COLLEGE OF PHARMACY AND HEALTH SCIENCES

Graduate Degree Programs

For more than 90 years, the College of Pharmacy and Health Sciences at St. John's University has trained scholars and practitioners who are respected for the quality of their contributions and compassion for those they serve.

Original research and discovery through rigorous scientific investigation advances our understanding of the world and is the foundation of the master's and Ph.D. programs.

Student-centered and outcomes-oriented, these graduate programs offer preparation for careers in the pharmaceutical industry, health fields, and academia. Programs draw upon the expertise of internationally recognized faculty who specialize in designing and developing new therapeutic agents and tools; evaluating the physiological effects of drugs; and investigating the biological basis of disease.

PROGRAMS

Doctoral

The College offers the Doctor of Philosophy (Ph.D.) degree in Pharmaceutical Sciences with a concentration in Industrial Pharmacy, Medicinal Chemistry, Pharmacology, or Toxicology.

Master of Science

Students can earn a Master of Science (M.S.) degree in the following programs:

- Pharmaceutical Science/Library Science Dual Degree Program (M.A./M.L.S.)
- Pharmaceutical Sciences (concentrations in Industrial Pharmacy, Medicinal Chemistry, or Pharmacology)
- Pharmacy Administration (concentrations in Pharmaceutical Marketing and Drug Regulatory Affairs and Quality Assurance)
- Physician Assistant
- Toxicology

An M.S. in Biological and Pharmaceutical Biotechnology is available through the University's Institute for Biotechnology, a collaborative program with the College of Pharmacy and Health Sciences and St. John's College of Liberal Arts and Sciences.

Master of Public Health

The Master of Public Health (M.P.H.) degree, a 45-credit professional degree with two concentrations—community health and global health—focuses on the core competencies of public health and concludes with an applied fieldwork practice experience and a culminating experience. This program is available only online.

RESEARCH FACILITIES

Graduate students have access to the recently renovated, ultramodern laboratories and research facilities in St. Albert Hall, where the College of Pharmacy and Health Sciences is based at St. John's University's campus in Queens, NY.

CAREER OUTCOMES

The College of Pharmacy and Health Sciences is located in New York City, a hub of the international biomedical, health care, and pharmaceutical industries. Extensive industry contacts provide students with abundant internship and job placement opportunities.

The student population is highly diverse and comes from across the United States, as well as several countries abroad. St. John's graduates currently work for Avon Products, Inc.; Estée Lauder Inc.; Novartis; Pfizer Inc.; Regeneron Pharmaceuticals, Inc.; the US Food and Drug Administration; the US Environmental Protection Agency; and the National Institutes of Health, as well as medical schools across the US. Increasingly, St. John's international graduates return to their home countries to assume research and leadership roles in growing pharmaceutical industries.
