

Game Console Wi-Fi Registration

This document outlines the process for connecting gaming consoles to **SJUGuest**.

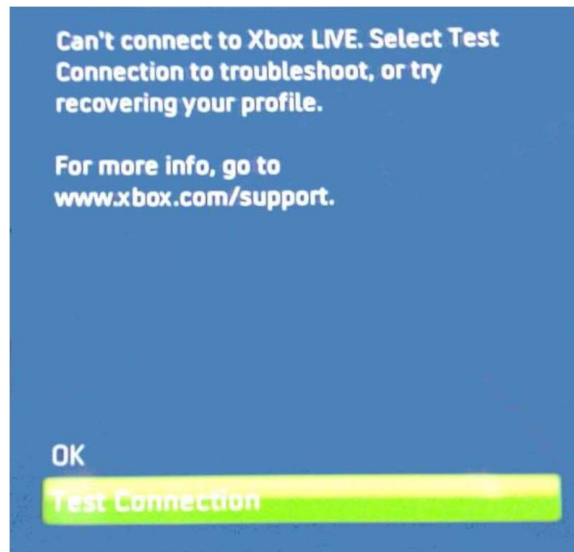

Contents:

Xbox	2
Xbox One	3
Wii	4
Wii U	5
PS3	6
PS4	7

Xbox

1. Connect the Xbox to **SJUGuest**.
2. The initial attempt at connecting may fail at this time.

3. Sign in to Xbox Live via the Xbox Dashboard.

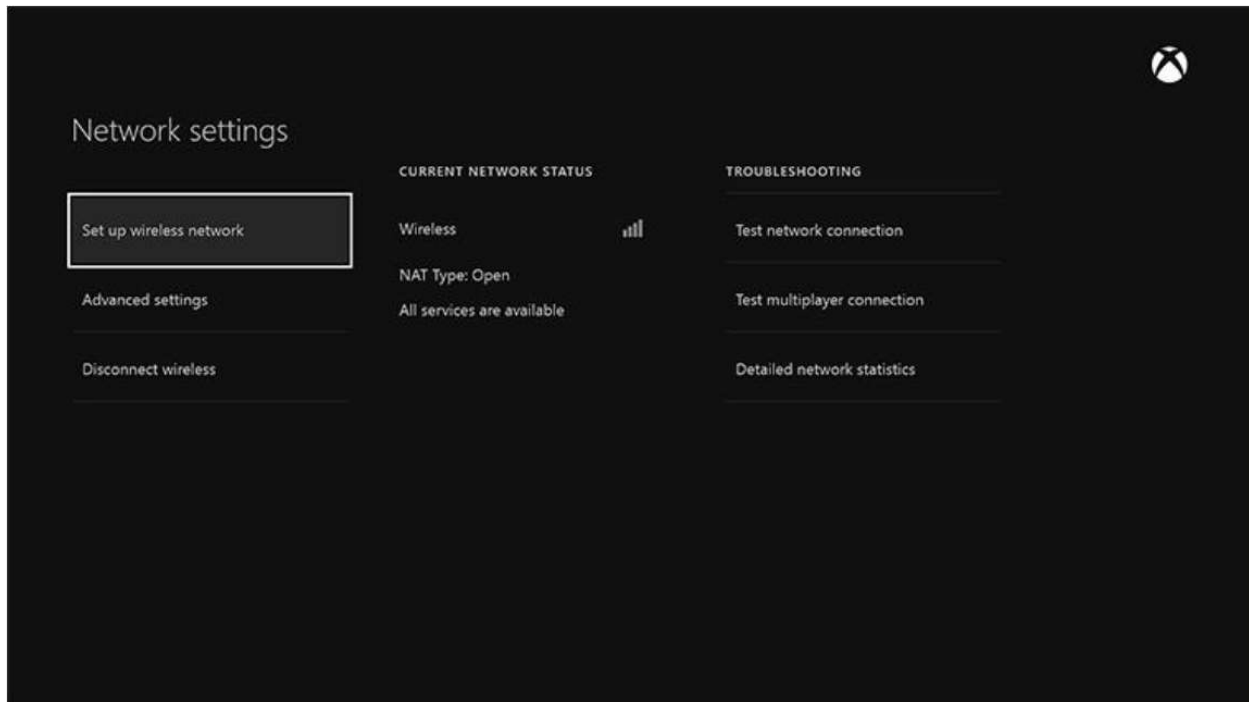

4. The device should now be successfully connected to the network.

Xbox One

Connect the Xbox to the network and run a Network Connection Test on your console, following these steps:

1. Scroll left from **Home** to open the guide.
2. Select **Settings**
3. Select **All Settings**
4. Select **Network**
5. Select **Network Settings**. Any known outages will appear in the middle of the screen.
6. On the right side of the **Network settings** screen, select **Test network connection**.

7. The device should now be successfully connected to the network.

Wii

