

2012-2013 Achievement Summary Profile

As of: 9/25/2013 08:58 AM EST

Medical Technology, B.S.

Targets Without Findings

Measure 1: Pre-Clinical math/sci GPA

Outcome/Objective 1: Demonstrate acquisition of a science and mathematics knowledge base; explain the scientific method

Goals:

1: Demonstrate basic knowledge of field

Target: 100% of students entering the clinical phase of the program had a math/sci GPA of 2.3 or above. Admissions committee reviews applicants math/sci GPA prior to admittance into the clinical phase of the program.

Measure 2: ALH 2101 EXAM

Outcome/Objective 2: Explain the origin of the medical technology profession

Goals:

1: Demonstrate basic knowledge of field

Target: 100% of students will achieve a grade of C+ or better

Measure 3: PHS 3103, 3104, 3105 EXAM

Outcome/Objective 3: Describe and explain human anatomy and physiology

Goals:

2: Demonstrate competency in the biomedical sciences

Target: 100% of students will achieve a grade of C+ or better.

Measure 4: PHS 3101 EXAM

Outcome/Objective 4: Explain the pathology of disease, the essential nature, the causes and the development of abnormal conditions

Goals:

2: Demonstrate competency in the biomedical sciences

Target: 100% of students will achieve a grade of C+ or above.

Measure 5: PHS 4204 EXAM

Outcome/Objective 6: Demonstrate a basic knowledge of clinical chem

Goals:

2: Demonstrate competency in the biomedical sciences

Target: 100% of students will achieve a grade of C+ or better.

Measure 6: Research Paper/Presentation

Outcome/Objective 13: Write cohesively: using correct grammar

Goals:

4: Communicate effectively both orally and in writing

Target: 100% of students will achieve a grade of C+ or above.

Measure 7: Certification Exam

Outcome/Objective 14: Demonstrate an understanding of basic principles of tests and procedures

Goals:

5: Satisfy objectives of the clinical year

Target: Meet the national average for first time test takers.

Measure 8: All 4th year ALH courses

Outcome/Objective 14: Demonstrate an understanding of basic principles of tests and procedures

Goals:

5: Satisfy objectives of the clinical year

Target: 100% of students will achieve a grade of 75% or higher.

Measure 9: Participation in professional organizations

Outcome/Objective 20: Broaden knowledge through reading of professional journals and workshops

Goals:

6: Demonstrate competencies and application of skills

Target: 100% of students will join ASCLS

Measure 10: Checklist

Outcome/Objective 15: Perform tasks with precision and accuracy

Goals:

5: Satisfy objectives of the clinical year

Target: 80% of the students will achieve a grade of 75% or above

Measure 10: Checklist

Outcome/Objective 18: Recognize problems and solve them

Goals:

6: Demonstrate competencies and application of skills

Target: 80% of the students will achieve a grade of 75% or above

Measure 11: Clinical Rotation Evaluation

Outcome/Objective 4: Explain the pathology of disease, the essential nature, the causes and the development of abnormal conditions

Goals:

2: Demonstrate competency in the biomedical sciences

Target: 100% of students will receive an "acceptable" or "outstanding" evaluation.

Measure 11: Clinical Rotation Evaluation

Outcome/Objective 7: Understand the responsibilities of a clinical laboratory scientist

Goals:

3: Illustrate and apply ethical principles

Target: 100% of students will receive an "acceptable" or "outstanding" evaluation.

Measure 11: Clinical Rotation Evaluation

Outcome/Objective 8: Develop skill in performing all laboratory tests

Goals:

3: Illustrate and apply ethical principles

Target: 100% of students will receive an "acceptable" or "outstanding" evaluation.

Measure 11: Clinical Rotation Evaluation

Outcome/Objective 10: Demonstrate responsibility for performance

Goals:

3: Illustrate and apply ethical principles

Target: 100% of students will receive an "acceptable" or "outstanding" evaluation.

Measure 11: Clinical Rotation Evaluation

Outcome/Objective 12: Demonstrate the ability to effectively communicate

Goals:

4: Communicate effectively both orally and in writing

Target: 100% of students will receive an "acceptable" or "outstanding" evaluation.

Measure 11: Clinical Rotation Evaluation

Outcome/Objective 14: Demonstrate an understanding of basic principles of tests and procedures

Goals:

5: Satisfy objectives of the clinical year

Target: 100% of students will receive an "acceptable" or "outstanding" evaluation.

Measure 11: Clinical Rotation Evaluation

Outcome/Objective 15: Perform tasks with precision and accuracy

Goals:

5: Satisfy objectives of the clinical year

Target: 100% of students will receive an "acceptable" or "outstanding" evaluation.

Measure 11: Clinical Rotation Evaluation

Outcome/Objective 17: Assess test results and analyze quality control

Goals:

5: Satisfy objectives of the clinical year

Target: 100% of students will receive an "acceptable" or "outstanding" evaluation.

Measure 11: Clinical Rotation Evaluation

Outcome/Objective 18: Recognize problems and solve them

Goals:

6: Demonstrate competencies and application of skills

Target: 100% of students will receive an "acceptable" or "outstanding" evaluation.

Measure 11: Clinical Rotation Evaluation

Outcome/Objective 23: Demonstrate the willingness to be part of a team

Goals:

6: Demonstrate competencies and application of skills

Target: 100% of students will receive an "acceptable" or "outstanding" evaluation.

Measure 12: Laboratory Practical

Outcome/Objective 14: Demonstrate an understanding of basic principles of tests and procedures

Goals:

5: Satisfy objectives of the clinical year

Target: 80% of students will score a 75% or above

Measure 12: Laboratory Practical

Outcome/Objective 15: Perform tasks with precision and accuracy

Goals:

5: Satisfy objectives of the clinical year

Target: Target performance - 80% of the students will score 75% or above.

Measure 12: Laboratory Practical

Outcome/Objective 17: Assess test results and analyze quality control

Goals:

5: Satisfy objectives of the clinical year

Target: 80% of students will receive a grade of 75% or above.

Measure 13: Evaluation Form of Clinical Laboratory Skills

Outcome/Objective 14: Demonstrate an understanding of basic principles of tests and procedures

Goals:

5: Satisfy objectives of the clinical year

Target: 100% of students will achieve an "acceptable" or "outstanding" evaluation

Measure 13: Evaluation Form of Clinical Laboratory Skills

Outcome/Objective 15: Perform tasks with precision and accuracy

Goals:

5: Satisfy objectives of the clinical year

Target: 100% of the students will achieve an acceptable or outstanding evaluation.

