**ROME
SEMESTER**

THE PROGRAM

Imagine yourself studying in Rome! In the course of a day, you may encounter the remnants of Ancient Rome, like the Coliseum, before discovering sites of Renaissance Rome, like the breathtaking Trevi Fountain or the Spanish Steps. And what better way to immerse yourself in the history and culture of Rome than by drawing it? Spend a semester taking our popular Italian Sketchbook course and use the architecture, landscape, and the culture of Italy as subjects. Students participating in the semester program in Rome have the time to fully immerse themselves in the country's rich culture. Whether by volunteering at a local school or simply participating in our weekly excursions, you're sure to enjoy *la bella vita!*

Photographs taken by program participants.

HOUSING

Located in the Prati neighborhood, just minutes from the Vatican City and other historic locations, our Rome campus is your base while exploring Italy. The amenities in this home away from home include three kitchens, WI-Fi, air-conditioning, a computer lab, and a beautiful interior courtyard. Home-stays are also available during the spring semester for those looking to truly immerse themselves in the Italian culture.

MEALS

Students staying on campus receive meal vouchers each week that they can use in restaurants and grocery stores all over the city. Students interested in cooking for themselves, can bring food back to campus and use one of three shared kitchens. Students in home-stays enjoy meals with their host family four days a week.

ACADEMIC SERVICE-LEARNING

Helping to change lives is an inspiring experience—one that sets studying abroad with St. John's apart. In the past year, our students committed thousands of hours to service sites worldwide. You'll make a real difference through activities like teaching English to local students, serving in soup kitchens, and sorting clothing donations. Best of all, volunteering lets you actively engage with the people in your new host city.

EXCURSIONS

Students have the option of participating in weekly activities within Rome, such as a Papal Audience and a visit to the Villa d'Este gardens. In addition, students travel to places like Tuscany and Campania for the weekend (depending on the semester) and Sicily for four days. These excursions are designed to meld intellectual adventure with beautiful sites and gastronomical treasures. And if you're interested in mastering Italian, be sure to participate in a language exchange with local students.

Also included in the program:

- comprehensive health insurance
- 24/7 emergency on-call support
- bilingual on-site staff assistance
- 24-hour security
