencies prior to matriculation. Students accepted for admission to a master's program with any course deficiencies should attempt to make up these deficiencies prior to starting the program; however, it is possible to make up certain deficiencies within the first year of graduate work. Deficiencies may be completed during the summer preceding matriculation by

enrolling in appropriate undergraduate or 100-level courses. Credit toward the degree will not be awarded for any courses used to remove deficiencies.

The Ph.D. program in Clinical Psychology requires that students maintain full-time status for the duration of the program. Although full-time status is preferred for all other programs, the Psy.D., M.S. and M.A. program may be undertaken on a part-time basis with a *minimum* of six credits per semester.

Programs of Study

Clinical Psychology Doctoral Program

General Program Requirements

The Doctoral Program in Clinical Psychology requires four years of full-time coursework and practicum experience in addition to successful completion of a comprehensive examination, clinical internship, Master's thesis and dissertation (PSY 950, Doctoral Research). Students are evaluated after completing each level to determine their eligibility to progress to the next level.

The program is designed to provide a logical progression of coursework over year I-IV. The first two levels are directed at imparting the basic principles and skills in assessment, statistics, foundations, psychotherapy and research methodology. The student is expected to submit a dissertation proposal for approval during year III; mentor approval of the proposal is required prior to submission of internship applications. The student's progress toward completion of the dissertation requirement will be evaluated each semester; failure to make satisfactory progress may result in termination from the program.

Students begin their clinical practicum training during Levels I-II at our training clinic, the St. John's University Center for Psychological Services. During Levels III and IV there is further development of various clinical skills through concentrated work in clinical externship settings and related coursework and continuation of clinic practicum work at our training clinic. The comprehensive examination must be taken in the Summer preceding Level IV. Students will be afforded two opportunities to pass the examination and successful completion of the exam is required for continuation in the program. Upon passing the exam, the student must register for Doctoral Research (PSY 950, 3 credits) in the spring of Level IV and each semester thereafter.

The fifth year of the program is normally devoted to a full-time clinical internship which has been approved by the department. During the internship year, the student must register for PSY 903 and PSY 904 (which carry no academic credit) and PSY 950 (1 credit). There is a charge of \$100 per semester for PSY 903 and PSY 904. Instead of embarking on an intern-

ship during the fifth year, students may elect to work toward completing their dissertation research and defer their internships for a year. Clinical child track students must complete an approved internship that has a substantial concentration in clinical work with children, adolescents or families.

Students elect, at the point of application to the program, one of two tracks of study within the Clinical Psychology program in which they can pursue more concentrated training opportunities: (1) the general track; or (2) the clinical child track. Students in either track of study may take additional (elective) coursework from among the required courses offered in the other track.

Program Requirements

Courses are divided into five areas of specialization:

- a. Foundations
- b. Research and Methodology
- c. Personality, Social Behavior and Abnormal Behavior
- d. Assessment
- e. Psychotherapy

These areas are progressively developed over the five levels of the program. The following is a breakdown, by area of specialization, of the required courses in the program.

- a) **Foundations:** These offerings are designed to transmit a basic fund of knowledge relating to the history and science of the discipline.

617 Cognitive Psychology and Affective Bases of Behavior
648 Physiological Psychology
650 History and Systems of Psychology

- b) **Research and Methodology:** These courses provide instruction in research and methodology with the aim of understanding basic research, designing investigation procedures and applying research to help solve personal and social problems.

608 Statistical Design in Research
609 Research in Clinical Psychology
614 Multivariate Design and Analysis for Psychological Research
659 Psychological Measurement and Scaling
908 Master's Research
950 Doctoral Research

- c) **Personality, Social Behavior and Abnormal Behavior.**

622 Social Psychology
624 Developmental Psychology II
627 Cultural Diversity in Psychological Services
726 Psychopathology I
727 Psychopathology II

- d) **Assessment:** Evaluation of people using the skills of observation, interviewing and psychological testing; the theory, development, reliability, validity, appropriate usage, administration, scoring, interpretation and reporting of the results of the assessment techniques.

635 Objective Personality Assessment, or
835 Neuropsychological Assessment
660 Assessment I (Intelligence Testing)
663 Assessment II (Personality Assessment)
668 Assessment Lab I
670 Assessment Lab II

- e) **Psychotherapy:** Theory, research, techniques and supervised experience in various psychotherapeutic methods.

631 Psychoanalytical Psychotherapy
658 Professional and Ethical Issues
741 Assessment and Intervention Practicum I, III
742 Assessment and Intervention Practicum II, IV
750 Behavior Therapy
760 Marital and Family Therapy (Clinical Child Track)

Clinical Psychology Tracks

Note: Students must take either Neuropsychological Assessment (835) or Objective Personality Assessment (635) as one of their elective courses.

School Psychology Doctoral Program

Admission Requirements

The Doctoral Program in School Psychology requires four years of full-time coursework and practicum experiences, the successful completion of Professional Competency Comprehension exam, a full-time, one year School Psychology internship, and a disserta-

tion Project for a total of 105 credits.

The program is designed to provide a logical progression of coursework over years one to four. Students are expected to submit a dissertation proposal during year four. In the fifth year of the program, students complete their full-time internship and continue to enroll in PSY 950, the dissertation course. If their dissertation is not completed, students must remain enrolled in PSY 950 until the dissertation is completed, however only three credits count towards the 105 credits regardless of how many semesters they enroll in PSY 950.

In addition to the general admission requirements for the department's doctoral programs, the faculty seek applicants to the Psy.D. program who possess (a) excellent interpersonal skills and the ability to get along with others; (b) excellent ability to handle scientific and professional disagreements in a respectful manner; (c) interest in providing psychological services to children, adolescents and their families; (d) intellectual curiosity and a commitment to lifelong learning; and (e) a commitment to building psychological practice on sound and empirically verified scientific principles.

The School Psychology Doctoral Program has two tracks: the General track and the Bilingual track. The Bilingual track trains psychologists who are fluent in a language in addition to English to deliver psychological services to children of linguistically and culturally diverse groups.

Students may be admitted with a master's in school psychology and a permanent or provisional certification in school psychology for advanced standing. These students will be required to take 50 credits. If the student's master's did not include courses that are required for licensure as a psychologist in New York State, the student will be required to substitute these courses for his or her electives. In addition, their elective courses may be used to take courses that the program Director deems were deficient or absent in their School certification education. They must take courses that exist in our program if they did not have equivalent courses in their masters/certification program. Courses required for licensure include: Social (Psy 622); Learning (Psy 616) or Cognition (Psy 617); Physiological (Psy 648) or Biological bases; Scaling and Measurement (Psy 659); and Research Methods (Psy 615). For further information about the Advanced Standing program and course sequence, please contact the program Director.

Students must have completed 48 credits prior to externship (PSY 905/906), as per New York State Regulations.

- 695 Research Colloquium

*Students will work in the Center for Psychological Services and other University approved sites for this practicum.

**Students will work in the Center for Psychological Services and other University approved sites for this practicum.

***Students will be required to spend three days per week in a school setting working under a certified school psychologist who is also a licensed psychologist.

****Students will be expected to spend three days per week in a school, facility or clinic providing services primarily to exceptional children working under a certified school psychologist who is also a licensed psychologist.

*Bilingual Track

Year I

Fall

- 608 Statistical Design in Research
- 661 Psychoeducational Assessment I
- 665 Introduction to School Psychology
- 617 Cognitive and Affective Bases of Behavior
- 695 Research Colloquium

Spring

- 614 Multivariate Analysis for Psychological Research
- 662B Psychoeducational Assessment of Culturally and Linguistically Diverse Children
- 666 Interviewing and Case Formulation
- 671 Child and Adolescent Personality Assessment
- 695 Research Colloquium

Year 2

Fall

- 715 Assessment, Diagnosis, and Remediation of Learning Disabilities Either Psychoeducational Consultation (716) or Behavior Therapy: Assessment, Treatment, and Consultation (749) Either Psychopathology Across the Lifespan I (726) or Psychopathology Across the Lifespan II (727)
- 729 Psycholinguistics and the Practice of School Psychology with Culturally and Linguistically Diverse Populations
- 761B Psychological Assessment Practicum I-Bilingual**
- 695 Research Colloquium

Spring

- 648 Physiological Psychology
- 659 Psychological Measurement & Scaling Either Psychoeducational Consultation (716) or Behavior Therapy: Assessment, Treatment, and Consultation (749) Either Psychopathology Across the Lifespan I (726) or Psychopathology Across the Lifespan II (727)
- 762B Psychological Assessment Practicum II-Bilingual**
- 695 Research Colloquium

**Students will work in the Center for Psychological Services and other University approved sites for this practicum.

Year 3

Fall

- 615 Research Methods in School Psychology
- 752B Bilingual School Psychology Internship Seminar I: Professional Issues Bilingual***
- 622 Social Psychology
- 624 Developmental Psychology I
- 695 Research Colloquium

Spring

- 627 Cultural Diversity in Psychological Services
- 753 School Psychology Internship Seminar II: Psychological Interventions***

Elective

- 695 Research Colloquium
- The comprehensive examination is taken during this semester.

Summer

- 763 School Psychology Intervention Practicum I**

**Students will work in the Center for Psychological Services and other University approved sites for this practicum.

***Students will be expected to spend three days per week in a school setting working under a certified school psychologist who is also a licensed psychologist.

N.B. Students will receive the Master of Science degree in School Psychology at the end of Level III if they pass the comprehensive exam. Students must pass this examination to proceed to Level IV.

Year 4

Fall

- 625 Cross-cultural Psychology
 - 754 School Psychology Internship Seminar III: Nondiscriminatory Assessment and Field Placement****
 - 764 School Psychology Intervention Practicum II**
- Elective
695 Research Colloquium

Spring

- 650 History and Systems
 - 755 School Psychology Seminar IV: Psychological Interventions and Field Placement****
 - 765 School Psychology Intervention Practicum III**
- Elective
695 Research Colloquium
951 Doctoral Research (3 credit)

**Students will work in the Center for Psychological Services and other University approved sites for this practicum.

***Students will be expected to spend three days per week in a school, facility or clinic providing services primarily to exceptional children working under a certified school psychologist who is also a licensed psychologist.

Year 5

Fall

- 905 Internship I
- 951 Doctoral Research (1 credit)
- 695 Research Colloquium

Spring

- 906 Internship II
- 951 Doctoral Research (1 credit)
- 695 Research Colloquium

Electives

Students can take up to three electives outside of the psychology department with the program director's approval. A list of courses outside of the psychology department that have been approved as electives are listed on the program's Web page.

Elective Concentrations

Students can use three of their electives to develop a concentration in an area of study. These elective concentrations will appear as such on students' transcripts.

A) Psychological Interventions – Students who choose this concentration should select three courses from the following:

- PSY 631 Psychoanalytic Psychotherapy I
- PSY 632 Psychoanalytic Psychotherapy II
- PSY 717 Instructional Assessment and Academic Interventions
- PSY 751 Interventions with Developmental Disabilities
- PSY 760 Marital and Family Therapy
- PSY 843 Child and Adolescent Psychotherapy
- PSY 845 Group Therapy
- PSY 850 Cognitive Psychotherapies

B) Juvenile Delinquency – Students who choose this concentration should select three courses from the following:

- SOC 117 Family Violence
- SOC 119 Juvenile Delinquency
- SOC 131 Sociology of Youth
- SOC 147 Personality, Culture and Society
- SOC 227 Criminology

C) Child Language Disorders – Students who choose this concentration should select three courses from the following:

- SPE 203 Models of Language Acquisition
- SPE 318 Developmental Language Disorders
- SPE 320 Language-Based Learning Disabilities
- SPE 321 Communication Assessment and Intervention of Infants and Toddlers

D) Educational Administration and Law – Students who choose this concentration should select three courses from the following:

- EDU 5415 Introduction to Educational Administration
- EDU 5418 Administrative Theory
- EDU 5420 Politics of Education
- EDU 5471 Leadership in Instructional Supervision
- EDU 5571 Administrative Leadership
- EDU 5651 School Community Relations in Education
- EDU 5741 Economics and Financing of Education
- EDU 5791 Legal Aspects in Management and Administration of Schools
- EDU 5795 Student and Teacher Rights in Administration of Schools
- EDU 5810 Administrative Principles and Practices in the Implementation of P.L. 94–142
- EDU 5811 Administration and Supervision of Special Education Services
- EDU 7273 Individualization: Prescribing for Student Learning Styles

E) Reading – Students who choose this concentration should select three courses from the following:

- EDU 3230 Diagnosis and Remediation of Reading and Language Disabilities
- EDU 3240 Methods of Teaching the Language Different
- EDU 3264 Using Literature to Teach Reading and Writing
- EDU 3270 Strategies for Teaching Reading in Content Areas for Grades 3–12
- EDU 3274 Reading Strategies for the Gifted Learner
- EDU 3278 Teaching Literacy Strategies to Students with Special Needs
- EDU 3280 Technology Applications in Reading and Writing

F) Organizational Behavior – Students who choose this concentration should select three courses from the following:

- MGT 223 Human Resource Management
- MGT 232 Innovations in Organizational

Behavior

- MGT 280 Organizational Development: Managing for Change
- MGT 285 Managing and Staffing Virtual Organizations
- MGT 290 E-Commerce Impacts on Organizations
- MGT 295 Seminar in Human Factors in MIS Development, Diffusion and Use

G) Psychological Research – Students who choose this concentration will take the second research methods course in the clinical program (PSY 613). They will also register for PSY 862 for two semesters. This will yield nine credits. For the two semesters of PSY 862 the student will be required to write up a contract with a sponsoring faculty member specifying the activities which will be performed in each of the independent study courses. A paper, suitable for submission to an academic journal, must result from students who take this research concentration. The research topic investigated in this concentration must be sufficiently different from the student's dissertation topic. Students can enroll in this concentration only with the approval of the program director.

H) Neuropsychology – Neuropsychology is the study of brain-behavior relationships. Students interested in this concentration should discuss with a faculty member the requirements for diplomate certification from the American Board of professional Psychology (ABPP) in neuropsychology. Student can enroll in this concentration only with the approval of the Program Director. Students who choose this concentration must take the specific courses listed and have less choice than other concentrations. These courses help students meet the academic requirements set by the American Board of Professional Psychology for the Diplomate in Clinical Neuropsychology.

- PHS 239 Functional Neuroanatomy and Neuropathology (Department of Pharmaceutical Sciences; This course has prerequisites of undergraduate courses in anatomy and physiology.)
- SPE 329 Neuroanatomy and Neuropathology of the Speech System
- PSY 835 Neuropsychological Assessment
- PSY 861 Psychopharmacology or CPP 216 Psychotherapeutics (Department of Clinical Pharmacy Practice)

I) Family Studies

- PSY 760 Marital and Family Therapy
- SOC 121 Sociology of the Family
- SOC 117 Family Violence

J) Bilingual/Multicultural Education

- EDU 9003 Teaching English to Speakers of Other Languages: Reading and Language Arts
- EDU 9005 Teaching English to Speakers of Other Languages: Theory and

Practice

- EDU 9007 Teaching Strategies in the Bilingual Classroom: Reading and Language Arts

K) Management and Organizational Development – Students who choose this concentration should select three courses from the following:

- MGT 223 Human Resource Management
- MGT 232 Innovations in Organizational Behavior
- MGT 280 Organizational Development: Managing for Change
- MGT 285 Managing and Staffing Virtual Organizations
- MGT 290 E-Commerce Impacts on Organizations
- MGT 295 Seminar in Human Factors in MIS Development, Diffusion and Use

Cultural Diversity in the Curriculum

The University maintains the goal of serving all of the people of the New York metropolitan area. Consistent with this goal, the psychology faculty developed a doctoral program that will train School Psychologists to work with the culturally diverse populations that reflect the changing demographics in this region and most other major urban areas. To infuse a multicultural perspective into the curriculum, we created new courses, some of which are required and some of which can be chosen as electives. First, we created a specific course, PSY 627 – Cultural Diversity in Psychological Services, which is required by all students in the bilingual and monolingual tracks. Second, we created alternative courses that emphasize a multicultural/ bilingual perspective. Third, we have infused a multicultural perspective into the syllabi of many courses. A fourth arena that reflects the infusion of cultural diversity into the program is the practica. Students must complete their practica in the Center for Psychological Services, which serves many minority children. The Center for Psychological Services services a local population from Queens and Nassau Counties which include people of all racial, ethnic and economic backgrounds. Internship placements also provide an opportunity to infuse a multicultural perspective. Some of our students are placed in the New York City Board of Education schools.

Professional Practice Competency Examination

Students prepare a professional practice case study for this examination. The case study can be (1) an assessment case; (2) a consultation case with teachers, parents or administrators concerning a classroom, a school-wide or a district-wide consultation; (3) an individual counseling, a group counseling or a crisis intervention case; or (4) the development of a psycho-educational intervention program, a token economy, a crisis intervention program, an

on-going support group, an in-service training program for school staff, or a special education or alternative education program.

Doctoral Dissertation Project

The Psy.D. program is not designed to train researchers. The goal of this program is to train psychologists who can deliver psychological services and review research to help guide their professional practice. The preamble to the 1989 New York State Doctoral Project indicates that a Psy.D. program "includes training in research, but the research emphasis is on the evaluation of professional techniques and service outcomes and other applied activities." The doctoral dissertation in a Psy.D. program should reflect these goals. A wide range of acceptable standards for dissertations in Psy.D. programs appears across the nation. Some programs require only a literature review, others have a dissertation that is indistinguishable from a Ph.D. All Psy.D. programs in New York State require some data collection as part of the doctoral dissertation.

Dissertation Options

- Empirical Research (development of a measure, correlational design, treatment outcome)
- Ethnographic Research
- Clinical Case Study
- Program Evaluation
- Test Review
- ALL MUST HAVE: Implications for the practice of school psychology.

Empirical Research Dissertations

- Introduction: Should include a theoretical rationale for the study, a review of the literature and a critique of the existing literature relevant to the topic. The hypotheses, which flow logically from this critique, complete the introduction.
- Implications for the practice of school psychology.
- Method: Should thoroughly outline the methodology of the study and discuss relevant methodological issues (e.g., subjects and sample size, the reliability and validity of the measures/materials being used and the procedures employed). The methods section should be detailed enough to allow a person to duplicate your methods.
- Results: This is generally the briefest chapter of the school dissertation. It should describe the statistical analyses performed, as well as the relevance of these analyses. This section should be succinct and include no more than four to five statistical tables and/or figures. Detailed commentaries on the results should be left for the discussion section.
- Discussion: As a general rule, the discussion includes at least (a) a presentation of the findings, (b) implications of the results for the theoretical issues raised in the introduction, (c) statistical, methodological and/or theoretical explanations for any unexpected findings,

(d) an analysis of the methodological weaknesses of the study and how they should be addressed by future research and (e) suggestion for future research.

- References: The reference section is done in APA style, except that the title Reference at the top of the page is treated as a chapter heading.

Ethnographic Research Dissertations

- A type of research that involves studying different groups of people or cultures and investigates social organization, group interactions and behaviors.
- Typically, this type of study involves learning about small groups of people in their own environment through naturalistic observation over a long period of time.
- The study is descriptive in nature and the researcher is required to interpret events and their significance.
- An advantage to this type of study is that the research question is not easily identified by participants. A clear objective is necessary for the researcher to effectively observe and interpret the environment and social organization. Other research techniques include focus groups and interviews.

Clinical Case Study Dissertations

Case presentation of how interesting and challenging cases were assessed and conceptualized and how treatment followed such conceptualization. A highly practical format should allow other school psychologists to replicate in their own practices.

Sections should include

- Theoretical and research basis for treatment
- Case study summary
- Presenting Problem (academic or behavioral)
- History
- Assessment (what tools you used; why?)
- Case Assessment (conceptualization of data)
- Course of treatment and assessment of progress
- Complicating factors
- Follow-up
- Treatment implications of the case
- Recommendations to school psychologists/clinicians
- References

Program Evaluation Dissertations

- Seeks to evaluate effectiveness or viability of existing programs or policies.
- Ultimately want to know whether the program/policy is working as intended and meeting stated goals and objective.
- Data can be from a variety of sources, but should be "outcome-based" in order to gauge success or failure of program.
- Data may be survey, numerical or archival and may include pre- and post- data as appropriate.

- Format of dissertation includes introduction, description and purpose of program/policy, goals and objectives of program/policy, rationale for evaluation of program, description of methods used to evaluate, description of results and findings, conclusions and recommendations.
- Overall, the dissertation should determine relative success or failure of the program/policy and provide specific recommendations for improvement or alternatives.

Test Review Dissertation

- Following the joint standards for test development as well as other existing and widely accepted criteria for evaluating tests, critically review a new or recently revised instrument.
- Joint standards focus on forms of validity evidence that are expected to be provided in all test manuals. Quality of the evidence provided in the manual must be discussed.
- Other criteria focus on psychometric characteristics, such as reliability, floors/ceilings, item gradients, standardization characteristics and so forth.
- Literature review: overview of the test, its history, how it is used; summary of the literature available on the instrument; review the joint standards and present criteria that will be used to evaluate the instrument.
- Discussion: would you recommend the test be used for its intended purpose? Why? Why not?

School Psychology (M.S.)

Completion of the 66-credit M.S. in School Psychology allows the student to qualify for a provisional New York State Certificate which authorizes practice as a school psychologist. This certificate is valid for five years from the date of issuance; with the accumulation of two years of experience as a school psychologist, a permanent certificate is issued in the field of pupil personnel services.

Although the M.S. has been designated to train the student for professional practice, it is academically oriented as well and provides sound preparation for further graduate work.

Advanced standing may be awarded to those applicants who have already earned a master's degree or its equivalent in psychology from St. John's University or another accredited institution.

Students who are bilingual may choose to enroll in the Bilingual Track. Applicants must demonstrate fluency in a language by passing the New York State Language Proficiency Examination. Foreign-educated or ESL students must also take the English Proficiency exam. This program leads to certification as a Bilingual School Psychologist. The coursework, practicum and internship training in this track prepare students to deliver school psychological services to bilingual children.

Program Requirements

The program requires the satisfactory completion of 66 credits and a comprehensive examination which is offered in the spring semester of the third year. The student must maintain a "B" average and is given two opportunities to pass the comprehensive examination. Students must also achieve a grade of at least "B" in Psy 761 or 761B, 762 or 762B, 752 or 752B and 753.

Program Tracks

General Track

Year 1

Fall

- 603 Statistical Design in Research
- 661 Psychoeducational Assessment I
- 665 Introduction to School Psychology
- 666 Interviewing and Case Formulation
- 695 Research Colloquium

Spring

- 620 Cognitive Psychology of Academic Learning
- 648 Physiological Psychology
- 662 Psychoeducational Assessment I
- 671 Child and Adolescent Personality Assessment
- 695 Research Colloquium

Year 2

Fall

- 715 Assessment, Diagnosis, and Remediation of Learning Disabilities
- 716 Psychoeducational Consultation, OR
- 749 Behavior Therapy: Assessment, Treatment, and Consultation
- 726 Psychopathology Across the Lifespan I, OR
- 727 Psychopathology Across the Lifespan II
- 761 Psychoeducational Assessment Practicum I*

One course in the social/cultural bases of behavior (either 622, 625, or 627)
695 Research Colloquium

Spring

- 623 Developmental Psychology I
- 659 Psychological Measurement and Scaling
- 716 Psychoeducational Consultation, OR
- 749 Behavior Therapy: Assessment, Treatment, and Consultation
- 726 Psychopathology Across the Lifespan I, OR
- 727 Psychopathology Across the Lifespan II
- 762 Psychological Assessment Practicum II*
- 695 Research Colloquium

Year 3

Fall

- 615 Research Methods in School Psychology
- 752 School Psychology Internship Seminar I: Professional Issues**
- 695 Research Colloquium

Spring

- 753 School Psychology Internship Seminar II: Psychological Interventions**
- Elective
- 695 Research Colloquium

N.B. Master's Comprehensive Examination must be taken in the spring of Level III.

*Students will work in the Center for Psychological Services and other University approved sites for this practicum.

**In order to satisfy the internship requirements (PSY 752, 753), five full days per week, per semester, must be spent in a school setting or an agency serving children or adolescents under the supervision of a certified school psychologist.

Bilingual Track

Year 1

Fall

- 603 Statistical Design in Research
- 661 Psychoeducational Assessment I
- 665 Introduction to School Psychology
- 695 Research Colloquium

Spring

- 620 Cognitive Psychology of Academic Learning
- 648 Physiological Psychology
- 620 Cognitive Psychology of Academic Learning
- 662B Psychoeducational Assessment of Culturally and Linguistically Diverse Children
- 671 Child and Adolescent Personality Assessment
- 695 Research Colloquium

Year 2

Fall

- 715 Assessment, Diagnosis, and Remediation of Learning Disabilities
- 716 Psychoeducational Consultation, OR
- 749 Behavior Therapy: Assessment, Treatment, and Consultation
- 726 Psychopathology Across the Lifespan I, OR
- 727 Psychopathology Across the Lifespan II
- 729 Psycholinguistics and the Practice of School Psychology with Culturally and Linguistically Diverse Populations
- 761B Psychoeducational Assessment Practicum I-Bilingual*
- 695 Research Colloquium

Spring

- 623 Developmental Psychology I
- 659 Psychological Measurement and Scaling
- 716 Psychoeducational Consultation, OR
- 749 Behavior Therapy: Assessment, Treatment, and Consultation
- 726 Psychopathology Across the Lifespan I, OR
- 727 Psychopathology Across the Lifespan II
- 762B Psychological Assessment Practicum II-Bilingual*
- 695 Research Colloquium

Year 3

Fall

- 615 Research Methods in School Psychology
- 752B Bilingual School Psychology Internship Seminar I—Professional Issues Bilingual**
- 695 Research Colloquium

Spring

- 627 Cultural Diversity in Psychological Services
- 753 School Psychology Internship Seminar II: Psychological Interventions**
- 695 Research Colloquium

N.B. Master's Comprehensive Examination must be taken in the spring of Level III.

*Students will work in the Center for Psychological Services and other University approved sites for this practicum.

**In order to satisfy the internship requirements (PSY 752, 753), five full days per week, per semester, must be spent in a school setting or an agency serving children or adolescents under the supervision of a certified school psychologist.

General-Experimental Psychology (M.A.)

The Master of Arts degree in General-Experimental Psychology provides the student with a broad background of psychological knowledge and tools as preparation for more advanced work. The course requirements can serve also as a solid foundation for those who want a psychological background as support for other fields of study.

Classes are offered after 4:40 p.m. Part-time attendance is permitted. Students may take courses in the program on a nonmatriculated basis, in accord with the regulations set forth by the Graduate Division. Such students may gain admission into the M.A. program upon the completion of four graduate courses, with a minimum grade of "B" in each course.

Program Requirements

The M.A. program requires the satisfactory completion of 42 credits. Students choosing the THESIS OPTION must complete two semesters of Master's Research (PSY 900) and successfully defend their proposed and completed thesis research before a faculty committee. Students choosing the NON-THESIS OPTION must pass a comprehensive examination which is offered in the spring semester of the second year. Non-thesis students are given two opportunities to pass the comprehensive examination. All students must maintain a "B" average in the program. The required course sequence is given below.

Program Option

Year 1

Fall

- 606 Perception I
- 608 Statistical Design in Research
- 616 Principles of Learning, OR 617 Cognitive Psychology
- + one elective course

*Also open to qualified undergraduates.

Spring

- 604 Psychology Laboratory
 607 Perception II
 614 Multivariate Design and Analysis for Psychological Research
 Elective
 623 Developmental Psychology I

Year 2**Fall**

- 622 Social Psychology OR 625 Cross-Cultural Psychology OR 630 Personality Theories
 648 Physiological Psychology
 659 Psychological Measurement and Scaling OR 724 Psychopathology, OR 726 Psychology of Childhood Adolescence I

Spring

- Two of the following: 624 Developmental Psychology II, 696 Independent Research, 861 Psychopharmacology

Elective

N.B. Student electing to take PSY 861 must also choose PSY 724 in the fall of Level II. With the approval of the Program Coordinator, the elective may be taken outside the department.

Thesis Option*Level I****Fall**

- 606 Perception I
 608 Statistical Design in Research
 616 Principles of Learning, OR 617 Cognitive Psychology
 623 Developmental Psychology I
 + one elective course

Spring

- 604 Psychology Laboratory
 607 Perception II
 614 Multivariate Design and Analysis for Psychological Research
 Elective
 623 Developmental Psychology I

Level II**Fall**

- 648 Physiological Psychology
 659 Psychological Measurement and Scaling OR 724 Psychopathology OR 726 Psychology of Childhood Adolescence I
 900 Master's Research

Spring

- Two of the following: 624 Developmental Psychology II, 696 Independent Research, 861 Psychopharmacology
 900 Master's Research

N.B. Students electing to take PSY 861 must also choose PSY 724 or 726 in the fall of Level II. With the approval of the program coordinator, an elective course may be taken outside the department.

Center for Psychological Services

The St. John's University Center for Psychological Services serves as a primary training site for the Clinical and School Psychology programs in providing comprehensive psychological services to community residents at modest cost. Located conveniently near the St. John's campus, it provides students with opportunities to develop clinical and assessment skills under faculty supervision. The Center provides training in psychoeducational and personality assessment at Level II (PSY 668-670). The Center also provides training in assessment for school psychology students at the master's level (PSY 761-762) and in therapy for advanced Psy. D. students (PSY 763-764). Opportunities for assessment and intervention experiences in local schools are also available via the Center's School Affiliate Program. The research component of the Center includes collection of clinical data, faculty sponsored research projects and doctoral dissertation research.

Departmental Policy

All students are expected to conduct themselves in accordance with the ethical standards established by the American Psychological Association and the New York State Department of Education. In addition, all research with human subjects must be performed in accordance with the policies and procedures promulgated by the Institutional Review Board (IRB) of the University. Research with animals must conform to the guidelines established by the Animal Care Advisory Committee (ACAC) of the University. Failure to comply with these standards may result in a departmental recommendation for dismissal.

Institutional Affiliations

The University has developed formal affiliations with a number of clinical facilities in the New York area for purposes of clinical training and research. The Clinical Psychology program has developed a wide network of participating clinical and research practicum placements for its students including Long Island Jewish/Hillside Medical Center, North Shore University Hospital, Queens Hospital Center, Nassau County Medical Center, Bronx Children's Psychiatric Center, Bellevue Psychiatric Hospital, Creedmoor Psychiatric Center, North Shore Child Guidance Center, Beth Israel Medical Center, Pederson-Krag Center, NYS Psychiatric Institute and Queens Children's Psychiatric Center, among others (see listing of Affiliate Clinical Professors).

Courses**103 Basic Psychology Laboratory***

Methods and techniques of laboratory research for students without undergraduate laboratory training. *Fee: \$60. Credit: 3 semester hours. (No credit if used to remove deficiency.)*

603 Statistical Design in Research

This course provides students who will be primarily consumers of research with a review of basic concepts in statistics and an introduction to the methods used in contemporary research to enable them to evaluate the results and conclusions of scholarly work in psychology. Topics include analysis of variance, correlation, and regression. *Credit: 3 semester hours.*

604 Psychology Laboratory

The student is required to conduct extensive literature searches, collect and analyze data and generate manuscripts. *Laboratory fee: \$60. Credit: 3 semester hours.*

606 Perception I*

A survey course emphasizing the historical development of various models aimed at understanding visual experience, such as origins of form, distance and depth perception. *Credit: 3 semester hours.*

607 Perception II*

An advanced course focusing upon the perception of radial direction, induced motion, autokinesis, phi, visual imagery, size perception, face recognition, visual and auditory affect recognition, affective aprosodia and speech. *Credit: 3 semester hours.*

608 Statistical Design in Research*

Concentrates on the use of advanced parametric techniques in the statistical design of experiments. Emphasis is placed on models of analysis of variance from one-way to split-plot designs. *Credit: 3 semester hours.*

609 Research in Clinical Psychology I

Principles and methods of research design as applied to clinical psychology. *Credit: 3 semester hours.*

610 Research in Clinical Psychology II

This course familiarizes the student with the methodology and instrumentation appropriate to the field. Research methods, including experimental, quasi-experimental and single-case designs, are covered. *Credit: 3 semester hours.*

613 Research in Clinical Child Psychology II

An examination of the interplay of research methodology, experimental and quasi-experimental design and statistical techniques in the study of the behavior and development of normal and atypical children. *Credit: 3 semester hours.*

614 Multivariate Analysis for Psychological Research*

Prerequisite: PSY 608. This course presents students with a variety of multivariate research designs along with their appropriate statistical techniques which have application in experimental and clinical research.

Credit: 3 semester hours.

615 Research Methods in School Psychology

A survey of the research methods used in the study of children and their development with special emphasis to the type of research questions asked by the school psychologist.

Credit: 3 semester hours.

616 Principles of Learning*

An examination of research in classical and operant conditioning. Includes discussion of reinforcement, stimulus control, punishment and other topics relevant to experimental analysis of behavior. *Credit: 3 semester hours.*

617 Cognitive and Affective bases of Behavior*

An examination of theories and research findings regarding attention, sensory and working, episodic, semantic long-term, implicit memory and autobiographical memory, unconscious mental processing, schemata, language and the roles of emotion in cognition.

Credit: 3 semester hours.

618 Cognitive Psychology of Academic Learning

This course examines the theory, research and application concerning the cognitive processes that underlie children's development of mathematical thinking, reading comprehension and study skills. Principles that underlie the assessment strategies and effective teaching and learning of math and reading are discussed.

Credit: 3 semester hours.

619 Advanced Techniques for the Analysis of Behavioral data

Prerequisites: PSY 608, 614

This course introduced such techniques as factor analysis, multivariate statistics, structural equation modeling, hierarchical linear modeling, survival analysis, and logistic regression.

Credit: 3 semester hours.

622 Social Psychology*

Topics include attitudes, social perception and cognition, prejudice, gender roles, group behavior, aggression, prosocial behavior, attraction, nonverbal behavior and special methodological contributions of social psychology. *Credit: 3 semester hours.*

623 Developmental Psychology I*

An overview of the major issues of contemporary developmental psychology from a life-span perspective. Particular emphasis is placed on relevant historical antecedents, theory, core conceptual issues and emerging methodology. *Credit: 3 semester hours.*

624 Developmental Psychology II*

Prerequisite: PSY 623 or permission of the instructor. An in-depth analysis of theories and research on cognitive and socio-emotional development. *Credit: 3 semester hours.*

625 Cross-Cultural Psychology*

Cross-cultural perspectives on behavior and cognition, including verbal and nonverbal communication and interpersonal and intergroup relations. Psychological variability among cultural groups will be discussed.

Credit: 3 semester hours.

626 Psychology of Women

Recent research on role, personality, intellectual and career considerations relevant to women. *Credit: 3 semester hours.*

627 Cultural Diversity in Psychological Services

A course in diverse cultural perspectives which explores the cultural similarities and differences between psychologist and client and the way these factors affect the delivery of psychological services. *Credit: 3 semester hours.*

630 Personality Theories*

Comparison and evaluation of various personality theories focusing on issues of personality structure and personality development. Consideration given to selected contemporary issues. *Credit: 3 semester hours.*

631 Psychoanalytic Psychotherapy I

An overview of psychoanalytic psychotherapies from Freud to the present.

Credit: 3 semester hours.

632 Psychoanalytic Psychotherapy II

Prerequisite: PSY 631. Contemporary psychoanalytic therapies including brief therapies, case presentations and integration of theory and practice. *Credit: 3 semester hours.*

635 Objective Personality Tests

Various measures designed for the appraisal of personality; instruments discussed include the Minnesota Multiphasic Personality Inventory, the California Psychological Inventory and the Cattell 16 PF test. *Test Fee: \$10.*

Credit: 3 semester hours.

648 Physiological Psychology*

Neuroanatomy plus discussion of recent research on sensory coding, neural basis of learning and the physiological bases of a variety of psychological disorders.

Credit: 3 semester hours.

650 History and Systems

An evaluation of modern systems of psychology and a review of historical antecedents in light of their psychological contributions.

Credit: 3 semester hours.

658 Professional and Ethical Issues

A study of professional standards and ethical principles as they relate to the professional psychologist's practice and research in the school, hospital and other settings in the community. *Credit: 3 semester hours.*

659 Psychological Measurement and Scaling

Emphasis is placed on test construction and use. Topics include measurement theory, scaling methods, classical test theory, reliability, validity, item writing and analysis, item response theory and new developments in test theory. *Credit: 3 semester hours.*

660 Assessment I: Intelligence Testing

A course on the assessment of intelligence, including administration, scoring and interpretation of the WISC-III, WAIS-III, Stanford-Binet and other intelligence tests. *Test fee: \$100.*

Credit: 3 semester hours.

661 Psychoeducational Assessment I

Administration, scoring, interpretation and psychometric characteristics and comparative analysis of contemporary scales of cognitive ability test batteries serves as the basis for this course. *Test Fee: \$100. Credit: 3 semester hours.*

662 Psychoeducational Assessment II

Prerequisite: PSY 661. Advanced issues in the administration, scoring, interpretation and psychometric and characteristics of both contemporary cognitive and academic ability test batteries form the major components of this course. *Test Fee: \$100. Credit: 3 semester hours.*

662B Psychoeducational Assessment of Culturally and Linguistically Diverse Children

Prerequisite: PSY 661. Administration, scoring, interpretation and psychometric comparative analysis of newer cognitive, achievement tests are presented. The use of tests with bilingual children is emphasized. *Test Fee: \$100.*

Credit: 3 semester hours.

663 Assessment II: Personality Assessment

This course includes administration, scoring and interpretation of personality tests. The course will be concerned with the clinical and research applications of these tests.

Test fee: \$50. Credit: 3 semester hours.

665 Introduction to School Psychology

This course will provide students with an understanding of the roles and functions of the school psychologist. It will also introduce students to the profession of school psychology from an historical, scientific and practical perspective. *Credit: 3 semester hours.*

666 Interviewing and Case Formulation

This course provides the student with fundamental skills in interviewing and case formulation. Students will learn to interview parents, teachers and children and conduct behavioral observations and functional assessments.

Credit: 3 semester hours.

668; 670 Assessment Laboratory I and II

Prerequisites: PSY 660 and 663.

Students gain experience at the St. John's Center for Psychological Services in psychological assessments. *Credit: 3 semester hours.*

669 Advanced Rorschach

Prerequisite: PSY 663. Concentrates on the interpretation of Rorschach records of children, adolescents and adults. Major emphasis will be placed on integrating Rorschach data with the results of other psychological tests and clinical findings. *Credit:* 3 semester hours.

671 Child and Adolescent Personality Assessment

Strategies for assessing child and adolescent personality will be explored. Emphasis will be placed on those objective and projective techniques currently utilized in the field. *Test fee:* \$50. *Credit:* 3 semester hours.

695 Research Colloquium

Invited speakers, faculty members and students from the department's graduate programs discuss their research. Registration/attendance is required for all students. *No credit. No fee. Not included on students' transcript.*

696 Independent Research (Laboratory)*

Prerequisites: PSY 608
Under the guidance of a faculty member, the student plans and executes an original piece of research of thesis quality. *Laboratory fee:* \$60. *Credit:* 3 semester hours.

*Also open to qualified undergraduates.

698; 699 Clinic Practicum I; II

Students gain supervised experience at the St. John's Center for Psychological Services and Clinical Studies in various clinical roles, including diagnostic interviewing, case observation and participation in weekly case conferences. *Credit:* 3 semester hours. Level I course.

701; 702; 705; 706 Clinic Practicum III; IV; V; VI

A continuation of practicum training at the Center for Psychological Services and Clinical Studies; students develop their clinical skills through receiving supervised training in techniques relating to psychodiagnostic evaluation and intervention. *Credit:* 3 semester hours.

715 Assessment, Diagnosis and Remediation of Learning Disabilities

This course involves the systematic study of learning disorders of children; receptive, expressive and psychological processing disorders of learning; and assessment of diagnostic procedures. *Credit:* 3 semester hours.

716 Psychoeducational Consultation

Prerequisite: PSY 661. This course addresses the procedures for conducting consultation with teachers and other school personnel in order to ameliorate problems affecting students' academic and social competencies. *Credit:* 3 semester hours.

717 Instructional Assessment and Academic Interventions

Students will learn to assess children's instructional environments and to monitor their academic progress. This assessment will be tied to instructional interventions in the context of the consultation role for school psychologists. *Credit:* 3 semester hours.

725 Advanced Psychopathology: General

Prerequisite: PSY 724. Detailed consideration of selected areas of psychopathology, particularly theoretical models and empirical research in etiology, development, prevention and treatment. *Credit:* 3 semester hours.

726 Psychopathology Across the Life Span I

Lifespan perspective on psychological disorders, including symptom presentation, etiologies and outcomes. Focus in on disorders that are prevalent in childhood and adolescence. *Credit:* 3 semester hours.

727 Psychopathology Across the Life Span II

Overview of risk and vulnerability factors across the lifespan, with an emphasis on adult disorders, including coverage of biological, developmental, sociocultural, psychodynamic, and behavioral determinants of psychopathology, and relevant treatments. *Credit:* 3 semester hours.

729 Psycholinguistics and the Practice of School Psychology with Culturally and Linguistically Diverse Populations

This course provides students with an understanding of normal language development, second language acquisition and the problems of delivering school psychological services to bilingual children. *Credit:* 3 semester hours.

737 Hypnosis Biofeedback Workshop

Intensive workshop combining the theoretical conceptualizations of hypnosis and biofeedback with empirical exploration. The course is oriented towards the goals of the scientist practitioner. *Credit:* 3 semester hours.

741 (Fall); 742 (Spring) Assessment and Intervention Practicum I; II; III; IV

A four-semester practicum sequence emphasizing psychodiagnostic testing and evaluation in clinical settings and supervised professional experience in intervention and psychotherapeutic techniques. *Credit:* 3 semester hours.

749 Behavior Therapy: Assessment, Treatment and Consultation

This course is aimed at providing a theoretical and practical understanding of the behavioral orientation to psychological assessment and intervention with school-aged children and adolescents in school settings. *Credit:* 3 semester hours.

750 Behavior Therapy

Applications of principles of learning and social influence, including cognitive mediational and conditioning strategies, to the modification of problem behavior. *Credit:* 3 semester hours.

751 Interventions with Developmental Disabilities

Prerequisites: PSY 749 or 750. Students will learn the procedures of applied behavior analysis, and use these principles to develop teaching and intervention strategies for children with autism and related developmental disorders. *Credit:* 3 semester hours.

752 School Psychology Internship Seminar I: Professional Issues

Prerequisite: PSY 761 and 762. Students are assigned to a public school or agency providing services for children and function under the supervision of a certified school psychologist. *Credit:* 3 semester hours.

752B School Psychology Internship Seminar I—Professional Issues—Bilingual

Prerequisite: PSY 761B and 762B. Classroom presentations focus on recent advances in the assessment and intervention strategies of working with linguistically diverse children. *Credit:* 3 semester hours.

753 School Psychology Internship Seminar II: Psychological Interventions

Prerequisite: PSY 752. Students are assigned to a public or private school providing psychological services to children and adolescents for five full days. Presentations will focus on New York State Child Abuse reporting law, models of service delivery in school psychology, crisis intervention. *Credit:* 3 semester hours.

754 School Psychology Internship Seminar III: Nondiscriminatory Assessment and Field Placement

Prerequisite: Completion of master's degree and Certification in School Psychology. Classroom instruction focuses on issues, methods and procedures for conducting comprehensive, systematic nondiscriminatory assessment of culturally and linguistically diverse students. Students are assigned to a public or private school or agency providing psychological services to exceptional children and/or adolescents for a minimum of three full days. *Credit:* 3 semester hours.

755 School Psychology Seminar IV: Psychological Interventions and Field Placement

Prerequisite: PSY 754 or equivalent. This course includes an in-depth review of the latest research and theory in psychological interventions. Students spend three days per week in a school for exceptional children or an organization servicing exceptional children. *Credit:* 3 semester hours.

760 Marital and Family Therapy

The family is viewed as an interacting social system and approaches to understanding and changing problem behavior are discussed from a systems perspective. *Credit:* 3 semester hours.

*Replacement of comprehensive examination with student portfolio pending NYSED approval

761; 762 Psychological Assessment Practicum I; II

Prerequisites: PSY 661, 662 or 662B, 671. Students will be required to participate in psychological assessments at the Center for Psychological Services and Clinical Studies and in the schools that it provides services to. There are special sections (PSY 761B, 762B) for students in the bilingual track of the M.S. and Psy.D. Programs. *Credit: 3 semester hours.*

761B (Fall); 762B (Spring) Psychological Assessment Practicum I and II

Prerequisites: PSY 661, 662 or 662B, 671. Students will participate in psychological assessments at the Center for Psychological Services and in schools to which the center provides services. For MS and Psy. D. students in the bilingual track. *Credit: 3 semester hours.*

763; 764; 765 School Psychology Intervention Practicum I; II; III

Prerequisite: PSY 753 or equivalent or permission of the program director. These courses represent a two-semester sequence of practica experiences. Students will plan and deliver psychological interventions to children, adolescents, parents, teachers and professional staff. *Credit: 3 semester hours.*

810 Advanced Research Seminar in Selected Topics

An advanced seminar that reviews current research and theory of topics selected from clinical psychology, social/cultural psychology and experimental psychology with each area taught by a different faculty member. *Credit: 3 semester hours.*

835 Neuropsychological Assessment

Conceptual problems regarding brain dysfunction; special symptoms and syndromes; neurodiagnostic approaches, emphasizing the Halstead-Reitan and Luria batteries; applications relevant to the clinician. *Credit: 3 semester hours.*

836 Behavioral Neuropsychology

This course covers the theoretical bases, research methodology and instrumentation necessary for experimentation in neuropsychology, emphasizing the chronometric and cognitive investigation of cerebral asymmetry. *Credit: 3 semester hours.*

838 Addictive Behaviors

This course presents theoretical foundations and applications in the treatment of addictive behaviors. Topics include drugs of addiction; gambling; theories of addiction and behavioral and psychotherapeutic treatments. *Credit: 3 semester hours.*

843 Child and Adolescent Psychotherapy

Major models of child and adolescent psychotherapy will be presented, including traditional approaches, short-term therapies and empirically-validated treatment methods. *Credit: 3 semester hours.*

845 Group Therapy

An exploration of the process of group therapy, including the composition of various group settings; the role of the leader; the beginning, middle and termination stages of the group; and various techniques utilized by group therapists. *Credit: 3 semester hours.*

850 Cognitive Psychotherapies

Prerequisite: PSY 749 or 750. This course explores the growing area of Cognitive and cognitive/behavioral psychotherapies by Beck, and Ellis, as well as self instructional training, cognitive interpersonal problem solving therapy and multi modal therapy. *Credit: 3 semester hours.*

861 Psychopharmacology

Prerequisite: PSY 648 and 724. A study of psychopharmacological agents in the treatment of behavioral disorders of children and adults. *Credit: 3 semester hours.*

862 Independent Study

Library research and/or experimental research under the guidance of a faculty member. Permission of the Chair required. *Fee: \$60 if in experimental research study.* *Credit: 3 semester hours.*

903 and 904 Clinical Psychology Internship I and II

Prerequisites: Completion of all coursework in the program. One year full-time internship in an approved setting. For doctoral students in Clinical Psychology only. *Fee: \$100 plus general fee per semester. Credit: 0 semester hours.*

905 and 906 School Psychology Internship I and II

Prerequisites: Completion of all coursework in the program. One year full-time internship in a setting approved by the program. For doctoral students in School Psychology. *Fee: \$100 plus general fee per semester. Credit: 0 semester hours.*

908 Master's Research

Supervised research leading to the preparation and completion of a thesis in partial fulfillment of the requirements for the Master of Arts degree in General-Experimental Psychology. *Credit: 3 semester hours.*

925 General-Experimental Maintaining Matriculation

Master's students in general-experimental psychology not registered for other courses must register for 925 until all degree requirements are completed and the degree is granted. *Credit: 0 semester hours. Fee: \$50 per semester. Laboratory fee: \$60. (Students who do not use laboratory facilities may petition the Chair and the Dean to waive the laboratory fee.) Offered each semester.*

940 Clinical Psychology Maintaining Matriculation

Ph.D. students who have NOT passed the comprehensive exam and HAVE NOT registered for other courses, must register for PSY 940. *Permission of the Dean is required. No Credit. Fee: \$50 per semester.*

950 Doctoral Research

Original research leading to the doctoral degree. Beginning in the Spring semester of year 4, students must register for 950 in each Fall and Spring semester until the dissertation is completed and the degree awarded. *Credit: 3 hours per semester, except when students are on internship and enrolled in 903/904, when it is worth 1 semester hour only.*

951 Doctoral Research

Original research leading to the doctoral degree. Doctoral candidates must register for this course in the spring semester of their fourth year. Once enrolled in this course students must remain continuously enrolled in it until they graduate. *Credit: 3 semester hours., except when students are on internship and enrolled in 905/906, when it will be worth one semester hour only.*

960 School Psychology Maintaining Matriculation

Students in school psychology not registered for other courses must register for 960 until all degree requirements are completed and the degree is granted. *Credit: 0 semester hours. Fee: \$50 per semester. Offered each semester.*

For a complete listing of approved courses, please contact the Dean's office.

Department of Sociology and Anthropology (SOC)

The Department offers graduate training leading to an M.A. degree in Sociology and an M.A. degree in Criminology and Justice. The department's mission is to educate its graduate students about the social forces that influence human behavior. The programs' faculty seeks to train students to develop the necessary skills in sociological research and analysis of inequality, organizations and communities. These experiences lead to careers in criminal justice, health care, non-profits and business, as well as provide exceptional preparation for further training at the doctoral level and or/law school.

Program of Study Master of Arts (M.A.)

The department offers 2 options:
 (1) thesis
 (2) non-thesis

Entrance Requirements

Acceptance into all M.A. programs requires a minimum of 18 undergraduate credits in sociology or a related social science. Deficiencies in these requirements must be corrected under departmental direction. International students are urged to send a representative sample of their writing in English together with their application. They are required to take an English Placement Examination upon acceptance.

Courses by Area of Concentration in the Sociology M.A. Program

1. **Globalization and Social Movements**
 - SOC 116 Technology and Social Relations
 - SOC 118 Global Communication
 - SOC 129 The Cyber Society
 - SOC 130 Globalization: Origin, Meaning and Consequences
 - SOC 222 Sociology of the Global City
 - SOC 233 Global Crime
 - SOC 234 Global Poverty
 - SOC 235 Global Inequality
 - SOC 243 Social Movements and Social Change
 - SOC 244 Social Movements and Globalization
 - SOC 247 Global Education
 - SOC 308 Special Topics in Globalization

2. **Urban Sociology**
 - SOC 120 Race and Ethnicity
 - SOC 223 Urban Sociology
 - SOC 224 Women and the City
 - SOC 228 Sociology of Community
 - SOC 243 Social Movements and Social Change
 - SOC 260 Inequality and Oppression in American Society

Degree Requirements for Sociology

General

All students are required to take the following six courses (3 credits each):
 SOC 103 Pro-Seminar
 SOC 127 Statistics for Social Sciences
 SOC 210 Sociological Theory: Classical
 SOC 212 Contemporary Sociological Theory
 SOC 300 Strategies of Social Research
 SOC 301 Evaluation Research and Data Analysis

Specific

- A. **Thesis Option – 30 credits**
 - a. **Required courses:** 103, 127, 210, 212, 300, 301; SOC 900 Master's Research (see "d" below) – three credits each semester for a total of six credits.
 - b. **Electives**
 The balance of courses, for a total of 30 graduate credits, will be chosen from departmental offerings, in consultation with the student's advisor.
 - c. **Comprehensive Examination**
 demonstrate ability to integrate knowledge of sociology theory, methodology, literature and empirical data. This examination may not be taken earlier than the last semester of coursework and no later than one year after completion of coursework. The rules governing the application and administration of this examination are found under "Comprehensive Examination" in the Graduate Division of Arts and Sciences section in this bulletin.
 - d. **Thesis**
 A student will register for SOC 900 (Master's Research) for six credits under the direction of an assigned mentor and will write a thesis that will be examined by a committee of readers composed of the mentor and one other faculty member.
- B. **Non-Thesis Option – 33 credits**
 Designed for students who seek a broad preparation for employment in which sociological knowledge is required or particularly valuable. This option is also sufficient for entry into a Ph.D. program.
 - a. **Required courses:** SOC 103, 127, 210, 212, 300, 301

b. Electives

The balance of courses will be chosen from departmental offerings, in consultation with the student's adviser. Two courses may be taken in the practicum and field placement.

c. Comprehensive Examination (see above)

Degree Requirements for Criminology and Justice

General

All students are required to take the following four courses (3 credits each):
 CRM 103 Pro-Seminar
 CRM 127 Statistics for Social Science
 CRM 231 Evaluation of Criminal Justice Policies
 CRM 232 Criminological Theory
 CRM 300 Strategies and Tactics of Social Research

Specific

Non-Thesis Option – 33 credits

- a. Required courses: CRM 103, 127, 231, 232, 300
- b. Electives

The balance of courses will be chosen from departmental offerings, in consultation with the student's adviser.

- c. **Comprehensive Examination**—not to be taken earlier than the last semester of coursework and no later than one year after completion of coursework.

Thesis Option – 30 credits

- a. Required courses: CRM 103, 127, 231, 232, 300
- b. Electives
- c. Research topic approved by advisor
- d. **Comprehensive Examination**
 (see above.)

Accelerated Degree Programs

B.A./M.A. in Sociology B.A. in Sociology and M.A. in Criminology and Justice

The Department of Sociology and Anthropology offers two intensive, accelerated, combined degree program leading to both the B.A. and M.A. degrees in Sociology and B.A. in Sociology and M.A. in Criminal Justice in five years of full-time study. Qualified students who have completed their sophomore year with a 3.0 cumulative index and a 3.5 index in at least 12 credits of Sociology are encouraged to apply.

Students enrolled in the thesis program must complete a total of 144 credits (30 on the graduate level), including six credits of Master's Research. Students electing the non-thesis option must complete a total of 147 credits (33 on the graduate level). After the completion of the baccalaureate degree the student must enroll full time in graduate level courses for the fifth year. For specific information, students

may consult with the Chair of the Department of Sociology and Anthropology. Applications are available at the offices of the Graduate Division of Arts and Sciences (St. John Hall, Room 135), or the Department of Sociology and Anthropology (St. John Hall, Room 444D).

The College of Professional Studies and the Graduate Division of Arts and Sciences offer six intensive, accelerated, combined degree programs in the following academic disciplines:

B.S. in Health Services Administration/M.A. in Sociology

This program leads to the B.S. in Health Services Administration and the M.A. in Sociology in five years of full-time study. Qualified undergraduate students who have completed their sophomore year with a 3.0 cumulative index and a 3.5 index for 12 credits in the health services administration major are encouraged to apply.

Students enrolled in the thesis program must complete a total of 144 credits (30 on the graduate level, including six credits of Master's Research). Student selecting the non-thesis option must complete a total of 147 credits (33 on the graduate level). After the completion of the baccalaureate degree the student must enroll full time on the graduate level for the fifth year.

B.S. in Communication Arts/M.A. in Sociology

This program leads to the B.S. in Communication Arts and the M.A. in Sociology in five years of full-time study. Qualified undergraduate students who have completed 60 credits with a 3.0 cumulative index and a 3.5 index for a minimum of 12 credits in the communications major.

Students enrolled in the thesis program must complete a total of 144 credits (30 on the graduate level, including six credits of Master's Research). Students selecting the non-thesis option must complete a total of 147 credits (33 on the graduate level). After completion of the baccalaureate degree, students must enroll full time on the graduate level for the fifth year.

B.S. in Criminal Justice/M.A. in Sociology

This program leads to the B.S. in Criminal Justice and M.A. in Sociology in five years of full-time study. Qualified undergraduate students who have completed their sophomore year with a 3.0 cumulative index and a 3.5 average in a minimum of 12 credits in the criminal justice major.

Students enrolled in the thesis program must complete a total of 144 credits (30 on the graduate level, including six credits of Master's Research). Student selecting the non-thesis option must complete a total of 147 credits (33 on the graduate level). After the completion of the baccalaureate degree the

student must enroll full time on the graduate level for the fifth year.

B.S. in Journalism/M.A. in Sociology

This program leads to the B.S. in Journalism and the M.A. in Sociology in five years of full-time study. Qualified undergraduate students who have completed 60 credits with a 3.0 cumulative index and a 3.5 index for a minimum of 12 credits in the Journalism major.

Students enrolled in the thesis program must complete a total of 144 credits (30 on the graduate level, including six credits of Master's Research). Students selecting the non-thesis option must complete a total of 147 credits (33 on the graduate level). After completion of the baccalaureate degree, students must enroll full time on the graduate level for the fifth year.

B.S. in Legal Studies/M.A. in Sociology

This program leads to the B.S. in Legal Studies and the M.A. in Sociology in five years of full-time study. Qualified undergraduate students who have completed their sophomore year with a 3.0 cumulative index and a 3.5 index for a minimum of 12 credits in the major in Legal Studies are encouraged to apply.

Students enrolled in the thesis program must complete a total of 144 credits (30 on the graduate level, including six credits of Master's Research). Students selecting the non-thesis option must complete a total of 147 credits (33 on the graduate level). After completion of the baccalaureate degree, students must enroll full time on the graduate level for the fifth year.

B.S. in Human Services/M.A. in Sociology

This program leads to a B.S. in Human Services and an M.A. in Sociology in five years of full-time study. Qualified undergraduate students who have completed their sophomore year with a 3.0 cumulative index and a 3.5 index for 12 credits in Human Services, are encouraged to apply.

Students are required to complete a total of 146 or 149 credits (30 or 33 on the graduate level depending on thesis or non-thesis options including a field placement). After the completion of the baccalaureate degree, students must enroll full time on the graduate level for the fifth year.

For specific information with regard to any or all of these programs, please consult with the Chairperson of the Department of Sociology and Anthropology. Applications are available online at www.stjohns.edu under "Admissions." Hard copies are also available in the Office of Graduate Admissions.

Courses

103 Sociology Pro Seminar

This course introduces sociology as a discipline in the liberal arts. It focuses on the field's history and its key areas of study and introduces strategies for doing research and writing in sociology. *Credit: 3 semester hours.*

103 CRM Pro Seminar

This course introduces criminology as a discipline in the liberal arts. It focuses on the field's history and its key areas of study and introduces strategies for doing research and writing in criminology. *Credit: 3 semester hours.*

107 Social Deviance (Cf. EDU 6217)

Study of the causes and reactions to deviant behavior. Crime, drug abuse, mental illness, suicide, corporate and political malfeasance and other forms of deviance are considered. *Credit: 3 semester hours.*

115 Sociology of Gender

A comparative study of gender relations from biological, historical, psychoanalytic, social constructionist and feminist perspectives. *Credit: 3 semester hours.*

117 Family Violence

Biological and cultural foundation of interpersonal violence as it is expressed within the family. Marital violence, wife battering, child abuse, elderly abuse. Factors associated with the self-perpetuation of violence over generations. *Credit: 3 semester hours.*

118 Global Communication

Cultural differences in learning, perception and communication styles. The importance of cultural and subcultural differences in paralinguistic phenomenon such as body language, proxemic and silence. Selected issues in intercultural education. *Credit: 3 semester hours.*

119 Juvenile Delinquency

A study of social conditions under which the behavior legally termed "delinquency" develops, the agencies through which society deals with the problem and the theoretical and methodological approaches essential to understanding. *Credit: 3 semester hours.*

120 Race and Ethnicity

Minority groups in America as cultural and economic-political communities relate to the American heritage. Recent sociological, social psychological and anthropological findings and theories of intergroup relations. *Credit: 3 semester hours.*

121 Sociology of the Family

Components of family structure and organization; family cycle and mate selection; factors contributing to family stability and disorganization; emerging forms of intimate lifestyles. *Credit: 3 semester hours.*

122 Drugs and Society

This course focuses on alcoholism, drug abuse and addiction, pathological (compulsive) gambling, bulimia and other addictions. *Credit: 3 semester hours.*

127 Statistics for Social Sciences

Descriptive and inferential statistics in sociology. *Credit: 3 semester hours.*

129 Cyber Society

The twentieth-century phenomenon of mass media and the emergence of cybernetics and global communication networks as determinants and vehicles of political and cultural transformation and diffusion of new life styles. *Credit: 3 semester hours.*

130 Globalization: Origin, Meaning and Consequences

This course provides a critical discussion of the controversies surrounding the nature of globalization processes and their impact on American institutions as well as on the chances for socio-economic development in developing countries. *Credit: 3 semester hours.*

131 Sociology of Youth

Youth as a lengthy process of transition from childhood to adulthood; consequent phenomena of family conflict, long dependency, development of youth culture, mass media, rock to rap, education and delinquency. *Credit: 3 semester hours.*

133 CRM Class, Race and Criminal Justice

This course focuses on how race and social class determine who enters the criminal justice system and how criminal definitions are created and applied. *Credit: 3 semester hours.*

147 Personality, Society and Culture

Personality formation and change in cross-cultural perspective. Emphasis on psycho-social development as related to creativity, power and dominance, sex roles and sex role identity, educational processes and ethnic group membership. *Credit: 3 semester hours.*

170 Social Psychology

Systematic examination of social variables and their influence on individual behavior, personality and emotion. *Credit: 3 semester hours.*

208 Cultural Studies

The sociological study of cultural forms of life in terms of both modernist and postmodernist movements. These forms of culture include rock and roll, art, literature, rap, film, sports, the culture wars, the Internet and television. *Credit: 3 semester hours.*

209 Human Trafficking – Contemporary Slavery

This course focuses on the phenomenon of trafficking of persons (contemporary slavery) from a sociological perspective by understanding the historical, economic, political, institutional, legal and social characteristics of the problem, and the international and domestic policies and programs available to prevent it and assist its survivors. *Credit: 3 semester hours.*

210 Sociological Theory: Classical

Theories of 19th- and early 20th-century sociologists dealing with the problems of the transformation of societies from traditional to modern. *Credit: 3 semester hours.*

212 Sociological Theory: Contemporary

Analysis of various sociological discourses, including the structural-functional, critical, exchange, interpretive-symbolic and phenomenological. *Credit: 3 semester hours.*

214 CRM Restorative Justice: Principles and Practices

Examines philosophies, traditions and contemporary practices of restorative justice. Analyzes possibilities and problems of applying restorative justice to specific harms. *Credit: 3 semester hours.*

215 CRM–Policing and Society

This course offers a sociological examination of law enforcement in the United States. It reviews the historical development of policing; discusses the various roles of police in society; and examines some of the problems police confront. *Credits: 3 semester hours.*

216 CRM-White Collar Crime

The study of white collar crime as an extensive institutional phenomena of modern society. *Credit: 3 semester hours.*

218 Immigration and Inequality

This course focuses on immigration to the United States from a sociological perspective by understanding its historical, political, legal and social characteristics, and paying close attention to the relationship between birthright, naturalization, and immigration laws, citizenship and social inequality along racial, ethnic, gender, and class lines. *Credit: 3 semester hours.*

219 CRM–Punishment and Reform

A broad overview of the corrections system in the United States. Focus is on the growth in imprisonment rates and of the prison-industrial complex—and the effects on corrections personnel and inmates, their families and communities. *Credits: 3 semester hours.*

220 CRM-Organized Crime

This course examines definitions, forms, history, consequences, as well as theories of organized crime. The phenomenon of organized crime is located within the changing global economy. *Credit: 3 semester hours.*

220 Social Construction of Race in the United States

This course examines the historical and contemporary social processes that have been significant in the development of racial formations in the United States. *Credit: 3 semester hours.*

221 Sociology of News Media

This course examines the social processes involved in the production of news; including attention to the political economy of media, textual analysis, and audience studies. *Credit: 3 semester hours.*

221 CRM-Cyber Crime

This course examines crimes committed in cyberspace. Forms of cyber crime, their consequences and the limits of the law in dealing with the phenomenon are discussed. *Credit: 3 semester hours.*

222 The Global City

This course examines the increasingly important role of cities in the world. The city is analyzed within global and local contexts. The development of cities in the world and global capitalism are also discussed along with theoretical perspectives studying the city. *Credit: 3 semester hours.*

223 Urban Sociology

The interrelations among population, technology, environment and political economic structure in urban settings, the impact on social class structure, lifestyle, labor resources, consumer markets and housing. *Credit: 3 semester hours.*

224 Women and the City

Examines the informal and formal activism of women in neighborhoods, community organizations and cities. Sociological theories on urban life and recent research which investigate women are explored. *Credit: 3 semester hours.*

228 Sociology of Community

This course will focus on community processes of cohesion, conflict and change. Race, ethnic, religious and gender relations are analyzed. Power and community organization are also examined. *Credit: 3 semester hours.*

230 Sociology of Organizations

Research and theory on complex organizations. Topics discussed include: social power and control, innovation, social mobility ladders, integrating new technology, workplace democracy, complexity and size and matrix organization. *Credit: 3 semester hours.*

231 CRM Evaluating Criminal Justice Policies

This course examines the methods, techniques and measures for evaluating criminal justice agencies and policies. *Credit: 3 semester hours.*

232 CRM Criminological Theory

This course introduces students to theories of crime with a focus on sociological theories. Biological, psychological and economic theories are also discussed. *Credit: 3 semester hours.*

233 CRM–Environmental Crime and Justice

Foundations of global environmental justice. The investigation and prosecution of environmental crime emphasizing the use of forensic science and GIS for uncovering environmental racism and injustices in the U.S. and abroad. *Credit: 3 semester hours.*

234 Global Poverty

An examination of the daily lives of poor people throughout the world in their social context. This course will look critically at the failures of global policies to substantially change the conditions of the world's poor and the conditions that would have to be changed if poverty is to be ended.

Credit: 3 semester hours.

235 CRM Global Crime

Analysis of the global networks and technological, economic and cultural activities that sustain transnational criminal activities. The impact of transnational corruption and crime on social institutions will also be examined.

Credit: 3 semester hours.

240 CRM Principles of Forensic Science

Criminalistics as the interface of natural and social sciences applied to criminal investigations. Methods of forensic science that optimize the recovery of physical evidence from a crime scene. *Credit: 3 semester hours.*

241 CRM Crime Mapping

Principles of crime mapping applied to policing, forensic investigation, and prosecution of crime. Emphasizes the use of GIS for spatial analyses of crime patterns.

