## College of Pharmacy and Health Sciences

### Fast Facts

#### College

Established in 1929 as the College of Pharmacy. The College changed its name to the College of Pharmacy and Allied Health Professions in 1971. In 2012, the College changed its name to the College of Pharmacy and Health Sciences.

#### Mission

The College of Pharmacy and Health Sciences commits to academic excellence, scholarship, and service to humanity through the discovery and application of biomedical knowledge.

We facilitate and advance scholarship by offering innovative programs of study utilizing active, student-centered learning approaches that inspire lifelong learning.

As compassionate health care professionals and scientists, we serve humanity through our dedication to excellence in health care and biomedical research. Building on a commitment to cultural diversity and benefiting from our metropolitan location and strategic alliances, we strive to serve as effective leaders, good citizens, and moral and ethical individuals.

We commit ourselves to discovery, communication, and application of biomedical knowledge as a critical component for the development of health care professionals and scientists. Through innovative basic, social, and clinical research initiatives, we contribute to scientific knowledge, address contemporary health care issues, and seek solutions to health care problems.

Our mission embodies the principles of the University's Mission Statement: to provide a quality education in an environment that is Catholic, Vincentian Metropolitan, and Global.

#### Vision

The College of Pharmacy and Health Sciences will be a nationally recognized model of distinctiveness for the preparation of exemplary health care providers dedicated to meeting the needs of all patients, particularly the underserved in urban areas, distinguished scholars, and leading researchers in the pharmaceutical and biomedical sciences.

#### Campus

Located on the 105-acre Queens campus, not far from Manhattan by car, bus, or train. Sprawling, high-tech residence halls with wireless Internet access, lounges, study rooms, a resident's computer center, 24-hour security, and a new dining hall.