Measure 14: Employer Survey

Outcome/Objective 7: Understand the responsibilities of a clinical laboratory scientist

Goals:

3: Illustrate and apply ethical principles

Target: 80% of employers will rate former students as "excellent-above average" in all components of the survey.

Measure 14: Employer Survey

Outcome/Objective 8: Develop skill in performing all laboratory tests

Goals:

3: Illustrate and apply ethical principles

Target: 80% of employers will rate former students as "excellent-above average" in all components of the survey.

Measure 14: Employer Survey

Outcome/Objective 10: Demonstrate responsibility for performance

Goals:

3: Illustrate and apply ethical principles

Target: 80% of employers will rate former students as "excellent-above average" on all components of the survey.

Measure 14: Employer Survey

Outcome/Objective 12: Demonstrate the ability to effectively communicate

Goals:

4: Communicate effectively both orally and in writing

Target: 80% of employers will rate former students as "excellent-above average" on all components of the survey.

Measure 14: Employer Survey

Outcome/Objective 14: Demonstrate an understanding of basic principles of tests and procedures

Goals:

5: Satisfy objectives of the clinical year

Target: 80% of employers will rate former students as "excellent-above average" on all components of the survey.

Measure 14: Employer Survey

Outcome/Objective 15: Perform tasks with precision and accuracy

Goals:

5: Satisfy objectives of the clinical year

Target: 80% of employers will rate former students as "excellent-above average" on all components of the survey.

Measure 14: Employer Survey

Outcome/Objective 17: Assess test results and analyze quality control

Goals:

5: Satisfy objectives of the clinical year

Target: 80% of employers will rate former students as "excellent-above average" on all components of the survey.

Measure 14: Employer Survey

Outcome/Objective 18: Recognize problems and solve them

Goals:

6: Demonstrate competencies and application of skills

Target: 80% of employers will rate former students as "excellent-above average" on all components of the survey.

Measure 14: Employer Survey

Outcome/Objective 19: Anticipate and develop new testing strategies

Goals:

6: Demonstrate competencies and application of skills

Target: 80% of employers will rate former students as "excellent-above average" on all components of the survey.

Pharmacy Administration, M.S.

Targets Without Findings

Measure 1: Comprehensive Exams

Outcome/Objective 1: Comprehensive understanding and apply scientific principles

Goals:

1: Demonstrate command of fundamental principles and advanced concepts

Target: 80% of students will pass comprehensive exam on first try.

Measure 2: Thesis defense (Plan A)

Outcome/Objective 1: Comprehensive understanding and apply scientific principles

Goals:

1: Demonstrate command of fundamental principles and advanced concepts

Target: 80% of students will pass on first try

Measure 3: Defense of thesis research

Outcome/Objective 2: Perform research, analyze and evaluate data and communicate results

Goals:

2: Demonstrate competency to plan Research Methodologies and Data Analysis

Target: 90% of students will successfully defend the thesis.

Measure 4: Abstract for meeting presentation or manuscript of thesis for publication

Outcome/Objective 2: Perform research, analyze and evaluate data and communicate results

Goals:

2: Demonstrate competency to plan Research Methodologies and Data Analysis

Target: Graduate Students in Plan A will make a poster presentation in a professional meeting or submit a paper to a peer reviewed journal.

Physician Assistant, B.S.

Not Met

Measure 0: Comprehensive Examination

Outcome/Objective 5: Explain the development of abnormal conditions

Goals:

2: Demonstrate knowledge of the biomedical sciences

Target: 100% of students must earn a minimum grade of 70%.

Finding: · 29 students failed first attempt – scheduled for 1st attempt re-make examination · 14 students failed re-make examination placed on PANCE Improvement Plan – graduation delayed ·

Measure 0: Comprehensive Examination

Outcome/Objective 11: Demonstrate an understanding of pathophysiology

Goals:

4: Demonstrate an understanding of medical knowledge

Target: Desired outcome is 100% of students will achieve a grade of 70% or higher.

Finding: 29 students failed first attempt – scheduled for 1st attempt re-make examination 14 students failed re-make examination placed on PANCE Improvement Plan – graduation delayed

Measure 0: Comprehensive Examination

Outcome/Objective 12: Demonstrate core knowledge of biomedical sciences

Goals:

4: Demonstrate an understanding of medical knowledge

Target: Desired outcome is 100% of students will achieve a grade of 70% or higher.

Finding: 29 students failed first attempt – scheduled for 1st attempt re-make examination 14 students failed re-make examination placed on PANCE Improvement Plan – graduation delayed

Measure 0: Comprehensive Examination

Outcome/Objective 13: Demonstrate an approach to clinical situations

Goals:

4: Demonstrate an understanding of medical knowledge

Target: Desired outcome is 100% of students will achieve a grade of 70% or higher.

Finding: 29 students failed first attempt – scheduled for 1st attempt re-make examination 14 students failed re-make examination placed on PANCE Improvement Plan – graduation delayed

Measure 0: Comprehensive Examination

Outcome/Objective 17: Perform age-appropriate patient assessment

Goals:

6: Demonstrate competencies and integration of skills

Target: 100% of students must earn a minimum grade of 70%.

Finding: 29 students failed first attempt – scheduled for 1st attempt re-make examination 14 students failed re-make examination placed on PANCE Improvement Plan – graduation delayed

Measure 0: Comprehensive Examination

Outcome/Objective 18: Demonstrate health care that is effective

Goals:

6: Demonstrate competencies and integration of skills

Target: 100% of students must earn a minimum grade of 70%.

Finding: 29 students failed first attempt – scheduled for 1st attempt re-make examination 14 students failed re-make examination placed on PANCE Improvement Plan – graduation delayed

Partially Met

Measure 8: Alumni Survey

Outcome/Objective 13: Demonstrate an approach to clinical situations

Goals:

4: Demonstrate an understanding of medical knowledge

Target: 70% of students will state they found the program to be "Extremely Helpful-Very Helpful"/"Strongly Agree-Agree" with statements corresponding to Learning Outcome 4.3.