Credit: 3 semester hours.

243 Social Movements and Social Change

An examination of the diverse social and cultural movements that have and are currently transforming the world, including the globalization of the economy, nationalism, class struggle, feminism, postmodernism and techno-science. *Credit: 3 semester hours.*

244 Social Movements and Globalization

An examination of the diverse social and cultural movements that have, and are currently transforming the world. This entails an understanding of the social structure of the modern world and of the agents seeking to transform that world. *Credit: 3 semester hours.*

245 GIS Applications for Global Development and Social Justice

Learn Geographic Information Systems (GIS) computer applications and data analyses as research tools for mapping and critically analyzing factors that assist in global development and the promotion of social justice.

Credit: 3 semester hours.

247 Global Education

Impact of neo-liberal policies of fiscal austerity, decentralization and privatization on education within the United States and worldwide.

Credit: 3 semester hours.

249 Sociology of Education

The impact of political, economic, family and religious institutions on educational policies, administrative procedures and classroom instruction. *Credit: 3 semester hours.*

300 Social Research: Strategies and Tactics

Prerequisite: SOC 127 or at least a "B" in an undergraduate statistics course. Qualitative and quantitative data analysis in sociological research-design; observation and participatory techniques of data collection, sampling and survey operations; questionnaire, interview and scale construction. *Credit: 3 semester hours.*

301 Evaluation Research and Data Analysis

This course will focus on the analysis of data collection through qualitative and quantitative research with a focus on the evaluation of existing programs. *Credit: 3 semester hours.*

306 CRM Contemporary Issues in Criminology

This course is intended to focus on the latest developments in crime and justice. Possible topics might include: terrorism; international organized crime; illegal alien smuggling; money laundering and health care fraud.

Credit: 3 semester hours.

420 CRM Readings in Criminology: Selected Topics

Offers advanced graduate students opportunity for intensive guided study in a criminological field not covered by graduate seminars with faculty guidance and feedback. *Chair's permission required. Credit: 3 semester hours.*

420 SOC Readings in Sociology: Selected Topics

Offers advanced graduate students opportunity for intensive guided study in a sociological field not covered by graduate seminars with faculty guidance and feedback. Chair's permission required. For Sociology majors only.

Credit: 3 semester hours.

500 SOC and CRM Practicum in Applied Sociology

Sociological practice in applied settings. The student will formulate a research project for an internship or work setting. Preliminary findings are expected. Students can then enroll in either SOC 501 or 502 in the following semester.

Credit: 3 semester hours.

501 SOC and CRM Field Internship

Prerequisite: SOC 500. Course provides an opportunity to gain a working knowledge of sociological practice in a field setting and to apply sociological analysis to the field experience. Students will complete the research paper based on the proposal prepared in SOC 500. *Credit: 3 semester hours.*

502 SOC and CRM Work-Setting Research

Prerequisite: SOC 500. For students in current work settings that provide experience equivalent to a field placement (as described in SOC 501). Students complete the research paper based on the proposal prepared in SOC 500. *Credit: 3 semester hours.*

800 Colloquia

Current issues in sociology as well as other topics of current interest are presented by outside speakers or current student researchers. All students are required to attend. *No credit. No fee.*

Research Courses

900 SOC and CRM Master's Research

Supervised research leading to the preparation and completion of a thesis in partial fulfillment of the master's degree requirements.

Credit: 3 semester hours.

Maintaining Matriculation

925 Maintaining Matriculation

Master's students not registered for other courses must register for 925 until all degree requirements are completed and the degree is granted. *No Credit. Fee: \$50 per semester.*

Courses Taken Outside Department

With the permission of the department's Graduate Educational Policy Committee, a student may take up to six credits (two courses) in other departments or divisions of the University for degree credit. This option does not apply when advanced standing has been granted for courses taken at another university.

For a complete listing of approved courses, please contact the Dean's office.

Department of Theology and Religious Studies (THE)

In keeping with the mission of St. John's University as Catholic, Vincentian, and metropolitan, the Graduate Program of the Department of Theology and Religious Studies seeks to examine the rich theological heritage of the Catholic faith in light of modern human experience and concerns, with due respect for the values of other sciences, other religions, and other cultures.

As such, our program provides a supportive and challenging environment of educational excellence flexible enough to serve those interested in pursuing further theological study, professional ministry, parish service, or their own personal enrichment.

To encourage such scholarly achievement, along with keen sensitivity to the need for social justice and peace in our world, the Department offers the Father Richard Kugelman Scholarship to honor the memory of this eminent biblical theologian and former Chair, particularly in his great love for biblical studies and concern for the poor. This award enables qualified students who other-

wise could not afford it, to study Theology, especially Sacred Scripture. Each semester the Department also offers several Graduate Research Assistant positions to cover tuition costs. Interested students should contact the Department Chair for more information.

Programs of Study

In addition to the Master of Arts program, the Department offers an intensive, accelerated program enabling students to earn both their B.A. and M.A. Theology degrees in only five years of full-time study.

Master of Arts in Theology (M.A.)

Entrance Requirements

Applicants for the M.A. in Theology and Religious Studies normally must have a bachelor's degree which includes 24 credits in theology, philosophy, or related subjects, and an overall "B" average in their college studies. Any deficiencies in preparation may require supplementary course work as a condition for admission, in the form of suitable 100-level graduate courses, as determined by the Department.

Program Requirements

To earn their M.A., in consultation with their faculty advisor, students will choose and complete a total of 33 credits of course work with a "B" average, specializing in one of six main areas of Theology: (1) Biblical; (2) Historical; (3) Systematic; (4) Moral; (5) Interfaith; (6) Pastoral. Students may choose either the Thesis Option (=10 courses and THE 900) or the Non-Thesis Option (=11 courses). On completing their course work, students will take a written comprehensive exam to show their mastery of theological discourse on topics chosen from a list provided by the Department. *Note: The rules governing application and administration of this examination are found under "Comprehensive Examination" in the Graduate Division of Arts and Sciences section of this bulletin.*

Course Requirements:

- (a) Distributed Studies (=15 credits): One course each from five different areas, one of which is in the student's chosen area of specialization.
- (b) Concentration (=9 credits): Three additional courses in one's chosen area of specialization.
- (c) Electives (= 9 credits): Any three courses the student prefers.

Please note that students who choose the Thesis Option must take THE 900 as one of their electives. Students who choose to pursue Biblical Studies must take a two-course sequence in either Biblical Hebrew (=THE 111 and 112) or Biblical Greek (=THE 121 and 122) as part of their electives. There is no language requirement for the other areas of specialization.

Combined B.A./M.A. Program

Entrance Requirements

Qualified undergraduate students who have completed their sophomore year with a 3.0 cumulative index for 12 credits in Theology are encouraged to apply for this program.

Program Requirements

Students in the B.A./M.A. program matriculate for a total of 144 credits, 33 of which are on the graduate level (see the M.A. Program requirements above). Under the guidance of a faculty advisor, students take the first three graduate Theology courses in their junior and senior years, and the remaining courses in their first year of full-time graduate study. For specific information, students should check the undergraduate bulletin and contact the Director of the Graduate Theology Program.

Other Course Sequences

For interested applicants, the Department offers two non-degree course sequences designed either to introduce students to graduate theological study, or to help those who already have a master's degree in Theology refresh their knowledge and sharpen their skills. Participants must have an undergraduate degree with an overall "B" average from another accredited college or university. Students who pursue either sequence are eligible for the various tuition reduction plans offered by the University.

The standard sequence involves six courses (=18 credits), taken in any three of the six main areas of theological study listed above. The Basic Sequence requires at least three introductory courses, chosen with the help of a faculty advisor, and three electives. The Advanced Sequence allows those with an M.A. in Theology, in consultation with the Program Director, to choose courses in any three or more areas which suit their interests and needs.

On successful completion of either sequence with a "B" average or better, students receive a letter of recognition from the Department Chair indicating their achievement. The credits earned are regular graduate credits, 12 of which may be used by qualified applicants from the Basic Sequence who choose to pursue their M.A. in Theology.

Courses

Biblical Studies

General

120 Methods in Modern Biblical Interpretation

Practical and theoretical introduction to critical methods of exegesis used in contemporary Old and New Testament studies. Methods are discussed, illustrated, and used by students in analytic exercises on biblical passages. *Credit: 3 semester hours.*

280 Current Issues in Biblical Interpretation

Provides an overview of key moments in the history of biblical interpretation, and discusses present-day issues in biblical interpretation, including the authority of the Bible, the Bible in ecumenical and interfaith contexts, ecological approaches to the Bible, and the Bible in Africa, Asia, and Latin America. *Credit: 3 semester hours.*

Old Testament

111; 112 Biblical Hebrew I; II

An introduction to the phonology, morphology, and syntax of biblical Hebrew, including translation of selected passages from the Hebrew Bible. *Credit: 3 semester hours.*

160 Introduction to the Old Testament

A survey of the history and literature of Israel. Problems of Old Testament interpretation are introduced, and the books of the Old Testament are related to their ancient Near Eastern context. *Credit: 3 semester hours.*

240 The Pentateuch

Surveys critical approaches to the books of the Pentateuch-Hexateuch, introducing the literary sources which comprise the first books of the Old Testament, from Genesis to the Former Prophets. *Credit: 3 semester hours.*

241 Prophetism in Israel

Survey of critical approaches toward the prophetic books of the Hebrew Old Testament canon. Included are a discussion of prophecy in its ancient Near Eastern setting, and an introduction to the message of Israel's "classical" prophets. *Credit: 3 semester hours.*

242 The Wisdom Literature

Examines critical approaches toward "wisdom" in ancient Israel and Judaism, including discussion of ancient Near Eastern "wisdom," and an introduction to the Wisdom writings from the Greek Old Testament with special emphasis on the Psalms. *Credit: 3 semester hours.*

243 Apocalyptic Writings of the Second Temple Period

This course surveys biblical apocalyptic writings as representing both a world view and a literary genre, stressing key examples of such historical and mystical revelatory materials from the Second Temple Period, along with their enduring theological impact. *Credit: 3 semester hours.*

244 Judaism in the Second Temple Period

An overview of developing orthodox and sectarian Judaism, as manifest in its varied writings, from Ezra to the two Jewish Wars against Rome. *Credit: 3 semester hours.*

New Testament

121; 122 New Testament Greek I; II

The elements of New Testament Greek grammar and syntax, including basic vocabulary of the New Testament writings, along with selected readings from the Gospels and the Pauline letters. *Credit: 3 semester hours.*

161 Introduction to the New Testament

Surveys the earliest, normative Christian writings in their historical, cultural, and religious context within the Greco-Roman world. This course introduces students to major scholarly approaches used for studying the New Testament, its literary genres, key themes, enduring issues, and the diverse theologies manifest in the apostolic witness to Jesus of Nazareth. *Credit: 3 semester hours.*

270 The Synoptic Gospels and Modern Study

Explores the primary theological views and basic literary structures reflected in the Gospels of Matthew, Mark, and Luke, treating major scholarly theories about their mutual dependence and formulation. *Credit: 3 semester hours.*

271 The Lukan Writings

Examines the relationship between the Third Gospel and the Acts of the Apostles, along with their peculiar character as jointly proclaiming Christian "gospel." Luke's sources, background, literary style, and theological themes are explored. *Credit: 3 semester hours.*

272 The Johannine Literature

Treats the formation of the Fourth Gospel and the other Johannine writings, their structure and theology. *Credit: 3 semester hours.*

273 The Pauline Writings

A survey of Paul's career, his role in the rise of early Christianity, along with relevant Jewish and Hellenistic influences on his "gospel." *Credit: 3 semester hours.*

281 The Parables of Jesus

Explores Jesus' distinctive use of illustrative stories and images to prophetically dramatize his view of God's coming rule, and tracks the adaptation of Jesus' parabolic speech from the early Christian Church to the present. *Credit: 3 semester hours.*

282 The Passion and Resurrection Narratives

Closely examines the stories about Jesus' passion and resurrection as they appear in the four canonical Gospels, tracing complementary themes in pre-Christian Jewish tradition, in the teaching of Paul, and in early non-canonical Gospel narratives. *Credit: 3 semester hours.*

Historical Studies

130 Introduction to Church History

This course introduces the history of the Western Christian Church through a study of particular periods in its history. *Credit: 3 semester hours.*

345 History of the Development of Christian Doctrine

The course traces the notion of tradition in Christian history, and its relationship to traditions. Special attention is given to the work of Cardinal Newman's *Development of Christian Doctrine*. *Credit: 3 semester hours.*

352 The History of Christian Doctrine from the Middle Ages to the 20th Century

Special attention is given to the maturation of the theological tradition in the thought of Thomas Aquinas, the criticism of that tradition in the Age of Reform (particularly by Luther and Calvin), and the attempts to resolve this conflict in the nineteenth century. This course may be used for the specialization in Systematic Theology. *Credit: 3 semester hours.*

355 The First Six Centuries of Christianity

This course introduces students to the theology and history of the Catholic Church from the origins of the Church until AD 600. Students will examine eastern and western patristic theology by means of an interdisciplinary study of theology, philosophy, and history, using both primary and secondary sources. *Credit: 3 semester hours.*

357 Theology in the Middle Ages

Treats the theology and history of the Catholic Church during the Middle Ages (600–1500 AD). This course examines medieval theology by means of interdisciplinary study of theology, philosophy, history, and literature, using both primary and secondary texts. *Credit: 3 semester hours.*

Systematic Theology

140 Essentials of Catholic Doctrine

A one-semester survey course designed to offer an integrated exposition and overview of Roman Catholic doctrine. The major dogmatic pronouncements of the Church are systematically presented. *Credit: 3 semester hours.*

150 Introduction to Liturgy

Analyzes certain tensions in liturgical thought and celebration today, in light of the liturgy's ancient and recent past, exploring possible future liturgical trends based on present theory and practice. *Credit: 3 semester hours.*

352 The History of Christian Doctrine from the Middle Ages to the 20th Century (See Historical Studies).

Credit: 3 semester hours.

400 Christian Foundations

A critical examination of the foundations of Christian faith, giving special attention to the challenges of unbelief in today's secular society. *Credit: 3 semester hours.*

401 The Mystery of God

Examines the knowledge of God through nature and grace, treating biblical perspectives, development of the doctrine of the Trinity, God as Creator, and contemporary challenges to theism. *Credit: 3 semester hours.*

402 Christology

A study of the person and work of Jesus Christ, his mission, death and resurrection. Christological development in the New Testament and the early Church until the Council of Chalcedon, and views about Jesus through the centuries and in modern thought. *Credit: 3 semester hours.*

403 Theological Anthropology

Theological exploration into the meaning and goal of human existence as revealed in biblical revelation and as expressed through the centuries in central Christian doctrines. *Credit: 3 semester hours.*

404 Ecclesiology

The Church in the New Testament. Historical forms and basic structure of the Church. The Church and the Kingdom of God. The meaning of Christian eschatology. Ministries in the Church. *Credit: 3 semester hours.*

405 Introduction to Sacramental Theology

Explores new approaches to sacramental theology, with special attention to the sociological setting and anthropological dimension of the sacraments in their Christian context. *Credit: 3 semester hours.*

406 The Eucharist

An anthropology of symbol and the phenomenology of meal as a basis for understanding the Eucharist. Meals in the Old Testament are examined, along with selected Eucharistic themes in the New Testament. *Credit: 3 semester hours.*

407 The Healing Ministry of the Church

The history, theology, and pastoral practice of the sacrament of reconciliation, including a comparison with psychological counseling and practical demonstrations. The art of spiritual direction. Caring for the sick and ministry to the grieving. The history and pastoral practice of the anointing of the sick. *Credit: 3 semester hours.*

408 The Sacraments of Initiation

Anthropological dimensions of initiation. Initiation in the early Church. The breakdown in the unity of the initiation sacraments, and Christian Initiation today. *Credit: 3 semester hours.*

410 Theologies of Liberation

Reflection on the liberating traditions of Christian faith in light of the political-sociological world situation (This course may also be used for the specialization in Moral Theology). *Credit: 3 semester hours.*

413 The Roots of Pluralism in Theology

A critique and evaluation of various major schools of thought and conceptual frameworks that lie at the root of the principal theological approaches in contemporary Catholic theology. *Credit: 3 semester hours.*

430 Women and the Christian Tradition

Reexamines the role of women in the Christian biblical tradition: theologies of creation and redemption, priesthood and leadership; the Marian tradition; religious orders of women. *Credit: 3 semester hours.*

435 Creation—From Cosmology to Ecology

Explores the doctrine of creation in the context of its historical development, including its biblical roots, philosophical influences, and contemporary issues such as the relation between science, theology and the ecological crisis, as viewed through the work of current theologians. *Credit: 3 semester hours.*

440 Christian Hope and the World's Future

A study of contemporary theological reflection on the ultimate destiny of humanity and of the world. The major symbols of Christianity are reexamined in the light of critical biblical and historical studies. *Credit: 3 semester hours.*

532 Christian Spirituality in Historical Perspective (See Moral Theology)

Credit: 3 semester hours.

Moral Theology**170 Fundamental Moral Theology**

Examines the methods, sources, and development of Catholic moral theology. Addresses conscience, theological anthropology, Christian freedom, natural law, sin, virtue, and the use of Scripture in moral reflection. *Credit: 3 semester hours.*

523 Catholic Social Teaching

Traces the development of Catholic thought regarding the economic, political, and social spheres, and aims to formulate principles that should guide their transformation. *Credit: 3 semester hours.*

524 Theological Bioethics

Explores biomedical issues from the perspective of Christian ethics, including: social justice and health care, stem cell research, neuroscience, reproductive therapies, abortion, end-of-life decisions, and experiments involving human subjects. *Credit: 3 semester hours.*

525 Love and Sexuality: A Christian Understanding

This course provides historical, psychological, social, political, and economic perspectives on sexual issues such as marriage, celibacy, homosexuality, and heterosexuality, and seeks to formulate a socially-aware, personally satisfactory sexual ethic in accordance with Gospel values and liberating dimensions recovered from the Christian tradition. *Credit: 3 semester hours.*

526 Specific Moral Issues in a Christian Context

Examines specific moral issues (war and peace-making, globalization and its effects, human migration, homosexuality and same-sex unions, and end-of-life issues, among others) to develop a sense of method for dealing with moral problems. *Credit: 3 semester hours.*

527 Business Ethics: A Christian Perspective

Examines the moral dimensions of business activity in light of the principles of Christian Ethics, and includes moral analysis of specific cases drawn from the major areas of business. *Credit: 3 semester hours.*

529 Church, State, and Social Ethics

This course addresses theoretical questions concerning the interrelationship between social and personal morality, as well as the major socio-moral issues of our time. Readings from black, feminist, and other liberationist ethicists are included in the course. *Credit: 3 semester hours.*

532 Christian Spirituality in Historical Perspective

An introduction to the vocabulary and thought forms of Western mystical experience. Readings from selected texts of the classical spiritual writers from the New Testament to the present. (This course may also be used for the Specialization in Systematic Theology.) *Credit: 3 semester hours.*

599 McKeever Seminar in Moral Theology

This course will examine in depth an issue in the field of moral theology, led by the professor holding the McKeever Chair in Moral Theology. *Credit: 3 semester hours.*

Interfaith Studies**110 Sacred Scriptures of the East**

An introduction to the Sacred Scriptures of the East through the reading of selected texts from major works which form the basis of Eastern theology and philosophy. *Credit: 3 semester hours.*

601 Introduction to Protestantism

Surveys the basic streams of Protestant tradition, with special attention to their unity and diversity in the context of the historical development of Protestantism. *Credit: 3 semester hours.*

651 Buddhism and Christianity in Dialogue

The Buddhist religion, its origin in India, its doctrine and practice as revealed in Buddha's view of the Divine, Self, and Salvation. Buddhist monastic order, asceticism, and missionary zeal. The two Buddhist schools. This course also treats the dialogue between Buddhism and Christianity to show how both of these religions constantly strive for universal human spiritualization and world peace. *Credit: 3 semester hours.*

657 Religious Mysticism: East and West

Examines religious spirituality (mysticism) as a global phenomenon, and includes topics such as human spiritual connection with the Transcendent, mystic consciousness and experience, as well as introverted and extroverted paths to spiritual awareness and growth. *Credit: 3 semester hours.*

660 Dialogue Among Christians

The history and structures of the ecumenical dialogue among Christians, with particular attention to the concepts of the unity of the Christian Church which have been advanced by several of the Christian communions. *Credit: 3 semester hours.*

Pastoral Theology**702 Introduction to Catechesis**

An historical survey of catechetical theory and practice. This course examines the social situation of the Church, the theology used, and the resulting catechesis for their outcomes in the life of particular communities. *Credit: 3 semester hours.*

703 Catechesis for Teens and Adults

This course surveys current theory and practice of catechetical efforts to involve both teens and adults, stressing the developmental tasks of teens and adults respectively, and practical issues of creating programs to meet their needs. *Credit: 3 semester hours.*

704 Catechesis and Worship

Explores catechetical issues within the context of Christian communal worship, examining the earliest evidence of Christian liturgy as a matrix for shaping Christian faith and belief. *Credit: 3 semester hours.*

801 Introduction to Pastoral Care and Counseling

Introduces the basic concepts and fundamental skills of counseling in a pastoral setting. It requires active participation in course discussions, a research paper on a counseling philosophy or other approved topic, counseling role play, and use of counseling transcripts as learning tools. *Credit: 3 semester hours.*

802 The Church as a Community of Ministers

Explores the biblical roots and historical evolution of ministry structures, present pastoral ministry concerns, issues, and resources in specific areas of ministry, and practical strategies for engaging in ministry in today's Church. *Credit: 3 semester hours.*

803 Pastoral Ministry in Loss and Grief

Theoretical foundations for understanding the nature and universality of loss and grief. General principles of intervention and pastoral resources for healing and growth as found in community, ritual, faith, and belief. *Credit: 3 semester hours.*

823 Liturgical Celebration: Theory and Practice

Using discussion and practical exercises, this course explores the attitudes and style of an effective worshiping community, along with the context, options, and rites of the sacraments of initiation, Eucharist, reconciliation, matrimony, anointing of the sick, and children's liturgies. *Credit: 3 semester hours.*

831 Pastoral Perspectives on Marriage and Family

An in-depth exploration of Vatican II and post-Vatican II theological treatments of marriage and family life, which evaluates pastoral strategies for a variety of contemporary marriage and family issues. *Credit: 3 semester hours.*

Research Courses

900 Master's Research

Supervised research leading to the preparation and completion of a thesis in partial fulfillment of the master's degree requirements. *Credit: 3 semester hours.*

901; 902; 903 Independent Research

Individual study under the direction of a selected faculty member. The area of research must be approved in advance by the Chair and in consultation with the supervising faculty member. *Credit: 3 semester hours.*

925 Maintaining Matriculation

Master's students who are not registered for other courses must register for THE 925 until all degree requirements are completed and the degree is granted. *No credit. Fee: \$100.00 per semester.*

For a complete listing of approved courses, please contact the Graduate Dean's office.

Asian Studies

Bernadette Li, *Professor and Director*, B.A., National Taiwan University; M.A., University of Washington (Seattle); Ph.D. in History, Columbia University. Political and Intellectual History of Modern China; Chinese Women's History and Literature; Asian American Studies in History, Literature and Women.

Mei-Yi Chou, *Adjunct Instructor*, B.A., Tamkang University; M.A., St. John's University.

Nyo Chung, *Adjunct Instructor*, B.A., M.A., Sang Myung College, Korea; M.A., Long Island University

Satoko Freedman, *Adjunct Instructor*, B.A., Osaka Women's College; M.A., New York University; M.A., CUNY—Graduate Center.

Mei-Chin T. Hsiao, *Adjunct Instructor*, B.A., Chinese Cultural University; B.A., Queens College, CUNY; M.A., St. John's University.

Chao-Chih Huang, *Adjunct Instructor*, B.A., Chinese Culture University; M.A., St. John's University.

Chi-Wei Huang, *Adjunct Assistant Professor*, LL.B., National Taiwan University; LL.M., S.J.D., University of Pennsylvania.

Diana H. Kung, *Adjunct Instructor*, B.A., Nat'l Taiwan College of Art; M.A., Montclair State University.

Jacob C. Lin, *Adjunct Instructor*, B.A., University of California at Berkeley; M.A., St. John's University; Ph.D. candidate, CUNY.

John J. Metzler, *Adjunct Instructor*, B.A., M.A., St. John's University.

Michael Ranieri, *Adjunct Instructor*, B.A., St. Joseph College; M.A., St. John's University.

Hungyi Shen, *Assistant Director*, LL.B., Soochow University; M.L.I., University of Wisconsin; LL.M., University of Washington; A.B.D., St. John's University.

Jianming Shen, *Adjunct Assistant Professor*, LL.B. Peking University; LL.M., S.J.D., University of Pennsylvania.

Wen-Shan Shih, *Adjunct Assistant Professor*, B.A., Nat'l Taiwan University; M.A., University of Minnesota; Ph.D., University of Toronto.

Winnie C. Tsai, *Adjunct Instructor*, B.A., Providence College; M.A., St. John's University.

Johnson L. Tseng, *Adjunct Associate Professor*, B.A., M.B.A., Nat'l Chengchi University; M.A., Ph.D., SUNY, Albany.

Yoshiko Watanabe, *Adjunct Instructor*, B.A., Musashi University, Japan; M.A., Ed.M., Columbia University.

Anna Chen Wu, *Adjunct Instructor*, B.A., M.A., National Taiwan Normal University.

Biological Sciences

Christopher Bazinet, *Assistant Chair and Associate Professor*, B.A., University of Wisconsin; Ph.D., Massachusetts Institute of Technology. Genetics of biological assemblies; role of clathrin in development of *Drosophila melanogaster*.

Frank R. Cantelmo, *Associate Professor*, B.S. Fairleigh Dickinson University; Ph.D., CUNY. Physiological ecology of estuarine invertebrates.

Timothy H. Carter, *Professor*, A.B., Harvard University; Ph.D., Princeton University. Regulation of mammalian gene expression and the role of nuclear protein kinases.

Anne M. Dranginis, *Associate Professor*, Clare Boothe Luce Professor of Biology; B.S., University of Massachusetts; Ph.D. University of Michigan. Regulation of gene transcription; Molecular control of development in yeast.

Irvin N. Hirshfield, *Associate Professor*, B.S., University of Delaware; Ph.D., University of Pittsburgh. Molecular microbiology and microbial physiology and genetics; Regulation of gene expression in prokaryotes in response to environmental stress with special emphasis on acid stress responses; Microbial pathogenesis.

Dianella Horwarth, *Associate Professor*, B.A., University of Pennsylvania; Ph.D., Harvard University. Evolution and development of plant lineages.

Yue J. Lin, *Associate Professor*, B.S., National Taiwan University; M.S., Ph.D., Ohio State University. Cytology and Cytogenetics; Spontaneous and induced abnormalities in chromosomes; Sister chromatid exchange.

Laura Schramm, *Assistant Professor*, B.S., M.S., St. John's University; Ph.D., SUNY Stony Brook. Regulation of the cell cycle.

Richard Stalter, *Professor*, M.S., University of Rhode Island; Ph.D., University of South Carolina. Ecology of coastal plant communities; Rare and endangered plants.

Louis Trombetta, *Professor*, B.S., M.S., Ph.D., Fordham University. Electron microscopy cytology, pathology and cytochemistry; The effects of drugs in metabolism and cell degeneration, particularly in the CNS.

Ales Vancura, *Professor*, M.S., Ph.D., Prague Institute of Chemical Technology. Cellular signal transduction by lipid and protein phosphorylation; phosphatidylinositol kinases; mechanisms of intracellular protein targeting and localization.

Ivana Vancurova, *Associate Professor*. M.S., The Prague Institute of Chemical Technology. Ph.D., Institute of Microbiology, Czech Academy of Sciences. Molecular mechanisms of inflammation.

Jay A. Zimmerman, *Chair and Associate Professor*, A.B., Franklin and Marshall College; Ph.D., Rutgers University. Physiology of aging; Myocardial responses to anoxia and ischemia during senescence; Age-related susceptibility to chemical carcinogens and activation of oncogenes; nutritional control of aging.

Rachel Zufferey, *Associate Professor*, B.S./M.S. and Ph.D., Swiss Federal Institute of Technology. Characterization of the glycerolipid metabolic pathways of the vertebrate protozoan parasites *Leishmania* and trypanosomes to determine their importance in parasite development, differentiation and virulence.

Chemistry

Ernest Birnbaum, *Professor Emeritus*, B.A., University of California, M.S., University of Southern California, Ph.D., Pennsylvania State University.

James Brady, *Professor Emeritus*, B.S., Hofstra University, Ph.D., Pennsylvania State University.

David P. Brown, *Associate Professor*, B.S., University of the West Indies; M.Phil., CUNY. Synthetic Organic Chemistry; The design and synthesis of Topoisomerase II inhibitors; The convergent synthesis of Anthracycline Analogs as Antibiotic Antineoplastic Agents.

Victor Cesare, *Chairman, Associate Professor*, B.S., SUNY at Albany; M.S., St. John's University; Ph.D., St. John's University. Synthesis, stereochemistry, reactivity and medicinal applications of α -lactams.

Gina M. Florio, *Assistant Professor*, A.B. Vassar College, Ph.D. Purdue University. Structural, chemical, and electronic properties of surfaces and monolayer films; scanning probe microscopy.

Steven M. Graham, *Associate Professor*, B.S., M.S., Ph.D., SUNY at Stony Brook. Bioorganic Chemistry; Synthesis and characterization of nucleoside and nucleotide-based calcium release agents and novel nucleosides.

Claude Greco, *Professor Emeritus*, B.S., Manhattan College, M.S., New Mexico Highlands University, Ph.D., Fordham University.

Eugene M. Holleran, *Professor Emeritus*, B.S., University of Scranton; Ph.D., Catholic University of America. Equations of state and equilibrium properties of substances.

Alison G. Hyslop, *Associate Professor*, B.A., Macalester College; Ph.D., University of Pennsylvania. Bioinorganic Chemistry; Synthesis, functionalization and photophysical studies of porphyrin arrays as photosynthetic mimics.

Neil D. Jespersen, *Professor*, B.S., Washington and Lee University; Ph.D., The Pennsylvania State University. Bioanalytical and environmental analysis techniques and instrumentation.

Eugene J. Kupchik, *Professor Emeritus*, Diploma in Chemistry, B.S., Rutgers University, Ph.D. Rutgers University. Organic Chemistry.

István Lengyel, *Professor Emeritus*, B.A., Lóránd Eötvös University of Science, Ph.D., Massachusetts Institute of Technology.

Elise G. Megehee, *Associate Professor*, (Clare Booth Luce Professor), B.S., University of Rochester; M.S. University of North Carolina at Chapel Hill; Ph.D., University of North Carolina at Chapel Hill. Synthesis and characterization of new luminescent transition metal complexes. NMR, UV/Vis absorption and emission spectroscopy and electrochemistry.

William Pasfield, *Professor Emeritus*, B.S., Massachusetts Institute of Technology, Ph.D., University of Connecticut.

Richard J. Rosso, *Assistant Professor*, B.S., SUNY at Albany; Ph.D., SUNY at Buffalo. Development of novel catalysts for organic transformation, industrial scale reactions and biological use; Development of environmentally sound catalysts as alternatives for industrial scale reactions.

Joseph Serafin, *Professor*, B.S., Gannon University; M.A., M. Phil., Ph.D., Columbia University. Interfacial energetics and structure for aqueous solvation of surfaces, electrodes and biomolecules.

Ralph Stephani, *Professor* (joint appointment with College of Pharmacy), B.S., Ph.D. Organic synthesis and design of new drugs; Enzyme inhibition and chiral separations.

Siao F. Sun, *Professor Emeritus*, LL.B., National Chengchi University, China; M.S., University of Utah; M.S., Loyola University; Ph.D., University of Chicago; Ph.D., University of Illinois. Physical Chemistry of macromolecules; theoretical chemical kinetics; solution kinetics.

Anthony Testa, *Professor Emeritus*, B.S., CUNY, Ph.D., Columbia University.

Enju Wang, *Professor*, B.S., Shangdong Normal University, P.R. China; M.Sc., Nanking Soil Institute, Academia Sinica; Ph.D., ETH Zurich. Design and characterization of novel electrochemical and optical sensors; New analytical methods for applications in biological and environmental systems.

Department of Communication Sciences and Disorders

Adele Agin, *Adjunct Instructor*, B.A., Queens College; MSW., Wurzweiler School of Social Work.

Susan Antonellis, *Clinical Supervisor, (Audiology) and Adjunct Instructor*, B.A., St. John's University; M.S. St. John's University. Hearing Aids, Child Testing, Au.D., AT Still University of Health Science at Arizona.

Fredericka Bell-Berti, *Professor*, B.S., The City College, CUNY; Ph.D., The Graduate School, CUNY. Experimental phonetics, especially speech motor control; relation between speech and reading; speech perception and production of bilingual speakers.

Rebekah Buccheri, *Adjunct Instructor*, B.A., M.A., St. John's University.

Linda Carozza, *Assistant Professor*, B.A., M.A. City College of New York, MPHIL., Ph.D., The Graduate School, CUNY.

José G. Centeno, *Associate Professor*, B.A., Fordham University; M.A., University of Toronto; Ph.D., St. John's University; Bilingualism; language science and pathology in bilingual speakers; multicultural issues in speech-language pathology.

Nancy Colodny, *Associate Professor*, B.S., Emerson College; M.S., Ed.D., Teachers College, Columbia University. Dysphasia; adult neurogenetics; geriatrics.

Joseph Danto, *Adjunct Professor*, B.A., M.S. Brooklyn College, CUNY; Ph.D., The Graduate School, CUNY.

Kathryn Diaz, *Adjunct Instructor*, B.A., M.A., St. John's University.

Robert Disogra, *Adjunct Professor*, B.S., St. John's University; M.A., Hofstra University; Au.D., Pennsylvania College of Optometry.

Donna Geffner, *Professor*, B.A., Brooklyn College; M.A., Ph.D., New York University. Central Auditory Processing; Attention Deficit Disorder; Language skills of the deaf and hearing impaired; Professional Issues.

Ronni Glass, *Clinical Supervisor*, B.A., New York University, M.A., Hofstra University, Au.D., AT Still University of Health Science at Arizona.

Stephen Gonzenbach, *Adjunct Professor*, B.A., William Paterson State College; M.A., Montclair State University; M.Ed., Ed.D., Columbia University.

Toni Gordon, *Clinical Supervisor*, B.A., M.A., City College of NY; Ph.D., The Graduate School, CUNY.

Peggy Jacobson, *Associate Professor*, B.A., University of New Mexico, M.A., New Mexico State University, Ph.D., The Graduate School, CUNY.

Tina Jupiter, *Associate Professor*, B.A., Brooklyn College; M.A., Hunter College; Ph.D., Columbia University. Electrophysiological assessment; pediatric audiology evaluation.

Marc B. Kramer, *Adjunct Professor*, B.A., M.A., Temple University; Ph.D., The Graduate School, CUNY.

Barbara Kruger, *Adjunct Professor*, B.A., M.A., Queens College, Ph.D., The Graduate School, CUNY.

Tanya Linzalone, *Adjunct Assistant Professor*, B.A., M.A., St. John's University, Au.D., AT Still University of Health Science at Arizona.

Nancy McGarr, *Associate Professor*, B.A., M.A., Adelphi University; Ph.D., The Graduate School, CUNY. Speech and language skills and assessment of the deaf and hearing impaired; speech and hearing sciences; voice.

Maryrose McInerney, *Associate Professor*, B.A., Catholic University of America; M.A., Western Michigan; Ph.D. The Graduate School, CUNY.

Gina Marie Moravcik, *Adjunct Instructor*, B.A., LIU/CW Post, M.A., St. John's University.

Angela Murphy, *Clinical Supervisor*, B.S., M.A., St. John's University

Kara Nizolek, *Adjunct Instructor*, B.S., Fordham University; M.A., St. John's University

Gail M. Olenick, *Adjunct Assistant Professor*, B.A., Brooklyn College; M.S., Brooklyn College; M.S., Queensborough Community College/ St. John's University.

Thomas Rosati, *Adjunct Instructor*, B.S., St. John's University; M.S., Adelphi University.

Mitchell Trichon, *Instructor*, B.S., SUNY Albany; M.S., University of Louisiana, Lafayette.

Patricia Schwartz Veprek, *Adjunct Instructor*, B.A., M.A., St. John's University

Monica Wagner, *Instructor*, B.A., SUNY Cortland; M.A., Queens College; M.Phil., The Graduate School, CUNY.

Patrick Walden, *Assistant Professor*, B.A., Florida State University; M.A., New Mexico State University; Ph.D., Florida Atlantic University.

Susan Waltzman, *Adjunct Professor*, B.A., University of Wisconsin; M.A., Columbia University; Ph.D., City University of New York.

Arlene Wisan, *Clinical Coordinator* (Speech-Language Pathology), B.A., Speech-Language Pathology, Brooklyn College; M.A., Queens College. Speech-language disorders in children; fluency.

Yan Helen Yu, *Adjunct Instructor*, B.A., Hubei Normal University; M.A., St. John's University.

English

Dohra Ahmad, *Associate Professor*, B.A., Yale University; M.A., M.Phil., Ph.D., Columbia University. Postcolonial literature; 19th- and 20th-century American and African-American literature; South Asian literature in English; utopian fiction.

Angela Belli, *Professor*, B.A., Brooklyn College; M.A., University of Connecticut; Ph.D., New York University. Modern and contemporary drama; literature and medicine; disability studies.

Lee Ann Brown, *Associate Professor*, M.A., M.F.A., Brown University. Poetry in traditional and avant-garde forms; poetics; songs and ballads; feminist theory; southern literature; editing and publishing small press publications.

Gabriel Brownstein, *Associate Professor*, B.A., Oberlin College; M.F.A., Columbia University. Writing novels and short stories.

Scott Combs, *Assistant Professor*, B.A., The University of Chicago; M.A., Ph.D., University of California, Berkeley. International film history; American film genres; novel-to-film adaptation; the cinema and death.

Harry Denny, *Assistant Professor*, B.A., University of Iowa; M.A., University of

Colorado; Ph.D., Temple University. Composition Studies and Writing Centers, particularly as sites for studying literacy practices, community-building, access to higher education, and cross-cultural/disciplinary dialog.

Robert Fanuzzi, *Associate Professor*, B.A., College of William and Mary; Ph.D., Northwestern University. Early 18th- and 19th-century American literature; New England abolition movement; 19th-century African American literature; antebellum black public culture; trans-Atlantic antislavery movement.

Granville Ganter, *Associate Professor*, B.A., Boston University; M.A., Ph.D., CUNY. 18th- and 19th-century U.S. literature; African American literature; Native American literature.

Anne Ellen Geller, *Assistant Professor*, B.A., Mount Holyoke College; M.A., Ph.D., New York University. Composition studies; writing across the curriculum; writing centers.

Rachel Hollander, *Assistant Professor*, B.A., Swarthmore College; M.A., Ph.D., Rutgers University. 19- and early 20th-century British literature; literary theory.

Amy King, *Associate Professor*, B.A., Bates College; Ph.D., Harvard University. 19th-century British literature and culture; 18th- and 19th-century history of science; history and theory of the novel; realism; narrative and the natural world.

Brian Lockey, *Assistant Professor*, B.A., Swarthmore College; M.A., University of Sussex; Ph.D., Rutgers University. Poetry, prose, and drama of the sixteenth and seventeenth centuries, Shakespeare; Epic and romance; Transatlantic English literatures.

John Lowney, *Professor*, B.A., M.A., University of Massachusetts; Ph.D., Brown University. American poetry; modernism and modernity; 20th-century African American literature.

Kathleen Lubey, *Assistant Professor*, B.A., Ithaca College; M.A., SUNY Buffalo; Ph.D., Rutgers University. 18th-century British literature; the history of sexuality; the novel and aesthetics.

Gregory Maertz, *Professor*, B.A., Northwestern University; A.M., Ph.D., Harvard University. The legacy of Romanticism in literature, art and cultural politics; the 19th-century novel; the afterlife of Nazi culture; modernism and the Fascist aesthetic; Kitsch and camp; art and propaganda; canons and collections.

Steve Mentz, *Associate Professor*, A.B., Princeton University; M.Phil., M.A., Ph.D., Yale University. Early modern drama, fiction and poetry; the development of popular narrative; the elite/popular divide; the history of the book; the relationship between print culture, theater and manuscript publication.

Stephen Paul Miller, *Professor*, B.S., M.A., CUNY; Ph.D., New York University. Creative criticism in poetic and academic form; experimental poetry and drama; modern and contemporary art.

Melissa Mowry, *Associate Professor*, B.A., Boston University; M.A., Ph.D., University of Delaware. 17th- and 18-century British literature; political satire; Restoration republicanism and mercantilism; class and gender studies; early modern popular culture.

Lisa Outar, *Assistant Professor*, B.A., Princeton University; M.A., University of Chicago; Ph.D., University of Chicago. Postcolonial Literature and Theory; Anglophone and Francophone Caribbean literature.

Derek Owens, *Professor*, B.A., SUNY Geneseo; M.A., D.A., University at Albany. Composition theory and the teaching of writing; place-based pedagogy; visual media; experimental writing; ecological literacy.

Stephen Sicari, *Chair and Professor*, B.A., Manhattan College; M.A., Ph.D., Cornell University. Modernism and modernity; history of the novel; allegory and epic; literary theory.

Jennifer Travis, *Associate Professor*, B.A., Vassar College; M.A., Ph.D., Brandeis University. American literature and culture; women's literature; gender studies.

Elda Tsou, *Assistant Professor*, B.A., University of California, Berkeley; M.A., University of Chicago; Ph.D., Columbia University. Asian American studies; ethnic studies; literary theory; theories of racial formation.

Government and Politics

William Byrne, *Assistant Professor*, B.A., University of Pennsylvania; M.A., Ph.D., The Catholic University of America.

Raymond L. Carol, *Professor Emeritus*, B.A., John Hopkins University; M.A., Ph.D., Syracuse University. Constitutional and Administrative Law; French Politics.

Vincent Chen, *Professor Emeritus*, LL.B., Chung Cheng University, Nanchang, China; M.A., University of Chicago; Ph.D., Yale University. International Law and Diplomacy.

Fred Cocozzelli, *Assistant Professor*, B.A., Catholic University of America; M.I.A., Columbia University School of International & Public Affairs; Ph.D., New School University. Peacekeeping and post-conflict reconstruction; Southeastern Europe and the Balkans Social Policy; Ethnic Relations and Conflict; Citizenship.

William Gangi, *Professor*, B.A., M.A., St. John's University; Ph.D., University of Notre Dame. Personnel Management Administration; Public Constitutional Law.

Diane Heith, *Associate Professor*, B.A., Cornell University; A.M., Brown University; Ph.D., Brown University. American Politics; The Presidency; Public Opinion.

David W. Kearns, Jr., *Assistant Professor*, B.A., Amherst College; M.M.P. Harvard University John F. Kennedy School of Government; Ph.D., University of Virginia. International Relations Theory, Security Studies, Military Innovation, Arms Control, U.S. Foreign Policy.

Barbara Koziak, *Associate Professor*, B.A., University of Texas at Austin; M.A., Ph.D., Yale University. Political Theory; Feminist Theory; American Politics.

Azzedine Layachi, *Associate Professor*, B.A., Algiers University; M.A., Ph.D., New York University. Middle East Studies; Nationalism.

Frank Paul LeVeness, *Professor*, B.S., M.A., Ph.D., St. John's University. Latin American and Caribbean Politics and Integration; Comparative Systems; Minority Politics; Methodology; Development Politics; Political Economy.

William R. Nester, *Professor*, B.A., Miami University, Miami, Ohio; M.A., Ph.D., University of California at Santa Barbara. International Relations; Foreign Policy.

Robert F. Pecorella, *Associate Professor*, B.A., St. John's University; M.A., Brooklyn College of the CUNY; Ph.D., Pennsylvania State University. Public Administration; Urban Politics; Public Policy; Research Methods and Quantitative Analysis.

Luba Racanska, *Associate Professor*, B.A., Yale University; M.A., Ph.D., University of North Carolina at Chapel Hill. Russian Politics; East European Politics and Non-Governmental Institutions: European Union.

Uma Tripathi, *Associate Professor*, B.A., M.A., University of Bombay; Ph.D., University of Notre Dame. International Relations and Environmental Politics.

History

Dolores L. Augustine, *Professor*, B.S.F.S., Georgetown University; M.A., Ph.D., Free University of Berlin. Contemporary History, European Social and Cultural History.

Mauricio Borrero, *Associate Professor*, B.A., Georgetown University; M.A., Ph.D., Indiana University. Russian History; Sport and Popular Culture.

Elaine Carey, *Associate Professor*, B.A., M.A., Florida State University; Ph.D., University of New Mexico; Ph.D. Latin American History, Gender History.

Tracey-Anne Cooper, *Assistant Professor*, B.A., Lancaster (UK), M.A., Boston College, Ph.D. Boston College. Medieval, Renaissance.

Elizabeth Herbin, *Assistant Professor*, A.B., Harvard University; M.A. Columbia University; Ph.D. Columbia University; African American University.

Jeffrey C. Kinkley, *Professor*, A.B., University of Chicago; M.A., Ph.D., Harvard University. History of Modern China; History of Modern East Asian Culture.

Timothy Milford, *Associate Professor*, A.B., Duke University, Ph.D., Harvard University. Colonial America.

Susie J. Pak, *Assistant Professor*, B.A., Dartmouth College; M.A., Ph.D., Cornell University. 20th century United States, Race and Gender.

Nerina Rustomji, *Assistant Professor*, B.A., University of Texas; M.A., M.Phil., Ph.D., Columbia University. Middle East.

Susan Schmidt-Horning, *Assistant Professor*, B.A., Akron University, M.A., Akron University, Ph.D., Case Western Reserve Technology, Popular Culture.

Konrad Tuchscherer, *Associate Professor*, B.A., University of Wisconsin; Ph.D., University of London. African History.

Lara Vapnek, *Assistant Professor*, B.A., Barnard College; M.A., M. Phil., Ph.D., Columbia University. 19th-century United States, Labor History, Women's History.

Michael Wolfe, *Professor*, B.A., Boston University; M.A., Boston University and Johns Hopkins University; Ph.D. Johns Hopkins University. Medieval and Early Modern Europe.

Languages and Literatures

Alina L. Camacho-Gingerich, *Professor*, B.A., M.A., SUNY at Buffalo; Ph.D., University of Pittsburgh. Latin American Literature and Civilization.

María C. Dominicis, *Professor Emeritus of Spanish*, Doctorado en Filosofía y Letras, University of Havana, Cuba; Ph.D., New York University. Linguistics, 19th-and 20th-century Spain.

Marie-Lise Gazarian, *Professor*, B.A., Adelphi College; M.A., Ph.D., Columbia University. Latin American Literature and Civilization; Contemporary Spain.

Carmen F. Klohe, *Associate Professor*, B.A., Montclair State University; M.A., Queens College CUNY; M.Phil., Ph.D., Graduate Center CUNY. 18th-, 19th-and 20th-century Spain.

Eduardo Mitre, *Associate Professor*, B.A., B.A., Universidad Mayor de San Simón, Cochabamba, Bolivia; M.A., Ph.D., University of Pittsburgh. Latin American Literature.

Zoi Petropoulou, *Associate Professor*, B.A., University of Athens; M.A., Ph.D., Sorbonne, Paris. French Language and Literature.

John J. Reynolds, *Professor Emeritus of Spanish*, B.A., M.A., Ph.D., University of California at Berkeley. Golden Age period.

Nicolás J. Toscano, *Associate Professor*, Bachiller, Universidad de Granada; Lic, en Derecho, Universidad de Madrid; Ph.D, University of Massachusetts. Medieval and Golden Age Spanish Literature.

Library and Information Science

Jeffery E. Olson, *Director and Associate Professor*, B.A., University of Utah; J.D., University of Utah, College of Law; Ph.D., Stanford University. Economics, Law, Management and Leadership in Education and Library and Information Science; Distance Learning.

Kevin S. Rioux, *Assistant Professor*, B.A., Louisiana State University; M.A., M.L.I.S., Ph.D., University of Texas. Information Sharing Behaviors; Services to Special Populations; Social Activism in Librarianship; Qualitative Research Methods in Information Behavior Research; Social Informatics.

Katherine Shelfer, *Associate Professor*, B.A., M.L.S., Ph.D., Florida State University. Competitive Intelligence; Knowledge Management; Special Libraries.

James Vorbach, *Associate Professor*, B.S., SUNY, Stony Brook; M.S., Ph.D., University of Rhode Island; Information Technology.

Mathematics and Computer Science

Edward Beckenstein, *Professor*, B.S.E.E., M.S.E.E., Ph.D., Brooklyn Polytechnic Institute; Functional Analysis.

Florin Catrina, *Assistant Professor*, B.S., M.S. University of Bucharest, Ph.D. Utah State University Differential Equations.

Arnold Dikansky *Associate Professor*, B.A., M.A., The Azerbaijan State University; Ph.D., Academy of Sciences; Differential Equations.

Daniel M. Gallo, *Professor*, B.A., CUNY, Queens College; M.A., Pennsylvania State University; Ph.D., SUNY Stony Brook; Riemann Surfaces.

Leon E. Gerber, *Associate Professor*, B.S., CUNY, Brooklyn College; M.A., Ph.D., Yeshiva University; Geometry.

Alexander A. Katz, *Associate Professor*, B.S., M.S., Tashkent State University, Ph.D., University of South Africa; Operator Algebras.

Vincent J. Mancuso, *Professor Emeritus*, B.S., Fordham University; M.S., Ph.D., Rutgers University.

Luke F. Mannion, *Associate Professor*, B.Sc., M.Sc., University College, Galway, Ireland; Ph.D., Brown University; Differential Equations; Applied Mechanics.

Calvin H. Mittman, *Associate Professor*, B.S., Rensselaer Polytechnic Institute; M.A., Princeton University; Number Theory.

Richard C. Morgan, *Professor Emeritus*, B.E., Stevens Institute of Technology; M.S., Ph.D., New York University.

Lawrence R. Narici, *Professor Emeritus*, B.S., M.S., Ph.D., Polytechnic Institute of Brooklyn.

Mikhail Ostrovskii, *Professor*, M. Sc. Kharkov State University; Ph.D., Habilitation Degree in Math., The Supreme Attestation Board of U.S.S.R.; Functional Analysis.

David B. Patterson, *Associate Professor*, A.B., Grinnell College; M.A., Ph.D., Columbia University; Computer Science.

David Rosenthal, *Assistant Professor*, B.S., M.A., Ph.D., SUNY, Binghamton University; Algebraic K-Theory.

Robert O. Stanton, *Associate Professor*, B.S., St. John's University; M.S., Tulane University; Ph.D., New Mexico State University; Abelian Group Theory.

Charles R. Traina, *Professor*, B.S., St. Francis College; M.A., St. John's University; Ph.D., Polytechnic Institute of New York; Topological Measure Theory, Combinatorial Group Theory.

Vladimir Tulovsky, *Associate Professor*, M.S., Ph.D., Moscow University; Applied Mathematics.

Psychology

Andrea J Bergman, *Associate Professor*, B.A., Cornell University; M.A., Ph.D., Emory University. Phenomenology of personality disorders; Developmental psychopathology; Psychopathology among emerging adults.

Elizabeth Brondolo, *Professor*, B.S., SUNY at Purchase; M.S., Ph.D., Rutgers University. Symptom reporting and help seeking; Psychological factors in cardiovascular disease; Minority mental health.

Leonard Brosigole, *Professor*, Coordinator, General-Experimental, *Professor*, B.B.A., City College of New York; M.A., New School for Social Research; Ph.D., Yeshiva University. Perception of motion; Visual illusions; mental imagery; Mood recognition.

Elissa Brown, *Professor*, B.A. University of Pennsylvania, M.A., Ph.D. State University of New York at Albany. Assessment and treatment of children exposed to trauma and physical and sexual abuse.

Anthony F. Catalano, *Associate Professor*, B.A., Manhattan College; M.A., Ph.D., Fordham University. Errorless learning; Personality.

William F. Chaplin, *Professor*, A.B. Stanford University, Ph.D. University of Oregon. Personality, psychometrics, data analysis.

James F. Curley, *Associate Professor*, B.A., Holy Trinity Seminary, Winchester, Virginia; M.S., P.D., Ph.D., St. John's University. Psychology of religion .

Tamara DelVecchio, *Assistant Professor*, B.A., University at Albany, M.A., Ph.D., Stony Brook University. The development of early child aggression, the dysfunctional parenting that maintains child aggression.

Raymond A. DiGiuseppe, *Chair, Professor*, B.A., Villanova University; M.A., SUNY, College at Brockport; Ph.D., Hofstra University. Clinical

assessment and treatment of anger problems, therapeutic alliance in adolescents; rational-emotive behavioral therapies.

Phillip Drucker, *Associate Professor*, Research Coordinator, Center for Psychological Services, Ph.D. Brooklyn College; CUNY. Assessment of client-therapist interaction and treatment outcome; emotional and cognitive aspects of children of substance abusers.

Jeffrey W. Fagen, *Dean of Liberal Arts and Sciences, Professor*, B.A., City College of New York; M.S., Ph.D., Rutgers University. Infancy; learning and memory; developmental psychology.

Dawn P. Flanagan, *Director of the School Psychology programs, Professor*, University of Massachusetts at Amherst; M.A., Ph.D., The Ohio State University. School psychology; theoretically-based approaches to measuring intelligence; preschool screening and assessment.

Carolyn Greco-Vigorito, *Associate Professor*, B.S., Brooklyn College-CUNY; M.A., Ph.D., University of Massachusetts-Amherst. Developmental psychology; emotional, behavioral and familial characteristics of young children of alcoholics and substance abusers; false memory in college students.

Beverly Greene, *Professor*, B.A., New York University; M.A., Ph.D., Adelphi University. Gender, ethnocultural, sexual orientation and multiple identity issues in human development and psychotherapy, psychologies of African American women, psychology and social justice, feminist theory and feminist psychodynamic psychotherapies.

Ernest V. E. Hodges, *Professor*, B.S., Florida State University; M.A., Ph.D., Florida Atlantic University. Social and personality development; family-peer relationships; aggression/victimization; academic achievement; self-concept; risk for weapon carrying.

John D. Hogan, *Professor*, B.S., St. John's University; M.S., Iowa State University; Ph.D., Ohio State University. History and systems; lifespan development; contemporary trends in domestic and international psychology.

Rafael Art. Javier, *Professor*, B.A., Herbert H. Lehman College; M.A., Ph.D., New York University. Psycholinguistics; bilingualism; psychotherapy; minority mental health.

Dana Liebling, *Assistant Professor*, B.A., M.A., & Ph.D., Hofstra University. Ethical issues in school psychology, cognitive-behavioral therapy, and factors influencing academic success.

Wilson H. McDermutt, *Associate Professor*, B.A., Wesleyan University; Ph.D., American University. The diagnosis and treatment of depression and anxiety disorders; behavior therapy.

Jeffrey S. Nevid, *Director of Clinical Psychology Program, Professor*, B.A., SUNY at Binghamton, Ph.D., SUNY at Albany. Research methodology; behavior therapy; health psychology; teaching of psychology.

Samuel O. Ortiz, *Professor*, B.S., B.A., M.A., Ph.D., University of Southern California. School psychology; multicultural evaluation and nondiscriminatory assessment.

Richard J. Ozehosky, *Professor*, B.A., Niagara University; M.S. in Ed., Ph.D., St. John's University. Measurement of self-concept and its relation to other variables; eating disorders; personality testing; psychotherapy.

Frank Patalano, *Associate Professor*, B.A., M.S., City College of New York; Ph.D., Fordham University; Post-doctoral Certificate in Psychotherapy and Psychoanalysis, Postgraduate Center for Mental Health. Psychoanalytic theory and therapy; clinical child psychology; personality assessment; supervision of psychotherapy.

Alice W. Pope, *Associate Professor*, B.A., Ph.D. Pennsylvania State University. Developmental psychology, peer relations and self-perceptions of children and adolescents.

Miguel Roig, *Associate Professor*, B.A., Jersey City State College, M.A., St. John's University; Ph.D. Rutgers-Newark. Academic dishonesty; responsible conduct of research; cognitive-neuropsychological parameters of cognitive styles of thinking; paranormal and parapsychological issues.

Marlene Sotelo-Dynega, *Assistant Professor*, B.A. and M.S. Iona College; Psy.D. St. John's University. Psychoeducational assessment and school psychology and social justice.

Mark D. Terjesen, *Associate Professor*, B.A., Boston University; M.A., Ph.D., Hofstra University. School psychology, cognitive-behavioral therapy with children and adolescents, preschool assessment and intervention.

Scyatta Wallace, *Associate Professor*, B.A., Yale University; M.A., Fordham University; Ph.D., Fordham University. neighborhood context and social norms, and interventions on health and health care among Black youth.

Kate Walton, *Assistant Professor*, B.A., Kutztown State University; Ph.D. University of Illinois, Urbana-Champaign. The relationship between personality and antisocial behavior, and the relationship between normal personality traits and personality disorders.

Robin L. Wellington, *Assistant Professor*, B.S., University of Maryland; M.S., University of Pittsburgh; Ph.D., University of Pittsburgh; Post-Doctoral Fellowship, University of Chicago. Neuroendocrine response to life stressors in clinical populations. Cognitive and emotional processing of stressful events; coping and subsequent neurophysiological responses.

Zheng Zhou, *Associate Professor*, B.A., Suzhou University; M.S., Tulane University; Ph.D., Columbia University. School psychology; cross-cultural comparisons on mathematical reasoning, basic relational concept acquisition and Chinese American children's school adjustment.

Sociology/Anthropology

Barrett Brenton, *Associate Professor*, B.A., University of Nebraska, Lincoln; M.A., Ph.D., University of Massachusetts, Amherst. Anthropology; Human Ecology; Medical Anthropology.

Roderick D. Bush, *Associate Professor*, B.S., Howard University; Ph.D., SUNY at Binghamton. Race and Ethnicity; Poverty and Social Structure; Social Stratification.

Natalie P. Byfield, *Instructor*, B.A., Princeton University; M.A., Stanford University; Ph.D. Fordham University, Graduate Program in Sociology. Media Studies, Race and Ethnicity, Social Theory.

Judith N. DeSena, *Professor*, B.A., Brooklyn College; Ph.D., The Graduate School, CUNY. Sociology of Community; Sociology of Gender; Urban Sociology; Research Methods.

William DiFazio, *Professor*, B.A., Richmond College, CUNY; M.A., Ph.D., CUNY, Graduate Center. Sociology of Work; Technology and Science; Juvenile Delinquency; Social Theory; Poverty.

Anne Galvin, *Assistant Professor*, B.A., Wheaton College, M.A., Ph.D., New School for Social Research, Anthropology. African Diaspora, Jamaican and Caribbean Culture, Ethnomusicology.

Dawn Esposito, *Chair, Associate Professor*, B.A., Queens College, CUNY; Ph.D., The Graduate Center, CUNY. Social Theory; Cultural Studies, Gender; Family.

Michael Indergaard, *Professor*, B.A., St. John's University, Collegeville, MN; M.A., Ph.D., Michigan State University. Urban Sociology; Work and Labor Markets; Economy and Society.

Judith Ryder, *Assistant Professor*, B.A., University of Michigan; M.A., University of California, Santa Barbara; Ph.D. John Jay College, CUNY. Criminology, Methods.

Robert H. Tillman, *Professor*, B.A., M.A., University of Oklahoma; Ph.D., University of California, Davis. Criminology; Deviance; Methods.

Joseph Trumino, *Associate Professor*, B.A., Hunter College, CUNY; Ph.D., The Graduate School, CUNY, Urban Sociology, Sociology of Sport, Social Theory

Roberta Villalon, *Assistant Professor*, Lic. International Relations, Universidad Torcuato Di Tella, Buenos Aires, Argentina; M.A., Latin American Studies and Ph.D., Sociology, University of Texas at Austin. Feminist Theory, Inequality, Political Sociology, Social Movements.

Theology and Religious Studies

Raymond F. Bulman, *Professor*, B.A., Kilroe Seminary, Honesdale, PA; S.T.B., Pontifical Gregorian University; Ph.D., Columbia University. Systematic Theology. Foundational Theology.

Francis D. Connolly-Weinert, *Associate Professor*, B.S., St. Joseph's University (Philadelphia); M.A., Maryknoll School of Theology; Ph.D., Fordham University. New Testament Literature and Theology; Qumran Literature.

Christopher D. Denny, *Associate Professor*, B.A., St. John's College (Annapolis, MD); M.A., Ph.D., The Catholic University of America. Historical Theology, Religion and Culture; Theological Aesthetics.

Loretta M. Devoy, *O.P., Associate Professor*, B.A., St. Francis College; M.S., St. John's University; M.A., Ph.D., Fordham University. History of Modern Christianity, Spirituality.

David W. Haddorff, *Associate Professor*, B.A., University of Northern Colorado; M.A., Wheaton College Graduate School; Ph.D., Marquette University. Christian Ethics and Moral Theology, Social Ethics, American Theology and Religion.

Nicholas Healy, *Professor*, G.G.S.M. (Lond.) Guild Hall School of Music and Dram, London, England; M.A., St. Michael College, University of Toronto; M.A., Phil., Ph.D. Yale University

Joann Heaney-Hunter, *Associate Professor*, B.A., M.A., St. John's University; M.S., Long Island University; Ph.D., Fordham University; M.S., Mental Health Counseling, Long Island University. Theology, Pastoral Practice of Marriage and Family, Early Church History.

Sally A. Kenel, *Associate Professor*, B.A., Seat of Wisdom College; M.S., Rensselaer Polytechnic Institute; M.A., Ph.D., Fordham University. Theology and Ecology, Systematic Theology.

Mark Kiley, *Associate Professor*, B.A., Boston College; M.T.S., Harvard Divinity School; Ph.D., Harvard University. Biblical Studies, Biblical Greek.

Marian Maskulak, CPS, *Assistant Professor*, B.A., Lock Haven University, PA; M.A., Fordham University; S.T.L., S.T.D., Regis College, Toronto; Ph.D., University of St. Michael's College, Toronto. Theology and Spirituality.

Paul D. Molnar, *Professor*, B.A., Cathedral College of the Immaculate Conception, Huntington; M.A.; St. John's University; Ph.D. Fordham University, Systematic Theology, Christology, Trinitarian Theology, Theological Method.

Rev. Jean-Pierre Ruiz, *Associate Professor*, B.A., Cathedral College of the Immaculate Conception, Huntington; S.T.B., S.T.L., S.T.D., Pontifical Gregorian University. Biblical Studies, Hermeneutics, Hispanic/Latino Theology.

Matthew Sutton, *Assistant Professor*, B.A., University of St. Thomas, MN; M.A., Ph.D., Marquette University. Systematic Theology, Trinitarian Theology, Christology, Pneumatology, Ecclesiology, Spirituality.

Julia A Upton, R.S.M., *University Provost, Professor*, B.A., Ohio Dominican College; M.A., St. John's University; Ph.D., Fordham University. Liturgy, Sacramental Theology.

Christopher P. Vogt, *Associate Professor*, B.A., College of the Holy Cross; M.T.S., Harvard Divinity School; Ph.D., Boston College. Catholic Social Ethics, Fundamental Moral Theology.

Rev. Michael D. Whalen, C.M., *Associate Professor*, B.A., Niagara University; M.Div., Th.M., Mary Immaculate Seminary; M.A., St. Charles Seminary; M.A., LaSalle University; S.T.L., S.T.D., The Catholic University of America. Liturgical and Sacramental Theology.

Rev. Walter R. Wifall, Jr., *Professor*, B.A., M.Div., M.S.T., Concordia Seminary; Ph.D., The Johns Hopkins University. OT Literature and Theology; Biblical Hebrew.

Objectives

The School of Education has four major goals consistent with the mission and distinctive purposes of the University: (1) to prepare graduates who are competent in the subject matter they plan to teach; (2) to provide the pedagogical knowledge, understanding and skills necessary for competent, caring and qualified professionals; and (3) to have acquired a caring teaching skill as well as a basic professional knowledge of rights and responsibilities of teachers and the implications for productive relationships with other professional staff, students, parents and community members; and (4) to provide leadership in K–12 schools, faculty and administration in higher education. The School of Education's objectives are:

1. To provide a vibrant learning environment for the intellectual, professional and moral development of students.
2. To provide programs for student and societal needs; and enable students to function effectively as professionals in a dynamic multicultural, multi-ethnic society.
3. To encourage students to develop a personal philosophy of education consistent with the University's mission.
4. To foster basic and applied research in education and human services involving students and faculty.
5. To serve as a resource center to the educational community by: providing leadership and supportive services for local, state and national associations; sponsoring professional meetings and seminars; and offering consultative services for schools and community agencies.

Organization and Administration

The School of Education consists of three departments. The Department of Administrative and Instructional Leadership offers programs in curriculum and instruction, gifted education, instructional leadership and educational administration.

The Department of Human Services and Counseling offers programs in bilingual/multicultural education, counseling, literacy, and special education, and TESOL (Teaching English to Speakers of Other Languages).

The Department of Curriculum and Instruction offers programs in teacher education covering all the developmental areas.

Affiliations

The School of Education's teacher education program is accredited by TEAC, the Teacher Education Accreditation Council and includes the Undergraduate degree and license in Childhood Education, Childhood/Special Education 1–6 and Adolescent Education 7–12; Graduate degree and license in Adolescent Education, Childhood Education and Early Childhood Education; Teaching Literacy, B–6 and B–12; Special Education-Teaching Children with Disabilities-Childhood and TESOL; New York State Teaching Fellows in Childhood Education, Special Education and Mathematics.

Student Responsibilities

In addition to the general policies of the University set forth in this bulletin, students are responsible for becoming knowledgeable about New York State Certification requirements and regulations, for adhering to the academic calendar and for meeting all of the requirements of their respective academic programs. Each student must conform to the policies stated in the *Student Handbook* which may be found on-line.

Classification of Students

Matriculated Students

A matriculated student is one who has been accepted for and is actively engaged in a degree or diploma program in The School of Education at St. John's University.

Maintaining Matriculation

Master's Degree and Advanced Certificate

Continuous enrollment from date of matriculation until the degree is awarded is mandatory for students enrolled in degree programs.

