Purpose

The Summer Support of Research program is designed to foster an institutional culture of faculty research productivity. To this end, the University has made available a limited number of Summer Support of Research funds for full-time faculty. It is the expectation that this program will lead to scholarly productivity as well as the potential to increase our external funding. Therefore, recipients of support from this internal grant are required to submit an external proposal application within six months after summer’s end and the final report is provided to the academic dean and the Office of Grants and Sponsored Research.

Requirements

A faculty member accepting support under this program must:

a) Devote full-time effort to the research during two of the three summer months. For this reason, if a faculty member is currently involved in a grant program through the Office of Grants and Sponsored Research and is being compensated during the summer, he or she is ineligible to receive Summer Support funds.

b) If the faculty member is an award recipient of the Grant Mentoring Program, he/she is ineligible to receive summer support funds in the same year.

c) Exclude her/himself from summer teaching.

d) Submit to his/her Dean and the Office of Grants and Sponsored Research a report containing the details and outcomes of the research project by September 30, 2015.

e) Submit by February 28th, 2016 the application/s to an external funding source. The minimum external grant funding request must be $25,000.

f) Letters of Inquiry and pre-proposal submissions do not apply, and will not satisfy the applicant’s institutional obligation to submit a complete proposal to a federal, state or private sponsor.

g) Each applicant must bear the designation of Project Director or Principle Investigator, noting that their research is being conducted on behalf of St. John’s University. A Co-PI status will not fulfill the institutional obligation pertinent to this program.

h) Contact Adrianna Berlingerio, x6276 upon notification of award, so that she can assist you in identifying potential funding opportunities to which you can apply.

Amount of the Award

Individual awards of $10,000 will be granted to any one recipient or project for full-time summer research. The award will be dispersed in two installments. The recipient will receive $5,000 during the summer months and the remaining $5,000 once the external grant proposal has been submitted. Grant support goes directly to faculty as summer salary.
How to apply

Faculty members must submit two copies of this Summer Support of Research Fund Application, with an attached proposal narrative to the Office of Grants and Sponsored Research by Friday May 1, 2015.

Proposed narratives should not exceed 6 double-spaced typed pages. Proposals must contain the following:

a) Overview of the research
b) Goals and Objectives (both should be made distinct)
c) Projected Deliverables
d) Projected outcomes –including how this support correlates to the grant proposal that will be submitted to an external agency.
e) An indication as to how this proposal is significant to the department/division’s need and the faculty members plan for growth and development.
f) Identification of the agencies, foundations or other organizations to which external requests for grants will be made at the conclusion of the University grant.
g) List of published manuscripts in past three years as well as grant proposals submitted and grants awards received all within the past three years.

Total awarded funds goes to the recipient as summer salary (No additional budget needed).

Each application must carry the signature of the departmental/division chair and Dean.

Criteria

</table>

The selection committee will make the decision regarding the conferral of the award and communicate it to the applicant by May 26, 2015.

Final Report

By September 30, 2015, a final report must be submitted by the faculty member to his/her academic dean and to the Office of Grants and Sponsored Research (attention of Jared Littman at littmanj@stjohns.edu).

The report should be five (5) pages maximum.

This report must include a summary of progress made toward the achievement of the originally stated objectives, a summary of results (positive or negative), and a list of publications. It must also address how these outcomes will be used to strengthen the external grant proposal listed in the original application.

By February 28, 2016 a proposal for an external grant must be submitted to the appropriate organization/s through the Office of Grants and Sponsored Research. If the recipient does not meet this obligation, he/she forfeits their second installment of the award.
Faculty Member Name:
College or School:
Department/Division:
Email:
Phone Number:

Title of Proposed Research:

Have you previously received Summer Support of Research?
If yes, please indicate the year/s:

During the last two years, have you had a reduction in your teaching load to support research (a research reduction)?
If yes, please indicate which semester/s:

If publications have resulted from a grant, leave reduction or other support in the past three years, please list them here:

List all published manuscripts in past three years:

Is this proposal currently funded?

Is this proposal currently under consideration by an external funding source?
If yes, please indicate the name of the funding agency, date proposal submitted, amount requested and current status of the proposal:
Do you have any other extramural support?
If yes, list all awards, cite agency or source, coverage and amount:

List all grant proposals that you have submitted in the past three years:

Which external agency will you be applying to (list three)?

Proposal Narrative:
Please do not exceed 6 double spaced pages. Please include all required elements under “How to Apply” on the first page of this document.

Signature of the Chair (with date indicating the proposal is consistent with the Department/division’s academic programs and needs and the faculty member’s plan for professional growth and development.