Finding: 45% of students stated the program was "Extremely-Very Helpful" in "helping you to better develop your critical thinking ability (#13a). 95% of students "Strongly Agreed-Agreed" the program prepared them to gather and use specific information (patient histories, medical records) to diagnosis and treat disease (#14a)

Met

Measure 1: Clinical Skills Practical (CSP)

Outcome/Objective 5: Explain the development of abnormal conditions

Goals:

2: Demonstrate knowledge of the biomedical sciences

Target: 100% of students must achieve a minimum grade of 75%

Finding: 100% of students received a grade of 75 or above on their first attempt

Measure 1: Clinical Skills Practical (CSP)

Outcome/Objective 11: Demonstrate an understanding of pathophysiology

Goals:

4: Demonstrate an understanding of medical knowledge

Target: 100% of students must achieve a minimum grade of 75%

Finding: 100% of students received a grade of 75% or above on their first attempt

Measure 1: Clinical Skills Practical (CSP)

Outcome/Objective 13: Demonstrate an approach to clinical situations

Goals:

4: Demonstrate an understanding of medical knowledge

Target: 100% of students must achieve a minimum grade of 75%

Finding: 100% of students must earned a minimum grade of 75% or higher

Measure 1: Clinical Skills Practical (CSP)

Outcome/Objective 14: Communicate and exchange information

Goals:

5: Demonstrate effective oral and writing skills

Target: 100% of students must achieve a minimum grade of 75%

Finding: 100% of students received a grade of 75 or above on their first attempt

Measure 1: Clinical Skills Practical (CSP)

Outcome/Objective 16: Demonstrate interpersonal and communication skills

Goals:

5: Demonstrate effective oral and writing skills

Target: 100% of students must achieve a minimum grade of 75%

Finding: 100% of students received a grade of 75 or above on their first attempt

Measure 1: Clinical Skills Practical (CSP)

Outcome/Objective 17: Perform age-appropriate patient assessment

Goals:

6: Demonstrate competencies and integration of skills

Target: 100% of students must achieve a minimum grade of 75%

Finding: 100% of students received a grade of 75 or above on their first attempt

Measure 3: Ethics Research Paper

Outcome/Objective 3: Describe the physician assistant profession

Goals:

1: Demonstrate basic competency in the field

Target: 100% of students must earn a minimum grade of 70% on the research paper.

Finding: 100% of students achieved a grade of 70% or above

Measure 3: Ethics Research Paper

Outcome/Objective 7: Explain the attributes of respect

Goals:

3: Illustrate and apply ethical principles

Target: 100% of students must earn a minimum grade of 70% on the research paper.

Finding: 100% of students achieved a grade of 70% or above

Measure 3: Ethics Research Paper

Outcome/Objective 8: Demonstrate a knowledge of profess. responsibility

Goals:

3: Illustrate and apply ethical principles

Target: 100% of students must earn a minimum grade of 70% on the research paper.

Finding: 100% of students achieved a grade of 70% or above

Measure 3: Ethics Research Paper

Outcome/Objective 9: Explain concepts of privilege and confidentiality

Goals:

3: Illustrate and apply ethical principles

Target: 100% of students must earn a minimum grade of 70% on the research paper.

Finding: 100% of students achieved a grade of 70% or above

Measure 3: Ethics Research Paper

Outcome/Objective 10: Demonstrate a commitment to patient welfare

Goals:

3: Illustrate and apply ethical principles

Target: 100% of students must earn a minimum grade of 70% on the research paper.

Finding: 100% of students achieved a grade of 70% or above

Measure 3: Ethics Research Paper

Outcome/Objective 16: Demonstrate interpersonal and communication skills

Goals:

5: Demonstrate effective oral and writing skills

Target: 100% of students must earn a minimum grade of 70% on the research paper.

Finding: 100% of students achieved a grade of 70% or above

Measure 3: Ethics Research Paper

Outcome/Objective 19: Demonstrate professionalism through responsibility

Goals:

6: Demonstrate competencies and integration of skills

Target: 100% of students must earn a minimum grade of 70% on the research paper.

Finding: 100% of students achieved a grade of 70% or above

Measure 3: Ethics Research Paper

Outcome/Objective 20: Demonstrate the ability to work collaboratively

Goals:

6: Demonstrate competencies and integration of skills

Target: 100% of students must earn a minimum grade of 70% on the research paper.

Finding: 100% of students achieved a grade of 70% or above

Measure 4: Clinical Case Presentations

Outcome/Objective 2: Explain and apply the scientific method

Goals:

1: Demonstrate basic competency in the field

Target: 100% of students must earn a minimum grade of 75% on the clinical case research paper/presentation.

Finding: 100% of students achieved a grade of 75% or above

Measure 4: Clinical Case Presentations

Outcome/Objective 4: Explain human anatomy and physiology

Goals:

2: Demonstrate knowledge of the biomedical sciences

Target: 100% of students must earn a minimum grade of 75% on the clinical case research paper/presentation.

Finding: 100% of students achieved a grade of 75% or above

Measure 4: Clinical Case Presentations

Outcome/Objective 5: Explain the development of abnormal conditions

Goals:

2: Demonstrate knowledge of the biomedical sciences

Target: 100% of students must earn a minimum grade of 75% on the clinical case research paper/presentation.

Finding: 100% of students achieved a grade of 75% or above

Measure 4: Clinical Case Presentations

Outcome/Objective 8: Demonstrate a knowledge of profess. responsibility

Goals:

3: Illustrate and apply ethical principles

Target: 100% of students must earn a minimum grade of 75% on the clinical case research paper/presentation.

Finding: 100% of students achieved a grade of 75% or above

Measure 4: Clinical Case Presentations

Outcome/Objective 11: Demonstrate an understanding of pathophysiology

Goals:

4: Demonstrate an understanding of medical knowledge

Target: 100% of students must earn a minimum grade of 75% on the clinical case research paper/presentation.

Finding: 100% of students achieved a grade of 75% or above

Measure 4: Clinical Case Presentations

Outcome/Objective 12: Demonstrate core knowledge of biomedical sciences

Goals:

4: Demonstrate an understanding of medical knowledge

Target: 100% of students must earn a minimum grade of 75% on the clinical case research paper/presentation.