Students not enrolled in course work must maintain their active status each semester by enrolling in MAINTAINING MATRICULATION at the scheduled registration period. Those who have not satisfied the continuous enrollment requirement for two or more semesters must: 1) apply for readmission; 2) be readmitted; 3) meet the program requirements in effect at that time; 4) pay appropriate maintaining matriculation fees for two semesters.

See program listings: Master's level (EDU 3925, 5925, 6925, 7925, or 9925) Advanced Certificate (EDU 5935, 6935, or 7935).

Fee: \$100 per semester.

Doctoral Degrees

The School of Education offers three doctoral degree programs, the Ed.D. in Educational Administration and Supervision, the Ed.D. in Instructional Leadership, both in the Department of Administration and Instructional Leadership, and the Ph.D. in Literacy in the Department of Human Services and Counseling.

Before sitting for the comprehensive examination, (Ed.D.) or portfolio assessment (Ph.D.), students not registered for course work must enroll in appropriate MAINTAINING MATRICULATION during the scheduled registration period.

See program listings: EDU 5940, EDU 7940. *Fee: \$100 per semester.*

After successful completion of the comprehensive examination, students must enroll in Doctoral Research, either EDU 5990 or EDU 7990, or an approved supervised research alternative until the degree is awarded. Students who have not satisfied the continuous enrollment requirement for two or more semesters must: 1) apply for readmission; 2) be readmitted; 3) *meet the program requirements in effect at that time;* and 4) pay the appropriate fees for two semesters. *Fee: \$100 per semester.*

All requirements must be completed within eight years of the date of matriculation. All degree requirements must be completed no later than three years from the successful completion of the comprehensive examination requirement. When there is sufficiently serious reason, students may petition for an extension of one year at a time, not to exceed three additional years.

Special Students (Non-Matriculated)

Only those students who meet all the school entrance requirements and who possess the necessary background are permitted to enroll in graduate courses. Special students must have the permission of the Departmental Chair and the Dean to register. Special students may only enroll for six credits of course work each semester for a maximum of 12 credits. If accepted for matriculation, the division determines which credits taken as a special student may apply toward the Master's program. In any case, no more than 12 credits completed as a special student may be credited toward a degree program. The professional diploma and doctorate programs do not permit non-matriculation status.

Our Campuses

Students have great flexibility to choose the campus where they will take their courses to complete their degree program. Students may wish to take a few courses online, the remaining at the Queens, Manhattan, Staten Island, or Oakdale center, or opt to complete an entire degree online (depending on the program of study).

Distance Learning/Online (DL)

Accredited by Middle States and the New York State Education Department, distance learning programs are equivalent with on-campus programs. Courses are taught by the same faculty who teach on-campus courses. Classes are small and actively engage students in asynchronous online collaboration with other students and communication with faculty members, so they are not isolated in their studies. They follow the same academic calendar as on-campus courses, and students have access to the vast electronic resources of the University library, academic and student services including student advising, counseling and career services. St. John's now makes it possible for students to earn their degrees without leaving their home or work. Several of our graduate degrees are available entirely online and designed for busy professionals balancing both work and family, and need the flexibility of non-campus based programs. Log-on to www.stjohns.edu/distancelearning for more details, or contact:

Kelly K. Ronayne, D.A.
Associate Dean
St. John's University
8000 Utopia Parkway
Queens, NY 11439
(718) 990-2304
graded@stjohns.edu

Queens (Q)

The park-like Queens campus is readily accessible by car, bus, subway, or air. Located between JFK and LaGuardia Airports, the campus is just off the Grand Central Parkway, which connects Nassau and Suffolk Counties to Queens, Manhattan and upstate New York.

Kelly K. Ronayne, D.A.
Associate Dean
St. John's University
8000 Utopia Parkway
Queens, NY 11439
(718) 990-2304
graded@stjohns.edu

Staten Island (SI)

The wooded Staten Island campus is located in the residential Grymes Hill section, overlooking New York Bay. The campus is just off the Staten Island Expressway, and is easily accessible by car, bus and ferry.

Steven Kuntz, Ph.D.
Associate Dean
St. John's University
300 Howard Avenue
Staten Island, NY 10301
(718) 390-4506
gradedstatenisland@stjohns.edu

Manhattan (M)

Located in New York City's Financial District, the Manhattan campus is easily accessible by mass transit. If you are traveling by car, the campus's location on the West Side Highway makes it easy to reach whether you are driving

from upstate, the city's other boroughs, Long Island, New Jersey, or any of the area's major airports. The campus is located on Murray Street, between Greenwich Street and West Street.

Programs of Study

The campus at which a particular program is offered is indicated as follows: Distance Learning (DL), Manhattan (M), Oakdale Center (O), Queens (Q) and Staten Island (SI).

Master's Degree Programs (M.S.Ed.)

Adolescent Education (Q, M, O)

- Biology 7–12
- English 7–12
- Mathematics 7–12
- Social Studies 7–12
- Spanish 7–12

Childhood Education (1–6) (Q, SI, O, M)

Childhood and Childhood Special Education (Internship) (Q, SI, M, O)

Childhood Education and T.E.S.O.L. (Q, O)

Early Childhood and Teaching Students with Disabilities (B–2) (Q)

Early Childhood Education (B–2) (Q)

Mental Health Counseling (Q, SI)

Teaching Children with Disabilities in Childhood (Q, DL, O)

School Building Leader (Q, SI, M, O, DL)

School Counselor (Q, SI)

School Counselor with Bilingual Extension (Q)

Teaching Literacy B–12 (Q, SI)

Teaching Literacy 5–12 (Q, SI, O)

Teaching Literacy B–6 (Q, SI, O) and

Teaching Children with Disabilities in Childhood Education (Q, SI, O)

Teaching Literacy B–6 (Q, SI, O) and

Teaching English to Speakers of Other Languages (TESOL) K–12 (Q, SI, O)

Teaching Literacy 5–12 (Q, SI, O) and

Teaching English to Speakers of Other Languages (TESOL) K–12 (Q, O, M)

Extension Programs

Bilingual Education (Q, O)
Gifted and Talented (Q, O)
Middle School Education 5-6 (Q, SI, M, O)
Middle School Education 7-9 (Q, SI, M, O)

Advanced Certificate Programs

Instructional Leadership (Q)
School District Leadership (DL, Q, O)
School Building/School District Leadership
(Dual P.D.) (Q, SI, O)
School Counselor (Q)
School Counselor with Bilingual Extension (Q)
Teaching Literacy B-6 (Q, SI, M, O)
Teaching Literacy 5-12 (Q, SI, M, O)
Teaching English to Speakers of other
languages (TESOL) K-12 (Q, M, O)

Literacy (Ph.D.) (Q)

Academic Information

Admission Requirements

Applicants seeking admission to graduate degree programs should consult specific program descriptions for admission requirements.

Applications for admission for the Queens campus and for courses at Oakdale may be obtained from the Office of Graduate Admissions for The School of Education. All students who are interested in obtaining an application for the Staten Island campus should contact The School of Education.

Deadlines for completed applications:
Non-Counseling Programs: Fall-August 17;
Summer-May 15; Spring-January 5 and
Counseling Programs: Fall and Summer-April 1;
Spring-November 1.

Completed Ed.D. doctoral applications, together with supporting credentials, must be filed by April 15 for the subsequent year.

The Ph.D. program in literacy operates on a cohort model. Submission of applications for each new cohort occurs during the spring semester of even numbered years. Applications should be submitted no later than April 15. Course work begins the following fall semester.

General Program Requirements

Students enrolled in classes which carry three semester credits but which meet only two hours per week are required to submit a research paper or some equivalent research project before credit may be given.

Requirements for the Master's Degree

1. Minimum of 33 or more semester hours in appropriate graduate course work as noted in each program description. This course work is planned under the direction of an assigned advisor. Only six credits may be transferred from outside.
2. A minimum of a "B" (3.0) average in all course work.
3. Fulfillment of the residence requirement for which the student must complete 18 credits in a two-year period.
4. Continuous enrollment and completion of all requirements within a five-year period.
5. For information on advanced and/or transfer credit, please consult the "Academic Information" section.

Requirements for the Advanced Certificate

1. A minimum of 30-33 credits beyond an appropriate master's degree. This course work is planned under the direction of an assigned advisor.
2. A minimum of a "B" (3.0) average in all course work.
3. Completion of a minimum of 24 program degree credits at St. John's University and fulfillment of the residence requirement for which the student must complete 18 credits in a two-year period.
4. Continuous enrollment and completion of all requirements within a five-year period.
5. For information on advanced and/or transfer credit, please consult the "Academic Information" section.

Requirements for the Doctoral Degrees

Ed.D Department of Administrative and Instructional Leadership

Programs of study for this degree require coursework distributed among areas of specialization related fields and research. The programs require the successful completion of a comprehensive examination (Q) or a portfolio review (O). The degree requirements also include the preparation and submission of an acceptable professional problem-oriented doctoral dissertation and its oral defense. The residency requirement can be met through various approaches, approved by the advisor and Department Chair.

1. A minimum of 60 semester hours beyond the Master's degree in approved graduate course work planned under the direction of an assigned advisor. Fulfillment of a full-time residency requirement as specified in the

Academic Regulations of the University and the completion of a minimum of 45 degree credits at St. John's University.

2. A minimum of a "B" (3.0) average in every course.
3. Successful completion of a comprehensive written examination. This examination covers intensively both the field of specialization and the general fields with which a doctoral candidate should be familiar. The student must make written application to take the comprehensive examination. Normally, this examination may not be taken earlier than the last semester of course work and must be taken within one year of the completion of all course work. Successful completion of this examination is a prerequisite for the submission of a topic for a doctoral dissertation. The division will review the student's application and records prior to the examination to determine eligibility to take the examination. In case of failure, one re-examination may be permitted upon the recommendation of the Department Chair and approval of the Dean.
4. Passage to Candidacy: A doctoral student acquires the status of "candidate" after he/she has successfully completed all course work, has taken and passed the doctoral comprehensive examination and has received approval of a dissertation proposal by the Dissertation Committee and the Dean.
5. Continuous enrollment and completion of all requirements within eight years. All degree requirements must also be completed no later than three years after the successful completion of the comprehensive examination.
6. Once students have passed the doctoral comprehensive examination and completed all course work requirements. Enrollment in three credits of Doctoral Research each semester (EDU 5990 or 7990) is mandatory until the degree is awarded.
7. An approved dissertation presenting evidence of a substantial contribution to existing knowledge as a result of personal research and its oral defense.

The doctoral courses and doctoral degree in the Department of Administrative and Instructional Leadership require matriculation for participation. NO ONE will be allowed to take any doctoral course work as a non matriculated student.

Each student selects a faculty mentor who serves as the student's advisor throughout the dissertation process. The student and his/her mentor will request the appointment of a dissertation research committee. This committee, composed of the mentor and a minimum of two committee members, will have primary responsibility for guiding the student in the preparation of his/her dissertation.

Ph.D.—Department of Human Services and Counseling

The program is grounded in the study of theory, of the nature of at-risk and diverse populations, and of sophisticated research methodologies. The study of theory will encompass various and diverse models of literacy acquisition and the nature and complexity of the essential components of reading (i.e., phonemic awareness, phonics, comprehension, fluency, vocabulary, and the writing process interactions with differing populations). The study of at-risk and diverse populations will occur throughout doctoral level coursework, such as in the literacy coursework, through the elective offerings, and within the research course offerings as candidates study design and method within both qualitative and quantitative research reports.

The degree requires successful completion of the annual digital portfolio which constitutes the Comprehensive Examination. The residency requirement may be fulfilled in a variety of ways by consulting with an academic advisor. The degree requirements also include the preparation and submission of an acceptable research-based doctoral dissertation and its oral defense.

1. The curriculum is offered in two tracks. One track serves those candidates who have completed a master's level program in literacy (or reading) or who have earned literacy certification in New York State through other degree programs. This track requires a minimum of 42 semester hours of doctoral-level course work completed at St. John's University (approximately 75 graduate credits in the cognate/professional and doctoral domains beyond the baccalaureate). Continuous enrollment must be maintained and enrollment in a minimum of three semester hours of dissertation credits is required after the Dissertation Seminar until the study is completed and presented.

Track two serves those candidates who have completed a master's level program in another educational field but who lack the prerequisite literacy foundational knowledge as stipulated in the standards of the International Reading Association. These students complete a minimum of 42 semester hours of doctoral course work (approximately 75 graduate credits in the cognate/professional and doctoral domains beyond the baccalaureate). Up to 24 credits in literacy foundations may be required depending on faculty review of transcripts (the option for New York state certification may be considered).

2. A minimum of a "B" (3.0) average is required in all but one course to maintain academic status.
3. Successful completion of the digital portfolio annual review for three consecutive years allows the student to present the Dissertation Proposal to the faculty. At this point the student should have begun formation of a committee.

4. Passage of Candidacy. A doctoral student requires a status of Candidate after s/he has successfully completed all coursework, has successfully completed three years of Digital Portfolio Reviews, and has received the approval of the dissertation proposal by the faculty committee, the IRB and the Dean. At this point each student has selected a faculty mentor who serves as the student's advisor through the dissertation process. The student and his/her mentor request the appointment of a dissertation research committee. This committee, composed of the mentor and from two to five committee members will have primary responsibility to guide the student in the preparation of the dissertation.
5. All degree requirements must also be completed no later than three years after the final Digital Portfolio Review.
6. Enrollment in doctoral research (EDU 3292) is mandatory until the degree is awarded. Students must register for three credits for each semester until graduation.
7. An approved dissertation offering a substantial contribution to the professional literature and to existing knowledge is accomplished as a result of the student's personal research.
8. A successful oral defense of the dissertation generally results in its approval by the faculty. At this point final corrections are made and the dissertation is prepared for printing. The student files application for graduation.

Advisement and Statement of Degree Requirements

When an applicant has been accepted into a degree or diploma program, he/she is assigned an advisor. The student's letter of acceptance will specify the advisor's name. As soon as possible after receiving the letter of acceptance but no later than the end of the first semester of course work, the student must meet with his/her advisor and secure an approved program of study which meets the needs and interests of the student and satisfies the degree or diploma requirements of The School of Education.

Academic Standing

A student is in good academic standing if he or she is enrolled as a matriculated student in a program of study leading to a degree, diploma, or certificate and is making satisfactory progress toward the completion of the program of study. Satisfactory progress is divided into two categories:

A. Nonprobationary: All students who maintain at least a 3.0 cumulative quality point index.

B. Probationary: All students whose cumulative quality point index is below 3.0, but who in the judgment of the Dean are considered to be making acceptable progress toward a 3.0 cumulative quality point index and are

permitted to continue on a matriculated basis.

Attendance Policy

Regular and prompt attendance is expected of all students.

There will be no penalty for absence from class considered in itself. However, absence from class does not excuse a student from work missed. Students are, therefore, responsible for all announced tests and for submitting all assignments at the proper times. Ignorance of such tests and assignments is no excuse for failure to satisfy requirements at specified due dates.

Individual faculty members have discretionary power to determine whether a student who missed an announced test is to be given a makeup examination. This is not to include final examination.

Incomplete "IN" Grades

Students receiving an "IN" grade must adhere to the following deadline dates for removal of same:

- a) To remove "IN" grades received during a fall semester, the student must submit all required materials on or before April 1 of the following semester.
- b) To remove "IN" grades received during a spring semester or summer session, the student must submit all required materials on or before December 1 of the following semester.
- c) Students carrying "IN" grades in required courses who plan to graduate at the fall commencement must submit all required materials on or before August 14.

Full-Time Study

Full-time study shall mean enrollment for at least 9 credits (or the equivalent) each semester (cf. Admissions: Full-Time Study). In The School of Education, independent or individualized study, practice teaching, graduate assistantships or fellowships, dissertation research and language proficiency courses may all be considered as contributing appropriately toward full-time study on a credit hour equivalent basis, if required or approved by the Dean in a plan developed in conjunction with the advisor and prefiled by each student. Independent or individualized study may include such items as participation in internships, research projects, writing journal articles or other scholarly activities undertaken with the approval of the Chair and Dean, under the supervision of a member of the faculty.

Residence

Each student pursuing the master's degree or Professional Diploma must complete 18 semester hours in a two-year period.

Each student pursuing the Doctor of Education degree must satisfy a residency requirement. The residency requirement can be met through various approaches, approved by the advisor and Department Chair.

The residence requirement for the doctoral degree insures that students become immersed in the scholarly activity of their area of specialization. This immersion plays a vital role in the development of students as scholars, and although important in relation to the courses required for the degree, it is also quite distinct from them. Since degree course credit requirements are always expressed in terms of minimums, a student may at times, in order to fulfill the residence requirement, find it necessary to enroll in course work beyond the minimums listed for the degree.

Doctoral students must submit a Statement of Residence in the first semester of study specifying the manner in which the full-time residence requirement will be fulfilled. This statement must be approved by the Advisor and Department Chair.

Comprehensive Examination Requirements

Students in the Department of Curriculum and Instruction are required to complete a thesis/project as part of their program.* All other master's students and all doctoral students must take and pass a comprehensive examination requirement. Normally, this examination MAY NOT BE TAKEN EARLIER THAN the last semester of course work. For counseling 48 or 42 credit programs, the exam may be taken in the last semester of course work with the completion of at least 36 credits at time of application. This examination requirement MUST BE SATISFIED WITHIN ONE YEAR of the completion of all course work. Students must apply for and receive permission to take the comprehensive examination in accordance with the Graduate Academic Calendar. Students must apply for and receive permission to take the comprehensive examination in accordance with the Graduate Academic Calendar. The Ph.D. program in Literacy and Educational Administration and Supervision (Oakdale) satisfy the comprehensive examination requirement through portfolio assessment.

**School Building Leadership has no comprehensive examination.*

New York State Certification and New York City Licensure of Teachers and Administrators

The School of Education offers professional preparation programs that meet the requirements for institutional endorsement for New York State certification in teaching, counseling and administration. Students are expected to assume responsibility for ascertaining their eligibility for certification and/or licensure, and are urged to confer with their advisors early in their programs to ascertain their status, since completion of the degree or diploma does

not mean automatic fulfillment of New York State certification and New York City licensure requirements. Students who complete all program requirements must apply online at the TEACH website. Institutional endorsement is automatic once all requirements are fulfilled.

Effective September 2, 1993, the New York State Education Department requires passing scores on the NYSTCE, Liberal Arts and Sciences Test (LAST), the Assessment of Teaching Skills-Written (ATS-W) and Content Specialty Test (CST) per major area for Elementary and Secondary *initial* certification.

New York State is revising the requirements for certification of Administrators. There are now two separate certifications for building-level and district-level certification. School Building Leader Certification (SBL) replaces what was formerly called SAS certification. The School District Leader Certification (SDL) replaces the certification formerly called SDA. Both certifications will require a separate New York State Certification Examination. Each exam will require a fee paid to New York State and a passing score is required for certification. The New York State regulations are in transition. Please see the online graduate bulletin for the most up-to-date SBL and SDL certification requirements.

Further, students are advised that the existing New York State Certification requirements for teaching, counseling and administration mandate that applicants furnish evidence that they have completed the New York State approved module on the identification and reporting of child abuse, maltreatment, violence prevention and autism (Special Ed students only)..

Instructional Materials Center

The Instructional Materials Center (IMC) is a unique part of the University libraries that supports and enriches the programs of The School of Education. The IMC collects and disseminates specialized information for the students with the nationwide assemblage of curriculum guides, textbooks and accompanying materials, audio-visual teaching aids and hardware, three-dimensional learning tools, publisher and distributor catalogues, educational and psychological tests, computers and software.

The existence of the IMC should enable pre-service and in-service teachers to examine the latest curriculum materials available in order to develop competency and familiarity. It is located on the fourth floor of the Queens main library.

Department of Administrative and Instructional Leadership

(Distance Learning, Manhattan, Oakdale, Queens, Staten Island)*

The Department of Administrative and Instructional Leadership offers programs in Administration and Supervision, as well as Instructional Leadership.

Programs of study offered in Administration include the School Building Leader (SBL) Master's Degree, the School District Leader (SDL) Advanced Certificate, the Dual (SBL/SDL) Advanced Certificate, and the Doctoral Degree (Ed.D.) in Administration and Supervision. Instructional Leadership Programs include an advanced certificate in Instructional Leadership and a Doctoral Degree (Ed.D.) in Instructional Leadership.

In accordance with New York State regulations, St. John's University's Department of Administrative and Instructional Leadership in the School of Education has revised the School Building Leader Master Degree and the School District Leader Advanced Certificate. These programs were recertified by New York State and initiated, at St. John's University, September 1, 2004.

The SBL Master's degree, the SDL Advanced Certificate and the SBL/SDL Dual Advanced Certificate are offered through Distance Learning as well as in the traditional classroom setting. These programs can be fulfilled completely or partially online and are fully accredited by New York State.

The Department offers an exceptional and diverse learners sequence that includes 12 credits in Educational Issues in Gifted/Talented. These courses assist teachers in securing the NYS DOE extension in the teaching of the gifted. These courses are offered through Distance Learning as well as in the traditional classroom setting. This extension to the teaching license can be secured with 12 credits in gifted education courses and a passing score on the Content Specialty Test (CST).

**Courses offered toward Master's, Advanced Certificate and Ed.D. degrees.*

Administrative and Supervision Programs (A + S)

Objectives

Programs offered lead to the Master of Science in Education degree, the Advanced Certificate and the Doctor of Education degree. The School Building Leader Master of Science program is designed to prepare students for New York State Certification as a School Building Leader (SBL). The School District Leader Advanced Certificate program is designed to prepare students for New York State Certification as a School District Leader (SDL). New York State has mandated exams for these certifications. Each student seeking SBL and/or SDL certification must take and pass the appropriate State exams in order to receive certification. These state exams are only required for students pursuing New York State certification. Like all NYS certification tests, there is a fee from New York State for this exam. For further information, students are advised to contact their academic advisor or the Department Chair. Please see the online graduate bulletin for the most up-to-date certificate requirements.

Admission Requirements for Educational Administration and Supervision

School Building Leader Master of Science Program (DL, M, Q, SI, O)

Entry requirements for the School Building Leader Master of Science Degree as well as the course requirements have been upgraded and revised in accordance with the new State School Building Leader Masters and consist of an 18-graduate credit core in School Administration, an Intensive 3-credit Internship, a 1-credit exam prep and an additional 12-graduate credits in School Administration for a total of 34 graduate credits. Important note: The New York State Department of Education requires students to have THREE years of teaching and/or pupil personnel services experience in order to be eligible for School Building Leadership.

1. A baccalaureate degree from an accredited college or university.
2. "3.0 GPA" in the general average and in the major field.
3. A minimum of three years of successful teaching experience and/or pupil personnel services.
4. New York State Permanent Teaching Certification.

The General Review and Exam Preparation involves a review of all of the state objectives in preparation for the state comprehensive exams. Several professors will be involved in preparing the course and it will be taught in a team teaching setting. On occasion, outstanding speakers will be invited to lecture. There will be

many readings assigned to reinforce the state objectives as well as help in reviewing what each student has learned in the past semesters.

Option: Certification as a School Building Leader and Permanent Certification as a Teacher.

The student is required to complete an 18 graduate credit core in School Administration, an Intensive 3-credit Internship, a 1-credit exam prep and an additional 12-credits in graduate education courses in the content core of the initial certificate or in a related content area or in pedagogy courses as prescribed by New York State for a total of 34-graduate credits.

1. A baccalaureate degree from an accredited college or university.
2. "3.0 GPA" in the general average and in the major field.
3. A minimum of three years of successful teaching experience and/or pupil personnel services.
4. New York State Provisional or Initial Teaching Certification.

School District Leader Advanced Certificate Program (DL, Q, SI, O)

Entry requirements include:

1. A baccalaureate degree from an accredited college or university.
2. "3.5 GPA" in the general average and in the major field.
3. A minimum of three years of successful teaching experience, pupil personnel services and/or school building leadership
4. New York State Permanent Teaching Certification.
5. A master's degree.

Important note: The New York State Department of Education requires a students to have THREE years of teaching, pupil personnel services and/or school building leadership experience order to be eligible for School District Leadership.

The Advanced Certificate is the culmination of required work for the School District Administrator. Individual students must successfully complete 27 credits of course work. In addition, the student must complete a 3-credit internship at the District Level. Upon completion of these 31-credits and one-credit General Review and Exam Preparation, students with a master's degree will meet the 60-credit requirement for District Level leadership. Thirty credits earned in the P.D. program may be applied toward their Ed.D.

The Advanced Certificate courses and advanced certificate program in the Department of Administrative and Instructional Leadership require matriculation for participation. NO ONE will be allowed to take any professional diploma coursework as a non matriculated student.

Requirements for SBL/SDL Dual Advanced Certificate

Entry requirements include:

1. A baccalaureate degree from an accredited college or university
2. A master's degree (with a minimum GPA of 3.0) from an accredited institution
3. A minimum of three years of successful teaching experience, pupil personnel services, and/or school building leadership
4. Programs shall require candidates to possess a permanent or professional certificate in the classroom teaching service or pupil personnel service

The Dual Advanced Certificate includes the coursework required for the School Building Leadership and School District Leadership State Certifications. Individual students must successfully complete 27 hours of required graduate course work. In addition, the student must complete a 3-credit internship in School Building Leadership and a 3-credit internship in School District Leadership. Students must also complete a one-credit intensive review and exam preparation course. In order to receive both certifications, students must take and pass the New York State School Building Leader and School District Leader examinations.

Doctoral Program (Q, O)

The doctoral program in Educational Administration and Supervision at St. John's University is an advanced professional degree program open to carefully selected and highly qualified graduate students who have manifested professional maturity and demonstrated academic ability and who are seeking to upgrade their professional preparation and acquire specialized knowledge and skills necessary for assuming administrative positions and leadership roles in educational organizations.

The doctoral courses and doctoral degree in the Department of Administrative and Instructional Leadership require matriculation for participation. NO ONE will be allowed to take any doctoral coursework as a non matriculated student.

**(Q) indicates Queens, (SI) indicates Staten Island and (O) indicates Oakdale where courses are offered for some programs.*

Applicants seeking admission to the doctoral program (Ed.D.) must submit the following evidence of their ability to pursue advanced graduate study:

1. A master's degree in education from an accredited college or university; graduate scholastic achievement must be such as to give reasonable assurance of success in work for an advanced degree. Normally this will be a "B" in prior graduate work.

- Two letters of recommendation from college instructors and additional references from field supervisors.
- Satisfactory scores on the GRE general test;
- A profile of professional accomplishments and leadership potential.
- Successful performance in an individual or group interview with members of the department's graduate education policy committee.
- Evidence of scholarship, research and writing skills as manifested in samples of term papers or other scientific papers and performance in courses in research and statistics, if available.

Programs of Study

School Building Leader Master of Science Program

Prerequisite: Please see admission requirements.
Credit Hours: 34 credits

I. Administration Core: 21 Credits

EDU 5415	Introduction to Educational Administration
EDU 5418	Administrative Theory
EDU 5471	Leadership in Instructional Supervision
EDU 5571	Administrative Leadership
EDU 5650	School Based Data
EDU 5701	Curriculum and Teaching Theories into Practice
EDU 5791	Legal Aspects and Administration of Schools

II. Electives (Three out of the following five courses—9 Credits)

EDU 5651	School Community Relations in Education
EDU 5761	School Based Business Administration for Administrators and Supervisors
EDU 5632	Organization and Administration of Elementary and Secondary School Curricula
EDU 5420	Politics of Education
EDU 5811	Administration and Supervision of Special Education Services and Compensatory Reading Programs and No Child Left Behind

OR

Nine hours of electives in master level courses in the content core, area of Initial certification or in related content area

III. Internship: 3 credits

EDU 5950 School Building Leader Internship
The internship program in School Building Leadership at St. John's University is fully integrated into the master's degree. These hours are divided in the following manner:

Part I — The first 270 hours will be embedded in the degree coursework. Students taking core courses must complete 45 hours of integrated internship activities for every core course. These activities are course requirements given to students in class. When all coursework has been completed, the student should have logged at least 270 internship hours, fulfilling the requirements of *Part I of the Internship Program*.

Part II — The remaining 270 hours will be fulfilled in a descriptive internship: EDU 5950.

The dual instructional model will enable the student to experience course related internship activities throughout the entire degree program and experience a full-time culminating internship.

The application form and the program proposal must be completed and must be signed by the school/district administrator responsible for the internship. The application form and the proposed program must be submitted to the coordinator of the internship program, Department of Administrative and Instructional Leadership, St. John's University, at least two months prior to the session in which the applicant plans to carry out his/her internship. Students must observe the following schedule and deadline dates for submitting internship proposals for approval: Spring semester: last week of November; Fall semester: last week of July. A three-credit course only will be offered in the summer. See your advisor for specific information.

IV. Capstone Course: 1 Credit

EDU 5499 General Review and Exam Preparation

The General Review and Exam Preparation involves a review of all of the state objectives in preparation for the state comprehensive exams. Several professors will be involved in preparing the course, and it will be taught in a team teaching setting. On occasion, outstanding speakers will be invited to lecture. There will be many readings assigned to reinforce the state objectives as well as help in reviewing what each student has learned in the past semesters.

V. NY State SBL Exam

This master's degree is dependent upon successfully passing the NY State SBL Exam.

School District Leader Advanced Certificate Program

Minimum Credit Hours: 31 credits

Required Program of Study

I. Administration Core: 24 Credits

EDU 5103	Educational Governance and Policy Issues
EDU 5104	School Personnel Administration
EDU 5300	Organizational Theory and Planned Change in Education
EDU 5301	Leadership Values, Decision Making and Multicultural Organizations
EDU 5420	Politics of Education
EDU 5655	Educational Research and Data Analysis I
EDU 5665	Leadership in Technology I
EDU 5741	Finance in Education
EDU 5800	Case Studies

II. Internship: 3 Credits

EDU 5951	School District Leader Internship
----------	-----------------------------------

The internship program in School District Leadership at St. John's University is fully integrated into the professional diploma. The total number of hours for completion of the internship program is 540 hours. These hours are divided in the following manner:

Part I — The first 270 hours will be embedded in the degree coursework. Students taking core courses must complete 45 hours of integrated internship activities for every core course. These activities are course requirements given to students in class. When all coursework has been completed, the student should have logged at least 270 internship hours, fulfilling the requirements of *Part I of the Internship Program*.

Part II — The remaining 270 hours will be fulfilled in a descriptive internship: EDU 5951. The dual instructional model will enable the student to experience course-related internship activities throughout the entire degree program and experience a full-time culminating internship.

The application form and the program proposal must be completed and must be signed by the school district administrator responsible for the internship program, Department of Administrative and Instructional Leadership, St. John's University, at least two months prior to the session in which the applicant plans to carry out his/her internship. Students must observe the following schedule and deadline dates for submitting internship proposals for approval: Spring Semester: last week of November; Fall Semester: last week of July. A 3-credit course only will be offered in the summer. See your advisor for specific information.

III. Capstone Course: 1 credit

EDU 5599 General Review and Exam Preparation in SDL

The General Review and Exam Preparation involves a review of all of the state objectives in preparation for the state comprehensive exams. Several professors will be involved in preparing the course, and will be taught in a team teaching setting. On occasion, outstanding speakers will be invited to lecture. There will be many readings assigned to reinforce the state objectives as well as help in reviewing what each student has learned in the past semesters.

SBL/SDL Dual Advanced Certificate

Credit Hours: 35

I. Administration Core: 27 Credits

EDU 5300 Organizational Theory and Planned Change in Education
EDU 5301 Leadership values, Decision-making and Multicultural Organizations
EDU 5103 Educational Governance and Policy Issues
EDU 5415 Introduction to Educational Administration
EDU 5471 Leadership in Instructional Supervision
EDU 5650 School Based Data Analysis
EDU 5701 Curriculum and Teaching: Theories into Practice
EDU 5741 Finance in Education
EDU 5791 Legal Aspects in Management and Administration of Schools

II. Internships: 6 Credits

EDU 5950 School Building Leader Administrative Internship
EDU 5951 School District Leader Administrative Internship

III. Capstone Courses: 2 credits

EDU 5499 General Review and Exam Preparation SBL
EDU 5599 General Review and Exam Prep SDL

IV. NY State SBL/SDL Exams

The General Review and Exam Preparation involves a review of all the state objectives in preparation for the state comprehensive exams. Several professors will be involved in preparing the course, and will be taught in a team teaching setting. On occasion, outstanding speakers will be invited to lecture.

There will be many readings assigned to reinforce the state objectives as well as help in reviewing what each student has learned in the past semesters.

Doctoral Program in Educational Administration and Supervision

The Doctoral program in Educational Administration and Supervision requires a minimum of 60 credit hours beyond a master's degree. If students are interested in pursuing NY State Leadership Certification, it is strongly recommended that they complete the associated certification requirements before applying to the Doctoral program.

Students currently enrolled in the doctoral program who desire certification at either the School Building Leader or School District Leader level, would be required to shift from the doctoral program into a certification program. Upon completion of the certification program, the student would return to their doctoral studies. Other than the internship, no additional coursework would be required.

Minimum Credit Hours: 60 beyond master's degree

Required Courses

I. Fundamentals:

All of the following: 15 credits

EDU 7004 Essential Readings for Curriculum in the 21st Century
EDU 5300 Organizational Theory and Planned change in Education
EDU 5301 Leadership Values, Decision Making and Multicultural Organizations
EDU 5103 Educational Governance and Policy Issues
EDU 5791 Legal Aspects in Management and Administration of Schools

II. Specialization

All of the following: 12 credits

EDU 5471 Leadership in Instructional Supervision
EDU 5650 School Based Data Analysis
EDU 5701 Curriculum and Teaching: Theories into Practice
EDU 5741 Finance in Education

III. Internship Seminar (3 credits)

EDU 5550 Internship Seminar in Administrative Leadership

IV. Administrative Electives

(Choose four courses—12 credits)

EDU 5415 Introduction to Educational Administration
EDU 5418 Administrative Theory
EDU 5475 Administrative and Supervisory Strategies for Implementing Programs
EDU 5551 Organization and Administrative Leadership in Higher Education
EDU 5552 Issues and Problems in the Administration of Higher Education
EDU 5665 Leadership in Technology I
EDU 5571 Administrative Leadership

EDU 5761 School Business Administration for Administrators and Supervisors
EDU 5810 Administrative Principles and Practices in the Implementation of P.L. 94-142
EDU 5811 Administration and Supervision of Special Education Services and Compensatory Reading Programs
EDU 7708 Trends and Techniques in the Evaluation of Programs

V. Research: 12 Credits

EDU 5655 Educational Research and Data Analysis I
EDU 7211 Educational Research and Data Analysis II (Prereq. EDU 5655)
EDU 7800 Multivariate Data Analysis*
EDU 7900 Qualitative Research Methods in Education*
EDU 7901 Educational Research and Data Analysis III (Prereq. EDU 5655, 7211)

* See advisors for recommendation on the choice between EDU 7800 or EDU 7900.

VI. Social and Behavioral Sciences Component: 9 credits

Choices must be made by prior approval of the academic advisor and the Chair.

- A. Anthropology
- B. Sociology
- C. Economics
- D. Political Science
- E. Business and Accounting
- F. Humanities
- G. Literature

VII. Full-time Residency Verification

VIII. Doctoral Level Comprehensive Examination

Students should see their advisor for requirements as stated in the Doctoral Handbook.

IX. Doctoral Research Seminar

EDU 5990 Doctoral Research Seminar
Must be taken each semester until dissertation and oral are approved.

Instructional Leadership Programs: Advanced Certificate and Doctoral (Q)

The advanced degree programs in Instructional Leadership have been designed to provide students with an intellectual environment that enables them to take leadership positions in the areas of curriculum, learning and instruction.

Students are expected not only to reflect upon and improve their own professional practices but also to develop leadership in facilitating the growth and development of other educators.

Admission Requirements

Advanced Certificate

Applicants must submit the following evidence of their ability to pursue graduate study:

1. Two letters of recommendation from college instructors or field supervisors;
2. A Master's degree from an accredited college or university. Graduate achievements must be such as to give reasonable assurance of success in work for an advanced degree. Normally this will be a "B" in prior graduate work. This program does not qualify students for the New York State Permanent Teacher Certification

The Advanced Certificate courses in the Department of Administrative and Instructional Leadership require matriculation for participation. NO ONE will be allowed to take any advanced certificate coursework as a non-matriculated student.

Students whose background and preparation manifest deficiencies in professional courses and teaching experience may be required to complete additional credit hours and are advised to consult with the Chair of the Department to secure approval of their programs and degree requirements.

Doctoral Program

Applicants seeking admission to the doctoral program (Ed.D.) must submit the following evidence of their ability to pursue advanced graduate study:

1. A master's degree from an accredited college or university. Graduate scholastic achievement must be such as to give reasonable assurance of success in work for an advanced degree. Normally this will be a "B" in prior graduate work.
2. Two letters of recommendation from college instructors and additional references from field supervisors
3. Satisfactory scores on the GRE general test.
4. A profile of professional accomplishments and leadership potential.
5. Successful performance in an individual or group interview with members of the department's graduate education policy committee.
6. Evidence of scholarship, research and writing skills as manifested in samples of term papers or other scientific papers and performance in courses in research and statistics if available.

The doctoral courses and doctoral degree in the Department of Administrative and Instructional Leadership require matriculation for participation. NO ONE will be allowed to take any doctoral coursework as a non-matriculated student.

Programs of Study

Advanced Certificate in Instructional Leadership

I. Core Components: 12 credits

Students must complete four out of five courses for 12 credits of the following:

EDU 7004	Essential readings in Curriculum through the 21st Century
EDU 7410	Seminar in Identification and Diagnosis of Gifted and Special Populations
EDU 7579	Observational Analysis for Teachers
EDU 5665/7665	Leadership in Technology I
EDU 7708	Trends and techniques in the Evaluation of Programs

II. Areas of Interest—Choose six of 16 Courses—18 credits

EDU 5301	Leadership Values, Decision Making and Multicultural Organizations
EDU 5471	Leadership in Instructional Supervision
EDU 5551	Organization & Administrative Leadership in Higher Education
EDU 5632	Organization and Administration of Elem. and Secondary School Curricula
EDU 5701	Curriculum and Teaching: Theories into Practice
EDU 7715	Issues in Curriculum: Theory and Development
EDU 7411	Programs, Curriculum and Materials for the Gifted and Talented
EDU 7412	Teaching Creative Thinking and Problem Solving to Gifted and Talented Students
EDU 7413	Professional Collaboration and Leadership in Gifted Education
EDU 7662	Issues in Educational Computing
EDU 7667	Foundations of Instructional Design
EDU 5650	School Based Data Analysis

III. Administration Courses (6-15 Credits).

Students interested in certification must enroll in the appropriate program. See advisor for details. Transfer credits may be accepted.

Doctoral Program (Ed.D.) in Instructional Leadership

I. Core Components 12 credits (four of the following)

EDU 7004	Essential Readings In Curriculum through the 21st Century
EDU 7579	Observational Analysis for Teachers
EDU 5665/7665	Leadership in Technology I
EDU 7708	Trends and Techniques in the Evaluation of Programs
EDU 7410	Seminar in Identification and Diagnosis of Gifted and Special Populations

II. Areas of Interest:

Students must complete 1 sequence with a minimum of 12-15 credits and 6-12 credits in 1 or 2 additional sequences for a total of 27 credits. Dissertation topic must be taken within the primary specialization.

With approval from their advisor, a student may take an independent study within any of the sequences a-e.

EDU 7890	Independent Study
----------	-------------------

Ila) Curriculum and Instruction in Teaching Sequence (6-12 credits)

EDU 5632	Organization and Administration of Elem. and Secondary School Curricula
EDU 5701	Curriculum and Teaching: Theories into Practice
EDU 7001	Curriculum and Instruction
EDU 7715	Issues in Curriculum: Theory and Development

Ilb) Instructional Technology Sequence (6-18 Credits). See Advisor to discuss eligibility and courses

EDU 5669/7669	Leadership in Technology II (Prereq. 5665/7665) Requires Dept. Approval
EDU 7270	Research Seminar in Educational Technology
EDU 7662	Issues in Educational Computing
EDU 7663	Using Technology in the Study of Qualitative Research Methodology
EDU 7664	Foundations of Distance Learning
EDU 7667	Foundations of Instructional Design

Ilc) Higher Education Sequence (6-15 Credits)

EDU 5551	Organization & Administrative Leadership in Higher Education
EDU 5552	Issues and Problems in the Administration of Higher Education
EDU 5741	Finance in Education

Ild) Exceptional and Diverse Learners Sequence (6-30 Credits) for Specialization select courses in any two areas

Area: Educational Issues of Gifted/Talented

EDU 7411	Programs, Curriculum and Materials for the Gifted and Talented
EDU 7412	Teaching Creative Thinking and Problem Solving to Gifted and Talented Students
EDU 7413	Professional Collaboration and Leadership in Gifted Education

Area: Educational Issues of Students with Disabilities

- EDU 9700 Research in Collaborative Partnerships and Strategic Instruction for General, Special and Inclusive Education
- EDU 5810 Administrative Principles and Practices in the Implementation of PL94-142
- EDU 9713 Theories of Learning and Development Related to Special and Gifted Populations

III. Internship Seminar (3 credits)

- EDU 7550 Internship Seminar in Instructional Leadership

IV. Required Research Methodology (12 credits)

- EDU 5655 Educational Research and Data Analysis I
- EDU 7211 Educational Research & Data Analysis II (Prereq. 5655)
- EDU 7901 Educational Research and Data Analysis III
- EDU 7800 Multivariate Data Analysis (Prereq. 5655 and 7211)
OR
- EDU 7900 Qualitative Research Methods in Education (Prereq. 5655)

V. Behavioral and Social Sciences Component (6 credits) Relevant courses determined by faculty advisor

(ex. Anthropology, Sociology, Speech, Business, Linguistics or in Sequence)

VI. Full-Time Residency Verification

- VII. Doctoral Comprehensive Examination.**
See doctoral handbook for requirements.

- VIII. Doctoral Research Seminar** (enrollment in EDU 7990 is required each semester until dissertation and oral are approved. Dissertation topic must be within the Specialization Sequence of 12-15 credits).

- EDU 7990 Doctoral Research Seminar

Department of Curriculum and Instruction

Early Childhood Program—Queens Childhood Program—Queens, Staten Island, Manhattan*

Adolescent Program—Queens, Manhattan*

**Coursework in the Childhood Career Change program and Adolescent Career Change Program are offered.*

The programs in the Department of Curriculum and Instruction lead to the Master of Science Degree in Education and provide opportunities for graduate students to prepare for a teaching career. In view of recent changes in the requirements for New York State professional teaching certification, students must consult with their advisor concerning eligibility for teaching certification.

Admission Requirements: Master Degree Programs

Applicants seeking admission to graduate degree programs must submit the following evidence of their ability to pursue graduate study:

A baccalaureate degree from an accredited college or university. Undergraduate scholastic achievement must be such as to give reasonable assurance of success in work for an advanced degree. Normally this will be a "B," both in the general average and in the major field.

Students are expected to have received or to have qualified for the New York State initial teaching certificate. Students who do not possess the certificate at the time they seek admission will be accepted with the understanding that they must receive this teaching certification to be eligible for institutional endorsement for the New York State permanent teaching certification.

Programs of Study

Department of Curriculum and Instruction provides eight programs of study (Adolescent: Career Change, Field Change and Continuing; Childhood: Career Change, Field Change and Continuing; Early Childhood: Career Change and Field Change; plus an additional three Career Change programs of study in collaboration with the Department of Human Services and Counseling: Childhood and Childhood Special Education; Early Childhood and Teaching Students with Disabilities (Early Childhood); and Childhood Education & T.E.S.O.L. These programs encompass a range of teaching and learning Experiences through relevant pedagogical methods and a broad knowledge of strategies for devising, imple-

menting and assessing learning experiences for all learners. Each of these programs leads to a Master of Science degree.

*For details refer to programs under The Department of Curriculum and Instruction.

Adolescent Education Master Degree Program

Career Change in Adolescent Education—42 credit program

The Career Change program is intended for students whose academic background is outside the field of education and who do not presently hold a teaching certificate.

In response to the need for teachers in grades 7–12, St. John's University offers a master's degree program — the career change program — that can qualify you for a full-time salaried teaching position.

Upon completion of the first half of the program (seven courses), meeting the liberal arts requirements as set by the Department of Education and successfully passing the New York State Teacher's Certification Examinations, you may be eligible for internship certification by the State Education Department and full-time employment in public and private schools within New York as a salaried employee. EDU 7117 and 7585 should be taken at the end of the program.

Please see your advisor for specific information.

Required Courses:

- EDU 3200 Language Acquisition and Literacy in the Content Areas*
- EDU 3270 Strategies for Teaching Literacy in the Content Areas*
- EDU 7000 Sociological/Psychological Foundations of Learning
- EDU 7107 Methods and Strategies of Teaching Middle School Learners in General and Inclusive Settings*
- EDU 7117 Associate Teaching: Adolescence
- EDU 7222 Historical Perspectives on Current Trends in Curriculum Development
- EDU 7267 Technology for Literacy-Based Applications in Content Area in "General" and Special Education Settings
- EDU 7290 Human Relations in Inclusive Settings
- EDU 7295 Teaching and Learning: Adolescent*
- EDU 7297 Integrative Research Seminar in Education

EDU 7585	Assessment and Evaluation in the Teaching/Learning Process*
EDU 7666	Developing Curriculum Materials for the Web
EDU 7702	Innovative Strategies in Secondary Education Settings*
EDU 9711	Education of Individuals with Exceptionalities

*Field Experience Courses

Field Change

The Field Change program is intended for students who have received or have qualified for an initial certification outside of Adolescent Education. *Semester hours: 33 credits.*

Required Courses:

EDU 3270	Strategies for Teaching Literacy in the Content Area*
EDU 7000	Sociological/Psychological Foundations of Learning
EDU 7107	Methods and Strategies of Teaching Middle School Learners in General and Inclusive Settings*
EDU 7222	Historical Perspectives on Current Trends in Curriculum Development
EDU 7290	Human Relations in Inclusive Settings
EDU 7295	Teaching and Learning: Adolescent*
EDU 7297	Integrative Research Seminar in Education
EDU 7585	Assessment and Evaluation in the Teaching/Learning Process**
EDU 7666	Developing Curriculum Materials for the Web
EDU 7702	Innovative Strategies in Secondary Education Settings*

*Field Experience Courses

**This course should be taken at the end of the program

One Course Elective

EDU 7412	Teaching Creative Thinking and Problem Solving to Gifted and Talented Students
or	
EDU 9006	Human Development in Cross Cultural Perspective

Continuing Program

The Continuing program is intended for students who wish to pursue a Master's degree in the same academic area as their Initial Certification. *Semester hours: 33 credits.*

Required Courses:

EDU 7000	Sociological/Psychological Foundations of Learning
EDU 7222	Historical Perspectives on Current Trends in Curriculum Development

EDU 7290	Human Relations in Inclusive Settings
EDU 7297	Integrative Research Seminar in Education
EDU 7585	Assessment and Evaluation in the Teaching/Learning Process**
EDU 7666	Developing Curriculum Materials for the Web

**This course should be taken at the end of the program

One Course Elective

EDU 7410	Identification of the Gifted and Talented
or	
EDU 9006	Human Development in Cross Cultural Perspective

12 Credits in Student's Liberal Arts Area (check one):

- Biology
- English
- Math
- Social Studies
- Spanish

Childhood Education Master's Degree Program

Career Change

The Career Change program is intended for students whose academic background is outside the field of education and do not presently hold a teaching certificate.

In response to the need for teachers in Grades 1–6, St. John's University offers a master's degree program—the career change program—that can qualify you for a full-time salaried teaching position.

Upon completion of the first half of the program (seven courses), meeting the liberal arts requirements as set by the Department of Education and successfully passing the New York State Teacher's Certification Examinations, you may be eligible for internship certification by the State Education Department and fulltime employment in public and private schools within New York as a salaried employee

Please see your advisor for specific information. *Semester hours: 42 credits*

EDU 7115 and EDU 7585 should be taken at the end of the program.

Required Courses:

EDU 3200	Language Acquisition and Literacy Development*
EDU 3220	Approaches, Materials and Performance Evaluation In Literacy Development*
EDU 7000	Sociological/Psychological Foundations of Learning
EDU 7135	Current Trends and Research in the Teaching of Social Studies*

EDU 7136	Current Trends and Research in the Teaching of Science*
EDU 7137	Current Trends and Research in the Teaching of Mathematics*
EDU 7195	Teaching and Learning: Childhood*
EDU 7222	Historical Perspectives and Current Trends in Curriculum Development
EDU 7290	Human Relations in Inclusive Settings
EDU 7297	Integrative Research Seminar in Education
EDU 7585	Assessment and Evaluation in the Teaching/Learning Process**
EDU 7266	Technology for Teaching Literacy Applications in Regular and Special Education Settings
EDU 7115	Childhood Education Associate Teaching
EDU 7666	Developing Curriculum Material for the Web (formerly Advanced Technology in Education)

*Field Experience Courses

Field Change

The Field Change Program is intended for students who have received or have qualified for an initial certification outside of Childhood Education. *Semester hours: 33 credits.*

EDU 7195 should be taken early in course work. EDU 7585 should be taken toward the end of the program.

Required Courses:

EDU 3200	Language Acquisition and Literacy Development*
EDU 7000	Sociological/Psychological Foundations of Learning
EDU 7135	Current Trends and Research in the Teaching of Social Studies*
EDU 7136	Current Trends and Research in the Teaching of Science*
EDU 7137	Current Trends and Research in the Teaching of Mathematics*
EDU 7195	Teaching and Learning: Childhood*
EDU 7222	Historical Perspectives and Current Trends in Curriculum Development
EDU 7666	Developing Curriculum Materials for the Web
EDU 7290	Human Relations in Inclusive Settings
EDU 7297	Integrative Research Seminar in Education
EDU 7585	Assessment and Evaluation in the Teaching/Learning Process**

Continuing Program

The Continuing Program is intended for students who wish to pursue a Master's degree in the same academic area as their initial certification. *Semester hours: 33 credits.*

**EDU 7585 should be taken toward the end of the program.

Required Courses:

EDU 7000	Sociological/Psychological Foundations of Learning
EDU 7222	Historical Perspectives and Current Trends in Curriculum Development
EDU 7290	Human Relations in Inclusive Settings
EDU 7297	Integrative Research Seminar in Education
EDU 7585	Assessment and Evaluation in the Teaching/Learning Process
EDU 7666	Developing Curriculum Materials for the Web

12 Credits from the following:

EDU 7135	Current Trends and Research in the Teaching of Social Studies*
EDU 7136	Current Trends and Research in the Teaching of Science*
EDU 7137	Current Trends and Research in the Teaching of Mathematics*
EDU 7138	Current Trends and Research in the Teaching of Language Arts
EDU 7129	Mathematics and Science in Early Childhood

*Field Experience Courses

3 Credit elective from the following:

EDU 7410	Identification of the Gifted and Talented
EDU 7411	Introduction to Designing Programs, Curriculum and Materials For Gifted and Talented Students
EDU 9006	Human Development in Cross Cultural Perspective

Middle School Extension

Extension for Adolescent Education certificate holders: After successfully completing EDU 7106 and 7107 courses, students will be eligible to extend their eligibility to teach grades 5 and 6 in the same content area as their original certificate.

Extension for Childhood Education certificate holders: This extension will allow students to teach grades 7, 8, and 9 in a subject area. In addition to successfully completing EDU 7106 and 7107, students must have 30 credits completed (C or better) in one content area and must pass the New York State Content Specialty Test (CST) in the same subject area to complete the extension. The School of Education's Certification Officer will review all

transcripts during the application process to assess whether or not the content area coursework has been satisfied for the extension.

Eligibility for the Programs

Applicants to each program should possess an undergraduate grade point average of B or better.

Students must possess New York State initial or professional teacher certification in either Adolescent or Childhood Education, or be in the process of attaining that credential. The Middle School Extension can only be granted to individuals who attain certification.

Application Procedure

Students not currently enrolled at St. John's University can request an application and information about the program at each of the four campuses.

Students currently enrolled at St. John's University as undergraduate seniors or graduate students should meet with their advisor to determine how to qualify for the Middle School Extension.

Required Courses in Both Certificate Programs

EDU 7106	Understanding Socio-Emotional, Cultural and Cognitive Aspects of Middle School Learners in General and Inclusive Settings (3 credits)
EDU 7107	Methods and Strategies for Teaching Middle School Learners in General and Inclusive Settings (3 credits)

Certification:

Adolescent Education Certificate Extension to Grades 5 and 6: Students satisfactorily completing the two requisite courses will be eligible to apply for certification, grades 5 and 6, in their initial content certification area. Students can apply through the School of Education for certification endorsement upon completion of the course work.

Childhood Education Certificate Extension to Grades 7, 8, and 9: Students satisfying the 30 credits in a content area with a minimum grade of C, passing the CST in that subject area, and satisfactorily completing the two requisite courses will be eligible to apply for certification, grades 7, 8, and 9 in their content area. Upon completion of the course work students can apply through The School of Education for certification endorsement in the following content areas: English, Mathematics, Spanish, Social Studies, Physics and Biology. Students who hold Childhood certification outside of those areas mentioned above can apply to the State Education Department via the "Individual

Evaluation" pathway to receive the Middle School Extension in their subject area if they have met all requirements and provide appropriate documentation.

Early Childhood Education Master's Degree Program

Career Change

The Career Change program is intended for students whose academic background is outside the field of education and do not presently hold a teaching certificate.

In response to the need for teachers' birth through Grade 2, St. John's University offers a master's degree program—the career change program—that can qualify you for a full-time salaried teaching position.

Upon completion of the first half of the program (seven courses), meeting the liberal arts requirements as set by the New York State Department of Education and successfully passing the New York State Teacher's Certification Examinations, you may be eligible for internship certification by the State Education Department and full-time employment in public and private schools within New York as a salaried employee

Please see your advisor for specific information. Semester hours: 42 credits

EDU 7114 and EDU 7585 should be taken toward the end of the program.

Required Courses:

EDU 3200	Language Acquisition and Literacy Development*
EDU 3220	Approaches, Materials and Performance Evaluation In Literacy Development
EDU 7000	Social/Psychological Foundations of Learning
EDU 7114	Early Childhood Associate Teaching
EDU 7122	Programs in Early Childhood Education: Play, Social Learning in Early Childhood Environments*
EDU 7123	Creative Arts in Linguistically/Culturally Diverse and Inclusive Early Childhood Settings*
EDU 7124	Literature in Early Childhood Education
EDU 7126	Observing and Recording the Behavior of Young Children in Early Childhood Settings*
EDU 7127	School, Family and Community Partnerships for Early Childhood Professionals
EDU 7128	Integrated Curriculum in Early Childhood*
EDU 7129	Mathematics and Science in Early Childhood
EDU 7585	Assessment and Evaluation in the Teaching Learning Process*

- EDU 7666 Developing Curriculum materials for the Web
or
EDU 7266 Technology for Teaching Literacy Applications in Regular and Special Education Settings
EDU 9711 Education of Individuals with Exceptionalities
or
EDU 9737 Early Childhood Special Education

**Field Experience Courses*

Field Change

The Field Change program is intended for students who have received or have qualified for an initial certification outside of Early Childhood Education.

Semester hours: 36 credits.

EDU 7114 and EDU 7585 should be taken toward the end of the program.

Required courses:

- EDU 3200 Language Acquisition and Literacy Development*
EDU 7000 Social/Psychological Foundations of Learning
EDU 7114 Early Childhood Associate Teaching (half semester)
EDU 7122 Programs in Early Childhood Education: Play, Social Learning in Early Childhood Environments*
EDU 7123 Creative Arts in Linguistically/Culturally Diverse and Inclusive Early Childhood Settings*
EDU 7124 Literature in Early Childhood Education
EDU 7126 Observing and Recording the Behavior of Young Children in Early Childhood Settings*
EDU 7127 School, Family and Community Partnerships for Early Childhood Professionals
EDU 7128 Integrated Curriculum in Early Childhood*
EDU 7129 Mathematics and Science in Early Childhood
EDU 7585 Assessment and Evaluation in the Teaching Learning Process
EDU 9711 Education of Individuals with Exceptionalities
or
EDU 9737 Early Childhood Special Education

**Field Experience Courses*

For a complete listing of approved courses, please contact the Dean's office.

Early Childhood and Teaching Students with Disabilities (Early Childhood) Master's Degree Program

Career Change

The Department of Curriculum and Instruction, In collaboration with the Department of Human Services and Counseling, offers a 48 credit Career Change Program leading to certification in both Early Education (B–2) and Teaching Students with Disabilities (early childhood). This program is intended for students who have not received initial certification in early childhood education and who wish to obtain additional certification in teaching students with disabilities at the early childhood level.

The program is intended for students whose academic background is outside the field of education and who do not presently hold a teaching certificate.

This program is designed to foster the development of skills, attitudes and knowledge needed to teach diverse populations of young children, birth to grade 2, in general education, early intervention, "inclusion," and self-contained special education settings. The program prepares teachers in methods of developmental assessment and of curriculum development, modification and implementation. It also promotes skills for working with interdisciplinary teams and culturally diverse families to support the learning and development of children across the range of abilities. Completion of this Career Change Master's program qualifies students for New York State initial/professional dual certification as a teacher of students in general education programs, birth to grade 2 and of students with disabilities at the early childhood level, provided students have successfully completed all state mandated external tests, training modules and teaching experiences.

Upon completion of the first half of the program (eight courses), meeting the liberal arts requirements as set by the Department of Education and successfully passing the New York State Teacher's Certification Examinations, you may be eligible for internship certification by the State Education Department and fulltime employment in public and private schools within New York as a salaried employee. Please see your advisor for specific information. *Semester hour: 48 credits.*

Required courses:

Early Childhood Pedagogical Core:

- EDU 3200 Language Acquisition and Literacy Development*

EDU 9737 Early Childhood Special Education*
EDU 9719 Principles of Applied Behavior Analysis and Positive Behavior Supports*

**Field Experience Courses*

Department of Human Services and Counseling

The Department of Human Services and Counseling offers programs and coursework in professional teacher and counseling preparation. In most instances, candidates require an initial or base certificate for entry into the teacher preparation programs in Literacy, Teaching English to Speakers of Other Languages (TESOL) and Special Education. The professional preparation coursework of 18 credits for entry into the Counseling programs varies depending on the specialization. Two dual certification career change programs in TESOL and Special Education allow candidates to earn the initial and professional coursework simultaneously. These programs, and related coursework support the University Mission as articulated by St. Vincent de Paul and carried out through academic rigor and service to the community.

At the present time at the Queens campus, the department offers a Ph.D. in Literacy and three graduate level programs and coursework in teaching literacy from birth through 12th grade. TESOL (plus a bilingual extension course sequence of 15 credits which can be added onto most base certificates); teaching students with disabilities, childhood (special education); mental health counseling, school counseling, and bilingual school counseling. Also a 42-credit Childhood and Childhood Special Education (internship) program and a 42-credit Childhood Education and TESOL program are offered for those eligible candidates lacking initial teacher certification.

At the Staten Island campus, the department offers graduate level programs and coursework in Teaching Literacy at levels B–6 and in grades 5–12; a career change program in Childhood and Childhood Special Education (internship); Mental Health Counseling; and School Counseling.

At the Oakdale, Long Island, location, special graduate level programs and coursework are offered in Literacy, TESOL, and Teaching Students with Disabilities, Childhood. Here a 12-credit sequence of TESOL courses is offered initially and complements study in the other pedagogical areas. A 15-credit bilingual course sequence, which may be added to most base teaching certificates, is offered as well. Coursework in Literacy and Special Education is offered on the Manhattan campus. Some of the department's course offerings may be taken online. "D" indicates those courses that are offered through distance learning.

Counselor education programs of study are available at the master's degree level in three different specialization areas: School Counseling, School Counseling with a Bilingual Extension and Mental Health Counseling. In addition, there is an Advanced Certificate offered in the area of School Counseling.

The three programs have been designed to meet the national standards specified by the Council on Accreditation of Counseling and Related Educational Programs (CACREP), as well as, the requirements of the New York State Department of Education. The School Counseling programs are fully accredited by CACREP accreditation standards.

Masters level programs in School Counseling and Mental Health Counseling are offered on both the Queens and Staten Island campuses. The master's level program in School Counseling with a Bilingual Extension and the Advanced Certificate in School Counseling are offered on the Queens campus only. Some of the required and elective courses are also offered online.

School Counseling Programs

The School Counseling programs require 48-credit hours for the master's level including courses in a core body of knowledge, in the unique area of specialization, and appropriate field-based clinical experiences. The core courses focus on developing competencies in four areas: professional orientation, helping relationships, group methods and career development. The specialization courses focus on developing competencies in human growth and development, cultural foundations, appraisal, research, consultation and evaluation, and organizing and administering comprehensive counseling programs in schools. The field-based clinical experiences include both a one-semester practicum and a two-semester internship in school settings. The field-based courses focus on integrating theoretical and practical knowledge in order to effectively deliver professional counseling services to students, and their families and school personnel in K–12 settings.

The School Counseling Programs are Fully Accredited by CACREP

The program in School Counseling is designed to prepare students to counsel children and youth in traditional and alternative programs in public and private elementary and secondary schools. The Bilingual Extension is intended for students fluent in English and a second language who want to counsel culturally and linguistically different youth in a variety of multiethnic/multicultural school settings.

Both programs meet the academic requirements in New York State for permanent certification for Professional School Counselor and for Professional School Counselor with bilingual extension, respectively. In both cases, permanent certification also requires two years of full-time paid employment as a School Counselor or as a Bilingual School Counselor, as appropriate. However, both programs allow students to obtain provisional certification upon the completion of thirty credits of specified course work, including the practicum in School Counseling or Bilingual School Counseling. The Master's in School Counseling

requires the completion of twelve credits of core counseling courses, 33 credits of specialization courses and three credits in counseling or related area electives. The Bilingual Extension requires the completion of 12 credits of core courses and 36 credits of specialization courses. Students seeking Professional School Counselor certification in states other than New York State should become informed regarding certification requirements in those states and meet with their advisors to plan accordingly. Students in New York State must attend two seminars (Child Abuse and Violence Prevention), as well as, be fingerprinted before applying for provisional or permanent certification in New York.

Admission requirements:

1. A baccalaureate degree from an accredited college or university with undergraduate scholastic achievement indicating reasonable assurance of success in work for an advanced degree. Normally this will be a "B" (3.0) both in the general average and in the major field.
2. A minimum of 18 credits in the behavioral and social sciences and/or professional education courses. Students who do not fully meet this requirement will need to make up deficit credits by completing course work in those areas, in addition to the usual program requirements.
3. Two letters of recommendation from college instructors or field supervisors.
4. An interview with counseling faculty.
5. The interest, ability and personality to function successfully in the field of counseling.
6. In addition to the above, applicants to the bilingual school counseling program must demonstrate language proficiency in both English and the target language by passing the New York State Bilingual Assessment (BEA) that is administered by the New York State Education Department. The BEA is required of candidates seeking a bilingual extension to a certificate.

Counselor Education Program (Q, SI): Master Degree

The programs in counselor education provide opportunities for graduate students to prepare themselves for counseling and leadership positions in counseling in a variety of settings. The programs provide an integrated approach to theory and practice and aim at meeting the professional educational needs of both full-time and part-time students in the urban and suburban environments that the University serves.

Programs of Study in School Counseling and Bilingual Extension

All master's degree programs require the completion of a 48-credit hour program and the successful completion of the required comprehensive examination. Since programs of study are designed to meet the unique needs

of every student, students in all programs must meet with their assigned program advisor before beginning course work to identify program requirements and complete program advisement forms. Counseling students are required to have liability insurance for the duration of their studies. Typical 48-semester hour programs are indicated below:

Core Courses (12 credits)

6122	Orientation to School Counseling
6205	Group Dynamics
6264	Counseling Skills and Techniques
6301	Career Development

School Counseling Program

Specialization Courses (33 credits)

6207	Developmental Counseling
6208	Counseling and Personality Theories
6262	Assessment in Counseling
6206	Psychosocial Development
6305	Practicum in School Counseling
6307	Research in Counseling
6530	Multicultural Counseling
6590	Internship in Counseling I
6591	Internship in Counseling II
6595	Organization and Administration of Pupil Personnel Services
6650	Consultation and Evaluation in Schools

Elective Courses (3 credits)

Students in the School Counseling program may select three credits in elective courses related to the student's needs, interests and career goals but these must be approved by the program coordinator or advisor. A sample of the elective courses provided by the department include:

6125	Brief Counseling Methods for Children and Adolescents
6211	Crisis Prevention and Intervention I
6364	Counseling the Substance Abuser

In addition to the elective courses offered within the Counseling Program, students can choose with the approval of their individual advisor to take particular courses from either the Special Education program or the School Psychology Program. Examples of such courses include but are not limited to:

9711	Education of Exceptional Individuals
9719	Principles of Applied Behavior Analysis and Positive Behavior Supports
620	Cognitive Psychology of Academic Learning
715	Assessment, Diagnosis, and Remediation of Learning Disabilities
751	Interventions with Developmentally Delayed Children and Adults

School Counseling with Bilingual Extension (36 credits)

6207	Developmental Counseling
6208	Counseling and Personality Theories
6262	Assessment in Counseling
6206	Psychosocial Development

6306	Bilingual Practicum in School Counseling
6307	Research in Counseling
6530	Multicultural Counseling
6592	Bilingual Internship in Counseling I
6593	Bilingual Internship in Counseling II
6595	Organization and Administration of Pupil Personnel Services
6650	Consultation and Evaluation
9001	Foundations of Bilingual and Second Language Education

Advanced Certificate in School Counseling

Admission requirements:

In order to be eligible for the advanced certificate in school counseling, applicants must have successfully completed a master's program in counseling or its equivalent and have adequate experience in the field. Applicants should have a minimum of a 3.0 index in graduate course work and must submit two letters of recommendation with their application. An interview with the counseling faculty is also required.

Program of study:

Students who have completed a master's degree in counseling and have relevant experience in the field have the opportunity to earn an Advanced Certificate in school counseling. The program is designed to provide additional professional preparation for advanced graduate students. The specific courses required depend upon a student's area of specialization and must be approved by the individual's faculty advisor. Candidates for the Advanced Certificate in school counseling will have their credentials evaluated by the faculty to determine which courses will be taken. The total number of credits required for the Advanced Certificate, including the master's degree, is 60 credits.