1. Make sure that Internet Channel is installed on the device.
 - a. If Internet Channel is not installed, please contact the service desk at 718-990-5000.
2. Connect the Wii to **SJUGuest**.
3. Open the Internet Channel from the home screen and click “**start**”.

4. Attempt to search/access an external web resource.
5. The device should now be successfully connected to the network.

Wii U

1. Make sure that Internet Channel is installed on the device.
 - a. If Internet Channel is not installed, please contact the service desk at 718-990-5000.
2. Connect the Wii U to **SJUGuest**.
3. Open the Internet Browser from the home screen and click “start”.

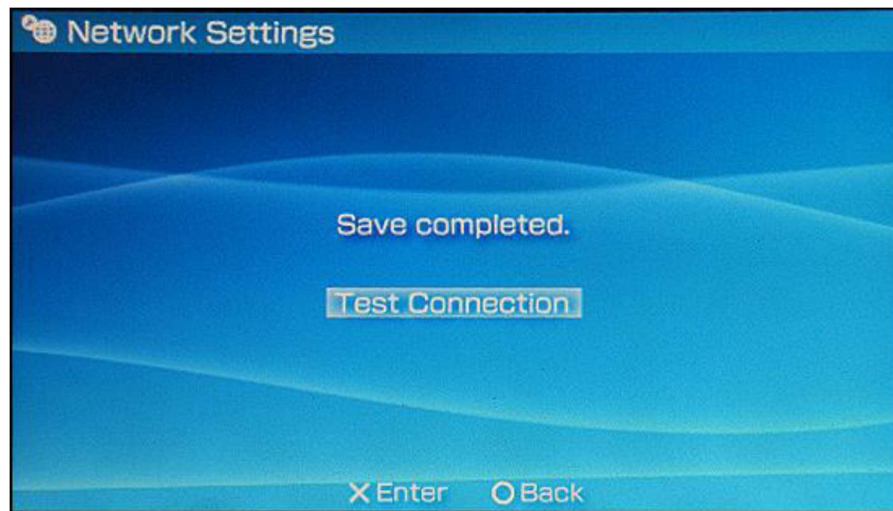

4. Attempt to search/access an external web resource.
5. The device should now be successfully connected to the network.

PS3

1. Connect the PS3 to **SJUGuest**.
2. When configuring the internet connection, skip the “Test Connection” option as this test may fail the first time.