Finding: 100% of students achieved a grade of 75% or above

Measure 4: Clinical Case Presentations

Outcome/Objective 13: Demonstrate an approach to clinical situations

Goals:

4: Demonstrate an understanding of medical knowledge

Target: 100% of students must earn a minimum grade of 75% on the clinical case research paper/presentation.

Finding: 100% of students achieved a grade of 75% or above

Measure 4: Clinical Case Presentations

Outcome/Objective 14: Communicate and exchange information

Goals:

5: Demonstrate effective oral and writing skills

Target: 100% of students must earn a minimum grade of 75% on the clinical case research paper/presentation.

Finding: 100% of students must earned a minimum grade of 75% or higher

Measure 4: Clinical Case Presentations

Outcome/Objective 15: Write cohesively and in an organized format

Goals:

5: Demonstrate effective oral and writing skills

Target: 100% of students must earn a minimum grade of 75% on the clinical case research paper/presentation.

Finding: 100% of students achieved a grade of 75% or above

Measure 4: Clinical Case Presentations

Outcome/Objective 16: Demonstrate interpersonal and communication skills

Goals:

5: Demonstrate effective oral and writing skills

Target: 100% of students must earn a minimum grade of 75% on the clinical case research paper/presentation.

Finding: 100% of students achieved a grade of 75% or above

Measure 4: Clinical Case Presentations

Outcome/Objective 17: Perform age-appropriate patient assessment

Goals:

6: Demonstrate competencies and integration of skills

Target: 100% of students must earn a minimum grade of 75% on the clinical case research paper/presentation.

Finding: 100% of students achieved a grade of 75% or above

Measure 4: Clinical Case Presentations

Outcome/Objective 18: Demonstrate health care that is effective

Goals:

6: Demonstrate competencies and integration of skills

Target: 100% of students must earn a minimum grade of 75% on the clinical case research paper/presentation.

Finding: 100% of students achieved a grade of 75% or above

Measure 4: Clinical Case Presentations

Outcome/Objective 19: Demonstrate professionalism through responsibility

Goals:

6: Demonstrate competencies and integration of skills

Target: 100% of students must earn a minimum grade of 75% on the clinical case research paper/presentation.

Finding: 100% of students achieved a grade of 75% or above

Measure 4: Clinical Case Presentations

Outcome/Objective 20: Demonstrate the ability to work collaboratively

Goals:

6: Demonstrate competencies and integration of skills

Target: 100% of students must earn a minimum grade of 75%

Finding: 100% of students achieved a grade of 75% or above

Measure 5: Pre-Professional math/science GPA

Outcome/Objective 1: Demonstrate acquisition of a sci/math basic knowledge base

Goals:

1: Demonstrate basic competency in the field

Target: Students must earn a minimum math/science GPA of 2.7 to be accepted into the PA program.

Finding: 100% of students entering the Third Year of the program had a math/sci GPA of 2.7 or above

Measure 6: PANCE results

Outcome/Objective 1: Demonstrate acquisition of a sci/math basic knowledge base

Goals:

1: Demonstrate basic competency in the field

Target: The program's pass rate will be \geq the national average.

Finding: Program Pass rate- 96% National Pass rate- 92% (first time takers as of 11/26/2012)

Measure 6: PANCE results

Outcome/Objective 5: Explain the development of abnormal conditions

Goals:

2: Demonstrate knowledge of the biomedical sciences

Target: The program's pass rate will be \geq the national average.

Finding: Program Pass rate- 96% National Pass rate- 93% (first time takers as of 11/26/12)

Measure 6: PANCE results

Outcome/Objective 11: Demonstrate an understanding of pathophysiology

Goals:

4: Demonstrate an understanding of medical knowledge

Target: The program's pass rate will be \geq the national average.

Finding: Program Pass rate- 96% National Pass rate- 92% (first time takers as of 11/26/12)

Measure 6: PANCE results

Outcome/Objective 12: Demonstrate core knowledge of biomedical sciences

Goals:

4: Demonstrate an understanding of medical knowledge

Target: The program's pass rate will be \geq the national average.

Finding: Program Pass rate- 96% National Pass rate- 92% (first time takers as of 11/26/12)

Measure 6: PANCE results

Outcome/Objective 13: Demonstrate an approach to clinical situations

Goals:

4: Demonstrate an understanding of medical knowledge

Target: The program's pass rate will be \geq the national average.

Finding: Program Pass rate- 96% National Pass rate- 92% (first time takers as of 11/26/12)

Measure 6: PANCE results

Outcome/Objective 17: Perform age-appropriate patient assessment

Goals:

6: Demonstrate competencies and integration of skills

Target: The program's pass rate will be \geq the national average.

Finding: Program Pass rate- 96% National Pass rate- 92% (first time takers as of 11/26/12)

Measure 6: PANCE results

Outcome/Objective 18: Demonstrate health care that is effective

Goals:

6: Demonstrate competencies and integration of skills

Target: The program's pass rate will be \geq the national average.

Finding: Program Pass rate- 96% National Pass rate- 92% (first time takers as of 11/26/12)

Measure 7: Ethics Exam

Outcome/Objective 3: Describe the physician assistant profession

Goals:

1: Demonstrate basic competency in the field

Target: 100% of students must earn a minimum grade of 70%

Finding: 100% of students achieved a grade of 70% or above

Measure 7: Ethics Exam

Outcome/Objective 19: Demonstrate professionalism through responsibility

Goals:

6: Demonstrate competencies and integration of skills

Target: 100% of students must earn a minimum grade of 70%

Finding: 100% of students achieved a grade of 70% or above

Measure 8: Alumni Survey

Outcome/Objective 3: Describe the physician assistant profession

Goals:

1: Demonstrate basic competency in the field

Target: 70% of students state "Strongly Agree" or "Agree" with statements corresponding to Learning Outcome 1.3

Finding: 90% of students strongly agree or agree to survey statement 14(d). (The program prepared me to provide patient care in accordance with legal, ethical, social, economic, and professional guidelines)

Measure 8: Alumni Survey

Outcome/Objective 7: Explain the attributes of respect

Goals:

3: Illustrate and apply ethical principles

Target: 70% of alumni will state they "strongly agree" or "agree" with statements corresponding to Learning Outcome 3.1.