Mental Health Counseling Program

The program in Mental Health Counseling is designed to prepare students to become professionals who use assessment instruments and mental health counseling and psychotherapy to identify, evaluate and treat dysfunctions and disorders of individuals, couples, their families or groups in private practice, group or organized settings. The program has been approved by the New York State Education Department as license qualifying and it is also designed to meet the requirements for accreditation from the Council for the Accreditation of Counseling and Related Education Programs (CACREP).

The Mental Health Counseling program requires sixty-credit hours for the master's degree consisting of a core body of knowledge (45 credits), three field-based experience internships (9 credits) and 6 credits of elective coursework. Students who are seeking licensure in New York are also required to complete at least two clock hours of training in the

identification and reporting of child abuse and maltreatment as a condition of licensure.

As a license qualifying program the master's degree in Mental Health Counseling fulfills the educational requirement for licensure. There are two additional requirements that must be fulfilled before individuals can obtain the license as a "mental health counselor." They must complete a minimum of three thousand hours of post-master's supervised experience relevant to the practice of mental health counseling and pass a State examination. Additional information can be found on this website: <http://www.op.nysed.gov/prof/mhp/mhclc.htm>

Admission requirements:

1. A baccalaureate degree from an accredited college or university with undergraduate scholastic achievement indicating reasonable assurance of success in work for an advanced degree. Normally this will be a "B" (3.0) both in the general average and in the major field.
2. A minimum of 18 credits in the behavioral and social sciences that includes a course in statistics and another in research design. Students who do not fully meet these requirements will need to make up deficit credits by completing course work in those areas, in addition to the usual program requirements.
3. Two letters of recommendation from college instructors or field supervisors.
4. An interview with counseling faculty.
5. The interest, ability and personality to function successfully in the field of counseling.

Program of study:

The master's degree program requires the completion of a 60-credit hour program and the successful completion of the required comprehensive examination. Since programs of study are designed to meet the unique needs of every student, students must meet with their assigned program advisor before beginning course work to identify program requirements and complete program advisement forms. Counseling students are required to have liability insurance for the duration of their studies. Typical 60-semester hour programs are indicated below:

Core Courses (42 credits)

6121	Orientation to Mental Health Counseling
6205	Group Dynamics
6206	Psychosocial Development
6208	Counseling and Personality Theory
6262	Assessment in Counseling
6264	Counseling Skills and Techniques
6270	Case Conceptualization, Treatment Planning and Psychopharmacology
6301	Career Development
6307	Research in Counseling
6651	Foundations of Mental Health Counseling and Consultation
726	Psychopathology I

727	Psychopathology II
635	Objective Personality Assessment
6424	Case Studies and Community Resources
6530	Multicultural Counseling

Internships (9 credits)

6310	Internship in Mental Health Counseling I
6311	Internship in Mental Health Counseling II
6312	Internship in Mental Health Counseling III

Elective Courses (6 credits)

Students in the Mental Health Counseling program may select six credits in elective courses related to the student's needs, interests and career goals but these must be approved by the program coordinator or advisor. Courses may be chosen from within the counseling program or from select courses within the psychology department. The courses from within the counseling department include:

6125	Brief Counseling of Children and Adolescents
6211	Crisis Prevention and Intervention
6309	Research in Counseling II
6364	Counseling the Substance Abuser
6610	Spiritual Issues in Counseling and Psychotherapy

The courses from within the psychology department include:

631	Psychoanalytic Psychotherapy
671	Personality Assessment
749	Behavior Therapy
750	Interventions with Developmentally Delayed Children and Adults
760	Marital and Family Therapy
850	Cognitive Psychotherapy

Literacy Programs

The department offers a Ph.D. in Literacy and three Master's level graduate programs with specialization in the teaching of literacy. These graduate programs lead to initial or professional certification in, Teaching Literacy, Birth through Grade 6, Teaching Literacy, Grades 5 through 12, or Teaching Literacy, Birth through Grade 12.

The department also offers: a dual master's degree in Literacy/Special Education and Literacy/Teaching English to Speakers of Other Languages (T.E.S.O.L.) K-12, each 48 credits and two advanced certificates in literacy.

Completion of these programs qualify students for New York State initial or professional certification in the literacy certifying areas, provided they have met prerequisite requirements; they have successfully completed all State mandated external tests, training modules and field experiences, and they have met citizenship requirements.

Requirements for the Advanced Certificate in Literacy B-6 or 5-12. (21 credits)

Must possess a Master's Degree and initial

certification. Must maintain a "B" (3.0) average in all course work. Must complete 50 hour practicum. Must pass Content Specialty Test in Literacy to obtain State Certification

Description:

The Advanced Certificate in Literacy Programs, B-6 or 5-12 requires 21 credits of literacy courses. This certificate enables the initially certified teacher to acquire the skills to teach reading, writing, and related language arts to students from early childhood to high school levels. In addition, the student will acquire skills to become a reading specialist capable of assessing reading and writing ability and providing instruction to help children and adolescents with literacy-related problems. This program will be offered on the Queens, Staten Island, Oakdale and Manhattan sites. Literacy courses (6 credits) taken as part of a previously earned Master's in Education may be counted for this Advanced Certificate.

Program of Study:

Advanced Certificate in Literacy B-6 (21 Credits)

EDU 3200	Language Acquisition and Literacy Development
EDU 3210	Research and Practice of Teaching Writing in General and Inclusive Education
Or	
EDU 3264	Teaching Literacy through Literature, B-6
EDU 3220	Approaches, Materials, and Performance Evaluation
EDU 3230	Diagnosis and Recommendations for Literacy Performance
EDU 3270	Theories of and Strategies for Teaching Literacy in Content Areas
EDU 3240	Literacy and Assessment Strategies for Diverse Learners (prereq. 3230)
EDU 3250	Practicum and Seminar in Literacy Instruction (prereq. 3230 and 3240)

Advanced Certificate in Literacy 5-12 (21 credits)

EDU 3215	Research and Practice of Teaching Writing in General and Inclusive Education
EDU 3265	Teaching Literacy through Literature, 5-12
EDU 3220	Approaches, Materials, and Performance Evaluation
EDU 3230	Diagnosis and Recommendations for Literacy Performance

EDU 3270	Theories of and Strategies for Teaching Literacy in Content Areas
EDU 3240	Literacy and Assessment Strategies for Diverse Learners (prereq. 3230)
EDU 3255	Practicum and Seminar in Literacy Instruction (prereq. 3230 and 3240)

Admission Requirements for M.S.Ed. Degree Programs

1. A baccalaureate degree from an accredited college or university. Undergraduate scholastic achievement must be such as to give reasonable assurance of success in work for an advanced degree, normally, a "B," both in general average and in the major field.
2. The teaching literacy programs service students who already hold initial certification in either childhood education, early childhood education, adolescence education, teaching students with disabilities, teaching students who are deaf or hard of hearing, teaching students who are blind or visually impaired, teaching students with speech and language disabilities, teaching English to speakers of other languages and library media specialists. Candidates seeking admission shall normally have achieved a B average, or 3.0 or better cumulative grade point average in the program leading to the degree of their existing initial certificate.
3. Applications of those individuals who meet the program requirements but whose GPAs fall below 3.0 in their initial certified area, will be reviewed by a committee of designated faculty members to assess applicants' potential to successfully complete the program. In such cases the committee may also request an interview with the candidate. Upon committee recommendation, those applicants will be accepted conditionally with the proviso that they achieve at least a 3.0 in each of their first four program courses.

Admission Requirements for Ph.D. Degree in Literacy

Applicants seeking admission to the doctoral program (Ph.D.) must submit the following evidence of their ability to pursue advanced graduate study.

Applicants seeking admission to the doctoral program (Ph.D.) must submit the following evidence of their ability to pursue advanced study.

A master's degree in an education field from an accredited college or university. Graduate scholastic achievement must be such as to give reasonable assurance of success in work for an advanced degree. Normally this will be a 3.2 GPA or better in prior graduate work.

Application Process:

- 1) Submit a complete application to the Office of Graduate Admission for the School of Education. Supporting documents include:
 - a. Official transcripts of all previous course work (undergraduate and graduate) that document a minimum GPA of 3.2 in a master's level program,
 - b. At least two letters of recommendation from professors and/or supervisors,
 - c. A statement of goals for doctoral study,
 - d. A professional resume or curriculum vitae,
 - e. Documentation of full-time teaching experience,
 - f. A score at or above the 50th percentile on the Miller Analogies Test (MAT), and
 - g. A score of at least 4 on the Analytical Writing section of the Graduate Record Examination (GRE). (You need not take the other sections of the GRE).
- 2) A successful interview with members of the Literacy core faculty and the department chairperson.

Notification of the decision will be sent by mail. If accepted, the student will be assigned an advisor who will assist in developing a program of study.

Note: In extraordinary situations when all entrance requirements are not satisfied, upon approval of three faculty members, a student may be accepted on a probationary status.

Programs of Study

Teaching Literacy, Birth–Grade 6 (Q, SI, O, M)

The Master of Science in Education program with a specialization in the Teaching of Literacy, B–6 is a 33-credit program. This program enhances the initially certified teacher's ability to teach reading and the related language arts to students at the early childhood, elementary and middle school levels. In addition, the program enables prospective and practicing teachers to acquire and develop the skills they will need to become reading specialists capable of diagnosing and assisting children to overcome their special literacy problems. A comprehensive requirement occurs at the end of the full program. Full programs are offered at the Queens, Staten Island campuses and coursework is offered at the Manhattan and Oakdale sites.

The following courses comprise the master's program in literacy leading to initial or professional certification in Teaching Literacy, B–6:

General Core: Research and Technology (6 credits)

Choose ONE course from Group A and ONE from Group B, depending on advisement.

Group A: Choose ONE

EDU 7297	Integrative Research Seminar in Education
	OR
EDU 9013	Research in Language, Culture and Communication

Group B: Choose ONE

EDU 7266	Technology for Teaching Literacy Applications in Regular and Special Education Settings (for students with limited technology background)
	OR
EDU 7666	Advanced Technology in Education (Prereq. Permission of instructor)

Literacy Methodology Core: (15 credits)

EDU 3200	Language Acquisition and Literacy Development
EDU 3210	Research and Practice of Teaching Writing in General and Inclusive Education, B–6
EDU 3220	Approaches, Materials, and Performance Evaluation in Literacy Development
EDU 3264	Teaching Literacy through Literature, B–6
	OR
EDU 3262	Individualizing Reading Instruction through Literature, Media and the Arts
EDU 3270	Theories of and Strategies from Teaching Literacy in the Content Areas

Literacy Specialist Core (in sequence) (9 credits)

EDU 3230	Diagnosis and Recommendations for Literacy Performance (Pre./Co-req.: One reading core course EDU 3200, 3220 or 3270)
EDU3240	Literacy and Assessment Strategies for Diverse Learners (Prereq. EDU 3230)
EDU 3250	Practicum and Seminar in Literacy Instruction, B–6 (Prereq. 3230 and 3240)

Literacy or Related Education Elective Coursework (3 credits)

EDU 3241	Multi-Sensory Approach to Language Learning and Phonics Instruction-Part I*
EDU 3242	Multi-Sensory Approach to Language Learning and Phonics Instruction-Part II*
EDU 3278/9716	Curriculum and Instructional Design for Teaching Literacy to Individuals with Exceptionalities, B–12
EDU 3283	Research and Strategies in Literacy Leadership
EDU 9003	Literacy Development for First and Second Language Learners

Teaching Literacy, Grades 5–12 (Q, SI, O, M)

The Master of Science in Education program with a specialization in the Teaching of Literacy, Grades 5–12, is a 33-credit program. This program allows the initially certified teacher to teach reading, writing and the related language arts to students at the middle school, junior high and high school levels. In addition, the program enables prospective and practicing teachers to acquire and develop the skills they need to become reading specialists, capable of diagnosing and assisting youngsters and youth in overcoming their literacy-related problems. A comprehensive requirement occurs at the end of the program. Full programs are offered at the Queens, Staten Island, and Oakdale campuses; coursework is offered at the Manhattan campus.

The following courses comprise the Master's program in literacy leading to initial or professional certification in Teaching Literacy, 5–12.

General Core: Research and Technology

Choose ONE course from Group A, and choose ONE course from Group B, depending on advisement.

Group A: 6 credits

EDU 7297	Integrative Research Seminar in Education
	or
EDU 9013	Research in Language, Culture and Communication K–12 and

Group B:

EDU 7267	Technology for Literacy-Based Applications in Content Area Learning in Regular and Special Education Settings
----------	---------------------------------------------------------------------------------------------------------------

or

EDU 7666	Advanced Technology in Education (for students with prior education technology course)
----------	----------------------------------------------------------------------------------------

Literacy Theory and Practice Core: 15 credits

EDU 3200	Language Acquisition and Literacy Development
EDU 3215	Research and Practice of Teaching Writing in General and Inclusive Education, 5–12
EDU 3220	Approaches, Materials, and Performance Evaluation in Literacy Development
EDU 3265	Teaching Literacy through Literature, grades 5–12, in General and Inclusive Settings
EDU 3270	Theories of and Strategies for Teaching Literacy in the Content Areas
EDU 3228/9710	Curriculum and Instructional Design for Teaching Literacy to Individuals with Exceptionalities (Adolescence).

Literacy Specialist in Sequence Core: 9 credits

EDU 3230	Diagnosis and Recommendations for Literacy Performance (<i>Prerequisite or Co-requisite 3200, 3220 or 3270</i>)
EDU 3240	Literacy and Assessment Strategies for Diverse Learners (<i>Prerequisite EDU 3230</i>)
EDU 3255	Practicum and Seminar in Literacy Instruction (<i>Prerequisites 3230 and 3240</i>)

Choose 3 credits–(one course) in Literacy or Related Education Elective Coursework

EDU 3241	Multi-sensory Approach to Language Learning and Phonics Instruction - Part I
EDU 3242	Multi-sensory Approach to Language Learning and Phonics Instruction - Part II

Electives:

EDU 9003	Literacy Development for the First and Second Language Learners
EDU 3283	Research and Strategies in Literacy Leadership

Teaching Literacy, Birth through Grade 12 (Q, SI)

The Master of Science in Education program with a specialization in the teaching of Literacy, Birth through Grade 12 is a 42- credit program leading to initial and professional New York State Teacher Certification. This program enhances the initially certified teacher's ability to teach reading and the related language arts. In addition, the program enables prospective and practicing teachers to acquire and develop the skills they will need to become literacy coaches and reading specialists capable of diagnosing and assisting children in overcoming their special literacy problems. Full programs are offered at the Queens and Staten Island campuses with courses offered at the Oakdale site.

General Core: Research and Technology

Choose ONE course from Group A and ONE course from Group B, depending on advisement.

Group A: Choose ONE

EDU 7297	Integrative Research Seminar in Education OR
EDU 9013	Research in Language, culture and Communication

Group B: Choose ONE

EDU 7266	Technology for Teaching Literacy Applications in Regular and Special Education Settings (for students with limited technology background) OR
EDU 7267	Technology for Literacy-Based Applications in Content Area Learning in Regular and Special Education Settings
EDU 7666	Advanced Technology in Education, (Prereq. : Permission of instructor)

Literacy Methodology Core (21 credits)

EDU 3200	Language Acquisition and Literacy Development
EDU 3217	Research and Practice of Teaching Writing in General Inclusion Education, B–12
EDU 3220	Approaches, Materials, and Performance Evaluation in Literacy Development
EDU 3241	Multi-Sensory Approach to Language Learning and Phonics Instruction-Part I*
EDU 3270	Theories of and Strategies for Teaching Literacy in the Content Areas
EDU 3268	Teaching Literacy through Literature, B–12 OR
EDU 3262	Individualizing Reading Instruction through Literature, Media and the Arts
EDU 3278/9716	Curriculum and Instructional Design for Teaching Literacy to Individuals with Exceptionalities, B–12

Literacy Specialist Core (in sequence): (12 credits)

EDU 3230	Diagnosis and Recommendations for Literacy in the Performance (Pre/Co-req: 1 reading course EDU 3200, 3220, or 3270)
EDU 3240	Literacy and Assessment Strategies for Diverse Learners (Prereq. EDU 3230)
EDU 3250	Practicum and Seminar in Literacy Instruction, B–6 (Prereq. 3230 and 3240)

EDU 3255	Practicum and Seminar in Literacy Instruction, 5–12 (Prereq. EDU 3230 and 3240)
----------	---------------------------------------------------------------------------------

Literacy Elective (3 credits) Choose ONE

EDU 3242	Multi-Sensory Approach to Language Learning and Phonics Instruction-Part II*
EDU 3283	Research and Strategies in Literacy Leadership
EDU 9004	Content Area Instruction for Linguistically/Culturally Diverse Learners

Complete M.S. programs are offered at the Queens and Staten Island campuses, a TESOL/ Literacy program (33 credits) is offered at Oakdale campus and coursework is offered at the Manhattan campus.

Admission and Program Requirements for Literacy-Field Change

***Students with teaching certificates in other licensing areas may apply for one of the literacy field change programs.

1. A master's degree in education or a functionally related area, with scholastic achievement at a level to give reasonable assurance of success in work for an advanced degree. Normally, this will be a "B" average.
2. New York State initial teaching certification as specified in Admission Requirements for Degree Programs (2).
3. Coursework as outlined in the B–6, 5–12, or B–12 degree programs are required. If some literacy coursework was completed in an M.S. degree program, electives may be substituted in consultation with the student's program advisor.
4. A comprehensive examination or thesis completed in other M.S. programs satisfy program requirements.

Teaching Literacy B–6 and Teaching English to Speakers of Other Languages (TESOL) K–12 (48 credits)

This program will provide Master's Degree candidates with dual certification in Literacy B–6 and Teaching English to Speakers of Other Languages (TESOL) K–12. It will give teachers the opportunity to enrich their classroom pedagogy with specialization in literacy instruction and instruction for the English Language Learners. Students will be eligible for certification in Literacy B–6 and TESOL K–12 at program completion and after passing the CTS-exams in Literacy and TESOL.

Research and Technology Core: Choose ONE course from Group A and ONE course from Group B, depending on advisement.

Group A: Choose ONE (3 credits)

EDU 7297	Integrative Research Seminar in Education OR
EDU 9013	Research in Language, Culture and Communication

Group B: Choose ONE (3 credits)

- EDU 7266 Technology for Teaching Literacy Applications in Regular and Special Education Settings (For students with limited technology background)
OR
EDU 7666 Advanced Technology in Education

Literacy Core: (18 credits)

- EDU 3200 Language Acquisition and Literacy Development
EDU 3210 Research and Practice of Teaching Writing in General Inclusion Education, B–6
OR
EDU 3220 Approaches, Materials, and Performance Evaluation in Literacy Development
EDU 3230 Diagnosis and Recommendations for Literacy Performance (Pre- or Co-req. One reading course EDU 3200, 3220)
EDU 3240 Literacy and Assessment Strategies for Diverse Learners (Pre-req. EDU 3230)
EDU 3264 Teaching Literacy through Literature, B–6

TESOL Core (18 credits)

- EDU 9001 Foundations bilingual, Multicultural and Second Language Education
EDU 9003 Literacy Development for the First and Second Language Learners
EDU 9004 Content Area Instruction for Linguistically/Culturally Diverse Learners
EDU 9006 Human Development I Cross-cultural Perspective
EDU 9010 Linguistics for Teachers of English Language (ELL)
OR
EDU 9015 Structure of the English Language
EDU 9012 Methods of Language and Academic Assessment of ELLS and Exceptional Learners

Capstone Courses: Program Completion (6 credits)

- EDU 3250 Practicum and Seminar in Literacy Instruction, B–6 (Pre-req. EDU 3230 and 3240) (50 hours)

Clinical Setting

- EDU 9014 Practicum in TESOL (100 hours)
TESOL students must have 12 credits in a language other than English prior to admission or completion of program. (TESOL) K–12.

Teaching Literacy 5–12 and Teaching English to Speakers of Other Languages (48 credits)

This program will provide Master's Degree candidates with dual certification in Literacy 5–12 and Teaching English to Speakers of Other Languages (T.E.S.O.L) K–12. It will give teachers the opportunity to enrich their classroom pedagogy with specialization in literacy instruction and instruction for the English Language Learners. Students will be eligible for certification in Literacy 5–12 and TESOL K–12 at program completion and after passing the CTS-exams in Literacy and TESOL.

Research and Technology Core: Choose ONE course from Group A and ONE course from Group B, depending on advisement.**Group A: Choose ONE (3 credits)**

- EDU 7297 Integrative Research Seminar in Education
OR
EDU 9013 Research in Language, Culture and Communication

Group B: Choose ONE (3 credits)

- EDU 7266 Technology for Teaching Literacy Applications in Regular and Special Education Settings (For students with limited technology background)
OR
EDU 7666 Advanced Technology in Education

Literacy Core: (18 credits)

- EDU 3215 Research and Practice of Teaching Writing in General Inclusion Education, B–6
OR
EDU 3220 Approaches, Materials, and Performance Evaluation in Literacy Development
EDU 3230 Diagnosis and Recommendations for Literacy Performance (Pre- Or Co-req. One reading course EDU 3200, 3220)
EDU 3240 Literacy and Assessment Strategies for Diverse Learners (Pre-req. EDU 3230)
EDU 3265 Teaching Literacy through Literature, B–6
EDU 3270 Theories and Strategies for Teaching Literacy in the Content Areas

TESOL Core (18 credits)

- EDU 9001 Foundations bilingual, Multicultural and Second Language Education
EDU 9003 Literacy Development for the First and Second Language Learners
EDU 9004 Content Area Instruction for Linguistically/Culturally Diverse Learners
EDU 9006 Human Development I Cross-cultural Perspective
EDU 9010 Linguistics for Teachers of English Language (ELL)
OR
EDU 9015 Structure of the English Language
EDU 9012 Methods of Language and Academic Assessment of ELLS and Exceptional Learners

Capstone Courses: Program Completion (6 credits)

- EDU 3255 Practicum and Seminar in Literacy Instruction, 5–12 (Pre-req. EDU 3230 and 3240) (50 Hours)
EDU 9014 Practicum in TESOL (100 hours)
TESOL students must have 12 credits in a language other than English prior to admission or completion of program.

Teaching Literacy B–6 and Teaching Children with Disabilities (48 credits)**Research and Technology Core: Choose ONE course from Group A and ONE course from Group B, depending on advisement.****Group A: Choose ONE (3 credits)**

- EDU 7297 Integrative Research Seminar in Education
OR
EDU 9700 Research in Collaborative partnerships and Strategic Instruction for General, Special, and Inclusive Education

Group B: Choose ONE (3 credits)

- EDU 7266 Technology for Teaching Literacy Applications in Regular and Special Education Settings (for students with limited technology background) or
EDU 7267 Technology for Literacy-Based Applications in Content Area Learning in Regular and Special Education Settings

Literacy Core: (18 credits)

EDU 3200	Language Acquisition and Literacy Development
EDU 3210	Research and Practice of Teaching Writing in General Inclusion Education, B–6 or Multi-sensory Approach to Language Learning
EDU 3241	Approaches, Materials, and Performance Evaluation in Literacy Development
EDU 3220	Diagnosis and Recommendations for Literacy Performance (Pre- or Co-req. One reading core course EDU 3200, 3220, or 3270)
EDU 3230	Literacy and Assessment Strategies for Diverse Learners (Pre-req. EDU 3230)
EDU 3240	Teaching Literacy through Literature, B–6

Special Education Core (18 credits)

EDU 9707	Applying and Modifying Curricula
EDU 9711	Education of Individuals with Exceptionalities
EDU 9712	Educational Assessment of Individuals with Exceptionalities
EDU 3278	Curriculum and Instructional Design for Teaching Literacy to Individuals with Exceptionalities, B–12 Or Curriculum and Instructional Design for Teaching Literacy to Individuals with Exceptionalities, B–12
EDU 9716	Curriculum and Instructional Design for Individuals with Exceptionalities: Math, Science, and Social Studies
EDU 9718	Principles of Applied Behavior Analysis and Positive Behavioral Supports

Capstone Courses: Program Completion (6 credits)

EDU 3250	Practicum and Seminar in Literacy Instruction, B–6 (Pre-req. EDU 3230 and 3240) (50 hours)
----------	--------------------------------------------------------------------------------------------

Clinical Setting

EDU 9702	Practicum in Special Education- Childhood (100 hours: Special Education School Setting)
----------	-----------------------------------------------------------------------------------------

Ph.D. in Literacy: Program of Study

The Doctor of Philosophy (Ph.D.) program in Literacy focusing on Diverse and At Risk Learners prepares professionals for these role options:

Teacher Educator (College or University Faculty for Teacher Preparation, Research and Service)

School Literacy Specialist (Reading or Writing Specialist or Literacy Coach Developing Literacy for All Learners)

Literacy Leader Advocate (Agency, Community, or School District Curriculum Specialist–Developing, Organizing and Supervising Literacy Programs)

The Ph.D. program was approved by the New York State Education Department in January 2008.

Students holding a master's degree or certificate in literacy and/or New York State certification in literacy may proceed to doctoral level course work. Those with background in other educational disciplines will need to take prerequisite literacy courses at the master's level in conjunction with doctoral level course work.

Students take a minimum of two evening courses a semester (fall, spring, summer) as a cohort while maintaining their professional positions during the day. Course work is completed in three years leaving the fourth year and beyond for the dissertation.

Digital Portfolio (Introduced in EDU 3281):

A portfolio system is used to ensure successful completion of the program. It includes Comprehensive Examination through Domain Essays. Artifacts for Expertise, Professionalism, Scholarship, Teaching, and Service. Doctoral faculty evaluates the portfolio annually.

Doctoral Course Work (42 Credits)

Literacy Doctoral Courses (18 credits)

EDU 3281	Digital Portfolio Assessment and Accountability: Literacy Inquiry (Fall 2008)
EDU 3282	Models and Processes of Reading and Writing Acquisition and Competency
EDU 3285	Research Perspectives in Literacy
EDU 3290	Analysis of Current Topics in Literacy
EDU 3291	Seminar in Literacy for At Risk, Diverse Learners
EDU 3292	Dissertation Seminar (Requires continuous enrollment until completion of dissertation.)

Research Methodology Courses (15 credits):

EDU 5655	Educational Research and Data Analysis I
EDU 7211	Educational Research and Data Analysis II
EDU 7800	Multivariate Data Analysis
EDU 7900	Qualitative Research: Methodology and Analysis
EDU 7901	Educational Research and Data Analysis III

Cognate Studies Courses (9 credits)

To address the research focus, the advisor and doctoral student choose: Education, Educational Leadership, Sociology, Psychology, Library Science, Speech, TESOL, English.

Doctoral Dissertation

The doctoral student conducts an original research study under the guidance of a faculty mentor and dissertation committee.

Residency Requirement

Students may fulfill the residency requirement by a variety of means.

Special Education Programs

The Department of Human Services and Counseling offers two graduate level programs leading to a professional state certificate valid for teaching students with disabilities at the childhood level: Teaching Students with Disabilities in Childhood (33 credits) and Childhood and Childhood Special Education Internship (48 credits). The 33-credit program leads to state certificate valid for teaching students with disabilities at the childhood level (Grades 1–6). The 48-credit internship program, offered in collaboration with the Department of Curriculum and Instruction, is intended for students who have not received initial certification in childhood or elementary education and who wish to obtain additional certification in teaching students with disabilities at the childhood level. Programs are offered at the Queens and Staten Island campuses. A combination TESOL/Special Education program is offered at the Oakdale location.

Elementary teachers can now enroll in the first completely online graduate degree program in teaching children with disabilities at the childhood level (Grades 1–6) recognized by New York State for certification. Students have the option of enrolling in this 33-credit program online through distance learning or live on the Queens campus. The 48-credit program is offered on both the Queens and Staten Island campuses with some coursework available on the Manhattan and Oakdale campuses. Students enrolled in the 48-credit program on Staten Island may need to take courses at the Queens campus or online.

The Special Education Program for teaching students with disabilities at the childhood level. This program is designed to foster the development of skills, attitudes, and abilities needed to identify and remediate major learning and behavior disorders. It also prepares teachers to instruct children who manifest learning and behavioral problems ranging from mild to profound, regardless of etiology. Attention is paid to diagnosis, intervention, program planning and program evaluation. Completion of the special education master's program qualifies students for New York State initial or permanent certification as a teacher of students with disabilities at the childhood level, provided students have successfully completed all State mandated external tests, training modules and teaching experiences.

In addition, students interested in the online 33-credit special education program offered through distance learning will be eligible to receive a master's degree in special education

with eligibility for a professional state certificate valid for teaching students with disabilities at the childhood level (Grades 1–6). A “D” indicates those courses that are offered online.

The graduate level program leading to Dual Certification in Early Childhood and Teaching Students with Disabilities (Birth to Grade 2) is offered in collaboration with The Department of Curriculum and Instruction. For details refer to Early Childhood programs under the Department of Curriculum and Instruction.

Admission Requirements for Master’s Program in Special Education

1. A baccalaureate degree from an accredited college or university. Undergraduate scholastic achievement must be such as to give reasonable assurance of success in work for an advanced degree. Normally this will be a “B,” both in the general average and in the major field.
2. The special education program serves students who have received or who have qualified for the New York State initial teaching certificate. Students who do not possess the certificate at the time they seek admission will be accepted into the 48-credit program with the understanding that they must receive this teaching certification to be eligible for institutional endorsement for the New York State permanent teaching certification.
3. Applications for those individuals who meet program requirements but whose GPAs fall below 3.0 in their initial certification area will be reviewed by a committee of designated faculty members to assess applicants’ potential to successfully complete the program. In such cases the committee may also request an interview with the candidate. Upon committee recommendation, those applicants will be accepted conditionally with the provision that they achieve at least a 3.0 in each of the first four courses in the program.
4. In addition to meeting all academic prerequisites, prospective online students must meet rudimentary computer proficiency requirements, such as Internet experience, logging on, cutting and pasting text using word processing software and attaching documents as e-mail attachments.

Programs of Study

Teaching Students with Disabilities: Childhood (33 credits)

The program leading to state certification valid for teaching students with disabilities at the childhood level consists of two segments.

I. Core Special Education Courses (27 credits)

EDU 9707	Applying and Modifying Curricula for Special Students
EDU 9711	Education of Exceptional Individuals
EDU 9712	Educational Assessment of Individuals with Exceptionalities
EDU 9716	Curriculum and Instructional Design for Teaching Literacy to Individuals with Exceptionalities: Childhood
EDU 9718	Curriculum and Instructional Design for Individuals with Exceptionalities: Math, Science and Social Studies
EDU 9719	Principles of Applied Behavior Analysis and Positive Behavior Supports
EDU 9700	Research in Collaborative Partnerships and Strategic Instruction for General, Special and Inclusive Education: Childhood
EDU 9702	Practicum in Special Education: Childhood
and	
EDU 3200	Language Acquisition and Literacy Development
or	
EDU 3241	Multi-sensory Approach to Language Learning and Phonics Instruction Part I
EDU 9704	Collaborative Partnerships, Strategic Instruction and Material Adaptations in Inclusive Settings: Adolescent

II a. Choose 6 Credits: Special Education or Related Education Elective Coursework

EDU 9013	Research in Language, Culture and Communication
EDU 9010/ cf 9710	Linguistics for Teachers of English Language and Exceptional Learners

II b. May substitute for electives (under faculty advisement)

EDU 7266	Technology for Teaching Literacy Applications in Regular and Special Education Settings
EDU 3242	Multi-sensory Approach to Language Learning and Phonics Instruction Part II (Fall: Level 1 is a prerequisite)

Associate Level Orton-Gillingham practitioner-Students will need 100 additional hours of

Practicum if student wishes to obtain certification.
May substitute through online courses with:
EDU 7266
EDU 5811
EDU 6435
EDU 3242

*Associate Level Orton-Gillingham Practitioner-Students will need 100 additional hours of Practicum.

All students must pass a comprehensive examination during their final semester.

Childhood and Childhood Special Education (Internship) (48 Credits)

I. Core Childhood Education Credits (24 Credits)

EDU 3200	Language Acquisition and Literacy Development*
EDU 7000	Sociological/Psychological Foundations of Learning
EDU 7266	Technology for Teaching Literacy Applications in regular and Special Education Settings (for students with limited technology background)
EDU 7135	Current Trends and Research in the Teaching of Social Studies*
EDU 7136	Current Trend sand Research in the Teaching of Science*
EDU 7137	Current Trends and Research in the Teaching of Mathematics*
EDU 7195	Teaching and Learning: Childhood*
EDU 7115	Childhood Associate Teaching OR
EDU 7115I	Internship

(completed at least 21 credits and have passed all NYS General Ed exams: ATSW*, CST*, LAST*) *field experience required

II. Special Education Core (24 credits)

EDU 9700	Research in Collaborative Partnership and Strategic Instruction for General, Special and Inclusive Education: Childhood
EDU 9707	Adapting and Modifying Curricula
EDU 9711	Education of Individuals with Exceptionalities
EDU 9712	Education of Assessment of Individuals with Exceptionalities (prereq. EDU 9711)
EDU 9716	Curriculum and Instructional Design for Teaching Literacy to Individuals with Exceptionalities: Childhood

EDU 9718	Curriculum and Instructional Design for Individuals with Exceptionalities: Math, Science, or Social Studies
EDU 9719	Principles of Applied Behavior Analysis and Positive Behavior Supports
EDU 9702	Practicum in Special Education—Childhood

(Completed EDU 7115, all Special Education Coursework and passed CST*-Childhood Disabilities)

Teaching English to Speakers of Other Languages (TESOL) and Bilingual Education (K–12) Programs (Q,M,O)

The division offers two advanced M.S. degree programs in TESOL, Teaching English to Speakers of Other Languages. These programs prepare qualified individuals to meet the educational needs of English Language Learners (ELLs) children, adolescents and youth. The master's degree program is designed for students who possess an initial certificate in education (see Entry #2 under admission requirements) and who seek to meet requirements for New York State initial or professional certification in TESOL (33-credit program). Students who do not possess an initial certificate to be eligible for TESOL may apply to the joint Childhood Education and TESOL Program (48-credit program).

Completion of either program qualifies students for New York State initial or professional certification in TESOL, provided they have met prerequisite requirements; they have successfully completed all State-mandated external tests, training modules and field experiences; and they have met citizenship or residence requirements of New York State.

For students who have foreign credentials and are only planning to teach English as a Foreign Language (EFL) in their country the New York State Teacher Certification practicum is not required. Instead, students have the option of taking another course in lieu of the practicum. Students with foreign credentials who wish to teach in New York State will need to satisfy the requirements for entry into the initial TESOL certificate program.

Advanced Certificate Program (15 credits)

Advanced Certificate programs are available for Bilingual Education

The program also offers five 15-credit (ITI) course sequences in TESOL and in Bilingual Education leading to New York State certification. This special program is known as the New York State Intensive Teacher Institute (ITI) at St. John's University, offered at the Queens and Oakdale locations. It is only available to NYS teachers already certified in childhood, adolescence, special education, literacy, school counseling and who are currently employed in a New York public school and are serving English language learners. Participation in this

program requires funding approval by the New York State Intensive Teacher Institute.

The TESOL MSED programs and an Advanced Certificate Program in Bilingual Education is offered in Queens and Oakdale. Five ITI TESOL and Bilingual Programs are offered at Queens and Oakdale. Also, at both the Oakdale location and the Queens campus location an accelerated weekend program is offered for all programs.

For further information, please contact the Program Coordinator at (718) 990-6407.

Admission Requirements: TESOL (K–12) MSED Programs

1. A baccalaureate degree from an accredited college or university, which includes a concentration or major in one of the liberal arts and sciences and no fewer than six semester hours in each of the following academic areas: English, mathematics, science, social studies and a language other than English. Undergraduate scholastic achievement must be such as to give reasonable assurance of success in work for an advanced degree. Normally, this will be a "B," both in the general average and in the major field.
2. New York State initial teacher certification or eligibility for teaching certification. Entry into the TESOL program is open to those students who hold initial certification in early childhood, elementary or childhood, middle childhood, secondary or adolescent education, literacy or special education. **Students who do not hold initial certification should apply to the joint Childhood Education and TESOL Program.**
3. International students are not required to hold initial certification.
4. Proficiency in English. Students who have foreign academic credentials must demonstrate proficiency in English at the start of the program by passing oral language and written reading and writing proficiency tests in English administered by the University's ESL Department. Students who do not demonstrate adequate English language proficiency will be required to take ESL course work to bring their English language proficiency up to the required level, as recommended by the ESL Director. Such coursework will be used to meet a program prerequisite and will not count towards meeting the credits required for the TESOL degree.

Program of Study

The master's program in TESOL Grades K–12 is a 33-credit program which includes course work in three areas: foundations, TESOL professional core and technology. A comprehensive examination requirement occurs at the end of the M.S. degree program sequence. *Fieldwork is required.*

Master's Degree in TESOL (K–12) (33 credits)

Foundations (9 credits)

EDU 9001	Foundations of Bilingual and Second Language Education
EDU 9002	Psychology and Sociology of Language and Bilingualism
EDU 9006	Human Development in Cross-Cultural Perspective

TESOL Professional Core (21 credits)

EDU 9013	Research in Language, culture and Communication
EDU 9003	Literacy Development for First and Second Language Learners
EDU 9005	OR Teaching English to Speakers of Other Languages: Theory and Practice
EDU 9004	Content Area Instruction for Linguistically/Culturally Diverse Learners
EDU 9009	OR Teaching Strategies in the ESL and Bilingual Classroom: Science, Mathematics and Social Studies
EDU 9010	Linguistics for Teachers of English Languages and Exceptional Learners
EDU 9012	Methods of Language and Academic Assessment for English Language and Exceptional Learners
EDU 9015	The Structure of the English Language
EDU 9014	Practicum and Seminar in TESOL (3-6 credits)

Technology Course (3 credits)

EDU 7266	Technology for Teaching Literacy Applications in Regular and Special Education Settings (Childhood Education)
EDU 7267	OR Technology for Literacy-Based Applications in Content Area Learning in Regular and Special Education Setting (Adolescent Education)
EDU 7666	OR Advanced Technology in Education

Career Change Childhood (1–6) and TESOL (K–12) MSED Programs (48 credits MSED (Q,M,O))

Students who lack initial certification should take this program of study.

Students admitted to the joint Childhood Education and TESOL master's program must complete 48 credits of coursework as follows:

I. Core Childhood Education Courses (24 credits)

EDU 7000	Sociological/Psychological Foundations of Learning
EDU 7266	Technology for Teaching Literacy Applications (for students with limited technology background)
EDU 7135	Current Trends and Research in the Teaching of Social Studies*
EDU 7136	Current Trends and Research in the Teaching of Science*
EDU 7137	Current Trends and Research in the Teaching of Mathematics*
EDU 7195	Teaching and Learning: Childhood*
EDU 7115	Childhood Associate Teaching (taken in the last 6 credits of entire program) OR
EDU 7115I	Internship

(Completed at least 21 credits and have passed all NYS General Ed exams: ATSW*, CST*, LAST*) *field experience required.

II. TESOL Foundations (6 credits)

EDU 9001	Foundations of Bilingual, Multicultural and Second Language Education
EDU 9006	Human Development in Cross-cultural Perspective

III. TESOL Professional Core (21 Credits)

EDU 9003	Literacy Development for the First and Second Language Learners OR
EDU 9005	Teaching English to Speakers of Other Languages: Theory and Practices
EDU 9004	Content Area Instruction for Linguistically/Culturally Diverse Learners OR
EDU 9009	Teaching Strategies in the ESL and Bilingual Classroom: Science, Mathematics and Social Studies
EDU 9010	Linguistic for Teachers of English Language (ELL)
EDU 9012	Methods of Language and Academic Assessment of ELLS and Exceptional Learners
EDU 9013	Research in Language, Culture and Communication

EDU 9014 Practicum and Seminar in TESOL and Exceptional Learners

EDU 9015 Structure of the English Language

All TESOL students must have 12 credits of a language other than English before admission or prior to completion. Also, TESOL students must take the CST in TESOL for certification. International students are exempt from these requirements.

A comprehensive exam must also be completed.

Advanced Certificate Program (15 credits)

The Advanced Certificate is offered through programs in TESOL, Bilingual Education, TESOL-ITI, TESOL/Special Education-ITI, Bilingual Special Education, ITI, and Biligual Pupil Personnel Services-ITI

Bilingual Education Extension Certificate Program–Advanced Certificate

The division offers a 15-graduate credit course sequence leading to a bilingual extension certificate. Coursework will provide students with the theory, multicultural perspectives, and practical background to work in bilingual and/or dual-language classroom settings. The five course sequence will allow the initially certified teacher to obtain the knowledge and skills of: (1) the theories of bilingual education and bilingualism; (2) the multicultural viewpoints of education; (3) the social, psychological, and psycho-linguistic aspects of bilingualism; (4) the methods of teaching English language arts and native language arts to bilingual English language learners; and (5) methods of teaching content area instruction to bilingual English language learners, using both the native language and English.

Students must pass the required N.Y. State examination for certification. *Fieldwork is a requirement for most program coursework.*

Admission Requirements: Bilingual Extension–Advanced Certificate

Candidates wishing to obtain the bilingual extension can add the 15-credit course work to their initial or professional certificate programs in early childhood education; childhood education; career and technical education; students with disabilities in early childhood, or childhood, or middle childhood, or adolescence; students who are blind or visually impaired; students who are deaf or hard of hearing; students with speech and language disabilities, and literacy education B–6, 5–12, school counseling.

Course Requirements

EDU 9001	Foundations of Bilingual, Multicultural and Second Language Education
EDU 9002	Psychology and Sociology of Language and Bilingualism
EDU 9003	Literacy Development for First and Second Language Learners
EDU 9009	Content Area Instruction for Linguistically/Culturally Diverse Learners
EDU 9012	Methods of Language and Academic Assessment of ELLS and Exceptional Learners

Total: 15 credits

EDU 3200 Language Acquisition and Literacy Development

Examines theories of literacy development including construct of emergent literacy, early oral language development and relationship of oral to written language. (Fieldwork required). *Credit: 3 semester hours.* (Q, SI)

EDU 3210 Research and Practice of Teaching Writing in General and Inclusive Education, Grades B–6

This course is designed to enable teachers to develop effective reading to writing and writing to reading skills for elementary school students (Grades B–6) Teachers will learn to use multi-sensory materials to enhance students' writing skills. Teachers will develop skills for teaching narrative and expository writing and incorporate the use of technology to improve their own writing skills and those of their students in general and inclusive settings. This course will also provide teachers with knowledge of the New York State Writing competencies. *Credit: 3 semester hours* (Q, SI, O)

EDU 3215 Research and Practice of Teaching Writing in General and Inclusive Education, Grades 5–12

This course is designed to enable teachers to develop effective reading to writing and writing to reading skills for middle and high school students (Grades 5–12). Teachers will learn to use manipulative materials, scoring rubrics and graphic organizers to enhance students' writing skills. Teachers will develop skills for teaching narrative and expository writing and incorporate the use of technology to improve their own writing skills and those of their students in general and inclusive settings. This course will also provide teachers with knowledge of the New York State Writing competencies. *Credit: 3 semester hours* (Q, SI, O)

EDU 3217 Research and Practice of Teaching Writing in General and Inclusive Education, Grades B–12

This course is designed to enable teachers to develop effective reading to writing and writing to reading skills combining the strategies of the Grades B–6 and 5–12 programs. Teachers will develop skills for teaching narrative and expository writing and incorporate the use of technology to improve their own writing skills and those of their students in general and inclusive settings (Grades B–12). This course will also provide teachers with knowledge of the New York State Writing competencies. *Credit: 3 semester hours* (Q, SI, O)

EDU 3220 Approaches, Materials, and Performance Evaluation in Literacy Development

Study and analysis of approaches and materials for literacy instruction focusing on word identification, vocabulary development, comprehension, writing instruction and motivational aspects. (Field work at the childhood or adolescent level). *Credit: 3 semester hours.* (Q, SI, O, M)

EDU 3222 (LIS 216) Youth Literature: A Critical Approach

An examination of selected books for children and young adults, with emphasis on the study of literacy elements and the application of critical analysis. *Credit: 3 semester hours.* (Q)

EDU 3223 (LIS 121) Literature and Related Resources for Children

A survey of books and other materials for children, with emphasis on applying selection criteria and developing evaluation skills. *Credit: 3 semester hours.* (Q)

EDU 3224 (LIS 222) Materials and Services to Special Populations

A study of materials and services for library users with disabilities, (including development, physical and sensory disabilities) and other special user groups. *Credit: 3 semester hours.* (Q)

EDU 3225 (LIS 128) Library Services for Young Adults

Serving young adults in the public library, with emphasis on identifying user needs, developing book talking skills, planning programs, providing information services and designing policies. *Credit: 3 semester hours.* (Q)

EDU 3226 I (LIS 226) Literature and Related Resources for Young Adults

A survey of books and other materials for young adults, with emphasis on applying selection criteria and developing evaluation skills. *Credit: 3 semester hours.* (Q)

EDU 3228 Curriculum and Instructional Design for Teaching Literacy to Individuals with Exceptionalities — Adolescent

Examines theories and models of how adolescents with exceptionalities process and learn from the oral and written languages. (Field work required). *Credit: 3 semester hours.* (Q, SI)

EDU 3230 Diagnosis and Recommendations for Literacy Performance

(Prerequisite or Corequisite: One reading core course. Open only to students matriculated in M.S. Literacy Programs) Principles and practices of assessing and correcting literacy performance; use of reading, writing, and perceptual tests to establish reading levels and behaviors for students in either Grades K–6 or 5–12 (Field work required; diagnostic instruments must be purchased). *Credit: 3 semester hours.* (Q, SI, O)

EDU 3240 Literacy and Assessment Strategies for Diverse Learners

(Prerequisite EDU 3230) Study and analysis of literacy development, individual differences and language difficulties experienced by the diverse learner. As a continuation of EDU 3230, students learn specialized procedures for learning/language disabilities. (Field work required) (Diagnostic instruments must be purchased). *Credit: 3 semester hours.* (Q, SI, O)

EDU 3241 Multi-sensory Approach to Language Learning and Phonics Instruction Part I

Study of the underlying principles of multi-sensory language learning with an emphasis on the structure of language. Part I also includes learners with dyslexia. Course requires specialized manuals and diagnostic instruments.

**Note: If you wish to receive certification from the Orton Academy, you must take both EDU 3241 and EDU 3242 plus a 100-hour practicum over the course of both semesters. Credit: 3 semester hours.* (Q, SI, O) Field component.

EDU 3242 Multi-sensory Approach to Language Learning and Phonics Instruction Part II

Prerequisite EDU 3241. Study of various diagnostic instruments, administration of relevant academic and diagnostic tests, and designing specific therapeutic interventions incorporating the principles of multi-sensory language learning. Requires specialized manuals and diagnostic instruments. **Note: If you wish to receive certification from the Orton Academy, you must take both EDU 3241 and EDU 3242 plus a 100-hour practicum over the course of both semesters. Credit: 3 semester hours.* (Q, SI, O) Field component.

EDU 3250 Practicum and Seminar in Literacy Instruction (Grades Birth–6)

(Prerequisites EDU 3230 and EDU 3240) Students complete a supervised case study as a practicum component. Fifty hours of practicum experience of assessment procedures and teaching literacy to a student at the early childhood and childhood levels, (Grades Birth–6). *Credit: 3 semester hours.* (Q, SI, O)

EDU 3255 Practicum and Seminar in Literacy Instruction (Grades 5–12)

(Prerequisites EDU 3230 and EDU 3240) Students complete a supervised case study as a practicum component. Fifty hours of practicum experience of assessment procedures and teaching literacy to a student at the adolescent or high school level, (Grades 5–12) *Credit: 3 semester hours.* (Q, SI, O)

EDU 3260 Emergent Literacy Within a Constructivist, Social Context

Review of theory, research and related models of emergent literacy; examination of literacy behaviors and instructional procedures for young children. *Credit: 3 semester hours.* (Q)

EDU 3262 Individualizing Reading Instruction through Literature, Media and the Arts

Selection, evaluation and organization of alternative approaches to implement a program stressing individual needs; theories and techniques of individualization and classroom management procedures; emphasis on examination and critical analysis of materials and modes of utilization. *Credit: 3 semester hours.* (Q)

EDU 3264 Teaching Literacy through Literature, Grades B–6 in General and Inclusive Settings

Explores reading-writing connections, techniques and strategies that promote children's active construction of meaning through the use of quality literature. *Credit: 3 semester hours.* (Q, SI, O).

EDU 3265 Teaching Literacy through Literature, Grades 5–12 in General and Inclusive Settings

Emphasizes reading and writing relationships, student cooperation, classroom management, literature discussion groups and circles and the writing process approach in responding actively to literature. *Credit: 3 semester hours.* (Q, SI, O)

EDU 3268 Teaching Literacy through Literature, Grades B–12 in General and Inclusive Settings

Students expand and develop their understandings about the conventions, style, genres, audiences, and purposeful nature of the craft of writing, through the integration of quality literature into reading and writing instruction. *Credit: 3 semester hours.* (Q, SI, O)

EDU 3270 Theories of and Strategies for Teaching Literacy in the Content Areas

Presents theories of and teaching strategies for student literacy acquisition and development in regular an inclusive settings. Emphasis on comprehension, vocabulary, and motivation through the expository writing style. *Credit: 3 semester hours.* (Q, SI, O, M)

EDU 3271 Literacy Best Practices Informed by Research

Examines literacy instruction as informed by scientifically based research and best practices of the field. Course components focus on the processes of word reading to include phonemic awareness and phonics, vocabulary development, fluency, reading comprehension, writing development, motivation and affective engagement through the grades, integration of reading/writing strategies in the content areas, classroom management via grouping patterns and progress monitoring assessment. Field work on course project required. *Credit: 3 semester hours.*

EDU 3274 Innovative Approaches to Thinking and Literacy Development for the Gifted Learner

Study of theories and models for developing and extending reading and writing for gifted and talented students through literature, poetry and content materials. *Credit: 3 semester hours.* (Q)

EDU 3278 Curriculum and Instructional Design for Teaching Literacy to Individuals with Exceptionalities B–12

Examines theories and models of how children with exceptionalities and diverse and at-risk students process oral and written language; discusses how to plan and implement specific programs that focus on emergent literacy,

reading and writing; included is focus on curriculum adaptation and design, teaching strategies and monitoring techniques. (Field work required). *Credit: 3 semester hours.* (Q, SI)

EDU 3281 (cf 7801) Digital Portfolio Assessment and Accountability: Literacy Inquiry

Students establish a digital portfolio for documenting progress and achievement in their doctoral program work as they explore the range of inquiry topics and research techniques significant in the literacy field. After course completion, the portfolio is assessed annually by the literacy doctoral faculty. The cumulating portfolio is the major measure of accountability for the program. *Credit: 3 semester hours.* (Q).

EDU 3282 Models and Process of Reading and Writing Acquisition and Competency

Pre-requisites: EDU 3220, 3230, 3270.

Explores research and evidence-based practice in Pre-School to Grade 16, literacy program assessment, curriculum development and implementation, staff and professional development, and community advocacy and outreach. This course addresses International Reading Association standards for preparing literacy coaches and reading specialists. *Credit: 3 semester hours.* (Q, SI)

EDU 3283 Research and Strategies in Literacy Leadership

Prerequisites: EDU 3220, 3230 and 3270.

Explores research and evidence-based practice in pre-school to grade 16, literacy program assessment, curriculum development and community advocacy and outreach. This course addresses International Reading Association standards for preparing literacy coaches and reading specialists. *Credit: 3 semester hours.* (Q, SI).

EDU 3285 Research Perspective in Literacy

Open to student in advanced or doctoral programs. Helps students explore the classical and current quantitative and qualitative research in the field of reading/literacy education. *Credit: 3 semester hours.* (Q)

EDU 3290 Analysis of Current Topics of Literacy

Open to students in advanced or doctoral programs. Course analyzes current issues and design approaches in literacy theory and practice. *Credit: 3 semester hours.* (Q)

EDU 3291 Seminar in Literacy for At Risk, Diverse Populations

Open to students in advanced or doctoral programs. Explores theories, research and issues in literacy education for at risk and diverse populations. *Credit: 3 semester hours.* (Q)

EDU 3292 Dissertation Seminar

Students prepare and present a dissertation proposal. A dissertation study cannot be conducted until all course requirements are met and satisfactory scores on the third annual portfolio are achieved. Annual portfolios satisfy the doctoral culminating requirement.

Students continuously register for Dissertations seminar until the dissertation is completed and the degree is awarded.

Credit: 3 semester hours. (Q)

EDU 3925 Maintaining Matriculation

Master's students not registered for other courses must register for 3925 until all degree requirements are completed and the degree is granted. *No credit. Fee: \$100 per semester. Offered each semester.*

EDU 5103 Educational Governance and Policy Issues

An analysis of the school community context in considering board policies and the development of working relationships with community members setting considering standards, accountability, pressure groups and political ideologies; the interaction of the school system and its political environment in the development of policy. *Credit: 3 semester hours.*

EDU 5104 School Personnel Administration

Issues in the recruitment, training, supervision, evaluation and effective deployment of professional and non-professional school employees. *Credit: 3 semester hours.*

EDU 5300 Organizational Theory and Planned Change in Education

This course builds upon a knowledge of classical and contemporary theories of organizational behavior curriculum and planned change. Through analytical frames of reference, the major constructs for understanding organizational culture, curriculum development and change theory are developed. These frames are overlaid on written case studies and research reports, simulations and/or field activities. The transfer of applicable theories to strategies for planned change is specified and explicated by individuals and teams within the course. Major emphasis is placed on improving leadership practice. *Credit: 3 semester hours.*

EDU 5301 Leadership Values, Decision Making, and Multicultural Organization

This course includes the development of decisional strategies that accommodate differences in questions of school operations, curriculum, instruction, staffing and related school-performance questions. This development considers the collaboration of school, student, family and community resources in the understanding and respecting of diverse views on schooling. Current thinking and research into the theory of multicultural organizations will also be discussed. *Credit: 3 semester hours.*

EDU 5410/7410 Gifted 1: Leadership in Comprehending Factors Involved in the Identification and Development of Talent

Gifted 1 examines the identification of gifted and talented students and factors involved with the development of their talents. Multiple criteria are illustrated in the identification process and special emphasis is placed on minority issues. This course is designed to satisfy NY State license extensions for teaching gifted students. *Credit: 3 semester hours.*

EDU 5411/7411 Gifted 2: Administering, Organizing and Developing Program Alternatives For Gifted and Talented Students

Gifted 2 concerns the 14–16 school-based alternatives that have proven effective for gifted and talented students. This course also deals with special problems associated with gifted programs including evaluation, tracking, cooperative learning and gender/minority equity. This course is designed to satisfy NY State license extensions for teaching gifted students. *Credit: 3 semester hours.*

EDU 5412/7412 Teaching Creative Thinking and Problem Solving to Gifted and Talented Students

This course responds to immediate and long-range needs of gifted students by promoting the achievement of basic skills and experience in creative thinking and problem solving. *Credit: 3 semester hours.*

EDU 5413/7413 Professional Collaboration and Leadership in Gifted Education

This course will cover collaborative models of professional development and program evaluation in gifted education, major issues and leadership concerns in the field, e.g., including underrepresented populations and integrated gifted practices schoolwide and systemwide. Students will investigate how to network and disseminate information on gifted education. *Credit: 3 Semester hours*

EDU 5415 Introduction to Educational Administration

The introductory course in school administration encompasses school operations, community relations, negotiations and interorganizational relationships. *Credit: 3 semester hours.*

EDU 5418 Administrative Theory in Education

The first course in administrative theory analyzes the school context as organizational behavior including structural, motivational, cultural, leadership and decisional aspects. *Credit: 3 semester hours.*

EDU 5420 Politics of Education

Analysis of political powers and authority that influence the structure and function of schools. The first course in politics focuses on the micropolitics of the school and its immediate social and political environment. *Credit: 3 semester hours.*

EDU 5471 Leadership in Instructional Supervision

The basic thrust of this course is toward an examination and analysis of objectives, roles, functions and practices of instructional supervision in schools. Emphasis is placed on supervisory leadership strategies and skills essential for teachers' professional growth, and for enhancing learning environments. The strategies utilized in various supervisory approaches representing collaborative, directive and non-directive orientations will be exam-

ined. Particular attention will be given to the implications and applications of the research on instructionally effective schools and on the attributes of effective supervisory behavior. *Credit: 3 semester hours.*

EDU 5499 General Review and Exam Preparations

A thorough review of administrative principles and practices emphasized on the State licensing examination. *Credit: 3 semester hours.*

EDU 5551 Organization and Administrative Leadership in Higher Education

An examination of the basic aspects of college and university organization including the background, development, goals and functions of public and private colleges and universities; the legal status, boards of control, state and local controls, professional associations and accreditations. *Credit: 3 semester hours.*

EDU 5552 Issues and Problems in the Administration of Higher Education

This course provides a unique opportunity to examine and discuss selected current and pertinent issues and significant problems in the administration of higher education through a study of relevant topics including the following: governance and control of higher education. *Credit: 3 semester hours.*

EDU 5571 Administrative Leadership

The course focuses on the administrative role of building principal in developing a successful context for the improvement of instructional performance in cognitive and affective dimensions as well as effective day-to-day operational practices of the school. *Credit: 3 semester hours.*

EDU 5599 Summer Intensive: General Review and Exam Preparation

A thorough review of administrative principles and practices emphasized on the State licensing examination. *Credit: 3 semester hours.*

EDU 5632 Organization and Administration of the Elementary and Secondary School Curricula

Emphasizes the connection of organizational structures and administrative practices to the presentation of curriculum and instructional performance. *Credit: 3 semester hours.*

EDU 5650 School Based Data Analysis

This course provides an introduction to using an evidence-based approach to inform decision making in the school. Students will learn to identify problems, formulate research questions and hypotheses, and to identify and collect relevant data. Students will have hands-on use of computer technology, SPSS and Microsoft Excel to organize information, create databases, design, perform and interpret basic statistical analyses. *Credit: 3 semester hours.*

EDU 5651 School Community Relations in Education

This course will investigate the complexities of dealing with many levels of community as it relates to schools. Students will examine selected methods of community analysis and focuses on strategies and techniques designed to improve the relationships with the school community as well as between systems and their respective communities. *Credit: 3 semester hours.*

EDU 5655 Educational Research and Data Analysis I

Prerequisite: EDU 5650 or the professor's permission. This course provides an introduction to the principles of statistical inquiry and their application of an evidence-based approach to educational problems. Students will formulate research questions and hypotheses and use descriptive and inferential statistics to investigate the research reports summarizing and interpreting the results of the analysis. Students will have hands-on use of computer technology and SPSS to organize and analyze data. Students will learn to use measures of central tendency and variability, standard scores, the normal distribution, correlation and regression, t-tests, ANOVA, chi-square as well as to compute and interpret statistical power. *Credits: 3 Semester hours.*

EDU 5665/7665 Leadership in Technology I

This course is designed to help school personnel (teachers, administrators, curriculum specialists and school board members) make decisions about the future use of computers in education. The course provides a systematic way of mapping curriculum usage in technology: selecting software, selecting hardware, developing materials and then implementing the chosen material. *Credits: 3 semester hours.*

EDU 5669-7669 Leadership in Technology II

Prerequisite EDU 5665-7665. *Requires departmental approval.* This course is a continuation of EDU 5665/7665 Leadership in Technology I. This course focuses on using technology to make data driven decisions for effective school leadership. It explores the role of data in making effective instructional, financial, and administrative decisions in schools. This is a significant issue in Educational Administration, and, in today's standards-based testing environment in K–12 education. Development and application of data-management and data-driven decision making processes are emphasized. It provides an introduction to behavioral decision theory. *Credits: 3 semester hours*

EDU 5701 Curriculum and Teaching: Theories into Practice

The course examines current research and thinking concerning major theories, models and principles of teaching and learning, the relationship between curriculum, instruction, teaching and learning. The differences between teacher styles, teacher processes, teacher behaviors, teacher effectiveness and their influence upon learning are also examined. *Credit: 3 semester hours.*

EDU 5721 Collective Negotiations

Collaborative decision making and bargaining to provide an effective instructional and working environment. *Credit: 3 semester hours.*

EDU 5741 Finance in Education

Establishment and management of district budget and finances to support achievement of educational goals and facilities development. *Credit: 3 semester hours.*

EDU 5761 School-Based Business Administration for Administrators and Supervisors

This course is designed to develop two levels of skills: the necessary skills to plan, build, and implement a school district budget and to examine how school public education is financed nationally and in New York State. Major topics include the language and process of school budgeting, the principles of school finance and essential elements of fiscal accountability. *Credit: 3 semester hours.*

EDU 5791 Legal Aspects of the Administration of Schools

This course considers the general legal context of local school administration as informed by federal and state law and precedent, policy decisions and conflicts arising from competing school interests. *Credit: 3 semester hours.*

EDU 5795 Student and Teacher Rights in Administration of Schools

Analysis is made of appropriate provisions of state and federal constitutions, statutes, case law and administrative rulings concerning student and teacher rights. Legal issues of professional relevance to classroom teachers and supervisors are studied. *Credit: 3 semester hours.*

EDU 5800 Case Studies in Educational Administration

This capstone course in case studies considers a variety of approaches to decision making in schools with special attention given to administrative decision making and models of shared decision making; students analyze cases, write, and present cases; school data will help develop case analyses. *Credit: 3 semester hours.*

EDU 5811 Administration and Supervision of Special Education Services

This course provides an overview of specific goals, policies, procedures and responsibilities relevant to meeting student needs and the statutory requirements for serving children with disabilities in the schools whether they are Native Language English speakers or English

Language Learners. Discussions, assignments and projects focus on the critical evaluation of the administrative and supervisory functions in planning, organizing, programming, implementing and evaluating programs for the delivery of special education services whether the student is in separate self-contained classes or included and educated within the mainstream environment. *Credit: 3 semester hours.*

EDU 5925 Maintaining Matriculation

Master's degree students not registered for other courses must register for 5925 until all degree requirements are completed and the degree is granted. *No credit. Fee \$100 per semester. Offered each semester.*

EDU 5935 Maintaining Matriculation

Professional Diploma students not registered for other courses must register for 5935 until all degree requirements are completed and the degree is granted. *No credit. Fee \$100 per semester. Offered each semester.*

EDU 5940 Maintaining Matriculation

Doctoral students who have NOT passed their comprehensive examinations and are NOT registered for other courses must register for 5925 until all degree requirements are completed and the degree is granted. *No credit. Fee \$100 per semester. Offered each semester.*

EDU 5950 School Building Leader Internship

Practicum at the building level in resolving questions of coordination, mediations and resource allocation dealing with individual schools and their settings. *Credit: 3 semester hours.*

EDU 5951 School District Leader Internship

Practicum at the district level in resolving questions of community involvement, staffing problems, instructional applications and monitoring, staff and program development, and financial issues. *Credit: 3 semester hours.*

EDU 5952 School Building and School District Leader Internship

Practicum in resolving questions of coordination, mediations, and resource allocation dealing with individual schools and their settings, and at the district level in resolving questions of community involvement, staffing problems, instructional applications and monitoring, staff and program development and financial issues. *Credit: 6 semester hours.*

EDU 5990 Doctoral Research Seminar

Students who have passed the doctoral comprehensive examination and completed all course work requirements register for Research Seminar for 3 credits for each semester until the dissertation is completed and the degree is awarded. *Credit: 3 semester hours. Offered each semester.*

EDU 6121 Orientation to Mental Health Counseling

Pre-requisites: School Program core courses. This course is designed for beginning mental health counseling students. This course will provide students with knowledge, perspectives, and an introduction to the skills necessary for effective practice as a culturally competent mental health counselor working with individuals from diverse cultural backgrounds in settings such as hospitals, clinics, state programs and (or) private practice. The course will place an emphasis on ethical considerations in counseling. *Credit: 3 semester hours. (Q, SI)*

EDU 6122 Orientation to School Counseling

This course is designed for beginning school counseling students and provides an orientation to the profession, addresses ethical and legal standards and practices, technology, and current research. *Credit: 3 semester hours. (Q, SI)*

EDU 6125 Brief Counseling of Children and Adolescents

Prerequisites: Core Courses, EDU 6206, 6208. This course introduces students to brief counseling methods and techniques for children and adolescents. Interviewing techniques and case conceptualization in terms of evidence-based practices will be emphasized. Strategies for professional counselors to document the effectiveness of counseling interventions will also be presented. *Credit: 3 semester hours. (Q, SI)*

EDU 6205 Group Dynamics

Pre-requisites: School Program core courses. This course focuses on the small group, including goal setting, group pressure, leadership factors and member roles. Group process is learned as students participate in a personal growth group as a part of the course. *Credit: 3 semester hours. (Q, SI)*

EDU 6206 Psychosocial Development: A Multicultural Perspective

Pre-requisites: School Program core courses. This course focuses on psychosocial factors involved in understanding individuals across the lifespan in many cultures and subcultures. *Credit: 3 semester hours. (Q, SI)*

EDU 6207 Developmental Counseling

Prerequisites: Core Courses, EDU 6206, 6208. The aim of this course is to explore developmental stages according to major theorists and to utilize this knowledge in practical applications. Students will combine theory and practice by developing age and cognitively appropriate activities. The challenging course work will enable students to conceptualize and create developmentally appropriate school counseling group and individual activities. *Credit: 3 semester hours. (Q, SI)*

EDU 6208 Counseling and Personality Theories

Prerequisites: EDU 6206 or equivalent. This course reviews the major theories of personality, analyzes their similarities and differences, and relates these theories to counseling techniques. *Credit: 3 semester hours.* (Q, SI)

EDU 6211 Crisis Prevention and Intervention I

This course is an introduction to Crisis Prevention and Intervention, focusing on intervention strategies in schools (Grades K–12 and post secondary education) and mental health facilities. This course will include theories, research and practical counseling techniques, and other prevention and intervention strategies. Students will spend a sizeable portion of the course demonstrating the techniques introduced during the course. *Credit: 3 semester hours.* (Q, SI)

EDU 6262 Assessment in Counseling

Pre-requisites: School Program core courses. This introductory course involves the study of the various psychological assessment instruments and techniques that are relevant to the professional counselor working in schools or clinical settings. The psychometric properties of test instruments will be discussed and the appropriate and ethical use of tests with diverse populations will be emphasized. *Credit: 3 semester hours* (Q, SI)

EDU 6264 Counseling Skills and Techniques

Pre-requisites: School Program core courses. This is the introductory course in the essential skills and processes of individual counseling. Major approaches to counseling will be studied, and the essential process issues in counseling will be analyzed and illustrated. Pre-practicum counselors will study these process issues didactically as well as experientially through the use of counseling tapes, discussion/analysis and role-playing techniques. *Credit: 3 semester hours.* (Q, SI)

EDU 6270 Case Conceptualization, Treatment Planning & Psychopharmacology

Pre-requisites: completion of all core courses except PSY 635 and permission of the advisor. This seminar course in mental health counseling will develop advanced interviewing skills and techniques necessary for differential diagnosis, case conceptualization and treatment planning using the DSM IV-TR, as well as, for maintaining and terminating the psychotherapeutic relationship. The appropriateness of consultation and collaboration with other mental health providers will be discussed. In addition, the basic classifications, indications, and contraindications of commonly prescribed psychopharmacological medications will be studied along with a discussion of the need for appropriate referrals for medication evaluations. *Credit: 3 semester hours.*

EDU 6301 Career Development

Prerequisites: School Program core courses. Career development focuses on the tools and techniques that counselors utilize in order to assist individuals in developing educational and vocational plans. *Credit: 3 semester hours.* (Q, SI, D)

EDU 6305 Practicum in School Counseling

Prerequisites: Completion of core courses. *Student must file application with program advisor the semester prior to enrollment in practicum.* This course is designed to provide advanced students with clinical experiences in school counseling. Forty hours of direct counseling/consultation services and 60 hours of indirect services with students, school personnel, and families are required at the site. *Credit: 3 semester hours.* (Q, SI)

EDU 6306 Practicum in School Counseling with Bilingual Students

The prerequisites and course description are the same as 6305, except that candidates meet regularly with individual bilingual/bicultural students in a multicultural school setting. *Credit: 3 semester hours.* (Q)

EDU 6307 Research in Counseling

Prerequisite: EDU 6262 and Core Courses. This introductory course in counseling research focuses on the major types of research and the critical issues in the professional literature. *Credit: 3 semester hours.* (Q, SI)

EDU 6309 Research in Counseling II

Prerequisite: EDU 6307. This course extends the topics begun in EDU 6307. Students will formulate research questions and hypotheses and use descriptive and inferential statistics to investigate the research reports summarizing and interpreting results of the analyses. *Credit: 3 semester hours.* (Q, SI)

EDU 6310; 6311; 6312 Internship in Mental Health Counseling

Prerequisites: Completion of Program Core Courses and Permission of the Advisor. Each internship course consists of a minimum of 300 hours (totaling 900 hours for the three internships) working at mental health agencies, hospitals, clinics, or other clinical sites (e.g., substance abuse or other specialized programs). The internship experience is an opportunity for students to integrate theoretical knowledge with practical experience and to specialize in a particular treatment approach and/or a specific client population or a more general setting. *Credit: 9 semester hours.* (Q, SI)

EDU 6314 Counseling and Special Education

Pre-requisites: EDU 9711 or equivalent and permission of advisor. This course is designed for school counseling and mental health counseling students. The course will focus on learning how to advocate for the academic, social, and vocational needs of students with learning disabilities, emotional/behavioral disorders, and

other health impairments. Students will learn about the laws that impact special needs children, how to successfully engage parents and guardians, and how to connect students with the services they need to be successful. *Credit: 3 semester hours.*

EDU 6364 Counseling the Substance Abuser

This course addresses the biological, psychological and sociological factors related to use of alcohol and drugs. *Credit: 3 semester hours.* (Q, D)

EDU 6424 Case Studies and Community Resources in Counseling

Prerequisites: EDU 6121, 6205, 6206, 6262, 6264, and 6301. This course addresses the dynamics of counseling clients with a variety of developmental and crises type problems and looks at the community resources available to address these problems. *Credit: 3 semester hours.* (Q, SI)

EDU 6455 Directed Study in Counselor Education

Prerequisite: Permission of the Advisor and the Program Coordinator. Directed study in an area of competence relevant to the student's counseling program. Student works with an advisor to develop an appropriate study plan. *Credit: 3 semester hours.*

EDU 6530 Multicultural Counseling

This course is designed to increase students' understanding of and ability to successfully counsel individuals living in a multicultural society. *Credit: 3 semester hours.* (Q)

EDU 6590; 6591 Internship in School Counseling I, II

Prerequisite: Permission of the Program Coordinator. *Students must consult with an advisor and file an application the semester prior to enrollment in the internship.* Each internship is designed to provide advanced graduate students with a minimum of 300 hours of supervised clinical experience, including a minimum of 120 direct service hours in an approved school counseling setting and 180 hours of indirect service. Supervision is provided through various methods by a qualified site supervisor, an approved STJ clinical associate, and by a faculty member. This course includes a weekly group seminar with a faculty member where the student receives individual and group supervision. *Credit: 3–6 semester hours.* (Q, SI).

