Dear Future Johnny,

As a 1981 graduate of the Lesley H. and William L. Collins College of Professional Studies, I take great pride as serving as Interim Dean. The faculty, administrators, and staff of CCPS strived to develop well-rounded professionals capable of integrating theoretical knowledge with applied concepts learned through classroom, practice, online activities, local and global service-learning, and academic and career-focused internships.

Innovative and fast-paced professional programs – in communication arts, computer science, criminal justice, cyber security, homeland security, journalism, legal studies, sport management, and television and film, to name just a few - embed foundational liberal arts principles in the various professions, cultivating both general and specialized competencies.

Most importantly, our College attracts students from diverse backgrounds and life experiences, who each in their own way enrich our learning community. CCPS faculty, administrators, and staff are dedicated to the success of each student, and carefully customize academic paths to match individual interests and credentials with the skills needed in our evolving society.

We invite you to learn more about our offerings.

Glenn Gerstner, Ed.D.
Interim Dean
Associate Professor of Sport Management
The Lesley H. and William L. Collins College of Professional Studies