Finding: 75% of students stated the program was "extremely-very helpful" in helping to contribute to a greater understanding of people with different backgrounds, habits, values, appearance, and abilities (#13c)

Measure 8: Alumni Survey

Outcome/Objective 8: Demonstrate a knowledge of profess. responsibility

Goals:

3: Illustrate and apply ethical principles

Target: 70% of alumni surveyed will "strongly agree or agree" with statements corresponding to Learning Outcome 3.2

Finding: 90% of students strongly agree or agree to survey statement 14(d). (The program prepared me to provide patient care in accordance with legal, ethical, social, economic, and professional guidelines)

Measure 8: Alumni Survey

Outcome/Objective 9: Explain concepts of privilege and confidentiality

Goals:

3: Illustrate and apply ethical principles

Target: 70% of alumni surveyed will "strongly agree-agree" with statements corresponding to Learning Outcome 3.3.

Finding: 90% of students strongly agree or agree to survey statement 14(d). (The program prepared me to provide patient care in accordance with legal, ethical, social, economic, and professional guidelines)

Measure 8: Alumni Survey

Outcome/Objective 11: Demonstrate an understanding of pathophysiology

Goals:

4: Demonstrate an understanding of medical knowledge

Target: 70% of alumni will state they "Strongly Agree-Agree" with statements corresponding to Learning Outcome 4.1

Finding: 85% stated they "Strongly Agree" or "Agree" that the program prepared them to promote wellness and disease prevention (#14e)

Measure 8: Alumni Survey

Outcome/Objective 14: Communicate and exchange information

Goals:

5: Demonstrate effective oral and writing skills

Target: 70% of alumni state they "strongly-agree-agree" with statements corresponding to Learning Outcome 5.1

Finding: 81% of students "strongly agreed" or "agreed" the program prepared them to communicate with patients and health care providers (#14c).

Measure 8: Alumni Survey

Outcome/Objective 16: Demonstrate interpersonal and communication skills

Goals:

5: Demonstrate effective oral and writing skills

Target: 70% of alumni will "strongly agree-agree" with statements corresponding to Learning Outcome 5.3

Finding: 81% of students "strongly agreed" or "agreed" the program prepared them to communicate with patients and health care providers (#14c).

Measure 8: Alumni Survey

Outcome/Objective 17: Perform age-appropriate patient assessment

Goals:

6: Demonstrate competencies and integration of skills

Target: 70% of alumni will "strongly agree-agree" with statements corresponding to Learning Outcome 6.1.

Finding: 95% of students "strongly agreed" or "agreed" that their clinical rotations allowed direct interaction with diverse patient populations (age, gender, culture, disease) (#15j). 95% of students "agreed" or "strongly agreed" the program prepared them to gather and use specific information (patient histories, medical records) to diagnosis and treat disease (#14a)

Measure 8: Alumni Survey

Outcome/Objective 18: Demonstrate health care that is effective

Goals:

6: Demonstrate competencies and integration of skills

Target: 70% of alumni will "strongly agree-agree" with statements corresponding to Learning Outcome 6.2

Finding: 86% of students "strongly agreed" or "agreed" that the program prepared them to promote wellness and disease prevention services (#14e)

Measure 8: Alumni Survey

Outcome/Objective 19: Demonstrate professionalism through responsibility

Goals:

6: Demonstrate competencies and integration of skills

Target: 70% of students will state they found the program to be "Extremely Helpful-Very Helpful"/"Strongly Agree-Agree" with statements corresponding to Learning Outcome 6.3

Finding: 90% of students "strongly agreed" or "agreed" that the program prepared them to provide patient care in accordance with legal, ethical, social, economic, and professional guidelines (#14d) 52% of students stated the program was "extremely helpful-very helpful" in helping them better develop their sense of ethics. (#13b) 76% stated the program was "extremely helpful-very helpful" in helping to contribute to a greater understanding of people with different backgrounds, habits, values, appearance and abilities (#13c).

Measure 8: Alumni Survey

Outcome/Objective 20: Demonstrate the ability to work collaboratively

Goals:

6: Demonstrate competencies and integration of skills

Target: 70% of students state "Extremely Helpful-Very Helpful"/ "Strongly Agree-Agree" with statements corresponding to Learning Outcome 6.4

Finding: 70% responded the program was extremely helpful-very helpful in helping to work with a healthcare team to implement a patient care plan (#13d) 86% strongly agreed-agreed that the program prepared students to work with a health care team to assure appropriate patient care (#14b)

Measure 9: Preceptor Evaluation

Outcome/Objective 4: Explain human anatomy and physiology

Goals:

2: Demonstrate knowledge of the biomedical sciences

Target: 100% of students must earn a minimum grade of 75% on the evaluation

Finding: 100% of students passed the clinical preceptor evaluation with a grade of 75 or above.

Measure 9: Preceptor Evaluation

Outcome/Objective 5: Explain the development of abnormal conditions

Goals:

2: Demonstrate knowledge of the biomedical sciences

Target: 100% of students must earn a minimum grade of 75% on the evaluation

Finding: 100% of students passed the clinical preceptor evaluation with a grade of 75 or above.

Measure 9: Preceptor Evaluation

Outcome/Objective 7: Explain the attributes of respect

Goals:

3: Illustrate and apply ethical principles

Target: 100% of students must earn a minimum grade of 75%.

Finding: 100% of students passed the clinical preceptor evaluation with a grade of 75 or above.

Measure 9: Preceptor Evaluation

Outcome/Objective 8: Demonstrate a knowledge of profess. responsibility

Goals:

3: Illustrate and apply ethical principles

Target: 100% of students must earn a minimum grade of 75% on the evaluation

Finding: 100% of students passed the clinical preceptor evaluation with a grade of 75 or above.

Measure 9: Preceptor Evaluation

Outcome/Objective 9: Explain concepts of privilege and confidentiality

Goals:

3: Illustrate and apply ethical principles

Target: 100% of students must earn a minimum grade of 75% on the evaluation

Finding: 100% of students passed the clinical preceptor evaluation with a grade of 75 or above.