EDU 6592; 6593 Internship in Bilingual School Counseling I, II

The prerequisites and course description are the same as 6590 and 6591, except that the field site is a multicultural school and the candidate works primarily with bilingual/bicultural students. *Credit 3–6 semester hours.*

EDU 6595 Organization and Administration of Personnel Services

Prerequisites: School program core courses. This course focuses on integrating theoretical and practical skills from the prerequisite courses in order to develop and evaluate comprehensive counseling programs in schools. The various roles of the school counselor and types of services provided are discussed. *Credit: 3 semester hours.* (Q, SI)

EDU 6606 and 6607 Supervision of Counseling

Prerequisites: Completion of master's program in counseling, adequate experience as a practitioner, and permission of the Program Coordinator. This first course explores models of supervision and the various processes involved in supervision. The second course involves the evaluation and critique of counseling procedures through actual supervision of counselor trainees. This course involves the evaluation and critique of counseling procedures through actual supervision of counselor trainees. *Credit: 3–6 semester hours.*(Q)

EDU 6610 Spiritual Issues in Counseling and Psychotherapy

The tenets of major spiritual identifications and practices, and their impact on counseling will be explored. *Credit: 3 semester hours.*(Q)

EDU 6650 Consultation and Evaluation

This course is designed to provide theory and practice in consultation with counselors who are employed in a variety of counseling-related settings. *Credit: 3 semester hours.*

EDU 6651 Foundations in Mental Health Counseling and Consultation

Prerequisites: Core 6121, 6205, or 6301, 6264. This course provides students with basic information on the principles and practices of mental health counseling and consultation. Topics include the history and philosophy of mental health counseling, professional identity, the roles of the mental health counselor, professional ethics, integrating theory to practice, various contexts of practice and organizational structures, assessment, prevention, consultation and an understanding of how diversity influences the practice of mental health counseling. *Credit: 3 semester hours.* (Q, SI)

EDU 6925 Maintaining Matriculation

Students seeking master's degrees who are not registered for other courses must register for 6925 until all degree requirements are completed and the degree is granted. *No credit. Fee: \$100. Offered each semester.*

EDU 6935 Maintaining Matriculation

Advance Certificate students who have not registered for other courses must register for 6935 until all diploma requirements are completed and the diploma is granted. *No credit. Fee: \$100. Offered each semester.* (Q, SI)

EDU 7000 Sociological/Psychological Foundations of Learning

This course takes a critical perspective of the historical, political, social and cultural issues that help contextualize American public schools. In the social context, the course explores the relationships between educational movements and the educational philosophies for regular and special education as they relate to student achievement. In the psychological context, the course examines facets of learning including cognitive development, maturation and moral development of all students *Credit: 3 semester hours.*

EDU 7001 Curriculum Instruction and Teaching

Basic theories and principles of curriculum and instruction; emphasis on developing and designing a curriculum plan, as well as historical, philosophical and social foundations of curriculum. *Credit: 3 semester hours.*

EDU 7002 Early Childhood Study Abroad Elective: International Perspectives in Early Childhood Education

The study of educational philosophy, culture, policy and practices in early childhood settings abroad. Group travel program elective; offered annually. *Credit: 3 semester hours.*

EDU 7003 Current Issues and Change Theory in Curriculum

Controversial issues related to teaching, learning supervision and curriculum change; essential of knowledge that shapes a person's philosophy of curriculum. *Credit: 3 semester hours.*

EDU 7004 Essential Readings in Curriculum in the 20th Century

Important books of the 20th century, which have shaped curriculum. Includes the primary works authored by liberal and conservative thinkers including Dewey and Counts on the Left and Adler and Hirsch on the Right. Ideal for the reflective student. *Credit: 3 semester hours.*

EDU 7006 Study Abroad Elective: International Perspectives in Education

Thee Study of educational philosophy, culture, policy and practices in early childhood, childhood and adolescent settings abroad. Group travel program elective; offered annually. *Credit: 3 semester hours.*

EDU 7106 Understanding the Socio-Emotional, Cultural and Cognitive Aspects of Middle School Learners in General and Inclusive Settings

This course will focus on understanding, celebrating and nurturing the young adolescent. Course topics include historical perspectives on the middle school philosophy, foundations for middle level curriculum theory, characteristics of young adolescents, including physical, cognitive, moral, psychological and social-emotional attributes: identity development; home and community involvement; and the future of the middle grades movement. *Credit: 3 semester hours.*

EDU 7107 Methods and Strategies of Teaching Middle School Learners in General and Inclusive Settings

This course will focus on understanding how to organize school structures and classroom practice to best facilitate learning for the young adolescent. Course topics include: advisory, teaming, scheduling, curriculum, assessment, instruction, athletics and the arts, teacher dispositions that lead to positive learning environments, and the future of the middle school in relation to the 21st century skills movement. Students will be required to complete 8 hours of field participation. *Credit: 3 semester hours*

EDU 7114 Early Childhood Education Associate Teaching

Prerequisite: Completion of pedagogical coursework (36 credits) and permission of the Graduate Committee on Associate Teaching. Observation and participation in teaching in an early childhood school under University supervision at both the Pre-K and the grades 1–2 levels, 4-1/2 days per week. Attendance at weekly seminars is required. *Credit: 3 semester hours.*

EDU 7115 Childhood Associate Teaching

Prerequisite: Completion of pedagogical coursework (39 credits) and permission of the Graduate Committee on Associate Teaching. Observation and participation in teaching in an approved elementary school under University supervision at both the primary (1–3) and elementary levels, 4-1/2 days per week. Attendance at weekly seminars required. *Credit: 3 semester hours.*

EDU 7117 Adolescent Education Associate Teaching: Play, Social Learning in Early Childhood Environments

Prerequisite: Completion of pedagogical coursework and permission of the Graduate Committee on Associate Teaching) Observation and participation in teaching in an approved school under University supervision at both the grades 7–9 and the 10–12 levels, 4-1/2 days per week. Attendance at weekly seminars required. *Credit: 3 semester hours.* (Q)

EDU 7120 Individualization: Diagnosing Students' Instructional Needs

The development of diagnostic skills to analyze individual learning styles and to then develop instructional prescriptions on the basis of that data. *Credit: 3 semester hours.* (Q, SI)

EDU 7122 Programs in Early Childhood Education: Play, Social Learning in Early Childhood Environments

This course examines historical, philosophical and current perspectives on early childhood education programs, including their implications for the role of play in children's development and learning in all domains, cognitive, linguistic, physical, emotional, social, and aesthetic. Fieldwork required. *Credit: 3 semester hours.*

EDU 7123 Creative Arts in Linguistically/Culturally Diverse and Inclusive Early Childhood Settings

Through workshop experiences, readings, and reflection, students become familiar with process-oriented approaches to young children's creativity in the arts and with rationales for infusing creative arts into curriculum. Issues regarding sensory integration and assistive technology are explored. Fieldwork required. *Credit: 3 semester hours.*

EDU 7126 Observing and Recording the Behavior of Young Children in Early Childhood Settings

This course focuses on young children's growth and development and explores the reasons for and methods of observing young children and teacher-child interaction in diverse early educational settings. Fieldwork required. *Credit: 3 semester hours.*

EDU 7127 School, Family and Community Partnerships for Early Childhood Professionals

This course takes an ecological perspective on supporting children's learning and development through strengthening positive links between school, family, and community. Examines roles of members in interdisciplinary teams and collaborative partnerships in assessing and planning for young students with disabilities. *Credit: 3 semester hours.*

EDU 7128 Integrated Curriculum in Early Childhood

Students learn to design and implement integrated curriculum including both teacher-planned and child-initiated learning experience to address state learning standards in social studies, language arts, mathematics, science, and technology. Fieldwork required. *Credit: 3 semester hours.*

EDU 7129 Mathematics and Science in Early Childhood

In this course, students explore the teaching and learning of scientific and mathematical concepts and processes through content of relevance and interest to children, Pre-K through second grade. Includes evaluating and integrating technology resources into lesson planning for inquiry-based learning. *Credit: 3 semester hours.*

EDU 7135 Current Trends and Research in the Teaching of Social Studies

Current practices and trends; an examination of selected innovative programs and the development of skills and techniques for social studies instructions. (Fieldwork required.) *Credit: 3 semester hours.*

EDU 7136 Current Trends and Research in the Teaching of Science

Current practices, trends and examination of selected innovative programs and the development of skills and techniques for instruction in science. (Fieldwork required.) *Credit: 3 semester hours.*

EDU 7137 Current Trends and Research in the Teaching of Mathematics

An examination of the present-day curriculum in elementary school mathematics in addition to current practices and trends with emphasis on the content of modern mathematics. Fieldwork required. *Credit: 3 semester hours.*

EDU 7138 Current Trends and Research in the Teaching of Language Arts

Current practices and trends; examination of selected innovative programs and the development of skills and techniques for language arts instruction. *Credit: 3 semester hours.*

EDU 7195 Teaching and Learning: Childhood

This course is designed to provide prospective teachers of elementary school students with focused knowledge of learning and development as they relate to teaching strategies and techniques. (Fieldwork required.) *Credit: 3 semester hours.*

EDU 7211 Educational Research and Data Analysis II

Prerequisite: EDU 5655. This course extends the study of statistical inquiry begun in EDU 5655. It will address more advanced univariate inferential statistical methods, principles of measurement, internal validity, power analysis and effect size. Students will have hands-on use of computer technology and SPSS to organize data and compute analyses. Students will learn to use techniques such as chi-square, bivariate and multiple correlation/regression, analysis of variance and covariance, and HLM to analyze and interpret the results of experimental and non-experimental studies. *Credit: 3 semester hours.*

EDU 7217 Creating Basic Audiovisual Media (CF.LIS 217)

Creation and evaluation of multi-media programs for all libraries. Independent projects will require additional laboratory time. *Credit: 3 semester hours. Field trip may be required. Library Science fee: \$25.*

EDU 7222 Historical Perspectives and Current Trends in Curriculum Development

This course focuses upon current issues and problems within the field of curriculum. The course examines conceptions of curriculum as well as historical, philosophical, social, and intellectual foundations of those conceptions. *Credit: 3 semester hours.*

EDU 7266 Technology for Teaching Literacy Applications in Regular and Special Education Settings

Technology utilization for literacy-based instruction. Emphasis is placed on the ways that technology can be used in the classroom to acquire information, communicate, and enhance learning in grades Pre K–5. *Credit: 3 semester hours.*

EDU 7267 Technology for Literary-Based Applications in Content Area Learning in Regular and Special Education Settings

Technology utilization for literary-based instruction in the content areas. Emphasis is placed on the ways that technology can be used to acquire information, communicate, and enhance learning in grades 6–12. *Credit: 3 semester hours.*

EDU 7270 Research Seminar: Investigating and Evaluating Research in the Field of Instructional Technology

This course will focus on investigating and evaluating current research findings and methodologies in the field of instructional technology. Students will explore how theories, research methodologies and technology research tools are being used to study teaching and learning with emerging technologies. Upon completion of the course, students will develop a literature review and research plan in an area of interest for their dissertation proposal. *Credit: 3 semester hours.*

EDU 7290 Human Relations in Inclusive Settings

The course will focus on improving communication skills and relationships with parents, students, administrators and members of the community in a multicultural society. *Credit: 3 semester hours.*

EDU 7295 Teaching and Learning Adolescent

This course involves planning for instruction with a view toward differentiated instructional strategies for all students in the several content areas, paying special attention to current standards. *Credit: 3 semester hours.*

EDU 7297 Integrative Research Seminar in Education

Surveys methods of qualitative and quantitative inquiry into educational issues from Grade B–12 in mainstream and inclusive settings marked by racial, ethnic, linguistic, and cultural diversity. Students will analyze and synthesize research relevant to selected topics in literacy, home-school-community relations and other program-related areas of interest in early childhood, childhood, adolescent education or education for inclusive, educationally disadvantaged students. *Credit: 3 semester hours.*

EDU 7300 Educational Assessment of Young Children with Exceptionalities

Prerequisites: EDU 9737 and EDU 7126. Use of formal and informal strategies for assessment and evaluation of young children with exceptionalities. Emphasis in interdisciplinary and family collaborator in collection and analysis of assessment data for formulation of interventions. *Fieldwork required. Credit: 3 semester hours.*

EDU 7301 Curriculum Modifications for Teaching Students with Disabilities in Diverse Early childhood settings.

Focuses on adapting general education curriculum, methods, technology, resources and materials to support students over a wide range of disabilities and cultural/linguistic backgrounds in meeting state learning standards. Fieldwork required. *Credit: 3 semester hours.*

EDU 7302 Early Intervention and Provision of Services for Preschoolers with Special Needs.

Highlights needs of infants, toddlers and preschoolers with or at risk for developmental delays or disabilities. Examines assessment and intervention process and strategies in a variety of natural environments and issues in the transition to preschool environments. Fieldwork required. *Credit: 3 semester hours.*

EDU 7303 Research on Issues in Early Childhood Special Education

Focus on relationships between research, theory and practice in providing appropriate services for infants, toddlers and young children with special needs. *Credit: 3 semester hours.*

EDU 7304 Practicum in Special Education- Early Childhood

Prerequisites EDU 7114, *Core Special Education courses and permission of instructor.*

Applications of instructional strategies for students with disabilities in inclusive or special education settings, under university supervision. A minimum of 25 days or 150 hours. Seminar attendance required. *Credit: 3 semester hours.*

EDU 7319 Approaches, Strategies and Materials for Literacy Development

Study of various approaches to reading instruction; analysis of strengths and weaknesses of each mode; classroom grouping and management procedures for reading instruction. *Credit: 3 semester hours.*

EDU 7334 School Media Centers (Cf. LIS 234)

Introduction to the organization and functions of school media centers. Discussion of the educational setting, program relationships within the school and the community, finances and budgeting, staffing, services and program planning. Emphasized are operations of the building level media program. *Credit: 3 semester hours. Field trip required.*

EDU 7399 Field Research in Reading and Learning

This course serves as a combined seminar and practicum in which a variety of approaches to teaching students to read are explored and field-tested. Students are required to use previous research as the basis for the development of experimental study focuses on the application of varied reading ideologies for students with diverse learning styles and to submit their findings in a manuscript for publication. *Credit: 3 semester hours.*

EDU 7410 Identification of the Gifted and Talented

This course examines the identification of gifted and talented students and factors involved with the development of their talents. Multiple criteria are illustrated in the identification process and special emphasis is placed on minority issues. This course is designed to satisfy NY State license extensions for teaching gifted students. *Credit: 3 semester hours.*

EDU 7411 Introduction to Designing Programs, Curriculum and Materials for the Gifted and Talented

Identification and design of appropriate programs, curriculum and materials for gifted and talented groups to permit knowledgeable access and developing skills for teachers of these students. *Credit: 3 semester hours.*

EDU 7412 Teaching Creative Thinking and Problem Solving to Gifted and Talented Students

This course responds to immediate and long-range needs of gifted students by promoting the achievement of basic skills and experience in creative thinking and problem solving. *Credit: 3 semester hours.*

EDU 7413 Professional Collaboration and Leadership in Gifted Education

This course will cover collaborative models of professional development and program evaluation in gifted education, major issues and leadership concerns in the field, e.g., including underrepresented populations and integrated gifted practices school wide and system wide. Students will investigate how to network and disseminate information on gifted education. *Credit: 3 Semester hours*

EDU 7440 Designing, Implementing and Evaluating In-Service Programs

This course examines, through reading and discussion of current research and literature, characteristics as well as theoretical frameworks of effective in-service design processes. Models of effective in-service programs are analyzed and adapted to address students' educational needs and settings. *Credit: 3 semester hours.*

EDU 7550 Internship Seminar in Instructional Leadership

The internship application form and proposed program must be submitted to the Coordinator of the Internship Program, Division of Administrative and Instructional Leadership, St. John's University at least two month prior to the session in which the applicant plans to carry out his/her internship. *Credit: 3 semester hours.*

EDU 7555 Planning for Curriculum Development in Elementary and Secondary Schools

Theories of learning and relevant research; study of the curriculum decision-making process; research evaluation and practice concerning operational aspect of educational objectives; behavioral analysis of educational tasks. *Credit: 3 semester hours.*

EDU 7579 Observational Analysis for Teachers

Macro-and micro-analysis of teaching through the use of affective, cognitive, verbal and non-verbal observational systems. *Credit: 3 semester hours.*

EDU 7580 Analysis of Teaching and Educational Process

The relationships that exist between instructional objectives and teaching behavior; applications of human development and learning concepts as they relate to specialized teaching methods and materials. Research results and selected generic theories of teaching behavior are used to extend the teacher's concept of the teaching-learning process. *Credit: 3 semester hours.*

EDU 7585 Assessment and Evaluation in the Teaching/Learning Process (formerly 7297,7298)

This course focuses on formal and informal means of assessing students' learning and the teacher's analysis and improvement of his/her own practice through connecting this process with the relevant research. *Credit: 3 semester hours.*

EDU 7590 Communications and Human Relations

The educational implications of prejudice and sexism are examined as well as the development of skills necessary to identify needs of adolescents; training for group facilitating related to the classroom and the development of communication skills are also discussed. *Credit: 3 semester hours.*

EDU 7663 Using Technology in the Study of Qualitative Research Methodology

Students in this course will learn how qualitative data analysis software can be used as a tool to enhance the research analysis process. This course will integrate theory with applications, as well as provide instruction on how to use the software. Students will use both text analysis and qualitative analysis software programs in a study where they design the instruments, collect the data, and analyze the results. *Credits: 3 semester hours*

EDU 7664 Foundations of Distance Learning

This course provides an introduction to the field of e-learning and distance education. The course provides learning opportunities to understand the foundations, theories, research, and delivery technologies of distance education. Learners explore current e-learning tools used in online and blended instruction. The

emphasis is on pedagogy and the learner, rather than the technology itself. Learners also engage in activities that involve applying effective design and teaching strategies to a course module appropriate for their teaching.

Credits: 3 semester hours.

EDU 7665 Computers: Programming and Applications in Management and Education

An overview of administrative and instructional uses of the computer in educational settings. This course is designed to help school personnel (teachers, administrators, curriculum specialists and school board members) make decisions about the future use of computers in education. The course provides a systematic way of mapping curriculum usage in technology: selecting software, selecting hardware, developing materials and then implementing the chosen material. *Credit: 3 semester hours.*

EDU 7666 Developing Curriculum Materials for the Web

Recent advances in technology are examined in terms of research implications and classroom applications. Contemporary conceptions of curriculum theory, design, and development are studied and applied to the development of web based curriculum materials. The course includes the study and creation of inquiry based curriculum webs. *Credit: 3 semester hours.* (Q, SI)

EDU 7667 Foundations of Instructional Design for Technology-Supported Learning

This course provides an introduction to instructional design for technology-supported learning. The purpose is that students gain an understanding of the field, learn to analyze a subject domain and to design, develop, implement, and evaluate technology-supported learning experiences to facilitate student construction of knowledge in that domain. Students will apply knowledge of approaches to teaching and learning of cognitive, psychomotor and affective goals, approaches to formative evaluation of instructional design and communication and collaboration technologies in the design of a learning experience. *Credits: 3 semester hours.*

EDU 7668 Computer Technology in Education

This course considers the three ways in which computers can be used in instruction; as tutors, tools, or tutees. Examples of each of these uses are examined in terms of the theories of learning and curriculum implicit in each. Authoring systems, which allow teachers to design computer-assisted instruction, are used. *Credit: 3 semester hours.*

EDU 7703 Analysis of Alternative Innovative Strategies

The purpose of this course is to examine educational alternatives through historical, sociological and philosophical analyses of schools and education. Study of the origin, the characteristics and the current directions of educational alternatives provide the framework for this course. *Credit: 3 semester hours.* (Q)

EDU 7708 Trends and Techniques in the Evaluation of Programs

This course will provide information about approaches to formative and summative program evaluation. It will include the establishment of evaluation criteria and standards, data gathering and analysis techniques, utilization of evaluation data, criteria for judging evaluations, and ethical issues in program evaluation. Case studies will be used to illustrate application of theoretical issues in evaluation to practical situations. *Credit: 3 semester hours.*

EDU 7712 Change Theory and the Curriculum

The purpose of this module is to help enrolled students to better understand the organization of schools — systems and to suggest ways curriculum specialists can bring about educational change in a systematic and planned way. Curriculum change strategies and tactics based upon recently developed scientific knowledge, concepts and theory are considered. *Credit: 3 semester hours.*

EDU 7715 Issues in Curriculum: Theory and Development

This course reviews the historical evolution of curriculum as a field as well as the works of those who have contributed to this evolution. Traditional as well as contemporary conceptions of curriculum theory, design and development are compared. *Credit: 3 semester hours.*

EDU 7800 Multivariate Data Analysis

Prerequisite: EDU 5655 and 7211. This course examines advanced research and statistical design approaches, including multiple and logistic regression, discriminant analysis, MANOVA, HLM, causal modeling, factor analysis and validity and reliability assessment. Students will have hands-on use of computer technology and SPSS to organize and analyze data. *Credit: 3 semester hours.*

EDU 7890 Independent Study

Prerequisite: Permission and approval of Chairperson is required. Open to only qualified students who wish to pursue and advanced research project in a curriculum or teaching area under staff supervision. This course may be repeated for credit with the permission of the Chair. *Credit: 3 semester hours.* (Q, SI)

EDU 7900 Qualitative Research: Methodology and Analysis

This course focuses on a variety of qualitative approaches to discipline and inquiry that can be brought to bear on the problems in education and also examines underlying theoretical frameworks of these approaches. The course provides opportunities for students to develop knowledge and skills in the various qualitative techniques and methods. *Credit: 3 semester hours.*

EDU 7901 Educational Research and Data Analysis III

Prerequisites: 5655 and 7211. This course advances the principles and concepts developed in EDU 5655 and EDU 7211. The course will include instrument development, data collection strategies and advanced data analysis techniques using statistical software. *Credit: 3 semester hours.*

EDU 7925 Maintaining Matriculation

Master's degree students not registered for other courses must register for 7925 until all degree requirements are completed and the degree is granted. *No credit. Fee: \$100 per semester. Offered each semester.* *Credit: 3 semester hours.* (Q, SI)

EDU 7935 Maintaining Matriculation

Professional Diploma students not registered for other courses must register for 7935 until all degree requirements are completed and the degree is granted. *No credit. Fee: \$100 per semester. Offered each semester.*

EDU 7940 Maintaining Matriculation

Doctoral students not registered for other courses must register for 7940 until all degree requirements are completed and the degree is granted. *No credit. Fee: \$100 per semester. Offered each semester.*

EDU 7990 Doctoral Research Seminar

Original research leading to the doctoral degree. Students who have passed the doctoral comprehensive examination and completed all course work requirement register for Research Seminar for 3 credits for each semester until the dissertation is completed and the degree is awarded. *Credit: 3 Semester hours.*

EDU 9001 Foundations of Bilingual and Second Language Education

History, and legal/political underpinnings of American education with an emphasis on programs for linguistically diverse learners; examination of exemplary principles, policies, educational models, research, assessment and technology. *Credit: 3 semester hours. (Q, O)*

EDU 9002 Psychology and Sociology of Language and Bilingualism

Social and psychological aspects of bilingualism in the context of current theory and research on first- and second-language acquisition and use from birth through adolescence. (Five hours of field experience.) *Credit: 3 semester hours. (Q, O)*

EDU 9003 Literacy Development for First and Second Language Learners

Provides students with theory and practice and necessary knowledge and skills for teaching literacy and language arts to monolingual and linguistically/culturally diverse learners. (Field work of 15 hours required.) *Credit: 3 semester hours. (Q, O)*

EDU 9004 Content Area Instruction for Linguistically/Culturally Diverse Learners

Prepares students with the necessary skills for teaching science, mathematics, and social studies through English as a second language and, as a means for improving English language skills. (Field work of 15 hours required.) *Credit: 3 semester hours. (Q, O)*

EDU 9005 Teaching English to Speakers of Other Languages and Dual Language Instruction

Theoretical and practical aspects of teaching English to speakers of other languages and dual language instruction for all age groups and language proficiency levels. *Credit: 3 semester hours. (Q, O)*

EDU 9006 Human Development in Cross-Cultural Perspective

Presents a cross-cultural framework for the study of birth through adolescent development. Emphasis is placed on the effects of cultural, heritage characteristics and socioeconomic levels. *Credit: 3 semester hours. (Q, O)*

EDU 9009 Teaching Strategies in the ESL and Bilingual Classroom: Science, Mathematics and Social Studies

Prepares students with the necessary skills for teaching science, mathematics and social studies through English as a second language and as a means for improving English language skills. Fieldwork of 15 hours required. *Credit: 3 semester hours. (Q, O)*

EDU 9010 (cf. EDU 9710) Linguistics for Teachers of English Language (ELL) and Exceptional Learners

An introduction to the fundamental principles of descriptive and theoretical linguistics and the application of linguistic analyses to the teaching of language. (Field work of five hours required.) *Credit: 3 semester hours. (Q, O)*

EDU 9012 Methods of Language and Academic Assessment for ELLs and Exceptional Learners

Methods for adapting and utilizing instruments to assess language proficiency and cultural learning in TESOL, bilingual education and exceptional learners with second language competencies. (Field work of 10 hours required.) *Credit: 3 semester hours. (Q, O)*

EDU 9013 Research in Language, Culture and Communication

The purpose of this course is to help students become informed consumers of qualitative and quantitative research methods as they apply to TESOL and bilingual education. This course will provide a greater understanding of second language learning theories as well as enhance students' knowledge of educational research design and skill development to write a literature review that leads to a research question. *Credit: 3 semester hours. (Q, O, SI)*

EDU 9014 Practicum and Seminar in TESOL

Open only to TESOL majors and prerequisite core courses needed. Observation and field-based teaching in elementary and secondary level TESOL classrooms, under University supervision. Attendance at a weekly on-campus seminar is required. Thesis is conducted based on independent research. *Credit: 3 semester hours. (Q, O)*

EDU 9015 Structure of the English Language

Linguistic description and analysis of the major subsystems of present-day American English; phonology, morphology, and syntax. Analysis of major challenges in English grammar for ELLs. *Credit: 3 semester hours. (Q)*

EDU 9025 Maintaining Matriculation

Master's students not registered for other courses must register for 9025 until all degree requirements are completed and the degree is granted. *No credit. Fee: \$50 per semester. Offered each semester. (Q, SI, O)*

EDU 9700 Research in Collaborative Partnerships and Strategic Instruction for General, Special and Inclusive Education: Childhood

This course shows students how to become informed consumers of qualitative and quantitative research methods as they apply to general, special and inclusive education. Research study will include examining techniques for promoting collaborative partnerships and strategic instruction in literacy and learning for general and special educators. Models of collaboration, theoretical approaches to school-based collaboration and roles of members of interdisciplinary teams will be examined. *Credit: 3 semester hours. (Q, SI, O, D)*

EDU 9702 Practicum in Special Education: Childhood

Prerequisites: Core Special Education Courses and permission of instructor. In this combined practicum seminar course, participants will apply research on instructional strategies in educational settings. A minimum of 150 field hours is required. *Credit: 3 semester hours. (Q, O, D)*

EDU 9707 Curriculum Adaptation and Modification Planning for Exceptional Students

Theories and practice for creating and managing environments that foster learning, acceptance, positive behaviors and developing techniques for differentiated instruction. (15 hours of field experience). *Credit: 3 semester hours. (Q, O, D)*

EDU 9710 (cf 9010) Linguistics for Teachers of English Language (ELL) and Exceptional Learners

An introduction to the fundamental principles of descriptive and theoretical linguistics and the application of linguistic analyses to the teaching of language are presented in this course. *Credit: 3 semester hours. (Q, O)*

EDU 9711: Education of Individuals with Exceptionalities

Presents an overview of issues, theory, and practice that impact families and students with disabilities, giftedness, English Language Learners and children at risk for school failure. *Credit: 3 semester hours. (Q, SI, O, D)*

EDU 9712: Educational Assessment of Individuals with Exceptionalities

Centers on the diagnosis and evaluation of individuals with exceptionalities. Field experience of 20 hours with interviews, observations, and assessment procedures in school, clinic and/or community settings. *Credit: 3 semester hours. (Q, SI, O, D)*

EDU 9713: Cognitive Theories Applied to Special Populations

This course examines theoretical perspectives that have influenced regular and special education practices and how each theory has been applied in special education settings.

Credit: 3 semester hours. (Q)

EDU 9716 Curriculum and Instructional Design for Teaching Literacy to Individuals with Exceptionalities: Childhood

Examines theories and models of how children with exceptionalities process and learn from the oral and written languages and ways to develop curriculum, material and instructional adaptations in literacy. Ten hours of fieldwork required. *Credit: 3 semester hours. (Q, O, D)*

EDU 9718 Curriculum and Instructional Design for Individuals with Exceptionalities: Math, Science, Social Studies

Focuses on planning and implementing curriculum, material, and instructional programs in mathematics, social studies and science. 10 hours of field experience required. *Credit: 3 semester hours. (Q, O, D)*

EDU 9719 Principles of Applied Behavior Analysis and Positive Behavioral Supports

This course familiarizes special education teachers with appropriate behavioral approaches and methods for the instruction and management of individuals with disabilities. 10 hours of fieldwork required. *Credit: 3 semester hours. (Q, O, D)*

EDU 9720 Applications of Behavior Management Techniques

This course follows EDU 9719. Participants will learn practical applications of ABA techniques and will develop behavior management plans to apply in simulated and actual settings. (Field experience of 15 hours).

Credit: 3 semester hours. (Q)

EDU 9733 Educational Assessment of Young Children with Exceptionalities

Prerequisites: EDU 9737 and EDU 7126. Use of formal and informal strategies for assessment and evaluation of young children with exceptionalities. Emphasis in interdisciplinary and family collaborator in collection and analysis of assessment data for formulation of interventions. Fieldwork required. *Credit: 3 semester hours.*

EDU 9734 Curriculum Modifications for Teaching Students with Disabilities in Diverse Early Childhood Settings

Focuses on adapting general education curriculum, methods, technology, resources and materials to support students over a wide range of disabilities and cultural/linguistic backgrounds in meeting state learning standards.

Fieldwork required. Credit: 3 semester hours.

EDU 9736 Early Intervention and Provision of Services for Preschoolers with Special Needs

Highlights needs of infants, toddlers and preschoolers with or at risk for developmental delays or disabilities. Examines assessment and intervention processes and strategies in a variety of natural environments and issues in the transition to preschool environments. *Fieldwork required. Credit: 3 semester hours.*

EDU 9737 Early Childhood Special Education

Provides an understanding of child development for young children with exceptional needs. Identification, assessment and intervention strategies are presented in the context of the historical, social and legal foundations of special education. *Fieldwork required.*

Credit: 3 semester hours. (Q)

EDU 9738 Research on Issues in Early Childhood Special Education

Focus on relationships between research, theory and practice in providing appropriate services for infants, toddlers and young children with special needs. *Credit: 3 semester hours.*

EDU 9739 Practicum in Special Education Early Childhood

Prerequisites: EDU 7114, Core Special Education courses and permission of instructor. Applications of instructional strategies for students with disabilities in inclusive or special education settings, under university supervision. A minimum of 25 days or 150 hours. Seminar attendance required.

Credit: 3 semester hours.

EDU 9955 Maintaining Matriculation

Master's students not registered for other courses must register for EDU 9925 until all degree requirements are completed and the degree is granted. *No credit. Fee: \$100 per semester. Offered each semester. (Q, SI)*

For a complete listing of approved courses, please contact the Dean's office.

Jerrold Ross, *Professor and Dean*, B.S., New York University; M.S., Queens College, CUNY; Ph.D., New York University; D.Hum. (HON), Emerson College. Education, Arts Education, Administration and Assessment.

Sandra S. Abrams, *Assistant Professor*, B.A. Washington University, M.A., American University, M.A., New York University, Ph.D., Rutgers University. Adolescent Education; Video Gaming, Virtual Environments, and Learning; Digital Literacies in Academic and Social Domains.

John D. Beach, *Associate Professor*, B.A., State University of NY; M.A., Binghamton University, State University of NY; M.S., C.W. Post Center; Ph.D., University at Albany, State University of NY. Literacy Education; Guided Reasoning For Higher Order Comprehension; Children's Literature and Literacy Development.

James S. Bethea, *Associate Professor*, B.S., Mount Olive College; M.S., Boston University; Ph.D., The University of Iowa. Spirituality in Counseling; Students with Disabilities, Substance Abuse and International Rehabilitation in Poor and Developing Countries.

Brett Elizabeth Blake, *Professor*, B.A., State University of New York, Stony Brook; M.A., Northwestern University; Ph.D., University of Illinois at Chicago. Socio-cultural dimensions of adolescent language and literacy development among urban and English-language learners; language acquisition; gender equity; curriculum reform in middle schools.

James R. Campbell, *Professor*, B.S., Fordham University; M.S., Syracuse University; Ph.D., New York University. Instructional Process and Analysis; Gifted Education.

Seokhee Cho, *Associate Professor*, Ph.D. in Ed. Psy., University of Alberta, Canada; M.A. in Ed. Psy., Ewha Woman's University, Korea; B.A. in Ed. Psy., Ewha Woman's University, Korea; B.A. in English, Ewha Woman's University, Korea. Gifted Education, Educational measurement and evaluation, Cognitive Psychology, Learning Psychology, Individual differences, Education of Learning Disabled, Instructional Methodology, Teacher Training, Open Education, Early Childhood Education.

Rosalba C. DelVecchio, *Assistant Professor*, B.A., College of Mt. St. Vincent; M.S., Iona College; P.D., Ed.D., Fordham University. School Leadership; Professional Development of Teachers and Administrators; International Education.

Michael Donhost, *Assistant Professor*, B.S., Western Michigan University; M.A., Michigan State University; Ed.D., DePaul University. Data-Drive Decision Making, Middle Grades Education, Science Education.

Robert Eschenauer, *Assistant Professor*, B.A., St. Francis College; M.S., St. John's University; Ph.D., St. John's University; Adv. Certificate School Psychology, City College, Counselor Education; Assessment, Individual Counseling, Outcome Research, Therapeutic Communication, Clinical Hypnosis, Reflective Practice.

Rebekah Z. Fassler, *Associate Professor of Education*; B.A., McGill University; M.A., Columbia University; M.S., Bank St. College; Ed.D., Teachers College, Columbia University. Enhancing teachers' responsiveness to linguistically diverse student populations; teachers' concepts of Developmentally Appropriate Practices; integrated curriculum for young students at-risk; use of arts in enhancing literacy development.

Mary Ellen Freeley, *Associate Professor*, Ed.D., St. John's University; M.S., Queens College; B.A. St. Joseph's College. Instruction, Administration, Supervision and Leadership.

Andrew D. Ferdinandi, *Associate Professor*, B.S., M.S., P.D., Ed.D., St. John's University. Counselor Education; Working with Mental Illness and Dual Diagnosis Individuals; Assisting Troubled Teens with Substance Abuse and Truancy.

Helen M. Garinger, *Assistant Professor of Counselor Education*, B.A., Syracuse University; M.A., Tufts University; Ed.M., Harvard University; Ph.D., University of Connecticut, Storrs. Adolescent bullying, with an emphasis on cyber bullying; social and emotional needs of the gifted.

Francine E. Guastello, *Associate Professor*, B.S., M.S., Ed.D., St. John's University. Literacy; Exploring multi-sensory techniques for teaching dyslexic children and adults; Parental involvement in student academic success; Teaching the diverse learner in an inclusion setting.

Smita Guha, *Associate Professor*, B.A., M.A. University of Calcutta; M.Ed., Ph.D. State University of NY at Buffalo. Math and technology in Early Childhood Instructions.

Aliya E. Holmes, *Assistant Professor*, B.S., M.S., Ph.D., University of Albany. Teacher mentoring related to technology integration in the classroom, online learning, professional development.

Julie Hope Carter, *Assistant Professor of Education*, B.A., Bard College; Ed.M., Ph.D. State University New York at Buffalo. Urban education, social context of schooling, social foundations and new teacher development.

Jonathan Hughes, *Professor*, B.A., Ithaca College, M.A.T. Harvard University, Ed.M., Columbia University-Columbia College, M.Phil., Ph.D., Professor of Education; School Business and Finance; Administrative Technology; Educational Governance; Data Analysis.

Ming-hui Li, *Associate Professor*, B.A., Soochow University, Taipei, Taiwan; M.A., University of Colorado; Ed.D., Texas Tech University. Counselor Education; Stress and Self-Efficacy as Predictors of Coping; Counseling Socially Troubled Children and Parent-Child Relationships.

Athena R. Lentini, *Assistant Professor*, Ph.D., Special Education in the Department of Educational Psychology, University of Connecticut. Master of Science in Education: Reading, Writing and Literacy, University of Pennsylvania. B.A. in Government; Minor in Education, Dartmouth College.

Mary Ann Maslak, *Associate Professor*, B.M.T., B.M.E., Shenandoah University; M.Ed., Ph.D., Pennsylvania State University. Gender Equity in Education; Social Mobility and Education; International and Comparative Education.

Judith McVarish, *Associate Professor*, B.S., Bridgewater College; M.Ed., Ph.D., Lesley University. Self evaluation, reflective journal writing in mathematics, Teacher/Administrator Voices re: Math Reform.

Paul Miller, *Associate Professor*, B.S., Ohio State University; M.S., Idaho State University; Ph.D., University of Utah. Educational Measurement, Measurement and Statistics Computer Technology, Instructional Design Decision-Making.

Regina Mistretta, *Associate Professor*, B.S., St. John's University; M.S., Brooklyn College; Ed.D., Teachers College at Columbia University. Mathematics Education in Elementary, Middle and Secondary School Levels, Professional Development 1-8, Technology Education in Mathematics. Parental involvement in mathematical learning.

Deidre Mithaug, *Associate Professor*, B.A., University of Washington; M.A., M.Phil., Ph.D., Teachers College at Columbia University. Special Education; Self-Determination, Teacher Education, Research in Special Education.

Nancy Montgomery, *Associate Professor*, B.S., M.S., Indiana University; Ph.D., New York University. Adolescent Education; English/Literacy Education; especially the teaching of writing, writing with computers and cooperative learning; Arts Education.

Audrey Murphy, *Assistant Professor*. Doctorate in Administration and Supervision, St. John's University. Professional Diploma in Administration and Supervision, St. John's University. M.S. in Bilingual Education, St. John's University. B.A. in Spanish Education, Queens College.

Jeffery Olson, *Associate Professor*, B.A., University of Utah; J.D., University of Utah, College of Law; Ph.D., Stanford University. Educational Administration School Law, Economics and Finance in Schools and Higher Educational Institutions.

Allan Ornstein, *Professor*, B.A., City College of New York; M.A., Brooklyn College; M.A., Ed.D., New York University. Education Curriculum, Instruction and Teaching.

Brenda I. Lopez Ortiz, *Assistant Professor*; B.A.Ed., Universidad de Puerto Rico en Cayey; M.A., Universidad del Sagrado Corazon, Santurce, Puerto Rico, Ed.D., Teachers College, Columbia University.

Rene S. Parmar, *Professor*, B.A., University of Jabalpur (India); M.Ed., Vanderbilt University; Ph.D., University of North Texas. Educational Evaluation, Mathematics for Students with Learning Disabilities, Educational Assessment, Evaluation.

Barbara Peltzman, *Associate Professor*, B.S., Mills College; M.S., St. John's University; Ed.D., Teacher's College; Columbia University; P.D., Hofstra University.

Yvonne K. Pratt-Johnson, *Professor*, B.A., State University of New York at Stony Brook; M.S., Georgetown University; M.A., M.Ed., Ed.D., Teachers College at Columbia University. Bilingual Education and TESOL; Literacy Development Among Second Language Learners; Jamaican Creole/Educating Crede-Speaking Students in American Schools.

Deborah Saldana, *Associate Professor*, B.P.S., Pace University; M.S., Ed.D., University of Texas. Elementary Education; Bilingual and ESL Education.

Joanne Robertson-Eletto, *Associate Professor*, B.S., St. John's University; M.S., Long Island University; C.W. Post; Ed.D., Hofstra University. Early Literacy Education; Emergent literacy, language acquisition and literacy learning styles of young children.

Mary Beth Schaefer, *Assistant Professor*, B.A., Queens College; M.A., Queens College; M.A., Texas Woman's University; Ed.D., University of Pennsylvania. Adolescent Literacy; Middle School; Career Development in Secondary Schools; Socio-Cultural Influences in/among Readers' Responses to Literature.

Barbara Signer, *Professor*, B.A., Hunter College; M.A., University of Michigan; Ph.D., University of South Florida. Mathematics Education; Instructional Technology and Distance Learning.

Richard Sinatra, *Professor*, B.A., Lafayette College; M.S., P.D., Ph.D., Hofstra University. Literacy Education: The Reading and Writing Process; Cognitive Mapping, Vocabulary Development, Out-of-school time programs for at-risk students.

John Spiridakis, *Professor*, B.A., State University of New York at Stony Brook; M.S., Ph.D., Florida State University. Bilingual/Multicultural Education and TESOL, Bilingual Education.

Korynne Taylor-Dunlop, *Assistant Professor of Educational Administration*. Ed.D. Educational Administration, Columbia University. Professional Diploma Program, Fordham University. M.A. Counseling Psychology Program, Oakland University, Rochester, Mich. B.A. Educational Psychology, Brooklyn College of the City University of New York.

Jennifer Sedwick, B.S.E.D., M.S.E.D

Assistant Dean

Massimiliano Tomassini, B.A., M.B.A.

Assistant Vice President and Executive Director, Rome campus

Dru Burtz, B.A., M.A., M.B.A.

Director, TCB Rome campus

Objectives

The Peter J. Tobin College of Business prepares graduates for rewarding managerial and professional careers.

Its educational programs combined with progressive technology provide the practical experience, solid knowledge base, strong ethical foundation and global perspective graduates need to make immediate and valuable contributions as business professionals.

The Tobin College of Business faculty carries out its responsibility for this preparation through excellence in teaching, supported by a commitment to applied business research.

Professional Accreditation

This College is a professional school concerned with education in the theory and practice of business administration. It is accredited by the AACSB International—The Association To Advance Collegiate Schools of Business. AACSB International is recognized by the Council on Postsecondary Accreditation and by the U.S. Department of Education as the sole accrediting agency for bachelor's and master's degree programs in business administration. The Tobin College of Business is one of the fewer than 20% of business programs in the world that have attained this prestigious accreditation. The accounting programs and taxation at the Tobin College of Business are separately accredited by AACSB International.

Accreditation standards have evolved to meet the contemporary needs of business, the professions, government, and graduate and professional schools. By meeting and maintaining the required level of quality for accreditation in professional education for accounting, business and management, the Masters of Business Administration program of the Tobin College of Business constitutes a sound choice for both the prospective student and for those persons responsible for recruiting students with professional preparation in business administration. AACSB International standards include an evaluation of faculty adequacy and competence, admissions standards and caliber of the student body, library facilities, computer equipment, financial support of the institution, and the content and breadth of both the professional and non-professional curricular requirements. The professional curriculum in an AACSB International accredited school stresses a working knowledge of the major areas of business activity, proficiencies in the use of analytical techniques in arriving at logical solutions to management problems, and an appreciation for and dedication to the social and ethical responsibilities of the business manager.

Honor Societies and Programs

M.B.A. HONORS

An M.B.A. with honors is awarded to students who have an overall cumulative graduate index of 3.5, and in addition write an acceptable research-oriented thesis.

Beta Alpha Psi

Beta Alpha Psi is the national honor society for financial information students and professionals. The primary objective of Beta Alpha Psi is to encourage and give recognition to scholastic and professional excellence in the business information field. This includes promoting the study and practice of accounting, finance and information systems providing opportunities for self development, service and association among members and practicing professionals and encouraging a sense of ethical, social and public responsibility.

Beta Gamma Sigma

The Tobin College of Business hosts the Iota chapter of Beta Gamma Sigma, the officially designated honor society of AACSB International. This chapter has been in existence since 1968. To be considered for membership, a student must have graduated or be a candidate for graduation in the current academic year. The election to membership during the spring semester is from the upper 20 percent of the group described above but in no instance will the overall cumulative index be allowed to fall below a 3.75 on the 4.0 scale.

Gamma Iota Sigma

The School of Risk Management hosts the Alpha Iota Chapter of this fraternity society, which was established in 1965 to promote, encourage, and sustain student interest in insurance, risk management, and actuarial science as professions; to encourage the high moral and scholastic attainments of its members; and to facilitate interaction of educational institutions and industry by fostering research activities, scholarship, and improved public relations. The Alpha Iota Chapter has been in existence since 1991. The Chapter offers multiple fora for members to interact with and learn from industry leaders, to contacts with students in other chapters, and to offer community services.

Omicron Delta Epsilon

The Theta Chapter of Omicron Delta Epsilon, the International honor society in economics, was established at St. John's in 1958. The Theta Chapter is an active honor society, striving to broaden the student's professional

interest in economics. Several times each year, Omicron invites working specialists from the business and financial community to speak on topical problems in their fields of interest. New members are formally inducted in the spring semester of each academic year.

Sigma Iota Epsilon

Sigma Iota Epsilon is the national scholastic honor society in management. Its general purpose is two-fold: to encourage and recognize scholarly excellence and to promote cooperation between the academic and practical aspects of management.

Graduate Executive-in-Residence Program

Larry W. Boone, Ph.D.

Associate Professor and Director

The Executive-in-Residence Program substitutes for Management 700 which is required of all M.B.A. students. Admission to the program is by invitation only. Students who wish to participate in the program must meet the following criteria:

1. The requirements for enrollment in Management 700.
2. A minimum grade point index of 3.5.
3. Successfully complete an interview with the Program Director.

The Executive-in-Residence Program is designed to provide a forum for interaction between practicing executives and the business student in order to:

- Improve student analytical skills
- Improve student written and oral communication skills
- Provide additional practical insights into the issues which were examined in previous coursework
- Provide students with the ability to develop effective strategic and business plans

Students, after meeting with organizational executives, work in teams to develop strategic and/or business plans which are then presented to company executives. Participating organizations have included PricewaterhouseCoopers, The Thompson Corporation (a large British conglomerate), KPMG Consulting, Standard & Poors, Deloitte, Keyspan Energy and ADP, Inc. Participating executives have included the chief executive officers, chief financial officers, senior partners, marketing vice presidents, etc.

The Executive-in-Residence Program (EIRP) offers the challenge of independent and cooperative research and analysis as well as providing for the development of individual initiative. Further details may be obtained at the web site <http://www.sju.stjohns.edu/eirp>.

Asset Management Program (FIN 684)

John Neuman, Ph.D.

Economics and Finance

The Student Managed Investment Fund was established as part of the graduate curriculum in Fall 2002. In this program funds are invested by students in listed securities of their choosing under the supervision of faculty and advisory alumni. This program provides students with practical experience in asset and portfolio management, equipping them to become immediate contributors to trading or portfolio management activities upon completion of their degree program.

Students interested in taking this course should contact the Chair of the Economics and Finance department to schedule an interview.

London Seminar (FIN 700)

Each May a group of selected students have the opportunity to study finance and interact with financial executives from various financial houses in London, England. For further information please contact the finance department. A detailed description of this course is located in this bulletin under the finance section of course descriptions.

Financial Lab

The Financial Information Lab is a facility whose goal is to enhance the educational and research missions of the Tobin College of Business. The room is equipped with state-of-the-art databases and analytical software tools including Bloomberg and FactSet, 3 LCD screens, a securities markets tracker, 3 overhead projectors, a six time-zone clock, a fully-functional audio-visual podium and a room-length whiteboard projection surface. Its dual-purpose design allows the Lab to serve either as a classroom or as a business research worklab. Professors can bring their students in for selected class sessions which are enhanced by the Lab's features, or they can leverage the Lab's tools to create coursework that provides students with real-world problems and situations to better develop their business critical-thinking skills.

Thesis Alternative

The master's thesis integrates academic knowledge and technical skills by employing them in a research task. It aims to widen and deepen the student's understanding of the broad problems of business by systematic investigation and explanation. The thesis itself takes the form of a written report on a faculty-supervised research undertaking. It provides an opportunity to plan and execute a research study while responding creatively to an intellectual challenge determined by the student's own interests.

The six-credit thesis option (901/902) is strongly recommended by the Tobin College of Business for students with a cumulative graduate index of 3.5 or better or who seek to explore select subject matter of their specialization in great length. The student choosing the thesis option should contact the Chairperson of his/her major department to develop academic program specifics once he/she has gained a commitment from a full-time faculty member to act as his/her mentor. The thesis is a six-credit option. Any credit awarded for Thesis 901 will not be applicable towards M.B.A./M.S. degree requirements without the completion of Thesis 902.

Time Limitation

In general, courses are on a cycle of two years for the master's degree. Students who are unable to devote their full time to graduate study may extend the time for completing the degree beyond this two-year span. However, all requirements for the degree must be completed within five years.

Maintaining Matriculation

Master of Business Administration students not registered for courses during a semester must maintain matriculation in order to return to the program for their remaining courses. A fee of \$100 per semester is required to maintain matriculation. A student may only maintain matriculation for two consecutive semesters. Thereafter, a student must reapply to the program.

Attendance Policy/Enrollment

The college expects full attendance from all enrolled students and as such the college does not have an allowable excuse policy. International students must be enrolled in a minimum of nine credits. Students receiving government loans must be enrolled in a minimum of six credits.

Incomplete Grades

All "INC" grades must be completed without exception by the drop date of the next semester. If a student receives an "INC" in their last course then conferral date of degree will be the next conferral after the INC has been completed. Unresolved INC grades permanently remain on transcripts as INC, but do not impact students GPA.

Internship Program

Approval for internship must be sought before the end of the previous semester. Dean's office must be notified of all impending interviews so that an assessment can be made of possible internships. Only new internship opportunities qualify for internship credit. In addition a research project is required. The equivalent of a full semesters coursework must be completed prior to enrolling in intership.

Graduate Assistantships

The College offers a number of highly competitive graduate assistantships to new incoming students whose applications display high levels of academic achievement.

Curriculum Practical Training for F-1 International Students (CPT)

Students enrolling in internship courses have the opportunity to do four-credit internships in their areas of concentration. These internships enable our graduate students to apply the skills and knowledge developed through rigorous study in challenging positions offered by several multi-national corporations headquartered in New York City. CPT is only available prior to the completion of your degree program and you must have an internship offer at the time of application. For further information, international students should contact the International Student Services Office, St. John Hall, Room 116.

Optional Practical Training for F-1 International Students (OPT)

Upon completion of final classes in satisfaction of degree requirements International Students may apply for OPT which allows students to stay and work in the United States for a period of one year. Students must apply for OPT within 60 days of completion of final classes. Further information is available from the International Students Services Office, St. John hall, Room 116.

Academic Warning and Probation

A student in the Tobin College of Business is expected to achieve an index of at least 3.0 ("B") grade point average for all work carried each semester and to maintain a 3.0 cumulative grade point average for all work completed/carried in the Tobin College of Business.

A graduate student in the Tobin College of Business will be placed on academic probation if his/her cumulative grade point average falls below the 3.0 GPA requirement. Failure to show adequate performance toward good academic standing will result in academic dismissal.

Queens campus:

Accounting (M.B.A. or M.S.)
Computer Information Systems (M.B.A.)
Controllership (M.B.A.)
Executive Management (M.B.A.)
Finance (M.B.A.)
International Business (M.B.A.)
Marketing Management (M.B.A.)
Taxation (M.B.A. or M.S.)

Staten Island campus:

Accounting (M.B.A. or M.S.)

Rome campus:

International Business (M.B.A.)
International Finance (M.B.A.)
Marketing Management (M.B.A.)

Manhattan campus:

Accounting (M.B.A. or M.S.)
Finance (M.B.A.)
Insurance Financial Management (M.B.A.)
Management of Risk (M.B.A. or M.S.)
Taxation (M.S.)
Enterprise Risk Management (M.S.)
Investment Management (M.S.)

Programs of Study

Academic Information

Application

In order for an application to be considered, the applicant should submit the following to the Office of Graduate Admissions at the campus he/she plans to attend:

- A completed application
- Official transcripts from all colleges and universities previously attended (foreign documents must be accompanied by a certified English translation)
- Results of the Graduate Management Admission Test (GMAT)
- Two letters of recommendation
- A written statement outlining the applicant's objectives for seeking admission and future plans in relation to graduate business study
- An official score report of the TOEFL examination is required of all applicants with degrees from foreign colleges and universities. Students found to be deficient in the English language may be required to complete a University sponsored English placement exam prior to the start of their studies.
- Résumé

Graduate Management Admission Test (GMAT)

As part of the admission requirements, all applicants for the M.B.A. program are required to take the Graduate Management Admission Test (GMAT). The score on this test must be reported to The Tobin College of Business Office of Admissions.

Applicants to the M.S. programs in Enterprise Risk Management, Investment, or Management of Risk must submit results from either the GMAT or GRE.

Information regarding the GMAT may be obtained from the Educational Testing Service, Box 6103, Princeton, New Jersey 08541-6103 or from the Graduate Management Admission Council (GMAC) Web site www.gmac.com or from the Office of Graduate Admissions at the Tobin College of Business.

English Language Requirements

Foreign students entering The Peter J. Tobin College of Business with an F-1 or J-1 visa must take the English Language Placement Test. If they are found to be deficient in the above, they must successfully complete the ESL (written and speech) program prior to beginning the second year of their graduate program. The exam is administered by the English as a Second Language Program.

Master of Business Administration

The Master of Business Administration degree requires the completion of a minimum of 36 credits to a maximum of 54 credits either taken in full-time residence or on a part-time basis. These credits are divided into:

- 8 required but waivable courses
- 1 required non-waivable courses
- 4 concentration elective courses
- 1 international elective course
- 1 required capstone course
- 2 related non-field courses
- 1 free elective course

The thesis alternative, 901/902, is available upon consultation with an academic advisor.

The total number of credits required is determined on an individual basis depending on the applicant's undergraduate background. Additional credits may be required for students majoring in accounting.

It is required that the student request an appointment with a graduate advisor to outline course requirements as soon as possible after admission.

In order to qualify for the M.B.A. degree, a student must complete all courses with a "B" average (3.0/4.0). Each student's progress is regularly monitored according to the procedures and criteria established by the Graduate Committee on Academic Standing. Students may request consideration for a maximum of six transfer credits, with a grade of "B" or higher, from an AACSB International-accredited college or school, provided the courses have equivalent course offerings at St. John's and have been completed within a five-year period from the date of conferral for the M.B.A. degree. Once matriculated, students cannot take courses at other institutions for transfer credit except under unusual circumstances and for not more than six credit hours.

No student may enroll in a course without the proper course prerequisites. All material submitted for waiver of courses must be received for consideration during the student's first semester of study. No consideration is given to material submitted after the completion of the student's first semester of study. Consideration for waiver is only given to courses taken at accredited universities and colleges. A student may satisfy course requirements by passing proficiency examinations administered by the Tobin College of Business. A student may take each proficiency examination once only, which must be the next scheduled offer-

ing of the examination at the time of program enrollment.

Students are obligated to make themselves familiar with the rules of the Tobin College of Business contained in this bulletin.

The time demands are substantial to successfully complete courses, gain the required knowledge and skills, do library research and be available for the team meetings and other projects that students are assigned. Therefore Tobin College of Business graduate students who are employed full-time are not to be permitted to register for more than two classes (six credits) per semester and no more than one class (three credits) in each summer session. The Dean's Office reserves the right to require students to withdraw from a class if there is an overload.

Admission Requirements:

M.B.A. Program

Admission to the M.B.A. program is open only to applicants holding a bachelor's degree from accredited institutions who show promise of success in graduate business studies. Among the criteria used for admission are (1) undergraduate grade point average; (2) performance on the Graduate Management Admission Test (GMAT); (3) junior-senior grade point average; (4) rank in collegiate graduating class; (5) letters of recommendation; (6) statement of professional goals; and (7) resumé.

M.B.A. Programs

Required Waivable Courses: 24 credits

ACC 503	Financial Reporting
DS 504	Business Statistics
CIS 505	Business Information Technology
ECO 506	Economics for Management
FIN 507	Managerial Finance
MKT 508	Marketing Management
MGT 509	Operations Management
LAW 501	Law, Ethics and Society

Required Course 3 credits

MGT 502	Organizational Behavior and Business Ethics
---------	---------------------------------------------

Concentration Courses: 12 credits

Four courses taken from your area of concentration.

Related Non-Field Courses: 6 credits

Two courses chosen from outside your area of concentration that have relevance to your field.

International Elective: 3 credits

One course taken from any discipline that has an international focus.

Free Elective: 3 credits

One course taken in any area of your choice.

Capstone Course: 3 credits

One course, MGT 700, in Business Policy.

Accounting

The goal of the accounting concentration is to supplement the M.B.A. with a level of technical competence that permits entry into the profession of public accountancy or to enter corporate management in the accounting area. At the same time, the basic philosophy of the Tobin College of Business is preserved by utilizing the M.B.A. curriculum to give the student a deeper understanding of management problems and the business firm's position in the economic structure of society. The Peter J. Tobin College of Business was one of the first colleges in the region to gain specialized accreditation for its accounting and taxation programs by AACSB International.

The course of study for Certified Public Accountants is governed by New York State laws and regulations issued by the New York State Education Department. In addition to stipulating the number of credits in accounting (33), the State Education Department requires candidates to have sufficient credits in general business (36) and specifies the area that those credits must be taken. The accounting program presented below specifies the courses which the C.P.A. candidate must take to meet the standards for New York State certification. Therefore, students interested in obtaining the C.P.A. license should consult with an accounting advisor to have a course of study arranged which meets the standards for New York State certification.

Students who have majored at the undergraduate level in fields other than accounting may be required to take certain core courses in accounting and/or other fields of business specialization. Such students should consult their accounting advisor for an approved course of study.

Accounting Scholarships

Accounting and tax students who have completed all prerequisite courses may apply for the following scholarships:

- Bridie and Charles Fitzsimons Endowed and Expendable Scholarships
- Deloitte Endowed and Expendable Scholarships
- Ernst & Young Expendable Scholarships
- PricewaterhouseCoopers Endowed and Expendable Scholarships
- Stanley Shirk KPMG Endowed Scholarships
- Grant Thornton Endowed Scholarship

Courses and Prerequisites for M.B.A.—Public Accounting

I. Core in Public Accounting (waivable)

ACC 515*	Financial Reporting Concepts and Problems
ACC 630*	Specialized Topics in Financial Reporting
ACC 620	Cost Administration
TAX 610	Individual Tax Planning

* Requires a one-hour workshop

CIS 505	Business Information Technology
DS 504	Business Statistics
ECO 506	Economics for Management
FIN 507	Management and Finance
MGT 502	Organizational Behavior and Business Ethics (non-waivable)
MGT 509	Operations Management
MKT 508	Marketing Management
LAW 653	Uniform Commercial Codes and Property

II. Curriculum in Public Accounting

A. Required

ACC 622	Advanced Managerial Accounting
ACC 624	Information Technology Auditing
ACC 632	Critique of Accounting Theory
TAX 635	Business Tax Planning
ACC 625	Accounting Ethics and Professionalism

Select the following three courses:

ACC 638**	Advanced Accounting
ACC 639**	Government and Non-Profit Accounting
ACC 623**	Auditing Problems

**If a student successfully completed an undergraduate course that is substantially equivalent to ACC 623, ACC 638, or ACC 639, then that student must select instead an alternative course from the elective curriculum courses (see below).

B. Elective

ACC 605	Internship in Assurance and Attest Services
ACC 621	Controllorship
ACC 626	Forensic Accounting
ACC 627	Business Valuations
ACC 628	Internal Auditing
ACC 635	Accounting for Financial Instruments and Derivative Products
ACC 636	Accounting for Financial Institutions
ACC 640	SEC Accounting Practice
ACC 641	Accounting Information: Contemporary Issues
ACC 642	Accounting Information: Controls and Assessment
ACC 643	Accounting Information: Security and Forensics
ACC 644	Accounting Information: Systems and Processes
ACC 645	International Financial Reporting
ACC 646	Foreign Financial Statements and Analysis

III. One International and one free elective course.

Capstone Course (1)

IV. MGT 700 Business Policy

Controllership (Non-CPA Program)

The goal of the controllership concentration is to supplement the M.B.A. with a level of technical competence that will enable the student to enter and advance in corporate management in the accounting area.

Field Courses (4)

A. Required

ACC 622 Advanced Managerial Accounting

B. Elective (Select three)

ACC 620 Cost Administration OR
ACC 621 Controllership
ACC 623 Auditing Problems
ACC 624 Information Technology Auditing
ACC 626 Forensic Accounting
ACC 627 Business Valuations
ACC 628 Internal Auditing
ACC 632 Critique of Accounting Theory
ACC 635 Accounting for Financial Instruments and Derivative Products
ACC 636 Accounting for Financial Institutions
ACC 638 Advanced Accounting
ACC 639 Government and Non-Profit Accounting
ACC 640 SEC Accounting Practice
ACC 641 Accounting Information: Contemporary Issues
ACC 642 Accounting Information: Controls and Assessment
ACC 643 Accounting Information: Security and Forensics
ACC 644 Accounting Information Systems
ACC 645 International Financial Reporting
ACC 646 Analysis of Foreign Financial Statements and International Accounting Standards
TAX 610 Individual Tax Planning
TAX 635 Business Tax Planning

Out-of-field courses (2)

Computer Information Systems/ Decision Sciences

Computer Information Systems (CIS) for Managers

The objective of this program is to provide the student with a moderately technical yet comprehensive and professional understanding of the modern systems approach to business information systems. The option prepares the student as an administrator who will be knowledgeable in the latest applications of Information Technology so that he or she may assume a prominent role in directing and improving the management process. The curriculum emphasis is placed on learning the wide spectrum of emerging technologies, and its role as catalyst to achieve strategic and competitive advantage in the global market. The program includes courses such as database management, telecommunication and data networks, systems analysis and design, and other state-of-the-art information technologies.

