Annual Drug Update - 2019

Part I
Wednesday, March 13, 2019

Part II
Monday, March 18, 2019

6:30 – 8:30 p.m.
Bartilucci Center, St. John's University
175-05 Horace Harding Expressway, Fresh Meadows, NY 11365

This seminar consists of four hours of continuing education divided into two sessions. Each session covers new material. The program is intended to update the pharmacist on new drugs approved by the FDA during the 2018 calendar year. Important facts surrounding each product are discussed with a special emphasis on clinical applications and precautions.

Learning Objectives

At the conclusion, participants are able to:

- identify new products approved by the FDA in 2018
- classify each new drug as belonging to a specific therapeutic and pharmacological class
- describe the major advantages and disadvantages of each drug as compared to other therapies
- discuss the major contraindications and adverse reactions associated with each new drug
- identify new safety issues as well as some new indications for current drugs which have developed in 2018

March 13th – New Drugs in Oncology and Infectious Diseases

March 18th – New Drugs in Gastroenterology, Endocrinology, Pulmonary Diseases, Cardiovascular Diseases, Neurology and Dermatology