Measure 9: Preceptor Evaluation

Outcome/Objective 10: Demonstrate a commitment to patient welfare

Goals:

3: Illustrate and apply ethical principles

Target: 100% of students must earn a minimum grade of 75% on the evaluation

Finding: 100% of students achieved a grade of 75% or above

Measure 9: Preceptor Evaluation

Outcome/Objective 11: Demonstrate an understanding of pathophysiology

Goals:

4: Demonstrate an understanding of medical knowledge

Target: 100% of students must earn a minimum grade of 75% on the evaluation

Finding: 100% of students achieved a grade of 75% or above

Measure 9: Preceptor Evaluation

Outcome/Objective 12: Demonstrate core knowledge of biomedical sciences

Goals:

4: Demonstrate an understanding of medical knowledge

Target: 100% of students must earn a minimum grade of 75% on the evaluation

Finding: 100% of students achieved a grade of 75% or above

Measure 9: Preceptor Evaluation

Outcome/Objective 13: Demonstrate an approach to clinical situations

Goals:

4: Demonstrate an understanding of medical knowledge

Target: 100% of students must earn a minimum grade of 75% on the evaluation

Finding: 100% of students achieved a grade of 75% or above

Measure 9: Preceptor Evaluation

Outcome/Objective 14: Communicate and exchange information

Goals:

5: Demonstrate effective oral and writing skills

Target: 100% of students must earn a minimum grade of 75% on the evaluation

Finding: 100% of students achieved a grade of 75% or above

Measure 9: Preceptor Evaluation

Outcome/Objective 16: Demonstrate interpersonal and communication skills

Goals:

5: Demonstrate effective oral and writing skills

Target: 100% of students must earn a minimum grade of 75% on the evaluation

Finding: 100% of students achieved a grade of 75% or above

Measure 9: Preceptor Evaluation

Outcome/Objective 19: Demonstrate professionalism through responsibility

Goals:

6: Demonstrate competencies and integration of skills

Target: 100% of students must earn a minimum grade of 75% on the evaluation

Finding: 100% of students achieved a grade of 75% or above

Measure 9: Preceptor Evaluation

Outcome/Objective 20: Demonstrate the ability to work collaboratively

Goals:

6: Demonstrate competencies and integration of skills

Target: 100% of students must earn a minimum grade of 75% on the evaluation

Finding: 100% of students achieved a grade of 75% or above

Measure 10: ALH 3210

Outcome/Objective 6: Demonstrate a basic knowledge of biochemistry

Goals:

2: Demonstrate knowledge of the biomedical sciences

Target: 100% of students must achieve an average of 70% in the course.

Finding: 100% of student received a grade of 70 or above.

Targets Without Findings

Measure 1: Clinical Skills Practical (CSP)

Outcome/Objective 4: Explain human anatomy and physiology

Goals:

2: Demonstrate knowledge of the biomedical sciences

Target: 100% of students must achieve a minimum grade of 75%

Measure 2: Group Ethics Presentation

Outcome/Objective 3: Describe the physician assistant profession

Goals:

1: Demonstrate basic competency in the field

Target: 100% of students must score a minimum grade of 70%.

Measure 2: Group Ethics Presentation

Outcome/Objective 7: Explain the attributes of respect

Goals:

3: Illustrate and apply ethical principles

Target: 100% of students must score a minimum grade of 70%.

Measure 2: Group Ethics Presentation

Outcome/Objective 8: Demonstrate a knowledge of profess. responsibility

Goals:

3: Illustrate and apply ethical principles

Target: 100% of students must score a minimum grade of 70%.

Measure 2: Group Ethics Presentation

Outcome/Objective 9: Explain concepts of privilege and confidentiality

Goals:

3: Illustrate and apply ethical principles

Target: 100% of students must score a minimum grade of 70%.

Measure 2: Group Ethics Presentation

Outcome/Objective 10: Demonstrate a commitment to patient welfare

Goals:

3: Illustrate and apply ethical principles

Target: 100% of students must score a minimum grade of 70%.

Measure 2: Group Ethics Presentation

Outcome/Objective 11: Demonstrate an understanding of pathophysiology

Goals:

4: Demonstrate an understanding of medical knowledge

Target: 100% of students must score a minimum grade of 70%.

Measure 2: Group Ethics Presentation

Outcome/Objective 14: Communicate and exchange information

Goals:

5: Demonstrate effective oral and writing skills

Target: 100% of students must score a minimum grade of 70%.

Measure 2: Group Ethics Presentation

Outcome/Objective 16: Demonstrate interpersonal and communication skills

Goals:

5: Demonstrate effective oral and writing skills

Target: 100% of students must score a minimum grade of 70%.

Measure 2: Group Ethics Presentation

Outcome/Objective 19: Demonstrate professionalism through responsibility

Goals:

6: Demonstrate competencies and integration of skills

Target: 100% of students must score a minimum grade of 70%.

Measure 2: Group Ethics Presentation

Outcome/Objective 20: Demonstrate the ability to work collaboratively

Goals:

6: Demonstrate competencies and integration of skills

Target: 100% of students must score a minimum grade of 70%.

Measure 3: Ethics Research Paper

Outcome/Objective 11: Demonstrate an understanding of pathophysiology

Goals:

4: Demonstrate an understanding of medical knowledge

Target: 100% of students must earn a minimum grade of 70% on the research paper.

Measure 3: Ethics Research Paper

Outcome/Objective 14: Communicate and exchange information

Goals:

5: Demonstrate effective oral and writing skills

Target: 100% of students must earn a minimum grade of 70% on the research paper.

Measure 3: Ethics Research Paper

Outcome/Objective 15: Write cohesively and in an organized format

Goals:

5: Demonstrate effective oral and writing skills

Target: 100% of students must earn a minimum grade of 70% on the research paper.

Measure 3: Ethics Research Paper

Outcome/Objective 18: Demonstrate health care that is effective

Goals:

6: Demonstrate competencies and integration of skills

Target: 100% of students must earn a minimum grade of 70% on the research paper.

Measure 4: Clinical Case Presentations

Outcome/Objective 10: Demonstrate a commitment to patient welfare

Goals:

3: Illustrate and apply ethical principles

Target: 100% of students must earn a minimum grade of 75% on the clinical case research paper/presentation.

Measure 9: Preceptor Evaluation

Outcome/Objective 17: Perform age-appropriate patient assessment

Goals:

6: Demonstrate competencies and integration of skills

Target: 100% of students must earn a minimum grade of 75% on the evaluation

Measure 10: ALH 3210

Outcome/Objective 17: Perform age-appropriate patient assessment

Goals:

6: Demonstrate competencies and integration of skills

Target: 100% of students achieved a grade of 70 or above in the course.

