

Through the St. John's University EducationUSA Academy Connects online program,
“US HIGHER EDUCATION: KNOWING YOUR OPTIONS AND FINDING THE RIGHT FIT,”
discover where your interests lie, what options are available to you through US higher
education, and what pursuing a degree in the US means academically, financially, and socially.

“The EducationUSA Academy Connects program exceeded all of my expectations as I learned about US higher education and how it functions. I was concerned about the opportunities available to me in the US as an international student, but after talking with students and professors, I was encouraged to begin the application process.”

“This program gave me so many tools to help in the college process. I connected with new people, and now I have friends from different countries. I even have teachers that I know I can contact with questions.”

DATES: June 2–July 12, 2022 (Classes Tuesday and Thursday, 8 a.m. EDT, 11 a.m. EDT or 5 p.m. EDT)
