

ST. JOHN'S UNIVERSITY

THE PETER J. TOBIN
COLLEGE OF BUSINESS

Maurice R. Greenberg
School of Risk Management, Insurance and Actuarial Science

**PROGRAM
OFFERINGS**

SINCE 1901 THE MAURICE R. GREENBERG SCHOOL OF RISK MANAGEMENT, INSURANCE, AND ACTUARIAL SCIENCE (GSRM) HAS BEEN AT THE FOREFRONT OF EDUCATION IN RISK MANAGEMENT AND INSURANCE.

The Greenberg School is internationally recognized as a global leader in insurance education by the International Insurance Society and as a global leader in actuarial science education by the Society of Actuaries. These prestigious recognitions motivate candidates to apply from all over the world.

All of the degree programs offered by The Peter J. Tobin College of Business, and thus by GSRM, are fully accredited by the Association to Advance Collegiate Schools of Business (AACSB).

KATHRYN AND SHELBY CULLOM DAVIS LIBRARY

The library's beginnings date back to 1901 when insurance executives founded The Insurance Society of New York, and is located at St. John's Manhattan campus. Today, the Davis Library remains one of the world's most comprehensive risk, insurance and actuarial science collections, serving students, faculty, scholars, and industry practitioners seeking specialized knowledge in these areas.

International Insurance Society Global Center of Insurance Excellence

Recognition as a Global Center of Insurance Excellence by the International Insurance Society is awarded to universities and colleges with outstanding risk management and insurance programs. It is based on the scholarship of a university's faculty, the academic program's connection to the insurance industry, and the success of students graduating from the program. The recognition has been awarded to only 19 colleges and universities in the United States and only 34 worldwide.

Society of Actuaries Center of Actuarial Excellence (CAE)

St. John's University is one of 20 institutions in the United States with this designation. The CAE designation recognizes an actuarial program for its curriculum's preparation of students for professional examinations and its integration with other areas of business education. The designation is also based on the success of the students in the program, the scholarship of the faculty leading the program, and the connection of the program to the actuarial science profession in the risk management and insurance industry.

Center for Excellence in Enterprise Risk Management

The Center for Excellence in Enterprise Risk Management brings together students, academicians, executives, and board members for the purpose of developing and sharing knowledge, tools, and best practices in enterprise risk management. The center hosts a prestigious enterprise risk management summit each semester and attracts some of the top risk leaders from around the world.

Center for the Study of Insurance Regulation

Established in 2013, the center enhances awareness of GSRM as a hub for thought leadership in the field of insurance. It creates a forum for candid discourse on the subject of insurance regulation among business leaders, lawmakers, educators, and others involved in developing and implementing public policy affecting the business of insurance in the US and globally. Working with the Society for Law & Insurance, Inc., the center hosts an annual conference on regulatory topics in insurance and sponsors other related activities.

M.S. in Actuarial Science

30 CREDITS | MANHATTAN CAMPUS AND ONLINE | FALL START ONLY

The M.S. in Actuarial Science program is offered on the Manhattan campus and online. You can enroll on campus, online, or a combination of the two. It is a full-time program that is completed in three semesters, with classes offered during the day.

The program offers the opportunity to earn Society of Actuaries (SOA) credits for the following exams: FM, FAM-S, ASTAM, and SRM.

Students accepted into this program are automatically considered for scholarships based on their academic qualifications. Scholarships range from \$5,000 to full tuition and may increase based on the passage of SOA/CAS exams. Applicants who pass Exam P and another SOA/CAS exam prior to the start of classes are eligible for the Promise Scholarship with a value up to \$40,000. Total scholarship support, including the Promise Scholarship, cannot exceed the cost of tuition.

Program Structure

ACT 600	Actuarial Economics (Validation by Educational Experience – Economics)
ACT 601	Financial Mathematics I (EXAM FM)
ACT 602	Financial Mathematics II
ACT 603	Actuarial Modeling I (EXAM FAM-S)
ACT 604	Actuarial Modeling II (EXAM ASTAM)
ACT 610	Mathematical Statistics (Validation by Educational Experience – Mathematical Statistics)
ACT 611	Statistics for Risk Modeling (EXAM – School of Risk Management)
ACT 615	Introduction to Long-term Actuarial Modeling
RMI 621	Risk Project
RMI 660	Finance for Actuarial Science (Validation by Educational Experience – Accounting and Finance)

STEM Visa Extension for International Students

The Master of Science in Risk Management and Risk Analytics is a science, technology, engineering, and mathematics (STEM) field of study. Students with an F-1 visa who complete this field of study may be eligible to receive a STEM-based optional practical training (OPT) extension. Contact the International Student and Scholar Services Offices at 718-990-6083 or iss@stjohns.edu for additional information.