Radiologic Sciences, B.S.

Targets Without Findings

Measure 1: Radiographic Procedures - Didactic Course

Outcome/Objective 1: Effectively perform all standard radiographic procedures

Goals:

1: Demonstrate knowledge and understanding of radiography

Target: $\geq 75\%$ For Course Average

Measure 2: Clinical Competencies

Outcome/Objective 1: Effectively perform all standard radiographic procedures

Goals:

1: Demonstrate knowledge and understanding of radiography

Target: ≥ 80 points on each terminal clinical competency

Measure 3: End of Clinical Rotation Evaluation

Outcome/Objective 1: Effectively perform all standard radiographic procedures

Goals:

1: Demonstrate knowledge and understanding of radiography

Target: Students will receive a grade of $\geq 75\%$

Measure 3: End of Clinical Rotation Evaluation

Outcome/Objective 2: Demonstrate professional clinical competency

Goals:

1: Demonstrate knowledge and understanding of radiography

Target: Students will receive a grade of $\geq 75\%$

Measure 3: End of Clinical Rotation Evaluation

Outcome/Objective 3: Provide appropriate patient care

Goals:

2: Demonstrate patient care skills

Target: 90% of the graduating class will have attained a minimum grade of satisfactory on patient care skills.

Measure 3: End of Clinical Rotation Evaluation

Outcome/Objective 7: Demonstrate professional ethics

Goals:

2: Demonstrate patient care skills

Target: 90% of students achieve a minimum grade of satisfactory in professionalism.

Measure 3: End of Clinical Rotation Evaluation

Outcome/Objective 10: Formulate techniques for radiographic procedures.

Goals:

4: Utilize technical knowledge to produce quality images that aid in diagnosis.

Target: 90% of students obtained a minimum grade of satisfactory in technique section on the End of Rotation evaluation.

Measure 3: End of Clinical Rotation Evaluation

Outcome/Objective 11: Demonstrate knowledge in the manipulation of density on a radiograph.

Goals:

4: Utilize technical knowledge to produce quality images that aid in diagnosis.

Target: 80% of the students obtained a minimum grade of satisfactory in technique section.

Measure 3: End of Clinical Rotation Evaluation

Outcome/Objective 12: Demonstrate knowledge in the manipulation of contrast on a radiograph

Goals:

4: Utilize technical knowledge to produce quality images that aid in diagnosis.

Target: 80% of the students obtained a minimum grade of satisfactory in technique section.

Measure 3: End of Clinical Rotation Evaluation

Outcome/Objective 13: Demonstrate an understanding of how to manipulate technical factors for added or destructive pathology.

Goals:

4: Utilize technical knowledge to produce quality images that aid in diagnosis.

Target: 80% of the students obtain a minimum grade of satisfactory in Adjustment for Pathology.

Measure 4: Patient Care Didactic Course

Outcome/Objective 3: Provide appropriate patient care

Goals:

2: Demonstrate patient care skills

Target: \geq 75% course average

Measure 5: Clinical Evaluation - Part A

Outcome/Objective 3: Provide appropriate patient care

Goals:

2: Demonstrate patient care skills

Target: Graduates will have achieved \geq 75 points on their clinical competency and no Automatic Failures (AF)

Measure 5: Clinical Evaluation - Part A

Outcome/Objective 4: Communicate effectively with patients.

Goals:

2: Demonstrate patient care skills

Target: Graduates will have achieved ≥ 75 points on their clinical competency and no Automatic Failures (AF)

Measure 6: Patient Care Exam

Outcome/Objective 4: Communicate effectively with patients.

Goals:

2: Demonstrate patient care skills

Target: Class average on exam $\geq 75\%$.

Measure 6: Patient Care Exam

Outcome/Objective 5: Perform radiographic procedures to ensure patient safety

Goals:

2: Demonstrate patient care skills

Target: Class average on exam $\geq 75\%$.

Measure 7: Clinical Profile Assessment

Outcome/Objective 5: Perform radiographic procedures to ensure patient safety

Goals:

2: Demonstrate patient care skills

Target: Class Average $\geq 75\%$

Measure 7: Clinical Profile Assessment

Outcome/Objective 6: Demonstrate an understanding of the ASRT Code of Ethics

Goals:

2: Demonstrate patient care skills

Target: Avg score of 75% or greater on the ethics examination/ ethics final examination

Measure 7: Clinical Profile Assessment

Outcome/Objective 7: Demonstrate professional ethics

Goals:

2: Demonstrate patient care skills

Target: 90 % of students achieve a minimum grade of satisfactory in Professionalism

Measure 7: Clinical Profile Assessment

Outcome/Objective 8: Demonstrate knowledge of ALARA and the Three Cardinal Principles of Radiation.

Goals:

3: Demonstrate knowledge of radiation protection

Target: Intro to Rad Sciences - Radiation Protection (Didactic Course) End of Semester Class average $\geq 75\%$ on final examination

Measure 7: Clinical Profile Assessment

Outcome/Objective 9: Demonstrate knowledge of radiation safety.

Goals:

3: Demonstrate knowledge of radiation protection

Target: 80% of students must achieve $\geq 75\%$

Measure 8: Ethics and Law Exam in RAD1101

Outcome/Objective 6: Demonstrate an understanding of the ASRT Code of Ethics

Goals:

2: Demonstrate patient care skills

Target: Average score of 75% or greater on the ethics exam/final exam

Measure 9: ARRT Exam - Patient Care section

Outcome/Objective 6: Demonstrate an understanding of the ASRT Code of Ethics

Goals:

2: Demonstrate patient care skills

Target: Class average of ≥ 7.5 points on Patient Care Section

Measure 10: ARRT Exam - Radiation Protection Section

Outcome/Objective 8: Demonstrate knowledge of ALARA and the Three Cardinal Principles of Radiation.

Goals:

3: Demonstrate knowledge of radiation protection

Target: 75% of students will receive ≥ 7.5 in Radiation Protection Section

Measure 11: P.R.E. Final exam

Outcome/Objective 10: Formulate techniques for radiographic procedures.

Goals:

4: Utilize technical knowledge to produce quality images that aid in diagnosis.

Target: Class average of $\geq 75\%$

Measure 11: P.R.E. Final exam

Outcome/Objective 11: Demonstrate knowledge in the manipulation of density on a radiograph.

