

Faculty Director Compensation Chart

Base compensation is determined by total enrollment across all programs the faculty director is administering according to the chart below (student loads of 10 or less do not qualify for a director position). Enrollment in programs is determined by the average Fall enrollment for the previous three years (e.g. enrollment that determines a program director's compensation in Fall '26 will be set by the average enrollment from Fall '23, '24, and '25):

Tier	Enrollment	Stipend	Step up	Course release