3. Sign in to the PlayStation Network via the XMB

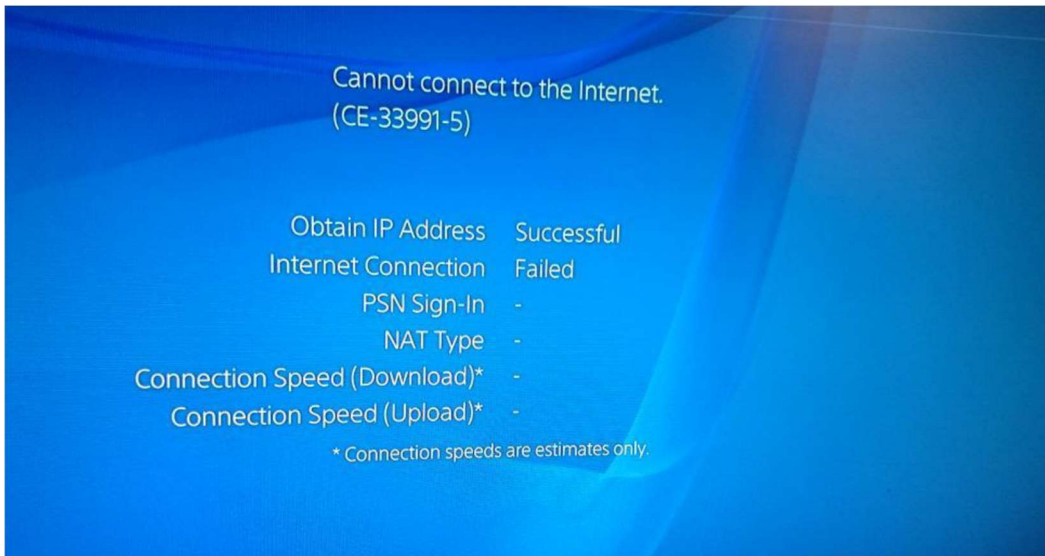

4. The device should now be successfully connected to the network.

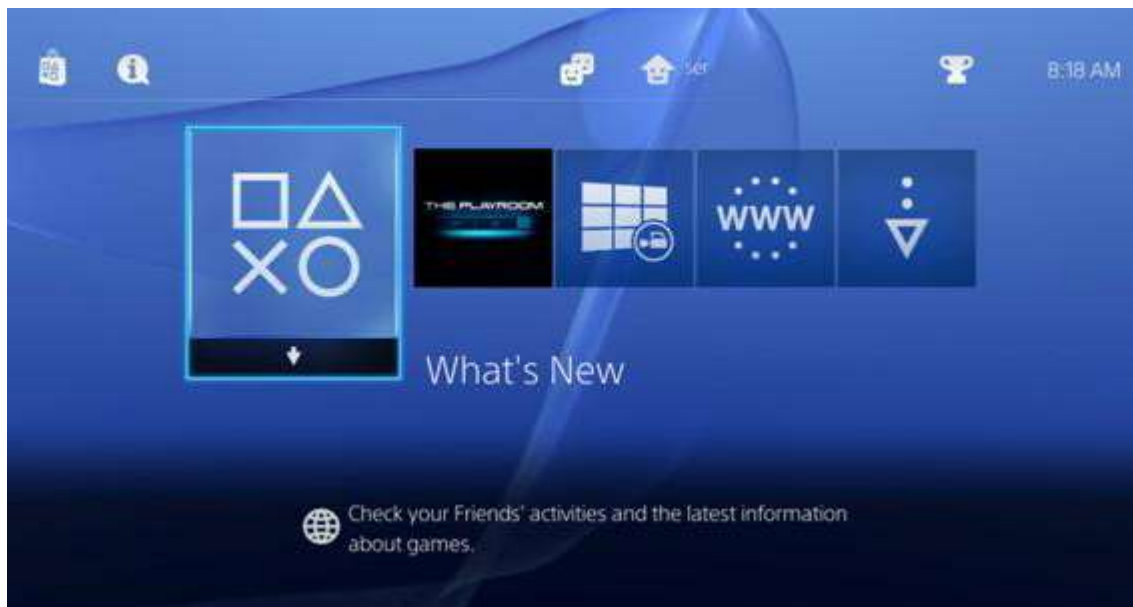

PS4

1. Connect the PS4 to **SJUGuest**.
2. When configuring the internet connection, skip the “Test Connection” option as this test may fail the first time.

3. Sign in to the PlayStation Network via the XMB.

4. The device should now be successfully connected to the network.