M.S. in Enterprise Risk Management

30 CREDITS | MANHATTAN CAMPUS | ONLINE

The M.S. in Enterprise Risk Management (ERM) program is offered both on the Manhattan campus and online. You can enroll on campus, online, or in a combination of the two. The University's campus in Queens also offers courses which may be applied toward the degree. It is available both full- and part time, with classes held in the evening. Full time students can complete the degree in as little as 18 months, and part-time students have up to five years to complete the program.

ERM recognizes the interdisciplinary nature of business activity and adopts an enterprise-wide approach to managing the myriad of risks an organization faces. The curriculum is designed for students who want to learn about corporate risk management, risk consulting, public accounting, internal audit, and enterprise risk management. The degree offers flexibility so that you can take electives to tailor the degree to your professional and intellectual interests. You can choose electives in analytics, banking, consulting, cyber, finance, forensics, insurance, technology, and more.

Students accepted to this program are automatically considered for scholarships based on their academic qualifications. Scholarships range from \$5,000 to full tuition. Program applicants are also eligible to apply for the full-tuition Insurance Leader of the Year Fellowship.

Program Structure

ERM 601	Foundations to Enterprise Risk Management
ERM 603	Culture, Leadership, and Governance Risk
RMI 601	Risk Management
RMI 602	Risk Research Methods
FIN 607	Financial Management
FIN 628	Market Risk Management
ERM 705	Strategic Risk Analytics and Tools
Three graduate business electives	

STEM Visa Extension for International Students

The Master of Science in Enterprise Risk Management is a science, technology, engineering, and mathematics (STEM) field of study. Students with an F-1 visa who complete this field of study may be eligible to receive a STEM-based optional practical training (OPT) extension. Contact the International Student and Scholar Services Offices at 718-990-6083 or iss@stjohns.edu for additional information.

M.S. in Risk Management and Risk Analytics

30 CREDITS | MANHATTAN CAMPUS | ONLINE

The M.S. in Risk Management and Risk Analytics degree program (RMRA) is offered both on the Manhattan campus and online. You can enroll on campus, online, or in a combination of the two. The University's campus in Queens also offers courses which may be applied toward the degree. It is available both full and part time; classes are held in the evening. Full-time students can complete the degree in as little as 18 months, and part-time students have up to five years to complete the program.

This degree prepares you to thrive in professional positions in the insurance industry by providing you with the tools to identify, analyze, and manage risks, with particular focus on commercial risks that are traditionally insured, including property, liability, and human resource exposures.

Students accepted into this program are automatically considered for scholarships based on their academic qualifications. Scholarships range from \$5,000 to full tuition. Program applicants are also eligible to apply for the full-tuition Insurance Leader of the Year Fellowship.

Program Structure

RMI 601	Risk Management
ERM 601	Foundations to Enterprise Risk Management
RMI 602	Risk Research Methods
RMI 622	Dimensions of Risk Leadership: Executive Perspectives
RMI 688	Applications of Analytics and Technology to Insurance
RMI 700	Risk Management and Risk Analysis Capstone + Four RMRA Graduate Business Electives
Two of the four electives must be from any of the RMI, ERM, or ACT courses, or from three of the BUA courses in analytics.	

STEM Visa Extension for International Students

The Master of Science in Risk Management and Risk Analytics is a science, technology, engineering, and mathematics (STEM) field of study. Students with an F-1 visa who complete this field of study may be eligible to receive a STEM-based optional practical training (OPT) extension. Contact the International Student and Scholar Services Offices at 718-990-6083 or iss@stjohns.edu for additional information.

M.B.A. in Enterprise Risk Management

36 CREDITS | MANHATTAN CAMPUS | ONLINE

The M.B.A. in Enterprise Risk Management (ERM) uses case studies, real-world projects, and an experiential capstone course to transcend the normal classroom experience, while giving you a global perspective and connecting you with alumni and corporate executives. You can enroll on campus, online, or in a combination of the two. This program enables you to continue your full-time career while taking courses in the evening.

The ERM concentration reinforces the need for risk, uncertainty, and volatility to be managed at the strategic, financial, reputational, and operational levels of the organization. ERM has become the new global standard for how to run a business and to develop critical holistic thinking about business problems.