Field Courses (4)

Required

CIS 645 Database Management
CIS 647 Business Data Communication and Networks

Other Electives Select two from:

CIS 601 Advanced Computer Applications for Business
CIS 605 Applied Computer Programming
CIS 644 Systems Analysis and Design
CIS 646 Computer Simulation Methods
CIS 650 Seminar in CIS/DS Applications for Business
CIS 699 CIS Internship

Out-of-Field Courses (2)

DS 631 Decision Science & Spreadsheet Modeling
ACC 641 Accounting Information: Overview
ACC 642 Accounting Information: Risk Assessment
ACC 644 Accounting Information Systems
MKT 610 Product Management
ACC 643 Accounting Information: Security & Forensics
MKT 611 Data Analysis in Marketing Research
MGT 621 Decision Support Systems

International Elective and Free Elective (2)

The international elective can be any course from the international elective list. The free elective can be any graduate (600-level) course in the College

Capstone Course (1) MGT 700 Business Policy Finance

The design of finance concentration provides you with a high degree of flexibility in your pursuit of depth in finance knowledge and in the areas of your professional preferences. Fin 633 Corporate Finance is a required course. Once you have taken the corporate finance course, you will take an additional three courses from a list of suggested finance courses. You will select the three that best fit your preferences. For example, the recommended selections are Fin 634 Investment Analysis, Fin 664 Advanced Investment Analysis, and Fin 684 Asset Management if your interests are in investment management. You might want to consider Fin 643 International Corporate Finance, and Fin 700 Seminar in Finance if you pursue the international direction. Courses such as Fin 637 Equity Analytics, Fin 638 Fixed-Income Analytics, Fin 655 Financial Risk Management, and Fin 668 Financial Derivatives are appropriate for financial engineering. Of course, you will consider alternative selections such as Fin 635 Capital and Money Markets, Fin 651 Bank Financial Management, Fin 655 Financial Risk Management, Fin 668 Financial Derivatives, and Fin 674 Investment Banking and Brokerage if your interests are in banking or investment banking. You are also invited to meet with Chair of the Department of Economics and Finance to discuss your course selection.

In addition, you are required to take two courses from the list of Related Non-Field Courses and one from International Elective Courses. Again, you will be able to tailor those selections to meet your preferences either in depth or breadth.

Field Courses (4)

Required

FIN 633 Corporate Financial Management

Other Electives

FIN 634 Investment Analysis
FIN 635 Capital and Money Markets
FIN 636 Financial Economics
FIN 638 Fixed Income Analytics
FIN 643 International Corporate Finance
FIN 651 Bank Financial Management
FIN 654 Advanced Corporate Finance
FIN 655 Financial Risk Management
FIN 664 Advanced Investment Analysis
FIN 668 Financial Derivatives
FIN 674 Investment Banking and Brokerage
FIN 684 Asset Management
FIN 699 Finance Internship
FIN 700 Seminar in Finance

Out-of-Field Courses (2)

Select two from:

ACC 600	Financial Statement Analysis
ACC 636	Accounting for Financial
DS 609	Advanced Managerial Statistics
DS 640	Mathematical Programming
ECO 600	Managerial Economics and Forecasting
ECO 605	International Trade & Investment
ECO 631	Monetary & Fiscal Policies
MKT 634	Marketing of Financial Services
RMI 604	Risk Pricing Methods
RMI 614	Risk Funding Tools

International Elective and Free Elective (2)

The international elective can be any course from the international elective list.

The free elective can be any graduate (600-level) course in the College

Capstone Course (1)**MGT 700 Business Policy****International Business**

This interdisciplinary program is for students interested in a general approach to international business education. Those wishing to supplement their education with an international dimension or seeking to add a business education to a background in language, liberal arts, government and politics, law or international studies could benefit from this degree. Students whose career goals include working abroad or with a global firm may choose this learning experience. This degree program provides a unique combination of knowledge and skills for those who wish to meet the demands of today's global marketplace.

Field Courses (4) and International Elective (1)

Required: Choose five courses from the following list from at least three different academic fields:

ACC 645	Selected Topics in International Accounting
ACC 646	Analysis of Foreign Financial Statements
MGT 652	Seminar in International Management
MGT 654	Global Information Systems
MGT 659	International Business Policy
TAX 651	Taxation of Foreign Operations
MKT 626	International Marketing
MKT 628	Comp. Marketing Sys. and Research
MKT 701	Seminar in Current International Marketing Topics
FIN 635	Money and Capital Markets
FIN 643	International Corporate Finance
FIN 636	Financial Economics

FIN 651	Bank Financial Management
MGT 600	Contemporary issues in Management
ECO 605	International Trade and Investment
LAW 652	Int'l Business Law and Negotiation
FIN 700	Seminar in Finance
MKT 624	Global Brand Management
MKT 633	Marketing in East Asia
MKT 635	Strategic Internet Marketing
MKT 702	International Marketing Seminar Abroad

Out-of-Field Courses (2)

Select two from:

ECO 631	Monetary and Fiscal Policies
FIN 634	Investment Analysis
MGT 640	Entrepreneurship
MGT 685	Managing and Staffing Virtual Organizations
FIN 684	Asset Management
MKT 631	Business to Business (E-commerce) Marketing
ACC 600	Financial Statement Analysis
RMI 601	Management of Risk
DS 609	Advanced managerial Statistics

Free Elective (1)

The free elective can be any graduate (600-level) course in the College

Capstone Course (1)**MGT 700 Business Policy**

For a complete listing of approved course, please contact the Dean's office.

Management: Executive Management

This concentration takes an integrated approach to business management and is aimed at those students interested in the general management of the enterprise. The program is designed to provide students with the flexibility to meet their individual needs. Specifically, by choosing an appropriate course from the list of courses listed below, students can acquire expertise in such specialized areas as:

- E-Business Management
- Entrepreneurship
- Human Resource Management
- International Management
- Management Information Systems
- Operations/Supply Management

Or, students can choose a general approach to executive management.

This program synthesizes the following general and specific aspects of modern management: strategic management, global management, managerial problem-solving and decision-making, management information systems, entrepreneurial management, organizational behavior, human relations, corporate social responsibility and management of

change. The goal of this program is to expand the learning experience of our students beyond traditional problem-solving and decision-making methods, to include the examination of the impact of the global business environment, information technology and the social system on the operations of the business firm.

The Department of Management also offers the Colman Mockler International Responsible Corporate Leadership Program. This program brings distinguished business leaders to give talks and workshops for students and faculty and to visit classes. Past speakers include Warren Buffett, Al Zeien, Chairman and CEO of Gillette and Patrick Purcell, President, Publisher and Owner of The Boston Herald and Jobfind.com.

Field Courses (4)

Choose any four from:

MGT 600	Contemporary Issues in Management
MGT 621	Advanced Managerial Decision Support Systems
MGT 622	Enterprise Information Systems Management
MGT 623	Human Resource Management
MGT 627	Health Care Management
MGT 628	Management of Business Systems Integration in Operations
MGT 631	Leadership, Ethics, Business and Society: Managing in the 21st Century
MGT 632	Innovations in Organizational Behavior
MGT 640	Entrepreneurship Business Management and
MGT 650	Administrative Processes of the Web-Based Entrepreneurial
MGT 651	Seminar in Planning and Management of E-Business Operations
MGT 652	Seminar in International Management
MGT 654	Global Information Systems and International Management
MGT 659	International Business Policy
MGT 680	Organizational Development: Managing for Change
MGT 685	Managing and Staffing Virtual Organizations
MGT 690	E-commerce Impacts on Organizations
MGT 695	Seminar in Human Factors in MIS Development, Diffusion and Use
MGT 699	Management Internship

Out-of-Field Courses (2)

Select two from:

CIS 601	Advanced Computer Applications
CIS 645	Database Management
DS 631	Operations Research for Business Decision Making
FIN 674	Investment Banking
FIN 684	Asset Management

MKT 610	Product Management
RMI 601	Management of Risk

International Elective and Free Elective (2)

The international elective can be any course from the international elective list.

The free elective can be any graduate (600-level) course in the College

Capstone Course (1)

MGT 700 Business Policy

Marketing: Marketing Management

The objective of the graduate marketing program is to develop professional marketing executives by equipping current and prospective practitioners with a broad, integrated understanding of the role of marketing within a business firm, the economy, society and the world. Emphasis is placed on creating sensitivity to the rapidly changing demands of a marketing manager's environment. The role of marketing in the strategic interpretation and management of demand has become more crucial to the profitable operation and growth of business firms. A broad offering of courses, covering in depth a substantial range of marketing functions and activities, provides the student with a number of alternatives in this specialization.

The Department of Marketing recommends that students majoring in marketing join the American Marketing Association and subscribe to its professional publications.

The curriculum shown below focuses on the role of the marketing executive. This curriculum emphasizes organization, planning, evaluation and control of all aspects of the firm's marketing activities. The student is exposed to new product development, management of advertising, distribution and sales administration. In addition, the student is expected to become familiar with the assembly of marketing data, analysis and quantitative marketing models. The student, in assuming the role of the marketing manager, is subjected to typical marketing problems that require solutions.

Field Courses (4)

Required

MKT 601 Marketing Research

Other Electives

Select three from:

MKT 603	Dynamics of Consumer Motivation & Behavior

International Elective and Free Elective (2)

The international elective can be any course from the international elective list. The free elective can be any graduate (600-level) course in the College.

Capstone Course (1)

MGT 700 Business Policy

Taxation (Non-CPA Program)

The goal of the taxation program is to provide a course of study which enables the student to either enter the profession of public accountancy as a tax specialist or enter corporate management in the tax area.

Accounting and business decisions must be evaluated in terms of possible tax implications and consequences. Tax specialization has developed in both the accounting and legal professions to facilitate this assessment. Public accounting firms have organized separate tax departments staffed by accountants with special training in the understanding and application of the Internal Revenue Code. Major business corporations have adopted a similar approach by attaching increasing importance to the function of the internal tax manager. The taxation concentration is designed to qualify students seeking advancement in the area of tax specialization.

The taxation curriculum is open to students who have majored in accounting at the undergraduate level and for law school students or graduates seeking an M.B.A. with a taxation concentration. Other students wishing to enroll in the program are required to complete necessary courses in accounting as a prerequisite for registration in the taxation program. Such students should consult their M.B.A. advisor for an approved course of study.

Field Courses (5)

A. Required

TAX 600	Tax Research and Writing (1 credit)
TAX 603	Corporate Taxation
TAX 631	Corporate Distributions, Liquidations and Reorganizations

M.B.A. Programs: School of Risk Management, Insurance and Actuarial Science

The School of Risk Management, Insurance and Actuarial Science (SRM) is an academic department within The Peter J. Tobin College of Business. In 2001 the School of Risk Management was created from a consolidation of St. John's University and the 100-year old College of Insurance. The School of Risk Management's program enables students to gain a thorough understanding of the theory and practice of risk management and insurance. Students are exposed to the actuarial, financial, legal and economic principles underlying corporate risk management. Available courses explore in depth the functional areas of financial service company management (such as investments, pricing, and underwriting). Thus the Tobin College of Business is able to expand its historically strong business related offerings to the critical area of risk management and insurance.

Management of Risk

Field Courses (4)

Required:

RMI 601	Management of Risk
RMI 604	Risk Pricing Models

Programs of Study

M.S. Programs

M.S.—Accountancy (CPA program)

Admission Requirements

To be admitted into the M.S.—Accounting or Taxation programs, candidates must satisfy the following requirements:

- Possess an undergraduate or graduate degree in business or a related field. Students must have completed core business courses or must take such courses before completing the degree.
- Successful completion of the GMAT (or an appropriate alternative examination). The successful completion of the uniform certified Public Accountants examination (CPA license), or an equivalent examination could be used in lieu of the GMAT examination for admission to the M.S. programs.
- Students with degrees in accounting, that were obtained from foreign universities, would be required to have their coursework reviewed by a faculty member involved in the program and/or specified external reviewer to ensure that the contents covered in such coursework is appropriate.
- Professional experience in business, government, or not-for-profit is recommended but not required.

The Master of Science degree program in Accountancy is intended to provide students with the specialized technical knowledge in accounting, tax and auditing that will enable them to enter or advance their careers in the profession of public accountancy or in managerial positions in industry, government and not for profit organizations. Students in the M.S. Accountancy program are expected to have an undergraduate or graduate degree in business or a related field and thus they must have already completed the core business courses.

If a student intends to sit for the Certified Public Accountancy examination and become licensed in the State of New York in public accountancy, he or she may be required to satisfy further education requirements which should be discussed with his or her accounting advisor.

Recommended Courses and Prerequisites for M.S.—Accountancy

I. Core

ACC 515*	Financial Reporting: Concepts and Problems
ACC 630*	Specialized Topics in Financial Reporting
ACC 620	Cost Administration OR Accounting For Financial Institutions
ACC 636	Accounting For Financial Institutions
TAX 610	Individual Tax Planning

* Requires a one-hour workshop

II. Curriculum

A. Required

ACC 622	Advanced Managerial Accounting
ACC 624	Information Technology Auditing
ACC 632	Critique of Accounting Theory
TAX 635	Business Tax Planning

Select the following three courses:

ACC 623**	Auditing Problems
ACC 638**	Advanced Accounting
ACC 639**	Government and Non-Profit Accounting

B. Elective

ACC 605	Internship in Assurance and Attest Services
ACC 621	Controllership
ACC 635	Accounting for Financial Instruments and Derivative Products
ACC 636	Accounting for Financial Institutions
ACC 640	SEC Accounting Practice
ACC 644	Accounting Information Systems
ACC 646	Analysis of Foreign Financial Statements and International Accounting Standards

** If a student successfully completed an undergraduate course that is substantially equivalent to ACC 623, ACC 638 or ACC 639, then that student must select instead an alternative course from the elective curriculum courses.

III. General Electives

Three Graduate Elective Courses

The student will be able to select three 600-level courses (i.e., nine credits). The three graduate electives can be used to meet core requirements, advance a student's studies by exploring specialized accounting, tax or other business area(s) or to complete deficiencies in the liberal arts and sciences and general business requirements (see New York State Department of Education requirements (Section 52.13(b) Accountancy) for licensure as a CPA.

M.B.A. Public Accounting/ M.S. Taxation

The Department offers a combined program leading to an MBA in Public Accounting and a Master of Science in Taxation. The combination allows the student to complete both programs with a cost savings and fewer credits. Please contact the Department Chair or designee for further details.

M.S.—Investment Management

The Master of Science degree program in Investment Management is designed to provide students with the expertise to make effective financial analysis and investment decisions. Its content is relevant to students just learning skills for investment management, to investment management professionals needing a higher degree to advance their careers or wanting to improve their skills in preparation for CFA® certification, and also to professionals outside the investment management industry to gain knowledge and skills for financial analysis and tackling investment problems. Applicants must submit results from either the GMAT or GRE.

I. Core

RMI 500 Risk Basics (if required)

II. Curriculum

FIN 625 Ethics and Professionalism for Finance
DS 609 Advanced Managerial Statistics
ECO 631 Monetary and Fiscal Policies
ACC 600 Financial Statement Analysis
ACC 601 Financial Reporting for Investments
FIN 633 Corporate Financial Management
FIN 634 Investment Analysis
FIN 638 Fixed-Income Analytics
FIN 668 Financial Derivatives
FIN 664 Advanced Investment Analysis

M.S.—Taxation (Non-CPA program)

A Master of Science degree program in Taxation is intended to provide students with the technical knowledge necessary for career advancement in the field of taxation. The program provides students with a comprehensive and in-depth knowledge of the Internal Revenue Code, tax regulations, judicial decisions and Treasury rulings. It equips students to conduct tax research, to facilitate tax compliance and to develop tax-planning strategies.

Recommended Curriculum for M.S.— Taxation

Presented below are the complete course requirements and elective course offerings for the M.S.—Taxation:

I. Core

TAX 610 Individual Tax Planning

II. Curriculum

A. Required

TAX 600 Tax Research and Writing
TAX 603 Corporate Taxation

TAX 612 Partnerships and Partners
TAX 621 Estates and Gifts
TAX 683 Practice and Procedure
TAX 691 Research Project

B. Elective (Select two)

TAX 605 Internship in Taxation
TAX 611 Tax Planning for High Net-Worth Individuals
TAX 631 Corporate Distributions, Liquidations and Reorganizations
TAX 632 Consolidated Federal Income Tax Returns
TAX 641 Interstate Commerce
TAX 651 Foreign Operations
TAX 661 Compensations, Benefits and Retirement Plans
TAX 662 Real Estate
TAX 663 Financial Products
TAX 671 Tax-Exempt Institutions
TAX 672 Specialized Industries
TAX 681 Tax Accounting
TAX 682 Special Topics in Taxation

III. General Electives

Three Graduate Elective Courses

The student will be able to select three 600 level courses (i.e., nine credits). The three graduate electives could be used to allow the student to meet core requirements, or to advance their studies and explore specialized accounting, tax or other business area(s).

M.S. Programs: School of Risk Management, Insurance and Actuarial Science

M.S.—Enterprise Risk Management (ERM)

The Master of Science program in Enterprise Risk Management recognizes the interdisciplinary nature of business activity and integrates the fields of finance, insurance, accounting and management in order to prepare our students for careers in the increasingly important field of risk management. Applicants must submit results from either the GMAT or GRE.

I. Core

ERM/RMI 500 Risk Foundations
ERM/RMI 601 Management of Risk
ERM/RMI 602 Risk Research Tools

II. Operational Risks and Hazards

ERM/RMI 613 Business Hazards and Management
ERM/MGT 628 Operations Management
ERM/MGT 700 Seminar in Business Policy Formulation
ERM/ACC 641 Accounting Information: Contemporary Issues
ERM/ACC 642 Accounting Information: Risk Assessment and Controls

III. Financial Risks

ERM/FIN 633 Corporate Financial Management

ERM/FIN 628 Market Risk Measurement and Management
ERM/FIN 629 Credit Risk Measurement and Management

IV. Synthesis/Strategic Risk

ERM/RMI 705 Enterprise Risk Management

Management of Risk

The objective of this full-time, 30-credit cohort M.S. degree program is to develop the ability to solve challenges and resolve dilemmas faced by the risk and insurance industry and effectively communicate recommendations. The M.S. degree program may be completed in one year of full-time or two years of part-time study. During candidacy for the M.S. degree, students will develop and integrate knowledge and skills through a variety of learning tools. As a graduate of the M.S. program students will be able to work effectively as financial economists in the risk and insurance industry. Applicants must submit results from either the GMAT or GRE.

I. Core

RMI 500 Risk Basics

II. Management of Risk Curriculum

RMI 601 Management of Risk
RMI 602 Risk Analysis Methods
RMI 604 Risk Pricing Methods
RMI 611 Cases on Risk, Insurance and Banking
RMI 614 Risk Funding Tools

III. Electives

Three 600+ level courses from the offerings of the Tobin College of Business

IV. Options to Complete (choose one)

- Thesis
- Applied Project plus one elective
- Comprehensive exam plus two electives

Programs of Study

Combined Programs

The Department of Accounting and Taxation in conjunction with the School of Law offers combined degree (J.D./M.B.A. and J.D./M.S.) programs in the following: public accounting, controllership and taxation.

J.D./M.B.A. Program

The J.D./M.B.A. program is a dual degree program for exceptional students in business and law leading to the Master of Business Administration (M.B.A.) and Juris Doctor (J.D.) degrees offered by the Tobin College of Business and the School of Law, respectively. Its purpose is to prepare students for careers in the areas of business and law, which require both legal expertise and a knowledge of the theory and practice of business.

Applicants for admission to this joint degree program must meet criteria for admission to the School of Law and the Graduate

Division of the Tobin College of Business.

For the first year, students pursue the curriculum in the School of Law exclusively. During each of the semesters of the second and third years in the School of Law, students complete a minimum of three credits toward the M.B.A. degree. Also, during each of the summers following the first and second years of enrollment in the School of Law, students complete nine credits toward the M.B.A. degree.

For further information on this program, an appointment should be made to meet with an academic advisor.

Programs of Study

Advanced Certificate

After having completed the M.B.A. degree, the professional business person may find that their career pattern has been altered to the extent that knowledge is now required in a totally new field requiring an expertise in more than one discipline. For example, a graduate of the M.B.A. program whose specialization was marketing and who had successfully performed in a sales administrative position may be assigned to the area of finance. Such a student might very well apply for the Advanced Certificate Program in Finance.

The admission requirements for the Advanced Certificate require the satisfactory completion and awarding of the M.B.A. degree or its equivalent. Specifically, the student must have completed the required core level courses, the required courses in the M.B.A. curriculum and the initial major specialization.

The requirement for awarding the Advanced Certificate is the satisfactory completion of at least 18 credits with an index of "B" (3.0) in all courses. In some majors, a certificate candidate may be required to take core courses to qualify for a new concentration, particularly in accounting. The number of additional courses depends upon the applicant's academic background.

Courses

Department of Accounting and Taxation (ACC, TAX)

ACC 503 Financial Reporting

This course explains and interprets the form and content of financial reports issued by business entities to provide investors, creditors, and others with information about their financial positions, profitability and future cash flows, all which determine market values. Topics include working capital, operating assets, long-term financing instruments, pensions, share-based payments, stockholders' equity, and comprehensive income. *Credit: 3 semester hours.*

ACC 515 Financial Reporting: Concepts and Problems*

Prerequisite: None. This course examines the accounting principles underlying the preparation of financial statements. Topics include the theory upon which financial statements are prepared including valuation classification, and disclosure principles regarding assets. A comprehensive financial accounting practice set is assigned. Includes one-hour non-credit workshop. *Credit: 3 semester hours.*

ACC 600 Financial Statement Analysis I

This course examines various aspects of the analysis of financial statements. In addition to examining the basic techniques of financial analysis the course is concerned with the quality of accounting information. The course evaluates the appropriateness of accounting policies and estimates and, if possible, attempts to undo any distortions. Because financial statement analysis is essentially a forward-looking process it is important to consider issues involved in forecasting future accounting numbers. *Credit: 3 semester hours.*

ACC 601 Financial Statement Analysis II

Prerequisites: ACC 600 or equivalent course. The course examines contemporary tools and techniques available for analyzing the financial statements and other data in order to derive measurements and relationships that are useful in decision-making. Financial analysis is discussed in detail as a screening tool in the selection of investments or merger candidates, a method of forecasting future financial and operating results, and as a means of diagnosing managerial, operating, or other problem areas. *Credit: 3 semester hours.*

ACC 605 Internships in Assurance and Advisory Services

Prerequisite: ACC 630 and ACC 623 or equivalent. This course provides students with the opportunity to develop assurance and advisory services skills in an actual work setting outside the classroom. Research paper and employer evaluation required. *Credit: 3 semester hours.*

ACC 620 Cost Administration

This course focuses on cost accounting as a technique for planning and control. Emphasis is on inventory valuation, analysis of variances, responsibility accounting, job order and process costing and budgeting. The use of cost systems, such as standard cost, is examined as a tool for gathering data to assist management in the decision-making process. *Credit: 3 semester hours.*

ACC 621 Controllership

Prerequisite: ACC 620 or equivalent. This course focuses on major corporate decision areas such as special purpose statements, loan agreement provisions, product additions and deletions, make or buy decisions and capital budgeting. *Credit: 3 semester hours.*

ACC 622 Advanced Management Accounting

Prerequisite: ACC 620 or equivalent. A case study approach to management accounting. That emphasizes is on planning and control, inventory valuation, analysis of variances, responsibility accounting and transfer pricing-budgeting. *Credit: 3 semester hours.*

ACC 623 Auditing Problems

Prerequisites: ACC 630 or equivalent. This course provides a study of current auditing theory and techniques including audit planning and procedures, role of internal control, uses of statistical sampling and the various reports rendered by independent auditors. *Credit: 3 semester hours.*

ACC 624 Information Technology Auditing

Prerequisite: ACC 623 or equivalent. This course provides an overview of controls relating to database structures, networks, client servers and distributed systems. *Credit: 3 semester hours.*

ACC 625 Accounting Ethics and Professionalism

Prerequisite: ACC 515 or equivalent. This course provides a case study approach to ethical reasoning, integrity, objectivity, independence, core values and professional issues in accounting. *Credit: 3 semester hours.*

ACC 626 Forensic Accounting Principles

Prerequisite: ACC 623 or equivalent. This course provides study of the forensic techniques needed to examine fraudulent financial schemes, with emphasis on understanding the characteristics of fraud and its prevention and detection. *Credit: 3 semester hours.*

ACC 627 Business Valuations

Prerequisite: ACC 515 or equivalent. This course provides study of the role of financial accounting in business valuations with an emphasis on contemporary valuation approaches and methodologies including those based on: income, discounted income; market value, merged and acquired company; capitalized excess earnings; asset-based; and asset accumulation. *Credit: 3 semester hours.*

ACC 628 Internal Auditing

Prerequisite: ACC 630. This course evaluates risk exposures relating to the organization's governance, operations and information systems, in relation to: (a) effectiveness and efficiency of operations, (b) reliability and integrity of financial and operational information, (c) safeguarding of assets, and (d) compliance with laws, regulations, and contracts. Based on the results of the risk assessment, the student will be able to evaluate the adequacy and effectiveness of how risks are identified and managed and to assess other aspects such as ethics and values within the organization, performance management, communication of risk and control information within the organization in order to facilitate a good governance process. *Credit: 3 semester hours.*

ACC 630 Financial Reporting: Specialized Topics*

Prerequisite: ACC 515 or equivalent course. This course examines accounting issues underlying financial reporting. Topics include accounting for: intangible assets, investments, current and long-term liabilities, stockholders' equity, earnings per share, cash flows, income taxes, leases, and revenue recognition. Includes one-hour non-credit workshop. *Credit: 3 semester hours.*

ACC 632 Critique of Accounting Theory

Prerequisites: ACC 623 and 638 or equivalent. This course addresses the difficulties of preparing precise and universally acceptable definitions of theory and principles, a review of current professional studies and selected areas of research. A written report on a selected research project is a major requirement in this course. *Credit: 3 semester hours.*

ACC 635 Accounting for Financial Instruments and Derivative Products

Prerequisite: ACC 600 or ACC 630 or equivalent. This course provides a study of the accounting, reporting and disclosure requirements related to financial instruments and derivatives from both an investing and financing perspective. *Credit: 3 semester hours.*

ACC 636 Accounting for Financial Institutions

Prerequisite: ACC 600 or ACC 630 or equivalent. This course provides a study of the unique regulatory, audit, financial presentation and disclosure requirements of financial institutions. *Credit: 3 semester hours.*

ACC 638 Business Entities and Combinations

Prerequisite: ACC 3442 or ACC 630 or equivalent. This course covers accounting for mergers and acquisitions by corporations including the preparation of consolidated financial statements, accounting for foreign currency transactions and foreign subsidiaries. Extensive use of Excel required. *Credit: 3 semester hours.*

ACC 639 Government and Non-Profit

Prerequisite: ACC 630 or equivalent. This course provides a study of the special accounting procedures and problems with respect to governmental and not-for-profit entities and the reporting requirements of GASB and other standard setting bodies. *Credit: 3 semester hours.*

ACC 640 SEC Practice

Prerequisite: ACC 600 or ACC 630 or equivalent. This course provides a study of registration and reporting requirements revealed in various SEC rules such as Regulations S-K, S-X and S-B along with exemptions provided under Regulations A and D. *Credit: 3 semester hours.*

ACC 641 Accounting Information: Contemporary Issues

Prerequisite: ACC 623 or equivalent. This course addresses current accounting information systems topics of specific relevance and importance to the accounting profession. *Credit: 3 semester hours.*

ACC 642 Accounting Information: Controls and Assessment.

Prerequisite: ACC 623 or equivalent. This course provides a study of the assessment of risk in the operations of business entities and the application of internal controls to enterprise accounting information and communication systems. *Credit: 3 semester hours.*

ACC 643 Accounting Information: Security and Forensics.

Prerequisite: ACC 623 or equivalent. This course provides a study of issues related to accounting information and communication systems' security and investigates information technology frauds and methods of fraud detection and deterrence. *Credit: 3 semester hours.*

ACC 644 Accounting Information Systems

Prerequisite: ACC 630 or equivalent. This course provides a study of various accounting information and communication systems. *Credit: 3 semester hours.*

ACC 645 International Financial Reporting

Prerequisite: ACC 503 or ACC 515 or equivalent courses. This course is designed to meet the needs of the increasing number of users whose accounting information needs are international in scope. The course extends the knowledge of U.S. accounting principles and practices to: (a) international comparative analysis, (b) accounting measurement and reporting issues unique to multinational business transactions and the business form of the multinational enterprise, (c) accounting needs of international financial markets, and (d) harmonization of worldwide accounting and financial reporting diversity via political, organizational, professional, and standard-setting activities. *Credit: 3 semester hours.*

ACC 646 Analysis of Foreign Financial Statements

Prerequisite: ACC 645 or equivalent course. The course focuses on the analysis of financial statements of companies using international financial reporting standards (IFRS), as promulgated by the International Accounting Standards Board (IASB). Financial statement analysis is introduced and international accounting and reporting practices underlying financial statements are analyzed. Emphasis is placed on the existing differences between U.S. GAAP and IFRS, and on the convergence process. *Credit: 3 semester hours.*

TAX 600 Tax Research and Writing

This course concentrates on the skills needed to research tax questions and considers the sources of the federal tax law including legislative, administrative and judicial explanations and interpretations. *Credit: 1 semester hour.*

TAX 601 Tax Concepts and Strategies

This course provides a broad knowledge of the federal income tax system and the legislative and administrative procedures which create and interpret the internal revenue code. *Credit: 3 semester hours.*

TAX 603 Corporate Taxation

Prerequisite: TAX 610 or equivalent. This course provides an intensive study of the choice of business organizations; corporate stockholder transactions; tax accounting; and special types of corporations. *Credit: 3 semester hours.*

TAX 605 Internship in Taxation

Prerequisite: TAX 603 or equivalent. This course provides students with the opportunity to develop tax skills in an actual work setting outside the classroom. *Credit: 3 semester hours.*

TAX 610 Individual Tax Planning

This course examines how to determine taxable income, including allowable deductions; pensions and deferred compensation; and provisions of the Internal Revenue Code that offer tax incentives. *Credit: 3 semester hours.*

TAX 611 Tax Planning for High Net-Worth Individuals

Prerequisites: TAX 610 or equivalent. This course examines income and estate tax planning for wealthy individuals, dealing with passive activities (tax shelters), the use and limitations of qualified plans, investment planning (asset allocation) life, disability and liability insurance exposures and retirement and estate planning. *Credit: 3 semester hours.*

TAX 612 Partnerships and Partners

Prerequisites: TAX 610 or equivalent. This course provides an intensive study of the uses, formation, operation and termination of partnerships, including family partnerships. *Credit: 3 semester hours.*

TAX 621 Estates and Gifts

Prerequisites: TAX 610 or equivalent. This course provides an intensive study of the objectives, procedures and techniques relating to estate and gift tax and introduces basic elements of estate planning. *Credit: 3 semester hours.*

TAX 622 Income Taxation of Trusts and Estates

Prerequisites: TAX 621 or equivalent. This course provides a study of the planning and a preparation of trust and estate income tax returns; computation of taxable net income and distributable net income; operation of the "throwback" rule. *Credit: 3 semester hours.*

TAX 631 Corporate Distributions, Liquidations and Reorganizations

Prerequisites: TAX 603 or TAX 635 or equivalent. This course provides study of the tax aspects of corporate-stockholder relationships; tax-free re-organizations, liquidations, parent-subsidiary transactions and corporate distributions. *Credit: 3 semester hours.*

TAX 632 Consolidated Federal Income Tax Returns

Prerequisite: TAX 603 or equivalent. This course provides an intensive study of corporations with subsidiaries that may elect to file consolidated tax returns and the regulations concerning such returns (emphasizing the concepts, rules and methods for computing consolidated taxable income).

Credit: 3 semester hours.

TAX 635 Business Tax Planning

Prerequisite: TAX 610 or equivalent. This course provides an intensive study of corporate stockholder transactions; problems in tax accounting and special types of corporations. *Credit:* 3 semester hours.

TAX 641 Interstate Commerce

This course examines the constitutional basis of the taxation of interstate commerce and tax problems of conflicting jurisdictions; qualification to do business in foreign states, sales and use taxes, franchise and income taxes, apportionment formulae and real and personal property taxation. *Credit:* 3 semester hours.

TAX 651 Foreign Operations

Prerequisite: TAX 610 or equivalent. The complexities of international taxation are analyzed by focusing on the U.S. tax system's impact in two areas: (a) U.S. companies investing or operating abroad and (b) foreign companies investing or operating in the U.S.

Credit: 3 semester hours.

TAX 661 Compensation, Benefit and Retirement Plans

Prerequisite: TAX 610 or equivalent. This course examines the tax consequences as well as various strategies and opportunities relating to the design and implementation of executive compensation and benefit and retirement plans. *Credit:* 3 semester hours.

TAX 662 Real Estate

Prerequisite: TAX 610 or equivalent. This course examines the tax problems and planning opportunities encountered in the acquisition, operation and disposition of real estate. *Credit:* 3 semester hours.

TAX 663 Financial Products

Prerequisite: TAX 610 or equivalent. This course examines the tax issues relating to financial products including debt and equity securities, mortgage-backed securities, derivative swaps and foreign exchange contracts. *Credit:* 3 semester hours.

TAX 671 Taxation-Related Issues for Tax-Exempt Institutions

Prerequisite: TAX 603 or equivalent. This course examines the tax aspects of tax-exempt organizations, including those of charitable and educational organizations, civic leagues, labor unions and health and welfare funds. *Credit:* 3 semester hours.

TAX 672 Specialized Industries

Prerequisite: TAX 610 or equivalent. This course examines the tax treatment of specific industries (such as banking, insurance, securities, health care and entertainment) and capitalizes on the availability of industry experts and government officials to analyze issues in depth from a particular industry perspective. *Credit:* 3 semester hours.

TAX 681 Tax Accounting

Prerequisite: TAX 630 and 603 or equivalent. This course examines the difference between the government rules required to compute tax liability and those required by the accounting profession to reflect the financial condition of a business. *Credit:* 3 semester hours.

TAX 682 Special Topics in Taxation

Prerequisite: TAX 630 and 603 or equivalent. This course examines the current developments in federal income, estate and gift taxation, including recent court decisions, legislation, regulations and rulings. *Credit:* 3 semester hours.

TAX 683 Practice and Procedure

Prerequisite: TAX 603 or equivalent. This course examines the procedures to resolve disagreements—both pre- and post-audit—with the Internal Revenue Service. *Credit:* 3 semester hours.

TAX 691 Research Project

Prerequisite: TAX 600 and TAX 603, to be taken in last semester. This course offers an opportunity to research and write about any subject agreed upon between the student and faculty member, resulting in an article of publishable quality is required to complete the course. *Credit:* 3 semester hours.

Thesis Option**ACC/TAX 901; 902 Methodology of Business Research**

Prerequisites: (1) The student must have completed at least nine credits (200 level) in a major area. (2) The student is expected to have explored possible thesis subjects with the department Chair well in advance of taking the course. (3) The student must bring to the first class a Thesis Proposal Form, completed defining the thesis project. (These forms may be obtained from the Graduate Dean's office)

The purpose of this course is to:

- Give the student an appreciation and understanding of research and scholarship;
- Develop skills in research and in analysis and evaluation of problems important to the business profession; and
- Give experience in writing clearly and convincingly on subjects in the business field.

In 901, the student is required to develop a thesis subject, obtain approval of the subject from the department Chair, draw up an outline of the thesis, complete a major portion of the research and write the introduction and first chapter of the thesis.

In 902, the student is required to complete the master's thesis. Hours to be arranged by the professor. *Credit:* 3 semester hours.

Maintaining Matriculation**ACC 925 Maintaining Matriculation**

M.B.A. and M.S. students not registered for courses during a semester must register for ACC 925 in order to maintain matriculation and return to the program for the remaining courses. *No credit. Fee \$100 per semester.*

Department of Computer Information Systems/Decision Sciences (CIS/DS)**DS 500 Mathematical Models for Business**

A review of algebraic and graphical methods for the study of business models. Included at the instructor's discretion are the treatments of equations and functions, graphical models with linear inequalities, graphical and spreadsheet solution to linear programming problems and introductory differential and integral calculus. *Credit:* 3 semester hours.

DS 504 Business Statistics

This course provides the entering MBA students with the minimally needed statistical tools and knowledge for business applications. Emphasis is placed on applying data analysis using statistical and spreadsheet software packages and understanding data interpretation for business decision-making. Ethical issues of employing business statistics are discussed throughout the course. *Credit:* 3 semester hours.

CIS 505 Business Information Technology

This course provides the entering MBA students with the needed computer skills and knowledge; and it covers: (i) the introductory and intermediate treatment of the state of the arts information technology and (ii) the in-depth coverage of the integrated business software applications. Students will finish this course with a comprehensive understanding of the fundamentals and development of information technology and the integrated use of today's software for solving business problems. *Credit:* 3 semester hours.

CIS 601 Advanced Computer Applications for Business

Prerequisite: CIS 505 or equivalent. This is an advanced course in applications of computer software. This course changes each semester, but currently includes sophisticated and integrated applications of spreadsheets, data bases, project management and the World Wide Web. *Credit:* 3 semester hours.

CIS 605 Applied Computer Languages

Prerequisite: CIS 505. This course covers the design, modeling, implementation and management of the relational database systems. Key course topics include design principles, data modeling, normalization, and implementation using relational DBMS software such as Oracle, MYSQL and MS SQL Server. It will also survey the emerging trend topics such as data warehouse and web database technologies. *Credit:* 3 semester hours.

DS 609 Advanced Managerial Statistics

Prerequisites: DS 504 or equivalent. This course covers applications of statistical theory to managerial problems. Topics include: analysis of variance; testing of hypotheses; correlation and regression (simple and multiple); analysis of economic time series and problems of forecasting: non-parametric methods and index numbers. Students use standard statistical programs. *Credit: 3 semester hours.*

DS 631 Decision Science and Spreadsheet Modeling

Prerequisite: DS 504 or equivalent. This is a survey course in the most commonly used decision-making techniques for planning and analysis of managerial problems. Spreadsheet software and other related computer packages are utilized for real-time problem solving. *Credit: 3 semester hours.*

DS 632 Bayesian Statistics for Business Decision Making

Prerequisite: DS 504 or DS 609. This course is an intermediate treatment to Bayesian inferential and decision procedures as applied to managerial problems. Real cases in inventory control, development and introduction of new product, demand forecasts and evaluation of business research projects are used to demonstrate the application of Bayesian statistical principles. This course is especially recommended to management and marketing majors. *Credit: 3 semester hours.*

DS 633 Applied Regression and Forecasting Models

Prerequisite: DS 504 or DS 609. This course covers the application of generally accepted regression and forecasting techniques to various phases of business decision making. Actual models in use will be reviewed and evaluated. *Credit: 3 semester hours.*

DS 634 Statistical Quality Control for Business

Prerequisite: DS 504 or DS 609. This course covers the application of statistical quality control techniques to industrial processes. Topics covered are sampling techniques; the design and use of single, double and sequential acceptance sampling plans; control charts and the design of industrial experiments. *Credit: 3 semester hours.*

DS 640 Mathematical Programming for Business

Prerequisite: DS 631. Intensive study of the fundamental concepts of mathematical programming including the simplex algorithm; post-optimality analysis; the dual; transportation and assignment problems; integer and nonlinear programming and game theory. Both static and dynamic models are applied to a wide variety of real business problems. *Credit: 3 semester hours.*

CIS 644 Systems Analysis and design

Prerequisite: CIS 505 or equivalent program-ming exposure. This course deals with the analysis, design and implementation of computer information systems. There is an in-depth exposure to the theory, application and procedures of systems analysis. Case studies in the areas of finance, personnel, production and marketing systems are examined. *Credit: 3 semester hours.*

CIS 645 Database Management

Prerequisite: CIS 505. An intensive presentation and appraisal of the fundamental technology and practice of database management systems design, implementation and application. This course examines the organization and management of data and databases. *Credit: 3 semester hours.*

CIS 646 Computer Simulation Methods

Prerequisite: DS 504 and CIS 505. This course covers the application of simulation techniques as a method for planning and system evaluation in business and government; emphasis is on discrete systems. System and modeling concepts are examined and related to the construction of simulation models to solve complex problems. Major simulation languages and spreadsheet are utilized. *Credit: 3 semester hours.*

CIS 647 Data Communications and Networks for Business

Prerequisite: CIS 505. This course combines a detailed introduction to data communications and networking concepts and theory with a practical, approach that enables students to apply the theory in real world environments. It also intends to give a comprehensive survey of the entire data and computer communications field. *Credit: 3 semester hours.*

CIS 650 Seminar in CIS/DS

Prerequisites: DS 504 or DS 631 or CIS 645. This is a research and case study course in the application of information technology and quantitative techniques to business problems. Students are expected to carry out independent research and prepare written and oral reports of their findings as a major requirement of the course. *Credit: 3 semester hours.*

CIS 699 CIS Internship

This internship seeks to provide students with the opportunity to develop Information Systems skills in an actual work setting outside the classroom. The internship is a one term, part time, credit bearing IT position within a supervised work environment. Practical application of IT practices and theories is emphasized. In addition to Internship responsibilities a research project is required. This course may be taken only once. *Credit: 3 semester hours.*

CIS 901; 902 Methodology of Business Research

Prerequisites: (1) The student must have completed at least nine credits (600-level) in a major area. (2) The student is expected to have explored possible thesis subjects with the department Chair well in advance of taking the course. (3) The student must bring to the first class a completed Thesis Proposal form, defining the thesis project. (These forms may be obtained from the Graduate Dean's office). The purpose of this course is three-fold: (1) to give the student an appreciation and understanding of research and scholarship; (2) to develop skills in research and in analysis and evaluation of problems important to the business profession; and (3) to give experience in writing clearly and convincingly on subjects in the business field.

In CIS 901 the student is required to develop a thesis subject, obtain approval of the subject from the department Chair, draw up an outline of the thesis, complete a major portion of the research and write the introduction and first chapter of the thesis.

In CIS 902 the student is required to complete the master's thesis. Contact hours to be arranged by the professor. *Credit: 3 semester hours.*

DS 925 Maintaining Matriculation

Master of Business Administration students not registered for courses during a semester must register for DS925 in order to maintain matriculation and return to the program for the remaining courses. *No Credit. Fee: \$100 per semester.*

Department of Economics and Finance (ECO, FIN)

ECO 506 Economics for Management

This course introduces students to a basic understanding of the structure and functioning of a market economy. It will give an introduction to methods of evaluating economic problems and policies at both macroeconomic and microeconomic levels. *Credit: 3 semester hours.*

FIN 507 Managerial Finance

This course is designed to provide an overview of the corporate financial decision-making process as well as the general financial services environment. The objective is to provide an understanding of the basics of all finance subjects to serve as a primer for business students. *Credit: 3 semester hours.*

ECO 600 Managerial Economics and Forecasting

Prerequisite: ECO 506. This course focuses on applied microeconomics. It addresses practical business problems, including analysis of industries within national and international contexts. The course also analyzes the problem of forecasting as an integral part of decisionmaking. *Credit: 3 semester hours.*

ECO 605 International Trade and Investment

Prerequisite: ECO 506. Analysis of how the international monetary system operates, balance of payments analysis, basis of international trade, current problems and issues in commercial policy, foreign business investment to and from the United States, the EU and other economic blocks. *Credit: 3 semester hours.*

ECO 631 Monetary and Fiscal Policies

Prerequisite: ECO 506. The course looks at how the government and the central bank use macroeconomic policies to achieve macroeconomic stability. Topics include the structure and operation of the banking system; money supply and demand and the tools of monetary, fiscal and debt management policies and their application over a typical business cycle. *Credit: 3 semester hours.*

FIN 625 Ethics and Professionalism for Finance

This course provides an introduction to ethical reasoning, integrity, objectivity, independence, core values and professional issues in investment management and finance. Students will apply the concepts and theories to investment management cases. *Credit: 3 semester hours*

FIN 628 Market Risk Management

Prerequisite: Fin 507. This course examines market risk measurement and management analytics. The course will cover market risks on various types of assets. Value-at-Risk will be discussed in detail as a measure of a company's portfolio risk exposures. In addition, derivative hedging strategies will be demonstrated by means of futures, forwards, swaps, and options. *Credit: 3 semester hours.*

FIN 629 Credit Risk Management

Prerequisite: Fin 507. This course focuses on understanding and controlling credit risk of the firm in the global credit environment. It provides a conceptual framework as well as relevant tools and techniques to identify and measure credit risk exposures. In addition, techniques to mitigating the exposures are examined as well. *Credit: 3 semester hours.*

FIN 633 Corporate Financial Management

Prerequisites: FIN 507. This course examines the theory of business finance and the financial techniques and tools employed by modern corporate managers. The student will be introduced corporate investment and financing decisions, to financial modeling, financial forecasting and other microcomputer applications that pertain to finance. *Credit: 3 semester hours.*

FIN 634 Investment Analysis

Prerequisites: FIN 507. This course covers the microstructure of the securities markets, trading mechanisms, investment processes, investment objectives, risk analysis and security valuation. The course examines the applicability of

fundamental analysis, efficient market theory and technical analysis. Hedging and alternative investments are also covered.

Credit: 3 semester hours.

FIN 635 Capital and Money Markets

Prerequisite: FIN 507. The course focuses on structure, operation, instruments and players of the capital markets in the United States, Japan, Europe and emerging markets. The course also discusses impact of government policy on interest rates, exchange rates, market practices, development of securities design, financial risk management and international monetary policies. *Credit: 3 semester hours.*

FIN 636 Financial Economics

Prerequisite: FIN 507. This course explores the question of market efficiency versus market inefficiency. The course explores a number of topics: the creation of corporate value, corporate governance, restructuring and mergers, the microstructure of markets and the financial economics of markets and the financial economics of multinational firms.

Credit: 3 semester hours.

FIN 638 Fixed-Income Analytics

Prerequisite: Fin 507. This course focuses exclusively on fixed income analytics and markets. The traditional yield to maturity methodology for bond valuation first gave way to a spot rate methodology, then to a forward rate methodology, and most recently to an option-based methodology. This evolving valuation methodology has led to progressively better risk-management measures and assess the risks associated with-fixed income securities containing embedded derivatives.

Credit: 3 semester hours.

FIN 643 International Corporate Finance

Prerequisite: FIN 507. This course covers scope and importance of international operations of major corporations; environment of multinational finance; sources of financing overseas subsidiaries; and tax aspects. Analysis and control of currency exposure and risk; foreign currency translation. Generous use of case materials. *Credit: 3 semester hours. Every semester.*

FIN 651 Bank Financial Management

Prerequisite: FIN 507. Major variables affecting financial management of commercial banks in both national and international settings. Consideration is given to bank operations, structure and earnings. Liquidity and financial risk analysis is also given special consideration. *Credit: 3 semester hours.*

FIN 654 Advanced Corporate Finance

Prerequisites: FIN 633. Students are expected to apply financial theories and skills acquired in previous coursework in real-life cases. Instead of lecturing to students, the instructor will serve merely as a "facilitator" in class. Students are expected to commit additional efforts every week outside of class to analyze and discuss cases in study groups.

Credit: 3 semester hours.

FIN 655 Financial Risk Management

Prerequisite: FIN 507. Topics include risk identification, risk measurement, risk monitoring and risk management/control. The primary objective is to expose students to primary areas of risk management and enable them to understand risk reports and data and their implications to the institution. *Credit: 3 semester hours.*

FIN 664 Advanced Investment Analysis

Prerequisite: FIN 634. This course deals with advanced topics in investment analysis and portfolio management. The course involves an in-depth examination of the tools of modern portfolio theory and investment analysis together with specific hands-on applications of these tools. *Credit: 3 semester hours.*

FIN 668 Financial Derivatives

Prerequisite: FIN 507. This course focuses on derivative instruments including futures, forwards, swaps, options, exotic derivatives, and other derivative securities. Critical issues include pricing, daily revaluation, and hedging. This requires an in-depth understanding of the valuation models employed and the assumptions that underlie these models. The course also examines how derivatives are used by banks, corporates, and investment firms to reduce financing costs, hedge price and credit risks, and to obtain return and risk profiles not otherwise achievable. *Credit: 3 semester hours.*

FIN 674 Investment Banking and Brokerage

Prerequisite: FIN 507. This course examines the business of investment banking and securities brokerage. The course studies the areas of business activities where investment banks derive their revenues. These activities include venture capital, mergers and acquisitions, underwriting, primarily dealership operations, money management, prime brokerage, proprietary trading, market making, financial engineering and financing. *Credit: 3 semester hours.*

FIN 684 Asset Management

Prerequisite: FIN 507. The course provides an opportunity for managing a live portfolio. This course examines issues involved in the management and investment strategies of an endorsement. Students will initiate trading recommendations, supported by complete research reports and present to program investment committee for approval. Industry executives will participate in class presentations and discussions. *Credit: 3 semester hours.*

FIN 699 Finance Internship

The finance internship seeks to provide students with the opportunity to develop a deeper understanding of the finance industry and the development of financial skills built upon previous program coursework in an actual work setting outside the classroom. The internship which exposes students to the practice of finance in an actual work setting is a one term, part time, credit bearing internship position within a supervised work environment. Practical application of financial knowledge, practices and theories is emphasized. In addition,

tion to internship responsibilities a research project is required. This course may be taken only once. *Credit: 3 semester hours.*

FIN 700 Seminar in Finance

Prerequisite: Permission of the department. A research course designed to cover special topics of interest. Coursework includes research into specialized areas, class lectures, discussions, guest lecturers, field trips and written reports. *Credit: 3 semester hours.*

FIN 901; 902 Methodology of Business Research

Prerequisites: (1) The student must have completed at least nine credits (200 level) in a major area; (2) The student is expected to have explored possible thesis subjects with the department Chair well in advance of taking the course; (3) The student must bring to the first class a Thesis Proposal Form, filled in, defining the thesis project. (These forms may be obtained from the Graduate Dean's office).

The purpose of this course is three-fold: (1) to give the student an appreciation and understanding of research and scholarship; (2) to develop skills in research and in analysis and evaluation of problems important to the business profession; and (3) to give experience in writing clearly and convincingly on subjects in the business field.

In 901 the student is required to develop a thesis subject, obtain approval of the subject from the department Chair, draw up an outline of the thesis, complete a major portion of the research and write the introduction and first chapter of thesis. In 902 the student is required to complete the master's thesis. Hours to be arranged by the professor. *Credit: 3 semester hours.*
Every semester.

ECO 925 Maintaining Matriculation

Master of Business Administration students not registered for courses during a semester must register for ECO 925 in order to maintain matriculation and return to the program for the remaining courses. *No Credit. Fee: \$100 per semester.*

Department of Law (LAW)

LAW 501 Law, Ethics and Society

This course introduces the legal and ethical environment of business and covers legal principles essential for proper managerial decision-making. Students analyze corporate problems with special emphasis on the ethical implications for business persons. *Credit: 3 semester hours.*

LAW 650 Government Regulation of Business

A study of the relationship between governments and business. The course examines the goals of governments and the regulatory schemes they use to achieve these goals. It

covers government regulation in the U.S. and globally, emphasizing securities markets, acquisitions, marketing, antitrust, labor and e-commerce. *Credit: 3 semester hours.*

LAW 651 Principles of Business Law

This course covers the U.S. legal environment of business and in-depth legal principles of contracts, agency and business structure (partnerships, LLCs, corporations). This course is especially important for accounting majors since it covers 25% of Part 4 of the CPA exam and 10% of Part 3. *Credit: 4 semester hours.*

LAW 652 International Business Law and Negotiations

Students gain real advantages over competitors by learning how to win business competition by combining international business law, negotiating skills and problem solving. Students gain competitive advantage by learning how to combine the critical legal principles of global enterprise with negotiating skills and problem solving. Students improve their cross border business negotiation skills through simulations involving international sales and marketing contracts, overseas capital investments, joint ventures, mergers and other international business arrangement, which require a core knowledge of international business law. *Credit: 3 semester hours.*

LAW 653 Commercial Law

Prerequisite: LAW 1310 or its equivalent. This course covers Property, Contracts and Commercial Law. This course is important for all students, but is crucial for accountants since it covers approximately 25% of one part of the CPA exam and Commercial Law (required for CPA licensure). *Credit: 3 semester hours.*

LAW 654 Human Resources Law

This course covers employment law and labor law. It explains discrimination, harassment, privacy, benefits and hiring/termination policies, giving students this essential knowledge to become effective managers. International issues, problem solving and current trends are explored. *Credit: 3 semester hours.*

Department of Management (MGT)

MGT 502 Organizational Behavior and Corporate Social Responsibility

This course explores the latest theoretical and empirical perspectives on factors influencing human attitudinal, behavioral, and ethical responses in and around organizations. Emphasis is given to the role of corporate social responsibility. *Credit: 3 semester hours.*

MGT 509 Operations Management

This course teaches management of world class performance in operations. Topics include product design, manufacturing, engineering and distribution, as essential for competitive success and long term survival in the global competitive environment. *Credit: 3 semester hours.*

MGT 600 Contemporary Issues in Management

Prerequisite: MGT 502. An advanced seminar course designed to identify and explore contemporary forces of major significance in managing enterprises as they develop and compete within increasingly global and turbulent markets. *Credit: 3 semester hours.*

MGT 621 Decision Support Systems

Prerequisite: MGT 502. Students are taught conceptualization and model-building tools to enhance their management problem solving and decision making capability. *Credit: 3 semester hours.*

MGT 622 Management Information

Prerequisite: MGT 502. Systems Students learn how to utilize procedures and techniques essential for the design, measurement and evaluation of management information systems. *Credit: 3 semester hours.*

MGT 623 Human Resource Management

Prerequisite: MGT 502. The course explores important contemporary issues and perspectives in the field of human resources management. Emphasis is given to work design, management of diversity, and core human resource management issues. *Credit: 3 semester hours.*

MGT 627 Health Care Management

Prerequisite: MGT 502. This course provides a comprehensive overview of Health Care Delivery Systems, focusing on contemporary issues in management and leadership of Health Care Organizations. *Credit: 3 semester hours.*

MGT 628 Operations Management Systems

Prerequisite: MGT 502. An advanced course in the management of operations. Students learn how to use operations management systems to manage, analyze and evaluate the operations of an organization. *Credit: 3 semester hours.*

MGT 631 Leading Modern Organizations

Prerequisite: MGT 502. This course examines the theoretical underpinnings that determine effective leadership styles and their impact upon the business and the society at large. *Credit: 3 semester hours.*

MGT 632 Organizational Theory

Prerequisite: MGT 502. This course addresses major theoretical perspectives relevant to the development and management of organizations. Topics include organizational power and control, corporate governance, and interrelationships between organizations. *Credit: 3 semester hours.*

MGT 640 Entrepreneurship

Prerequisite: MGT 502. Students learn how to plan, organize and implement a new venture. *Credit: 3 semester hours.*

MGT 650 Managing a Web-based Entrepreneurial Business

Prerequisite: MGT 502. In this course students learn how to manage a cyber-space entrepreneurial business. The course examines case studies of existing companies on the Web. *Credit: 3 semester hours.*

MGT 651 Creating an E-Commerce Business

Prerequisite: MGT 502. Students learn how to carry out the basic steps involved in developing an e-commerce venture, whether as an independent entity or in conjunction with an established business. *Credit: 3 semester hours.*

MGT 652 Seminar in International Management

Prerequisite: MGT 502. An advanced seminar course designed to identify and explore cross cultural issues and emerging trends of major significance relating to managing global organizations in both the for-profit and not-for-profit sectors, and cross-border transactions. *Credit: 3 semester hours.*

MGT 654 Global Information Systems

Prerequisite: MGT 502. This course enables the students to develop and manage the integrated information system needed to manage multinational organizations. *Credit: 3 semester hours.*

MGT 659 International Business Policy

Prerequisite: MGT 502. This course teaches students how to formulate, implement and control multinational business strategies in a global environment, taking into account social, regulatory, political and economic issues. *Credit: 3 semester hours.*

MGT 680 Organizational Development: Managing Change

Students learn skills necessary in improving the performance of individuals, groups and organizations in situations involving major change. *Credit: 3 semester hours.*

MGT 685 Global Human Resource Management

Prerequisite: MGT 502. This course teaches students how to develop and effectively utilize human resources in a variety of contemporary international and global organizational forms and across cultures. *Credit: 3 semester hours.*

MGT 690 E-Commerce Impacts on Organizations

Prerequisite: MGT 502. The course provides a foundation for effectively developing and applying electronic commerce within an existing organization by utilizing techniques such as, among others, the training and development of its existing human resource force. *Credit: 3 semester hours.*

MGT 695 Seminar in Human Factors in MIS Management

Prerequisite: MGT 502. This course provides an overview of the procedures and practices used in effectively developing, using and disseminating management information systems from the human psychological and physical perspective. *Credit: 3 semester hours.*

MGT 699 Management Internship

This internship program provides students with the opportunity to develop research and analytical skills in an actual work setting within a supervised work environment. Practical application of management tools and tactics are emphasized throughout as is the importance of ethics in the workplace. *Credit: 3 semester hours.*

MGT 700 Seminar in Business Policy Formulation

Prerequisite: MGT 502, taken in last semester. The course concerns enterprise wide strategic management. In this course students learn how to develop business strategies, how to implement these strategies through translating them into operational policies and action, and how to exercise strategic control. *Credit: 3 semester hours.*

MGT 901; 902 Methodology of Business Research

Prerequisites: (1) The student must have completed at least nine credits (600 level) in a major area. (2) The student is expected to have explored possible thesis subjects with the department Chair well in advance of taking the course. (3) The student must bring to the first class a Thesis Proposal Form, completed, defining the thesis project. (These forms may be obtained from the Graduate Dean's office).

The purpose of this course is three-fold: (1) to give the student an appreciation and understanding of research and scholarship; (2) to develop skills in research and in analysis and evaluation of problems important to the business profession; and (3) to give experience in writing clearly and convincingly on subjects in the business field.

In MGT 901 the student is required to develop a thesis subject, obtain approval of the subject from the department Chair, draw up an outline of the thesis, complete a major portion of the research and write the introduction and first chapter of the thesis.

In MGT 902 the student is required to complete the master's thesis. *Hours to be arranged by professor. Credit: 3 semester hours.*

MGT 925 Maintaining Matriculation

Master of Business Administration students not registered for courses during a semester must register for MGT 925 in order to maintain matriculation and return to the program for the remaining courses. *No Credit. Fee: \$100 per semester.*

Department of Marketing (MKT)**MKT 508 Marketing Management**

The course focuses on formulating and implementing marketing management strategies and policies. The course provides a systematic framework for understanding marketing management and strategy in an ever-changing business environment. Course topics include marketing planning, scanning the environment, growth strategies, understanding and predicting behavior of consumers and competitors, the Internet as a strategic resource, global marketing and so forth. *Credit: 3 semester hours.*

MKT 601 Marketing Research

Prerequisite: MKT 508. Marketing research is treated as a tool utilized by management in exploration, examination and evaluation of marketing problems and opportunities and the role of marketing research in the firm's marketing information system (MIS). Topics covered include questionnaire design, attitude, measurement, sampling, and hypothesis testing. *Credit: 3 semester hours.*

MKT 603 Dynamics of Consumer Motivation and Behavior

Prerequisite: MKT 508. This course acquaints the student with the basic factors affecting the behavior of consumers—a key element of the business environment. The subject matter draws primarily upon contributions from economics, psychology and social psychology. *Credit: 3 semester hours.*

MKT 606 Advertising Management

Prerequisite: MKT 508. Management of the advertising process is portrayed as the coordination of the firm, the advertising agency and the media in the activities required to develop creative strategies and to execute the advertising campaign. *Credit: 3 semester hours.*

MKT 608 Sales Administration and Strategy

Prerequisite: MKT 508. The course focuses on the varying nature of the problems which confront the sales manager and the type of approaches which may be useful in resolving them. The course also aims at enhancing understanding of sales management functions among all marketing managers. *Credit: 3 semester hours.*

MKT 610 Product Management

Prerequisite: MKT 508. Product development is studied as a continuous and planned activity within the firm requiring permanent organizational status. *Credit: 3 semester hours.*

MKT 611 Data Analysis in Marketing Research

Prerequisites: MKT 508, DS 504. The objective of this course is to familiarize the marketing student with various multi-variate statistical procedures that are being used in analysis of marketing data. *Credit: 3 semester hours.*

MKT 623 Contemporary Marketing Strategies

Prerequisites: MKT 508. The student is placed in the role of the principal marketing manager and decision-making skills are sharpened via the liberal use of business cases and computer simulation marketing games.

Credit: 3 semester hours.

MKT 624 Global Brand Marketing

This course is designed to provide a course of study in which students will secure an appreciation and understanding of the rapidly changing global brand and branding landscape, and how global brands are increasing being created all over the world. The challenge for players in the global marketplace is increasingly to develop and manage branded products and services, which enable them to better compete by introducing and building their brand offerings. *Credit: 3 semester hours.*

MKT 626 International Marketing

Prerequisite: MKT 508. This course focuses on the growing importance of the international marketing operations of multinational firms. The student's perception of marketing management's domain is expanded from the domestic environment to the global market place. *Credit: 3 semester hours.*

MKT 628 Comparative Marketing Systems and Research

Prerequisite: MKT 508. A comparative analysis of the similarities and differences in foreign marketing systems, with special emphasis upon structures, functions, institutions, productivity and environment. *Credit: 3 semester hours.*

MKT 630 Marketing of Services

Prerequisite: MKT 508 or equivalent. Explores the unique characteristics and techniques of service marketing management. Consumer behavior, the marketing mix and future developments in the marketing of services are examined thoroughly. *Credit: 3 semester hours.*

MKT 631 Business to Business (E-Commerce) Marketing

Prerequisite: MKT 508. The distinctive nature of the marketing function with the industrial goods/service firm is isolated for study. *Credit: 3 semester hours.*

MKT 633 Marketing in East Asia

Prerequisite: MKT 508. An analysis of the economic, political, social and cultural factors affecting marketing and consumer behavior in East Asian countries. Research concerning their marketing structures, strategies, problems, institutions, patterns, promotions and opportunities. *Credit: 3 semester hours.*

MKT 634 Marketing of Financial Services

Prerequisite: Any one of the following: MKT 508; MGT 502; FIN 507 or DS 504. This course module explores the strategic situation, which characterizes financial services and provides an overview of financial services businesses.

Credit: 3 semester hours.

MKT 635 Strategic Internet Marketing

Prerequisite: MKT 508. This course examines the dynamic interrelationship between the Internet and Marketing—that is, the impact of the Internet on marketing practices and the creation of marketing strategy for the effective functioning on the Internet. In particular, the course will enable students to secure an understanding of marketing and Internet issues, conceptualize aspects of consumer-drive approaches to doing business on the Internet, and an opportunity to serve as consultants to a real world firm. *Credit: 3 semester hours.*

MKT 699 Marketing Internship

This internship program provides students with the opportunity to develop research and analytical skills in an actual work setting within a supervised work environment. Practical application of marketing tools and tactics are emphasized throughout. *Credit: 3 semester hours.*

MKT 700 Marketing Seminar on Special Interest Topics

Prerequisite: MKT 508. A research course designed to cover special topics of interest. coursework includes research into specialized areas, class lectures, discussions, guest lecturers, field trips and written reports. *Credit: 3 semester hours.*

MKT 701 Seminar in Current International Marketing Topics

Prerequisite: MKT 508. Critical analysis of current problems, issues and developments; the relationship between international marketing functions, processes and institutions and changes in the general social, cultural, economic and political environment. Topics reflect the frontiers of research and current state of the art. *Credit: 3 semester hours.*

MKT 702 International Marketing Seminar Abroad

Prerequisite: MKT 508. The student examines the economic, political, legal, cultural and social forces affecting the international marketing position of the United States and other selected countries; development of global marketing policies, trade with developed and developing countries. *Credit: 3 semester hours.*

MKT 901; 902 Methodology of Business Research

Prerequisites: (1) The student must have completed at least nine credits (600 level) in a major area. (2) The student is expected to have explored possible thesis subjects with the department Chair well in advance of taking the course. (3) The student must bring to the first class a Thesis Proposal Form, completed, defining the thesis project. (These forms may be obtained from the Graduate Dean's office).

The purpose of this course is three-fold: (1) to give the student an appreciation and understanding of research and scholarship; (2) to develop skills in research and in analysis and evaluation of problems important to the business profession; and (3) to give experience in

writing clearly and convincingly on subjects in the business field.

In MKT 901 the student is required to develop a thesis subject, obtain approval of the subject from the department Chair, draw up an outline of the thesis, complete a major portion of the research and write the introduction and first chapter of the thesis.

In MKT 902 the student is required to complete the master's thesis. Hours to be arranged by the professor. *Credit: 3 semester hours.*

MKT 925 Maintaining Matriculation

Master of Business Administration students not registered for courses during a semester must register for MKT 925 in order to maintain matriculation and return to the program for the remaining courses. *No Credit. Fee: \$100 per semester.*

School of Risk Management, Insurance and Actuarial Science (RMI)

RMI 500 Risk Basics.

Students develop a working knowledge of the language of quantitative analysis, of free-market economics and of corporate finance as it relates to the management of risk. At the end of the course students are able to integrate and apply fundamental concepts from statistics, economics and finance to answer basic business-related questions on managing and financing risk. *Credit: 3 semester hours.*

RMI 600 Risk Management Economics

Prerequisites: ECO 506 and FIN 507. The course applies the framework of risk, insurance and financial economics to the risk management decisions facing the corporate risk manager. The focus is on understanding the concepts and their application to actual business situations. The course is designed for business students with little or no exposure to corporate risk management and insurance. This course does not qualify as an elective in the risk management program. *Credit: 3 semester hours.*

RMI 601 Management of Risk.