Goals:

4: Utilize technical knowledge to produce quality images that aid in diagnosis.

Target: Class average of $\geq 75\%$

Measure 11: P.R.E. Final exam

Outcome/Objective 12: Demonstrate knowledge in the manipulation of contrast on a radiograph

Goals:

4: Utilize technical knowledge to produce quality images that aid in diagnosis.

Target: Class average of $\geq 75\%$

Measure 11: P.R.E. Final exam

Outcome/Objective 13: Demonstrate an understanding of how to manipulate technical factors for added or destructive pathology.

Goals:

4: Utilize technical knowledge to produce quality images that aid in diagnosis.

Target: Class average of $\geq 75\%$

Measure 12: Clinical Competency Form

Outcome/Objective 1: Effectively perform all standard radiographic procedures

Goals:

1: Demonstrate knowledge and understanding of radiography

Target:

Measure 12: Clinical Competency Form

Outcome/Objective 2: Demonstrate professional clinical competency

Goals:

1: Demonstrate knowledge and understanding of radiography

Target: Class will receive grades with a steady incline and no less than 75%.

Measure 12: Clinical Competency Form

Outcome/Objective 3: Provide appropriate patient care

Goals:

2: Demonstrate patient care skills

Target: Class will receive grades with a steady incline and no less than 75%.

Measure 12: Clinical Competency Form

Outcome/Objective 4: Communicate effectively with patients.

Goals:

2: Demonstrate patient care skills

Target: Class will receive grades with a steady incline and no less than 75%.

Measure 12: Clinical Competency Form

Outcome/Objective 5: Perform radiographic procedures to ensure patient safety

Goals:

2: Demonstrate patient care skills

Target: Class will receive grades with a steady incline and no less than 75%.

Measure 12: Clinical Competency Form

Outcome/Objective 8: Demonstrate knowledge of ALARA and the Three Cardinal Principles of Radiation.

Goals:

3: Demonstrate knowledge of radiation protection

Target: Class will receive grades with a steady incline and no less than 75%.

Measure 12: Clinical Competency Form

Outcome/Objective 9: Demonstrate knowledge of radiation safety.

Goals:

3: Demonstrate knowledge of radiation protection

Target: Class will receive grades with a steady incline and no less than 75%.

Measure 12: Clinical Competency Form

Outcome/Objective 10: Formulate techniques for radiographic procedures.

Goals:

4: Utilize technical knowledge to produce quality images that aid in diagnosis.

Target: Class will receive grades with a steady incline and no less than 75%.

Measure 12: Clinical Competency Form

Outcome/Objective 11: Demonstrate knowledge in the manipulation of density on a radiograph.

Goals:

4: Utilize technical knowledge to produce quality images that aid in diagnosis.

Target: Class will receive grades with a steady incline and no less than 75%.

Measure 12: Clinical Competency Form

Outcome/Objective 12: Demonstrate knowledge in the manipulation of contrast on a radiograph

Goals:

4: Utilize technical knowledge to produce quality images that aid in diagnosis.

Target: Class will receive grades with a steady incline and no less than 75%.

Measure 12: Clinical Competency Form

Outcome/Objective 13: Demonstrate an understanding of how to manipulate technical factors for added or destructive pathology.

Goals:

4: Utilize technical knowledge to produce quality images that aid in diagnosis.

Target: Class will receive grades with a steady incline and no less than 75%.

Measure 14: Two Week Evaluation

Outcome/Objective 1: Effectively perform all standard radiographic procedures

Goals:

1: Demonstrate knowledge and understanding of radiography

Target: Class will receive grades with a steady incline and no less than 75%.

Measure 14: Two Week Evaluation

Outcome/Objective 2: Demonstrate professional clinical competency

Goals:

1: Demonstrate knowledge and understanding of radiography

Target: Class will receive grades with a steady incline and no less than 75%.

Measure 14: Two Week Evaluation

Outcome/Objective 3: Provide appropriate patient care

Goals:

2: Demonstrate patient care skills

Target: Class will receive grades with a steady incline and no less than 75%.

Measure 14: Two Week Evaluation

Outcome/Objective 5: Perform radiographic procedures to ensure patient safety

Goals:

2: Demonstrate patient care skills

Target: 90% of students will attain a minimum grade of satisfactory on Radiation Safety Skills.

Measure 14: Two Week Evaluation

Outcome/Objective 7: Demonstrate professional ethics

Goals:

2: Demonstrate patient care skills

Target: 90% of students achieve a minimum grade of satisfactory in professionalism.

Measure 14: Two Week Evaluation

Outcome/Objective 9: Demonstrate knowledge of radiation safety.

Goals:

3: Demonstrate knowledge of radiation protection

Target: Class will receive grades with a steady incline and no less than 75%.

Measure 14: Two Week Evaluation

Outcome/Objective 10: Formulate techniques for radiographic procedures.

Goals:

4: Utilize technical knowledge to produce quality images that aid in diagnosis.

Target: Class will receive grades with a steady incline and no less than 75%.

Measure 15: Radiation Protection Exam

Outcome/Objective 8: Demonstrate knowledge of ALARA and the Three Cardinal Principles of Radiation.

Goals:

3: Demonstrate knowledge of radiation protection

Target: Class average of $\geq 75\%$ in Radiation Protection Examination

St. John's University

As of: 9/25/2013 09:00 AM EST

2012-2013 Data Entry Status Overview

This report shows Data Entry Status based on Draft/In-Progress vs. Final status determined by users. To get a more complete picture of remaining work, also run Audit reports for the sections of interest.

Status Overview for Academic Entities

	Final	In-Progress	None
Mission / Purpose	3 (75%)	1 (25%)	0 (0%)
Goal (if used)	3 (75%)	1 (25%)	0 (0%)
Outcome/Objective	2 (50%)	2 (50%)	0 (0%)
Measure	1 (25%)	3 (75%)	0 (0%)
Target	0 (0%)	4 (100%)	0 (0%)
Finding	0 (0%)	1 (25%)	3 (75%)
Action Plan	0 (0%)	2 (50%)	2 (50%)
Analysis Question	0 (0%)	0 (0%)	4 (100%)
Annual Report Section	0 (0%)	0 (0%)	4 (100%)