Students accepted to this program are automatically considered for scholarships based on their academic qualifications. Scholarships range from \$5,000 to full tuition.

Program Structure

M.B.A. in Risk Management

36 CREDITS | MANHATTAN CAMPUS | ONLINE

The M.B.A. in Risk Management (RMI) is designed for working professionals and consists of a broad-based business education with a focus on risk management and insurance. The program is offered both on the Manhattan campus and online. You can enroll on campus, online, or in a combination of the two.

The Risk Management concentration prepares you to work in one of the world's largest financial industries, with hundreds of challenging careers at numerous international insurance organizations. Artificial Intelligence, the Internet of Things, Big Data, and InsurTech are revolutionizing what traditionally may have been perceived as a staid and static industry.

Risk management is deeply involved in the current technological revolution, as demonstrated by the emergence of InsurTechs and increasing demand for coverage against cyber risks. The professional opportunities and compensation levels in the risk management and insurance industry have dramatically increased in recent years.

Students accepted to this program are automatically considered for scholarships based on their academic qualifications. Scholarships range from \$5,000 to full tuition.

Program Structure

M.B.A. CORE | 24 CREDITS

FIN 607	Financial Management
MGT 601	Managing for Global Success

GRADUATE BUSINESS | NINE CREDITS

Select three graduate-level business electives related to enterprise risk management.

ELLEN THROWER CENTER FOR APPRENTICESHIP AND CAREER SERVICES

Recruitment and human capital issues have been consistently identified as major concerns in the insurance and risk industry for more than a decade. McKinsey & Co.'s 2010 report "Building a Talent Magnet" developed recommendations in its call to action for the insurance industry and the Greenberg School of Risk Management (GSRM) responded with establishment of the Ellen Thrower Center for Apprenticeship and Career Services in 2011. Endowed with an industry-based gift, **The center is dedicated solely to the career advancement of students preparing for employment in the insurance and risk management arena.**

Staffed with experienced career development specialists, the center is a bustling hub of student and employer activity. Services range from résumé and interview preparation, individualized coaching, business communications, and job search strategies, to corporate information sessions, practice interview days, networking events, and direct résumé referrals for employers.

Both students and employers benefit from highly specialized attention and the results are impressive: **98 percent of the master's-level Class of 2022 who sought employment and had authorization to work secured jobs in the industry** through on-campus recruiting, direct recommendation, or internship activities. The center seeks to expand experiential learning engagements with partner companies, allowing them to tap into the GSRM's well-trained and emerging talent. Opportunities abound in the industry and GSRM students gain valuable experience as they differentiate themselves in the marketplace.

OUTCOMES

As institutions of all sizes integrate risk management into operations, there is a growing need across business sectors for those skilled in the management of risk. Insurance companies, in particular, have great demand for risk professionals.

The Ellen Thrower Center for Apprenticeship and Career Services supports the career objectives of Greenberg School students with personalized career advising and referrals. The Thrower Center hosts networking events that bring together students and industry professionals, including Greenberg alumni who hold positions throughout the risk management and insurance industry.

Scholarship and Fellowship Opportunities

Students admitted to any M.S. or M.B.A. program offered by the GSRM are automatically considered for merit scholarships that range from \$5,000 to full tuition.

Students admitted to the M.S. in Actuarial Science who have passed Exam P and another SOA/CAS exam are considered for the \$40,000 Promise Scholarship.

Students admitted to the M.S. in Enterprise Risk Management and M.S. in Risk Management and Risk Analytics programs are eligible to apply for the full-tuition Insurance Leader of the Year (ILOTY) Fellowship. More information and the application are available at www.stjohns.edu/ILOTY.

Many employers offer generous assistance to employees to advance their education. This, combined with scholarships and financial aid, can make a meaningful difference in your out-of-pocket costs.

Online Learning Advantages

St. John's University's fully accredited online learning programs allow you to take courses remotely. You can log in at your convenience to enter virtual classrooms, learn from accomplished Tobin faculty, and engage with classmates.

Online courses offer the same high academic quality that you experience on campus. Professors deliver lectures and post assignments via Canvas, the electronic learning management system. You attend virtual classes, share documents, take exams, and exchange ideas with faculty and classmates all on Canvas.

Online students also enjoy the outstanding services available to all St. John's students, including

- Eligibility for scholarships and financial aid
- Tuition and fees that are identical to those for on-campus courses
- Access to library collections, career services, mentoring, and other academic resources