Financial objectives of corporate risk management process, empirical evidence of how and why firms manage risk, institutional environment and regulations of risk management. Results in students able to jointly manage pure and financial risk. RMI601 is a pre- or co-requisite for all RMI courses. *Credit: 3 semester hours.*

RMI 602 Risk Analysis Methods

Pref/co-requisite: RMI 601. Research tools and data sources for risk evaluation. Emphasis on computer-aided application. Results in students able to produce credible analysis reports on risk and its consequences and develops a knowledge of the required MS thesis format. (Calendar coordinated with RMI 500 and RMI604). Seating priority is for M.S. Risk students. Other students wishing to take this course should contact their advisor. *Credit: 3 semester hours.*

RMI 604 Risk Pricing Methods

Pre/co-requisite: RMI 601. Pricing contingent claims and future uncertain cash flows. Impact of pure and financial risk on cash flow and the cost of equity capital. Emphasis on computer-aided application. Results in students able to model the risk tolerance level of firms. (Calendar coordinated with RMI602 and RMI614) *Credit: 3 semester hours.*

RMI 605 Strategic Finance Policy for Insurers

Pre/co-requisite: RMI 601. Investigates how insurance firms can create economic value for their shareholders and the efficacy of shareholder value creation subject to the demands of other stakeholders. Results in students able to articulate the nuances of a 'good' company given the demands of shareholders. *Credit: 3 semester hours.*

RMI 607 Operational Finance for Insurers

Pre/co-requisite: RMI 601. Ratemaking, reserving, investing, allocating capital and asset-liability management. Results in students able to arrange the finances of (re)insurers to meet policyholder obligations and create economic value for owners. *Credit: 3 semester hours.*

RMI 609 Property and Liability (Re) Insurance

Pre/co-requisite: RMI 601. Underwriting, claims administration, financial reporting and rate-making for insurable property and liability risks. Results in students able to structure (re)insurance programs to finance risk. *Credit: 3 semester hours.*

RMI 610 Life-Health Insurance and Employee Benefits

Pre/co-requisite: RMI 601. Funding premature death, medical care costs, unexpected loss of income and retirement. Results in students able to identify, measure, and fund the consequences of personal risks. *Credit: 3 semester hours.*

RMI 611. Cases in Risk, Insurance and Banking

Pre/co-requisite: RMI 601. Students gain experience and detailed knowledge in areas that are largely an individual choice through the production of at least four significant papers. Students investigate, form potential solutions, and produce detailed research proposals stressing an innovation to risk-related managerial challenges. (*prerequisite:* RMI602) *Credit: 3 semester hours.*

RMI 612 Applied Risk Research & Writing

Pre/co-requisite: RMI 601. Students, monitored by the instructor, apply the analysis tools they have already acquired to complete a series of large sample empirical research projects of applied interest to the risk, insurance or banking industry. Students are responsible for all aspects of the research project including data collection, data analysis and the presentation of their results. At the end of the course students have a first hand experience in resolving the practical issues involved in conducting large

sample empirical research. *Credit: 3 semester hours.*

RMI 613 Graduate Risk Seminar

Pre/co-requisite: RMI 601. Students collaborate to examine in detail and depth topical issues in risk and insurance. Results in students able to articulate the nuanced impact of the topics examined for the practice of risk management or the formulation of social policy. *Credit: 3 semester hours.*

RMI 614. Risk Funding Tools

Pre/co-requisite: RMI 601. Derivatives, swaps, hybrid securities, indexed debt, contingent financing and insurance. Results in students able to hedge pure and financial risk singularly or jointly. (Calendar coordinated with RMI 604) *Credit: 3 semester hours.*

RMI 621 Risk Project

Pre/co-requisite: RMI 601. Students apply their knowledge and skills to compete a project of practical use to the banking, risk or insurance industry. The project, however, requires the student to apply critical thinking skills and a systematic problem-solving approach within professional contexts. The requirements and scope of the project is less than the scope of a thesis. Requires permission of Department. An international student on a student visa may apply for the CPT, (Curriculum Practical Training), if the student identifies an appropriate project. *Credit: 3 semester hours.*

RMI 699 Risk Management Internship

This internship program provides students with the opportunity to develop research and analytical skills in the area of risk management within an actual work setting environment. Concepts already considered during coursework are expected to be applied and built upon to gain a deeper understanding of the industry of risk and insurance. *Credit: 3 semester hours.*

RMI 901; 902 Methodology of Business Research

Prerequisites: (1) The student must have completed at least nine credits (600 level) in a major area. (2) The student is expected to have explored possible thesis subjects with the department Chair well in advance of taking the course. (3) The student must bring to the first class a completed Thesis Proposal Form, defining the thesis project. (These forms may be obtained from the Graduate Dean's office).

The purpose of this course is three-fold:

- (1) to give the student an appreciation and understanding of research and scholarship;
- (2) to develop skills in research and in analysis and evaluation of problems important to the business profession; and
- (3) to give experience in writing clearly and convincingly on subjects in the business field.

In RMI 901 the student is required to develop a thesis subject, obtain approval of the subject from the department Chair, draw up an outline of the thesis, complete a major portion of the research and write the introduction and first chapter of the thesis.

In RMI 902 the student is required to complete the master's thesis. Hours to be arranged by the professor. *Credit: 3 semester hours.*

RMI 925 Maintaining Matriculation

Master of Business Administration students not registered for courses during a semester must register for RMI 925 in order to maintain matriculation and return to the program for the remaining courses. *No Credit. Fee: \$100 per semester.*

For a complete listing of approved courses, please contact your Dean's office.

Victoria Shoaf, CPA, Dean, Professor of Accounting and Taxation, B.A., California State College; M.B.A., Pace University; Ph.D., Baruch College, City University of New York.

Ivan Abel, Assistant Professor of Marketing, B.E.E., The City College, The City University of New York; M.B.A., Baruch College; Ph.D., The City University of New York.

John Angelidis, Chair and Professor of Management, B.S., M.S., Ph.D., Georgia State University.

Mark Aquilio, CPA, Associate Professor of Accounting and Taxation, B.S., J.D., Fordham University; LL.M., New York University.

Joan Ball, Instructor of Marketing, B.A., State University of New York, Albany, M.S., Nyack College.

Vipul K. Bansal, Chair and Associate Professor of Finance, B.A., Jiwaju University; M.B.A., University of Delhi; Ph.D., University of Mississippi.

James Barrese, Professor of Risk Management and Insurance, Robert F. Caroon Academic Chair, B.S., Ph.D., Rutgers University.

Albert J. Beer, F.C.A.S., M.A.A.A, Assistant Professor, B.S., Manhattan College, M.A. University of Colorado.

Richard Bennett, R.P.L.U., C.P.C.U., A.R.M., A.R.E., A.I.C., A.M.I.M., A.U., A.I.M., A.I.A, A.P.I., A.R.C., Assistant Professor of Risk Management and Insurance, B.A., M.B.A., College of Insurance; M.A., Queens College.

Larry W. Boone, Director, Executive in Residence program and Associate Professor of Management, B.S.I.E., Lehigh University; M.S.I.E., Ph.D., University of Pittsburgh.

M. Northrup Buechner, Associate Professor of Economics, A.B., Lawrence University; Ph.D., University of Virginia.

R. Mitch Casselman, Assistant Professor of Management, B.Comm., M.A., Carleton University, Ph.D. University of Melbourne.

Patrick A. Casabona, Professor of Accounting and Taxation, B.A., Iona College; M.B.A., Ph.D., Baruch College of the City University of New York.

Chiang-Nan Chao, Professor of Management, B.A., Jilin University, China; M.B.A., Lamar University; Ph.D., Arizona State University.

Thomas P. Chen, Professor of Economics and Finance, B.A., Tunghai University; M.A., State University of New York at Buffalo; Ph.D., City University of New York.

Young Back Choi, Professor of Economics, B.A., SUNY Old Westbury; M.A., Ph.D., University of Michigan.

Yeong C. Choi, CPA, Associate Professor of Accounting and Taxation, B.A., M.A., M.S., YeungNam University, Korea; M.S., University of Delaware; Ph.D., Drexel University.

Charles M. Clark, Professor of Economics, B.A., Fordham University; M.A., Ph.D., New School for Social Research.

Sylvia Clark, Associate Professor of Marketing, B.B.A., Baruch College, M.B.A., New York University; Ph.D., Baruch College.

Patrick R. Colabella, CPA, Associate Professor of Accounting and Taxation, B.S., St. John's University; M.B.A., Pace University, Ed.D., St. John's University.

Canan Corus, Assistant Professor of Marketing, B.S., Middle East Technical University, M.S., Dokuz Eylul University, M.B.A., SUNY Binghamton, Ph.D., Virginia Tech.

Tim Coville, CPA, Assistant Professor of Accounting, B.S., SUNY Albany, M.B.A. New York University, Ph.D. Rutgers University.

Gerald P. Cusack, Associate Professor of Management, B.A., M.B.A., St. John's University; M.A., New School for Social Research; Ph.D., New York University.

Teresa M. Danile, CPA, CMA, Associate Professor of Accounting and Taxation, B.B.A., M.B.A., Pace University, Ed.D., St. John's University.

A. Noel Doherty, Chair and Professor of Marketing, B.S., Fordham University; Ph.D., Tulane University.

Nina T. Dorata, CPA, Associate Professor of Accounting and Taxation, B.S., MBA, St. John's University, Ph.D., Rutgers University.

Reza Eftekhazadeh, Associate Professor of Computer Information Systems and Decision Sciences, B.A., Tehran, Iran; M.B.A., St. John's University; M.B.A., M.Phil., Ph.D., Baruch College.

I. Hilmi Elifoglu, CISA, CISM, Associate Professor of Accounting and Taxation, B.S., Ankara University; M.B.A., University of Minnesota; M.S., Ph.D., New School for Social Research.

Mary Elizabeth Ellis, Associate Professor of Economics and Finance, B.S., M.B.A., Ph.D., University of South Carolina.

Robert B. Fireworker, Professor of Computer Information Systems and Decision Sciences, B.S., Brooklyn College; M.S., Ph.D., New York University.

Adrian P. Fitzsimons, CPA, CISA, CMA, CFA, Professor of Accounting and Taxation, B.S., M.B.A., St. John's University; Ph.D., New School for Social Research.

Edward B. Flowers, Professor of Economics and Finance, A.B., J.D., Emory University; M.B.A., Ph.D., Georgia State University.

Arlene J. Furfero, Associate Professor of Economics and Finance, B.A., M.A., Pace College; J.D., Pace University; Ph.D., Rutgers University.

Leonora Fuxman, Associate Professor of Management, B.S., Kiev State University, Ukraine; M.A., Ph.D., Wharton School, University of Pennsylvania.

Joseph A. Giacalone, Professor of Economics, Henry George Chair, B.A., Ph.D., Columbia University; M.B.A., St. John's University.

S. Sadik Gokturk, Professor of Economics, B.S., New York University; Ph.D., Columbia University.

Sylwia Gornik-Tomaszewski, CMA, CFM, Associate Professor of Accounting and Taxation, M.S., Academy of Economics, Katowice, Poland; M.S., Kent State University; D.B.A., Cleveland State University.

Garth Hallberg, Instructor of Marketing, B.A., M.S., M.B.A., Columbia University

Kiran M. Ismail, Assistant Professor of Management, B.S., Southeastern University, M.B.A., M.S., Ph.D., University of Texas at Dallas.

Chaman Lal Jain, Professor of Economics, B.A., M.A., Punjab University, India; M.A., Vanderbilt University; Ph.D., American University.

Jaeseok Jeong, Assistant Professor of Marketing, B.E., Hankuk University of Foreign Studies, Korea, M.A., Ph.D., University of Texas at Austin.

Shreekant G. Joag, Associate Professor of Marketing, B. Tech. Mech., Indian Institute of Technology; B.A., Indian Institute of Management; Ph.D., Oklahoma State University.

Sreedhar Kavil, Associate Professor of Marketing, B.A., Madros University; B.Com., LL.B., M.B.A., Calcutta University; M.B.A., Long Island University; D.P.S., Pace University.

Gerard M. Kelly, Assistant Professor of Risk Management and Insurance, B.B.A. The College of Insurance, M.B.A.

Deborah Kleiner, Associate Professor of Law, B.A., Brooklyn College; J.D., New York University School of Law.

W. Jean Kwon, C.P.C.U., Chair and Associate Professor, B.B.A., University of Maryland, M.B.A., The College of Insurance; Ph.D., Georgia State University.

Richard T. Lai, CPA, Associate Professor of Accounting and Taxation, B.S., Hunter College; J.D., Boston College Law School; LL.M., New York University School of Law.

Gerard Lange, CPA, Associate Professor of Accounting and Taxation, B.S., Fordham University; M.B.A., New York University, Ed.D., St. John's University.

Craig Latshaw, CPA, Associate Professor of Accounting and Taxation, B.S., Gettysburg College; M.B.A., Kutztown University, Ph.D., Drexel University.

Francis A. Lees, Professor of Economics and Finance, B.A., Brooklyn College; M.A., St. Louis University; Ph.D., New York University.

K. Thomas Liaw, Chair and Professor of Economics and Finance, B.A., National Chenchi University, Taiwan; Ph.D., Northwestern University.

Michael I. Liechenstein, *Associate Professor of Computer Information Systems and Decision Sciences*, B.S.E.E., Massachusetts Institute of Technology; M.Eng., Ph.D., Yale University.

F. Victor Lu, *Chair and Associate Professor of Computer Information Systems and Decision Sciences*, B.S., Cheng Kung University, Taiwan; M.S., Georgia Institute of Technology; Ph.D., Syracuse University.

Pauline Magee-Egan, *Professor of Management*, B.S., M.S., Ph.D., Fordham University.

Laura Lee Mannino, *Associate Professor of Accounting and Taxation*, B.S., Fairfield University; J.D., Hofstra University; LL.M., New York University.

Anna Martin, *Alois J. Theis Professor in Global Finance*, B.S., Purdue University, MBA University of Miami, Ph.D., Florida Atlantic University.

Brenda L. Massetti, *Associate Professor of Management*, B.A., University of South Florida; M.B.A., University of Alabama in Birmingham; Ph.D., Florida State University.

Laurence J. Mauer, *Professor of Economics and Finance*, B.A., Grinnell College; Ph.D., University of Tennessee.

Irene N. McCarthy, *CPA, Professor of Accounting and Taxation*, B.B.A., Baruch College; M.S., City College of New York; Ph.D., New York University.

Jason McNicol, *Assistant Professor of Management*, B.B.A., Texas Tech University, M.B.A., Ph.D., University of Texas El Paso.

Robert J. Mockler, *Professor of Management*, Joseph F. Adams Professorship in Management, A.B., M.B.A., Harvard University; Ph.D., Columbia University.

Iris Mohr, *Associate Professor of Marketing*, B.S., SUNY at Albany; M.A., Hebrew University; M.B.A., Ph.D., Baruch College.

Gary Mongioli, *Professor of Economics and Finance*, B.S., St. John's University; M.A., New York University; Ph.D., New School for Social Research.

Ronald L. Moy, *Associate Professor of Economics and Finance*, B.A., M.A., Ph.D., Rutgers University.

Harry L. Nagel, *Professor of Computer Information Systems and Decision Sciences*, B.S., CUNY Brooklyn College; M.S., Ph.D., New York University.

Jay Nathan, *CFPIM, APP, CPM, Professor of Management*, M.E., University of Florida; M.B.A., Ph.D., University of Cincinnati.

John J. Neumann, *Assistant Professor of Economics and Finance*, B.S., University of Pennsylvania; Ph.D., Boston University.

Theresa Pactwa, *Associate Professor of Finance and Economics*, M.S., Drexel University; Ph.D., Florida International University.

Anthony Pappas, *Associate Professor of Economics and Finance*, B.S., Massachusetts Institute of Technology; M.A., Ph.D., Yale University.

Simcha Pollack, *Professor of Decision Sciences*, B.S., CUNY Brooklyn College; M.S., Ph.D., New York University.

Ronnie Rong Qi, *Assistant Professor of Economics and Finance*, B.S., Renmin University, China; M.A., Ohio State University; Ph.D., Columbia University.

Jack Raisner, *Professor of Law*, Boston University, J.D. Cardoza School of Law, Yeshiva University.

Srinivasa Ramanujam, *A.S.A., E.A., Associate Professor*, M.A., Madras University, India; Ph.D., Brown University.

William Reisel, *Assistant Professor of Management*, M.A., M.B.A., Ph.D., The City University of New York.

Andrew Russakoff, *Associate Professor of Computer Information Systems and Decision Sciences*, B.A., Columbia University; B.A., M.A., St. John's College (Oxford); M.A., CUNY Queens College; Ph.D., City University of New York.

Manuel G. Russon, *Associate Professor of Decision Sciences*, B.A., University of Pittsburgh; M.A., Ph.D., University of Mississippi.

Anthony Sabino, *Associate Professor of Law*, B.S., J.D., St. John's University.

Vincent Shea, *CPA, Assistant Professor*, B.B.A., M.B.A., University of North Florida, Ph.D. Kent State University.

Leon G. Schiffman, *Professor of Marketing*, J. Donald Kennedy Endowed Chair in E-Commerce, B.B.A., Pace University; M.B.A., City College of New York; Ph.D., City University of New York.

Nicos A. Scordis, *Ph.D., Professor of Risk Management and Insurance*, John R. Cox/ACE Ltd. Chair of Risk and Insurance, Ph.D., University of South Carolina, M.B.A., University of Georgia; B.S., Florida State University.

Benjamin R. Silliman, *CPA, Assistant Professor of Accounting and Taxation*, B.A., M.A., University of Mississippi, M.Tax, University of Denver, M.A., Ed.D., New York University.

Eugene J. Sullivan, *University Professor for Strategic Planning*, Executive-in-Residence Program; Chairman Emeritus, Executive Committee, Borden, Inc., B.S., St. John's University; M.B.A., New York University; D.C.S. (Hon.), St. John's University.

Ralph A. Terregrossa, *Associate Professor of Economics*, B.A., SUNY Cortland; M.A., Ph.D., SUNY Binghamton.

James W. Thompson, *CPA, Professor of Accounting and Taxation*, B.S., M.B.A., Fordham University; Ed.D., Columbia University.

Igor Tomic, *Associate Professor of Economics and Finance*, B.S., M.A., CUNY Queens College; Ph.D., City University of New York.

Farok Vakil, *Associate Professor of Computer Information Systems and Decision Sciences*, B.S., National University, Tehran, Iran; M.B.A., LaSalle University; M.S., Ph.D., Temple University.

Athanasios Vasilopoulos, *Associate Professor of Computer Information Systems and Decision Sciences*, B.E.E., M.E.E., Ph.D., New York University.

Raja Vatti, *Associate Professor of Computer Information Systems and Decision Sciences*, B.A. Andhra University, India; M.S., Emory University; M.B.A., Iona College; Ph.D., New York University.

Ping Wang, *Assistant Professor*, B.S, M.S. and Ph.D, Nankai University (China); Ph.D., University of Wisconsin – Madison.

Charles Wankel, *Associate Professor of Management*, B.B.A., Iona College; M.B.A., Ph.D., New York University.

Kwok-Fai Matthew Wong, *Associate Professor of Economics and Finance*, B.A., Acadia University, Canada; M.B.A., University of Manitoba, Canada; J.D., Fordham University; Ph.D., University of Mississippi.

College of Pharmacy and Allied Health Professions

Robert A. Mangione, B.S. Phm., M.S., P.D., Ed.D.

Dean

Joseph M. Brocavich, B.S. Phm., Pharm.D.

Associate Dean

S. William Zito, B.S. Phm., Ph.D.

Associate Dean

Laura M. Arvin, O.P., B.A., M.A., P.D.

Assistant Dean

Laura Gianni Augusto, B.S. Phm., Pharm.D.

Assistant Dean

John Conry, B.S. Phm., Pharm.D.

Assistant Dean

Joseph V. Etzel, B.S. Phm., Pharm.D.

Assistant Dean

John-Emerly Konecni, B.S., M.A., Ph.D.

Assistant Dean

Susan Jennifer Miranda-Velazquez, B.S., M.S., P.D., Ed.D., Assistant Dean

Objectives

The Graduate Division of the College of Pharmacy and Allied Health Professions, in harmony with the mission of the University, prepares students for positions in industry, health care facilities, pharmacy practice, governmental agencies and education. The College provides an opportunity for students to develop and maintain scholarly growth in the pharmaceutical, industrial, biomedical and administrative sciences. In order to meet these objectives, the College offers programs at the master's level in pharmaceutical sciences, toxicology and pharmacy administration. Thesis and non-thesis options are available in all programs leading to the Master of Science degree except the specialty track in biopharmaceutical technology and regulatory affairs/quality assurance. The College of Pharmacy and Allied Health Professions also offers a program of study in pharmaceutical sciences leading to the Doctor of Philosophy degree and a program of study in pharmacy leading to the Doctor of Pharmacy degree.

Master of Science Degrees

Programs of Study

The programs leading to the Master of Science degree are designed to enable individuals to be skilled in the areas of pharmaceutical sciences, toxicology, basic and applied biomedical sciences and pharmacy administration. Graduates are prepared for positions in industry, research, education and health care settings. Master's students are equipped with the skills to interpret and critically review research and integrate

theoretical knowledge to provide solutions to practical problems.

The Graduate Division of the College of Pharmacy and Allied Health Professions offers the following programs of study leading to the Master of Science degree:

Pharmaceutical Sciences

Specialization in: Biopharmaceutical Technology; Industrial Pharmacy; Medicinal Chemistry; Pharmacology; Pharmacotherapeutics

Pharmacy Administration

Specialization in: Pharmaceutical Marketing; Regulatory Affairs/Quality Assurance

Toxicology

Double Master's Degree Program

This leads to an M.S. in Pharmaceutical Sciences and an M.L.S. in Library Science. This dual master's program is offered in conjunction with the Division of Library and Information Sciences of the St. John's College Graduate Division of Liberal Arts and Science.

Entrance and Degree Requirements

Applicants with strong credentials in the sciences are considered for admission to the master's programs. All applicants to the master's programs must submit scores from the Graduate Record Examination, two letters of recommendation and a statement of goals in support of their application. Other specific requirements depend on the particular degree program chosen by the student. Graduate students who have certain deficiencies in their undergraduate curriculum may be required to enroll in graduate or undergraduate courses to remedy these deficiencies. These remedial courses provide no credit towards the master's degree. Students are notified of the specific requirements upon acceptance into the program.

Program Requirements

Pharmaceutical Sciences

Students who plan to undertake graduate work in the master's programs in pharmaceutical sciences must hold an appropriate baccalaureate degree with a major in pharmacy or in one of the physical, chemical or biological sciences.

For graduate study in pharmaceutical sciences with a specialization in pharmacotherapeutics, a baccalaureate degree with a major in pharmacy, nursing, or physician's assistant is required.

Pharmacy Administration

For graduate study in pharmacy administration with a specialization in pharmaceutical marketing, applicants should possess a baccalaureate degree in pharmacy; however, those possessing a bachelor's degree in other areas are considered. The latter may be required to take certain undergraduate pharmacy administration courses in order to rectify any deficiencies.

The Regulatory Affairs/Quality Assurance Specialization provides comprehensive knowledge for Regulatory Affairs (RA) and Quality Assurance (QA) professionals seeking employment or career advancement in pharmaceutical companies, hospitals, governmental agencies, health care organizations and academia.

Toxicology

Students who plan to undertake graduate work in the master's program in toxicology must hold an acceptable baccalaureate degree with a major in pharmacy or in one of the physical, chemical or biological sciences.

Double Master's Degree Program in Pharmaceutical Sciences and Library Science

Students with an appropriate bioscience background may apply for admission to the double master's program. The M.S. in pharmaceutical sciences is awarded with a specialization in pharmacology.

Degree Options

Two options are offered within most programs leading to the Master of Science degree. The thesis option (Plan A) requires 24 semester hours of coursework (exclusive of prerequisites) and a thesis project for which a minimum of six semester hours of credit are required. Students that are accepted under the thesis option are permitted to take more than 24 semester hours of coursework subject to approval. The non-thesis option (Plan B) requires additional coursework in lieu of the thesis (a minimum total of 33 semester hours of coursework, exclusive of prerequisites). *Students are typically required to complete the degree program option (thesis or non-thesis) for which they have been accepted.*

Degree Requirements

Master of Science Programs

Residency*	One Year
Time Limit on Credit	Five Years
Minimum Credit in Semester Hours:	30 (24 Coursework; 6 Thesis Research)
Thesis Option	Required
Minimum Credit in Semester Hours:	33 to 36
Non-Thesis Option	(Coursework)
Comprehensive Examination	Required (for Plan B)
Graduate Record Examination	Required

* Residency for the Master of Science degree requires completing six credits per semester for two consecutive semesters.

Double Master's Degree Program

Library Science	24 semester hours of credit
Pharmaceutical Sciences (Pharmacology)	21 semester hours
Exchange of credits applied toward the completion of both degrees	12 semester hours
Total	57 semester hours

Doctor of Philosophy Degree

The program in pharmaceutical sciences leading to the Doctor of Philosophy degree prepares graduates for leadership roles in meeting the evolving needs in pharmaceutical and biomedical education, research and industry. The Doctor of Philosophy degree program is offered with areas of specialization in:

- Industrial Pharmacy
- Pharmacology
- Toxicology
- Medicinal Chemistry

Entrance Requirements

An applicant seeking acceptance in the Doctor of Philosophy program must have completed an appropriate baccalaureate or master's degree program. This degree must be in the natural or physical sciences and may include degrees in the pharmaceutical sciences, toxicology, biology or chemistry. Other degree areas are considered on a case by case basis by the Admissions Committee.

- Basic minimum requirements for a student with an undergraduate degree include:
 - a) An undergraduate grade point average of 3.5 or better
 - b) Suitable Graduate Record Examination (General Exam) scores
 - c) Two letters of recommendation

- Basic minimum requirements for a student with a suitable master's degree include:
 - a) A graduate grade point average of 3.0 or better
 - b) Suitable Graduate Record Examination (General Exam) scores
 - c) Two letters of recommendation

Prior to registration, the student must receive written confirmation from the Office of Admission as to the approval of matriculation in the doctoral program. Post-M.S. courses completed prior to acceptance in the Ph.D. program may not be applied toward the Ph.D. degree requirements. The admissions committee may require that certain deficiencies be remedied during the first year of the Ph.D. program. Admission to the doctoral program does not imply advancement to candidacy for the degree. Additional requirements, including satisfactory completion of the core curriculum, passing the comprehensive examination, passing the oral presentation of the research proposal and the establishment of the Ph.D. research committee must be fulfilled before a graduate student may be considered a candidate for a degree. The Ph.D. research committee is responsible for assisting the candidate in his/her research, but the primary responsibility for successfully completing the research and dissertation rests with the candidate.

Students must take PAS 265 Scientific Inquiry: Regulation and Ethical Challenges on a Pass/Fail basis. These credits do not apply toward degree.

Program of Study

The program of study consists of a minimum of 60 semester hours beyond the bachelor's degree or a minimum of 30 semester hours beyond the master's degree, exclusive of prerequisites and dissertation research. The coursework for each student consists of a core curriculum and a specialization curriculum that is determined in consultation with the faculty mentor. In some cases, students may be required to complete more than the minimum number of credits in their area of specialization or a minor field of study in order to make up any deficiencies which may exist.

Curriculum

Core Curriculum:		Credits
PHS 212	Applied Biopharmaceutical Chemistry	3 cr.
or		
IPP 241	Advanced Biopharmaceutics	3 cr.
PAS 252	Biostatistics (industrial pharmacy only)	3 cr.
PHS 251	Seminar in the Pharmaceutical Sciences	0 cr.
PHS 253	Seminar in the Pharmaceutical Sciences	0 cr.
PHS 254	Seminar in the Pharmaceutical Sciences	1 cr.
PAS 256	Pharmaceutical Analysis Laboratory	3 cr.
Total		10 cr.

All core requirements must be completed within the first two years of study. The specific curriculum for a specialization area will be determined in consultation with the doctoral student's faculty mentor.

Degree Requirements

Residency	24 credits or equivalent in a 24-month period (including summer)
Time Limit on Credit	Seven years
Minimum Credit in Semester Hours	15 credits of coursework beyond the M.S. degree plus basic requirements in area of specialty subject to the Doctoral Committee; 45 credits of coursework beyond the baccalaureate degree.
Qualifying/Comprehensive Examination	Required
Graduate Record Examination	Required
Dissertation Research	Minimum of 15 credits of Dissertation Research (PHS 950)

The Research Tool consists of:
FRE 0101, 0102
GER 0101, 0102
MTH 165, 166
or
PAS 265.

Thesis and Dissertation Research

All candidates for the Ph.D. degree must conduct an original laboratory investigation. All master's students electing the thesis option, must conduct an original laboratory, administrative or clinical investigation. The results are reported in the form of a written dissertation that must be presented and defended at an oral examination. All thesis and dissertation candidates must take the appropriate 900 level research course each semester from completion of comprehensive examination requirements up to and including the semester in which the thesis or dissertation is defended. All laboratory research must be conducted at the University, unless explicitly authorized by the Ph.D. or master's committee.

Examinations and Grading

Graduate degree requirements for all programs include a required number of course credits with satisfactory grades indicative of scholarship. All master's students must take and pass a comprehensive examination. However, master's students that are enrolled in the thesis option (Plan A) must satisfy the comprehensive examination requirement by completing a research project and submitting and orally defending the written thesis.* Ph.D. students are required to take and pass a comprehensive examination. Ph.D. students must also complete a research project and submit and successfully orally defend a written dissertation. (Ph.D. students should consult the College Doctoral Handbook for details concerning degree requirements.)

Academic Standing

Students in the graduate programs are required to receive at least a "B" grade in all courses. If a student receives a grade of less than a "B", or their G.P.A. falls below 3.0, the student's program will automatically become subject to review. Such a review may result in academic dismissal. Master's students who receive more than two grades less than "B" are typically considered for academic dismissal. Ph.D. students who receive more than one grade less than "B" are typically considered for academic dismissal. Ph.D. students should consult the College doctoral handbook for details concerning academic status review and dismissal.

*M.S. students should consult the M.S. candidate handbook for further details.

Department of Pharmacy Administration and Allied Health Sciences (PAH)

Program of Study

The objective of the Department of Pharmacy Administration and Allied Health Sciences is to prepare a student who is interested in specializing in the area of Pharmaceutical Marketing or Regulatory Affairs/Quality Assurance to demonstrate and communicate the quality and value of pharmaceutical/health care products and services in a competitive environment, while building the foundations for a career track in marketing, outcomes research, pharmaceutical regulations, and quality assurance. A successful student is then able to pursue employment in his or her chosen field and become a leader or seek career advancement in pharmaceutical industry, hospital, academia, government, research, and health care organization.

Courses

PAS 204 Public and Private Health Care Systems

This course provides a working knowledge of those factors implicated in affecting the efficiency, access and quality of the U.S. health care delivery system. Lecture. *Credit: 3 semester hours.*

PAS 211 Introduction to Pharmaceutical Marketing

This course covers topics including the modern pharmaceutical industry; the nature of pharmaceutical products; ad factors affecting marketing of pharmaceutical products. The U.S. pharmaceutical market is the focus for studying the above aspects. Lecture. *Credit: 3 semester hours.*

PAS 212 Pharmaceutical Promotion

This course deals with the theoretical, practical and unique aspects and issues in pharmaceutical promotion. Lecture. *Credit: 3 semester hours.*

PAS 213 Research Methods in Health Care Marketing

Prerequisite: PAS 252 or equivalent. This required course allows the student to understand the fundamental nature of the scientific approach to conducting research. Lecture. *Credit: 3 semester hours.*

PAS 214 Management in the Health Care Industries

Management policies and procedures of those institutions organized to deliver health care services and related products to the consumer. *Credit: 3 semester hours.*

PAS 215 Foundations of Regulatory Affairs

This course provides the student with an understanding of the laws, regulations and procedures of federal and state guidelines that affect drugs and medical devices during their development, production and distribution stages. Lecture. *Credit: 3 semester hours.*

PAS 216 Consumer Behavior in Purchasing Drug Products

Sociological, psychological and anthropological factors affecting consumer buying tendencies. *Credit: 3 semester hours.*

PAS 217 Retail Pharmacy Management

This course deals with the theoretical and practical aspects of the activities involved in the retailing of pharmaceutical goods and services—specifically with respect to the places, times, prices and quantities that enable a retailer to reach its goals. Lecture. *Credit: 3 semester hours.*

PAS 218 Contemporary Administrative Principles

The evaluation of contemporary administrative concepts; the essentials of the planning, organizing, coordinating and controlling processes; and the techniques of interviewing, communicating, motivating and establishing performance criteria are explored in this course. Lecture. *Credit: 3 semester hours.*

PAS 219 Health Outcomes Assessment

The course is designed to provide a comprehensive review of health technology evaluation and health status assessment in the appraisal of health outcomes and therapeutic effectiveness in patient care. Lecture. *Credit: 3 semester hours.*

PAS 220 Global Pharmaceutical Marketing

Prerequisite: PAS 211 or equivalent. This course covers the global pharmaceutical market and the economic, legal, cultural, political and competitive environment in which the global pharmaceutical market operates. *Credit: 3 semester hours.*

PAS 252 Biostatistics

Prerequisites: Undergraduate chemistry or biology and mathematics. Statistical methods used in drug evaluation. While principal emphasis is placed on animal studies, evaluation of techniques applicable to chemistry and pharmacy are also covered. *Credit: 3 semester hours.*

PAS 256 Principles of Experimental Design

Prerequisite: Undergraduate courses in biological and chemical sciences. This course is designed to develop competencies necessary to solve complex biological problems with efficient experiments using small sample size. Lecture. *Credit: 3 semester hours.*

PAS 260 Basic Concepts of Drug Development

This course is designed to study the modern drug development process in the pharmaceutical industry from drug discovery up to the Submission of NDA for FDA approval. *Credit: 3 semester hours.*

PAS 261 Foundations of GXP

This course introduces the fundamental concepts of GLP, GCO and GMP. It explores basic regulatory and quality assurance issues pertinent to pre-clinical safety research. *Credit: 3 semester hours.*

PAS 262 Regulatory Submissions and the Drug Approval Process

This course covers the development of IND and NDA submissions or FDA review. In addition, the most recently revised regulations governing IND, NDA, SNDA and ANDA are discussed as they relate to facilitation of the review process. *Credit: 3 semester hours.*

PAS 263 Generic Drug Regulation

Prerequisite: PAS 215. This course studies the FDA's regulations on generic drug manufacturing, clinical trial, application preparation and submission and marketing. It covers related guidance documents, policies, requirements and general procedures. *Credit: 3 semester hours.*

PAS 264 Advanced Food and Drug Law Regulation

Prerequisite: PAS 215. This course develops an in-depth understanding of the laws governing food and drugs. This course focuses on the laws and regulations promulgated by the federal government, especially the Food and Drug Administration, related to drug development, manufacturing marketing and distribution. *Credit: 3 semester hours.*

PAS 265 Scientific Inquiry: Regulation and Ethical Challenges

This course considers the nature of the scientific enterprise and both the legal and ethical restrictions placed on its methods and products by the government through imposition of regulation and society at large through moral suasion. *Credit: 3 semester hours.*

PAS 266 Bio-Pharmaceutical Statistics-II

Prerequisites: PAS 252 or equivalent. This course will provide the student with explanation of the approaches and solutions to commonly encountered statistical problems, with examples that are relevant to scientists involved in pharmaceutical and related research. *Credit: 3 semester hours.*

PAS 267 Post Approval Affairs

This course reviews FDA guidelines for Scale Up Post Approval changes (SUPAC) developed by the Center for Drug Evaluation and Research (CDER). The FDA guidelines, published workshop reports and applicable scientific literature will be discussed. *Credit: 3 semester hours.*

PAS 268 Good Manufacturing Practices

This course will provide the students with a comprehensive understanding of the requirements described in the Food and Drug Administration's (FDA) regulations on GMPS as they pertain to pharmaceutical drugs and medical devices. *Credit: 3 semester hours.*

PAS 269 Good Laboratory Practices

Prerequisite: PAS 261 Foundations of GXP This course is designed to provide an understanding of the regulatory requirements for designing, conducting, auditing, and reporting pre-clinical laboratory studies in support of research or marketing applications. It will explore the regulations and guidelines set forth by the US Food and Drug Administration (FDA), the European Union (EU) and other significant national regulations. *Credit: 3 semester hours.*

PAS 272 Process Validation

This course will provide the students with an understanding of the scientific principles and regulatory requirements for pharmaceutical companies that are legally mandated to validate their manufacturing processes. *Credit: 3 semester hours.*

PAS 275 Good Clinical Practices

Prerequisite: PAS 261 Foundations of GXP This course is designed to provide an understanding of the quality standards for designing, conducting, recording, and reporting clinical trials. It will explore the regulations and guidelines set forth by the U.S. Food & Drug Administration (FDA) and the International Conference on Harmonization (ICH) and briefly cover the impact of the European Union (EU) Clinical Trial Directive. *Credit: 3 semester hours.*

PAS 276 International Drug Regulatory Affairs

This course provides a detailed analysis of the regulatory processes for new drug and device approvals outside of the United States. Students will gain experience in comparing the European, Canadian, Japanese, Asian and South American registration trends with those of the United States. Future regulatory structures in the major world markets will also be explored. *Credit: 3 semester hours.*

PAS 277 Product Labeling

This course will examine strategies for creating drug labels and product labeling for new drugs and for dealing with labeling issues generated by post-marketing surveillance activities and alterations in federal Regulation or guidance. Students will gain insight into the regulatory process and the enforcement process of the FDA for drug, biologic, device, dietary supplement and cosmetic labeling. International labeling issues will be addressed as they impact on harmonization. *Credit: 3 semester hours.*

PAS 900 Master's Research

Supervised research leading to the preparation and completion of a thesis in partial fulfillment of the master's degree requirements. All master's candidates must register for this course until thesis is completed in order to satisfy research requirements. Although students may register for more than six hours, no more than six credits may be applied towards the degree. *Credit: 3-6 hours per semester. Current laboratory fee each semester.*

PAS 925 Maintaining Matriculation – Master's

All master's students who are not registered for any other courses must maintain enrollment in the University by registering for this course. Eligibility for thesis option students is typically limited to students who have satisfied all research and degree requirements but have not completed the written and oral components of the thesis. Thesis option students must have written approval from their advisor, department chairman and permission from the graduate dean to register for this course. *No credit. Current fee each semester.*

Department of Pharmaceutical Sciences (PHS)

Program of Study

The Department of Pharmaceutical Sciences is committed to educating research scientists for educational, governmental and industrial institutions. The program is designed to provide the student with critical learning skills, research expertise and a fundamental knowledge base that enables scientists to remain current with scientific literature, to carry out laboratory investigations and to analyze research findings. Students will acquire the necessary skills in a chosen area of concentration (industrial pharmacy, medicinal chemistry, physiology, toxicology, pharmacology and biopharmaceutical technology) that are essential to enable them to assume leadership positions in the pharmaceutical and biomedical sciences.

Courses

IPP 101 Special Problems in Industrial Pharmacy

Prerequisite: Completion of 12 course credits. Laboratory and/or fieldwork in area of specialization in institutional, hospital, cosmetic or industrial pharmacy. *Credit:* 3 semester hours. *Current laboratory fee . Every semester.*

IPP 224 Microbiological Aspects of Pharmaceuticals and Cosmetics

The course starts with a review of the classification of microorganisms including structure, physiology, variability and immunological phenomena. *Lecture. Credit:* 3 semester hours.

IPP 225 Formulation of Aerosol Products

A consideration of the principles in the formulation and development of all types of aerosol products. Solution, dispersion, emulsion, semi-solid and powder systems are studied in conjunction with their application to pressurized packaging. *Lecture. Credit:* 3 semester hours.

IPP 231 Principles of Manufacturing Pharmacy I

Prerequisites: PHS 3601 and PHS 3603 or equivalent. A study of the process and equipment employed in the manufacture of solid pharmaceuticals. Operations on a pilot plant scale are utilized to demonstrate the common types of industrial equipment. *Lecture and laboratory. Credit:* 3 semester hours.

IPP 231L Laboratory for Principles of Manufacturing Pharmacy I

Credit: 3 semester hours; 1 credit hour. *Laboratory fee \$135.*

IPP 232 Pharmaceutical Engineering

Considerations of the working mechanisms of manufacturing equipment used in the production of pharmaceutical drug products. Particular emphasis is placed on what quality assurance personnel should check during pharmaceutical manufacturing. *Lecture. Credit:* 3 semester hours.

IPP 233; Industrial Pharmacy Journal Club

Prerequisites: PHS 3601, PHS 3603 and PHS 4303 or equivalent. This course is composed of research seminars for graduate students pursuing a M.S./Ph.D. degree in Industrial Pharmacy in which discussion will focus on interpretation, analysis and critical evaluation of research data in published research articles and unpublished research data generated by the graduate students during their dissertation research. *Credit:* 2 semester hours.

IPP 234 Pharmaceutical Materials

A study of the raw materials employed in the preparation of dosage forms. *Credit:* 3 semester hours.

IPP 235; 235L Product Formulation

Prerequisites: PHS 3601 and PHS 3603 or equivalent. A study of the formulation and stability testing of dosage forms. *Lecture and laboratory. Credit:* 4 semester hours. *Current laboratory fee .*

IPP 236 Evaluation of Pharmaceutical Dosage Forms

Prerequisites: PHS 3601 and PHS 3603 or equivalent. Physical and physiochemical procedures used to evaluate pharmaceutical dosage forms are discussed. Factors affecting drug release from pharmaceutical products are covered along with in vitro and in vivo procedures for assessing drug absorption efficiency. *Lecture. Credit:* 3 semester hours.

IPP 237 Industrial Pharmacy

Prerequisites: PHS 3601 and PHS 3603 or equivalent. The basics of pharmaceutical processing and unit operations including both theory and practice of all the major operations underlying pharmaceutical production. *Lecture. Credit:* 3 semester hours.

IPP 238 Principles of Quality Assurance: Control and Government Regulations

This course reviews the scope and function of quality in the pharmaceutical industry. Important legislation and the regulatory aspects of the Food and Drug Administration are considered with respect to quality control. *Credit:* 3 semester hours.

IPP 239 Homogeneous Pharmaceutical Systems

Prerequisite: PHS 3601 or equivalent. Application of selected physicochemical principles to homogeneous pharmaceutical systems. *Credit:* 3 semester hours.

IPP 240 Heterogeneous Pharmaceutical Systems

Prerequisite: PAS 3103 or equivalent. Application of selected physicochemical properties to heterogeneous pharmaceutical systems. *Credit:* 3 semester hours.

IPP 241; 242 Advanced Biopharmaceutics I; II

Prerequisite: PAS 5201 or PAS 4304; IPP 241 is a prerequisite for IPP 242. A study is made of optimized drug delivery systems for various routes of administration based on biopharmaceutical and pharmacokinetic considerations. *Credit:* 3 hours per semester.

IPP 245 Evaluation of Solid and Semi-Solid Dosage Forms and Processes

Physical and physiochemical procedures used in the evaluation of powders, tablets, lozenges, capsules, ointments, pastes, creams, gels and suppositories are covered along with in vitro and in vivo procedures for assessing drug absorption efficacy. *Lecture. Credit:* 3 semester hours.

IPP 246 Evaluation of Liquid Dosage Forms and Processes

Physical and physiochemical procedures used in the evaluation of sterile products, emulsions, suspensions, solutions and aerosols are covered. Principles of good manufacturing practices are discussed. *Lecture. Credit:* 3 semester hours.

IPP 247 Special Drug Delivery Systems

Prerequisites: PHS 3601 and PHS 3603 or equivalent. Considerations involved in the development and formulation of sustained and controlled release drug delivery systems are discussed. *Lecture. Credit:* 3 semester hours.

IPP 248 Principles of Manufacturing Pharmacy II

Prerequisite: IPP 231 or equivalent. A study of the process and equipment employed in the manufacture of liquid pharmaceuticals. Operations on a pilot plant scale are utilized to demonstrate the common types of industrial equipment. *Lecture and Laboratory. Credit:* 4 semester hours. *Current laboratory fee.*

IPP 250 Targeted Drug Delivery Systems

Prerequisites: PHS 3601, 3603 and PAS 5201 or equivalent. This elective is designed to focus on different concepts and strategies involved in the design and development of targeted drug delivery systems to different organs and/or sites. *Credit:* 3 semester hours.

IPP 251 Ocular Drug Delivery

Prerequisites: PHS 3601, 3603 and PAS 5201 or equivalent. This elective is designed to introduce the student to anatomy and physiology of the eye with a review of the current status of ophthalmic drugs followed by the considerations involved in the design, development, formulation and evaluation of ophthalmic drug delivery systems. *Credit:* 3 semester hours.

IPP 255 Biotechnological Drug Delivery Systems

Prerequisite: Undergraduate course in biological and chemical sciences. This course is designed to focus on various physicochemical, biological and pharmaceutical concepts and strategies involved in the design and development of invasive (parenteral) and noninvasive drug delivery systems for biotechnological drug molecules such as proteins and peptides. *Lecture. Credit:* 3 semester hours.

IPP 271 Degradation and Stability of Pharmaceutical Systems

Prerequisites: PHS 3601 and PHS 3603 or equivalent. This course involves study of physical and chemical factors affecting stability of drugs in pharmaceutical dosage forms and approaches to enhance their stability and shelf-life. *Credit:* 3 semester hours.

IPP 273 Pharmacokinetic and Pharmacodynamic Data Analysis

Prerequisites: IPP 241 or equivalent. This course is designed to develop a basic understanding of the pharmacokinetic and pharmacodynamics

concepts and their model applications governing the time course of drug absorption, distribution and elimination as well as drug action. *Credit: 3 semester hours.*

MCM 101 Special Problems

Prerequisite: Completion of 12 graduate course credits. Laboratory and/or fieldwork in Medicinal Chemistry. Credit: 3 semester hours.

MCM 205 Amino Acids, Peptides and Proteins

Prerequisites: Strong background in chemistry or biochemistry. Synthesis of biologically active peptides, molecular modification and biologically active relationship of peptide hormones. Secondary structure of proteins and modes of substrate binding. *Credit: 3 semester hours.*

MCM 206 Antibiotics and Steroidal Drugs

Prerequisites: Undergraduate biological and chemical sciences. Structurally active relationships and biogenetic origins of important categories of antibiotics are considered. Nomenclature, biosynthesis, partial synthesis and structurally active relationships of cholesterol, gluco, mineralo-corticoids, sex hormones, oral antifertility agents and cardiac glycosides are considered. *Credit: 3 semester hours.*

MCM 223 Design of Nucleoside Analogs

Prerequisite: Undergraduate medicinal chemistry or equivalent. The chemistry of nucleic acids, nucleotides, nucleosides, purine and pyrimidines is discussed with respect to their structures, syntheses and properties. *Credit: 3 semester hours.*

MCM 224 Design of Enzyme Inhibitors

Prerequisite: Undergraduate medicinal chemistry or equivalent. The modification of proteins or protein activity by irreversible binding of drugs and other small chemical molecules is discussed. *Credit: 3 semester hours.*

MCM 231 Medicinal Chemistry Journal Club

Prerequisite: PHS 102; 103 or TOX 102; 103 or equivalent. Seminar for graduate students in pharmaceutical sciences in which discussions focus on published experimental results with a view toward evaluation of methodology and a presentation of data. Participation by graduate faculty and students. *Credit: 2 semester hours.*

MCM 245 Laboratory Use of Radiotracers

Prerequisite: Undergraduate biological and chemical sciences. A course designed to present the fundamentals of the use of radiotracers in the modern laboratory. Emphasis is placed on safety, experimental design and the variety of special techniques in use today in pharmaceutical research. *Credit: 3 semester hours.*

MCM 248 Receptors and Mechanism of Drug Action

Prerequisites: Undergraduate biological and chemical sciences. Discussion is focused on the concept and theories of receptors as an explanation for drug action and design of new therapeutic agents. Special emphasis is placed on the mechanism of action and drug interac-

tion with important categories of drugs. *Credit: 3 semester hours.*

MCM 255 Chemical Aspects of Drug Metabolism

Prerequisite: Undergraduate Medicinal Chemistry or equivalent. A detailed discussion of drug metabolizing enzyme systems and reactions. The relationship between chemical structure and drug metabolism is particularly emphasized. Drug metabolism related toxicity is also considered. *Credit: 3 semester hours.*

MCM 263 Laboratory in Analysis of Biomacromolecules

A course designed to present the fundamentals of the use of modern analytical techniques for the identification and isolation of biomacromolecules. Emphasis is placed on protein purification methods. *Credit: 3 semester hours.*

MCM 265; 266 Principles of Drug Design I; II

Prerequisite: Undergraduate medicinal chemistry or equivalent. Required course designed to present an overview of the basic principles involved in medicinal chemistry. *Credit: 3 semester hours.*

PHM 101 Special Problems

Prerequisites: At least 12 credits of graduate courses. Conferences on specialized topics accompanied by laboratory work in pharmacology, medicinal chemistry. *Credit: 3 semester hours. Current laboratory fee:*

PHM 102; 103 Principles of Pharmacology I; II

Prerequisites: Undergraduate biological and chemical sciences. PHS 102 is prerequisite for 103. Introduction to the science of pharmacology with emphasis on the basic principles. There is in-depth consideration of the factors modifying drug responses and dose-response relationships. *Credit: 3 semester hours. (No credit applied toward graduate degree.) Cf. PHS 4301 and 4303.*

PHM 201 Pharmacology of the Autonomic Nervous System

Prerequisites: PHM 102; 103 or equivalent. An overview of the established pharmacology of the autonomic nervous system is presented as well as a comparison with the pharmacology of the somatic nervous system. *Credit: 3 semester hours.*

PHM 202 Advanced Pharmacology

Prerequisites: PHM 102, 103 or equivalent. A detailed discussion of therapeutic uses and drug mechanisms in pharmacology therapeutics, excluding the nervous system. Emphasis is placed on the clinical use of selected classes of drugs. *Credit: 3 semester hours.*

PHM 203 Research Methods in Pharmacology

Prerequisites: PHS 102, 103 or equivalent. This course intends to introduce the student to select in vivo and in vitro techniques used in quantitative evaluation of pharmacological agents. *Credit: 3 semester hours. Current laboratory fee.*

PHM 209 Pharmacological Aspects of Respiratory Disease

Prerequisite: PHS 102; 103 or equivalent. Pulmonary physiology will be reviewed; anatomy and the process of respiration, gas exchange, control of respiration and acid base balance will be included. The anatomical, physiological and biochemical basis of respiratory disease (or pathology) will be discussed. *Credit: 3 semester hours.*

PHM 211 Biochemical Neuropharmacology

Prerequisites: PHS 102, 103 or equivalent. The biochemical bases of the action of drugs in the nervous system are examined. The molecular and biochemical pharmacology of the acute and chronic effects of a wide range of pharmacologic agents are examined and new techniques and findings are discussed. *Credit: 3 semester hours.*

PHM 216 Applied Psychopharmacology

Prerequisite: PHM 102; 103 or equivalent. This course provides an introduction to the neuropharmacological bases of behavior and drugs used to treat behavior disorders. The role that specific neurochemical systems play in regulating behavior is considered and discussed. The molecular, biochemical and behavioral mechanism of action of many psychotropic drugs is covered. *Credit: 3 semester hours.*

PHM 221 Clinical Pharmacology

Prerequisites: PHS 102; 103 or equivalent. Discussion and demonstration of the clinical basis for the therapeutic application of drugs. Toxicity and adverse reactions are considered. Case material from actual patient populations is used to illustrate and support this information. *Credit: 3 semester hours.*

PHM 232 Pharmacology Journal Club

Prerequisite: PHS 102; 103 or TOX 102; 103 or equivalent. Seminar for graduate students in pharmaceutical sciences in which discussions focus on published experimental results with a view toward evaluation of methodology and a presentation of data. Participation by graduate faculty and students. *Credit: 2 semester hours.*

PHM 240 Pharmacology of Anticancer Drugs

Prerequisites: PHM 102; 103 or equivalent. This course is designed to instruct the students in the area of Pharmacology of anticancer drugs. This course covers the following aspects of anticancer drugs: mechanisms of action; critical pharmacokinetic parameters and drug-drug interactions; adverse reactions and toxicity. *Credit: 3 semester hours.*

PHM 249 Cardiovascular Pharmacology

Prerequisites: PHS 102; 103 or equivalent. The course considers the mechanism of action of myocardial stimulants and depressants as well as anti-arrhythmic drugs. *Credit: 3 semester hours.*

PHS 212; 213 Applied Biochemistry I; II

Prerequisite: Undergraduate biochemistry. PHS 212 is prerequisite for PHS 213. A course dealing with those aspects of biochemistry of special relevance to students of the health sciences. Emphasis is placed on fundamental metabolic cycles and processes and on biochemical concepts needed to understand drug action and metabolism, biogenetic pathways and various disease states. *Credit: 3 hours per semester.*

PHS 239 Functional Neuroanatomy and Neuropathology

Prerequisites: Undergraduate anatomy and physiology. This course instructs the student in the anatomy and physiology of the central and peripheral nervous systems and describes the processes by which these systems undergo pathological change. *Credits: 3 semester hours.*

PHS 240 Principles of Electron Microscopy

Prerequisites: Undergraduate biological and/or biochemical sciences. *Corequisite:* PHS 240L. This course is intended to instruct the student in the basic techniques of electron microscopy. It also describes the analytical methods used to identify various biological systems. *Credit: 3 semester hours.*

PHS 240L Electron Microscopy Laboratory

Corequisite: PHS 240. This course instructs the student in the preparation of tissue for electron microscopy and the interpretation and analysis of electron micrographs. *Current fee. Credit: 3 semester hours; 1 credit hour.*

PHM 246 Pharmacology of Drug Abuse

Prerequisite: PHS 102; 103 or equivalent. A study of the various chemical agents of dependence with in-depth consideration of the mechanisms and nature of the chemical agents involved in this phenomenon. *Credit: 3 semester hours.*

PHM 247 Reproductive Pharmacology

Prerequisites: PHS 102; 103 or equivalent. A consideration of the effect of drugs on the reproductive system during the periods of development, maturation and aging. *Credit: 3 semester hours.*

PHS 250 Cell and Tissue Culture

Student is acquainted with cell culture technology as well as biochemical and biophysical characteristics and capabilities of mammalian cells in culture. *Credit: 3 semester hours.*

PHS 250L Cell and Tissue Culture Laboratory

Co-requisite: PHS 250. This course is the laboratory component of PHS 250. Hands-on laboratory experiments in cell culture technology are performed by the students. The objective of the laboratory assignments is to expose the student to the biological, biophysical, and toxicological characteristics of mammalian cells in culture. *Credit: 1 semester hour. Current laboratory fee.*

PHS 251 Doctoral Seminar in the Pharmaceutical Sciences I

A monthly seminar of two hours for all students pursuing the Ph.D. The seminar consists of scheduled presentations given by scholars in the pharmaceutical sciences. *8 hours per semester. Credit: No credit.*

PHS 252 Doctoral Seminar in the Pharmaceutical Sciences II

A monthly seminar of two hours for all students pursuing the Ph.D. The seminar consists of scheduled presentations given by scholars in the pharmaceutical sciences. *8 hours per semester. Credit: No credit.*

PHS 253 Doctoral Seminar in the Pharmaceutical Sciences III

A monthly seminar of two hours for all students pursuing the Ph.D. The seminar consists of scheduled presentations given by scholars in the pharmaceutical sciences. *8 hours per semester. Credit: No credit.*

PHS 254 Doctoral Seminar in the Pharmaceutical Sciences IV

Prerequisites: PHS 251, 252, 253. A monthly seminar of two hours for all students pursuing the Ph.D. The seminar consists of scheduled presentations given by scholars in the pharmaceutical sciences. *8 hours per semester. Credit: 1 credit will be given upon submission of an acceptable paper to the seminar Chair.*

PHS 256 Pharmaceutical Analysis Laboratory

Prerequisite: A course or experience in chemical analysis. A detailed discussion of the basic principles of pharmaceutical analysis. Special emphasis is placed on the selection and development of qualitative and quantitative methodology for the analysis of drug molecules in a variety of sample environments. *Credit: 3 semester hours.*

PHS 257 Gene Technology in the Pharmaceutical and Health Sciences

Prerequisite: Undergraduate biochemistry or the equivalent. Course presents the basic mechanism underlying the expression of the information encoded in the DNA: transcription, translation and replication. *Credit: 3 semester hours.*

PHS 259 Cell Signals and Regulatory Systems

A course covering the elements of regulation at the level of the cell. The intracellular events of signaling, i.e., post-receptor events, are the focus. *Credit: 3 semester hours.*

PHS 260 Clinical Immunology

A detailed discussion of the basic concepts of immunology, immunity and immuno-pathology. Special emphasis is placed on the aspects of clinical immunology with reference to the theory which underlies laboratory tests and methods of procedure. *Credit: 3 semester hours.*

PHS 261 Laboratory in Gene Technology for the Pharmaceutical and Allied Health Professions

The use of modern databases to mine known information and synthesize new conclusions from combined resources is used as a starting point. The class is divided into groups, each working with a different protein or a mutant of the target protein. *Credit: 1 semester hour.*

PHS 264 Analysis of Cell Structure and Function

A study of cell structure and function including discussions of membrane transport, respiration, cell division and cell motility. Additional topics include enzyme function. DNA, RNA and protein synthesis and their control. Discussion of methods of cell study will be incorporated in specific lecture topics, i.e., membranes, and in laboratory sessions. *Credit: 3 semester hours.*

PHS 264L Analysis of Cell Structure and Function Laboratory

Co-requisite: PHS 263. Laboratory component of PHS 264. *3 semester hours. Credit: 1 credit hour. Current laboratory fee.*

PHS 270 Introduction to Biotechnology

This course discusses the basic mechanisms underlying the expression of information encoded in the DNA, i.e., transcription, translation and replication. *Credit: 3 semester hours.*

PHS 271 Oxidants, Antioxidants and Free Radicals

The involvement of free radicals/reactive oxygen species (ROS) in the pathogenesis of a wide variety of human diseases has been increasingly recognized over the last two decades. *Credit: 3 semester hours.*

PHS 278 Human Physiology

An examination of the principles of human physiology, starting with cellular physiology principles such as membrane transporters and action potentials, and covering several of the key topics of physiology: endocrine, neural, muscle, cardiovascular, respiratory, gastrointestinal, and renal. *Credit: 3 semester hours.*

PHS 900 Master's Research

Supervised research leading to the preparation and completion of a thesis in partial fulfillment of the master's degree requirements. All master's candidates must register for this course until research is completed in order to satisfy research requirements. Although students may register for more than six hours, no more than six credits may be applied toward the degree. *Credit: 3–6 hours per semester. Current laboratory fee.*

PHS 925 Maintaining Matriculation—Master's

All master's students who are not registered for any other courses must maintain enrollment in the University by registering for this course. Eligibility for thesis option students is limited to students who have satisfied all research and degree requirements but have not completed the written and oral compo-

nents of the thesis. Thesis option students must have written approval from their advisor, department chairman and permission from the graduate dean to register for this course. *No credit. Fee: \$100 per semester.*

PHS 940 Maintaining Matriculation—Ph.D.

Ph.D. students must maintain matriculation if they are not registered for courses or have not yet passed their comprehensives. Limit: 2 semesters. *No credit. Current fee.*

PHS 950 Doctoral Research

Original research leading to the doctoral degree. Doctoral students may register for 950 while completing degree requirements; however, upon the successful completion of formal courses, language requirement and comprehensive examination, doctoral candidates must register for PHS 950 until the dissertation is completed and the degree is awarded. *Credit: 3 semester hours. Current laboratory fee.*

TOX 101 Special Problems

Prerequisite: At least 12 credits of graduate courses. Conferences on specialized topics accompanied by laboratory work in toxicology. *Credit: 3 semester hours. Current laboratory fee.*

TOX 102; 103 Toxicology I; II

Prerequisite: Undergraduate chemical or biological sciences. TOX 102 is a prerequisite for 103. The source, chemical composition action, tests and antidotes of toxic substances. First semester consideration is given to materials of inorganic origin; second semester is devoted to substances of organic nature, both natural and synthetic in origin. Lecture. *Credit: 3 semester hours. No credits applied toward graduate degree. Cf. PHS 2401; 2402.*

TOX 201 Methods in Toxicologic Evaluation

Prerequisite: TOX 102; 103 or equivalent. Experimental toxicology and pathology deals with the variety of experimental methods utilized to determine the safety and toxicity of materials administered by mouth, applied topically to the skin or mucous membranes, or administered by inhalation of gasses or aerosols. *Credit: 3 semester hours.*

TOX 205 Neurotoxicology

Prerequisite: TOX 102 and 103 or equivalent. This course examines the various classes of neurotoxins, their mechanism of toxicity and experimental models used to assess neurotoxic mechanisms. *Credit: 3 semester hours.*

TOX 207 Recent Advances in Forensic Toxicology

Prerequisites: TOX 102 and 103 or equivalent. A survey emphasizing recent developments in the field of forensic toxicology. Emphasis is placed on documentation and interpretation of analytical results. *Credit: 3 semester hours.*

TOX 209 Recent Advances in Clinical Toxicology

Prerequisites: TOX 102; 103 or equivalent. A survey of current literature, emphasizing recent advances in clinical toxicology. *Credit: 3 semester hours.*

TOX 210 Biochemical Toxicology

Prerequisites: TOX 102, 103 or PHS 102, 103 or equivalent and undergraduate biochemistry or equivalent. An advanced study of the biochemical principles and mechanisms underlying the toxicity of xenobiotics at the cellular level. Biotransformation pathways and the subcellular toxicity of selected toxicants are examined in depth. *Credit: 3 semester hours.*

TOX 215 Analytical Methods in Toxicology

Prerequisites: TOX 102; 103 or equivalent. This course considers methods of specimen and sample preparations and extraction and analytical chemical techniques used to solve problems confronting the analytical toxicologist. *Credit: 3 semester hours.*

TOX 216 Environmental and Occupational Toxicology

Prerequisites: TOX 102; 103 or equivalent. The chemical and regulatory aspects of environmental and occupational hazards are presented, with an overview of methods in epidemiology and risk assessment. *Credit: 3 semester hours.*

TOX 217 Toxicology of the Hematopoietic and Immune System

Prerequisites: TOX 102; 103 or equivalent. Focuses upon the effects of toxic substances on hematologic and immunologic function. *Credit: 3 semester hours.*

TOX 218 Pathophysiology of Organ Systems (CPP 304)

Prerequisite: Undergraduate Anatomy and Physiology. This course is designed to explain the abnormal physiological processes which result when normal metabolic functions are disturbed. Mechanisms of normal function are described as well as the resulting effect of altered homeostasis. *Credit: 3 semester hours.*

TOX 219 Molecular Toxicology

Prerequisites: TOX 102, 103; PHS 102, 103 or equivalent. This is an advanced study of the specific molecular, biochemical and cellular mechanisms of toxic injury. *Credit: 3 semester hours.*

TOX 221 Hematologic Pathology

Prerequisite: General Physiology. A study of the hematopoietic system. Topics covered include anemias, leukemias, coagulation defects with consideration of etiology, physiologic and cellular manifestations and therapeutic modalities. *Credit: 3 semester hours.*

TOX 222 Cellular Pathophysiology

Prerequisite: Undergraduate Anatomy and Physiology. This course is designed to explain the cellular response to injury. Molecular, biochemical and organelle pathology is discussed in relation to normal cell function. *Credit: 3 semester hours.*

TOX 230 Toxicology Journal Club

Prerequisite: PHS 102; 103 or TOX 102; 103 or equivalent. Seminar for graduate students in pharmaceutical sciences in which discussions focus on published experimental results with a view toward evaluation of methodology and a presentation of data. Participation by graduate faculty and students. *Credit: 2 semester hours.*

TOX 900 Master's Research

Supervised research leading to the preparation and completion of a thesis in partial fulfillment of the master's degree requirements. All master's candidates must register for this course until research is completed in order to satisfy research requirements. Although students may register for more than six hours, no more than six credits may be applied towards the degree. *Credits: 3–6 semester hours. Current laboratory fee.*

TOX 925 Maintaining Matriculation

All master's students who are not registered for any other courses must maintain enrollment in the University by registering for this course. Eligibility for thesis-option students is limited to students who have satisfied all research and degree requirements but have not completed the written and oral components of the thesis. Thesis-option students must have written approval from their advisor, department chairman and permission from the graduate dean to register for this course. *Current fee.*

For complete listing of approved courses, please contact your Dean's office.

Department of Clinical Pharmacy Practice

Ebtesam Ahmed, *Assistant Clinical Professor*, Pharm.D., St. John's University; Palliative care.

Emily M. Ambizas, *Associate Clinical Professor*, B.S., Phm., Pharm.D., St. John's University; Ambulatory care.

Vibhuti Arya, *Assistant Clinical Professor*, Pharm.D., St. John's University; Public Health.

Laura M. Gianni Augusto, *Assistant Dean and Associate Clinical Professor*, B.S. Phm., Pharm.D., St. John's University; Drug information.

Carmela Avena-Woods, *Assistant Clinical Professor*, Pharm.D., St. John's University; Community pharmacy.

Judith L. Beizer, *Clinical Professor*, B.S. Phm., St. Louis College of Pharmacy; Pharm.D., University of Tennessee; Geriatric therapeutics.

Joseph M. Brocavich, *Associate Dean and Associate Clinical Professor*, B.S. Phm., Philadelphia College of Pharmacy and Science; Pharm.D. Duquesne University; HIV Pharmacotherapy, Infectious diseases; pharmacoconomics; curricular design; leadership development.

Manouchkathe Cassagnol, *Assistant Clinical Professor*, Pharm.D., Florida Agricultural and Mechanical University; Internal medicine.

John Conry, *Assistant Dean and Associate Clinical Professor*, B.S. Phm., Pharm.D., St. John's University; Ambulatory care.

Gladys M. El-Chaar, *Associate Clinical Professor*, B.A., East Stroudsburg University; B.S. Phm., St. John's University; Pharm.D., Medical University of South Carolina; Pediatric therapeutics.

Joseph V. Etzel, *Assistant Dean and Associate Clinical Professor*, B.S. Phm., Pharm.D., St. John's University; Infectious disease pharmacotherapy.

