Our Purpose

Breakthroughs that Change Patients' Lives

About Pfizer

At Pfizer, we apply science and our global resources to bring therapies to people that extend and significantly improve their lives. We strive to set the standard for quality, safety, and value in the discovery, development, and manufacturing of health care products, including innovative medicines and vaccines. Every day, Pfizer colleagues work across developed and emerging markets to advance wellness, prevention, treatments, and cures that challenge the most feared diseases of our time. Consistent with our responsibility as one of the world's premier innovative biopharmaceutical companies, we collaborate with health care providers, governments, and local communities to support and expand access to reliable, affordable health care around the world. For over 177 years, Pfizer has worked to make a difference for all who rely on us.

Two-Year Postdoctoral Fellowship

Global Access, Strategy & Pricing Fellowship - Oncology

This two-year fellowship opportunity was developed through a collaboration between St. John's University College of Pharmacy and Health Sciences, and Global Access, Strategy & Pricing (GASP), Oncology at Pfizer Inc. The program is designed to provide the fellow with a dynamic experience that is structured yet flexible.

Fellows will be exposed to multiple academic environments at St. John's University and gain hands-on experience in advanced techniques in the market access function at Pfizer Inc. During the 2 years of the program, the fellow will work with the Global Access, Strategy & Pricing (GASP) team, within oncology at Pfizer.

Outlined below is a brief description for each component of the fellowship program:

Pfizer Component

Throughout this unique two-year fellowship, the fellow will use her/his skills to make a positive impact on global oncology patient access.

During the fellowship, candidates will have the opportunity to:

- Work directly on access and pricing strategy for Pfizer's oncology portfolio, and see how those decisions influence patient access to innovative medicines across global markets
- Learn how payers evaluate new oncology medicines, including payer archetypes, evidence requirements, pricing and reimbursement pathways, and the impact of evolving healthcare policy across the US and major ex-US markets
- Design and generate payer market research, translating insights into recommendations that inform launch pricing, reimbursement, and launch strategies
- Develop value propositions and payer objection handlers to support access planning for launch assets
- Support access and pricing negotiation workshops with country teams and contribute to the development of innovative pricing and value-based agreement strategies

At the completion of the fellowship, candidates will:

- Gain proficiency in the field of market access
- Manage multiple projects and budgets to target and interact with third-party vendors to execute projects
- Determine appropriate action, execution, tracking, and monitoring of projects
- Develop strong networking skills and collaborative working relationships with preceptors and cross-functional teams

Professional, Fellowship
Coordinator, College of Pharmacy
and Health Sciences

Pfizer Pharmacy Fellowship Network (PPFN)

Chartered in 2014, the Pfizer Pharmacy Fellowship Network seeks to build a strong alumni network of fellows within Pfizer, whether they are current fellows or past fellows. The PPFN openly engages with fellows to take greater initiatives within the company in order to contribute to the industry and establish a strong foundation of mentorship.

Fellows from the following offices are involved in the PPFN:

New York, NY | Groton, CT | Collegeville, PA | La Jolla, CA | Chicago, IL

Pfizer Pharmacists Association (PPA)

Inaugurated in 2015, the Pfizer Pharmacists Association's mission is to leverage the unique perspective and skill sets of pharmacists with the purpose of realizing Pfizer's overall vision to deliver breakthroughs that change patients' lives. The PPA provides opportunities for pharmacy professionals to engage in activities focused on optimizing pharmacists' learning experiences and capitalizing on the talent pool to bring value to the Pfizer business.

In partnership with

St. John's University

The St. John's University College of Pharmacy and Health Sciences' Pharmaceutical Industry Fellowship Programs were developed to provide Doctor of Pharmacy degree graduates with a profound and unique learning experience leading to attainment of a competitive position in the pharmaceutical industry, upon culmination of the two-year program. In addition to the exceptional training and hands-on experience offered at each industry site from program directors and preceptors, fellows are provided with unique academic and scholarship opportunities through St. John's University under the mentorship of faculty within the Department of Pharmacy Practice. Primary fellowship goals and objectives are:

- Gain specialized training within the pharmaceutical industry
- Develop communication and leadership skills
- Develop teaching and research skills
- Enhance professional growth and development

Fellows at St. John's

The fellow will be a full-time St. John's University employee. A competitive stipend will be provided, as well as options for relocation assistance, comprehensive health, dental, and vision insurance. Each fellow is responsible for completing semester-long teaching requirements with the University and an additional fellowship research project that may include original research, or the development, enhancement, or evaluation of some aspect of operations or patient care services.

Upon Fellowship Completion

The fellow will receive a Certificate of Completion.

Additional Fellowship Opportunities

- Participate in a Teaching Excellence Certificate Program
- Precept Advanced Pharmacy Practice Experience (APPE) candidates (if applicable)
- Perform collaborative research with St. John's faculty
- Enroll with tuition remittance for Graduate Degree programs (Master's or PhD degrees)

In partnership with

Application Process

Eligibility:

Potential applicants for the St. John's University/Pfizer program must meet the following criteria:

- Be a graduate of an Accreditation Council for Pharmacy Education (ACPE) accredited Doctor of Pharmacy Program before beginning this fellowship in July 2027
- Possess a genuine interest in a career in the pharmaceutical industry
- Be eligible to work in the United States

How to Apply:

Application materials will be accepted beginning **October 1, 2026**. Please electronically send all required items and correspondence to stjfellowships@stjohns.edu.

Required Items	Submit by
Letter of Intent	October 23
Curriculum Vitae (CV)	October 23
3 Letters of Recommendation	October 27
Transcript	October 27

Scheduling an Interview:

Candidates will be notified by the program via email concerning the interview process.

Note: The fellowship will be headquartered at the Pfizer New York office located in Hudson Yards, New York. Professional development days will be organized by St. John's University.

Alliance of Industry Fellowship Associates Fellowship Offers

The choice of a Post-Doctoral Industry Fellowship is an important decision. AIFA exists to promote a consensus first offer date for all fellowship positions. We believe this is a positive reflection of the cultures our programs offer, and that culture is a critical consideration in choice of fellowship.

We hope that other academic and non-academic Fellowship Programs will NOT pressure candidates to accept offers prior to this AIFA-aligned offer date. Candidates should feel free to request an extension for any earlier offer to allow them to consider their options.

AIFA-aligned first offer date: December 11, 2026.

FELLOWSHIP ALUMNI

Where Are They Now?

Real experiences. Real impact. Real careers.

Our fellowship alumni go on to make an impact across the industry.

Abin Koshy

Senior Manager

Pfizer

“

The St. John's/Pfizer Fellowship challenged me, empowered me, and gave me a seat at the table from day one. Through meaningful experiences across HEOR and Global Market Access, I learned the value of cross-functional collaboration in advancing patient access worldwide. The confidence, mentorship, and opportunities I received transformed me from a learner into a leader and continues to influence the professional I am today.

”

“

Over the past two years, I have gained invaluable experience across HEOR and Global Market Access, strengthening my confidence in pursuing a full-time role. Without a doubt, the best part of this program is the team, whose commitment to mentorship and inclusion in high-priority projects has provided excellent opportunities for growth, skill development, and visibility across the organization.

”