Danielle C. Ezzo, *Associate Clinical Professor*, B.S. Phm., Pharm.D., St. John's University; Ambulatory care.

Regina Ginzburg, *Associate Clinical Professor*, B.S. Phm., Pharm.D., St. John's University; Ambulatory care.

James Gugger, *Assistant Clinical Professor*, Pharm.D., The State University of New Jersey at Rutgers; Psychotherapeutics.

Olga Hilas, *Associate Clinical Professor*, B.S. Phm., Pharm.D., St. John's University; Internal medicine.

MaryAnn Howland, *Clinical Professor*, B.S., Wake Forest University; B.S. Phm., Rutgers University; Pharm.D., Philadelphia College of Pharmacy and Science; Clinical toxicology; poison control expertise, clinical toxicological management; emergency medicine pharmaceutical care.

Gregory J. Hughes, *Assistant Clinical Professor*, Pharm.D., St. John's University; Internal medicine.

Tomasz Jodlowski, *Assistant Clinical Professor*, Pharm.D., St. John's University; Infectious diseases.

Tina Kanmaz, *Associate Clinical Professor*, B.A., Hofstra University; B.S. Phm., Pharm.D., St. John's University; Ambulatory care.

Sum Lam, *Associate Clinical Professor*, B.S. Phm., Pharm.D., University of Connecticut; Geriatric Therapeutics.

William M. Maidhof, *Industry Professional Assistant Professor*, B.S. Phm., Pharm.D., St. John's University.

Nicole M. Maisch, *Associate Clinical Professor*, B.S. Phm., Pharm.D., Albany College of Pharmacy; Internal medicine; drug information.

Nissa Mazzola, *Assistant Clinical Professor*, Pharm.D., St. John's University; Ambulatory care.

Priti N. Patel, *Associate Clinical Professor*, Pharm.D., Philadelphia College of Pharmacy; Drug information.

Maha Saad, *Assistant Clinical Professor*, B.S., Rosary School Mansourieh, Lebanon; B.S., Phm., Pharm.D., Lebanese American University; Internal medicine.

Sharon See, *Associate Clinical Professor*, B.S. Phm., Pharm.D., Rutgers University; Family medicine.

Candace J. Smith, *Associate Clinical Professor*, B.S., San Jose State University; B.S. Phm., Pharm.D., St. John's University; Pharmacokinetics; critical care.

Maria Sulli, *Associate Clinical Professor*, B.S. Phm., Pharm.D., St. John's University; Community pharmacy practice; patient education.

Donna Sym, *Associate Clinical Professor*, B.S., Pharm.D., St. John's University; Infectious diseases.

Michael S. Torre, *Clinical Professor*, B.S. Phm., M.S. St. John's University; Endocrine disorders; diabetes.

Damary Castanheira Torres, *Associate Clinical Professor*, B.S. Phm., Pharm.D., St. John's University; Internal medicine.

Tran Tran, *Associate Clinical Professor*, B.S., Pharm.D., University of North Carolina at Chapel Hill; Internal Medicine.

Department of Pharmacy Administration and Allied Health Sciences

Richard Arias, *Industry Professional Assistant Professor*; B.S., St. John's University; Applied patient care.

Sandra Beysolow, *Industry Professional Assistant Professor*; B.S., Long Island University; M.S., Capella University, Applied patient care.

Caroline Burns, *Industry Professional Assistant Professor*, B.S., St. Joseph's College, M.S. Long Island University; applied patient care.

Jennifer Chiu, *Industry Professional Assistant Professor*, B.S., Binghamton; M.B.A., St. Joseph's College; applied patient care.

Candis Edwards, *Adjunct Assistant Professor*, B.S., Wagner College; M.S., St. John's University; RA, R&D, project management, QA and cGMP compliance.

Corinne L. Gamper, *Adjunct Assistant Professor*, B.A., St. Joseph's College; M.S., The University of Connecticut; M.B.A., St. John's University; Regulatory Affairs/Quality Assurance.

Pamela Gregory-Fernandez, *Industry Professional Instructor*; B.S., St. John's University; Applied patient care.

Dennis Guilfoyle, *Adjunct Associate Professor*, B.A., Hunter College, CUNY; M.S., Wagner College; Ph.D., St. John's University; National expert for the U.S. Food & Drug Administration in the field of pharmaceutical microbiology for drugs and biotechnology products.

Lisa Hochstein, *Industry Professional Assistant Professor*, B.S. Richmond College; M.S., St. John's University; applied patient care.

Danielle Kruger, *Industry Professional Assistant Professor*, B.S., St. Francis College; M.S., Capella University; Applied patient care.

Martha L. Mackey, *Associate Professor*, B.A., M.A., J.D., St. John's University; Pharmacy law; pharmacy education.

Robert A. Mangione, *Dean and Professor*, B.S. Phm., M.S., P.D., Ed.D., St. John's University; Pharmacy education; celiac disease; pharmaceutical care for disadvantaged patients.

John G. McHugh, *Adjunct Associate Professor*, B.S. Phm., St. John's University; M.B.A., Dowling College. Managed care; pharmacy benefit management.

Rashmi Nair, *Assistant Professor*, M.S., M.B.A., Ph.D., University of Louisiana at Monroe; Pharmacoconomics; pharmacy education; pharmacy management.

Rajesh Nayak, *Associate Professor*, B.S. Phm., M.S. Phm., Mangalore University; Ph.D. University of Florida; Pharmaceutical outcomes research; evaluation of health care policies and programs; pharmacoconomics.

Somnath Pal, *Professor*, B.S. Phm., M.S., Jadavpur University; M.B.A., Calcutta University; Ph.D., University of Iowa; Drug utilization studies.

Nicholas Pantaleo, *Adjunct Associate Professor*, B.S., Phm., M.S., St. John's University.

Mary Jo Perry, *Industry Professional Assistant Professor*, A.S., Northeastern University, B.S., Adelphi University, M.S., Long Island University, C.W. Post College; applied patient care.

Daniel Podd, *Industry Professional Assistant Professor*; B.S., St. John's University; Applied patient care.

Frank J. Sena, *Adjunct Associate Professor*, B.S., Manhattan College; M.S., Ph.D., Fordham University; Regulatory affairs/quality assurance.

Shamima Khan, *Assistant Professor*, B.S., MBA, Ph.D., The University of Louisiana at Monroe.

Stacey Singer-Leshinsky, *Industry Professional Assistant Professor*; B.S., Brooklyn College; Applied patient care.

Wenchen Wu, *Associate Professor*, B.S., Taipei Medical College; M.B.A., Ph.D., University of Minnesota; Pharmacoeconomics; computer applications in pharmacy; pharmacy management.

Department of Pharmaceutical Sciences

Charles R. Ashby, *Professor*, B.A., Ph.D., University of Louisville; Neurophysiology and neurochemical studies of 5-HT and DA interaction; genetic vulnerability to drug abuse in rats; mechanism of action of antipsychotic drugs.

Frank Barile, *Professor*, B.S., M.S., Ph.D., St. John's University; In vitro toxicology.

Michael Barletta, *Professor*, B.S. Phm., M.S., St. John's University; Ph.D., New York Medical College; Cardiovascular pharmacology using animal models for myocardial infarction, cardiac arrhythmias, ischemic heart disease and thrombosis.

Andrew J. Bartilucci, *Dean Emeritus and Executive Vice President Emeritus*, B.S. Phm., St. John's University; M.S., Rutgers University; Ph.D., University of Maryland.

Nesrine Z. Baturay, *Associate Professor*, B.A., Douglass College; M.S., Seton Hall University; Ph.D., New York University; Investigation of environmental influences on cancer potentiation and the relationship of subcellular components to tumor promotion.

Blase C. Billack, *Associate Professor*, B.S., University of Richmond; Ph.D., Rutgers University; Role of BRCA1 in DNA damage repair and transcription.

Jerome Cantor, *Associate Professor*, B.A., Columbia University; M.D., University of Pennsylvania; Experimental lung pathology.

Joanne M. Carroll, *Associate Professor*, B.S. Molloy College; M.A., CUNY, Hunter College; Ph.D. CUNY; Molecular mechanisms regulating gene expression in neural and endocrine cells.

Joseph M. Cerreta, *Associate Professor*, B.S., M.S., Ph.D., Fordham University; Molecular biology of connective tissue alterations in the lung.

Zhe-Sheng Chen, *Associate Professor*, M.S., Sun Yat-Sen University of Medical Sciences, P.R.China; M.D., Guangdong Medical & Pharmaceutical College, Guangdong Province, China; Ph.D., Institute for Cancer Research, Kagoshima University, Japan; Cancer pharmacology and experimental therapeutics, especially cellular mechanisms of multi-drug resistance and its reversal.

Kurt Degenhardt, *Assistant Professor*, B.S., Kutztown University; Ph.D., SUNY Stony Brook University; Molecular mechanisms of tumorigenesis.

Sue M. Ford, *Associate Professor*, B.S., Cornell University; M.S., Ph.D., Michigan State University; Use of cell culture to study responses of kidney to toxicants; nutrition.

Gerard Frunzi, *Adjunct Associate Professor*, B.S., M.S., Ph.D., St. John's University.

Marc Gillespie, *Associate Professor*, B.A., University of Vermont, Ph.D., University of Utah; The development of a simple biochemical system that allows us to evaluate the function assembly and disassembly of neuronal SNARE complex.

Diane Hardej, *Assistant Professor*, B.A., Queens College; M.S., Ph.D., St. John's University; The use of antioxidants in the treatment of neurotoxicity and stress proteins as biomarkers.

Amrit Lal Kapoor, *Professor*, B.S. Phm., M.S., Punjab University, India; Dr.Sc.Nat., Eidgenossische Technische Hochschule, Zurich, Switzerland; Binding and displacement studies in vivo and in vitro to evaluate drug interactions.

Stanley Kwon H. Kim, *Professor*, B.S. Phm., Chung-Ang University; M.S., Ph.D., St. John's University; Transdermal and transmucosal drug delivery, controlled release and targeted delivery systems.

Vijaya L. Korlipara, *Professor*, B.S. Phm., Banaras Hindu University; Ph.D., University of Minnesota; Design and synthesis of receptor selective probes for opioid and neurokinin receptors.

Chul-Hoon-Kwon, *Professor*, B.S., Phm., Howard University; Ph.D., University of Minnesota; Design, synthesis and evaluation of pro-drugs, especially in anti-tumor agents and anticonvulsants; chemical aspects of drug metabolism and toxicology.

Cesar A. Lau-Cam, *Professor*, B.S. Phm., University of San Marcos, Peru; M.S., Ph.D., University of Rhode Island; Effect of natural product (amino acids, carbohydrates, vitamins, plant constituents) on the biochemistry, pharmacology and toxicology of ethanol.

Senshang Lin, *Professor*, Taipei Medical College, Ph.D., Temple University; Pharmacokinetic, pharmacodynamic, transmucosal drug delivery.

Woon-Kai Low, *Assistant Professor*, Ph.D., University of Toronto, Ontario; Study of eukaryotic control mechanisms of protein translation and the cellular impact of deregulation in disease states.

Parshotam L. Madan, *Professor*, B.S. Phm., Birla College, India; M.S., Ph.D., University of Georgia; Controlled and targeted drug delivery systems; bio-erodible polymers as drug delivery systems.

Lin Mantell, *Associate Professor*, M.D., Beijing University; Ph.D., Stony Brook University; Identifying and characterizing molecular and cellular mechanisms underlying the increased lung injury and infection due to oxidative stress during oxygen therapy.

Raymond S. Ochs, *Professor*, B.S. Purdue University; Ph.D., Indiana University; The

control of metabolic pathways by hormones and energy supply; muscle cell culture line and computer modeling.

Sandra E. Reznik, *Associate Professor*, A.B., Harvard University; M.D., Ph.D., Mount Sinai School of Medicine; Developmental and placental pathology, specifically the role of several placental peptidases and proteinases in perinatal pathology.

Bhagwan D. Rohera, *Professor*, B.S. Phm., M.S., Saugar University; Ph.D., University of Basel, Switzerland; Compaction of powder systems; controlled drug delivery; formulation and process optimization.

Joseph Sarra, *Adjunct Assistant Professor*, B.S., M.S. Long Island University Arnold and Marie Schwartz College of Pharmacy; Ph.D., St. John's University; Synthesis and pharmacological evaluation of new anticonvulsants and anxiolytics.

Francis A.X. Schanne, *Associate Professor*, B.A., La Salle College; Ph.D., Temple University; Molecular mechanisms of cellular injury and protection.

Abu Serajuddin, *Professor*, B.S., Phm., Dhakra University, Bangladesh; M.S., Columbia University; Ph.D., St. John's University; Industrial pharmacy.

Jun Shao, *Associate Professor*, B.S. Phm., Zhejiang University; M.S., China Pharmaceutical University, Ph.D. West Virginia University; Biotechnology and drug delivery; traditional Chinese medicine for cancer.

Emilio Squillante, *Associate Professor*, B.S. Phm., M.S., Ph.D., University of Rhode Island; Supercritical fluids; dissolution, pharmacokinetic and bioavailability to studies; drug analysis; transdermal absorption studies.

Ralph A. Stephani, *Professor*, B.S., Holy Cross College; Ph.D., SUNY, Buffalo; Synthesis and evaluation of new analgesic agents; synthesis and evaluation of new anti-bacterial agents; development of new oral hypoglycemic agents.

Richard A. Stripp, *Adjunct Associate Professor*, Ph.D., St. John's University.

Tanaji Talele, *Associate Professor*, B.S., University of Pune, India; M.S., Ph.D., Mumbai University; India; Computer-aided design (docking-3D-QSAR) and development of anticancer and antifungal compounds.

Louis Trombetta, *Professor*, B.S., M.S., Ph.D., Fordham University; Metal neurotoxicology and oxidative stress.

John N.D. Wurlpel, *Associate Professor*, B.S., Belmont Abbey College; M.S. Fairleigh Dickinson University; Ph.D., Pennsylvania State University; Effects of neuropeptides on CNS; neurophysiology of seizures.

Byron C. Yoburn, *Professor*, B.A. Boston University; M.A., Hollins College; Ph.D., Northeastern University; Molecular aspects of opioid receptor regulation, drug tolerance and dependence.

S. William Zito, *Professor*, B.S. Phm., St. John's University; Ph.D., University of Connecticut; Biosynthesis of pyrethrins; tissue culture as a method to study drug metabolism.

Director, Graduate Program in Criminal Justice Leadership

Objective

The Graduate Division of the College of Professional Studies is a uniquely structured unit within the University offering academic degree programs in professional fields. The College is committed to offering each student an education that prepares that individual to make significant contributions to society, to the local community and to his/her chosen profession. The mission is accomplished by providing an education which is value-oriented and consistent with the historical relationship of St. John's University to the Catholic community. The uniqueness of the College comes from its blend of a strong liberal arts model of education combined with a highly respected professionally oriented curriculum. Throughout each of the college's programs, an enriched intellectual and academic environment is provided, enabling the student to explore and develop an appreciation for truth and within which the value and dignity of the human person is understood and respected.

Master of Professional Studies (M.P.S.) in Criminal Justice Leadership

Program of Study

The Graduate Division of the College of Professional Studies offers the Master of Professional Studies in Criminal Justice Leadership which prepares students for management and executive positions by examining critical leadership issues confronting the criminal justice system. The program employs an integrative approach linking theory with professional practice. As a result, criminal justice practitioners gain the advanced knowledge and leadership skills that are essential for executive positions in policing, courts, correctional services, corporate and homeland security.

Students benefit from the superb resources and faculty of St. John's University, one of the largest Catholic universities in the U.S. St. John's has a long record of excellence in educating criminal justice professionals. This distinguished record—and the University's close ties to the criminal justice community—add luster to this outstanding learning experience.

The master's degree in Criminal Justice Leadership is a 36-credit program of study.

Applied Research Project: The Capstone

The Capstone project is a comprehensive analysis of a significant incident, case problem or policy dilemma related to an agency with which the student is familiar. Students are required to develop a proposal identifying the problem they will address, the data to be collected and analyzed, a list of viable alternatives and a set of evaluation criteria to be used in selecting the best course of action to resolve the problem. The objective of The Capstone project is to produce a comprehensive analytical report that could be used in solving an actual organizational or policy-related problem in the agency considered.

Completion Requirements

All candidates admitted to the Master of Professional Studies in Criminal Justice Leadership must complete the degree requirements within five years of commencing studies. Students must complete the 36-credit program with an average of "B" (3.0 GPA).

Admission Requirements

Applicants must submit the following evidence of their ability to pursue graduate study:

1. A baccalaureate degree from a regionally accredited college or university
2. A record of scholarly achievement at the undergraduate level. In general, applicants are expected to have an overall undergraduate average of "B" (3.0/4.0).
3. Two letters of recommendation from individuals who can comment on the candidate's academic abilities and potential to succeed in an academically rigorous graduate program. An academician who has taught and evaluated the candidate at the undergraduate level should submit one of these references. A supervisor or manager at the agency where an applicant is employed may submit a letter that addresses the applicant's leadership potential.
4. An essay of approximately 300 words describing the candidate's reason for pursuing graduate study and his or her leadership objectives must be included with the admission application.

Program Requirements

The M.P.S. in Criminal Justice Leadership is a 36-credit program that offers a comprehensive program of study to ensure that students meet specific learning objectives. Students may choose up to four courses from the "Selected Topics" offerings, which feature different topics on a number of pressing issues facing the criminal justice system. All courses in the M.P.S. Program are three-credit offerings.

Courses Required Courses from the College of Professional Studies

CJI 101 Police Administration in the 21st Century

This course traces the history of American policing and examines organizational models used to deliver police services to communities. Students review the literature and research on policing in a democratic society.

Credit: 3 semester hours.

CJI 102 Critical Issues in Correctional Administration

This course addresses the most pressing issues facing correctional managers and executives and traces the history of correctional theories, with particular emphasis placed on care, custody and control issues. *Credit: 3 semester hours.*

CJI 103 the U.S. Constitution and Criminal Justice Administration

Students analyze landmark decisions of the U.S. Supreme Court to explore the tension between the goals of public safety and individual liberty in a democratic society, and how these competing interests currently have been balanced in the U.S. *Credit: 3 semester hours.*

CJI 201 Criminal Justice Policy Formation and Analysis

This course provides an advanced examination of the development, implementation and evaluation of criminal justice policy in the United States and elsewhere. *Credit: 3 semester hours.*

CJI 202 Public Administration and the Criminal Justice Agency.

This course examines the field of public administration with specific emphasis placed on the executive and leadership responsibilities of the criminal justice administrator. *Credit: 3 semester hours.*

CJI 203 Ethical Issues in Criminal Justice Administration

This course analyzes the most pressing ethical issues facing the criminal justice executive. Case studies are reviewed to determine more effective integrity control policies and procedures. *Credit: 3 semester hours.*

CJI 306 Selected Topics in Criminal Justice Series

These courses feature an in-depth analysis of a selected topic in criminal justice. A different topic will be examined each semester, enabling students to explore a pressing contemporary issue in criminal justice. *Credit: 6–12 semester hours.*

CJI 401 Methods of Research in Criminal Justice

Students will be exposed to major research studies in policing, the courts and corrections, and encouraged to identify their relative strengths and weaknesses based on accepted research concepts and techniques. *Credit: 3 semester hours.*

CJI 500 Seminar in Applied Leadership Practices

This course is designed to provide graduate students with the supervised observation and/or application of the professional practices of leadership. This practical perspective (field work), when coupled with readings and graduate seminars, will provide students with a rich, integrated understanding of the most current leadership practices. The seminar in Applied Leadership Practices is an elective. *Credit: 3 semester hours.*

CJI 501 Applied Research Project: The Capstone

The Capstone project is a comprehensive analysis of a significant incident, case problem or policy dilemma related to an agency with which the criminal justice practitioner is familiar. *Credit: 3 semester hours.*

Available Management Courses

Mgt 232 Organizational Behavior

Prerequisite: CJL 202. This course examines the contributions of behavioral science to the management process and the organization as a social-political system. *Credit: 3 semester hours.*

Mgt 280 Organizational Development

Prerequisite: MGT 232. This course examines planned change for improving the performance of individuals, groups and organizations emphasizing the structure and behavioral factors that interact to influence organizational effectiveness and productivity. *Credit: 3 semester hours.*

For a complete listing of approved courses, please contact your Dean's office.

Master of Studies (M.S.) in International Communication

General Requirements:

Entrance Requirements for M.S. in International Communication

For admission to the graduate studies program in International Communication, students are expected to have an undergraduate degree from an accredited institution. All applications are subject to departmental review to assess the appropriateness of the applicant; students may be accepted with Special Student status, provided that the applicants have, in the judgment of the department, necessary preparation to take on the graduate studies in the International Communication program.

Admission M.S. in International Communication

Admission MS in International Communication is contingent upon an assessment of the candidate's ability to successfully pursue graduate study.

Ability is demonstrated by previous academic performance, satisfactory achievement on appropriate standardized tests (GRE), letters of recommendation and other factors that suggest academic potential and motivation.

Degree candidate must provide the following for admission consideration:

1. Evidence of a baccalaureate degree from an accredited college or university including official transcripts from each institution attended.
2. Two letters of recommendation from instructors/professors or other qualified individuals.
3. Official results of performance on standardized tests (GRE).
4. Demonstrate proficiency in a foreign language (this requirement may be fulfilled during the course of studies in the program, but before graduation).

Degree Requirements:

To be considered as a degree candidate the student must meet the following requirements.

1. Must complete 18 credits of core required courses, and 9 elective courses
2. Must maintain a minimum of 3.0 overall average
3. Those opting for thesis must follow the guidelines in consultation with the Chair of the Department
4. Demonstrate proficiency in a foreign language (this requirement may be fulfilled during the course of studies in the program, but before graduation).

Degree Plan: Thesis Option

A - Required Courses (18 cr.)

ICM 800	Theories and Processes of Communication	3 credits
ICM 801	International Communication	3 credits
ICM 802	Media and Communication Research Methodology	3 credits
ICM 810	Media, Communication and Public Policy	3 credits
ICM 811	Media, Culture and Society	3 credits
ICM 812	International Communication and Global Development	3 credits

B - Electives (9 cr.)

ICM 820	Communication and New Media: Building Community	3 credits
ICM 821	International Public Relations	3 credits
ICM 822	International Advertising	3 credits
ICM 830	Crisis Communication	3 credits
ICM 831	International Film Studies	3 credits
ICM 832	Design for Print and Web in Global Media	3 credits
ICM 840	Special Topics in International Communication	3 credits

C – ICM 850/851Thesis (6 cr.)

D – ICM 860 Internship (3 cr. = 150 hrs.)

Degree Plan: Non-Thesis Option

A - Required Courses (18 cr.)

ICM 800	Theories and Processes of Communication	3 credits
ICM 801	International Communication	3 credits
ICM 802	Media and Communication Research Methodology	3 credits
ICM 810	Media, Communication and Public Policy	3 credits
ICM 811	Media, Culture and Society	3 credits
ICM 812	International Communication and Global Development	3 credits

B - Electives (15 cr.)

ICM 820	Communication and New Media: Building Community	3 credits
ICM 821	International Public Relations	3 credits
ICM 822	International Advertising	3 credits

ICM 830	Crisis Communication	3 credits
ICM 831	International Film Studies	3 credits
ICM 832	Design for Print and Web in Global Media	3 credits
ICM 840	Special Topics in International Communication	3 credits

**C – ICM 860/861 Internship
(3 cr. = 150 hrs.) (maximum 6 credits)**

Course Description

ICM 800 Theories and Processes of Communication

This course is designed to give the students a working map of important theories in communication. It will take a close, critical look at some of the most important contemporary theories of human communication, emphasizing their practical applications for society, for public policy, and our everyday lives. The course has the additional pedagogic intention to help students preparing for thesis work and scholarly investigation. *Credit: 3 semester hours.*

ICM 801 International Communication

This course will focus on ideological-humanistic, economic and political aspects of communication in selected European and developing countries. An emphasis will be on the impact it has had on the mass media and on information exchange, economics and national identity. It will also examine various aspects of world telecommunication and media systems from historical, political and legal points of view. The international communications networks are far from homogeneous; they are full of contradictions and they are subject to powerful social, political, and cultural forces. *Credit: 3 semester hours.*

ICM 802 Media and Communication Research Methods

Research in communication is a necessary tool in the search for answers. This course in mass media and communication research will investigate methods used in collecting and analyzing information and communication data, and study scientific methods of qualitative and quantitative research. Students will learn to critically evaluate published research, design instruments for research and exercise them within the classroom set up. *Credit: 3 semester hours.*

ICM 810 Media, Communication, and Public Policy

This course will explore the role of media in influencing domestic and foreign policy. We will particularly examine the role of elite media in initiating and shaping public discourse and public policy. We will study the processes of public policy and how media mediate the outcomes of policy. We will closely examine the processes and theories of public opinion and persuasion. *Credit: 3 semester hours.*

ICM 811 Media, Culture, and Society

This course is an exploration of the role of media in popular culture and society. The media's role in reflecting society and, in turn, the role of society in shaping of media practice will be explored. *Credit: 3 semester hours.*

ICM 812 International Communication and Global Development

This course will explore and propose communication as a vehicle for promoting justice and human rights in a pluralistic society. The course will encompass a broad range of theoretical and historical studies of communication, media and development. A particular attention will be paid to the trends of globalization and economic upheavals. Learn the development of global communication structures and world information and communication order; a particular focus will be paid to development media and the inter-relationship between communication and development, advocacy communication, communication as an instrument of integration, and to the issues of peace, war, and communication. *Credit: 3 semester hours.*

ICM 820 Communication and New Media: Building Communities

This course is designed to explore the application of new and converging media, and demonstrate through various class projects their proficiency in using them comfortably and effectively. This course will focus on the theories of a new media applications, and on the creative and developmental dimensions of new media and building community within various cultural contexts. *Credit: 3 semester hours.*

ICM 821 International Public Relations

An interdisciplinary approach will draw case studies from a range of study, including international public relations, integrated marketing communication (international advertising), international social marketing, development and participatory communication, public diplomacy and propaganda, international non-governmental organizations (NGOs), and international responses to humanitarian crisis. *Credit: 3 semester hours.*

ICM 822 International Advertising

This course focuses on the basic principles of international marketing communication in the 21st century with an emphasis on global advertising. These principles will include global versus local creative strategies and executions, international media opportunities, and global research methods. The course does not provide a country-by-country analysis of the global marketplace. Given how quickly our world changes, this would be a futile effort. Rather, it equips the student with an understanding of the basic principles of global marketing and advertising, including the differing cultural, economic, and political factors that have an impact on international marketing communications. *Credit: 3 semester hours.*

ICM 830 Crisis Communication

Crisis communication is an advanced level of public relations course. In view of the fact that crises are becoming more and more frequent, there is a need to understand crisis communication from an academic and practitioner point-of-view. The purpose of this course is to develop a theoretical conceptualization of the process of crisis communication and an understanding of crisis communication practices. It focuses on the issues relevant to the planning, development and execution of crisis communications programs for businesses, governments, organizations and with stakeholders during a crisis. A particular emphasis will be placed on covering the advent of new media technologies, the rise of consumer power, the growing development of international public relations, and the need for an audience orientation to studying and practicing crisis communication. *Credit: 3 semester hours.*

ICM 831 International Film Studies

A chronological review of the development of international cinema as an answer to the Hollywood industry—decade by decade, for more than 100 years. Students learn critical and technical vocabulary of the subject and study important films in weekly screenings. The course combines readings in theories of globalization and cosmopolitanism of international cinema with case studies about the formation of a global consciousness through cinema and other audiovisual media. *Credit: 3 semester hours.*

ICM 832 Design for Print and Web in Global Media

This course exposes students to concepts and procedures in preparing art and designs for professional printing and Web design and development. Topics will include layout, file preparation, color selection, digital proofing and output, and print technology. The course focuses on effective print design, planning a publications program, budgeting and working with printers and suppliers. This course also features instruction in the principles and techniques of web page creation and design. Students will review current designers' solutions to complex media projects and pursue their own direction, with an emphasis on innovation. Individual projects are created dealing with fundamental aspects of design. *Credit: 3 semester hours.*

ICM 840 Special Topics in International Communication

This course will address topical issues and will be organized in seminar form. Guest speakers with expertise in various areas of international communication may be invited to address students. *Credit: 3 semester hours.*

Master of Professional Studies (M.P.S.) in Sport Management

Objective

New York City is called “the sports capital of the world.” A St. John’s graduate degree in sport management offers students in this large metropolitan sport community an opportunity to pursue advanced education in this field. The coaching and international specializations serve both college graduates who wish to pursue careers in sport management and current practitioners who wish to enhance their knowledge and skills. The program provides access to education in coaching/administration and sport management founded on Vincentian principles of ethics and social justice. Professionals grounded in these principles can have a positive effect on the climate of sport, both amateur and professional.

Program of Study

The 39-credit program curriculum is based on the guidelines of the Commission on Sport Management Accreditation (COSMA) and the National Council for Accreditation of Coaching Education (NCACE). Specializations are available in the international dimensions of sport and coaching leadership. Students must complete either an internship or a master’s thesis to complete their program of study.

Coaching Leadership Specialization

This specialization meets the demand for professionally trained coaches and program administrators of school-based sport at all educational levels, as well as positions in league and community-centered programs. Well trained, ethically grounded professionals in these areas are increasingly important for the physical and emotional well being of young athletes. Graduates with the coaching leadership specialization are well equipped for careers in both educational and professional sport areas.

International Dimensions of Sport Specialization

This specialization is designed to meet the need for managers in the increasingly complex global sport industry which extends well beyond the Olympics, Grand Slam tennis and World Cup soccer. Not only do individual college and professional athletes participate in sport outside their home countries, but also, many American college and professional teams compete with teams throughout the globe. Graduates with a specialization in the international dimensions of sport are prepared to meet the needs of both national and international sport organizations.

Electronic Portfolio

Students compile an e-portfolio throughout the program as evidence of their developing mastery of the subject matter. These portfolios include completed coursework as well as students’ reflections on what they have learned and how it will help in their career. Portfolios can also be used as an “electronic resume” when students begin their job search.

Internship

The internship course provides students with an in-depth experience in which they work more than 400 hours in a professional sport management setting. The internship experience provides the student with some practical experience needed for success in the competitive job market. Understanding that many of the applications of sport management are service-oriented professions, serving various clients, learning is enhanced by the opportunities for hands-on experience and maximized when qualified professionals provide supervision. The internship experience is also designed to allow the student to grow professionally, to identify strengths and weaknesses, to apply learned theory to practical situations, and to gain an appreciation of the role, duties, responsibilities, and nature of the work that has been chosen as a career.

It is expected that students specializing in coaching leadership will pursue internship opportunities that include a coaching component in their daily activities as an intern. To the extent practical, students specializing in the international dimensions of sport should pursue internship opportunities that include an exposure to international business as part of their internship activities.

Students who choose not to do a graduate internship are required to write a master’s thesis as a requirement for the conferral of the MPS in Sport Management degree. The proposal, data collection, and final draft will be prepared under the supervision of a member of the sport management faculty and must conform to the style guidelines of the American Psychological Association and the St. John’s University Libraries. The master’s thesis is expected to offer evidence of sound research and an adequate treatment of a well-defined subject.

Thesis Option

Students who choose not to do a graduate internship are required to write a master’s thesis as a requirement for the conferral of the MPS in Sports Management degree. The proposal, data collection, and final draft will be prepared under the supervision of a member of the sport management faculty and must conform to the style guidelines of the American Psychological Association and the St. John’s University Libraries. The master’s thesis is expected to offer evidence of sound research and adequate treatment of well-defined subject.

Completion Requirements

All candidates admitted to the MPS in Sport Management degree program must complete all degree requirements (including the internship or thesis) within five years of commencing study and must complete the 39-credit program with a minimum average of “B” (3.0 GPA).

Common Core: 21 Credits

- SPG 301 Strategic Sport Management
- SPG 302 Media Relations in Sport
- SPG 303 Information Management in Sport
- SPG 304 Philosophy, Principles, and Leadership in Sport
- SPG 305 Ethical and Legal Aspects of Sport
- SPG 306 Financial Perspectives in Sport
- SPG 401 Research Methods in Sport

Specialization: 9 Credits

- SPG 307 Social/Psychological Aspects of Sport
- SPG 308 Sport Science: Coaching for Optimal Performance
- SPG 309 Sport Science: Techniques and Analysis
- SPG 310 Event and Venue Administration: International Perspectives
- SPG 311 Sport Marketing: International Perspectives
- SPG 402 Special Topics in Sport Management

Capstone: 9 Credits

- SPG 312 Seminar in Sport Management And
- SPG 502 Thesis I
- SPG 503 Thesis II
- Or
- SPG 510 internship (6 credits)

Admission Requirements

Admission to the program contingent upon an assessment of the candidate’s ability to successfully pursue graduate study. This assessment will be made by examining previous academic performance, letters of recommendation, the applicant’s essay, work experience, performance on standardized exams (such as the GRE or GMAT), and any other evidence that the admissions committee believes to be relevant. Applicants must submit the following for admission consideration:

1. Evidence of the conferral of a baccalaureate degree from a regionally accredited college or university. Transcripts from each institution attended must be submitted even if a degree was not conferred. Applicants are expected to have an overall undergraduate average of at least 3.0 (B) on a 4.0 scale.
2. Two letters of recommendation from individuals who can comment on the applicant’s academic abilities and potential to succeed in an academically rigorous graduate program. At least one of these letters must be from an instructor who has taught and evaluated the applicant in an academic setting.

3. An essay of approximately 300 words describing the applicant's reason for pursuing graduate study and his or her leadership objectives.

The GRE or GMAT is not required to be considered for admission, but the admissions committee will consider scores on standardized exams if they are submitted with the application. The admissions committee may request to interview the applicant either in person or by telephone. The final approval of admission will rest with the graduate admissions committee of the Division of Hospitality, Tourism, and Sport Management.

Course Descriptions

SPG 301 Strategic Sport Management

Critical analysis of strategic management theory as it relates to sporting organizations. Key elements include the role of the general manager, strategy formation, environmental analysis, and strategic implementation within the sport setting. Case studies representing the globalization of the sport industry are examined. Cooperative analysis of managing sport activities in the EU and selected nations, e.g., Australia, Japan, China and Canada. The E-portfolio is introduced in this course. *Credit: 3 semester hours.*

SPG 302 Media Relations in Sport

This course focuses on the symbiotic relationship between sport media and the sport industry. Students will analyze and discuss key public relations concepts, strategies and best practices in the sport industry. *Credit: 3 semester hours.*

SPG 303 Information Management in Sport

This course explores the use of networked information discovery and retrieval for professional problem solving. Technology's impact, both local and global, on sport management is also explored. The moral and ethical dimensions that should control dissemination of illegal and harmful content are also examined. *Credit: 3 semester hours.*

SPG 304 Philosophy, Principles, and Leadership in Sport

This course will examine the basic philosophy and principles of sport leadership in a variety of settings. Topics discussed include legal issues, functions of sport organizations, administrative duties, personal standards for administrators and coaches, public relations and safety procedures. Specific attention will be given to regulations and policies at each level of sport. *Credit: 3 semester hours.*

SPG 305 Ethical and Legal Aspects of Sport

Students will examine the legal and practical problems facing directors and industry executives in franchised, leagues, associations, and school-based programs. This course analyzes sport related tort law, criminal law, contract law, constitutional law, and labor law. Other topics include liability, methods of limiting exposure, and risk management techniques. Moral and ethical development theories are

also discussed along with models of ethical analysis and situational analysis.

Credit: 3 semester hours.

SPG 306 Financial Perspectives in Sport

Financial management and budgetary components of the sport industry are analyzed. Students will explore strategies for successful international sport financial management. Topics include economic issues affecting sport and leisure, various revenue sources, income and expenditure factors, and the various types of budgets available to administrators. Specific applications to educational, professional, and commercial sport are presented. International perspectives will be discussed in each topic area along with case studies. *Credit: 3 semester hours.*

SPG 307 Social/Psychological Aspects of Sport

Students study the structure and function of sport, and the effects of psychosocial states on the participant. Topics include socio-cultural phenomena and their influences on sport. *Credit: 3 semester hours.*

SPG 308 Sport Science: Coaching for Optimal Performance

This course introduces selected principles of biology, anatomy, physiology, kinesiology, biomechanics, psychology, and sociology related to coaching effectiveness. Applications of these areas will be discussed as they relate to human growth and development, safety, first aid, care and prevention of injuries, training and conditioning of athletes. *Credit: 3 semester hours.*

SPG 309 Sport Science: Techniques and Analysis

This course studies the techniques, skills, and methods of coaching, officiating and participating in various sports. The course will study the growth and development of the athlete, anatomical and mechanical principles of sport, and the learning of specialized motor skills. *Credit: 3 semester hours.*

SPG 310 Event/Sport Venue Administration: International Perspectives

This course examines the management of sports facilities. Topics include financial management of sport facilities, scheduling events, event production, human resource management, and merchandising. A particular emphasis is on international event and facility management. Cooperative analysis of the administration of sport venues in the EU and selected nations such as Australia, Japan, China and Canada. *Credit: 3 semester hours.*

SPG 311 Sport Marketing: International Perspectives

The concepts and processes of successful international marketing of sport programs and events are discussed in this course. Special emphasis is placed on the application of sport marketing principles to all levels of sport organizations. Cooperative analysis of sport marketing in the EU and selected nations, e.g.,

Australia, Japan, China and Canada. Students are required to complete an international sport marketing research project, and write an international sport marketing proposal. *Credit: 3 semester hours.*

SPG 312 Seminar in Sport Management

Prerequisite: Completion of all core courses. Usually taken in the last semester study, the seminar is the capstone course in the graduate sport management program. The course integrates material from previous courses and requires each student to prepare a comprehensive analysis of a significant case, problem, or policy dilemma in sport management. *Credit: 3 semester hours.*

SPG 401 Research Methods in Sport

This course will enable students to more fully understand specific research methods. Students critically examine published studies and learn to appreciate research as a professional tool for sport managers. Students will address a sport management problem using the Comparative Analysis Decision-Making Model (CADMM). *Credit: 3 semester hours.*

SPG 402 Special Topics in Sport

This course offers a concentrated focus on a selected topic in sport management. *Credit: 3 semester hours.*

SPG 420 Special Topics in Sport Management, Italy

An intensive cross-cultural experience in international sport management held in Italy. Includes educational tours to international sport organizations, facilities and events, and other cultural landmarks in Rome, Florence, and Naples. *Intersession, pre-session only.*

SPG 502 Thesis I

Prerequisites: SPG 401 and permission of the Program Director. Supervised research leading to the preparation and completion of a master's thesis in partial fulfillment of the MPS in Sport Management degree requirements. *Credit: 3 semester hours.*

SPG 503 Thesis II

Prerequisites: SPG 502 and permission of the Program Director. Supervised research leading to the preparation and completion of a master's thesis in partial fulfillment of the MPS in Sport Management degree requirements. *Credit: 3 semester hours.*

SPG 510 Internship

Prerequisites: Completion of all core courses and the permission of the Program Director. The internship provides students with in-depth experience in a sport management work setting. Management practices will be applied to enhance the students' network and job placement opportunities. A member of the faculty completes final agreements and arrangements. *Credit: 6 semester hours.*

University Libraries

The St. John's University Libraries commit themselves to the teaching and learning processes by providing information resources, instructional services and other support in the most effective formats for University programs and student and faculty research. The libraries include of three major libraries on three campuses (Queens, Staten Island, Manhattan) and additional collections at the Rome and Oakdale locations. St. John's University School of Law separately maintains the Rittenberg Law Library on the Queens campus. Together these libraries contain the equivalent of nearly 1 million volumes of books, periodicals, government publications, microform and audiovisual materials which support the undergraduate and graduate programs of the University. Cultural and recreational materials are also available.

The Main Library, renovated in the summer of 2008, is a selective depository for United States government documents, and houses Special Collections, the University Archives, an Instructional Materials Center, and a Media Center. The Main Library also oversees the Chin Ying Asian Library located in the Sun Yat Sen Center building.

The Loretto Memorial Library on the Staten Island campus houses over 130,000 volume including periodicals, microfilm materials and a collection of recorded music, poetry and plays.

The Davis Library on the Manhattan campus maintains one of the finest collections of contemporary and historical insurance and risk management materials in the country.

The Library instructional program provides learning, in a variety of formats, for discipline specific research appropriate to graduate study.

Both wired and wireless access is available throughout the libraries, connecting users to thousands of online journals (many in full text) and monographs, as well as to the library catalogs of St. John's and other consortial libraries. All electronic resources are available off-campus to authenticated St. John's users. Cooperative arrangements with other libraries provide regional, national and international access to materials.

Administration

Dermot Cooper, *University Records Manager*, B.A., City College of the City University of New York; M.L.S., St. John's University.

Shilpa Karnik, *Assistant Director, eServices*, B.S., Parle College (Bombay, India); B.S., M.L.S., St. John's University.

Theresa M. Maylone, *Interim dean of Libraries and University Librarian*, B.A., Syracuse University; M.S., Pratt Institute.

Ismael Rivera-Sierra, *Director, Davis Library*, B.S. Agricultural Economics, University of Puerto Rico, Mayagüez Campus; M.S. Library Science, Florida State University.

Blythe E. Roveland-Brenton, *Associate University Librarian for Collections and University Archivist*, B.A., Binghamton University; M.L.S., St. John's University; M.A., Ph.D., University of Massachusetts-Amherst.

Galina Spicehandler, *Librarian/Cataloger*, Davis Library, B.A./M.A., Leningrad State Institute of Theater, Music and Cinematography (Russia); M.L.S., Pratt Institute.

Richard E. Waller, *Web Librarian*, Davis Library, B.S. Virginia Commonwealth University; M.S.L.S., Columbia University.

Maureen B. Weicher, *Electronic Resources Librarian*, B.A., Barnard College; M.S., Baruch College of the City University of New York; M.L.I.S., Pratt Institute.

Faculty

Muhammed Billah, *Associate Professor*, B.S., Diploma in LIS, M.A. in Library Science, University of Dhaka; M.L.S., St. John's University; M.A., Queens College of the City University of New York.

Cynthia D. Chambers, *Associate Professor and Head of Information Management*, B.A., Capital University, Ohio; M.L.S., Kent State University; M.T.S., Trinity Lutheran Seminary.

Lois Cherepon, *Associate Professor (Staten Island)*, B.A., Rutgers College; M.A., State University of New York at Binghamton; M.L.S., Rutgers University.

Joan D'Andrea, *Associate Professor and Library Development Officer*, B.A., M.L.S., St. John's University; M.A., C.W. Post Center of Long Island University.

Anna M. Donnelly, *Associate Professor*, B.A., St. John's University; M.S., Columbia University; M.A., New York University.

Caroline Fuchs, *Assistant Professor*, B.A., M.A. (English), M.A. (History), Queens College of the City University of New York; M.L.S., St. John's University.

Lucy Heckman, *Associate Professor and Head of Reference*, B.A., M.L.S., St. John's University; M.B.A., Adelphi University.

Ann M. Jusino, *Associate Professor*, B.A. Villanova University; M.L.S., Rutgers University; M.A. College of Staten Island.

William Keogan, *Associate Professor*, B.A., M.A., Queens College of the City University of New York; M.L.S., St. John's University

P. Charles Livermore, *Associate Professor*, B.A., College of Wooster, Ohio; M.L.S., Columbia University; M.B.A., Rutgers University.

Andrea C. McElrath, *Associate Professor (Staten Island)*, B.S., Western Connecticut State University; M.L.S., Southern Connecticut State University; M.A.L.S., City University of New York, Staten Island.

Mark Meng, *Associate Professor, Director*, Staten Island Library, B.A., Chongqing Architectural Engineering Institute, People's Republic of China; M.L.S., Ph.D., Rutgers University.

Andrzej Sankowski, *Associate Professor and Director of Collections and Information Management*, L.L.M., Jagiellonian University, Poland; M.L.S., Columbia University; M.A., Queens College of the City University of New York.

Kathryn Shaughnessy, *Assistant Professor*, B.A., Loyola College; M.A. Fordham; M.L.S., St. John's University.

Arthur Sherman, *Associate Professor*, B.A., Manhattan College; M.L.S., M.A., Queens College of the City University of New York; M.A. St. Joseph's Seminary, Yonkers.

Victoria Tamborrino, *Associate Professor*, B.S., M.S., M.L.S., St. John's University.

Connie Thorsen, *Associate Professor*, B.A., University of Iowa; M.L.S., St. John's University; M.S., Queens College of the City University of New York.

Anthony Todman, *Associate Professor*, B.S., Boston University; M.L.S., Pratt Institute; M.S., Iona College.

Ben Turner, *Associate Professor*, B.A., Concordia University; M.L.S., University of British Columbia; M.A., Hunter College of the City University of New York.

Tian Xiao Zhang, *Associate Professor*, B.A., Hunan Normal University; M.A., Fordham University; M.L.S., St. John's University.

Law Library

Administration

Barbara G. Traub, B.A., SUNY, Buffalo, M.L.S., Long Island University, J.D., SUNY Buffalo. *Interim Director and Head of Reference and Instructional Services*

Joseph P. Hinger, B.A., M.L.S., University of Pittsburgh. *Associate Director for Technical Services*

Professional Staff

Astrid Emel, B.A., M.L.S., St. John's University. *Reference/Circulation Librarian*

Rosemary LaSala, B.A., M.L.S., St. John's University. *Reference/Government Collections Librarian*

Antonio Ramirez, B.A., Universidad Catolica Andres Bello, Venezuela; M.L.S. St. John's University, J.D. Duke University. *Reference Librarian*

Allan Ryan, B.A., Providence College; M.L.S., Queens College. *Assistant Director of Technical Services*

Aru Satkalmi, B.S., M.S., University of Poona, India; M.L.S., St. Johns University; M.S., St. John's University. *Senior Research Librarian*

Academic Service-Learning

As an added means of fulfilling its Mission Statement, the University inaugurated its Academic Service-Learning Program in 1995. This program facilitates the implementation of the Mission Statement by members of the University community and calls on them to be mindful of its Vincentian character and tradition as many of the service projects focus on the poor, the marginalized, immigrants and groups and individuals with special needs. The Mission Statement commits the University to community service programs, which combine with reflective learning to enlarge the classroom experience.

In Academic Service-Learning, faculty specialists in the professions or in the humanities link service to the community with academic and career goals. A variety of assignments challenge students to achieve carefully crafted teaching objectives in an experiential hands-on setting, through reflection and analysis while experiencing the value of service. Since its inception, the program has been adopted as a teaching method by faculty in every department from fine arts to pharmacy, marketing to modern languages. Their support clearly shows that students learn better when exposed to the real-life context of the classroom issues—when challenged by community needs and called to offer their best to the people they encounter.

There are many opportunities for a St. John's education to include an Academic Service-Learning component as the program has expanded and is available on all campuses—Queens, Staten Island, Manhattan and Oakdale as well as Globally in Rome, Paris, Selamonca and more. For further information about the program, you may contact James Salnare, M.A., Director of Academic Service-Learning, (718) 990-2708 or e-mail salnarej@stjohns.edu.

Guidelines Determining Eligibility for Students with Disabilities

- St. John's University students requesting accommodations for a disability must present documentation of the disability to the student life administrator on the appropriate campus for verification of eligibility.
- The evaluation must have been completed by a qualified, certified and/or licensed professional (physician, health care provider, psychologist/psychiatrist) who has experience with an adolescent and adult population. The professional's credentials must appear on the documentation and the documentation must be dated within three years of the request for accommodation.
- The evaluator must include in the test report evidence that instruments selected are reliable and valid for use with an adolescent or adult. Documentation of an impairment

alone may not be sufficient to require that the student be provided a reasonable accommodation. It must be demonstrated that the impairment rises to the level of a disability according to the Americans with Disabilities Act. For example, the impairment must substantially limit or restrict a major life activity as compared to the average person in the general population.

- The student life administrator will review the documentation and the request for accommodation will be determined. When necessary, specific academic units will be consulted regarding the accommodation requested. If the presented documentation is sufficient the student will meet with the student life administrator regarding appropriate accommodations at St. John's University.
- A student, having dissatisfaction with the decision for accommodation granted, has the right to appeal the decision in accordance with the University's "Policy Against Discrimination and Sexual Harassment and Related Grievance Procedures."
- The student life administrator may be contacted regarding specific documentation required or for explanation of this policy.

All documentation will be kept confidential in accordance with legal requirements and should be submitted directly to:

Students

Seventy-eight percent of first-time, full-time baccalaureate degree seeking freshman who entered in the Fall of 2008 returned in the Fall of 2009. Fifty-eight percent of first-time, full-time baccalaureate freshman who entered in the Fall of 2003 graduated within six years.

Our teacher preparation program is approved by the New York State Education Department and is accredited by the Teacher Education Accreditation Council (TEAC). Ninety-four percent of students on the Queens campus and ninety-five percent of students on the Staten Island campus who graduated from a teacher preparation program at St. John's University during the 2008-2009 academic year took and passed the New York State Teacher Certification exams, compared to 95% state-wide. As of Fall 2009, there were over 1,700 students in teacher preparation programs. A student spends an average of 28 hours a week student teaching depending on the program. For more information, please see the Student Consumer Information web page at: http://www.stjohns.edu/about/general/consumer_information.stj.

Middle States Association of Colleges and Schools

State Education Department of New York

The University maintains membership in some 200 professional organizations.

Founded by the Vincentian Community. Chartered by the Regents of the University of the State of New York.

Queens Campus Facilities

Queens Campus, housing the principal administrative offices of the University, is located on a 95.5 acre tract in the Hillcrest section of the borough.

St. Albert the Great Hall houses the College of Pharmacy and Allied Health Professions and the science departments, Environmental Health and Safety. In addition to classrooms, science laboratories and faculty offices, the building also contains an auditorium and an animal care facility.

Carnesecca Arena, the athletic center, houses the main gymnasium seating approximately 5,000, an auxiliary gymnasium, various athletic activities rooms, coaches' offices, the Little Theatre and classrooms for hygiene and physical education. The Belson Soccer Stadium and varsity baseball field are also located on the Queens campus.

St. Augustine Hall, is the center of the University library system. The building includes among its special facilities seminar rooms, carrels, exhibition areas, the Health Education Resource Center, the Faculty/Department of Clinical Pharmacy Practice, Honors Program, the University Freshman Center and the Institute for Writing Studies.

St. John the Baptist Hall houses St. John's College, the Graduate Division of ESL Program, Gear Up, Committee on Latin American and Caribbean Studies. St. John's College of Liberal Arts and Sciences and the Division of Special and Opportunity Programs and the Chaplain. It contains fine arts studios, photography dark-rooms, classrooms and faculty offices.

St. Louise de Marillac Hall houses the Department of Institutional Advancement, Campus Ministry and the closed-circuit Television Center. Additional facilities include classrooms, faculty offices, the Counseling Center, Office of University Events, an auditorium and a food court. Marillac Terrace is a glass fronted extension of Marillac food court with seating for over 400. The lower level of this extension houses the University Bookstore.

Founders Village is the on-campus housing environment that contains one residence (upper floors of St. Vincent de Paul Hall) and five townhouses that were recently constructed.

Residence Village is the on-campus housing environment that contains the six residence buildings, O'Connor Hall, Carey Hall, DaSilva Hall, Century Hall, Donovan Hall, Hollis Hall, Montgoris Dining Hall, and the women's softball field.

DaSilva Hall houses the Office of Health Services (entrance on the Mall).

D'Angelo Center houses Office of Student Life, mailboxes and offices for student organizations and locker rental services, Board Room, Multipurpose Room, lounges, meeting rooms, seminar rooms, classrooms, Division of Student Affairs Office, Dining Room and Coffee House

Donovan Hall houses the Office of Residence Life and a satellite mail room (entrance behind Donovan Hall at garden level).

O'Connor Hall houses the Learning Communities (entrance at rear of building).

St. Thomas More Church is a freestanding church that houses the Campus Ministry office.

Lourdes Hall houses Global Studies and VISA.

Council Hall houses Global Language and Culture Center.

Newman Hall houses the central University executive and administrative offices. It also houses the University Computer Center, Enrollment Management, International and Graduate Admission, Office of Institutional Research, Registrar, executive offices for University Ministry and University Events, Office of Financial Services (Financial Aid/Bursar) and Information Technology.

University Center, Marketing and Communications, The C.A.U.S.E. trailer is located directly behind the University Center.

The Rev. John B. Murray House is the recently constructed residence that provides living accommodations for the Vincentian Fathers and is located near St. Thomas More Church. The spacious, three-story building boasts a common living room with a working fireplace, a reading area/library, chapel and dining room.

St. Vincent de Paul Hall houses St. Vincent Café and Student Government Patio can be accessed from the rear of the building, the Office of Undergraduate Admissions on the lower level. The recently converted upper floors will be utilized for additional on-campus housing for Ozanam Scholars.

The Second Lt. Thomas J. McDonald Reserve Training Center is named for a distinguished alumnus of St. John's College who was killed in World War II. It was erected by the federal government on a portion of the campus leased from the University. The reserves will be relocating and the building will be utilized by the University. Facilities and Construction, Public Safety, Storm Card Office, Printing and Distribution, University mail services and the ROTC facilities are housed here.

Belson Hall and **Finley Hall** house the School of Law, including the Office of the Dean, Registrar, Admissions, Career Services, Clinics, the Law Library, the Writing Center, the Belson Moot Court Room, classrooms, faculty offices, student lounges, a cafeteria and other areas to support the School of Law.

Sun Yat Sen Hall houses the Center of Asian Studies, Chung-Cheng Art Gallery and Faculty Lounge.

Bent Hall houses The Peter J. Tobin College of Business, College of Professional Studies, Office of Study Abroad Program, Professional Development and Training Center, the Division of Student Affairs. It also contains faculty offices, an auditorium and Asian Studies and Student Financial Services (One Stop Shop).

Sullivan Hall houses the offices of The School of Education, as well as the Academic Technology Center, classrooms, lecture rooms and special purpose teaching facilities.

Chiang Ching-Kuo Hall houses the Office of Human Resources and Payroll.

Seton Complex is the off-campus student housing that contains the Speech & Hearing Center, Center for Psychological Services and the Reading and Writing Education Center.

De Paul Complex is the off-campus student housing.

The Dr. Andrew J. Bartilucci Center is a recently acquired 40,000 square foot building. The facility is utilized for instruction in some academic programs and various certificate programs offered by the College of Pharmacy and Allied Health Professions.

Henley Road off campus housing

Taffner Field House

The facility houses:

Department of Athletics:

- (2) varsity basketball courts, with amenities for volleyball poles
- (2) teams' locker rooms, bathrooms, shower rooms, and lounges for the men's and women's players
- Office level with (2) private bathrooms, locker rooms and pantries to accommodate the men's and women's basketball coaches
- A weight training room, and medical training room, designed specifically for basketball
- A team classroom
- A basketball equipment storage room.
- (2) recreational basketball courts, with amenities for volleyball poles
- (2) recreational locker rooms, bathrooms, shower rooms
- Recreational gathering area featuring a community lounge and cafe,
- A recreation equipment storage room.

Staten Island Campus Facilities

Staten Island Campus the Notre Dame Division of STJ, is located on Grymes Hill in the borough of Richmond.

Flynn Hall, the Administration building, houses the offices of the Academic Vice President and the Assistant VP and Executive Director. Also in this building is the Center for Counseling and Consultation, and Ozanam Scholars/Academic Service Learning Programs, the Dean's Office of St. John's College of Liberal Arts and Sciences and the Boardroom.

Spellman Hall houses the following offices: The Peter J. Tobin College of Business, Graduate and Undergraduate Divisions and faculty offices, Public Safety, and Spellman Café. A large conference room is located in the west end of Spellman Hall.

Lavelle Hall contains classrooms, the St. Vincent DePaul Chapel, an office for Campus Ministry, the Career Center and the Office of Institutional Advancement/Alumni Relations.

Mahoney Hall provides classrooms, the Writing Center, Honors Classroom and Lounge and the speech laboratory. The Rathskeller/ Student Lounge, located on the lower level, is a multi-function student space and is equipped with vending machines.

The Loretto Memorial Library is committed to the teaching and learning processes by providing information resources and instructional services. It contains over 134,000 volumes of books, periodicals, microfilm and microfiche which support the undergraduate and graduate programs of the University. An instructional program provides training in the use of library materials through class lectures, orientation programs and individual instruction.

Computer terminals located throughout the library provide access to numerous databases, including the catalogs of three St. John's libraries and other consortium libraries, journal citation databases and full-text document services. Cooperative arrangements with other libraries provide regional, national and international access to materials. The library also contains the Language Laboratory.

Kelleher Center houses Admissions and the Office of Student Enrollment Services along with the Fitness Center and Bookstore and various meeting spaces, to include the Kiernan Suite

Campus crime statistics as reported to the United States Department of Education can be accessed online at <http://new.stjohns.edu/educationlaw>. In addition, the Advisory Committee on Campus Safety will provide upon request all campus crime statistics as reported to the United States Department of Education.

Notre Dame House Facilities office, Campus Ministry and garage are in this building.

Campus Center On the second level of this building is the gym, on the lower level the cafeteria, Student Life offices, student government and health offices.

Rosati Hall The College of Professional Studies, their offices and faculty are housed here.

DaSilva Center Housed in this building, on the third floor, are faculty offices for St. John's College and the School of Education. On the second floor are classrooms and the School of Education Deans office. On the first floor is the computer lab and School of Education Teaching & Learning Classrooms.

Resident Housing The students are housed in apartments adjacent to St. John's University.

Directions to Queens Campus

By Automobile

From Long Island: Northern State Parkway onto Grand Central Parkway, exit at 188th Street. Left at light and sharp right onto service road; continue to campus; or exit at 168th Street, right turn onto service road and continue to campus.

Southern State Parkway to Cross Island Parkway (North) onto Grand Central Parkway (West); proceed as above.

Long Island Expressway, exit at Utopia Parkway (exit 25), left on Utopia to Union Turnpike.

From the Bronx: Triboro Bridge to Grand Central Parkway (East), exit at Utopia Parkway. Left at light to campus.

Throgs Neck Bridge to Clearview Expressway (South) to Union Turnpike (West) exit. Right on Union Turnpike to Gate 4 (175th Street).

From Westchester, Rockland and Connecticut:

Proceed as from the Bronx.

From Brooklyn: Jackie Robinson (Interboro) Parkway onto Grand Central Parkway, exit at Utopia Parkway (exit 25). Left at light to campus.

Belt Parkway to the Van Wyck Expressway, exit at Main Street, continue to Union Turnpike, right to campus.

From Manhattan: Queens Midtown Tunnel onto Long Island Expressway, exit at Utopia Parkway (exit 25), right on Utopia to Union Turnpike.

From New Jersey: George Washington Bridge onto Cross Bronx Expressway to Throgs Neck Bridge to Clearview Expressway (South). Proceed as under Bronx above. Verrazano-Narrows Bridge to Belt Parkway to Van Wyck Expressway. Proceed as under Brooklyn.

By Public Transportation

IND: "E" or "F" train to Union Turnpike - Kew Gardens station. Q46 bus to Utopia Parkway and Union Turnpike.

"F" train to 169th St. station. Q30 bus or Q31 bus to St. John's University.

IRT: Flushing subway to Main St., Flushing; Q17 bus to Utopia Parkway and Long Island Expressway. Transfer to Q30 or Q31 bus for St. John's University.

LIRR: Jamaica Station. Q30 or Q31 bus to 169th St. and Hillside Ave. Flushing station. Q17 bus to Utopia Parkway and Long Island Expressway. Transfer to Q30 or Q31 bus for St. John's University.

Bus: Express bus from Manhattan to Queens campus via Union Turnpike. Additional bus lines serve the immediate vicinity from Nassau, Queens, Brooklyn, Manhattan and the Bronx.

Directions to Staten Island Campus

By Automobile

From Manhattan: West Side Highway or F.D.R. Drive to Brooklyn-Battery Tunnel. Follow signs "Staten Island" and/or "Verrazano-Narrows Bridge" to Staten Island. Take Staten Island Expressway (Interstate 278) West to the Richmond Road/Clove Road exit. Proceed on service road past two traffic signals and turn right at the third (Clove Road). Turn right at the next traffic light (Howard Avenue) and proceed approximately one mile on Howard (eight minutes from bridge).

Take the Staten Island Ferry from South Ferry, Manhattan to St. George, S.I., and proceed as from St. George.

From St. George: Proceed straight into Bay Street. Turn right at Victory Boulevard. At Eddy Street (opposite Silver Lake), turn left. At the end of Eddy Street turn right on Howard Avenue to Greta Place which leads to the campus.

From Brooklyn: Belt Parkway or Brooklyn-Queens Expressway to Verrazano-Narrows Bridge; proceed as from Manhattan.

From New Jersey: Via Bayonne or Goethals Bridge, stay on Staten Island Expressway (Interstate 278 East) to the Richmond Road/Clove Road exit. Follow service road to first traffic light. Turn left onto Clove Road. Turn right at Howard Avenue (second light) and proceed approximately one mile on Howard. Campus is on the left. Via Outerbridge Crossing—follow West Shore Expressway (Rte 440N) to Staten Island Expressway (278 East) and proceed as above.

By Public Transportation

From Manhattan: Staten Island Ferry from South Ferry, Manhattan to St. George, S.I., and follow directions from St. George to the campus.

From St. George, S.I.: Buses marked S61, 62, 66, or 67. Get off at Clove Road and Victory Boulevard and transfer to Grymes Hill Shuttle bus direct to Arlo Road, adjacent to the campus.

From Brooklyn: Take the S53 bus (at 86th St. and Fourth Avenue) across Verrazano-Narrows Bridge to Clove Road and Howard Avenue. Transfer to Grymes Hill shuttle bus direct to Arlo Road, adjacent to the campus.

Directions to Manhattan Campus

By Automobile

From Western Upstate New York: New York State Thruway to Route 81 south, to Route 17 East, to New York State Thruway at Harriman, New York. Proceed to Palisades Parkway, to George Washington Bridge, to Henry Hudson Parkway, which becomes the West Side Highway South. Proceed past Canal Street, past Borough of Manhattan Community College, and turn left on Murray Street.

From Eastern Upstate New York: Take the Major Deegan Expressway (Route 87) to the Triboro Bridge, cross the bridge to Manhattan and onto the FDR Drive South. Exit at 23rd Street. Proceed west on 23rd Street across town to the West Side Highway (West Street). Turn left and go past Canal Street, past the Borough of Manhattan Community College, and turn left on Murray Street.

From New Jersey: Proceed through the Holland Tunnel to Canal Street; go past Hudson Street and turn right on Varick Street, which feeds into West Broadway. Stay on West Broadway to Murray Street, turn right on Murray Street, and proceed two blocks to the campus.

From Long Island: Take the Long Island Expressway to the Midtown Tunnel. Proceed west to the West Side Highway (West Street). Make a left turn and go past Canal Street, past the Borough of Manhattan Community College, and turn left on Murray Street.

Pay parking is available at Park Right Corp. at the corner of West Street and Murray Street, near the Embassy Suites.

By Public Transportation

INT Trains

A, C, E Trains: Take subway to Chambers Street station. Walk south on Church Street. Walk west on Murray Street to campus.

N, R Trains: Take subway to City Hall station. Walk south on Broadway. Walk west on Murray Street to campus.

IRT Trains

1, 2, 3, 9 Trains: Take subway to Chambers Street station. Walk south on West Broadway. Walk west on Murray Street to campus.

4, 5, 6 Trains: Take subway to Brooklyn Bridge/City Hall station. Walk south on Park Row. Walk north on Broadway. Walk west on Murray Street to campus.

NJ Path Trains

From New Jersey: Take 33rd Street train to Christopher Street station. Take 1,9 trains to Chambers Street station. Walk south on West Broadway. Walk west on Murray Street to campus.

From 33rd Street/Herald Square: Take Hoboken train to Christopher Street station. Take 1, or 9 trains to Chambers Street station. Walk south on West Broadway. Walk west on Murray Street to campus.

NY Waterway Ferries

Hoboken South, NJ—World Financial Center: Walk north on North End Avenue. Walk east on Murray Street to campus.

Colgate, Jersey City, NJ—World Financial Center: Walk north on North End Avenue. Walk east on Murray Street to campus.

Port Imperial, Weehauken, NJ—World Financial Center: Walk north on North End Avenue. Walk east on Murray Street to campus.

Directions to Oakdale Location

By Automobile

From the Long Island Expressway (L.I.E.)

Eastbound: Take L.I.E. (I-495) eastbound to Exit 53S, south to Sagtikos State Parkway to Exit S4/Southern State Parkway eastbound. Then, follow directions from Southern State Parkway.

From the Southern State Parkway

Eastbound: Use Exit 44 East (Montauk), and get on Sunrise Highway (27) eastbound. Follow directions from Sunrise Highway west of Oakdale.

From Sunrise Highway west of Oakdale:

Take Sunrise Highway (27) eastbound until you see a sign for Oakdale–Montauk Highway (Rte. 85). Exit Sunrise Highway on your right, and at the light, make a left turn. Bear right going over a small bridge. From here, follow directions “From Oakdale” (below).

From Oakdale: Drive through Oakdale passing 5 traffic lights. (The Oakdale shopping plaza is on your left after the 5th light.) After this light, you should see the west entrance of the campus on your right. Enter the campus and proceed until you come to a gate. Turn left. “The Mansion” (Administrative Offices) is approximately 100 feet on your right.

From Sunrise Highway east of Oakdale:

Take Sunrise Highway (27) westbound to Exit 48, Locust Avenue / Oakdale - Bohemia. At the light, make a left onto Locust Avenue south. Proceed southbound on Locust for 2 miles until you reach the end, which is Montauk Highway (27A). Make a right onto Montauk Highway, and take your immediate left onto the west entrance of the campus. Proceed until you come to a gate. Turn left. “The Mansion” (Administrative Offices) is approximately 100 feet on the right side.

By Public Transportation

From New York City: Take LIRR to the Oakdale Station. Take the Suffolk County Transit Bus S40 bus east on Montauk Highway to Oakdale’s main entrance on Montauk Highway.

From Eastern Long Island: Take LIRR to the Sayville Station. Take the Suffolk County Transit Bus S40 bus west on Montauk Highway to Oakdale’s main entrance on Montauk Highway.
